Cal Poly Construction Sciences Forum to Focus on Integrated Project Delivery on April 7-8

SAN LUIS OBISPO – Cal Poly's 11th annual Construction Sciences Forum, “Integrated Project Delivery,” will offer an overview of a collaborative team approach to project delivery April 7-8.

Forum events are open to the public and will be held in the Berg Gallery, Room 105, in the College of Architecture and Environmental Design.

The forum begins at 5 p.m. April 7 with a keynote address, BuildingSmart–An Integrated Approach to Project Delivery, presented by architect Michael Fuller. He will discuss a fundamental change taking place in the building industry that will allow the owner, architect and contractor to share information, risk and rewards in a collaborative arrangement.

On April 8, the forum will feature a product show from 11 a.m. to 4 p.m. A deep-pit barbecue dinner will be held at 5:30 p.m., followed by a roundtable discussion at 6:30 p.m.

Tickets for the barbecue are $30 for professionals, $15 for faculty and $7 for students. Tickets may be purchased prior to the event in the Architecture Building stair court or at the door.

The forum is sponsored by the Construction Specifications Institute Club of the College of Architecture and Environmental Design.

For more information, contact Mary-Alice Avila at 756-7358 or mavila@calpoly.edu.
