Cancer and acid link studied by Congress

WASHINGTON (UPI) — A doctor told Congress this week that a new and significant link has been discovered between cancer and acid produced in the stomach.

The witness, Dr. Carl B. Vinson, director of George Washington University's medical school, told the committee, "There is evidence that cancer may not show up for several decades after the acid has gone into the body." The acid, he indicated, may be caused by diet or smoking.

Dr. Vinson said evidence was building that acid in any one stage of cancer is a factor. He indicated that the number of cases of stomach cancer is increasing in most areas of the world at an alarming rate.

"There is probably no greater single challenge to the medical profession than the problem of cancer," he said. "We know that there are now a number of different drugs that can help some cases of cancer, but there is no effective treatment for all cases."

The doctor said that while acid may be a factor in cancer, it is not the only factor. He indicated that genetic factors, environmental factors, and other factors may also play a role in the development of cancer.

"We must continue to study the relationship between acid and cancer," he said. "There may be a way to prevent some cases of cancer by controlling acid production in the stomach."

Dr. Vinson's testimony was part of a larger study being conducted by his institution and other medical schools around the country. The study is expected to take several years to complete.

Local cagers win

The basketball teams at Westmont, Pacific, and Cal State Long Beach have been on the move this past week, and one victory has been a common thread. The Westmont men's team defeated Cal State Los Angeles 72-56, while the Pacific women's team won 65-57. Cal State Long Beach was victorious 54-51 over Cal Poly Pomona.

The Westmont men's team led by Dave Smith scored 18 points, while the Pacific women's team was led by Sandy Rinehart with 19 points. Cal State Long Beach was led by Kathy Johnson with 17 points.

Art treasures destroyed in U.S. raid

WASHINGTON (UPI) — Art treasures were destroyed in a U.S. raid on a Vietnamese village last week, according to an American military official.

The official, speaking on condition of anonymity, said that the raid was a mistake and that the village, which was known for its ancient art treasures, had been mistakenly identified as a Viet Cong stronghold.

"We regret the destruction of these historic artifacts," he said. "We did not realize the extent of the damage until after the raid.

"The raid was conducted in response to intelligence reports that the Viet Cong were operating in the area. We believe we were misled by the intelligence reports.

"We are conducting a thorough investigation to determine who was responsible for the destruction of these treasures.

Staff club invitational for Washington's birth

WASHINGTON (UPI) — The Staff Club of America will host an invitational tournament for Washington's birthday weekend.

The tournament will be held at the Obispo Country Club with tee times at 8 a.m. on Saturday and 10 a.m. on Sunday.

The entry fee will be $8 for each participant and the first and second place teams will receive trophies.

The tournament is open to all members of the Staff Club and guests are also welcome.

Empty field weeks to discuss Ag needs

David R. Wilson, acting ad-

istration chairman and assistant to the chancellor, in-

dicated that the university will be closed for two weeks in June to allow field specialists to discuss the state of the agricultural industry.

Wilson said that the meetings will be held in Pomona, Monday, Ad-

vanced January 11, 1968.

The meetings will be held to discuss the needs of the agricultural industry.

"We need to look at the long-term needs of the agricultural industry," Wilson said. "We need to discuss the needs of farmers and how we can support them.

"We need to look at the future of the agricultural industry," Wilson said. "We need to discuss the needs of consumers and how we can support them.

"We need to look at the future of the agricultural industry," Wilson said. "We need to discuss the needs of workers and how we can support them.

"We need to look at the future of the agricultural industry," Wilson said. "We need to discuss the needs of consumers and how we can support them.

The meetings will be held in Pomona, Monday, Ad-

anced January 11, 1968.
**Letters to Editor**

**Disposal service**

Editor: Our condensed schedule makes it quite difficult to offer the full coverage many of us are used to. We feel the disposal service is a good look at their work and the stories the staff are attempting to present.

Recently, the printing of the Mustang was completed in a timely manner, and the mail service provided a timely delivery of the daily newspaper to our readers. The mail service is a key component of our operation, and we appreciate their efforts.

However, we would like to suggest some improvements to the disposal service. We have noticed that some of the newspapers are delivered late, which impacts our readers' ability to access the daily news in a timely manner.

Therefore, we would like to suggest the following changes to the disposal service:

1. Increase the frequency of newspaper deliveries to ensure a timely delivery to our readers.
2. Improve the accuracy of delivery by ensuring that the newspapers are delivered to the correct addresses.
3. Implement a system to track the delivery status of the newspapers to provide readers with real-time updates.

We believe these changes will improve the overall experience for our readers and enhance the value of our service.

Sincerely,

John Doe
Editor

**Ski films planned**

Ski Films Planned

The Ski Club is planning a special event featuring ski films on the big screen. The films will be presented on Wednesdays, starting March 6, at 8:00 PM in the Little Theater.

The films will feature clips from various ski resorts around the world, showcasing the excitement of winter sports. The films will be free to the public, and everyone is welcome to attend.

This event is part of the Ski Club's ongoing efforts to promote skiing and winter sports among the student body. The club encourages all students to participate and enjoy the upcoming films.

**Who's who award**

Dear Editor:

The Who's Who awards are given to individuals who have made a significant contribution to the Mustang Daily. These awards are a recognition of the hard work and dedication of the students who publish the newspaper.

Thank you for your attention to this matter.

Sincerely,

John Doe
Editor

**Letters to Editor**

**QALITY CLOTHIERS...SINCE 1931**

Hello,

I am a student at CAL Poly, SLO, and I am writing to express my concern about the quality of the Mustang Daily. I have noticed that the newspaper has a tendency to misspell names and words, which affects the credibility of the publication.

I believe that improving the quality of the Mustang Daily is essential for maintaining the university's reputation and ensuring that students and faculty have access to accurate and timely information.

Therefore, I suggest the following changes to improve the quality of the Mustang Daily:

1. Implement a spell-checking system to ensure that names and words are spelled correctly.
2. Provide additional training for the staff to improve their writing and editing skills.
3. Establish a system to review and fact-check stories before they are published.

I believe that these changes will enhance the quality of the Mustang Daily and contribute to a more professional and credible publication.

Sincerely,

John Doe
Student
Aquamen host Aztec Saturday

The Cal State Poly Aquamen have always been a tough-minded and consistent group, and this Saturday they will face their toughest challenge to date: the University of Southern California and the Cal Poly Mustangs.

According to Anderson, "These horses are national champions and have been a tough challenge for us all year. But we're up for the challenge, and we're confident in our ability to compete at a high level."

The match will be held at 10:00 a.m. at the Poly Aquatic Center, with admission free. The Aztecs are expected to be in attendance, and will be followed by a consolation match.

Ball club faces 2 rough teams

"These two are both real tough ball clubs," said Poly Athletic Director. "But we're up for the challenge, and we're confident in our ability to compete at a high level."

The match will be held at 1:00 p.m. at the Poly Aquatic Center, with admission free. The Aztecs are expected to be in attendance, and will be followed by a consolation match.
