Lyle Setencich, former head coach of one of the strongest NCAA Division I-AA programs in the country, has been named head football coach of the Cal Poly Mustangs.

The 41-year-old Setencich takes over the reins from Jim Sanderson, who compiled a 26-27 record in his five years as head coach. Sanderson, who served as an assistant coach at Cal Poly for 15 years, has taken on the responsibilities as the chief athletics fund raiser for the university.

In his four years as head coach at Boise State, Setencich compiled a 24-20 mark. After serving as the defensive coordinator at Boise State for three years (1980-82), he took over the helm of the Bronco football program in 1983. He produced 6-5 records in 1983 and 1984, before posting a 7-4 mark in 1985. He resigned the Broncos' post last November after a 5-6 season, Boise State's first losing record in 40 years.

Setencich's defensive teams were always among the leaders in the Big Sky Conference. His 1986 team surrendered just 269.4 yards per game, which not only led the Big Sky but ranked sixth in the nation.

At Boise Setencich's record could have easily included 10 or more additional victories. His teams lost 12 games by fewer than 7 points.

Before he joined Boise State in 1980, Setencich had been a successful high school coach in California. A 1963 graduate of Washington High School in Fresno, he played junior college football at the College of Sequoias in Visalia. For two years he was a starting middle guard at Fresno State, where current Detroit Lions Coach Darryl Rogers led the Bulldogs.

Setencich becomes Cal Poly's 12th head football coach.

Dr. Kenneth T. Jackson, professor of history and urban planning at Columbia University (New York), and an award winning authority on the history of suburbanization, will speak at Cal Poly on Tuesday, Feb. 10, at 3 pm in UU 207.

Jackson's talk, "Metropolitan Sprawl in California: The Past and Future of Los Angeles," is sponsored by the History Department. It is free and open to the public.

A leading student of urban affairs, the holder of numerous prestigious fellowships, and a nationally known author, Jackson is a graduate of the University of Chicago, and has taught at Columbia University for 18 years. He is currently a visiting professor at UCLA.

The board of trustees of The California State University took the following actions at its Jan. 14 meeting:

* Approved a first-time joint responsibility resolution between the Statewide Academic Senate and the CSU trustees regarding standards and criteria for faculty evaluations. The resolution states that student evaluations shall be used as one important element, but not as the sole indicator of instructional quality. The trustees reaffirmed that standards and criteria should reflect both student and peer evaluations for a proper assessment of faculty.
* Ratified a three-year agreement with the State Employees Trade Council for a 5 percent average salary increase retroactive to Sept. 1, including increases from 4 to 6.5 percent. The agreement also includes a provision for vision care insurance. Also reached agreements with four other unions (California State Employees Association, Union of American Physicians and Dentists, the State University Police Association and the Academic Professionals of California) to provide vision care for their bargaining units.
* Approved Reibsamen, Nickels and Rex as project architects for the Cal Poly Foundation Administration Building.

The passing of Byron McMahon is being noted this week by long-time members of the Cal Poly faculty and staff as well as by veteran educators and agriculturalists throughout California.

He died in a Sacramento hospital on Jan. 19. The funeral was held on Jan. 22 in Sacramento and burial followed in Madera.

McMahon, 88, joined Cal Poly as a member of what was then known as the Meat Animal Department faculty and served in that capacity for two years during the late 1930s.

He then was appointed by Julian A. McPhee, who was serving in the dual role of president of Cal Poly and chief of the State Bureau of Agricultural Education, to be assistant chief of the bureau.

When McPhee decided to devote full time to his Cal Poly duties, McMahon became chief of the bureau, a position he held until his retirement in 1965.
Career Symposium planned for Feb. 9

Cal Poly's eighth annual Career Symposium will be held from 9 am to 3 pm on Monday, Feb. 9, in Chumash Auditorium.

The symposium will offer students of all majors an opportunity to explore career options, cooperative education and summer employment possibilities with representatives of more than 85 public and private organizations, businesses and agencies.

Seminars will be held on interviewing from the employer's perspective, smoothing the school-to-career transition, career paths for non-technical majors, and building marketable skills from freshman to senior year.

In addition, area high school and community college students and counselors have been invited to meet with the employers and learn about Cal Poly and higher education through a variety of seminars developed for their interests.

