IT'S 'POLY ROYAL' TIME AGAIN!

Huge tractors with high rpm engines will be featured both Saturday and Sunday at the airstrip on campus. Championship-style Intercollegiate rodeo will be presented in the rodeo arena, also on both days. Amateur singing, dancing, and other musical and comedic talent will be presented for free on a large stage in front of the library.

For those with an eye toward the future of living structures, Design Village in Poly Canyon displays student designed and built homes of a variety of materials. The Craft Center will present one of its twice-yearly sales during Poly Royal. Pottery, woodwork, photography, silver and gold ornaments will be sold at moderate prices.

Friday afternoon, Cal Poly will be pitted against its sister campus, Cal Poly Pomona, in a baseball game in Mustang Field at 2:30 pm. Admission will be $1.25 for the general public, and 50 cents for students. Cal Poly's Rugby team will play the semi-professional San Luis Obispo Rugby team in the stadium on Saturday at 1 pm.

For those who haven't tasted the exotic foods offered throughout the campus in the student club concession stands, Delta Sigma Phi fraternity will offer their Santa Maria style barbeque and other exotic foods offered throughout the course of the weekend. Among the features will be free cartoons, pony rides, a petting zoo, a chemistry magic show, a haunted house and face painting.

With preparations completed, the Poly Royal Executive Board of Cal Poly, San Luis Obispo, is ready for the 48th annual Poly Royal weekend, Friday and Saturday (Apr. 25-26). The popular event, which normally attracts more than 100,000 people over the two days, will begin with opening ceremonies in the University Union plaza on Friday (Apr. 25) at 10 am.

On the dais for the opening will be President Warren J. Baker, Honored Guest Owen Servatius (Business Administration), 1980 Poly Royal Queen Donna Rooney and her court of princesses, and Ken Pedersen, Poly Royal Superintendent. Welcoming remarks will be presented, and the ROTC Color Guard will present the flag while the Cal Poly Symphonic Band plays the national anthem. Guests from Cal Poly's sister campus, Cal Poly Pomona will be in attendance with representatives of their annual counterpart, Poly Vue.

Following the 10 am ceremonies, the campus will be open with plans set for the biggest and most expansive Poly Royal since the event's 1933 beginning. There will be special entertainment for children, along with the normally scheduled special events such as rodeo, equestrian demonstrations, food concessions, and other festivities. Among the features will be free cartoons, pony rides, a petting zoo, a chemistry magic show, a haunted house and face painting.

BYU dancers will perform

Dances from around the globe will be performed at Cal Poly by Brigham Young University's International Folk Dancers on Wednesday (Apr. 30). The 8 pm show, which is open to the public, will take place in the main gym. Tickets are $2 per person and $5 for an entire family.

The 48-member troupe will perform dances from Poland, Yugoslavia, Austria, Bulgaria, Lithuania, the Ukraine, Hungary, Armenia, Mexico, Israel, and the United States. The dancers wear authentic costumes of the nations being depicted in the dances. The dance group was formed in 1956 and has performed at Lincoln's Center and Carnegie Hall in New York, and throughout Europe.

Tickets for the dance concert can be purchased in advance at the University Union ticket desk, or at the door on the night of the show. The sponsors, the Latter Day Saints Student Association, is affiliated with the Cal Poly ASI.

Cal Constitution described

A traveling exhibit in observance of the 100th anniversary of the California Constitution will be on display at the Library through April. The informational exhibit, titled "Centennial Celebration," is sponsored by the League of Women Voters of California as a way to present little-known facts about the state's constitution.

During Poly Royal, members will be present at the exhibit to answer questions. The exhibit contains information about the formation of the state constitution, the politics involved, the constitutional convention and the public's reaction.

The history of the California Constitution is little known. The formation process began in 1878 when a convention was called in Sacramento to write a basic framework for the printed document. Months of work produced a lengthy draft which was termed as "a bundle of compromises." On May 7, 1879, the constitution was ratified by only 11,000 votes.

