Accessing Central Cyber Timesharing via Sytek

Two Sytek ports are currently available to support the Central Cyber Timesharing System (CCTS) via the Sytek network. Since access is used primarily by electronic mail users, the system should be readily available. Mail users generally remain on the system for short periods of time.

(If you are regularly using CCTS for something other than electronic mail and it requires a longer connect time, please call the Instructional Support Group (ISG), ext. 2516. They will try their best to meet your specific needs.)

If you are unable to log on because both ports are busy, wait about 30 minutes and try again. If you are consistently having trouble logging on during specific time periods (e.g., 8 am, noon and 4 pm), try shifting the usual time you try to access the system by one hour.

If you experience any technical problems or are unable to access the system at all, call the Microcomputers and Telecommunications Office, ext. 1295. If you have general questions about the electronic mail system, call ISG.

Applications available for Administrative Fellows Program

Faculty and staff members interested in a possible career in university administration or management may apply now for the California State University Administrative Fellows Program.

March 13 is the deadline to apply for 1985-86 academic year fellowships. Applications and confidential evaluation forms must be submitted to the President's Office.

The purpose of the Administrative Fellows Program is to provide an opportunity for upward mobility. It is especially intended to ensure that women and people from ethnic-minority backgrounds have equal opportunity for placement and advancement in administrative, managerial and executive positions in the CSU.

Assignments normally are made to another campus in the CSU system. However, assignments at the home campus are possible when relocation would impose a personal hardship on a fellow or when the fellowship experience would be enhanced by staying at the home campus. In such a case the new duties must be clearly separate from the fellow's regular position responsibilities.

Fellows receive their regular salary, vacation and retirement benefits.

For more information and an application, call or visit Smiley E. Wilkins, affirmative action coordinator, Adm. 110, ext. 2062.

Workshops to be held

Two workshops will be conducted by guest artists in conjunction with the annual Baroque Concert. Both will be held on Friday, Feb. 22, at 4 p.m in the Davidson Music Center.

In Room 216, Burnette Dillion will present a workshop on trumpet. One of Los Angeles' most respected trumpet players, he is active in numerous orchestras and in the recording industry. He specializes in high trumpet.

In Room 218, John Ellis, a frequent guest soloist in San Luis Obispo, will present a workshop on the oboe. He is one of the original members of the San Luis Obispo Mozart Festival and a nationally recognized oboist who currently teaches at the North Carolina School for the Arts.

Those wishing to attend the workshops should bring their instruments if they desire personal instruction. Attendance at both will be free. For more information call the Music Department at ext. 2406.
