Van pooling planned

In response to the continuing shortage of fuel and the advisability of sharing a ride, an innovative transportation approach called van pooling has been implemented in the private sector by organizations with large numbers of employees. This transportation concept allows a group of employees to commute by van pool from a common locality to work. In planning for the establishment of a formalized van pooling program at Cal Poly, it is necessary to know employee interests, attitude and willingness to participate in a ride-sharing program.

On Feb. 24, from 12:15 pm to 1 pm, Eileen Mackin, a representative of the County Ride-sharing Office, will be on campus to distribute information on the many transit options available and offer cost comparisons on each. In addition, Ms. Mackin will take reservations for space in order to help establish routing priorities on Caltrans vans scheduled for future delivery to this campus. A new commuter van available for lease by employees will be on display.

This informational meeting will be held in the Staff Dining Room and will take approximately 15 to 20 minutes to complete. If it is not possible to attend, those interested in more information or in signing up for a van space are encouraged to call Eileen Mackin at the ride-sharing office, 541-CARS. The on-campus contact for both van pooling and the ride sharing program is Paul Fillo at Ext. 2236.

Election results

Information has been received from the Public Employment Relations Board (PERB) that in Unit 7 (Clerical and Allied Support), the California State Employees Association/CSEA will be the exclusive representative, subject to certification.

The disputed result of the election for Unit 4 (Academic Support) has been resolved and a runoff election will be held between the Congress of Faculty Associations (CFA) and the United Professors of California (UPC). There will also be a runoff election in Unit 3 (Faculty), and Unit 2 (Health Care Support) as previously announced, between CSEA and UPC.

Ballots will be mailed for the three runoff elections on Apr. 12, with a closing date for receipt of ballots of May 4 at 8 am.

This is a corrected version of the story published in the Feb. 11 issue of Cal Poly Report.
Query seminar

The Computer Center is offering a seminar on the use of QUERY for the local Cyber computer. QUERY is a non-procedural programming language used to query and update files. It is expected QUERY will be used by administrative offices to access data files available on mass storage.

The contents of the seminar will include an introduction to NOS and X-EDIT, an introduction to the CYBER, how to log-on and off, concepts of direct vs. indirect files and permanent vs. local files, file management, and file editing; simple QUERY directives, use of QUERY directives USE, IF, DISPLAY, EXHIBIT, DEFINE, DESCRIBE, and EVALUATE to select and view elements from a file; simple QUERY reporting, use of the directives SORT, EXTRACT, PREPARE, PERFORM, and PRINT, relating files, and report preparation using a set of predefined formats.

The schedule will be

Lectures: Mar. 16, 17, 18, Ag 241, 1:15 pm - 4:15 pm  
Lab 1: Mar. 17, CSc 112, 8 am - 9 am  
Labs 2 & 3: Mar. 18-19, CSc 112, 7:30 am - 9:30 am

Enrollment is open to faculty and staff only, with an overall limit of 24 participants. Demand may require restricting functional areas to three participants each but all individuals desiring the class are encouraged to sign up to permit evaluation of demand for a second session. Interested personnel can sign up by phoning the Computer Center, Ext. 2004. Enrollment notices will be sent out approximately March 8.

Mobile health unit to be on campus

On Mar. 10, 11 and 12, the Health Examinetics mobile health testing unit will again be on campus for the annual health screening program sponsored by the Association of California State University Professors. The unit will be located adjacent to the Health Center with testing hours from noon to 9:15 pm on Mar. 10 and 11 and from 9 am to 6:15 pm on Mar. 12, 1982. This testing program is available to all faculty and staff and their families (age 13 and above).

In 40 minutes over 50 different health tests are performed by nurses and physician-trained technicians and these confidential results are sent to the physicians you choose. Employees are urged to check with their local physician to confirm that the physician will accept and discuss these results.

The cost for this program is:

- Adults (age 18 and above)
- **Children (13-17 — panel excludes x-ray, pap, EKG, tonometry and blood chemistries)

ARCO bows out

The Department of General Services, Office of Procurement in Sacramento, has advised Cal Poly and other state agencies, that the Atlantic Richfield Company has withdrawn from the multi-company gasoline credit card program, according to Ray Macias (Procurement and Support Services Officer).

