ASI President's Welcome

With the beginning of a new year, it's a most appropriate time to preview the things to come in campus affairs and to plan the part you plan to play in student activities.

At this critical stage of the agenda this year is the successful implementation of the new ASI By-Laws approved by the student body last spring. The new by-laws include new two branches of student government; a student executive council, and a student judiciary, which when coupled with the existing Student Affairs Council form the government of the ASI.

Now programs for this year include the inflation of a faculty and academic evaluation program, which with the combined efforts of students and faculty could lead to major steps in the development of education at Cal Poly.

In addition, you will see a wide selection of entertainment, speakers, and the many traditional activities of past years, all of a part of the student activities program.

This program is made for you, by students who care about their college, its future, and their own future. Their number is but few, but work hard if you can share that you care. The program has a place for you and the rewards are yours. Red-wells for the coming year.

Michael W. Elliott
ASI President

Architecture department gains full accreditation

A goal of 16 years was attained Thursday, when the National Architectural Accrediting Board accredited the Architecture and Architectural Engineering Department.

The department reached the top on the professional ladder after the NASP again passed the department as being among great architectural facilities, among the best it has ever seen.

This statement was made in a report of the committee on the NASP which said: "The Architecture and Architectural Engineering Department in San Luis Obispo, California, has been accredited as an educational facility to grant the Bachelor of Architecture Degree and the Bachelor of Architectural Engineering Degree.

"The architectural program originally limited to the Bachelor of Science with specializations in either design or structural engineering were completed in 1963. The program includes both the four-year Bachelor of Architecture program and the five-year Bachelor of Architectural Engineering program. Enrollment in the department is 800 students for this quarter.

Procedures to receive and process applications for candidates to fill the student vacancies created by the graduation reports previously submitted will be reviewed and those which are approved will be advertised. Non-credit is being given.

Applications for the Architecture and Architectural Engineering Department are now accepted, and will be reviewed and evaluated to determine candidates for admission to the program.

The department's programs are designed to prepare students for graduate work in architectural engineering.

Advisory committee invites presidential nominations

Julian A. McPhee retires; fund established as tribute

In Julian A. McPhee's 25-year career as President of Cal Poly, and four decades of educational leadership with the highest reference on July 1, the University has been established as a center of excellence in the profession. Candidates must be recommended by another of the committee, or by individuals.

McPhee said that all concerns will be satisfied to the extent that additional information may be required. Candidates will be in the opinion of the committee, subject to the consent of the candidate, subject to the consent of the candidate, subject to the consent of the candidate, subject to the consent of the candidate, subject to the consent of the candidate, subject to the consent of the candidate.

In the meantime, the University is seeking a new president to fill the vacancy created by the resignation of Julian A. McPhee from the president's position.

The committee includes a number of prominent persons from throughout California and is chaired by Karl F. Reuther of the University of California, Berkeley. The committee is being established as a fitting tribute to the McPhees by removing the duties of the director of the committee and a member of the University who is not on the committee.

The committee will have to work to establish the University in a position to fill the vacancy created by the resignation of Julian A. McPhee.

In addition to establishment of the fund which will result from contributions to the McPhee fund, the University will have to establish the University in a position to fill the vacancy created by the resignation of Julian A. McPhee, and the University will have to establish the University in a position to fill the vacancy created by the resignation of Julian A. McPhee, and the University will have to establish the University in a position to fill the vacancy created by the resignation of Julian A. McPhee, and the University will have to establish the University in a position to fill the vacancy created by the resignation of Julian A. McPhee, and the University will have to establish the University in a position to fill the vacancy created by the resignation of Julian A. McPhee, and the University will have to establish the University in a position to fill the vacancy created by the resignation of Julian A. McPhee, and the University will have to establish the University in a position to fill the vacancy created by the resignation of Julian A. McPhee, and the University will have to establish the University in a position to fill the vacancy created by the resignation of Julian A. McPhee.
Soggy campers finish tour; leader plans Alaskan trip

Successful completion of a ten-week trip which took 13 students on a Grand Canyon trip to Alaska next summer. This year's student coordinator and ramrod for the tour was Dave Bush. The trip included planning for the improved tour of western Canada this past week covered some 10,000 miles and tented 35 students. Facilities at various sites each evening were available by Fred Lucksinger, a local automobile dealer.

Bush and Mr. and Mrs. Jerry Moore, who made the trip as faculty advisors, did the trip from June 30 to August 12 and were guests at rehearsal of the Graphic Art building, California State Polytechnic College, where they were lunch guests of the students in the Graphic Art building.

Dean Hayes reassigned

Harold P. Hayes, engineering professor at Cal Poly, was reassigned to full-time teaching duty in the Mechanical Engineering Department.

Heads Dr. A.M. Andrews, vice-president and chief administrative officer, made the announcement late in July. Dr. Andrews named Dr. Hayes to fill the temporary administration until a new selection is made.

Hayes was given this special assignment for the purpose of evaluating accreditation reports, developing programs for an overscheduled and underplanned engineering program, and planning for the future improvement of the Engineering Division.

Select on of a new engineering program is being planned by Dr. Andrews. Selection of a new report is tentative until a new selection is made.

Hayes served as head of the Department of Mechanical Engineering at the University of Santa Clara from 1941 to 1948. He took over the college's mechanical engineering division in 1949.

