Dental plan available

The Personnel Office has received notification from the Chancellor's Office that a dental plan will soon be available to CSUC employees who are half-time or more. This dental insurance, which is available through payroll deduction, will be administered by Sanders and Associates and underwritten by Safeguard Health Plans, Inc. It should be noted that, like other insurance plans sponsored by the Chancellor's Office and administered by Sanders and Associates, there is no requirement for membership in an employee organization in order to participate.

The highlights of this dental plan are that there are no deductibles, no yearly dollar maximum of coverage, and many benefits are covered without a co-payment charge (such as oral exams, office visits, teeth cleaning). The monthly cost is $5 for employee only; $10 for employee and one dependant; and $13 for employee and two or more dependants. Those covered must go to a Safeguard dentist and the only one currently in this area is Dr. Donald Siebert in Pismo Beach. The open enrollment period will be from Apr. 1 through 30 with an effective date of coverage of June 1.

Contract information and enrollment forms are being forwarded to all employees in the campus mail and should be distributed by April 4.

For any questions, contact Barbara Melvin in the Personnel Office at Ext. 2236.

Stearns appointed acting head

President Warren J. Baker has appointed Josephine Stearns as acting head of the Child Development Department for the 1980-81 Fall and Winter Quarters. The appointment followed recommendation by the departmental faculty, head, the school dean and vice-president for Academic Affairs. David Englund, current department head, will be on sabbatical leave for the two quarters concerned.

Hilliard to give two addresses

The man who has been dean of the School of Education at San Francisco State University for the past seven years will present two lectures related to the problems of racial minorities on Thursday (Apr. 10) at Cal Poly. The first lecture by Asa G. Hilliard, III, titled "The Revival of Racism on College Campuses: New Challenges for the 80s," will begin at 1:30 pm in the Cal Poly Theatre.

With "Free Your Mind: Return to the Source, the African Origin of Civilization and Scientific Colonialism," as its title, Dr. Hilliard's second lecture is scheduled for 7:30 pm, also in the theatre. He is expected to use slides to illustrate that presentation. Admission will be free and the public is invited to attend both programs.

Dean Hilliard, who taught social studies, mathematics, psychology, and history during an early career as an elementary, junior high, and high school teacher, has been on the San Francisco State faculty since 1963 and dean of its School of Education since 1970.

In addition to many duties, he has found time to write nearly 100 published journal articles, monographs, papers, and other works, and deliver 125 keynote addresses and lectures on his areas of special interest over the past 12 years. Dr. Hilliard's lectures at Cal Poly are being sponsored by the university's Child Development Club, Child Development Department, and School of Human Development and Education, in cooperation with the campus chapter of Delta Sigma Theta sorority.

Women's week programming

An intensive, week-long series of programs that will focus on the changing and emerging roles of women in the 1980s will be presented at Cal Poly from Monday (Apr. 7) through Friday (Apr. 11). They are designed to make the community aware of women's programming at Cal Poly. Titled "Women's Perspectives (Viewing the 80s)," the program will be sponsored by the university's Student Affairs division and a consortium of campus student and faculty organizations.

The week-long emphasis will include small group seminars, conferences, and discussions on subjects as widely varied as women in the professions, liberation from the male point of view, holistic health, and the elimination of sex discrimination as an ideal. In addition to the business aspects of "Women's Perspectives," the week will feature entertainment in the form of movies about Gertrude Stein and Malvina Reynolds, and a concert with Holly Near and Robin Flower.

The program will commence on Monday (Apr. 7) at 11 am in University Union 220, with addresses by Hazel Jones (Vice President for Academic Affairs) and Carly Baker, wife of President Warren J. Baker. They will be introduced by Rose Kranz (ASI President).

Highlights of the week will be talks on "Common Sense Quotient in Eliminating Sex Discrimination in Our Society" on Monday by Barbara Landers, a Title IX consultant to the California State Department of Education; "Corporate Gamesmanship" on Thursday by Edye Wade of Xerox Corp.; "The Demands of 8-5" by Susan Chamberlain from Data Products on Friday; and "Basics for Success in Business" by Marla Bradley of Hughes Aircraft Company on Tuesday.

