SAC asked to 'direct' clubs' off-campus acts

by Oliver Morgan
Robert Boyd

Over the summer the by-laws of every recognized campus group were reviewed by a committee formed at the direction of the Dean of the College of Humanities.

The review centered on the associate membership and off-campus activities of campus clubs. It reportedly came about because of the request for recognition last spring by the Civil Rights Action Group (CRAG). At that time, because of the Berkeley Free Speech Movement activity, many administrators and students felt some form of expression concern expressed about possible CRAG actions.

Miss Chris Blodger, member of the review committee, when asked by R. Most about the formation of the committee, she understood that when the CRAG request came to the Dean of Activities, administrators apparently began to consider the possibility of suspension which would prevent an FRM, though they probably did not feel such things could happen here.

The CRAG group received SAC approval in the spring at what observers said was one of the hottest discussions over a club's renunciation petition seen at SAC. Only because it had a GPA higher than 2.0 will have asked for more than twice as many grade points as the units attempted.

Conversely, the student who has a 2.0 or more who has more than twice the number of units attempted is in jeopardy. If any student, who has been awarded 2.0 for the quarter or more (preliminary status), fails more than 7 grade points below 2.0 he may be disqualified.

The office of the chancellor of the California State Colleges, adopted the new standard and will apply to grades awarded, exclusive or submitted at Cal Poly or to the total of all attempts.

SAC voted increase

The Student Affairs Council at the Nov. 3 meeting raised the meal allowance for team's traveling to $6 a day. This is an increase of 78 cents and will go into effect a day from now. Most of the increase was due to the higher cost of living or the increase was due to the higher cost of living or the increase in prices.

The increase in prices this year has been 78 cents. The increase was due to the higher cost of living or the increase in prices.

The increase in prices this year has been 78 cents. The increase in prices this year has been 78 cents. The increase in prices this year has been 78 cents.

FRANK MELL, a junior animal husbandry major from Manteo, attended the Governor's Conference on Youth (Northern California Section), recently in Sacramento. Mella represents the California Association of Future Farmers of America. The theme of the conference was "C" communication with Youth.-A search for Understanding, the conference was sponsored by the Governor's Advisory Committee on Children and Youth and the California Delinquency Prevention Commission. The conference program consisted of several important speakers including: Governor Edmund G. Brown, Dr. Harold Taylor, Dr. Max Baehr and Dr. Robert W. Haynes. Various discussions were held throughout the conference. The material covered in each discussion area was grouped according to education, personal values, human relations, community action, family jobs, and you and the law.

Conference plugs communication

Thursday night, the statewide Youth Meeting was held in the Memorial Auditorium. Entertainment at the conference included a hootenanny and buffet dinner and dance.

Approximately 2,500 people attended the conference. The youth reflected a diversification of social economic and educational backgrounds. They represented youth from all walks of life and represented all walks of life.

Standard Brands

To Interview Here

$700 million food firm needs graduates for plant management, engineering, food research and development

NEW YORK: Standard Brands Inc., a new out of the cautious brea-

ching food field, today announced that their college recruiting pro-

gram has been expanded. Fru-

tly, interviews are scheduled at the schools here shown.

With a whispering salute to (bills, Standard Brands now is in the pro-

cess of selecting engineers, Chemists and technologists to add to the

excellent personnel on their executive staff, who will make up the com-

pany's technical departments. Standard Brands is one of the largest

food producers in the country. Its wholesale division, Standard Brands

Inc., operate under the direction of B. A. Smith, President and Gen-

eral Manager. The home office is located at 162 Broadway, New York.

The new organization, which includes food research, development

and chemical engineering, will be located in Standard Brands Inc.'s

present offices, on the same premises as the present offices, in the

nearby, 300 West 45th Street, New York City.

If you think We won't give you a new rate FREE if your Westside Premium Railways is todav Iout of service because of road haz-

ard and workmanship and stocked at the first 30% of its tread life.

