Robert Boyd, managing editor of El Mustang, will attend a meeting of the Student Affairs Council of the California State College Academic Senate in October. The meeting concerns student demonstrations and student involvement in policy decisions.

The meeting will be held at San Francisco State College's Administration Building on Oct. 10.

The Student Affairs Committee is comprised of seven faculty members from the different campuses of the college system. The committee, under the chairmanship of the Academic Senate, is responsible for formulating policies and recommendations for the academic community.

The committee does not take a position on any group, but is attentive to the needs of students. It is an open forum for communication between students and the administration.

Diversity marks Indian village life, "Diversity within India is so great as to bring into some doubt the real basis for national unity," Dr. C. S. Naik, of Cal Poly, political science professor, said.

Dr. Alexander, who traveled in India recently, said the caste system still exists in India, and that the Indian government is trying to end it. However, he said, the caste system is still a major problem in India.

In his opinion on national unity, Dr. Alexander said: "The caste system is the real basis for national unity." He also said that the Indian government is making progress in ending the caste system.

While in India, Dr. Alexander was also impressed with the "real basis for national unity." He said that the Indian government is making progress in ending the caste system.

The meeting will be held at San Francisco State College's Administration Building on Oct. 10.

Jim Glines

Jim Glines top man in Portland

Missing from Friday's report of Polya's Judging team which comprised in Portland. Oregon, last week was Jim Glines.

Glines was high point man in the horse division and placed in the National Intercollegiate Livestock Judging contest.

Other attending in addition to Glines were Chad Ollier, Tom Irwin, Kurt Way, and John Shurt.

As a correction of earlier report, relating to the judging team, the granting of $125 to the Student Affairs Council is to cover some of the team's expenses. No money was given to a non-coded group.

According to a correction earlier, Robert Gagnon, in the past group like the Livestock Judging should have been given money. However, since it became the group that was being judged, Poly-blend, some College Union members, "Poly-blend" the student body election on Nov. 8.

Boyd invited to confab on student policy role

A $317.7 million 1966-67 operating budget for the 58 California State Colleges and a site for a new campus in southeastern Los Angeles County were authorized last week by the Board of Trustees of the college system meeting in San Luis Obispo, the state capital.

The budget, at $10 million over the current fiscal year, reflects an estimated enrollment increase of 11,772 full-time students. Enrollment is expected to reach a total of 69,416 full-time students next year.

The state department of finance for presentation to the governor and legislative bodies. At a late date the trustees are also expected to request a salary increase for State College president in addition to the current budget request.

The campus site selected to serve southwestern Los Angeles County is located in the Dominguez Hills. A site search committee, founded on the north by Victoria Street, on the east by 108th Street, on the west by Avalon Boulevard, and on the south by 196th Street, will be transitioned to eventually accommodate 20,000 full-time students.

The Dominguez Hills site will replace a site at the Palos Verdes Peninsula formerly selected for the campus, which the State Colleges system was unable to purchase because of insufficient funds available for its acquisition.

The board’s action followed a recommendation in favor of the Dominguez site by Chancellor Glenn S. Dumke. He based his recommendation on four factors: (a) its proximity to the state university system in the area, targeted in the state transportation plan; (b) potential of rapid acquisition; and (c) development of international cooperation as an agent of international trade; and (d) development of international cooperation through the university’s contribution to the international community.

The national committee encourages faculty and students to discuss the subject of international cooperation as an agent of peace in meetings of committees. The committee hopes that a faculty and student committee will be established to work on the development of international cooperation for a book it intends to publish. The deadlock for the construction of new buildings is Nov. 1, 1965.

A letter to Cal Poly President Joseph A. Ameen, chairman of the Committee on Research for the Development of International Institutions and Organizations, was presented to the Department of International Institutions and Organizations at the National Citizens Committee on International Cooperation.

A National Citizen’s Committee on International Cooperation will present a report at a White House conference on peace and development in the world. The committee hopes that a faculty and student committee will be established to work on the development of international cooperation for a book it intends to publish. The deadlock for the construction of new buildings is Nov. 1, 1965.

