Evaluation comes under fire from faculty

Despite the past few weeks of controversy, the administration of Polytechnic College, carried on its program of educational evaluation. Surveys and questionnaires were distributed to students, faculty members, and administration in an effort to determine the need for an evaluation and to assess the adequacy of the evaluations.

Dean Chandler, dean of faculty, stated that the evaluations were designed to help improve the quality of instruction and student services. He explained that if the evaluations showed that certain areas needed improvement, changes would be made to enhance the educational experience.

The administration has received mixed reactions to the evaluations. Some faculty members have praised the evaluations, while others have expressed concern about their effectiveness.

One of the main concerns is that the evaluations are not conducted frequently enough. Faculty members have noted that the evaluations are often performed at the end of the school year, which may not be the most accurate time to assess educational effectiveness.

Another concern is that the evaluations are not transparent enough. Faculty members have argued that the evaluations are conducted without proper notification or participation, which may lead to biased results.

The administration has addressed these criticisms by implementing changes to the evaluation process. They have also invited faculty members to take part in a Tally Committee, which will review the evaluation results and make recommendations for improvement.

The purpose of a faculty evaluation is to establish trust and stability within the educational environment. By having a constructive evaluation, the college will be able to make necessary adjustments to improve the educational experience for students.
”Business is for the birds!”

Who says so?

Lots of people do. Some right on your campus. And for reasons, they point to a missing figure at the end of a line or a blank "social commitment." 

Social commitment? We wish they could visit our Campus, N. J. plant, where we make cable and apparatus for a major telephone company. But we have time for daydreams, other things to think about.

Like the situation in nearby Newark, with crime and business failures, we begin hating with ideas. "Let's teach higher skills to some of the unemployed and under-employed," says, "another show problem.

They would qualify for jobs that are going begging — and help defenses as well.

We lose our cool and say: you know, an essential reason.

Liberty hour

Senior and graduate Students in Engineering, Science and pre-engineering have reason to be concerned today about their future. The Vietnam War has brought the problems of poverty, starvation and war to our doorsteps. In the United States, we have many pockets of poverty, and among some of these groups are people starving to death. As a result, we have witnessed the reddest, poor- est people in this country never have a chance to get into the mainstream of American society. The war has increased this problem, for Americans are still not aware of the true state of affairs in Vietnam. The Viet Cong will fight for their country, their freedom, and their country. The United States has not answered the Vietnam War's questions, and the war has been going on for over ten years.

Leo, of course, had never seen a war. The crystal Indicate IMS? (On the way to the airport)

10. God won't die this quarter.
9. The Packers will wallop the 49ers for the title. Don't believe me? Just watch.
8. The Pope will continue praying for peace. The United States military will fight for freedom. The United States is not doing its part. The United States is not doing its part.
Mat win over Coloradoans delights Hitchcock

Mustang grapplers host top junior college teams

The Mustang basketball team tasted sour grapes of defeat in their first two California Collegiate Athletic Association games of the season when UCLA and the University of Oregon defeated Cal Poly, 88-82 and 92-80, respectively.

Tonight the Mustangs will in-

The 11th annual Cal Poly Junior College wrestling tournament begins tonight with the first match scheduled for 6 p.m. in the Men's Gym.

Over 48 junior college teams from California and surrounding areas entered the tournament to determine national junior college champions.

Coach Jack Labande withdrew his team from the tournament last week with the Mustangs over Colorado State University, 53-47.

Chuck Worsley and Joe Monahan.

The only points recorded by the Mustangs were two third-period pinning points and three points scored in the match. The only points recorded by the Mustangs were two third-period pinning points and three points scored in the match.