All programs are open to the public. With the exception of the movies on Tuesday evening and the Holly Near concert on Thursday, all programs will be free. For further information on "Women's Perspectives," call the Dean of Students Office at Ext. 2491 or the Activities Planning Center at Ext. 2476.
Trustees’ actions reported

The Board of Trustees of The California State University and Colleges took the following actions at its meeting held Mar. 24, 25, and 26:

- Appointed Dr. Robin S. Wilson, Associate Provost for Instruction at Ohio State University, as President of California State University, Chico, effective at the end of the current academic year. He will succeed Dr. Stanford Cazier, who resigned last summer to accept the presidency of Utah State University. Dr. Robert L. Fredenbuck currently is Acting President (see other CPR article).

- Named two faculty members as the CSUC’s 1980 Outstanding Professors: Dr. Charles B. Burdick, Professor of History at San Jose State University, and Irving A. Block, Professor of Art at California State University, Northridge. The recipients receive $1,000 awards from the CSUC Foundation with funds provided by the Joseph M. Schenck Foundation of Los Angeles (see other CPR article).

- Increased salaries for Summer Session Instructional Faculty by 14.35 percent effective with the 1980 summer session. Increase is same as that approved by July 1979 for other academic employees.

- Increased the Student Services Fee by $12 per academic year beginning in fall 1980. Full-time students will pay $156 per year and part-time students (6 or less units per term) will pay $126 per year.

- Amended Title 5 of the California Administrative Code to establish regulations for the certification of academic employees to continue employment beyond the mandatory retirement age of 70.

- Authorized qualified employees to receive two years of additional retirement service credit if they voluntarily retire between Mar. 27 and June 29. Further resolved that this action is necessary to prevent many impending layoffs, demotions, and reassignments during 1980-81 and 1981-82 resulting from the curtailment of university services; and that vacant positions which become available as a result of this program, and all other vacant positions in 1980-81, be filled in compliance with CSUC Affirmative Action policies. To qualify, employees must be 50 years or older with at least five years of service. Legislation authorizing this program was written by Assemblywoman Teresa Hughes (D-Los Angeles).

Revised academic calendar

Attached to this issue of Cal Poly Report is a copy of the recently approved modified Academic Calendar for 1980 through 1983. Made necessary by the adoption of computer assisted registration, key differences in the new calendar include:

- Fall Quarter classes will begin on Thursday of the Fall Conference week;

- Whenever possible, the first day of instruction for Winter and Spring quarters will be a Monday;

- Whenever possible, the last day of instruction for each quarter will be a Friday; and

- Final examinations will extend over a five-day period each quarter, and whenever possible will begin on a Monday and end on a Friday of the week following the last day of instruction.

University golf tournament

The Annual University Club Golf Tournament will be held on Saturday (May 10) at the Morro Bay Golf Course. Tee times will start at 10 am. For reservations call or write Terry Cooper (Soil Science) at Ext. 2807, no later than May 1. Last year’s champions plan to defend their titles; Bob Timone, low gross and Ed Jorgenson, low net.

Women’s week time off

The Student Affairs Division in conjunction with various campus organizations is sponsoring a week of panels, lectures, workshops, discussions, etc. Apr. 7-11 exploring women’s issues and concerns. In keeping with University policy, employees wishing to attend any segment of this program during normal work hours must first obtain supervisory approval. Consistent with workload, supervisors are encouraged to provide as much opportunity as possible for interested employees to attend.

Note from the editor

Cal Poly Report is an official university publication for members of the staff and faculty containing information of general interest. Items submitted should be typed and double spaced to insure accuracy and readability. Copy should be submitted to the Public Information Office, Adm. 125, and include name and telephone number of the author. This helps to insure that the material published is authentic and accurate. Also, questions about the item can be speedily answered.

Items are subject to editing to maintain a consistent editorial style in Cal Poly Report. The deadline for submissions to Cal Poly Report is noon on the Monday preceding publication. Announcements will be made at least one week in advance whenever possible. Items for “Who, What, Where, When” section should be submitted as soon after the event as possible to avoid confusion and repetition. Items of a calendar nature should be submitted to Cathy Burt, Adm. 401, for inclusion in Dateline.
Morris Taylor dead

Word has been received of the death of Morris Taylor (Mechanical Engineering, retired) on Mar. 3. He served at Cal Poly from 1956 to 1967. He died at 78 years of age in Portola Valley, California after an illness of some length.

Wilson will head CSU, Chico

Robin S. Wilson has been named president of California State University, Chico by the Board of Trustees of The California State University and Colleges. Wilson's appointment, effective following the close of Chico's current academic year, was announced by Claudia H. Hampton, Board Chairperson, and Chancellor Glenn S. Dumke.

