Plant Operations will report to Doug Gerard

President Warren J. Baker has approved, effective immediately, a change in administrative reporting procedures for the Plant Operations Department from James R. Landreth (Director of Business Affairs) to E. Douglas Gerard (Executive Dean). The change in assignment, in part, reflects the increasing workload being placed upon the Director of Business Affairs’ office during these times when critical budget decisions will have even more of an impact on the university’s program.

Landreth has also been asked to serve on the Chancellor’s Systemwide Advisory Group to review options for reducing the 1980-81 Governor’s Budget if Proposition 9 is approved by the electorate on June 3. Additionally, there will be an even greater degree of coordination between the planning functions which have been Gerard’s responsibility and the operating functions of the university.

Poly Royal class guidelines set

Hazel J. Jones (Vice President for Academic Affairs) reminds all faculty members that classes scheduled during the Poly Royal period from 12 noon, Thursday (Apr. 24) through Saturday (Apr. 26) will not meet as scheduled. Although classes will not be held, all students and staff are expected to participate fully in preparation of and participation in the Poly Royal exhibits and events. These days are not academic holidays.

David S. Hatcher will head Architectural Engineering Dept.

The man who was 1978-79 professor of the year in the School of Engineering and Applied Science at Washington University, St. Louis, will become head of the Architectural Engineering Department at Cal Poly in mid-September. Appointment of David S. Hatcher to lead the Bachelor of Science Degree program in architectural engineering was announced by President Warren J. Baker.

Dr. Hatcher’s selection for the post was recommended by Hazel J. Jones (Vice President for Academic Affairs) George J. Hasslein (Dean, Architecture and Environmental Design), and a faculty committee. He will succeed Dell O. Nickell, who has been acting head of the Architectural Engineering Department since it was formed in a reorganization of the School of Architecture and Environmental Design in mid-1978. Nickell will return to his former duties as a member of the department faculty this fall.

The new Cal Poly department head has spent the past 15 years on the civil engineering faculty at Washington University. During that time, he has taught a variety of courses and served as director of civil engineering laboratories and as acting chairman of the Department of Civil and Environmental Engineering.

A specialist in the structural behavior of various kinds of concrete beams, he has written eight technical reports that have been published in the Structural Journal of the American Society of Civil Engineers. In addition to the 1978-79 professor of the year award, the new department head has been honored on several occasions for outstanding teaching while at Washington University.

Rollo May will speak on campus

Rollo May, recognized by many as one of the 20th century’s foremost psychologists and philosophers, will address a campus audience as Cal Poly on Wednesday (Apr. 23). Scheduled for 11 am in Chumash Auditorium, his appearance is being co-sponsored by the university’s Counseling Center and Psychology Department in cooperation with Atascadero State Hospital, the San Luis Obispo County Mental Health Services, and the San Luis Obispo County Psychological Association. Admission will be free and the public is invited.

Presently a resident of Marin County, Dr. May is retired after having been a lecturer and faculty member at such universities as Harvard, Yale, and Princeton; a psychoanalyst, and author or editor of ten major books. In addition to his more recent books, The Courage to Create (1975) and The Meaning of Anxiety (revised 1977), his recent scholarly papers have been on such topics as the bearing of science on man and his nature, the nature of creativity, and anxiety and values.

Dr. May’s contributions to the discipline of psychology have been recognized by Michigan State University, University of Oklahoma, and four other universities which have presented him with honorary doctor’s degrees. Other organizations that have recognized his contributions have included Phi Beta Kappa, the honorary society for those in the arts and sciences. New York University, The American Psychological Association, The New York Society of Clinical Psychologists, and Columbia University.
Newspapers from Afghanistan

The Cal Poly Journalism Department has recently obtained Afghanistan newspapers that were published before, during, and after the Soviet invasion. James H. Hayes and Robert L. Logan (both Journalism) are now making a content analysis of English-language newspapers printed in Kabul, Afghanistan’s capital, between fall 1979 and spring 1980.

