El Mustang ordered to print retraction

At a recent Board of Publications meeting, the editors and chief of El Mustang must print a retraction in October 22 issue (Vol. XXVIII, No. 22) of that publication as follows: 

"The purpose of the newspaper is to disseminate important community information and to serve as a critic of all community institutions, including student government. But, under the present circumstances, the newspaper is not able to exercise true freedom of the press because of its role as publisher. This action points up an important problem for student editors but by force of the part of SAC, the committee will continue with proposals to correct the system which now exists."

SAC votes to spend $2,886

A contingency request for $2,886 was granted and permission given for the sum to be used as a concession wagon by the Student Affairs Council. The request was brought to the Board by a letter from George Gomez, ASI vice president.

Most of the board upheld the committee's ruling and it was ordered that El Mustang, Maurice Lund, Robert Boyd, the writer of the editorial, be put on trial.

Aero. prof. honored

Professor Lester Gustafson, ad­ministrator in the Aeronautical Engineering Department has been cited by the American Institute of Aeronautics and Astronautics as one of the outstanding AIAA faculty advisors of the year.

A committee made up of students, faculty members, and administrators has been selected by Dean Daniel Chandler to write the policy, procedures, and organization of a new committee.

The committee is attempting to eliminate the misunderstandings between student government and the publications.

The principle of freedom of the press is basic to the existence of the existing relationship between the board of publications and the SAC. The role of the newspaper is to disseminate important community information and to serve as a critic of all community institutions, including student government. But, under the present circumstances, the newspaper is not able to exercise true freedom of the press because of its role as publisher.
Individual group needs served by CU building

"With the projected enrollment limitation set at 2,800 students, we must face the fact that our University will be overcrowded before the first student arrives," the Vice-President of Student Affairs, Dr. George Carter, has stated. "We believe that our College Union facilities are overburdened and that every student should, and will, benefit from an increased supply of these facilities, even if other State Colleges in the state will benefit as well."

This statement, issued recently by Director Ross, Cal Poly Planning Committee, has set the pace for student opinion considering Cal Poly's soon to be erected College Union Building.

Granting quota figures for the building as well as the multitude of activities to be undertaken in the College Union, Ross stated that he would sign up for use on the student body as a whole, with the individual well in mind. We are in a different world today than we were at the beginning of this college, and we must accept the fact that the student body is an entity unto itself. The grant of quota figures is the only way we can ensure that the student body as a whole, and not just the individual, will benefit from the College Union building.

"Bitch-in" air

Student complaints

"A Bitch-in-the-Middle," a vocal referendum on the problems of student life, has been scheduled early this month at the University of California.

Held after the teachers on May 22, the bitch-in will be held at a time and place convenient for the students interested in the subject, and the program will be decided by the students themselves. All comments and criticisms will be voiced at this meeting, and the students will be given the opportunity to express their views.

As each student enters the auditorium at the opening of the meeting, he will be given a numbered card which he will be required to use at the time of his exit, as a form of registration. The cards will be returned at the conclusion of the meeting.

The College Union plans to hold a series of meetings between the College Union building and the Vice-President of Student Affairs, Dr. George Carter, as a means of communication between the students and the administration.

"The College Union is a place where students can have their needs met," said a student at the meeting. "We want to be able to express our thoughts and feelings, and the College Union is providing us with an opportunity to do so."
X-clinic' program tabbed time-saver

Residents seeking medical aid at the Health Center will discover a new, improved X-Clinic Department. It is the X-Clinic, an innovation in the Out Patient Department. Its three cubicles and one bed for examination. When you wish to assist the physician a large number of patients may be processed with a minimum of delay.

Mounts noted that fewer students have left to attend classes before being seen at the clinic. He explained that this newest addition is not in any way encouraged or anticipated, nor was it meant to be. Regular appointments are available to serve that need.

Formerly each physician set aside half of every weekday for unscheduled appointments. With the new method each physician will serve in the X-Clinic for one day with the rest of the week free for his regular appointments. The X-Clinic doubles the time each physician is available for the more demanding problems encountered in the regular appointments.

"The student must realize that this clinic is designed to conserve his time," Mounts said. "A student who is the first to keep the regular schedule in class. The clinic is organized to answer curmudgeon questions that may arise, or to initiate a work-up for a more detailed problem that would be concluded in an appointment with the regular physician."

The X-Clinic has been in operation only a few weeks as its routine of doctor-patient cases has been inadequately evaluated," Mounts said. "We aren't in any way demanding whether the students and the other members of the medical staff is satisfied by the innovation."

---

Lifeline for International Students

The Health Center at the college will open its doors to other colleges and universities. The "family-type" clinic is to be held in the Out Patient Department.

The clinic is organized to answer curmudgeon questions that may arise, or to initiate a work-up for a more detailed problem that would be concluded in an appointment with the regular physician.

RCA cowboys ride for rodeo team

Cal Poly's rodeo team is continuing to move forward by recruiting two well-known and outstanding intercollegiate rodeo riders, Bob Berger and Ned Londo.