Since 1977 Wilson has been Associate Provost for Instruction at Ohio State University, involved in the administration of academic affairs for the five-campus institution enrolling 57,000 students. "Dr. Wilson has an outstanding background as an administrator and educator," Chancellor Dumke said. "He is an excellent choice to continue the development and advancement of the Chico campus."

Born in September 1928, the Ohio native holds a Ph.D. (1959) and master's degree (1951), both in English, from the University of Illinois. His bachelor's degree, earned in 1950, is from Ohio State. Prior to accepting his current position in Columbus, Wilson served from 1970 as Associate Director and Secretary for the Committee on Institutional Cooperation, the academic consortium of the Big Ten universities and the University of Chicago.

Wilson will be the tenth President of the 13,500-student Chico campus, succeeding Stanford Cazier who last summer accepted the presidency of Utah State University. Robert L. Fredenburg has been appointed by Chancellor Dumke as the university's Acting President. Fredenburg will continue in this capacity pending completion of arrangements for President Wilson's arrival on campus this summer.

Defensive driver training

Milt Hill (Supervisor, Transportation Services) has announced that a defensive driver training program will be held on Thursday (Apr. 17) and Friday (Apr. 18). The classes will be scheduled both in the morning and the afternoon each day, with one evening class on Thursday. The classes are approximately 3½ hours in length.

All staff, faculty and students who have never received defensive driver training cards must attend one session of the class if they wish to drive university vehicles or their own vehicles on university business. Attendance is by reservation in advance, on a first-come, first-serve basis. Space is limited and may be reserved by completing forms available at the Transportation Services Office, Building 71. For further information please call Ext. 2451.

Travel reimbursements

The State Board of Control has authorized an increase in mileage reimbursement rates for the use of privately owned vehicles. This change will become effective on Apr. 1. The specifics are as follows:

- **Mileage Rates:** When a state vehicle is available, the rate for employees who operate a private vehicle for official state business is $0.15 per mile. When a state vehicle is not available, the rate for employees who operate a private vehicle on approved state business is 18.5 cents per mile. Employees may claim up to a maximum of $0.21 per mile for use of a private vehicle on approved state business when a state vehicle is not available provided the employee certifies that the amount claimed represents the actual cost of operation of the private vehicle used.

- **Per Diem Allowance:** The current per diem allowances, which have been effective since Jan. 1, 1979, are recapped below. The State Administrative Manual is being revised to reflect these allowances. The basic per diem rates are $3.00 for breakfast, $5.50 for lunch, $9.00 for dinner, $25.00 for overnight lodging, and $3.50 for incidentals. The total for each 24 hours is $46.00.

Student art shown in Galerie

An exhibit of juried student art objects will be shown in the University Union Galerie through Saturday, April 26. Titled, "Designer Craft," the exhibit will consist of approximately 70 pieces executed by 40 students enrolled in beginning, intermediate, and advanced craft design classes. The craft media includes ceramics, glass, metal and wood, ranging from intricate jewelry to large wood furniture.

Jurors were furniture designer Richard Harrison, artist Pierre Rademaker, and art historian Tina Orr-Cahall (all Art). According to Crissa Hewitt (Art) representative work is by students in the classes, and not necessarily art majors. Galerie hours for Designer Craft, presented by the ASI Fine Arts Committee of the Associated Students Inc., in cooperation with the Art Department, will be Monday through Friday from 10 am to 9 pm, and Saturday through Sunday noon to 5 pm.

Alumni weekend in Los Angeles

The Cal Poly Alumni Association San Luis Obispo County Chapter announces Cal Poly Alumni night at Dodger Stadium on Saturday (May 17) and a private tour of the Norton Simon Art Museum in Pasadena on Sunday (May 18). The L.A. Dodgers will host the Pittsburgh Pirates for a 7 pm game. The cost is $54 per person and includes round-trip transportation, motel room (double occupancy), ticket to the Dodger game and the private tour of the museum.

The chartered bus will pick up alumni, faculty, staff, and friends of the university in front of Vista Grande Restaurant Saturday (May 17) at 12 noon, driving to the motel for check-in and a chance to freshen up before continuing to Dodger Stadium. Sunday the bus will travel to the Norton Simon Art Museum for the private tour at 10 am and return to San Luis Obispo at approximately 4 pm. Bus space is limited, therefore please make reservations by May 1. For further information, contact Steve Riddell (Coordinator, Alumni Services) in Adm. 210, or call Ext. 1261.
Books at High Noon begins its spring schedule on Tuesday (Apr. 8) in the Staff Dining Room. Robert Huot (English) will review Robert M. Pirsig's, *Zen and the Art of Motorcycle Maintenance*; and *Inquiry Into Values*. Dr. Huot shared an office with Pirsig while working at Montana State University as an instructor. Dr. Huot has been a part of the Cal Poly English faculty since 1963.

