Maybe Sept. 1

The new editor has never worked on a college yearbook, but he has had a strong interest in improvement. First of all, he would like to have color prints of homecoming and other events. Second, he would like to increase the quality of the book. When asked if there would include advertisements of important activities, he replied, "Definitely, yes." He would like to have a special "all-College" issue, in which every student would participate to solve the sales problems. Bill would simply "make the yearbook more desirable.

El Rodeo editor for 1965-66, Cliff Gillette, will work with Sufkin during the Spring quarter to "break him in."

The new editor believes that the yearbook at Cal Poly should be "a symbol of good times and members of the college of life and an inspiration to other colleges in the creation of the positions of the vice president for each campus. After much delay Dr. Andrews, formerly dean of the college, was appointed as this campus' vice president only two weeks ago.

President McPhee, reviewing a decision of the policy of the Board of Publications at Glendale, declared that the Board would continue to have the right to approve or disapprove any publication. He also stated that the Board would be allowed to place a notice in the publication if it so desired. He pointed out that this decision was made last November and that he had recommended to Chancellor Diamond that the college continue to have this policy. "While it is true that some members of the college are opposed to this policy, I believe that it is necessary for the continued operation of our college."

The main objective of the Trustees is to "break them in." He also said that the college will continue to have a strong support of the state college chancellor, Glenn Dunlke, and also the state and federal administrators. He stated that the state will continue to have a strong support of the state college chancellor, Glenn Dunlke, and also the state and federal administrators.
State math conference held Saturday

The third annual conference of the California Mathematics Council was held at Cal Poly March 4 and 5. Themes of the event were "Creativity in Mathematics." This is the first time such a conference has been held on Cal Poly campus. The conference was attended by math instructors from elementary schools, high schools and colleges. It was open not only to public schools but to parochial schools as well.

Highlighting the conference were talks by such noted persons as Dr. George Polya, Stanford University, noted author of over 160 books upon the theme of the conference "Creativity in Mathematics.”

Le-Col Robert L. Beers, Chief of Plans, Air Force Academy, started the conference by presenting the latest films on the walk in space and telling the delegations something of the work being done at Vantiburg.

Again, the University of California at Berkeley, Dr. Kenneth May was a much sought after "Art and Mathematics." He told of the relationship between art and mathematics. Besides the three general sessions, there were also displays of math books and materials available to all the teaching of mathematics.

Wendell one El Mustang editor for typing, quarters. Qualifications are that he must have at least a 2.0 GPA. Anyone interested in this position is invited to submit a letter of application stating previous experience in this field to Tom Consoli, chairman of the Board of Publications, AM Box 31, no later than Wed. March 1 at noon. Selection of the new editor-in-chief will be made at the regular meeting of the Board of Publications on Thurs. March 10. The El Mustang editor has the choice of 6 units of credit or $100 of salary for the quarter. He is chosen on a quarterly basis, and need not be a journalism major.

The purpose of the live was to acquaint the students to explain its purposes.

The program, presented by Alpha Zeta, is the program to the new news. What it represents to them. The theme of wheat, and the newspaper among the aspects explained.

Final winter issue

Due to final exams and the shortness of the quarter, this is the last issue of El Mustang until Friday, March 11.
Dear Editor:

I thought another view of "Sing Out" was in order. The following editorial appeared in "West-side News" the newsletter of Methodist College students at Cal Poly.

"Sing Out" was a protest against the war and the Vietnam draft. Its purpose was to make those of us who are not conscience objectors feel that there is something we can do for our country. The song was a means of getting the message across.

"Sing Out" was not a protest against the draft or the war, but a protest against the draft system. It was a protest against the fact that everyone is drafted, whether they want to be or not. It was a protest against the fact that the war is being fought with conscripted soldiers.

"Sing Out" was a way of saying that the war is not right, and that we should not be part of it.