This, in effect, means that state employees who operate state vehicles will no longer be able to purchase gasoline, oil, or services from ARCO stations as they no longer accept state credit cards. In addition, state agencies have been advised not to apply directly to ARCO for credit cards under ARCO's "alternative credit arrangements." The termination of agreements between the State of California and Atlantic Richfield Company is effective immediately.

However, according to Ray Macias, this does not affect agreements with oil companies such as Chevron (Standard Oil of California), Exxon, Mobil, Shell, and Union, who still continue to honor State credit cards. Any questions regarding the ARCO termination should be directed to Ray Macias at Ext. 2234.

Insurance rep on campus

Karen Cottingham, representative of the First Farwest Health Insurance Plan, will be on campus Wednesday (Mar. 3) from 9 am to 1 pm to answer questions and claim problems. Those interested in talking with her can contact her in the Staff Dining Hall. Appointments are not necessary.

New VG child’s menu

Vista Grande Restaurant has recently introduced a menu for children. The new menu is available during regular business hours. The reduced price menu includes such kids' favorites as "Grilled Cheese with French Fries" and a Hamburger with French Fries. This menu which also includes drinks and desserts, is available to any person twelve years of age and under.
Architecture students will show art

Students of the School of Architecture and Environmental Design at Cal Poly will exhibit their art work during a show planned for Monday (Feb. 22) through Friday (Feb. 26). Titled “Works II” and scheduled to be on display from 9 am to 5 pm daily in Architecture and Environmental Design Building 105, the exhibit will include two- and three-dimensional art, in styles from conservative to very “avant garde.”

Last year’s exhibit contained about 100 pieces including paintings using oils, watercolor, pencil, and ink, as well as sculptures, photographs, and mosaics. In addition to viewing the display during the week, the public is invited to a reception honoring the artists on Sunday (Feb. 21) at 7 pm, also in the Gallery. Refreshments will be served.

Nuclear waste

“What About Nuclear Waste?” will be the title of a talk to be given by Dr. John Sokol of Westinghouse Corp. when he addresses a breakfast gathering at 7:45 am on Wednesday (Feb. 24), in the Staff Dining Room (Section B).

Dr. Sokol, a senior scientist involved in advanced power systems work, is expected to discuss such topics as federal waste budgets, current criteria for disposal of high-level waste, current demonstration programs, and foreign experience with waste programs.

Faculty and staff of the university are particularly invited to attend the no-host breakfast, which is being sponsored by the School of Engineering and Technology.

Intramural conference and workshop at Poly

The 1982 California Intramural Recreational Sports Conference and State Workshop will be held here at Cal Poly Friday (Feb. 19) through Sunday (Feb. 21). Events scheduled are an Outings Slide Show/Exhibit, Welcome Cocktail Party, tours, workshops in orienteering, rapelling, trap/skeet, leisure counseling, stress reduction, professionalism, and more.

Registration begins Friday 8 am to 8 pm and Saturday 8 am to 12 noon in the University Union lobby. The cost for the conference is $35 for the entire weekend. Campus participation is encouraged. For more information, come by the Intramurals office, U. U. 104, or call Ext. 1366.

Men’s chorus to present concert

The Cal Poly Men’s Chorus will present their “45th Anniversary Concert” on Sunday (Mar. 7) in the Cal Poly Theatre at 8 pm. James Dearing (Music) is the director of the Men’s Chorus, the oldest of the choral performing arts groups at the university. Now made up of over 30 voices, the choir was founded in 1936 as the Men’s Glee Club.

Dearing began conducting the group in 1980 at which time he changed the name to the Men’s Chorus. This was done to project the image of a musical organization that maintains high standards and presents quality performances. This year’s concert will feature Randall Thompson’s “Testament of Freedom,” based on the words of Thomas Jefferson.

Reserved seat tickets will go on sale at the University Union ticket office on Monday (Feb. 22). Tickets are $4 for the general public and $2 for students. Mail orders should be addressed “Cal Poly Theatre, Cal Poly, San Luis Obispo, CA 93407.” For information and reservations call Ext. 1421.

Buccola named commissioner

Vic Buccola, Cal Poly’s former athletic director, has been named commissioner of the newly formed Western Football Conference.

The Western Football Conference, a Division II conference scheduled to begin play this fall, includes California State University, Northridge; California State Polytechnic University, Pomona; the University of Santa Clara; Portland State University; and Cal Poly.

Buccola will continue to teach courses as a member of Cal Poly’s Physical Education Department faculty.