CONSERVATIVELY speaking
by Bob Koczor
Criminology in America is on a spiraling increase. As reported in the FBI's "Uniform Crime Reports," felonies surged upward during 1983 at a rate of five times that of our population.

Categorized statistically, for example, this report indicates that 75% of all serious crime offenders are under 26 years old.

And the list continues in detail to the distress of parenthood and the delight of sociologists.

Randomly chosen statistics: it's their bread and butter! They theorize in their quiet hours, more than half (53%) of the persons arrested for felonies were 17 years or younger.

And the last continues in detail to the distress of parenthood and the delight of sociologists.

Randomly chosen statistics: it's their bread and butter! They theorize in their quiet hours, more than half (53%) of the persons arrested for felonies were 17 years or younger.

Another example: this report shows that the U.S. population is comprised of 45% Negroes, more than half (50%) of the persons arrested for felonies were Negroes.

So why use ordinary paper? Only Eaton makes Corrasable.

DON'T fight it.

Get Eaton's Corrasable Bond Typewriter Paper.

Mistakes don't show. A mis-key completely disappears from the special surface. An ordinary pencil eraser lets you erase without a trace. So why use ordinary paper?

Eaton's Corrasable Bond is available in light, medium, heavy weights and Onion Skin. In 100-sheet packets and 500-sheet reel boxes. At Stationery Departments.

Riders display horses' many skills

A Cutting and Reining demonstration will be held Saturday, Oct. 23, in the Cal Poly arena behind the baseball field.

The demonstration, sponsored by the Cutting and Reining Club, will begin at 8 a.m. It will consist of three classes: cutting horse, stock horse and pleasure horse.

It is the students recognition as an adult and his invitation to responsibility. If handled gently, a student court judge would narrow the gap between the officers in the Administration Building and the classes in the school unit. The voice of student affairs would no longer be paid for speaking.

Paul Holtzach
Leaders seek solutions

KANSAS CITY, (CPS). — Political and educational leaders from every state have voted to create an interstate Compact for Education, a partnership of states to solve nationwide problems.

A draft of the compact was agreed upon but will not become effective until the member states have acted on it individually. The compact will establish an "educational commission of states," made up of seven representatives of each of the 50 states and four U.S. territories. The commission will be charged with making studies, collecting data, and making recommendations to its member states and to the federal government. It will have no regulatory power.

The idea of the compact came from James R. Conant who has spent the past decade in foundation-sponsored studies of various aspects of American education. One such study convinced him of the weaknesses of many states in education policy-making. He saw the independent local schoolboards increasingly dominated by the education establishment, notably teachers, groups and teacher training colleges.

Conant called for a nationwide, rather than a national, education policy. He described it not as an "educational compact" but an agreement among the states. This idea of concerted action by the states met widespread approval.

Terry Sanford, former governor of North Carolina, started the groundwork for the compact with work he has done under foundation grants.

The committee has selected a "draft" of the compact. A committee of seven state college systems will revise it. The compact will establish an education commission of states, including all governors and persons involved in education to chart the future course of the compact organizations.

The IBM interviewer will be on campus November 4-5

Interview him. How else are you going to find out about new ways to use your talents and skills in an exciting "go-places" career?

You could visit a nearby IBM branch office. You could write to the Manager of College Relations, IBM Corporate Headquarters, Armonk, New York 10504. But we would like to see you on campus. Why not check at your placement office today? See if you can still make an appointment for an on-campus visit with IBM. Then interview the IBM interviewer. Whatever your area of study, ask him how you might use your particular talents at IBM. Ask about your growth potential in America's fastest-growing major industry. You'll never regret it. IBM is an Equal Opportunity Employer.

Card mania grips state college system

by Dennis Roberts

Novel cards, dorm cards, student ID cards, locker cards, library cards, where will it all end?

This reporter almost found out when he lost one of those sacred cards.

"Hello. Is this the lost and found department?"

"Yes it is."