Drama tryouts Jan. 5

Student will be welcomed at auditions for parts in the Winter Quarter production of "Noah" by Andre Obay.

"Noah" is the Biblical story of the Ark told as a fantasy fairy tale. The characters range from Noah to the mokey and all will be challenging and exciting to play.

The tryouts will be held in MSD 212 at 7 p.m. on Wednesday, Jan. 6 and Thursday, Jan. 6. The director, Murray Smith of the English and Speech Department, states the previous experience is not necessary for participation. Four women and five men are needed for the cast plus night actors or actresses to play animals: the bear, the lion, and others.

Participation in the play as an actor, stage manager, or backstage crew member may be counted as class work for credit or as an extracurricular credit as an activity of College Union Drama Committee. Students may enroll in the theatre classes after the play is cast and the crew selected.

A night club atmosphere will highlight this year's annual Christmas Formal to be held Dec. 4 in the dining hall from 9 a.m. to 1 p.m.

The reference section at the El Corral Book Store contains over 1600 books. If the book you want is not on hand, we will gladly Special Order it for you.
Library fee change adopted by State

A forward step in library service will be taken at the start of the Winter Quarter with adoption of the State College-wide fee schedule for overdue, according to L. Harry Strauss, college librarian.

"An immediate example is liberalized reserve loans," Mr. Strauss stated. "We are pleased to announce that effective Jan. 3, 1965, reserve books, except for a few items, may be checked out one hour before the Library closes and will be due one hour after the Library opens the following day. Overnight reserve loans will be ill your request and we anticipate that circulation of other types of materials will soon be possible with adoption of the new fee system."

The new fee schedule effective Jan. 3, as prescribed by the Trustees of the California State Colleges, is as follows: 3-week loan, 3 cents per day; 2-day and other short-term due, 5 cents per day; 2-hour and overnight, 5 cents additional hour. Library is open.

The new system will virtually eliminate the El Administrative Appointment Fee, which will apply only in very unusual circumstances.

Length of loan for general circulation will follow current practices.

The due-date stamp which will be changed once each week-on a Tuesday-will provide, for a loan period of at least two weeks.

Jerald Holley, college registrar, recently announced that selected seniors who are presently enrolled in, or have completed, all full-year senior project courses will be allowed preferential registration for winter quarter.

A list of qualified students is posted on the bulletin board in the foyer of the Library Annex. This list should be checked before Dec. 15 if a student feels that he is eligible. If a student is currently enrolled or has completed his senior project and his name is not on the list, he should check with the college registrar's office. The early registration does not apply to graduate students.

Nothing to say?

Mailbag

Editor

The College Union Fine Arts Committee would like to congratulate the editor and staff of El Mustang for their most energetic non-support of the first invitational art show ever held on the Cal Poly campus. El Mustang was in every way that could be considered a responsible office, a daily effort in the direction of publishing any information connected with the event, went through the usual computer run of respectful display, noted below.

First and last, there appeared a filler entitled "Competition Art," on page seven. It was considered of immediate importance to the Cal Poly student body in that it related to nothing being done toward the cultural enrichment of the campus, as a rule. However, upon the quiet reading of the Nov. 9 issue, his article was no longer important. As "Competition Art" received more than adequate coverage of the CU exhibitions, and previous El Mustang staffs, together with the cultural enrichment of Cal Poly, combined with media preparation techniques in a generally successful way to serve the students properly in particular, to serve the need better, to serve the students properly in particular, to serve the students properly in particular.

The indefinite and insatiable student has often displayed his ignorance of the art show. Mr. Moore was not in ignorance of the art show as he had received more than adequate coverage of the CU exhibitions, and previous El Mustang staffs, together with the cultural enrichment of Cal Poly, combined with media preparation techniques in a generally successful way to serve the students properly in particular, to serve the students properly in particular.

Editor's note: Perhaps a better use of the operations of a newspaper will alleviate the CU staff, which sometimes exists between campus groups and the campus newspaper.