Books at High Noon speakers for this quarter include Mardo Crane, a pilot in the Powder Puff Derby, reviewing her book *Ladies, Rev Up Your Engines*. James Lau (Business) will discuss Thomas Powers' book, *The Man Who Kept the Secrets*; Richard Helms and the CIA. Other speakers include Dirk Walters (Biology) and Joan Cirone (Health Center) to discuss topics such as edible plants and human sexuality.

Books at High Noon is sponsored by the Cal Poly Library and is a cooperative effort of library and university faculty and staff as well as members of the local community. The series is designed to publicize noteworthy books and to increase the public's awareness of library materials.

Autographed bookplates by General William C. Westmoreland are available at the El Corral bookstore for those wishing to purchase his book, *A Soldier Reports*. General Westmoreland spoke for Books at High Noon on Feb. 12 at which limited copies of the book were available.

**Foundation board meeting**

The Board of Directors of the California Polytechnic State University Foundation will hold a regular meeting on Monday (Apr. 14) at 8:30 am in Adm. 409. This is a public meeting. For further information about this meeting, or to obtain a copy of the meeting agenda, contact Al Amaral (Executive Director, Cal Poly Foundation) in University Union 212, or call Ext. 1131.

**Service credit approved**

The Personnel Office has received notification from the Chancellor's Office that the two years' service credit legislation (AB 876) has been approved. This grants qualified employees of the California State University and Colleges System two additional years retirement service credit if they retire during the period commencing Mar. 28 and ending June 29.

For employees planning to retire during this period, an official Application for Retirement Form must be processed through the Personnel Office. To obtain this form and/or any further information, contact Robert M. Negranti or Barbara Melvin at Ext. 2236.

**Road closure noted**

The portion of North Perimeter Rd. adjacent to the Robert E. Kennedy Library construction site will be closed to traffic through Wednesday (Apr. 9). The closure will allow workers to remove the tower crane that has been used for the past 24 months in construction of the new library building.

Peter K. Phillips (Facilities Planner) said a 260-foot Skyhorse boom crane will be brought to campus from Los Angeles for use in dismantling the 187-foot tower crane. One of only three such cranes available in the Western States, the Skyhorse crane has a capacity of 155 tons and uses a 130-foot stern boom for counterweight.

As presently planned, the general contractor on the library structure, Robert E. McKee Inc., Los Angeles, expects five days to be used to erect and dismantle the boom crane and three days to be used for dismantling the tower crane. Phillips suggested that those who drive to and from Cal Poly via Highland Drive use Pepper Lane for access to the central part of the campus during the dismantling project. He said access to the Pottery Laboratory in the Fieldhouse and Parking Lot H-10, both near the Baseball Field, will remain open to traffic. **Arts and humanities series**

"Old Time Religion in a Brave New World" will be the title for the first in a series of programs on the unifying theme of "Worship" that will be presented during the Spring Quarter. Robert Michaelsen's remarks on that topic will be presented at 11 am on Thursday (Apr. 10) in University Union 220.

At 7:30 pm that evening, he will lead a dialogue on the subject with particular emphasis to the meaning of religion in current context in the Monterey Room at the Discovery Inn. Admission to both presentations by Dr. Michaelsen will be free and the public is invited to attend.

Presently vice chancellor and professor of religion at University of California, Santa Barbara, Dr. Michaelsen is expected to focus his remarks on a description of the persistence and durability of traditional forms of worship in Western civilization. He is expected to give special attention to evangelical Christianity, Catholicity, orthodox judiasm, and Islam.

Vice Chancellor Michaelsen is among the most eminent scholars in the field of religious studies. A past president of the American Academy of Religion, he helped establish the field of religious studies as an academic discipline and helped found the Department of Religious studies at UCSB.

