Vice President sought for Information Systems

The administrator responsible for the management of Information Systems at the university will be a vice president, and will report directly to the president.

That was one of the recommendations recently accepted by President Baker from the Task Force on the Management of Information Systems. A national search to fill the position is being initiated.

In his memo to the members of the Task Force, President Baker said, "I agree with and accept the principles which the Task Force enunciated, the functions which it recommended be included in Information Systems, and the level of position to provide key leadership to this important area of the university's operations."

Some of the other Task Force recommendations include:

- A planning unit be included in the organization with a reporting relationship to the new vice president;
- A commitment be made by the university to user driven planning;
- A data base management unit be included in the organization;
- The instructional and administrative advisory committees be ultimately responsible to the new vice president;
- The Information Systems line organization not include general responsibility for the library and Audio Visual Services;
- The Computer Aided Productivity Center should remain housed in the Information Systems organization because of its system-wide and interdisciplinary instructional obligations;
- Administrative and instructional computing should be separate; and
- The user services groups/functions should provide software consulting services irrespective of hardware on which applications run.

David Walch will continue to head up the Information Systems operation until a vice president is appointed.

Fiorito appointed department head

Dr. Basil A. Fiorito, who has led the Psychology and Human Development Department on an interim basis since its creation in the fall of 1984, has been named the permanent department head.

The appointment was announced by Dr. Harry J. Busselen Jr., dean of the School of Professional Studies and Education, based on the recommendation of the department faculty and with the concurrence of Provost Fort and President Baker.

A native New Yorker, Fiorito earned an undergraduate degree in chemistry from Marist College in New York and a master's degree in physical chemistry from New York University. For a time he was a high school science teacher before switching careers.

He earned a master's degree in marriage and family counseling, and a Ph.D. in child and family studies from Syracuse University. A member of the Cal Poly faculty since 1977, Fiorito is a licensed marriage, family, and child counselor, and a certified marriage and family therapist.

A former president and officer of the California Council on Family Relations, he has also held leadership positions with the National Council on Family Relations, and the national Family Life Education Network.

In the community Fiorito has served on the board of the San Luis Obispo Women's Shelter Program, worked as a trainer for Hotline Training Workshops, and been a member of the Council for the Protection of Children, San Luis Obispo.

Liberal Arts new name for humanities school

The School of Communicative Arts and Humanities is getting a name change to more accurately reflect the disciplines of the school.

After consultation and balloting in the school's 11 departments, and review and discussion in the School Council, a proposal was brought forward by Dean Jon M. Ericson that the School of Liberal Arts be adopted.

The proposal was approved by Provost Fort, and President Baker, and will be effective with the distribution of the university's 1986-88 Catalog of courses in June.

The question of a name change first surfaced with the addition of the Social Sciences Division to the school in 1981. At that time it was thought that the Communicative Arts and Humanities designation excluded the social sciences disciplines.

While the new name is shorter than its predecessor, says Dean Ericson, it provides a larger umbrella for the disciplines represented in the school.
Black theater company to appear on Feb. 11

A black theater company will stop at Cal Poly on Tuesday, Feb. 11, to present its acclaimed production, "Can I Speak for You Brother?"

The show, part of Black History Month on campus, will begin at 8 pm in Chumash Auditorium. "Can I Speak for You Brother?" produced by San Francisco's African American Drama Company, is a one-man performance by Phillip E. Walker.

Walker combines dance, poetry, storytelling, puppetry, drama, letters, speeches, and music to highlight the struggles and triumphs of black leaders through American history.

Admission for the play is $3 for senior citizens, students, and children, and $4 for adults. Ticket outlets are the UU Ticket Office on campus, and Cheap Thrills and Boo Boo Records in San Luis Obispo.

The event is co-sponsored by the Afro-American Student Union, Special Events Committee, and Fine Arts Committee of the ASI.

Censorship of media topic of Feb. 13 talk

A newspaper columnist and veteran broadcast journalist will be at Cal Poly on Thursday, Feb. 13, to discuss censorship of conservative views in the media.

Cal Thomas, a writer for the Los Angeles Times Syndicate since 1984, will talk on "Censorship: A View from the Right." The lecture starts at 7:30 pm in Chumash Auditorium.

Thomas is a former vice president of The Moral Majority, and a co-founder of International Media Service, the only daily Christian broadcast news service.

A 26-year broadcast journalism veteran, Thomas spent most of his career with NBC radio and television stations as a reporter and news commentator in his native Washington, D.C., and Texas.