Since its passage, the constitution has been amended over 350 times. The traveling exhibit was first displayed last May in Sacramento at the Secretary of State's Office.

Books at High Noon

Dirk Walters, Biological Sciences, will be the speaker at the April 29 meeting of Books at High Noon. Dr. Walters is a plant taxonomist with an avocation in ethnobotany. He will review The Power of Plants by Brendan Lehane. Slides will be shown.

A faculty member since 1969, Dr. Walters did his undergraduate work at Western Illinois University. He received his MA and PhD from Indiana University. Books at High Noon is sponsored by the University Library. The programs are held at noon in the Staff Dining Room. Faculty and staff are invited to attend.

Poly Royal Food Service Hours

The following is a list of Food Service operating hours established for Poly Royal:

FRIDAY, APRIL 25
- Vista Grande Restaurant: 11 am to 9 pm
- Snack Bar: 8 am to 5 pm
- Burger Bar: 10 am to 12 midnight
- Ice Cream Parlour: 11 am to 10 pm
- Sandwich Plant: 8 am to 2 pm
- Staff Room: 7 am to 4 pm
- Vending Cellar: 7 am to 5 pm
- Student Dining Room: 6:30 am to 9:30 am Breakfast, 10:30 am to 1:30 pm Lunch, 4:30 pm to 7 pm Dinner

SATURDAY, APRIL 26
- Vista Grande Restaurant: 9 am to 8 pm
- Snack Bar: 8 am to 5 pm
- Burger Bar: 10 am to 1 am
- Ice Cream Parlour: 10 am to 5 pm
- Sandwich Plant: 8 am to 2 pm
- Staff Room: 8 am to 10 am Breakfast, 10:30 am to 1:30 pm Lunch, 4 pm to 7 pm Dinner
- Vending Cellar: Closed
- Vista Grande Cafeteria: Closed

SUNDAY, APRIL 27
- Vista Grande Restaurant: 9 am to 8 pm
- Snack Bar: 12 noon to 12 midnight
- Burger Bar: 10 am to 12 noon Breakfast, 12:15 pm to 2 pm Lunch, 4 pm to 7 pm Dinner
- Student Dining Room: 12:15 pm to 2 pm Lunch

The Snack Bar, Ice Cream Parlour, Sandwich Plant, Staff Room, Vending Cellar and Vista Grande Cafeteria will be closed Sunday, April 27.

Faculty/staff priority registration

Priority registration has been authorized for qualified Cal Poly faculty and staff who intend to enroll for the 1980 Summer Quarter through the Computer Assisted Registration (CAR) process. Faculty and staff who have been approved for fee waivers by the Personnel Office are qualified automatically for priority registration. All other faculty and staff who desire priority registration should contact the Registrar's Office, Adm. 220, on or before May 2.
Dramatic incident demonstrates increased campus safety

At least one life saved and a reduction in the number of job-related accidents have resulted from safety education program that began in 1976 at Cal Poly. Donald Van Acker, environmental health and safety officer, reported this week that the life saving incident occurred on Dec. 10, when an emeritus member of the university faculty suffered what doctors describe as a major heart stoppage at Vista Grande Restaurant.

The 80-year-old former faculty member was stricken as he prepared to leave the building. Julie Ambach, hostess at the restaurant, responded to the plea of the victim’s wife for help by telephoning for emergency medical aid from the Cal Poly fire service and rushed to the victim’s side to begin cardiopulmonary resuscitation.

Christina Smith, a student who had also recently received CPR instruction, happened by at that moment and began giving mouth-to-mouth resuscitation while Mrs. Ambach gave cardiac compressions by applying rhythmic pressure to his chest.

When emergency medical technicians arrived at the scene moments later, they credited Miss Smith and Mrs. Ambach with the “best CPR technique we ever saw,” and physicians who have been attending the victim since credit them with saving the man’s life.

