Chancellor addresses master plan commission

Although providing excellent educations to students, The California State University must seek still more ways to develop its services to communities, said Chancellor W. Ann Reynolds. She was among the state’s educational leaders addressing the first meeting of the newly formed Commission for the Review of the Master Plan, established by state law in 1984.

The 16-member commission will examine California’s postsecondary education needs and determine how well these are being met by the 1960 California Master Plan for Higher Education.

Reynolds contended the 19-campus CSU, originated under the Master Plan, “has prospered beyond the greatest expectations held by our state and educational leaders 25 years ago.”

One million academic degrees have been conferred in this period. Enrollments have grown from 95,000 students to 316,000. Programs are offered in over 200 subjects areas.

“The CSU, its more than 18,000 faculty and its 17,000 staff and, of course, its students have much to offer the communities in which they are located,” Reynolds said.

“In economic terms, the contributions of CSU to California’s economy are estimated at more than $5 billion per year. Too little has been made of this resource; to change this situation is a major challenge to those of us in CSU.”

Trustee Claudia H. Hampton of Los Angeles is the CSU’s representative on the review commission, appointed by Board of Trustees’ Chair Wallace Albertson. Former Trustee Michael R. Peevey also is a commission member under appointment by Assembly Speaker Willie Brown.

Poly Royal class guidelines set

Provost Tomlinson Fort Jr. reminds all faculty members that classes during Poly Royal from noon, Thursday, April 25, through Saturday, April 27, will not be scheduled. Although classes will not be held, all students and staff are expected to participate in preparation of Poly Royal exhibits and events. These days are not academic holidays.

Rolls-Royce officials to visit April 17

Public relations mavens at Cal Poly like to say that the university offers a “Rolls-Royce” education. Now, thanks to Cal Poly alumnus Brian A. Bullard, they can prove their point.

Bullard is the national training instructor at Rolls-Royce, and he will be driving into San Luis Obispo on Wednesday, April 17, in a 1985 Rolls-Royce Silver Spur.

The 1976 Industrial Arts graduate with a concentration in Automotive Technology will talk with Cal Poly faculty and staff at noon in UU 220. He will discuss “Rolls-Royce: The Company and the Technology.” A film on the company will also be shown.

At 7 pm Bullard will explore “How I Got My ‘Rolls-Royce’ Job.” It will take place in Ag. Engineering 123, a facility that will allow Bullard to show his luxury motor car. The session is aimed at Cal Poly students, but the general public is welcome.

Joining Bullard will be another Rolls-Royce official, Calvin West, national technical support manager.

The programs are sponsored by the Industrial Technology Department.

Composer Philip Glass will appear on April 22

American composer Philip Glass, who has become well known on the international music scene during the past decade, will be at Cal Poly on Monday, April 22.

Titled “Philip Glass: The Prism of the Imagination,” his appearance will begin at 6 pm in Chumash Auditorium. It is planned as part of the university’s 1984-85 Arts and Humanities series.

Glass was recently named Musician of the Year for 1985 by Musical America magazine. He will be the 1985 composer-in-residence with the Philadelphia Orchestra at Saratoga Performing Arts Center in Saratoga Springs, N.Y.

The Arts and Humanities series is partially funded by a grant from the California Council for the Humanities, the state-based affiliate of the National Endowment for the Humanities, and is sponsored by the School of Communicative Arts and Humanities.

CSU studying retirement option

The California State University is currently reviewing the possibility of the system’s participation in a two-year early retirement system.

While the governor has issued an executive order authorizing implementation of such a program, the CSU must request participation based upon documentation of need.

The CSU has the matter under consideration.
Lost property not covered by insurance

The dramatic effect of lost or stolen property on Cal Poly's academic programs was the subject of recent remarks by Richard C. Brug, the university's director of public safety.

The losses are not covered by insurance, Brug said. The cost of replacement property must come directly from the university's overall budget. "As a result, the financial resources available for the university's educational programs are reduced," he added.

Brug suggests the following steps:
• Regular equipment inventories.
• Comprehensive equipment check-out procedures.
• Securing equipment when it is not in use.
• Installing alarm systems in areas containing valuable equipment.
• Securing typewriters and microcomputers with lock-down devices.
• Securing items when work areas are not supervised.
• Reporting suspicious circumstances to the Public Safety Department.
• Improving control of door and cabinet keys and reducing the availability of keys.
• Utilizing surveys of security that are available on request from the Public Safety Department.
• Keeping small equipment items such as calculators and tape recorders away from public access.

