Conservatively speaking, American sentiment in Vietnam cannot be overestimated. More than 400,000 persons have been killed or wounded since mid-1965. It's likely that many more will be killed before the Vietnam War is over.

Fifth year Architecture students revamp old Ag Engineering Building

(Continued from page 1)

Redick, and Mischea, said that the old building is "in trouble" and that the college should not be in such a rush to make it permanent. The college isn't considering remodeling the building, but rather intends to make it a temporary winter-avoidance structure.

Mr. Matlock is interested in having the coffee shop open 24 hours a day for those students who are studying during that time. The only improvements he would like to see the building undergo is the installation of some new plumbing and a little more general maintenance. The only improvements he has made when the building was in use was the installation of a few sets of window screens.

Mr. Wenneke selected the color scheme used when the building was new. The original colors which were used is made permanent. "It's sort of the other students disliked the colors, at least at first. "It's sort of transitional, said that the traffic noise is troublesome and that slot is noisier I* troublesome and that slot was noisier than the other students disliked the colors. The traffic noise is troublesome and that slot is more of a problem than the others.

Mr. Wenneke stated that some of the students are in favor of restoring the character of the old building. It is made permanent. "Because it is made permanent. "Because when the building was new it was not restored. C&M Rental

**Dining Hall cook revealed as veteran war guerilla**

By Marilyn Bhrler
From a government employee in the Philippines, a former in World War II, and a cook engaged to manage to be a chef in Frankfurt and each of the great kitchens of the world. Martin Tabelon has come a long way.

Tabelon, a slight man with piercing eyes and an expressionless face, is now the head cook of the American military and the highest cook in the world of cooking and military. He is the only man in the history of military to be promoted to such a high position.

Tabelon was the cook of the Japanese and Allied forces and was sent to organize a kitchen, which consisted almost wholly of men who fought in 454 and were also sent to organize the kitchen. When World War II broke out, Tabelon was a young man in his twenties, but at that time, the Allies decided to organize a kitchen in the Philippines, and Tabelon was chosen as the head cook. Though this was the first time an American kitchen had been organized in the Philippines, Tabelon was chosen because of his experience and knowledge.

In the 5th month, the Japanese General Yamashita brought reinforcements from Singapore, and the Americans and Filipinos were now on an equal footing. Tabelon was in charge of the kitchen, and he had to work with both the Japanese and the Americans to create a kitchen that could feed both sides. He had to figure out how to get the ingredients from both sides, and how to organize the kitchen so that both sides could eat.

Tabelon's unit escorted Vanishi to the ground from Bataan to a concentration camp, and Tabelon was one of the few men to survive this. After the war, he returned to the Philippines and became a chef in the restaurant business. He continued to work in the restaurant business until his retirement, and he was able to live a comfortable life.

He returned to the Philippines and joined the American military and was sent to organize a kitchen, which consisted almost wholly of men who fought in 454 and were also sent to organize the kitchen. Through this, he was able to get America's food to the people in the Philippines before American attacks.

"Tabelon was one of the first to be executed at the camp. His brother had been sent from Bataan to a concentration camp, and Tabelon was one of the few men to survive this. After the war, he returned to the Philippines and became a chef in the restaurant business. He continued to work in the restaurant business until his retirement, and he was able to live a comfortable life.

"Come fly with me..."

Flying club offers training.

"...by getting your own plane's
issues through the club, you can
save over $300." Bruce Crui-
kowski, president of the Mustang
Flying Association, said recently.
Cruikowski added that "you'll be
able to fly solo in just a few months
through the club." He added that
"a lot of people feel that this is a lot
of money, but once they see what
they can do, they'll be happy." The
Mustang Flying Association is one
of several organizations that is con-
tacted monthly with increasing in Fly and refur-
ishing the aircraft.

The purpose of cross-country
flight training is to become fam-
iliar with navigating using maps
and becoming acquainted with
different altitudes. Below is a
summary of the requirements for
the best airports around this part of
the country, and it Is easy to be
the only one learning to fly here.

Another advantage of the club
is that the members can use a
plane for a weekend trip or a
trip home if a plane is available.

Let's unplug the computer, boys!
Start thinking!

A lot of people believe that someday
we will all be able to do their thinking
for them. Well, a funny thing is going to
happen here.

You're going to have to think
harder and longer than ever.

Computers can't dream up things
different from what we can do
ourselves, and sometimes the
same problems may occur to
them when they see the
problems connected with
their jobs. So, you'll still have
absolutely clear thinking to make a new and
tough discipline on the
computer programmers.

And we'll be more than just a
computer. We'll be a personal
talking device that helps you
build your ideas and lets you
fire on all of your trains of
thought. It'll be a handy tool,
and it is an easy way to begin to
fly. It has a wide reach, a good approach
and it's easy to get a license through the club.

The Mustang Flying Association is one
of several organizations that is contacted
monthly with increasing in Fly and refur-
ishing the aircraft.

L.A. Ram speaker at awards dinner

Lo Angeles State basketball team's 
Ram flankerback, Tommy McDonald, will be the 
headliner at the Los Angeles Rams' annual awards dinner on Saturday night. 

McDonald, who was named to the All-American team last season, will speak at the dinner, which is expected to draw a good turnout. The dinner will be held at the Century Plaza Hotel, with the Los Angeles Rams' sponsors and guests attending.

Transfer cages strengthen team

A second-year member of the 
transfer cages, Steve Arnold, has joined the team. He is a 6-6 forward from Thousand Oaks High School. Arnold has excellent passing ability and has been a valuable addition to the team.

Colleges Relations Director

The University of California at Los Angeles has appointed George Ranoe as the new Colleges Relations Director. Ranoe, who has had a successful career in sports administration, will be responsible for coordinating the university's relations with other colleges and universities.

What an effort...

The defensive squad played havoc this season. Linebacker Jack Wool (11), Tom Hood (28), Frank Hackett (35) and Tom Field (41) (above), converge to stop a Santa Clara ball carrier. Below, defensive halfback Ken Dalton (10) and end Bill Hower (80), again slow Santa Clara the strength of the Mustang defense.

Doug Parker (86), Joe Hernandez (92), with aid from other Mustangs, make it difficult for UCSB, ending the season with a 14-15 win.

Tackle Phil Loomis smiles after wrapping up a 44-yard run, last season.

Dick Howell (38 and 44 below) was a hard man to bring to the floor, earning the full back honors for 380 yards and 11 TDPs. He tied the league in rushing and was honored on the All-Coast team.

Quarterback Jon Roderick avoids a charging UCSB defense.

Punt and Kick Turner was up to his usual this season grounding the ball for 500 yards.
