UC speaker expounds agricultural success

By Jerome Lewt

The California Institute of Technology, on Monday, stated that it had received $1.5 million in new funds from the United States.

The new funds will be used to support the agricultural engineering program, which is one of the major programs at the institute.

The funds will be used to support the program in the following areas:

1. Research and development of new agricultural products.
2. Training of new agricultural engineers.
3. Expansion of the agricultural engineering curriculum.

The institute is particularly interested in the development of new agricultural products, such as new crop varieties and new livestock breeds.

The institute will also use the funds to train new agricultural engineers, who will be responsible for the development and implementation of the new agricultural products.

The expansion of the agricultural engineering curriculum will be another important area of focus. The institute will use the funds to add new courses and programs to its existing curriculum.

The institute is committed to developing new agricultural products and training new agricultural engineers to help meet the needs of the agricultural industry.

Ministers boost British business

LONDON—Chairman J. A. Wilkie of the British National Police Federation told the annual meeting this week that aggressive and attractive campaigns and lights were the keys to boosting British exports by nearly $135 million so far this year.

Clear the air with war declaration?

WASHINGTON—President Johnson said he was not considering a formal declaration of war.

"If a war is declared," he said, "we will be more likely to fly the flag of North Vietnam on the campuses of the University of California at San Diego." He urged his followers to use their voices to condemn the war.

"I am against war," he added, "but I am for peace." He went on to say that the United States had a moral responsibility to end the war in Vietnam.

"I am not going to war," he said, "but I am going to peace." He added, "I am against war, but I am for peace." He concluded, "I am against war, but I am for peace."

Dear U.S. Daily,

My name is John Drexler. I am a psychology major and I have a problem. I suspect that I am experiencing a psychological exercise in self-destruction. I have been thinking about it for a long time now. I am not sure what to do. I want to stop, but I am afraid of the consequences. What should I do?