Dr. Michaelsen's April 10 appearances are part of Cal Poly's 1979-80 Arts and Humanities Series. The series is offered by the School of Communicative Arts and Humanities with assistance of funding from the California Council for the Humanities, a subsidiary of the National Endowment for the Humanities.
FACULTY VACANCIES

Candidates for positions on the faculty of the University are presently being sought, according to Donald L. Shelton (Director of Personnel Relations). Those interested in learning more about the positions are invited to contact the appropriate dean or department head. This University is subject to all laws governing Affirmative Action and equal employment opportunity including but not limited to Executive Order 11246 and Title IX of the Education Amendments Act and the Rehabilitation Act of 1973. All interested persons are encouraged to apply.

CSUC Board of Trustees has recommended a general 11% cost of living increase effective July 1, 1980.

One Assistant/Associate Professor or One Lecturer, $16,368-$24,828/year. Industrial Engineering Department, School of Engineering and Technology. Position available September 1980. Applicants should be capable of teaching quantitative and management oriented courses in undergraduate and master's level industrial engineering. Ph.D. preferred. Master's degree required with industrial experience highly desirable. Closing date: 5-30-80.

One Assistant/Associate Professor and One Lecturer, $16,368-$24,828/year. dependent upon qualifications and professional experience. Management Department, School of Business. Position available for the 1980-81 academic year. Tenure track position. Duties to include teaching some combination of courses including Production and Operations Management, Industrial Management, and Quantitive Business Analysis. Prefer candidates with doctorate with a major in Management or Management-ABD's nearing completion; industrial, government, management consulting and lecturing experience desirable. Closing date: 4-30-80.

Associate/Full Professor, $20,604-$31,416/year-nine-month academic year, dependent upon qualifications. Architecture Department, School of Architecture and Environmental Design. Position available beginning with the 1980-81 academic year to teach in Building Support Systems courses which include: principles of design and selection of equipment for electrical, plumbing, HVAC, vertical transportation systems; and principles of utilization of alternative energy sources. Required is a terminal degree in Architecture or related field with emphasis on electrical and mechanical systems for buildings; professional experience with architectural or engineering consulting firms. Professional license, teaching experience at collegiate level and extensive practice preferred. Closing date: 5-24-80.

Assistant/Associate Professor, $16,368-$22,620/year, dependent upon qualifications and experience. Art Department, School of Communicative Arts and Humanities. Tenure track position available September 1980. Duties include teaching intermediate and advanced courses in graphic design, package design, corporate communications, editorial design, and advertising design. Applicant should be working currently in communication arts. MFA and teaching experience desired. Closing date: 5-5-80.

Assistant/Associate Professor, $16,368-$22,620/year, dependent upon qualifications and experience. Art Department, School of Communicative Arts and Humanities. Tenure track position available September 1980. Duties include teaching basic design, including 2-D black and white, color theory, 3-D design, and drawing. MFA or equivalent, plus minimum of two years college level teaching in basic design and drawing required. Closing date: 5-5-80.

Assistant/Associate Professor, $16,368-$21,588/year, dependent upon qualifications and experience. Art Department, School of Communicative Arts and Humanities. Position available September, 1980. Duties include teaching History of Photography: Images and Processes, Basic Black and White Photography, and the possibility of upper division courses in color. Master's degree or equivalent (plus specialized photographic training and/or teaching experience in illustration or commercial field preferred). Closing date: 5-10-80. Readvertised position.

Lecturer, full or part-time, $5,980-$9,528/quarter, based on full-time and will be adjusted according to assignment. Speech Communication Department, School of Communicative Arts and Humanities. Summer Quarter 1980, June 18 to August 30, 1980. Duties will include teaching two or three sections of Children's Theatre and perhaps one section of Oral Interpretation of Literature. Ph.D. or M.F.A. in Theatre required. Proven history of successful teaching of Children's Theatre necessary. Closing date: 5-1-80.

Lecturer, $5,980-$7,450/quarter. Speech Communication Department, School of Communicative Arts and Humanities. Summer Quarter 1980, June 18 to August 30, 1980. Duties will include teaching Fundamentals of Speech, Communication Theory, and Forensic Activities. Ph.D. and a proven record of successful college-level teaching required. Closing date: 5-1-80.

National secretaries association

All clerical assistants and secretaries who are interested in the National Secretaries Association (International) are invited to attend an orientation meeting at 1:30 on Saturday (Apr. 5) in the Staff Dining Room. Ms. Gene Drake, First Vice President of the California division, and members of the California division board will be present to discuss the background of the Association and procedures for forming a San Luis Obispo Chapter. They will also answer questions concerning membership. Those wishing to attend should call Sue Oshida at Ext. 2543 before 5 pm.