Supervisors and employees who wish to arrange for security surveys, obtain literature on property security, or gain additional information on how they can help reduce the incidence of stolen and lost property are urged to contact the Public Safety Department, ext. 2281.

Monte Carlo Night will benefit OARS program

An evening of games, prizes, and lots of fun is set for 8 pm, Saturday, April 13, at the Achievement House on the Cuesta College campus. Billed as Monte Carlo Night, the affair will benefit OARS, Cal Poly's recreational sports program for the physically disabled.

Tickets are $5, and are available at the Recreational Sports Office, UU 119A. They will also be on sale at the door on April 13.

Foundation Board meeting

The next regularly scheduled meeting of the Foundation Board of Directors will be Friday, April 19, at 9 am in Admin. 409. This is a public meeting. For further information about the meeting agenda, contact Al Amaral (executive director, Cal Poly Foundation) in Fisher Science 290 or call ext. 1131.

Precision equipment given to Graphic Communications

The latest in precision equipment will be used by Graphic Communications students in image assembly and platemaking courses thanks to a donation by a Mountain View, Calif., firm.

Stoesser Register Systems has presented equipment worth more than $2,000 to the Graphic Communications Department so students can learn on state-of-the-art pin registration devices. The register system features a combination of round and slotted holes and an adjustable punch throat and adjustable tail pin.

Annual Good Neighbor Day planned for April 13

If you happen to see groups of students around the San Luis Obispo area with shovels, hammers, and vacuum cleaners instead of beach towels and frisbees, you'll know it must be time for their second annual Good Neighbor Day.

Saturday, April 13, has been set aside by the university's ASI for student volunteers to help needy individuals or organizations.

Kickoff will be at noon on the lawn behind the Cal Poly Theatre on campus. At that time a County Board of Supervisors resolution recognizing the service of students to the community and proclaiming the day Good Neighbor Day will be presented. City and County of San Luis Obispo officials will attend the presentation.

Following that, student volunteers will receive their work assignments. Several hundred have already agreed to participate and others are expected to do so before April 13.

The students are primarily focusing on the elderly and handicapped and other individuals or groups who, for whatever reason, feel they need help. They can sign up for assistance through Friday, April 12, by calling the ASI Office, 546-1292, weekdays between 8 am and 4 pm.

Ideal projects are those that would take two or more people from one to three hours to complete. Examples include simple home repair and maintenance chores, clean-up, small yard projects, planting flowers, moving, and washing a car.

Students will provide the labor. Materials, supplies, and tools must be furnished by the parties receiving assistance.
Gardeners invited to prepare entries for flower show

Central Coast gardeners who are planning flowers for spring are invited to enter them in the 1985 Poly Royal Flower Show, to be held during the annual campus open house and festival on Friday and Saturday, April 26-27.

Judging will be in six categories — perennials, annuals, bulbs, blooms from flowering shrubs, roses, and container plants. A total of 54 classes will be judged. Ribbons will be awarded for the top three entries in each class. Best-of-show and reserve best-of-show awards also will be given. Judges will be members of Cal Poly's intercollegiate flower judging team.

Entries should be delivered to the Ornamental Horticulture Unit between 5 and 10 pm on Thursday, April 25, or before 9 am the next day. All flowers entered in specimen classes must have been grown by the exhibitor. Containers will be provided by the flower show committee.

The annual floral contest and show is presented by the Cal Poly chapter of Pi Alpha Xi, an honorary fraternity for ornamental horticulture students. For more information, telephone the Ornamental Horticulture Department at ext. 2279.

PG&E donations benefit engineering programs

A Pacific Gas & Electric Co. donation of $6,000 to the School of Engineering brings to $13,600 the total the company has given the school in the past year.

Of the most recent gift, $3,000 is designated for a graduate assistantship in mechanical engineering, $2,000 is a contribution to the university's Electric Power Institute, and $1,000 will aid the Minority Engineering Program.

The Electric Power Institute received an additional $3,200 from PG&E during the past year, while $4,000 went to the computer-aided design and manufacturing program and $400 to the university's Society of Women Engineers.

Dateline

($) - Admission Charged
(!) - Admission Free

THURSDAY, APRIL 11

Speakers: Discussion of Sanctuary Movement — a nation-wide effort to prevent the deportation of Central American refugees. The film, "An Act of Subversive Love," will also be shown. UU 220, 11 am. (!)