Tickets for his lecture at Cal Poly are $4.50 for adults, $3.50 for students and seniors, and 50 cents more at the door. They are available at the UU Ticket Office, Cheap Thrills and Boo Boo Records in San Luis Obispo, The Parable in Atascadero and San Luis Obispo, and The Bible Depot in Grover City.

The lecture is sponsored by the ASI Speakers Forum.

Alum to speak at Business Seminar

A Cal Poly alumnus and successful business entrepreneur will keynote the 20th annual Cal Poly Business Seminar on Monday and Tuesday, Feb. 10 and 11.

Richard J. O'Neill will speak at noon on Tuesday, Feb. 11, in Chumash Auditorium. The theme for the two-day conference is "Achievement Through Action."

It is sponsored by the Society for the Advancement of Management (SAM) in cooperation with the School of Business.

Executives from 18 major corporations will attend, speaking informally to business classes and joining in five panel discussions.

Companies to be represented include IBM, Carnation, Crocker Bank, and the Pacific Coast Stock Exchange.

Tickets for the luncheon, priced at $8, are on sale in the lobby of the Business Administration and Education Building from 9 am to 3 pm on weekdays.

Dental Care

February is National Children's Dental Health Month. Dental disease affects 98 percent of all children. This is a good time to introduce your child to the family dentist, review their dental homecare program, and assess the family diet. Prevention is the key to good health. For more information call the Oral Health Clinic, Monday-Friday, 9 am-1 pm at ext. 1211.

Business school recognizes four

Four major corporations have joined a program recently launched by the School of Business.

Called the Corporate Sponsors Program, it recognizes companies who have made a commitment of at least $2000 to the business school. The first four corporations are the Hewlett-Packard Co., the Carnation Company, the Lockheed Corporation, and Pepsi-Cola.

Fee waiver deadline set

Information and applications are available in the Personnel Office for eligible full-time or part-time permanent state employees to participate in the Fee Waiver Program. Those who take Cal Poly courses under an approved program of career development, or who have had courses approved as job related, may be eligible for waiver of certain fees. Deadline for return of completed, approved Fee Waiver forms for the Spring Quarter 1986 is Feb. 10.
Immunizations to be required

Measles and rubella immunizations will become a necessity for CSU students starting in the fall, says Chancellor W. Ann Reynolds.

Reynolds said immunizations will be required of all new students under 30 years of age, dormitory residents, and students enrolled in health and education curricula.

The program will be the most sweeping of any adopted by university systems in the U.S. to reduce the likelihood of campus outbreaks of the contagious diseases.

Non-immunized students will not be denied fall admission, but face the withholding of registration materials if they have not been vaccinated by the start of the next succeeding term.

Students unable to obtain acceptable proof of immunizations prior to enrollment can be vaccinated at Student Health Centers on the campuses.

Mobile health testing unit on campus Feb. 21

The Health Examinetics Mobile Health Testing Unit will be on campus Feb. 21 for the annual health screening program sponsored by the Association of California State University Professors. The unit will be located in Parking Lot C-7 adjacent to the Health Center with testing hours from noon to 7:30 pm. This testing program is available to all faculty and staff and their families (age 13 and above).

More than 50 different health tests are performed by nurses and physician-trained technicians in a 40-minute session. The confidential results are sent to the employee’s physician. Employees are urged to check with their physician to confirm that he/she will accept and discuss test results.

The cost for this program is:

<table>
<thead>
<tr>
<th>ACSUP Insurance Plan Members</th>
<th>Members of ACSUP</th>
<th>Non-Members</th>
</tr>
</thead>
<tbody>
<tr>
<td>Adults (18 &amp; over) no charge*</td>
<td>$89</td>
<td>$98</td>
</tr>
<tr>
<td>Children (13-17, panel excludes x-ray, Pap, EKG, tonometry and blood chemistries) no charge*</td>
<td>59</td>
<td>68</td>
</tr>
</tbody>
</table>

*with appropriate family coverage

Participation in this preventative health program is by appointment only. Call toll-free 1-800-542-6233 to schedule your appointment.

Who, What, Where, When

Lynne Gamble, Library, has been notified that her paper, “Assessing Collection Development Organization in a Small Academic Library,” has been selected for presentation at the fourth American College and Research Libraries National Conference in Baltimore, and for inclusion in the published conference proceedings.

Louis Harper, Crop Science, was named chairman of the Student Speech Contest at the national meeting of the American Society of Agronomy in Chicago. Eric Wilkens, a Crop Science student, was named National Student Membership Chairman.