Sincerely,

[Signature]

Munster swimmers finish fourth

A pair of first-place finishes by Pol's Ann Marie and Pat
Dunn gave Dutch Pick University
swimmers another California
state win this time at the California
College Athletic Association
Swimming meet at San Diego Friday.

Pol's swimmers, Dyanne Daniels and Cindy Pシャー, were
first in the 200-yard breaststroke and top
place in the 400-yard freestyle relay with a 4:12.3
with Pic's Doris California, which took 42nd place.

Native plant study

A program initiated at University
of California at Berkeley has spread
to San Luis Obispo County.

The California Native Plants
Society (CNPS) established in An-
ne 1972 at Berkeley, officially formed
a chapter representing San Luis Obispo County. The meeting was
time held in Morro Bay.

The purpose of the CNPS is to
collect plant species where the chance
of their survival is slim and transplant them to an environ-
ment suited to their needs.

Watching: towards becoming aware of
land-use aide for this purpose, the
organization has been talking
with private land owners to obtain
their tuetting.

1131 CHORRO STREET
CU to present art exhibit by Don LaViere Turner

The College Union Fine Arts Committee will present a Don LaViere Turner art exhibit to be held in the Architectural Gallery March 21 through April.

The artist was born in Delano, Wisconsin. In 1949 he earned his B.S. and M.S. at the University of Wisconsin, and in 1960, received his M.F.A. from the University of California, Los Angeles. His exhibitions have covered various graphic shows including the World Graphic Exhibition at the Chicago Art Institute, the Smithsonian Institute, and the National Exhibition of Prints at the Library of Congress. The artist has been many awards including the California Arts Council Grant in 1962, and the "Outstanding Young Man of the Year" award in 1963. Permanent exhibitions of his works are to be found at the Library of Congress, the Los Angeles County Art Institute, and the Museum of Modern Art in New York.

The artist mostly works in black and white and shades of gray, and his works portray every phase of human life. Thomas W. Leavitt, the Director of the Santa Maria Museum of Art says Turner's work: "Though powerful distortion and transformation of natural forms, Turner explores the entire range of man's emotional life; fantasy, terror, humor, love, and grief all come alive through his unique Turner genius before us."

The times for the exhibit are Monday-Friday, 10 a.m. to 5 p.m. on March 15 through March 20, 1-5 p.m. on March 21 through March 31, 11 a.m. to 5 p.m. on April 1 through April 30, and 11 a.m. to 5 p.m. on May 1 through May 31.

Social Science

Three Social Science Club members attended the Social Science Departmental Meeting on March 3 to present a plan of student representation in instructors. The Department decided to acknowledge the interest of the majors by allowing one delegate from the club to attend the staff meetings for the rest of the current academic year. However, Department Head M. E. Smith reiterates the perspective of eliminating the Club delegate after any time during any meeting at his own discretion.

Remer looks to NCAA

Among the greatest, greater and greatest events that will provide in the second floor of the world's great there, Mustang wrestler, Mike Remer, a student from Coach Vaughan Hitchcock at 115 pounds, regrets to sparkle in his bid for the NCAA crown.

Mike's credentials include: three-time California Junior College champion at 115 pounds in 1963 and 1964, and CIFSG champion (San Leandro, California) and fourth in the NCAA Finals last year in killers, Columbia, Chico State and San Francisco. It's a must win event, he stresses.

Mike's father, a stalwart for Coach Hitchcock at Chachat and to his Castro Valley High School coach, Relmer would like nothing better than to conclude his highly successful wrestling career with a title in the national wrestling championships in Manhattan, Minnesota, March 11 and 12. It's his father, Steve Johnson, last year's champion as his major influence in his quest.

Mike says of the Mustangs: "We're using a lot of our wrestlers, we have to be a lot better in the tournament." There are several matches this year and with a few breaks, we'll win it." Portland Metro would give us the most trouble," Mike continues.

