Tellew named acting dean of Business

Fuad H. Tellew, professor of economics and a 23-year member of the Cal Poly faculty, became acting dean of the School of Business June 20. President Warren Baker named Tellew to the temporary post until the university chooses a permanent replacement for Dean Robert K. Coe, who stepped down to teach full time.

Tellew is a specialist in Third World economic development and in money and banking. He holds doctorate and master’s degrees from the University of Southern California and earned his bachelor’s degree at the College of Commerce and Economics in Baghdad, capital of his native Iraq. Tellew emigrated to the United States in 1951.

Tellew has been active in the Western Economic Association, a professional organization. At WEA conferences he regularly chairs discussions on economic development.

At Cal Poly Tellew has long been active in international studies programs. He also drafted the proposal that led to the creation of the School of Business’ Center for Business and Economic Research. He actively participates in that group’s efforts to encourage student and faculty research and provide economic services such as data and analysis to businesses and communities, locally and elsewhere in California.

The economist has appeared frequently on local news programs to analyze inflation and economic trends.

Library evacuation plan ready

A building evacuation plan has been completed for the Robert E. Kennedy Library, said Howard West, chairman of the Public Safety Advisory Committee.

In Status Report No. 2 on the Cal Poly Disaster Preparedness Plan, West informed university officials that the Library evacuation plan was a result of work by the Fire Section of the Public Safety Department in consultation with Library personnel.

Maps and charts of the building have been developed and have been placed in the Library. The plan includes sanctuary points for the physically handicapped.

More department head changes

Donald J. Koberg, honored during the June commencement ceremony as one of Cal Poly’s distinguished teachers for 1982-83, is the acting head of the Architecture Department.

Koberg assumed the temporary post July 1 and will lead the department until the university names a permanent replacement for former head Ray Yeh, who resigned to become dean of the College of Environmental Design at the University of Oklahoma.

Koberg joined the faculty in 1962. He holds a bachelor of architecture degree from Tulane University and a master’s in architecture from the University of Washington.

George T. Murray, who joined the faculty in 1978, has been named acting head of the Metallurgical and Welding Engineering Department, succeeding Richard Wiley, who has announced plans for his retirement but will teach one quarter a year.

Murray’s appointment was based on the recommendations of the department faculty, Robert G. Valpey, dean of the School of Engineering and Technology, and Tomlinson Fort Jr., vice president for academic affairs.

Murray received his bachelor’s degree in 1949 from the University of Kentucky, his master’s degree in 1961 from the University of Tennessee and his doctorate in 1968 from Columbia University.

Charles M. Slem, a member of the Cal Poly faculty since 1975, has been named acting head of the Psychology Department. He will begin his new assignment in mid-September and serve until a permanent head for the department is selected.

Slem is a graduate of both Wayne State University (Mich.) and University of California, Los Angeles, where he earned his doctorate. He formerly worked with the Langley Porter Neuropsychiatric Institute in San Francisco, Hotline of Oakland County (Mich.), and the Los Angeles Department of Mental Health.

Slem will succeed L. Robert Sorensen, who has announced plans for his retirement.

Keith S. Stowe will be acting head of the Physics Department beginning this fall, while the university chooses a permanent department head to replace Robert H. Frost. Frost retired in June after 30 years at Cal Poly.

Stowe will take over as acting department head Sept. 12. Administrative duties will be handled during Summer Quarter by professors David M. Roach and Kenneth S. Ozawa.

Stowe joined the Cal Poly faculty in 1971, the year he earned his doctorate from the University of California, San Diego. He received a bachelor’s degree from the Illinois Institute of Technology.
22 Poly grads honored

Twenty-two Cal Poly graduates received awards for outstanding academic achievement and service to their respective schools during commencement activities.

The Senior Recognition Awards are for academic achievement based on high grade point average, for contributions to the goals and ideals of Cal Poly's academic schools and for significant contributions to the goals and ideals of the university. Recipients are selected by the deans and student councils of the respective schools.

