Indian student shows many unusual talents

by Chris Chum

"If you are all average, what does it matter if you are a pilot, in science, or in religion, when all are doing the same?"

By JoAnn Gehman

As the Associated Students office rang in the new academic year, one of its students was introduced to the campus and was introduced to the campus and to the town... and the state.

Ride Jefferson Airplane to... psychodelic heights

by Richard Pearl

The Jefferson Airplane was born into the San Francisco music scene, where it was nurtured by the San Francisco sound, a blend of blues and folk with a hint of jazzy melodies.

Student help sought to speed registration

by Sharon Murphy

The Student Advisory Committee on Registration Policies and Procedures has been approached by students to improve the registration process.

"Best astronaut' will pilot Apollo

"This contest is always a possibility in space flight..." said the organizer of the first manned flight of the program. "The people who are interested in space flight..."

World in Brief

"It's the contest performer you want on your team..." said the organizer of the first manned flight of the program. "The people who are interested in space flight..."

Cleveland target of race rights action

"The contest is always a possibility in space flight..." said the organizer of the first manned flight of the program. "The people who are interested in space flight..."

Votes from heaven sway elections

"Everything was just great..." said the organizer of the first manned flight of the program. "The people who are interested in space flight..."
Editor surprised

It may be worth while misinformed at certain times. Indeed, how uninformed you are—uninformed will undoubtedly affect (or at least entertain) your decisions in the future.

Mr. McGee, my staff does not do it. At the beginning of the year, we were told by Mr. McGee that the book was not going to be available until after the end of the year. As to the main point in my complaint, it is that I am sickening indeed.

For thin year, my staff not to tell the editor what to do, neither do I have the right to express my opinion. I am not refusing to consent to any point, i.e., Mr. McGee in one point, i.e., the spelling "Polytechnic" was made.

The reason behind Mr. McGee's reaction is probably worth sharing the actual event at the Polytechnic, where the students were present. I am not sure if he found out about it, but it certainly was a matter of regret. As far as the principal's notes are concerned, I don't think he deserved more credit. If we are thinking in terms of humans, we are bound to make mistakes.

New coaches make debut in spring game

by George Huntsmore

Many a football coach has been teased in the spring pages by the press and the students. Coach McCormick was no exception. When he first announced the spring schedule, word spread that even the All-American center would not be playing. When the press and the student body heard it, whooping and hollering followed the announcement. By Tuesday, however, the noise had died down and Coach McCormick was ready to name his first team. As the schedule for the spring season was announced, it became clear that the spring game would be a contest between the first and second team. However, after the announcement, the spring football season was put on hold until the fall.

Spikers in league meet

Led by Carl Turner and Reed Hargrett, the Mustangs will compete in the spring CIAA championships at least today and the conference was held in the on-campus gymnasium in November.

Hargrett scored 16 points to pull over the top of the Pirates, who had 15 points. Hargrett also led the Mustangs in rebounds with 10. Turner added 14 points to the Mustangs' total.

Halloween tradition of "pinning" a girl is up-dated by drinking Sprite bottle caps.

According to an independent survey the top 10 college bars in the United States are located in California. One of the reasons for this is that students who attend college in California have a strong tradition of drinking "pinning" Sprite bottle caps.

Students at Cal Poly, Pomona, a top college in California, have taken this tradition to a new level. Instead of simply "pinning" a Sprite bottle cap, students now drink the cap as well. This has led to a new and exciting tradition where students can enjoy a drink while also participating in the old tradition of "pinning".
