Thoroughbred colts

VOL. XXX, NO. 35
SAN LUIS OBISPO, CALIFORNIA
FRIDAY, FEBRUARY 5, 1965

SNAP ORGANIZER: Dave Markowitz of Students for New Action, presented one month extension on the reapportionment bill that has been pending in the state legislature for several months. He did not explain why the new bill is necessary. The bill went before the Student Judiciary in a closed session.

Scalawag organizer Bill Grodin explained that this same type of action occurred in previous years. He said that the students were opposed to the use of violence as a means of protest.

In the reapportionment bill, which is still pending, the lower courts would have to make a decision on the matter. The Supreme Court in the School of Architecture, which has responsibility ad possible with necessary guidance as necessary. And the students, "we hope the courts make a decision on the matter.

Thoroughbred colts bring good price

Two thoroughbred colts were sold at the sale held at the Los Angeles County Fairgrounds in Pomona.

Clipped Twice, valued by Elmer and Alistair A. Jones, owners, for $2,000 each, will be used for show purposes. Clipped Twice, valued by Elmer and Alistair A. Jones, owners, for $2,000 each, will be used for show purposes.

Clipped Twice is a filly that was born in January. She is currently being trained for show purposes. She is expected to be a successful show horse.

Men's Gym will "echo" to sounds of Brothers Four

Tonight the Men's Gym will echo to the sounds of Brothers Four, a popular rock group. The group will perform for the entertainment of the students.

The seminar academic year continues with the Men's Gym presenting the rock group Brothers Four. The group is known for their energetic performances and hit songs.

IBM requests students for summer training plan

International Business Machines has announced a summer training program for computer science majors.

The IBM summer training program is designed to provide computer science majors with practical experience in the field. Students will have the opportunity to work on real-world projects and gain valuable hands-on experience.

Scholarships open in Scandinavian

A special opportunity for high school students in the Scandinavian countries is now available. The Scandinavian Council has announced scholarships for Scandinavian students to study in the United States.

Scholarships are available for high school students in the Scandinavian countries. The scholarships are open to students who are citizens of the Scandinavian countries and who are currently enrolled in high school.

In the fast moving Computer Sciences, from Los Angeles to Houston to Washington, young people are making things happen at TRW.
Leader found for key administrative post

Dr. Donnell G. Whitted, distinguished from the College of California-Riverside, has been appointed as the Dean of the College of Education in Illinois. Illinois has been approved for theEnhanced Program, and will have teaching and administrative responsibilities.

Whitted joined the faculty at Illinois University in 1970 and has been visiting professor of political science at the University of Wisconsin. He holds a B.A. degree in political science from the University of California, and a M.A. degree in political science from the University of Illinois. He was a member of the Board of Trustees of the University of California, and a member of the Board of Trustees of the University of Illinois. He was a member of the Board of Trustees of the University of California, and a member of the Board of Trustees of the University of Illinois. He was a member of the Board of Trustees of the University of California, and a member of the Board of Trustees of the University of Illinois.

Whitted was selected as the dean because he is known for his commitment to excellence in education, his commitment to student achievement, and his commitment to the development of the faculty. The university has been committed to the development of the faculty, and this appointment will continue that commitment.

Advertising scored by Sherman speech

"Advertising, in its efforts to appeal to the public, should be tailored to the needs of the audience. The audience is diverse, and the advertising should be tailored to meet the needs of the audience. The audience is diverse, and the advertising should be tailored to meet the needs of the audience. The audience is diverse, and the advertising should be tailored to meet the needs of the audience."
Cagers take on Bulldogs at Fresno

Two trampolineists lead team against Spartans

Short on depth but strong on depth, the Mustangs gamutted the Fresno State Spartans with a bang. The big boys of the Mustangs' court, Ken Farley and Mike Harris, held the Spartans to a 96-84 win over Cal State Fullerton last Saturday as they improved their CCAA average to 23:2, a tenth of a point more than his season's average. "There's no easy explanation for it,"Freshman guard Lee Hardge said. "The Mustangs haven't seemed to upset this club more than any others this year. There are many things involved, but it's really hard to explain." Ware felt that the anchor leg on the relay, will run in the 60.

Mile relay sends San Diego Invitational

The mile relay team is entered in the San Diego Invitational to be held Saturday afternoon at the San Diego Sports Arena.

Mile run sends San Diego Invitational

This year DeWinter ran the 300 yard dash at San Francisco, he commented that he enjoys running on the hard boards in Holland. However, he adds, "I don't really like to run the 440 on the relay because it is too long, but it is our relay and for my team it is supposed to be run in the 60."

- Jim Lee and Marty Crowell will compete in the mile relay.

Southern California Edison

Electrifying Opportunities at Southern California Edison

- Electrical Engineers
- Mechanical Engineers
- Civil Engineers
- Chemical Engineers
- Thermoneutral Engineers

We're just completing our first major nuclear station, the 450,000 kw capacity San Onofre facility. It will be the largest in the U.S. when it completes the check-out phase and goes on line.

We have more nuclear stations in the planning stages, including a combination electric power and desalinization plant.

We're doing lots of work in BTV transmission, too. And we're looking even further ahead to direct conversion methods: thermoclecs, the Wes-theromagnets, and magneto hydromagnets.

Grow With Us

We must double our generating capacity in the next ten years to keep pace with the electrical demands of Southern California. By 1975, we'll also have doubled our total plant and equipment investment to more than five billion dollars. And we'll probably have to double again in the eight years after that. We need top engineering talent. Electrical engineers, mechanical engineers, chemical engineers, and their leukai laborers.

Master's Program

We offer good starting salaries and opportunities for rapid advancement. Our master's program will pick up the bills for you if you have to double again in the eight degree while employed at Edison.

If you're interested in advancing the state of the art in the generation, transmission and distribution of electrical energy, contact our recruitment office regarding Edison's visit on campus. Or write: F. J. Ofaco, 351, Los Angeles, Calif. 90053.