Looking back on the 1963-64 season, Mike realized that his wrestling and his training were not as good as in his freshman year.

Relmer sees from behind the curtain: 25,000 JOBS IN EUROPE

Luxembourg. Each student applicant receives a $350 travel grant and a paying Job in Europe such as office, factory, sales, resort, farm work, etc. Send $2 for handling and $10 to Dept. O, American Student Information Service, 2236 Congress St., Apt. J, Grand Duchy of Luxembourg, for a 30-page booklet on all jobs, details and travel grant application form.

Gymnasts converge, NCAA College meets

Gymnasts from 12 colleges will converge on Cal Poly Saturday, March 11, to compete in the 11th California State College and NCAA Pacific Coast Division Regional championships.

The Mustangs will host the event, which ten teams expected to participate include California University, California State College of Fullerton, Cal State Long Beach, Chico State, San Jose State, San Francisco State University, and the University of California at Santa Barbara.

Preliminary events are scheduled for March 10 and 11, with the final set for March 12. All the meets will be staged in the Mustang Gym.

"The two meets will go run simultaneously," said director Vic Barcellos. Cal Poly gymnastics coach said, "The teams will perform only once in each of the preliminary events, but their scores will be recorded in each of the two meets. It's just as much a matter of paper work," Barcellos added.

Trophies will be awarded in the two meets for men's and women's teams with individual awards going to the top six in the NCAA Regional and the top five in the College Division meet.

The top six individuals in each of the seven events in the state college meet will qualify for the NCAA University Division Regionals at CSC-LA March 25-26. The NCAA University Division Finals are scheduled April 1-2 at Penn State. This is the first time in history there has been a NCAA College Division Regional meet. It is hoped that next year the College Division will have a separate championship.

The Mustangs will attempt to get back on the winning side of the ledger this week when they visit Fullerton State Friday afternoon and invade Chapman for a twin bill Saturday.

Horsehiders win 2, lose 1; face Fullerton, Chapman

At a suspiciously close weekend, the Cal Poly Mustang basketball coach's Bill Hicks is trying to keep his ballyhooing up after three more intense games this week.

Staging a 20-hit attack, the Mustangs jumped on the Pacific Coast Crusaders, 14-2, just as fresh on the last day of the season as it did on the first. Coach Hitchcock says that his confidence hope to be in the top ten and "if we're fortunate, possibly the top five." He continued, "Our team is preparing hard, working on conditioning and the polishing of bad moves."

The Mustangs take on the Fullerton State Friday afternoon to vie for national honors in the NCAA college division championships.

The local grapplers have compiled an exciting season dual-meet record of 15-4, which includes five consecutive victories in conference competition.

The Cal Poly Mustang wrestlers, supreme in California and rated fourth nationally, Journey to Mankato, Minnesota, Wednesday morning to win for national honors in the NCAA college division championships.

The local grapplers have compiled a complete season dual-meet record of 15-4, which includes five consecutive victories in conference competition.

Pass or fail in Denmark

The Anthony Tour in Jutland, Denmark, is the technical college that has the best students in the country. Therefore, it is called the "University of Denmark." The college is located in the capital, Copenhagen, and is considered one of the best technical colleges in Europe. The college offers a wide range of courses, including engineering, mathematics, and natural sciences.

Don Andrews, a member of the American Institute of Chemical Engineers, commented that the college is unique in its approach to education. He said, "The students are taught to think critically and to solve problems on their own. This is a different approach from what we see in many other technical colleges." Andrews is an expert in the field of chemical engineering and has been teaching at the college for over 10 years.

The college has a strong reputation for producing graduates who are highly sought after by industries around the world. Many students go on to work for top companies such as Siemens, ExxonMobil, and Shell. Andrews believes that this is due to the college's focus on practical, hands-on learning. He said, "The students are given real-world problems to solve, and they are encouraged to find innovative solutions. This prepares them well for the workforce."