The symposium is sponsored by the Career Planning Center, the Placement Center, and the Relations with Schools, Student Academic Services, and Cooperative Education offices.

Other information about the Career Symposium is available from the Career Planning Center, ext. 2511, or Placement Center, ext. 2501.

Comedian-hypnotist to appear Feb. 1

Comedian and hypnotist Tom DeLuca will return to Cal Poly for another performance of hypnotism and parodies of extrasensory perception at 8 pm on Sunday, Feb. 1, in Chumash Auditorium.

DeLuca hails from Illinois, where he began his career as a hypnotist at a weight loss-quit smoking clinic while working on his master's degree in psychology.

He was honored as last year's Campus Entertainer of the Year by the nation's college entertainment programmers.

Tickets for the Feb. 1 show are on sale at the UU Ticket Office. Advance prices are $4.50 for Cal Poly students and $5.50 for the public. They will be $1 more at the door. The ASI Special Events Committee is sponsoring the show.

Orchesis Dance Concert planned

The 17th annual Orchesis Dance Concert, "Dance: An Artistic Celebration," will be held next month at the Cal Poly Theatre.

Performances will be at 8 pm on Wednesday, Thursday, Friday, and Saturday, Feb. 4-7, and at 1 pm on Saturday, Feb. 7.

The program will get off to an invigorating start with a warm-up featuring the entire company danc-}

UCSB professor to speak Feb. 5

An expert on Middle Eastern history will be in San Luis Obispo on Thursday, Feb. 5, to talk at Cal Poly in the community.

Dr. Nancy Gallagher, a member of the history faculty at the University of California at Santa Barbara, will examine "Sacred Rage: Militant Islam and the Middle East" at 11 am in UU 220.

Thursday evening she will be at Congregation Beth David, 2932 Augusta St., San Luis Obispo, to look at "The Crisis in Lebanon: A Historian's View." That talk will begin at 7:30 pm.

Both talks are part of the series, "Ideals and Realities: Islam and Contemporary America." The series is sponsored by the School of Liberal Arts and the Philosophy Department.

The program is underwritten by the California Council for the Humanities under a humanities and contemporary issues grant. Dr. Judy D. Saltzman, Cal Poly professor of philosophy, is the series coordinator.

A member of the UCSB faculty since 1978, Gallagher has been a Junior Fellow at St. Antony’s College, Oxford (England), and a cataloger of Arabic medical manuscripts at UCLA.

She is the holder of a number of honors including a Fulbright-Hays Dissertation Fellowship, a Josiah Macy Jr. Fellowship for the History of Medicine and Biological Sciences, and two American Research Center in Egypt grants.
Nominations open for Community Service Awards

Nominations for the second annual President’s Award for Community Service are open now through Feb. 2.

The award, established by President Baker in 1986, is presented to individual Cal Poly students and to campus organizations for outstanding volunteer work in San Luis Obispo County.

The deserving projects must be strictly volunteer, performed off-campus and without monetary reward. Activities can be class or university-related. However, the services performed must extend beyond class requirements and meet a valuable, un-met social need.

Two awards will be given for individual service and two for group service.

Each individual award can go to one or two students and can be given for service performed throughout the students’ stay at Cal Poly.

The group awards will go to a group of three or more students or to an established organization. Group service must have been accomplished between Feb. 14, 1986, and Jan. 19, 1987.

Nominations are welcome from both the campus and community. Any individual or group may make a nomination and students may nominate themselves. Forms can be picked up in UU 217, or by calling Student Community Services at ext. 2476.

Information requested on the form includes the number of hours served, methods and personal resources used, description of the activity(ies), and the benefits of the project.

A screening committee made up of campus and community representatives will review the nominations and make recommendations to Dr. Baker. Winners of the awards will be recognized at 11 am on Thursday, Feb. 19, in the UU Plaza.

In the past, Cal Poly has recognized students for service to their departments and to the university by awarding certificates to outstanding graduating seniors. The President’s Award, however, is the first universitywide award to recognize service to the community.

The awards program for Community Service is sponsored and coordinated by Student Community Services, a service of the university’s ASI.