Transition conference

The Placement Center will host a transition conference on Tuesday (Apr. 8) from 11 am to 1 pm in University Union 204. Several former Cal Poly graduates have been invited to take part in a panel discussion dealing with the transition from the classroom to job experience. They will be talking about their personal experiences and the adjustment to regimented schedules, adapting to business operations, and much more.

All students, faculty and staff are invited to attend. For more information please contact Marguerite Gingrich or Pamela Summerl in the Placement Office at Ext. 2501.

OFF-CAMPUS VACANCIES

Information on the administrative position vacancies listed below can be obtained from the Placement Office, Adm. 213, Ext. 2501.

California State University, Northridge, Director of Research and Sponsored Projects. Application Deadline: April 18, 1980.
STAFF VACANCIES

Vacant support staff positions have been announced by Robert M. Negranti, Staff Personnel Officer. Descriptions of the positions and other vacancies are posted outside the Personnel Office, Adm. 110, Ext. 2236. Contact the Personnel Office to obtain an application. The University is subject to all laws governing Affirmative Action and equal employment opportunity including but not limited to Executive Order 11246 and Title IX of the Education Amendments Act and the Rehabilitation Act of 1973. All interested persons are encouraged to apply.

CSUC Board of Trustees has recommended a general 11% cost of living increase effective July 1, 1980.

Intermediate Account Clerk, $843-$1007/month, temporary-help through 6/30/80 with possibility of continuation dependent upon funding. Financial Operations. Duties include: disbursement of student aid; process student withdrawals, audit, update, prepare registration and exit interview lists, loan collection media; provide telephone and walk-in assistance. Requirements: One year of experience in the keeping or reviewing of financial or statistical records, and must have taken the General Clerical Test. Type 40 wpm and 10-key calculator proficiency highly desirable. Closing date: 4-18-80.

Equipment Technician I-A, $1339-$1610/month. Crop Science Department. Duties: Instruct and supervise student assistants in general field, fruit and vegetable crops work including pest control, weed control, irrigation and general field and orchard labor. Maintain/repair all specialized equipment operated by the Crop Science Department and instruct and supervise students in these tasks. Requirements: One year of experience (department prefers at least four years experience) in the fabrication/operation/repair/maintenance of related specialized equipment. Must have experience in intensive row crop and/or orchard operations or equivalent. Must have or be able to obtain a Certified Applicator’s License in agricultural category for pesticides. Closing date: 4-25-80.

READVERTISEMENT:

Helper Aid Account Clerk/Intermediate Account Clerk, $3.28-$5.81/hour: depending upon experience, Financial Operations. Duties: Assist in processing payments for Computer Assisted Registration and assist as needed in other areas of accounting on an intermittent, on-call basis. Hours to be determined by arrangement. Must have taken the General Clerical Test. Closing date: 4-18-80.

Statewide CSUC outstanding professors

Faculty members from California State University, Northridge and San Jose State University were named 1980 Outstanding Professors by the CSUC Board of Trustees. The designees, announced by Board Chairwoman Claudia H. Hampton and Chancellor Glenn S. Dumke, are Charles B. Burdick, professor of history at San Jose, and Irving A. Block, professor of art at Northridge.

Nominations are invited for the following open positions as announced by Robert M. Negranti, Staff Personnel Officer. The designees are recommended to the chancellor and trustees by a special committee organized by the CSUC Academic Senate.

Each year since the program was initiated the California State University and Colleges Foundation has awarded $1,000 to each Outstanding Professor. The awards have been made possible by the Joseph M. Schenck Foundation of Los Angeles. Professors Block and Burdick will be officially recognized for their accomplishments at a May 28 meeting of the Board of Trustees in Long Beach.

FOUNDATION VACANCIES

The Foundation is accepting applications for the following open positions as announced by J.L. Fryer, Personnel Officer. Interested applicants may apply at the Foundation Personnel Office, University Union Building, Room 212, 546-1121. Cal Poly Foundation is subject to all laws governing Affirmative Action and equal employment opportunity including but not limited to Executive Order 11246 and Title IX of the Education Amendments Act and the Rehabilitation Act of 1973. All interested persons are encouraged to apply.

Intermediate Account Clerk, $843-$1007, Personnel/Payroll. Responsible for performing those tasks required to process payroll and personnel paperwork: receptionist. Requirements: High School equivalent; one year experience in financial or statistical recordkeeping, 45 wpm typing preferred. Closing date: 4-17-80.

WHO...WHAT...WHEN...WHERE?