University Club: Phil Potts (Poultry Industry) will present a slide presentation and discuss "Poultry's Contribution to Feeding the Hungry World." Staff Dining Room, noon. (!)

Speaker: Raymond Bonner (foreign correspondent) will discuss U.S. involvement in Central America. Chumash, 8 pm. ($)

Craft Classes: Sign-up now for classes in basic auto repair, ceramics, stained glass, bike repair and more. Stop by the Craft Center UU 112 or call ext. 1266. ($)

Summer Trips: Now is the time to think about summer trips. The UU Travel Center is sponsoring trips to Europe, Rio de Janerio, Yucatan and Jamaica. Stop by the UU Travel Center or call ext. 1127. ($)

FRIDAY, APRIL 12

Softball: LaVerne, Softball Field, 1:30 pm. (!)
Men's Tennis: Cal State Northridge, 2 pm. (!)
Film: "2010," Chumash, 7 pm; 2nd showing follows. Continues on Saturday, April 13. ($)

Workshop: Froydis Ree Wekre will conduct a workshop for French horn players and players of other brass instruments. Room 216, Davidson Music Center, 3:30-5 pm. For details, call ext. 2406. (!)

SATURDAY, APRIL 13

Book Sale: The Library Associates will hold its annual book sale in front of the library, 10 am-3 pm. Continues Monday and Tuesday in the library courtyard. (!)

Men's Tennis: Cal Poly Pomona, 11 am. (!)
Softball: Sacramento State, Softball Field, 1:30 pm. (!)

MONDAY, APRIL 15

Softball: Cal State Dominguez Hills, Softball Field, 1 pm. (!)

TUESDAY, APRIL 16

Slide Show: See beautiful slides of Europe. Sponsored by UU Travel Center. UU 220, 7 pm. (!)

WEDNESDAY, APRIL 17

Books at High Noon: Nancy Lucas (English) will review "Ironweed," by William Kennedy. Staff Dining Room, noon. (!)

Speaker: Brian A. Bullard (Industrial Arts Alumnus) will discuss "Rolls-Royce: The Company and the Technology." A film will also be shown. UU 220, noon. (!)

Speaker: Brian A. Bullard (IA Alumnus) will speak on "How I Got My 'Rolls-Royce' Job." Ag. Engineering 123, 7 pm. (!)

Film: "The Terminator," Chumash, 7 pm; second showing follows. ($)

THURSDAY, APRIL 18

University Club: Cliff Swanson (Musicians) will discuss "Computers in Music." Staff Dining Hall, noon. (!)

Men's Tennis: Long Beach State, 2 pm. (!)

FRIDAY, APRIL 19

Film: "The Last Starfighter," Chumash, 7 pm; second showing follows.

Cal Poly Report is published weekly during the academic year by the Public Affairs Office.

Stan Bernstein (Editor) ........ ext. 1511
Betty Holland (Graphics Tech) ... ext. 1511
Jo Ann Lloyd (Dateline) ........ ext. 1511

Typewritten, double-spaced copy may be submitted for Cal Poly Report by close of business the Thursday prior to the next publication.
Position Vacancies

Vacant staff positions at Cal Poly State University and the Cal Poly Foundation are announced in this column and are posted outside the respective offices. Contact those offices (State: Adm. 110, 805-546-2236—Foundation: mobile unit near the Fire Department (805-546-1121) for applications and additional position details. Both Cal Poly and the Foundation are subject to all laws governing affirmative action and equal employment opportunity. All interested persons are encouraged to apply.

State
CLOSING DATE: 4-26-85
Clerical Assistant II-A, $1180-$1401/month, Housing Management.
Foundation
CLOSING DATE: 4-18-85
Custodian, $1203-$1419/month, plus shift differential, Food Service. Full time, variable schedule, nights and weekends.

Candidates for positions on the faculty of the university are presently being sought, according to Jan Pieper, director of personnel and employee relations. Those interested in learning more about the positions are invited to contact the appropriate dean or department head. This University is subject to all laws governing Affirmative Action and equal employment opportunity including but not limited to Executive Order 11246 and Title IX of the Education Amendments Act and the Rehabilitation Act of 1973. All interested persons are encouraged to apply.

CLOSING DATE: 4-12-85 (correction)
Student Services Professional I-Academic Related (12-month), $25,248-$30,408, commensurate with qualifications and experience, Counseling Services, available on or before July 1, 1985. Permanent 12-month entry level position in personal counseling. Duties include assessment, case management, and outreach. Skills in multicultural and women's concerns, and program development required. License eligible; earned doctorate in counseling/clinical psychology or closely related field required, with at least two years university counseling experience. Submit resumes to Dr. Jim Aiken, Counseling Services, Search Committee, Cal Poly, San Luis Obispo, CA 93407.