Those honored were:
- School of Agriculture and Natural Resources -- Kathleen A. Clifford (Natural Resources Management), academic excellence; Jady John Grad (Dairy Science), school service; and Karl David Zwanziger (Animal Science), service to the university.
- School of Architecture and Environmental Design -- David Ward (Architecture), academic excellence; Andrew H. Dorr (Architecture), school service; and Marc A. Jenefsky (Architecture), service to the university.
- School of Business -- Frank L. Maciel (Economics), academic excellence; James A. Voos (Business Administration), service to the school; and Kenneth E. Raasch (Business Administration), service to the university.
- School of Communicative Arts and Humanities -- Craig V. Heidenreich (English), academic excellence; Laurie A. Michaud (Speech Communication), service to the school; and Christopher Eric Seymour (Political Science), service to the university.
- School of Engineering and Technology -- Thomas J. Holden (Electrical Engineering), academic excellence; Eric M. Cannon (Industrial Engineering), service to the school; and Philip J. Fontes (Industrial Engineering), service to the university.
- School of Human Development and Education -- Terri L. Parent (Liberal Studies) and Elizabeth Sorenson (Dietetics and Food Administration), both academic excellence; Susan Gallery, (Dietetics and Food Administration), service to the school; and Maureen Shea (Child Development), service to the university.
- School of Science and Mathematics -- Douglas L. Mueller (Computer Science), academic excellence; Edward A. Lopes (Computer Science), service to the school; and Lisa E. Donoghue (Microbiology), service to the university.

Insurance rep on campus

Ron Gifford, representative of Occidental Life of California, will be on campus from 10:30 am to 1 pm Wednesday (July 13) in Admin. 106. He will answer employees' questions on the Cal Western/Occidental basic and major medical health insurance, which is sponsored by the Public Employees' Retirement System. Appointments are not necessary.

Public Safety appointments

Two significant changes in personnel of the university's Public Safety Department have been announced by Richard Brug, the department's director.

In the first, Capt. John Paulsen, a member of the Los Angeles Fire Department for the past 22 years, has been appointed assistant director of public safety for fire services. Paulsen will succeed Capt. Jeff Paulus who has resigned to accept an appointment with the County of San Luis Obispo. Paulsen will retire from LAFD and report to his new assignment prior to Sept. 1.

In the other announcement, Brug said Wayne Hall, an investigator with the University Police section for more than two years, has been promoted to sergeant effective July 1. Chosen after an extensive testing process and competition with four other finalists for the open position, Hall has been assigned duties as a watch commander.

Since joining the university staff, Hall has been instrumental in development and coordination of the Public Safety Department's award-winning Crime Prevention Program and also has been involved in criminal investigation.

DSU honors Poly student, staff member

Two members of the Cal Poly community have been recognized by Disabled Students Unlimited, a Cal Poly organization that attempts to deal with the problems of disabled students.

Tom Bordonaro, an agricultural science major from Creston, was named disabled student of the year, and Louanna Corey of Los Osos, director of nursing for the Student Health Center, was honored as staff person of the year.

Initiated only last year, the award received by Bordonaro goes to a graduating senior selected on the basis of achievement and contributions to Cal Poly. Bordonaro graduated with honors after having been on the Dean's List six times and on the President's List once.

Mrs. Corey was honored for her contributions to Cal Poly's disabled student population. She made regular contacts with both temporarily and permanently disabled students and, in addition to offering routine care, provided liberal doses of concern and empathy for them. During Awareness Day 1983, when DSU attempted to expand awareness to include the concept of prevention, Mrs. Corey organized a clinic which offered free immunizations to members of the campus community.

Disabled Students Unlimited is funded by Cal Poly's Associated Students Inc.
AMA award goes to Poly physician

Dr. James H. Nash, director of health services at Cal Poly, has fulfilled the requirements to receive the American Medical Association's Physician's Recognition Award in continuing medical education. This is the fifth time since 1969 that Nash has received the award.