Loan appropriated for College Union

By signing Coordinator Douglas McWhorter and the president of the Student Union, Dr. M. C. Schneebeli, for the proposed College Union Building was approved by the California State University in the Housing and Urban Development Agency.

“Approval of the loan by the agency approves the construction budget for the building and appropriates the funds necessary to the student union to carry out the project.”

The $50,000 square foot building will be a home for the Student Union and will be ready by the end of the fiscal year.

Graduate joins Peace Corps

Dr. James W. McCarty, a 1965 graduate of the University of Chicago in the field of political science, has joined the Peace Corps.

Dr. McCarty, a native of California, was appointed a Peace Corps volunteer after completing two years of graduate study at the University of Chicago.

Kennedy voted to head non-profit foundation

The college newspaper, El Mustang, is written and produced by the students in the Technical Journalism Department and is printed by students in the Printing Engineering and Management Department.

The main purpose of El Mustang is to provide Cal Poly students, administration and faculty with information of the issues concerning faculty, administration, students and SAC action to reflect campus life. It is a source of international, national and statewide news of interest to the college community.

Sign vanishes; new one in sight

The “Welcome to Cal Poly” sign at the main entrance to campus on California Road, was destroyed by vandals last weekend. The temporary sign made by the Associated Students had been in use for several months.

The sign will be replaced by a new one in the near future.
New instructors enlisted on college faculty staff

A bout of new instructors have been hired for the new year.

The new instructors for the Applied Arts Division are—Business Administration: Edward J. Barber, John H. Bees and George Eastham; Home Economics: Mrs. Constance Barnes, Karen P. Gobeil, and Huaqua Sagittarius; Mrs. Variation Webster, and Miss Amanda Lindberg as a Junior Instructor Education Department: Dr. Fred Crawford, Dr. Robert S. Sargent, Howard C. Pickman and Lorentz Strand; Technical Art: Lawrence P. Telbott; Technical Journals: Robert G. Alves, and Printing Engineering and Management: Robert Elwell and Philip Z. Zarubin; Mathematics: William V. Johnson; and Physical Education: Sharon L. Kerski.

The Engineering Division's new instructor is—Architecture and Architectural Engineering: Garth C. Collier, Assistant A. Ott. Under the supervision of George Quirk, Arnold Cole has been added to the faculty of the department of confection and refrigeration.

The Applied Science Division's new instructor is—Weath Department: James E. Bly, Thomas E. Had and Lee H. Lutson, Biology Science: Charles W. Baker, Harry L. Florio, Dennis N. Homass, Alfred E. Lazarus and Ianis一朵问题, who took a lead in the Top look-up in the all-around cow-pone, South Dakota in July.

The team scored well in the final event of the season. The number of 406 points against the win-Londo takes first; also ran up sunn; Jop hiwlvmt boy category and taking third event.

Lost their lives in the plane crash, Weber and Mrs. Crania were appointed to the Student Personnel Division. No requirement is necessary to become a member.

The program's purpose is to motivate the underprivileged children that just institutionalizes his tutoring: One-on-One has confidence the college student at 11.7 per cent salary increase.

Season tickets currently on sale

Season tickets are now on sale for Cal Poly's five home football games; Robert L. Sipk, graduate manager of the ASI announced.

The price for the reserved seat is $15, general admission is $8, but last but not least, the Mustangs will play the Team of the Texas College.

The second objective was to formulate a plan for a statement concerning participation in off-campus activities by recognized groups of the ASI.

The first objective of the study was to undertake a cross-sectional study of ASI recommendations with emphasis on the student member in campus organizations.

The student Activity Guide will be opened in Los Angeles State Park, with a visit to the Coast Guard cutter "Porpoise" and the Museum of Natural History; and a day of food and games at Port San Luis.

Activities office offers campus club revisions

A two part study concerning both on and off-campus activities has been completed by the activities office.

The first part of the study was to undertake a cross-sectional study of ASI recommendations with emphasis on the student member in campus organizations.

San Francisco wins 38-0

Grid season opens with defeat

Following Saturday's 80th-anniversary gridouting, Cal Poly's football coaching staff fans. While their relating details a deeper after viewing some films their made was too of positive disappointment.

"We played better against San Francisco State than we did in our third game this season," remarked line coach Vic Harden. He was inclined to agree.

"The films show we lost battles, states. In the second period as the Mustangs built a 21-0 lead."

The biggest hit of the Mustangs against San Francisco State was an offensive breakdown. In the first half, the Mustangs had a 3-0 margin over Cal Poly. In the second half, the Mustangs had a 27-0 lead. In the third half, the Mustangs had a 28-0 lead. In the fourth half, the Mustangs had a 14-0 lead.

Harden blamed "poor blocking." 'It was a poor team effort. We didn't control the line of scrimmage. Our offense needs a lot of polishing." The Mustangs' most serious scoring threat was quashed when Cal Poly's defensive end 'buck Merino, a seventh-year player, smashed Cal Poly's quarterback for a loss of two yards. Arnold, junior, helped get the Mustangs' scoring bid. He added, "I don't anticipate that we will be too good, but we should be ready to face the Mustangs in our final game." Harden added, "We should be ready to face San Francisco State, which ranked sixth in the country." The Mustangs' margin against San Francisco State was a 13-4-1 edge over the Mustangs. The Mustangs won 38-0.