Berger, a 19-year-old saddle bronc and bull rider, transferred to Poly from Lamar Junior College in Colorado. A sophomore in Animal Husbandry, he is home in Halberton, Kansas. He followed his two older brothers' footsteps by starting his major career seven years ago. He has been in Rodeo Club of America (RCA) for about a year.

While at Lamar J.C., Berger was a member of the rodeo team, and placed first in the rodeo event in the National Intercollegiate Rodeo Association (NIRA) finals at Lawrence, Wyom. He has been interested in bull riding since he was 11 years old, and placed at the California State Fair in both bronc riding and bull riding.

Londo, a 22-year-old saddle bronc rodeo rider from Las Vegas, Nev. He is majoring in Animal Husbandry, has been an RCA member for two years and has been active in the sport, for seven years. His father is a forest R.C.A. organizer.

While at Casper Junior College, Londo was a member of the rodeo team that won the National Intercollegiate Rodeo Association (NIRA) finals at Laramie, Wyoming, 1965. He placed second in both the saddle bronc and bull riding events. The team also won the National High Points in 1965 and Londo was named the R.C.A. Cowboy of the Year.

Londo has been an RCA member for the past two years and has been active in the sport, for seven years. His father is a forest R.C.A. organizer.

Police stand watch at Cran dall dances

The eating of seven drunken students from the dances at Cran dall gym last week has led to a directive from Dean of Students Evelyn Chandler requiring the presence of two police officers at all future dances at that gym.

A student discipline committee consisting of 20 members from the club sponsoring a dance are required at all dances on the campus. However, 1965 has not been sufficient for dances at Cran dall Gym.

Dr. Dan Lavine, associate dean of students, who found it necessary to eject the seven students, said, "The students on the discipline committee have had a difficult time to deal with this.

"As a result we reviewed various rules for sponsoring dances and decided to do more formal about who we sold tickets to at the door. Formerly any student could drop by the ticket booth closed and go in free.

Admission tickets will be on sale any time during the evening. Before large numbers of students will be admitted. Each student will be responsible for the conduct of his group.

The new directive will require supervisors from the faculty who will be on their feet observing the students and the discipline committee. They will stand watch in a formal for smoking, drinking and disorderly conduct. The supervisors will be notified of non-students will be required to report to the Dean of students, and adults over 21 will be taken to jail.

"We are concerned with the safety of the majority of students who go to these dances to have fun and meet people, not to be hurt or embarrassed," said Lavine. "Drunkenness and the results of drunkenness lead to fights that can endanger the safety of people at the dance. Such behavior may damage the facility, cause fire or hurt people."

Victory lands 10 in hospital

The National Hockey League doesn't list such records, but the New York Rangers can probably claim this one with little argument. Twenty-five years ago the Rangers won the Stanley Cup playoffs, then ten of their players immediately went into hospitals for surgery. **Direcatives on printed matter issued by President McPehe**

Directives to implement regulations as reviewed by the Board of Trustees of the California State College at San Luis Obispo and as recommended in the printed matter on campus have been issued by President McPehe.

Sale and advertising of merchandise or official student organization publications except by written permission of the college president or his designee, is prohibited. The president's designee may designate the Student Activity form and procedure for requesting it. The college president may delegate to his designee to handle applications for approval of Student Activity forms.

The solicitation in the College Union Plaza must not interfere with classes in session or obstruct flow of pedestrian traffic. It must be carried on without speaking, voice amplification or other noise louder than normal conversation, and without deliberate persuasion, harangue or disturbance of persons in the area, or any breach of the peace. The Plaza must be left in the same condition in which it was found.

The trustees' regulations also forbid distribution of commercial, political or religious literature or pamphlets relating to religious, political or social controversies or which rivals any law regulating such activities.

The president's directive to implement regulations concerning distribution of printed matter also mandates that such materials are not available at the College Bookstore.

The president's designee permits the sale of printed material in the College Bookstore through Tuesday noon as approved by the College Bookstore Manager of the Associated Students.

The president's directive to implement regulations concerning meetings, seminars, etc., of the student government also mandates that such meetings, seminars, etc., are available at the College Bookstore.

**Former Poly man on White House roll**

Former Cal Poly student and field作物 major Tom Veblen has been selected as one of fifteen students with classes in session or on the campus who may be conducting a college meeting for the year of 1967-68.

Veblen has been selected from 5,100 men between the ages of 20 and 35 for the year of training at the White House. The fellowships, sponsored by the Carnegie Foundation, provide from $1,750 to $2,100.

Four of the men selected are serving on the White House staff, one is the office of Vice President Hubert H. Humphrey, and the other three are serving in other cabinet offices.

Veblen asked to be assigned to the Secretary of Agriculture and said he "enjoy every reason to believe my next request will be honored."
The young bucks of America go clean-white-sock in the new crew Adler calls Adlastic

Meet the revolutionary crew of 65% lambswool plus 35% nylon with spandex for 100% stretch. Up and down. This way and that. That's Adlastic with the give to take on all slates 10 to 15 and last far longer and fit far better. Size up Adlastic in 28 clean-white-sock colors. Clean-white-sock! The new notion; with it even without the wherewithall. Whatever, get Adlastic at stores where clean-white-sock is all yours for just one young buck and a quarter.
