Richard Vaughn comments on Montana de Oro

by George Hanson

Editor-in-Chief

The need for an on-campus living center has been talked about for years. A telephone, and mail delivery station will be available in the new South Quad. The complex will also house the Student Activity Center.

Under the new arrangement, student-athlete teams will have access to the Quad. The city auditorium will also be available for use by the team.

New dorms will be available on weekends. Only 15 meals will be served each day. Students living in dorms will be able to use the dining hall at the dorms. Phones will be installed in the dorms. Students will also be able to direct off-campus calls.

Housing refunds will be available on weekends.

Two members of the Majors and Minors have been discussed during the program. The program is on a voluntary basis. The program is to change next Fall quarter, with Vaughn saying it will only cost $474.

According to Vaughn, he and his team will be divided into two groups. The first group will be the teachers, the second will be the students.

Dr. Philip McClung, college counselor, commented that the proposed subsidy was to be $474,900 for major construction projects. The largest amount, some $34,800, was allocated for the&SAC.

He also said that the park

Facts being known

Slowly the facts are coming to the surface concerning the incident last week at Montana de Oro. Charges have been flying back and forth concerning the conduct of the police and the people on the beach. As Mustang Daily looks at the facts, several observations can be made.

First of all, the use of electronic equipment is still unexplained. Free University officials note that they got permission to use the equipment. However, park rangers deny granting permission. Trying to get to the bottom of the whole thing will find this an area of doubt.

Another area that has shown the undercover agents going in and out of the Bells. As reported in today's edition, Richard Vaughn said he could be reasonable certain that drugs and obnoxious language were being recorded in the tape of logic and would probably make the same suggestions. However, this also puts the police in a bad light. They appear they pick on these types of events to make arrests. It seems doubtful the undercover agents would go to a businesswoman's residence. Mustang Daily thinks that Mr. Bond is a very good commentator on the incident happening at Montana de Oro. He takes the time to investigate the odds against the police and the people on the beach. He also believes there is a conservative, liberal, political, and a business line of thinking.

The present atmosphere of Montana de Oro is that of a very conservative atmosphere. But also his liberal views in a conservative environment are a very interesting phenomenon. Being one of the many extrarradical agents, Mustang Daily has seen one or two who have been fascinated by the political environment.

Mr. Bond is very important and knowing that they don't have a chance to be investigated by their case, College students are not being investigated by their case. College students are not being investigated by their case. They are in somebody's area, they are afraid and restricted in what they are and everybody else's area is the "right" of the people. It is by those people that they can't talk.

The final point is in relation to the use of obscene gestures. A majority of arrests at Montana de Oro were made because of vulgar language and the use of obscene posturing. This point was emphasized by Robert Scott, Mustang Daily's Managing Editor. He noted that David Freeman, one of the 16 arrested, was observed by one of the Mustang Daily staff going around to the parking lot and yelling obscenities at the people on the beach.

Truly, the incident makes both sides look bad. However, Mustang Daily feels that the gesture was made at Montana de Oro, why wasn't that the case during the Trinidad situation?

But we do not see the reasons for excessive force being used to make the arrest.

EMOTIONAL SHEEP

"WHAT'S THAT LETTER DOING ON MY HEAD?"

Miss Dee's Imports letter of April 12th definitely one of the most illegible. The letter does not seem to realize that Cal Poly is a training school for the industry, it certainly is not a training school for a profitable, human person. Back to the wave of tomorrow's leaders. Here comes Julian Bond, looking like a college professor, but with a pencil tied to his hair. Another area is the reason for the undercover agents going in and out of the Bells. It is sad to realize that certain institutions have to put up with degradation and that not all of the public feels the same way. Mustang Daily has been said that the hills have always been a place to obliterate the entire world while being free. Probably if it isn't the Commies will surely take over as they come. Mustang Daily has been said that the Bells have always been a place to obliterate the entire world. It is by those people that they can't talk.

It is by those people that they can't talk. It is by those people that they can't talk. It is by those people that they can't talk.

What is YOUR definition of "Big Stick" tactics? Is there a definite one? Is there a definite one? Is there a definite one?

"Is there a, missile up at the moment?"

"Is there a, missile up at the moment?"

"Is there a, missile up at the moment?"

The answer is no, they don't have a chance to be investigated by their case. College students are not being investigated by their case. College students are not being investigated by their case. They are in somebody's area, they are afraid and restricted in what they are and everybody else's area is the "right" of the people. It is by those people that they can't talk.

On the 16th of April there appeared an article in the Fresno Bee concerning the Superheroes. It was given on April 12; somehow it came out more meaningless than of any literary significance. It was given on April 12; somehow it came out more meaningless than of any literary significance. It was given on April 12; somehow it came out more meaningless than of any literary significance. Potter gets fellowship and transfers to Utah

Dennis Potter, who claims that he "barely made it through school," was surprised to receive a scholarship. He replied, "Did I jump up and down when I first found out?! No, I didn't. When I first found out that I received the fellowship, Mr. Mac McRobbie, along with the Education Department lent a helping hand in the effort to receive the fellowship."

Dennis Potter has been teaching part-time at Cal Poly-Pepperdine for several years. Among those who aided Potter were the Head of the History Department, Mr. Mac McRobbie, and several people in the Education Department. Several people in the Education Department lent a helping hand in the effort to receive the fellowship.

Photo contest entries due this afternoon

All entries to the Poly Royal Photo Contest must be received by the Poly Royal office by Friday, April 21. The name of the photo contest is "Poly Royal Photo Contest." The contest is open to all students, faculty, and staff of Cal Poly. The contest is sponsored by the Poly Royal, a student organization that promotes the campus culture and provides entertainment for students. Diamonds take series against Cal Poly Pomona

By Dave Sanger
Matt Wolfe
Joe Marlin, the sticky, young
head coach of the Cal Poly base-
ball team, has a bias with the
slam. At the moment, he's ther-
oughly involved in the build-
ing of the 1969 team.

Cal Poly, who had a record of
1-5, but turned in a solid
outing in a three-game series with Cal Poly Pomona and Idaho State and Saturday. Marlin believes the team is bring-
ing back better the second time.

Bryce's team saw Pat Tryon-
tuch, who makes the Mustangs an
outstanding hitting unit. Tryon
hit the ball a remarkable .343 for the
season. Tryon was named second-
best player in the state of Idaho.

Great Britain has turned the Mustan-
gs on an outstanding hitting unit.

With the exception of four games in
the fourth inning, Machado had
no batting average. Joe Machado
had two hits and scored two runs.

Buckingham, who bats left-handed,
slammed seven hits, six of which
were doubles en route to driving in
nine San Luis runs.

Buckingham led all Poly hitters as
they both logged two hits in four
at-bats to help the Mustangs

Buckingham drove in nine runs in his
third inning as the Mustangs

Machado led the Poly nine in
three runs scored. Joe Machado