“In fact, the victim has been able to return to his normal daily routine after having been hospitalized for a time and completed recuperation at home,” Van Acker said. The incident is the most dramatic, but certainly not the only, favorably result of the campus safety education program begun at Cal Poly over three years ago, he added. A reduction of over 13 percent in the number of work-related accidents and injuries has also occurred.

In addition to the CPR course, which the American Red Cross has provided for over 230 university employees since June, 1978, the university’s safety education program has included short courses in accident prevention, eye safety, noise exposure, radiation safety, agricultural equipment operation, chain saw safety, and prevention of occupational cancer. Being planned for the next six months, according to Van Acker, are repeats of the accident prevention and agricultural equipment operation courses, a new course in pesticide safety, and periodic sessions of the CPR course.

Lost/found/surplus sale

There will be a sale of all unclaimed lost and found articles and all surplus property articles on Tuesday (May 6) between 8:30 and 3 pm in the University Warehouse (Building #70). Tuesday will be used for the receiving of bids. Bids will be compiled on Wednesday (May 7) and lists of highest bidders will be posted on campus. All highest bidders will pickup items on Thursday (May 8) ONLY, between 8 am and 3 pm.

Friday (May 9) will be used for 2nd and 3rd highest bidders to claim items not claimed by highest bidders. 2nd highest bidders will claim items between 8 am and 11 am and 3rd highest bidders will claim items between 12:30 pm and 3 pm.

The University reserves the right to reject any and all bids, 6% sales tax will be added to all bid prices.

Summer and Fall Quarter CAR

CAR forms will be prepared (preprinted with student name and social security number) for all continuing students eligible to enroll for either the Summer or Fall Quarters; however, the forms will not be preprinted to indicate the quarter, so the forms which are not used for Summer can be used for Fall Quarter registration. For students who intend to enroll for both quarters, additional CAR forms will be prepared early Summer Quarter for Fall registration. Dates are listed below:

- Apr. 24-CAR materials for all continuing student delivered to departments.
- Apr. 28-Summer Quarter CAR materials distributed by departments to students planning to attend Summer Quarter (Forms which are not used for Summer registration should be retained for use during Fall registration.)
- May 9-Summer Quarter CAR materials due from students. (Last day to pay fees.)
- June 6-Fall Quarter CAR materials should be distributed to those students who are planning to attend Fall but not Summer Quarter. (Students registering for Fall Quarter who desire to submit their CAR materials and pay fees before leaving campus should be advised that no processing will take place before July 21.)
- June 19-Late registration begins for Summer Quarter.
- July 10-Fall Quarter CAR materials delivered to departments for those students enrolled Summer Quarter.
- July 14-Fall Quarter CAR materials distributed by departments to students planning to attend Fall Quarter.
- July 25-Fall Quarter CAR materials due from all students. (Last day to pay fees.)
- Sep. 22-Late registration begins for Fall Quarter.

Persons advising students should remind them to bubble the appropriate quarter on their forms, to use a #2 pencil and to bubble the correct schedule code numbers so that their forms are processable. Questions may be directed to Lezlie Labhard or Laura Huffman at the CAR Office, Trailer 52-T2 or Ext. 2816.
Candidates for positions on the faculty of the University are presently being sought, according to Donald L. Shelton (Director of Personnel Relations). Those interested in learning more about the positions are invited to contact the appropriate dean or department head. This University is subject to all laws governing Affirmative Action and equal employment opportunity including but not limited to Executive Order 11246 and Title IX of the Education Amendments Act and the Rehabilitation Act of 1973. All interested persons are encouraged to apply.

CSUC Board of Trustees has recommended a general 11% cost of living increase effective July 1, 1980.