Jay Waddell, Library, attended an on-line user workshop on the INSPEC data base in DIALOG which was held in Palo Alto on March 10.

Jean Collins, Rodger Lewis, and Marilyn Gonsiewski, all Library, attended an OCLC Serials Tagging Workshop in Oakland on March 11.

Michael R. Malkin, Speech Communications, has been named a member of a three-person program committee to review papers and moderate presentations at the International Interdisciplinary Conference on World Traditions of Puppetry and Performing Objects to be hosted by the Smithsonian Institution Folklife Program June 13-14, 1980. The conference was made possible by a $10,000 NEH grant to the Center for Intercultural Studies and Ethnomusicology at the University of Texas, Austin, and a $28,000 NEH Folk Arts grant to Puppeteers of America.

Arthur L. Schwartz, Jr., Business Administration, was a discussant at the Western American Institute for Decision Sciences Annual Meetings held in Phoenix, Ariz., Mar. 12-14. Professor Schwartz discussed a paper on the topic of investments.

Robert L. Logan, Journalism, gave a speech on the diffusion of ideas and social change at the National Library of Medicine in Bethesda, Maryland, on March 11.

William Armentrout, Education, and Walter Schroeder, Head, Education, organized a workshop for faculty and students, conducted February 28 on the campus. Barbara Gaugheen, Director of the California Center for Career Education in Santa Barbara, was the speaker and exhibitor of tested materials used in this state.

Paul Neel, Architecture, was one of the coordinators of the First Annual Monterey/Carmel Design Conference sponsored by the California Council, the American Institute of Architects, held in Monterey March 27-30. Sharad Atre and Allan Cooper, both Architecture, also attended the conference.

Johanna Brown, Library, attended a meeting of the Bibliographic Standards Committee at the Chancellor’s Office in Long Beach on March 7. She is a member of the committee, representing the reference and interlibrary loan librarians within the system.

NATIONAL ENDOWMENT FOR THE HUMANITIES - CATEGORY A AND CATEGORY B FELLOWSHIPS

This program had intended to provide separate competition tracks for senior researchers and relatively new researchers, but did not successfully accomplish this goal because of ambiguities in program guidelines and design. As a result, NEH has now restructured its fellowship program. Fellowships for Independent Study and Research will provide support for full-time independent study and research resulting in significant contributions to the field by recognized scholars. Fellowships for College Teachers and Young Humanists will provide support for teachers of predominantly undergraduate courses to do full-time research ranging from very general study which the teacher feels is relevant to his teaching and/or his research interests to very specialized research whether or not related to his teaching. NEH stressed that although the guidelines do not make this clear, very specialized research unrelated to teaching is definitely appropriate for support under the Fellowships for College Teachers and Young Humanists program. For both fellowships, maximum stipends are $10,000 for six months and $20,000 for twelve months.

DEADLINE: JUNE 1, 1980

NATIONAL INSTITUTE OF EDUCATION - PROGRAM OF RESEARCH ON KNOWLEDGE USE AND SCHOOL IMPROVEMENT. Awards will be made for research focused on how schools modify existing operations and how knowledge is employed in such changes. Research will be supported that explores: (1) how elementary and secondary schools go about altering existing administrative and instructional practices or other aspects of their operations and organization, and what roles knowledge resources in the form of ideas, new programs, products, or materials play in these changes; (2) how bureaucratic, political, economic, cultural, and other aspects of school life, such as school-community relations, affect school change processes, and how these influences modify the effects of knowledge resources; (3) how knowledge and resources from outside the school district or school can support the different phases of a school improvement process; and (4) how new work-related knowledge is acquired, evaluated, and employed by educators in their daily school work.

The program will award both major and small grants. A major grant may support a project whose direct costs exceed $15,000. A project supported by a major grant may take several years to complete, with multi-year work to be funded in 12-month increments. A small grant supports a project for a duration of up to 12 months whose direct costs do not exceed $15,000. Approximately $500,000 will be available to the program in FY 1980. An estimated 6 major grants and 8 small grants will be awarded, with amount of support averaging about $65,000 and $10,000 respectively, for each 12-month award.