Nash also has been certified as a member of the Family Nurse Practitioner Program of the Department of Family Practice of the School of Medicine at University of California, Davis.

Nash qualified for the Physician's Recognition Award because "his personal program of continuing medical education identifies him with a distinguished group of physicians who have accepted participation in continuing medical education as a basic responsibility of the profession of medicine," said Dr. Marvin E. Johnson of the AMA.

Rose Float open house July 9

The Rose Parade Float Committee cordially invites all Cal Poly faculty and staff to the first donor appreciation day and open house Saturday (July 9) from 3 to 6 pm at the float construction facility on Feed Mill Rd. (intersects Via Carta at Food Processing Building). Scheduled are exhibits, a slide show, dedication of the new slab and building project, and refreshments. RSVP requested to:

Activities Planning Center
ext. 2476 (before 4 pm)

Ray or Mike, 544-1732 (after 4 pm)

Find your escape route

As the name implies, the services offered by the ASI Outings Escape Route can help provide your summer outdoor getaway.

Need equipment for a trip? The Escape Route has low-cost rentals such as canoes, backpacks, sleeping bags and ice cream makers which can be rented for the weekend or a week.

Planning a weekend hike? The Escape Route has maps, books, brochures and information to help you plan your own excursions. Informed staff also can help set you up with the needed items to make your trip more comfortable and enjoyable.

In addition, the Escape Route offers low-priced weekend trips sponsored by the ASI Outings Committee.

Come by the Escape Route downstairs in the University Union or call ext. 1287.

Poly dean author of textbook

Lark P. Carter, dean of the School of Agriculture and Natural Resources, is the co-author of a recently released textbook titled "Crop Science and Food Production." Published by McGraw-Hill Book Co., the text focuses on five major instructional areas in crop production: general principles of plant science in agriculture; production and management of crops identification and control of crop pests; harvesting and storage of agricultural crops; and processing, marketing and utilization of plant products.

The book is designed for use by high school seniors and junior college students who are interested in acquiring skills needed for successful employment in production agriculture and agribusiness. It can also be used as a supplemental text for nonagriculture students who want to gain some familiarity with general agricultural concepts and principles.

Craft classes available in UU

Need something to do this summer? Want to create something that you can cherish or give away to a close friend or relative? Well, the University Union Craft Center could be just the place for you.

The Craft Center is open this summer to all faculty, staff, students, alumni and spouses who are interested in a friendly, relaxed atmosphere where they can paint, saw, sand or pound. Several craft classes are being offered this quarter, including woodworking, calligraphy, jewelry and ceramics. This could be a grand opportunity to learn a new skill or improve on an old one.

Stop by the Craft Center and express your creativity.

Hours: Monday-Friday 10 am-10 pm
Saturday Noon-10 pm  Sunday 2 pm-10 pm

In The Good Old Summertime

Thesis presentation scheduled

Gary Pedroni, candidate for the degree of Master of City and Regional Planning, will orally defend his thesis, "Professional Media and the Planner," from 10 am to noon, Friday, July 15, in Architecture 224. Interested parties are invited.
Who, What, When, Where

Robert L. Hoover, Social Sciences, was an invited speaker at the California Conference on Historic Preservation at Mission San Juan Capistrano May 6. He also presented a paper at the California Council for Geographic Education meeting on campus May 7. Both papers dealt with the archaeology of Mission San Antonio.

Thomas T.L. Chou, Electronic and Electrical Engineering, has completed a three-week industry visitation in the San Francisco Bay area. The companies he visited, including Avantek, Watkins-Johnson, Teledyne, Litton, Dexcel, TRW, Wiltron and Hewlett-Packard, are leading manufacturers of microwave active components, modulars, systems and their test equipment. The visitation was part of Chou’s one-quarter sabbatical leave activities.