Lecturer, $17,940-$22,620/year; dependent upon qualifications. Environmental Engineering Department, School of Engineering and Technology. Positions for the 1980-81 academic year, commencing September 15, 1980. Master's degree in an engineering field plus industrial and/or teaching experience required. Ph.D. in engineering and professional registration desired. Teaching assignments include thermal science based courses and energy conservation and management. Closing date: 5-15-80.

Lecturers, $332-$437/unit, dependent upon professional qualifications and experience, Music Department, School of Communicative Arts and Humanities. Part-time openings for the 1980-81 academic year. Classes that may be taught include a three-unit lecture class in Music Fundamentals or Theory I, and one-unit activity classes in Beginning and Intermediate Folk Guitar, Piano and Voice; classes in Intermediate and Advanced Woodwind and Stringed Instruments. Candidates must have had college level training in music, or the equivalent, with successful college teaching experience in the performance area specified. All positions are contingent upon enrollment and available funds. Closing date: 5-22-80.

Lecturer, $4,980-$8,276/quarter; salary based on a 15-unit teaching load and will be adjusted according to assignment. Engineering Technology Department, School of Engineering and Technology. Openings are anticipated from time to time. Summer 1980 through Spring 1981 for part-time lecturers, and an eligibility roster is being established for the following teaching areas: Air Conditioning and Refrigeration; Electronics; Manufacturing Processes; Mechanical; Welding Technology; and Engineering Drawing. Duties of lecturer include teaching lecture and laboratory classes to students at all levels as well as senior project advising. Industrial experience and a Bachelor's degree in an area related to the teaching assignment is required. Master's degree, teaching experience, and registration as a Professional Engineer preferred. Closing date: 5-16-80.

Assistant Professor, $16,368-$19,680/academic year, Crop Science Department, School of Agriculture and Natural Resources. Full-time position teaching courses in Pest Science and Pest Control. Duties will include teaching courses in pest management, pomology, California fruit growing, plant propagation and other fruit science courses. Duties will also include advising students on undergraduate research and thesis and production enterprise projects. A Master's degree in Horticulture with a minor in Pest Control or a Master's degree in Pest Control with a minor in Horticulture. A doctorate is desirable. Teaching and production experience will be considered. Position available September 1980. Closing date: 5-15-80.

Assistant Professor, $16,368-$19,680/academic year, Crop Science Department, School of Agriculture and Natural Resources. Full-time position teaching courses in Crop Science and Pest Control. Duties will include teaching courses in pest management, forage crops, cereal crops, and other beginning agronomy courses. Duties will also include advising students on undergraduate research and thesis and production enterprise projects. A Master's degree in Agronomy with a minor in Pest Control of a Master's degree in Pest Control with a minor in Agronomy. A doctorate is desirable. Teaching and production experience will be considered. Position available September 1980. Closing date: 5-15-80.

The Foundation is accepting applications for the following open positions as announced by J.L. Fryer, Personnel Officer. Interested applicants may apply at the Foundation Personnel Office, University Union Building, Room 212, 546-1121. Cal Poly Foundation is subject to all laws governing Affirmative Action and equal employment opportunity including but not limited to Executive Order 11246 and Title IX of the Education Amendments Act and the Rehabilitation Act of 1973. All interested persons are encouraged to apply.

Sponsored Programs Administrator, $21,695-$26,148 with full benefits. A department-head position with responsibilities for fiscal and contractual administration of grants, contracts, workshops, conferences, and gifts. Requirements: Bachelor's Degree in Business or Public Administration or related field and three years of responsible experience in grant and contract administration. Extensive experience may be substituted for degree. Closing date: 5-19-80.

Vacant support staff positions have been announced by Robert M. Negranzi, Staff Personnel Officer. Descriptions of the positions and other vacancies are posted outside the Personnel Office, Adm. 110, Ext. 2236. Contact the Personnel Office to obtain an application. The University is subject to all laws governing Affirmative Action and equal employment opportunity including but not limited to Executive Order 11246 and Title IX of the Education Amendments Act and the Rehabilitation Act of 1973. All interested persons are encouraged to apply.