POSTMARK: MAY 13, 1980

NATIONAL INSTITUTE OF EDUCATION - RESEARCH GRANTS ON DESEGREGATION. Awards will be made for research to increase or synthesize knowledge about desegregation, in order to improve the education of children in multiracial and multicultural schools. The program covers two type of grants: major grants and small grants. A major grant is for a project in excess of $15,000 for direct costs or for more than 12-months duration. A small grant is for a project for no longer than 12-months duration and for an amount not exceeding $15,000 plus indirect costs. Approximately $100,000 will be available in FY 1980 to fund small grants. Major grants will be funded with FY 1981 monies, subject to congressional appropriation. Applications for a major grant are made in a two-stage process. First an applicant must submit a preliminary proposal; following this, an applicant may submit a full proposal only after receipt of N.I.E. comments on the preliminary proposal. Only a single application will be required for small grants proposals. The POSTMARK DEADLINES ARE: (1) MAY 22 for Proposals for Small Grants; MAY 22 for Preliminary Proposals for Major Grants OCTOBER 7 for Full Proposals for Major Grants
THE ENVIRONMENTAL PROTECTION AGENCY under its PARTNERS IN RESEARCH Program seeks exploratory research which will provide a basis for anticipating new problems and a sound basis for regulatory decisions. The program desires to encourage applications from an increased number of experienced researchers, including handicapped, minority, and female researchers; to improve the scientific quality of its program, and to assure the relevancy of the grant program to the E.P.A. mission. Overall program priorities include the following:

(1) POLLUTION CONTROL PROCESSES - scientific and technical research fundamental to pollution control advances. Priority areas are: (a) generic unit process pollutant monitoring for the chemical industry; (b) the assessment of fuels, combustion conditions, and combustion equipment to identify and verify techniques that can be used to reduce the formation and subsequent emission of polycyclic organic materials, and other complex and hazardous pollutants and carcinogens; (c) determination and assessment of basic reaction kinetics and mechanisms for toxic pollutant generation and destruction by class or group. For further information contact: Donald F. Carey, E.P.A., RD-675, 401 M St., S.W., Washington, D.C. 20460 (202) 426-2355.

(2) ENVIRONMENTAL BIOLOGY - quantification of special effects on individual organisms; an in-depth understanding of the principles involved in the fate and effects of pollutants on ecosystem processes; identification of theoretical principles, coupled with a basic understanding of critical ecosystem processes which can be modeled or scaled down to permit demonstration of quantitative effects of pollutants. Priority areas are: (a) contribution of benthic invertebrates to the fate and transport of toxic organics; (b) bioaccumulation of toxic chemicals from food by aquatic and estuarine biota; (c) Great Lakes studies; (d) applied genetics - including introduction into the environment, establishment, dispersal, and impact on populations, environments, and ecosystem functions. For further information contact: Dr. Morris A. Levin, E.P.A., RD-675, 401 M Street, S.W., Washington, D.C. 20460 (202) 426-2355.

(3) ENVIRONMENTAL CHEMISTRY AND PHYSICS - methods for the identification of pollutants and the determination of the levels at which they occur, knowledge of the reactions of pollutants and their fates in the environment and the schemes for predicting pollutant distributions given the location and strength of their sources. Priority areas (a) development of regional air quality simulation models with emphasis on predictions of ozone and fine particulate concentrations; (b) kinetics of conversion of SO2 to SO3 and of NO to nitrates; gas to particle conversion rates for pollutants in the photochemical complex; (c) aerosol formation from aromatic hydrocarbons and high molecular weight olefins; atmospheric studies to discriminate among primary and secondary sources of carbon-containing aerosols; (d) measurement methods for volatile and organic aerosols; continuous and personal monitoring devices for criteria and toxic pollutants in air; dynamics and kinematics of particles near sampling inlets as they relate to particulates collectors with an upper particle diameter cutoff of 15 micrometers; (e) abundance and fate of natural hydrocarbons and their influence on background levels of ozone; (f) studies identifying the industrial and commercial sources of well-water contamination; models of the transport and fate of metals and other toxic chemicals in soils; methods to control nitrates from agricultural sources in groundwater; (g) transport models for priority pollutants from animal wastes into drinking water supplies; characterization of factors influencing abiotic degradation of toxic organic compounds in bottom sediments; microbial degradation rate constants of toxic organic compounds in natural water-sediment systems; (h) improved techniques for multielement analysis of suspended sediments in water samples and in sludges; techniques for identification of non-volatile organic compounds in water samples; improved techniques for determination of chemical forms of priority toxic metals dissolved and suspended in ambient waters. For further information contact: Dr. Robert Papetti, E.P.A., RD-675, 401 M Street, S.W., Washington, D.C. 20460 (202) 426-2355.