By examining the story locations and wordings in these publications, the professors hope to discover how the Soviet intervention affected the attitudes of editors and government leaders. They also hope to paint a clearer picture of Soviet-Afghan relations. “Examining these newspapers has given us the same opportunities that the deciphering of the Rosetta Stone gave to archeologists,” Hayes remarked.

The newspapers were donated to Hayes by Ian McCabe, a 1971 Cal Poly graduate who majored in journalism. After leaving Cal Poly, McCabe served in the Peace Corps until 1974, when he joined the Asia Foundation, a private U.S. corporation that promotes Asian-American relations. He later became the assistant to the foundation’s director of public affairs.

Six months before the Soviet invasion, McCabe became the regional representative in Kabul. He remained in the country as the unstable regime President Hafizullah Amin was overthrown during the coup of Dec. 27, 1979. The revolution was spearheaded by Soviet troops who eventually transformed a pro-soviet, but nonaligned, Afghanistan into what close observers now consider a Soviet satellite.

A month after the invasion McCabe escaped to the United States. While awaiting to be reassigned to Bangladesh, he sent the newspapers to Hayes. “We consider this an absolutely priceless gift,” said Hayes. “We’re very proud of Ian. He is a bright and amazing young man. He has never stopped being a journalist.”

After Hayes and Logan complete their examination of the newspapers, the Journalism Department expects to make them available to historians and scholars interested in putting the Soviet invasion into historical perspective.

‘Poly Royal — coming soon!’

Cal Poly’s Collegiate Future Farmers are again sponsoring the Poly Royal button sales campaign for 1980. All members of the CFFA are in the sales contest with prizes awarded to top salespersons. Contact any CFFA member or Agriculture Science major, El Corral Bookstore or many merchants in San Luis Obispo for 1980 Poly Royal Buttons.

University Club barbecue

The annual Cal Poly University Club family barbecue will be held on Thursday (May 8) at Cuesta Park. The menu this year will be beef ribs, beans and salad. Serving will begin at 5:30 pm. Club members need to make reservations with Terry Cooper (Soil Science) by May 6 or obtain tickets from other University Club Board members. Adult tickets are $2 and children under 12 are $1.

Home Concert scheduled

Saturday (Apr. 19) is the date selected by Cal Poly’s Men’s and Women’s Glee Clubs for their 39th annual Home Concert, according to James Dearing (Music) director of both ensembles. They will appear at 8 pm in Chumash Auditorium. General admission tickets for the event are $1.25 for students and senior citizens and $2.50 for adults. They are on sale at the University Union ticket desk between 10 am and 2 pm on weekdays.

Dearing, who joined the Cal Poly Music Department faculty last fall after having been on the faculty of University of Illinois at Chicago Circle, said the program will include the Hungarian music of Zoltan Kodaly, sung by the 31-member Women’s Glee Club, and songs of the west by the Men’s Glee Club. Also being rehearsed by the 30 members of the Men’s Glee Club is Benjamin Britten’s “Ballad of Little Musgrave and Lady Barnard,” a grim story of adultery and revenge.

Dearing said the glee clubs will combine for a performance of music from the recent motion picture, “The Muppet Movie.” He said the combined Cal Poly glee club form the only group he knows of that is performing Gary Fry’s choral arrangements of music from the movie. The Poly-Phonics, a swing choir of 17 mixed voices, will be featured in the second half of the Home Concert program. Programmed for the ensemble are songs of John Denver and Paul Williams, and a medley of Academy Award-winning songs.

A reception, to which the public is invited, will follow the concert in the Vista Grande Dining Room. Light entertainment by the “World Famous” Majors and Minors barbershop ensemble will be presented during the reception. The Cal Poly glee clubs recently completed a concert tour of the San Francisco area, during which they gave concerts at nine high schools and performed for patients at the Shriners Hospital for Crippled Children. Sponsors of the Home Concert are the university’s Music Department and A.S.I.
FACULTY VACANCIES

Candidates for positions on the faculty of the University are presently being sought, according to Donald L. Shelton (Director of Personnel Relations). Those interested in learning more about the positions are invited to contact the appropriate dean or department head. This University is subject to all laws governing Affirmative Action and equal employment opportunity including but not limited to Executive Order 11246 and Title IX of the Education Amendments Act and the Rehabilitation Act of 1973. All interested persons are encouraged to apply.