CSUC Board of Trustees has recommended a general 11% cost of living increase effective July 1, 1980.

Custodian, $858-$1,025/month, Plant Operations. Duties: Sweep, scrub, mop, and polish floors, blackboards, windows, and venetian blinds. Lock and unlock doors and windows, empty trash cans. Cooperate with faculty and staff in moving furniture and equipment. Assist in special activities such as athletic events, assemblies and graduation. Prefer candidates with at least one year of custodial experience. Hours: 10:30 pm to 7 am, Monday-Friday. Closing date: 5-8-80.
**OFFICE OF NAVAL RESEARCH - SELECTED RESEARCH OPPORTUNITIES.** The Selected Research Opportunities Program, while part of the Contract Research Program, places emphasis on larger, multidisciplinary projects and specifically encourages the academic researcher to collaborate with Navy and industrial laboratories. Annual funding levels of $200,000 to $500,000 are appropriate for the SRO program, permitting investigators to assemble enough resources to make a significant impact in the research area. Contracts will normally be written for three years. A set of five research areas of high Navy interest has been selected for this phase of SRO. These are human-computer interaction and decision behavior, highly parallel computation, environmental factors related to ELF/VLF/ULF communications, non-Gaussian signal processing, and environmental effects on optical propagation. Technical descriptions of each area and other information about the SRO program are contained in a program announcement which will be available soon in the Research Development Office.

**DEADLINE: JUNE 30, 1980**

*U.S. DEPARTMENT OF AGRICULTURE - SOLAR ENERGY SYSTEMS FOR AGRICULTURE.* The Science and Education Administration of the USDA expects to award $2,300,000 in grants for projects involving the utilization of solar energy systems for agriculture. The program will support project activities related to the active or passive collection, storage, and use of solar energy, and the utilization of biomass and wind energy as backup systems to direct solar systems.

Approximately half of the funds will be used for projects concerned with the design, development, and analysis of components for active, passive, and hybrid solar systems for single purposes or processes such as crop drying, food processing, heating of livestock shelters, heating and cooling of greenhouses. The remainder of funds will be directed towards the development, system analysis, and integration of multiple-use solar systems utilizing direct solar heating separately or in combination with wind and biomass as backup systems.

**POSTMARK DEADLINE: MAY 9, 1980**

**NATIONAL INSTITUTE OF HEALTH - NEW INVESTIGATORS RESEARCH AWARD.** All new and young investigator awards sponsored by the NIH have been united under the New Investigator Research Award program for individuals who have not previously been principal investigators on a Public Health Service project. The program is designed to encourage new investigators in basic or clinical sciences to develop their research interests and capabilities in biomedical and behavioral research within the program interests of the NIH. Awards provide salary up to $25,000 plus fringe benefits and technical support and require at least a 50% commitment of time or effort. Support may be awarded for up to three years. Awards are not renewable but continuation of support may be sought as a regular research grant.

**DEADLINES: JULY 1, NOVEMBER 1, 1980 March 1, 1981**

**NATIONAL SCIENCE FOUNDATION - RESEARCH INSTRUMENTATION PROGRAM.** NSF still has approximately $1.5 million to award this year under its Two-Year and Four-Year College Research Instrumentation Program which is designed specifically for undergraduate institutions through the purchase of equipment which is necessary or highly desirable in conducting one or more specific research projects. Especially targeted for support are relatively new researchers not yet in a position to compete for major research awards, but whose competitive positions might be significantly altered by the completion of research.
with the equipment sought. The maximum grant award is $25,000 and no unit of equip-
ment for which support is being requested may cost more than $25,000 (net cost after
discount or application of rental credit), irrespective of what portion NSF pays.
The purchase of equipment, which can be shared to enable the pursuit of specific
research by two or three researchers, is particularly likely to be supported. To date,
a very large proportion of applications received have been funded. Copies of brochures
have been distributed to and are available at most applicable departments and also the
Research Development Office. This program's budget for 1980-81 has been severely cut,
so the time to apply is now.