Roy Harris, Animal and Veterinary Science, wrote an article, “The Relationship of Bovine Crown-Rump Measurement to Fetal Age.” It was published in the June 1983 issue of Bovine Agri-Practice.

Wes Conner, Ornamental Horticulture, hosted a group of garden enthusiasts on a Rose Garden Tour of Europe for the Rural Route Tour Agency of Kansas City. The June 7-21 trip included visiting outstanding public and private displays in England, France, Switzerland, Germany and The Netherlands and giving lectures on culture of roses and other garden plants.

Russell H. Brown, Student Affairs, presented a program, “Student Development—the State of the Art,” at the Stanford Student Affairs Colloquium.

Jim Abern, Agricultural Management, has had an experiment station bulletin published at the University of Maryland. The publication examines the demand for horse racing in Maryland and in the United States as a source for tax income and appropriate tax policy dealing with horse racing.

Robert L. Hoover, Social Sciences, has co-authored a monograph, “Arms of the Apacheria: A Comparison of Apachian and Spanish Fighting Techniques in the Later 18th Century,” with Jack S. Williams. It was published as Occasional Publication No. 44 by the Museum of Anthropology, University of Northern Colorado.

Jim Allen, Counseling, spoke on “Personality Factors in Career Choice” to the Central Coast Rehabilitation Counselor Conference in Santa Barbara June 10.

Position Vacancies

Vacant staff positions at Cal Poly University and the Cal Poly Foundation are announced in this column and are posted outside the respective offices. Contact those offices (State: Adm. 110, 805-546-2236—Foundation: University Dining Complex, 805-546-1121) for applications and additional position details. Both Cal Poly and the Foundation are subject to all laws governing affirmative action and equal employment opportunity. All interested persons are encouraged to apply.

CLOSING DATE: 7-22-83
Departmental Secretary II, Steno, $1215-1439/month, leave replacement, Crop Science.

Administrative Aid, $1502-1805/month, Academic Vice President’s Office. Manage the day-to-day operation of the Office of the Vice President for Academic Affairs; participate in long-range planning of the Academic Affairs Division; assist in the development of office policies and procedures; compile data and analyze impact of proposed change on staff functions; verify conformity to university and state regulations; determine budget needs; train and supervise clerical office staff; participate in office meetings; carry out research for the vice president; maintain records, logs, etc. Requirements: Five years of progressively responsible experience in secretarial, clerical or technical assignments, including two years in a position involving the planning and organizing of the clerical work of an office and requiring thorough knowledge of a wide variety of modern office policies and procedures.

CLOSING DATE: 7-29-83
Evaluation Technician I, $1379-1646/month, Education (Student Teacher/Credentials Office). Assist in the coordination of master’s program and student teaching services. Duties include all functions associated with assessment of program status, informal/formal program and study plans, scheduling of exams, etc., for more than 100 master’s degree candidates. Assist the student teacher coordinator in the placement of student teachers. Requirements: Two years of directly related work experience in evaluations, admissions or records (type 45 wpm and word processing experience preferred) and must have taken the General Clerical Test.

CLOSING DATE: 7-22-83
Clerical Assistant II-B, $1087-1283/month, Activities Planning Center.

Clerical Assistant II-A/B, $824-1026/month; temporary Sept. 1, 1983 to Dec. 31, 1983; 0.8 time [3 hours/day Tuesday through Friday], Placement Center.

CLOSING DATE: 7-14-83
Food Service Cook, $5.89-7.01/hr., Food Service, Foundation.

CLOSING DATE: 7-22-83
Clerical Assistant II-B, $1087-1283/month, Activities Planning Center.

Cal Poly Report is published semimonthly during the Summer Quarter by the Public Affairs Office. Typewritten, double-spaced copy must be submitted for Cal Poly Report to Cathy Rathbone, Adm. 401, ext. 2246, by close of business Thursday, July 14, for the July 21 issue.