CSUC Board of Trustees has recommended a general 11% cost of living increase effective July 1, 1980.

Lecturers, part-time, $4,980-$6,560/quarter, based on a 15-unit teaching load and will be adjusted according to assignment. Foreign Languages Department, School of Communicative Arts and Humanities. Assignment for Summer Quarter, 1980. Department is establishing a pool of applicants for possible part-time positions in Spanish. Duties include teaching one or more sections of elementary and/or intermediate Spanish. M.A. required. Closing date: 5-2-80.

Lecturers, part-time, $4,980-$6,560/quarter, based on a 15-unit teaching load and will be adjusted according to assignment. Foreign Languages Department, School of Communicative Arts and Humanities. Assignment for Fall, Winter, Spring and Summer Quarters, 1980-81. Department is establishing a pool of applicants for possible part-time positions in French, German and Spanish. Duties include teaching one or more sections of elementary and/or intermediate French. German or Spanish. M.A. required. Closing date: 5-26-80.

Director of Counseling (Student Affairs Officer IV/V, 12-month), $23,700-$36,204/year, dependent upon qualifications. Counseling Center. Duties: Responsible for coordinating a wide range of counseling related activities with a professional staff of 19, involving individual and group counseling, career development, testing/assessment, learning assistance and tutoring, organizational consultation and campus liaison. Closing date: 5-30-80.

Lecturers, $5,456-$8,276/quarter, depending on qualifications. City and Regional Planning Department, School of Architecture and Environmental Design. Part-time positions as adjunct to teaching pool for 1980-81 academic year, beginning September 17, 1980. Teaching assignments primarily in physical planning; urban design; principles, practice, history of city planning; transportation theory; housing; general systems; site planning and topographical analysis; such as energy planning, etc. Master's degree in City/Regional Planning required, unless expertise is planning-related (example: Environmental Law). Teaching or professional experience required. APA-AICP membership desirable. Closing date: 5-16-80. (Readvertisement).

OFF-CAMPUS VACANCIES

Information on the administrative position vacancies listed below can be obtained from the Placement Office, Adm. 213, Ext. 2501

California State University, Dominguez Hills, Dean of the School of Humanities and Fine Arts. Application deadline: April 28, 1980.

Appointments, transfers, promotions

Donald L. Shelton, Director of Personnel Relations, announced the following appointments to new positions, transfers and promotions in the support staff personnel for February and March, 1980. A hearty welcome is extended to the new members of the Cal Poly staff and congratulations to those that have been promoted!

NEW EMPLOYEES

Sally Barker, Clerical Assistant II-B
Steve Beck, Mechanic's Helper
Joan Bezostky, Clerical Assistant II-B
Charles Bishop, On-call Custodian
Linda Brady, Clerical Assistant II-A
Sharon Breen, Intermediate Account Clerk
Scott Cooke, Intermediate Account Clerk
Bernice Crowfield, Custodian
Jerry Davis, On-call Custodian
Maribeth Diamon, On-call Custodian
Pamela Fricia, On-call Custodian
John Gajdos, Building Service Engineer
Page Hagan, Clerical Assistant II-C
Suzanne Hellyer, Clerical Assistant II-B
Randy Hughes, On-call Custodian
Deborah James, Clerical Assistant II-B
Robert Johnson, On-call Custodian
Nancy Markin, Clerical Assistant II-A
Rose Marshall, Clerical Assistant II-A
Denise Papastergiou, Clerical Assistant II-B
Ernesto Perez, On-call Custodian
Peggy Phakides-Wixom, On-call Registered Nurse
Robert Russell, Custodian
Diane Sankoff, On-call Clinical Aid
Mark Turner, Data Control Technician
Peggy Wischerm, Micrographics Technician

Duties: Typing exams, course outlines, reports, letters; operating office machines (duplicating, collator, copy machines, etc.); other University-related work that might be required by the faculty of the department. Requirements: One year clerical experience, type 45 wpm, and must have taken the General Clerical Test. Closing date: 5-2-80.