CLOSING DATE: 4-26-85
Lecturer(s), (part-time), salary commensurate with qualifications and experience and time base, Mechanical Engineering. Possible temporary part-time position(s) available as determined by need during the 1985-86 academic year, beginning Summer 1985. Teaching assignments in basic mechanical or HVAC engineering courses. Bachelor's degree required and teaching or industrial experience. Master's degree and/or professional registration preferred.

CLOSING DATE: 4-30-85
Lecturers (part-time), salary commensurate with qualifications and experience and time base, Foreign Languages. Department is establishing a pool of applicants for possible part-time positions in French, German, Spanish, during Fall, Winter, Spring, and/or Summer Quarters of the 1985-86 academic year. Duties include teaching elementary and/or intermediate French, German, or Spanish. B.A. required; Master's / doctorate preferred.

CLOSING DATE: 5-10-85
Lecturers (part-time), salary commensurate with qualifications and experience and time base, Biological Sciences. The department seeks to compile a list of applicants for part-time lecturers during various quarters of academic year 1985-86, including Summer Quarter of 1986, to teach one or more courses in biological sciences. Applicants should list each relevant course (lecture and lab) for which they wish to be considered. Applicants must have a B.S. in biological sciences or related discipline. Those currently enrolled in the department's graduate program preferred.

Lectureship (part-time), salary commensurate with qualifications, experience and time base, Statistics. Duties and responsibilities include teaching lower division statistics courses. Candidates must possess an M.S. in statistics or related area. Preference will be given to candidates with demonstrated excellence in college or university teaching and/or industrial experience involving applied statistics.

CLOSING DATE: 5-15-85
Lecturer (leave replacement), salary commensurate with qualifications and experience, Agricultural Education. Position available for the 1985-86 academic year. Duties include teaching undergraduate and graduate courses, advising students, and supervision of student teachers. Master's degree desirable. Three years of teaching high school vocational agriculture required with at least one year within the past three years desirable.

CLOSING DATE: 5-17-85
Lecturers (part-time pool), salary commensurate with qualifications and experience and time base, Political Science. Department is establishing a pool of applicants for possible part-time positions for Fall, Winter, Spring and/or Summer Quarters 1985-86 to teach lower or upper division courses in Political Science. M.A. required; Ph.D. preferred.

CLOSING DATE: 6-1-85
Lecturers (part-time), salary commensurate with qualifications and experience and time base, Chemistry. Positions available Fall, Winter, Spring and Summer Quarters of 1985-86 academic year. Duties include teaching undergraduate chemistry lectures and laboratories. Qualifications include M.A. degree or concurrent enrollment in Chemistry graduate program; Ph.D. preferred in chemistry, biochemistry, or chemical engineering as well as professional teaching experience.

CLOSING DATE: 9-13-85
Lectureship (part-time), salary commensurate with qualifications and experience and time base, Chemistry. Positions available Fall, Winter, Spring and Summer Quarters of 1985-86 academic year. Duties include teaching lower-division chemistry laboratories. Candidates must be enrolled in Chemistry Graduate Program and must have passed Chemistry qualifying exams.

Who, What, When, Where?

Michael Blum, Graphic Communications, published an article, "Film Work Ideas: Improve Work Flow and Practice," in the November-December issue of High Volume Printing.

Wendy Demko Reynoso, Student Academic Services, had a report, "Contrastive Instruction in Teaching Proofreading to Dialect Different Students," published in the December 1984 issue of the TESOL Quarterly.

William Alexander, Political Science, read a paper on "Teaching World Food Politics" at the University of Hawaii's Community College Colloquium on Peace and the Prospects for the Future.

Joseph Vithayathil, Electronic and Electrical Engineering, was honored by the Institution of Electronics and Telecommunication Engineers of New Delhi (India), for work he performed while teaching at the Indian Institute of Science in Bangalore.

Carolyn Shank, Physical Education and Recreation Administration, presented a paper, "A Theoretical Structure for a Home Water Orientation Program," at the CAHPERD Convention in Oakland.

Robert Hoover, Social Sciences, spoke on "Excavations at Mission San Antonio" to the San Francisco chapter of the Archaeological Institute of America at UC Berkeley.