Hassle in Israel for study project

George Hasselle, head of the Architectural Engineering Department, will spend his Christmas break in Israel. Hasselle, who will leave on Dec. 23, will spend eight weeks in the country. Hasselle was selected by a committee of the Israel University, and will spend two weeks in Jerusalem and six weeks in Tel Aviv. Hasselle will spend most of his time in the construction industry, but will also have time to see some of the country's cultural attractions.

From our American Gem Society booklet "Diamonds"
If you insist on a larger gem for a certain amount of money, you'd better look at color or clarity, rather than on cutting. If the color and clarity are too bad but the cutting is maintained, it is still possible to have a lovely gem.

This is a question that in recent years has caused much lively debate and several hundred studies among American college professors. For example, let us consider the intell...
Game lost, 35-6

UCSB spoils homecoming

Cal Poly’s footballers ended their fall season on a dismal note, dropping a 35-6 decision to the UCSB Gauchos on Saturday before a capacity homecoming crowd of 5,000 fans.

By virtue of beating Cal Poly, UCSB has almost assured itself an invitation to play in the CCAA West as the Gauchos closed out the season with a 2-8 record.

On the other hand, Cal Poly ended their season on a 2-8 mark, but against San Francisco State and San Fernando Valley State.

The Gauchos, posting a final mark of 8-1, put together their best grid season since 1959 when they finished 8-0-1.

Cal Poly started the game in fine fashion, as they struck first in the scoring column. Tom Everett, whose father is assistant football coach for UCSB, kicked off a Gaucine serial and ran for 23 yards for the touchdown. The PAT try was no good and the Mustangs had a 7-0 advantage with 9:36 left in the first quarter. In the meanwhile, the Mustangs contained the Gaucine offense until midway through the second period. The Gauchos lost the ball on their own 49 after the Mustangs failed to move the ball and punted. They moved the ball 51 yards in nine plays with Gaucine quarterback Mike Hitchman throwing a 12 yard pass to wide receiver Paul Vallareso for the score. Steve Ford kicked the conversion to give the visitors the lead, 7-6.

The Gauchos, after recovering the Bently fumble, managed to convert a 35 yard field goal with 11:30 remaining in the second half, taking an 11 yard lead. The Gauchos then capitalized on the Mustangs' failure to hold them on the eight yard line, with Bently scoring the second touchdown.

The Mustangs moved the ball 73 yards in 12 plays with Mike Thomas running the ball for the score, to give the visitor's the lead, 7-6. Bill Bently found the pigskin on the one yard line, marched 56 yards in two plays with Gaucine quarterback Bob Heya tossing a 3 yard serial to end John Kerrey. Ford again converted the extra point to give UCSB a 14-6 advantage at halftime.

The Gauchos broke the game open in the second half, scoring a touchdown in the third quarter and twice in the fourth.

The Mustangs scored 76 yards in 12 plays with Mike Thomas running the ball and Bently kicking his third PAT to make the score, 14-6.

After stopping the Mustangs cold, the Gauchos scored twice in the fourth period. They moved the ball 76 yards in 12 plays with Mike Hitchman. Ford kicked his third PAT to make the score, 8-11. After stopping the Mustangs cold, the Gauchos scored twice in the fourth period.

They moved the ball 76 yards in 12 plays with Mike Thomas running the ball in place of Bently and Ford making the PAT, 8-14.

While the other teams had fast times, the Harriers finished with a" half as fast as this can make a big difference in a team's performance," stated Petrella.

The Mustangs made an improvement over last year's showing in total points, but finished 2nd, the same place they took last season.

Cal Poly scored 100 points in the meet, a 25-point improvement over their previous showing.

San Diego State walked away with the honors as they scored 24 points. Long Beach scored 72, Los Angeles third with 86, San Fernando fourth with 88, Cal Poly fifth, and Fresno sixth scoring 138.

"Our lack of experience and traveling close to 400 miles away from home make up the other" Mark Miller and Trujillo. "The other teams have had to travel quite a distance, but the other teams does not count half as far. This can make a big difference in a team's performance," stated Petrella.