Surplus property

Due to the success of the last announcement, faculty and staff are once again invited to inspect various items of surplus property for possible use in their department. This includes miscellaneous instructional equipment and some office machines. Inspections may be made at the state warehouse (Bld. 70) from Monday (Apr. 21) through Friday (Apr. 25) between 7:30 am and 3 pm.

Equipment will be transferred on a first-come basis to the requesting department's inventory. The department is responsible for moving all items. April 25 is the deadline for transfers with the remaining items to be sold at the May 6 sale. For further information, please contact Marilyn York (Property Clerk) at Ext. 2570.

The Foundation is accepting applications for the following open positions as announced by J.L. Fryer, Personnel Officer. Interested applicants may apply at the Foundation Personnel Office, University Union Building, Room 212, 546-1121. Cal Poly Foundation is subject to all laws governing Affirmative Action and equal employment opportunity including but not limited to Executive Order 11246 and Title IX of the Education Amendments Act and the Rehabilitation Act of 1973. All interested persons are encouraged to apply.

Textbook Clerk, $820 - $980. Bookstore. Permanent, possibly will become 10-month position. Maintains textbook records, communicates with publishers, inventories, assists in procurement and sales as necessary. Requires two years of experience in recordkeeping, including typing and filing, preferably in bookstore operation; equivalent to a high school diploma. Closing date: 5-1-80.

WHO...WHAT...WHEN...WHERE?

Donald A. Grinde Jr., History, has assumed the office of Acting Chairman of the Central Coast Indian Council.

Calvin Wilvert, Social Sciences, has an article titled "Fighting the Raclette: Running Out of Gas," published in the Spring, 1980 issue of Cry California.

Shirlene Soto, History, delivered the keynote address for International Women's Day at California State University, Northridge, on March 8. Her topic was The Role of Mexican Women During the Revolution.

Ralph Monteen and Gary San Julian, both Natural Resources Management, attended the Annual Conference of the Association of Environmental Professionals held recently in Monterey. Kim Powleson and Zenis Walley, Students in NRM, environmental services concentration, along with Ellen Rognas, Environmental Specialist for San Luis Obispo County and a recent NRM graduate, presented a panel discussion on the internship program between the county and the department. Seven other NRM students attended, making the group the largest student group at the conference.
FAREWELL KATHY — HELLO JAN. After almost seven years as secretary in the Research Development Office, Kathy Hirase has left the University to marry and move to San Francisco. Those of us who came to know her and depended on her will miss her competent and friendly assistance. We wish her all the best of luck in her new life.

On April 1, Jan Walker joined the office as our new secretary. We welcome her and support her in her new job!

REMINDER — PROPOSAL REVIEW LEAD TIME. Faculty are reminded that normally ten (10) working days are required to process proposals before they leave campus. After final copy is ready, the signatures of the department head, Dean, the Coordinator, Research Development, the Director of Business Affairs, the Foundation Executive Director, and the Vice President or Dean of Students are normally required. Careful planning will allow ample time for review at each of these stages.

* NSF SCIENCE FOR CITIZENS — PUBLIC SERVICE SCIENCE CENTERS. Guidelines for the Science for Citizens—Public Service Science Centers will be available in mid-March. The centers are to provide a focus for community-based and community-wide efforts which encourage scientists to participate in public activities aimed at the resolution of local or regional policy issues with significant scientific and technological aspects, and provide scientific and technical expertise to citizens and citizen groups so that they can better understand and participate in decisions on local or regional policy issues involving science and technology. Public Service Science Centers should undertake and encourage any or all of the following activities: (1) short-term, small-scale research on specific problems associated with locally important science-related current issues; (2) collection, analysis, and dissemination of timely and intelligible scientific and technical information on those problems; (3) planning, workshop, and follow-up activities for balanced and objective public discussion of locally important science-related issues; and (4) programs of public education to develop greater understanding of the scientific and technical aspects of community issues.