L.A. structural engineer will speak on Feb. 2

A Los Angeles structural engineer with 26 years’ experience will talk at Cal Poly on Monday, Feb. 2, about proposed changes to earthquake-related provisions in the building code.

“The Proposed Seismic Code—Provisions and Background” will be the topic of the 1:30 pm lecture by Allan Porush of Dames & Moore, an engineering consulting firm. The free program will be in the Gallery of the Architecture and Environmental Design Building.

At Dames & Moore, Porush is leader of a group of structural engineering consultants who specialize in developing seismic design criteria for major new facilities and reviewing existing buildings to evaluate earthquake risk. He has participated in the seismic review of many high-rise buildings in commercial and industrial complexes.

He is also the 1986-87 chairman of the State Seismology Committee of the Structural Engineers Association of California.

The program is part of the 1986-87 Lecture Series of the Architectural Engineering Department.

University Club presentations set

Ralph Vorhies, professor emeritus, Crop Science, will make a presentation titled “Winter Fruit Tree Plantings for the Central Coast” to the University Club today (Jan 29) at noon in the Staff Dining Room.

Vorhies taught Crop Science at Cal Poly from 1946 to 1983. He is a recognized authority on fruit trees and bee keeping. He will address the problems faced by the home gardener in selecting, planting and maintaining productive trees and tasty fruit.

On Feb. 5 Rick Hurtley of the San Luis Obispo Medical Imaging Center will speak to the University Club on the subject of “Medical Imaging: A Health Care Option.”

Medical imaging is a non-X-ray technique for medical diagnostic purposes. It is an exciting new field of medical science. This will be a sound and light illustrated talk.

On Feb. 12 J. Barron Wiley, professor emeritus, Education, will present a wonder-filled sound and light show on Thailand. Wiley was associated with Audio-Visual Productions at Cal Poly from 1956 to 1978. He has served two terms as president of the County Historical Society and is noted for his superb visual presentations.

The University Club meets every Thursday of the academic quarter in the Staff Dining Room at noon. The presentations are free to all faculty and staff.

($) - Admission Charged
() - Admission Free

THURSDAY, JANUARY 29
Speaker: Lois Banner (USC) will discuss "Women's Studies and Men's Studies: A New Direction for all the Disciplines," as part of the Arts and Humanities Lecture Series. UU 220, 11 am. ()

Speaker: C.L. Tien (UC Berkeley) will discuss "Heat Transfer—Innovations in Technology." Sponsored by the School of Engineering. Science 8-5, 11 am. ()

FRIDAY, JANUARY 30
Gymnastics: UC Davis and CSU Long Beach, Main Gym, 7:30 pm. ($)

SATURDAY, JANUARY 31
Baseball: Alumni game. SLO Stadium, noon. ($)

MONDAY, FEBRUARY 2
Speaker: Allan Porush (Dames & Moore) will discuss "Proposed Seismic Code—Provisions and Background," as part of the Architectural Engineering Lecture Series. Arch. 105, 1:30 pm. ()

TUESDAY, FEBRUARY 3
Women's Tennis: Westmont, Tennis Courts, 2 pm. ()
Men's Basketball: CSU Bakersfield, Main Gym, 8 pm. ($)

WEDNESDAY, FEBRUARY 4
Books at High Noon: Paul T. Adalian Jr. (Library) will review "Piece of Cake," by Derek Robinson. Staff Dining Room, noon. ()
Dance Concert: Orchesis will perform in the Theatre, 8 pm. Continues Thursday, Friday, and Saturday, Feb. 5-7, at 8 pm, and Saturday, Feb. 7, at 1 pm. ($)

THURSDAY, FEBRUARY 5
Speaker: Nancy Gallagher (UCSB) will discuss "Sacred Rage: Militant Islam and the Middle East." UU 220, 11 am. ()
University Club: Rick Hurtley (Medical Imaging Center) will discuss "Medical Imaging, a Health Care Option." Staff Dining Room, noon. ()
Women's Basketball: Chapman College, Main Gym, 7:30 pm. ($)

FRIDAY, FEBRUARY 6
Women's Tennis: UC Riverside, Tennis Courts, 2 pm. ()
Men's Basketball: Chapman College Main Gym, 8 pm. ($)