"Well, I seem to have misplaced my meal ticket somewhere."

"Ah, go-places career?"

"Card mania grips state college system."

Card mania grips state college system.
SRI studies Poly's view

Cal Poly's "lean by doing" approach to education, especially prominent in the Agriculture Division, is being studied by Standford Research Institute (SRI). This project is designed to study the gross demands for agricultural manpower through the 1964-1969 period and the implications it would have for a Cal Poly program in agriculture education.

Both the San Luis Obispo and Kellogg campuses are involved. College President Julian McPhee has appointed an advisory committee, consisting of agricultural personnel throughout the state, to review with him and advise him on work that SRI is doing.

The men on the Cal Poly committee include McPhee; Warren Smith, Dean of Agriculture; Carl Englund, Dean of Agriculture; and Howard West, assistant to the president and coordinator of the president's advisory committee meetings. Richard Johnson, Animal Husbandry Department, is liaison representative between SRI and Cal Poly.

The Poly committee's first meeting was held Sept. 8-10. Campus meetings will be held periodically throughout the year. The SRI staff in Menlo Park will report the results of work done, plans for future activity, and receive advice of the Poly committee on whether or not the agricultural division is working in the right direction.

Questions of institutional approach and content are being considered within the context of the present aims and purposes of the college. Detailed course outlines are not being developed. The forecasts produced will offer guidelines for interdepartment planning by the administrator and faculty of the college.

Stanford Research Institute is a non-profit organization incorporated separately from Stanford University but governed by a Board of Directors elected by the university trustees and chaired by the president of the university. The final report on this project will be presented in January, 1966.

GIRLS, HAVE YOU EVER
SAID THIS TO YOUR ROOM-MATE?

"I want George to think I'm special, but when I was with him at that big party last night, I just faded into the background. He isn't going to impress him if I look just like any other girl!"

Kathy, being concerned with her problem, told her about Leonore Smith. "Last week I was at Leonore Smith's and there was a dress there that will make George turn to take his breath away. She has a room there that will make clothes fall from the hanger. The dress is bright red - a casual cotton shift, Courreges inspired. The vertical white stripes down the sides make it so perky . . . you can't beat the figure it produces . . . a white band frames the face - and there's a white cuff on each sleeve . . . the back, again in white. The best part is that the dress is versatile because it could be worn casually . . . can't you just imagine it with lace stockings and white 'Courreges' boots?"

You'll Feel Like a MILLION

Stripings for Students of the Button-Down

With pride, we announce the arrival of our University Row stripes for Fall. Knowledgable button-down wearers will want to stock up - know this year's choice, finest cotton, is a pleasure. "Manhattan" authenticity, of course, in matters like collar roll, studied body taper and rear box pleat.

Parks anywhere

A Honda needs a mere 3'x 6' space to be perfectly content. And that puts Honda on a different plane from its destination. And insurance bills shrink to practically nothing. As for upkeep, a Honda needs little. The shining example above is the remarkable Honda 80. It sells for around $285. And there are 14 more models to choose from. See the Honda representative on your campus or write American Honda Motor Co., Inc., Department C2, 100 West Alondra Boulevard, Gardena, California 90247.
Could you noodle out solutions like these...right after graduation?

(Then see our man on campus. He's got a career for you.)

Joe Lacey  B.S. in Electrical Engineering, Stanford.
First assignment: Find the best possible way to replace isolated mountain-top repeater stations in case they were damaged. Solution: Joe produced a design for an 18-foot truck trailer microwave repeater unit. One that could be moved quickly to an even the most rugged location. Good idea! We ordered 22 of the trailers at a cost of about $2 million.

Don Turley  B.S. in Physics-Electronics, San Diego State.
First assignment: Analyze the effect of atmospheric conditions on microwave transmission in the Imperial Valley. Don also had to design microwave radio relay routes, take field explorations, note transmission measurements and analyze the appropriateness of the selected sites. Result: Don's study will influence the design and construction of future microwave systems all over the country.