PRELIMINARY PROPOSALS: JUNE 2, 1980
FINAL PROPOSALS: AUGUST 1, 1980
(For projects to begin February 1, 1980)

* EXXON FOUNDATION — GRANTS. Grants to educational institutions or organizations that are located in the U.S., its Territories or possessions and that are qualified as eligible charitable donees by the IRS. The Foundation's primary funding goes to projects in the areas of general education, integrative studies, innovations in teaching and learning, and economic research and management of higher education. Funding will NOT be approved to: (1) provide operating funds for an existing college or university program; (2) support the adoption of established educational or administrative methods or materials; (3) support projects that may benefit the individual institution but that are unlikely to affect other institutions; (4) provide funds for capital purposes (equipment, buildings, or endowment); (5) fund those standard course or curriculum development activities normally covered by institutional budgets.

DEADLINE: NONE
THE ARCA FOUNDATION - GENERAL PROGRAM SUPPORT. During the last several years the Arca Foundation has examined what it has been doing in the field of philanthropy as far as the fate of the future is concerned. Its programming activity, represents support of institutions and strategies which are concerned with the needs of society while recognizing what resources are available and the constraints on those resources. It looks for the following principles in its project support: (1) Wholistic as opposed to reductionist thinking and practice. (2) a more profound ecological consciousness, with emphasis on reverence for all life forms and attention to the interactions among them. (3) appropriate scale technology, consistent with a greater ecological awareness. (4) increased decentralization of decision making. (5) greater self sufficiency and responsibility on the part of both individuals and communities. (6) an emphasis on the processes which enhance communication and widen participation. (7) a continuous search for ways these concerns can be grounded in higher purpose.

Because it is difficult for a small foundation to carry the financial load for large requests, the Arca Foundation has attempted to develop a network of organizations that have been funded, in part, by the Arca Foundation. This network has several common denominators. It is built around community-based activities, i.e., community development, small-scale alternative energy programs, alternative agriculture, intermediate technology, alternative health, and education programs that stress human values and participatory decision making.

DEADLINE: OCTOBER 15, 1980

NATIONAL ENDOWMENT FOR THE HUMANITIES - PLANNING AND ASSESSMENT STUDIES. Projects are sought to support evaluative and analytical work which will aid in understanding national needs in the humanities and in planning programs to meet these needs. Proposals in the following areas are encouraged: (1) collection and analysis of data to assess the trends, financial, material, and human as well as the problem areas in various sectors of the humanities; (2) design of models, techniques, and tools helpful in conducting policy research and analysis and in evaluating the effectiveness of programs in the humanities; and (3) research, development, and demonstration of more efficient management and administrative methods for humanistic organizations. Projects in this area are usually funded only after careful preparation and extensive consultation between staff, specialists, and applicants.

DEADLINE: JUNE 2, 1980

NATIONAL GEOGRAPHIC SOCIETY - RESEARCH GRANTS. Grants-in-aid ranging from a few hundred to a few thousand dollars for one year awarded to Ph.D.s associated with institutes of higher education or other scientific and educational nonprofit organizations, such as museums, to conduct research in the sciences related to geography. These sciences include, but are not limited to, projects in geography; anthropology; archeology; astronomy; general biology; botany; ecology; ethnology; geology; glaciology; marine biology; mineralogy; oceanography; paleontology; and zoology (including entomology, ornithology, mammalogy, and primatology.) Support may also be provided in the above fields which involve exploration. Grants are very occasionally awarded to graduate students or scientific workers who do not have research degrees or who are not associated with a university, but who do have full qualifications for significant scientific research. However, for the most part, Ph.D.s are preferred.

DEADLINE: NONE