Eric Espinosa of San Diego was the event with a second breaking time of 20.67 for the four mile course. The old record was 20.71 set by Bill Terrilli. Both Terrilli and Espinosa had fasting times.

Harry Kling and Thomas had the same time of 22.58 for the 880 meter event. The old record of 22.95 was set by Bill Terrilli. Both Terrilli and Espinosa had the same time of 22.58 for the 880 meter event.
Mustang wrestlers pin UC Berkeley, 27-8

by Austin Angel

The Cal-Poly wrestling team started off the 1981-82 season last Tuesday night by defeating the University of California Bears, 25-8 before 150 fans in the Mustang Gym.

The match featured three pins and a number of matched contests as Coach Van Cleave Hillman's wrestlers continued their domination of wrestling over all universities and colleges in the state.

Following the freshman-pro-

mustache the varsity men were introduced and the season began.

The first contest featured Mike Miller (CP) against Barry Mason (UC). Under a fall-down-by-Rule he twisted his knee and was forced to default the match, and the Bears took a surprising 2-1 lead.

In the 158-pound class John Gavi (CP) defeated Stuart Omling (UC), 6-1 after a fall-down-by-Rule he twisted his knee and was forced to default the match, and the Bears took a surprising 2-1 lead.

In the 158-pound class John Gavi (CP) defeated Stuart Bryan (UC), 6-1 after a fall-down-by-Rule he twisted his knee and was forced to default the match, and the Bears took a surprising 2-1 lead.

Who will ever forget the raids, coeds, fun and our alma mater?

by Allen Hackett

Many moons have crawled over the sky since I first met the sleeping giant, Cal Poly. It was nestled in a sleepy little hamlet bearing the difficult, if not unforgettable name of San Luis Obispo.

My first impressions of this school have stayed with me not only by this very day. They were simply that Cal Poly was a beautiful school—well, with a high degree of measurable overtones (to the tune of three to one). I soon became indoctrinated into the "learn-by-doing" method, not only by the college, but by Uncle Sam as well. I walk with a light step because I can recall the many wonderful things that have taken place on this campus. I can remember when party rules were a bad wood. I can remember when the Isomax Process men carried the dome to campus. I can remember the cafeterias and ballrooms when football was big.

I will recall the sturdy taste of eating food for years to come, and I can't look at a bowl of jelly without bringing back memories.

In a few days I will say goodbye to the sleeping giant and leave for the future. I will bid good-by to many friends I wouldn't have met at a bigger school, but above all I will carry one burning question with me. Can Cal Poly the right school for me and did it provide me with the type of education I can use to better myself in the outside world?

The answer to this question is written, but I haven't found the book. Until I do I will search, not only by the college, but by my social life. I will visit wherever men are being educated and backgrounded.

So for this student it's over and I bid good-by to the past times and the bad, the mountains and the beaches, the parties and the classes, the stamps and the formula and above all to Cal Poly...my alma Mater.

Printers present paper program

"Imaginative use of paper" was the topic of a program presented by Champion Paper Company, of Hamilton, Ohio, on November 18 in the Little Theater.

Presented in cooperation with the Printing Engineering and Management Department, the program included a slide film and two color films and slides in paper making and creativity in the use of paper.

Henry Goe, Jr., Champion San Francisco District Manager; Jim Maker of Los Angeles Customer Relations; and Jack Wright of Customer Technical Relations presented the 8 hour demonstration attended by about 100 members of the Printing Department. A similar program was presented by the three men to the Cretic Club, California Club Thursday night at the Motel Inn.

The program, coordinated for Cal Poly by U. S. and C. H. Goe of the Printing Department, is presented across the country to printers, salesmen, advertising agencies, artists and designers, and students, who will be "furniture buyers and specifiers" according to Goe.

Following the Thursday program, the group left to present their demonstration to the Art Directors' Club of Seattle and the Pennzoil Advertising Club.