Howard Herbert  B.A. in Business Administration, University of Redlands.
First assignment: Develop a procedure for non-management training and supervision of all records and reports in the Thousand Oaks Traffic District. Job, well done? We made Howard coordinator for all locality arrangements involving moves and enlargements in that office.

Iver Trebon  B.A. in Liberal Arts, San Fernando Valley State.
First assignment: Study and analyze the district sales and collection activities and determine a program for improvement. The outcome: We liked Iver's ideas so well that we put him in charge of an exchange where he successfully carried out his own recommendations.

Budding architects meet at Yosemite

Fortifying Cal Poly architecture students spent four days at Yosemite at the 20th annual convention of the American Institute of Architects. Other schools represented were Berkeley, University of Southern California, and Stanford.

The convention, beginning Wed., Oct. 6, consisted of a series of speakers, discussion groups, photo shows, panel discussions, and special student programs.

The speakers were qualified people in specialized areas ranging from photography to law. The keynote address was given by Ansel Adams who spoke on his experiences with black and white photography in relation to various aspects of architecture. The address began a series of lectures called "professional sessions," there were five sessions. Topics covered in the lectures included "Music," "Presentation," and "The Legal Problems and Liability of the Architect." The special student programs enabled the students to pursue their proposed professions. They evaluated the lecture sessions and profession panel discussion attended during the day.

The AIA is a professional organization of architects which has a student chapter at Cal Poly. Cal Poly's AIA chapter has been sponsored by 43 students who attended the convention.

SAN FRANCISCO CHRONICLE
The San Francisco Chronicle was first published on Jan. 14, 1865 by brothers Charles and Michael de Young. It is still in the same family.

WRITE TO ENGLAND
If you would like a neat heraldic shield bearing the arms or crest of your family in color, filled with gold letters, nothing less than 7" x 6" wall plaques cost as little as $19.00 each shipped. Only a small deposit is required. Engraved, beautifully designed, fine printings from antique drawings, there are hundreds of personal gifts. Each plaque you desire is immediately embossed for you by hand for interior decor. Send check direct to England with your instructions.

Mermen drown ‘Dogs

Coach Richard Anderson's water polo team emerged victorious, 11-2, last Saturday in their match against the Fresno State Bulldogs. High point man for the Mustangs was Tom Buggles. He scored 6 goals, all in the second and third quarters.

“We started a little slow,” according to Anderson, “but we got them out for the rest of the game.”

He continued, “Everyone played a fine game, with Buggles doing an exceptionally good job.”

On Thursday, the Mustangs will meet Cerroitos Junior College here at 8 p.m. The contest will be held in the Grandall Gym Pool.

Now! New Chevelle

by Chevrolet

Two new Super Sport beauties for ‘66—a hardtop and convertible—propelled by nothing less than the new Turbo-Jet 396 V8.

This remarkably efficient powerplant, with aircraft-type valves, deep-breathing ports and other design advances, develops 325 hp in the standard version. And you're welcome to order more—in a 360-hp version—if you're so inclined.

Both Chevelle SS 396 models ride on a special flat-cornering chassis. A fully synchronized 4-speed transmission with floor-mounted stick shift is standard. Or you can order a 4-speed or Powerglide—a select-upon-order front seat, center console and full SS instrumentation.

Your Chevrolet dealer's the place to see how all this feels from behind the wheel. He's a great believer in letting the customers handle the merchandise.

See the new '66 Chevrolet, Chevelle, Chevy II, Corvair and Corvette at your dealer's
Harriers beat Fresno

"I was real happy with all of the boys, and especially Al Nere'li. Harriers beat Fresno. I came out of Iwalai with 44. I mentored Purcell. Santu Maria here at 1 p.m. Wes Rizor will face him. It should bring him. Our ineligible runner has been clocked at a 4 minute. run this weekend. He should be a very good race."  

The upper classmen will not be u very good race. "It was our third straight dual meet victory over Fresno State," stated cross country coach Rich- mans. We are hoping they will land. We are hoping they will.