DEADLINE: NONE

CSUC STATEWIDE ENERGY CONSORTIUM - ENERGY EDUCATION IN-SERVICE INSTITUTES. Funds are
available from various sources through the CSUC Statewide Energy Consortium to conduct
energy education in-service institutes for elementary and secondary school teachers.
If you wish to conduct such an institute during the coming summer or next academic
year, initial phone contacts should be made with one of the following individuals:
George Marich (Chevron), (415) 894-3983 (Chevron is interested in $3,000-4,000
projects dealing with applications of conventional energy technologies), or
Lawrence Baack (Pacific Gas and Electric), (415) 781-4211, Ext. 3479.

*** NATIONAL BUREAU OF STANDARDS - ECONOMIC ASPECTS OF FRACTURE. The National Bureau of
Standards has set a May 21 due date for RFP-17-80, to study the economic aspects of
unintended fracture and the prevention of fracture. The study is to be concerned
with all structural materials used for construction and manufacture of large engineer-
ing structures, mechanical components, containers and consumer goods, e.g. metals
and alloys, ceramics, glasses, polymers, concrete and aggregates, composite, and wood.
Costs arising from injury and loss of human life, as well as engineering and systems
costs are to be assessed. Contact: National Bureau of Standards, Procurement Office,
Boulder, CO 80303, (303) 499-1000, Ext. 3221.

*** INTERNATIONAL RESEARCH AND EXCHANGE BOARD (IREX) has announced availability of travel
grants for senior scholars in the social sciences and humanities. The purpose of
this program is to award grants to prominent American scholars to facilitate communi-
cation with colleagues in Bulgaria, Czechoslovakia, the German Democratic Republic,
Hungary, Poland, Romania, Yugoslavia, Albania, and Mongolia. Applicants should
submit their request in letter form to the Executive Director of IREX, 655 3rd Avenue,
New York, NY 10017. Requests should include the purpose of the proposed visit,
copy of the formal invitation from an appropriate institution in one of these countries,
other relevant correspondence, and a "curriculum vitae".

DEADLINE: NONE

PHONE CALLS can be made directly to NSF staff at little cost to the caller. Simply
call the appropriate NSF office and leave your name, phone number, the purpose of
your call, and the time (Washington, C.C. time) you can be reached. NSF has a
special phone system which allows it to assume the expense of sometimes lengthy phone
conversations.

* Guidelines and/or application forms available in the Research Development Office.
** Information Requested/Available Soon.
*** Contact Agency Directly.
POLY ROYAL: FEATURED LIBRARY DISPLAYS, DEMONSTRATIONS

- COMPUTER DATABASE SEARCHES. The Automated Retrieval/Interlibrary Loan Department, Room 109, will demonstrate the Lockheed Dialog System used by the Library to search over 100 databases covering a wide range of subject areas.

- EDUCATIONAL RESOURCES IN THE 80'S. Learning Resources and Curriculum Department, Room 208, will display and demonstrate a wide range of advanced educational tools including audio and video tape, video disc, and slide presentation.

- ROCKWELL INTERNATIONAL - SPACE SHUTTLE. A popular display last Poly Royal, the Documents and Maps Department, Room 206, will this year present a larger and expanded display of the Rockwell Space Shuttle. All those interested in the current U.S. Space Program should plan to see this exciting display.

- HISTORY OF THE CALIFORNIA CONSTITUTION. Prepared by the California State Archives, this display documents the history and development of the California Constitution using facsimile reproductions of original documents. The display is sponsored by the League of Women Voters and is located in the 2nd floor lobby.

- REFERENCE MATERIALS - VSMF COLLECTION. The Reference Department, Room 108, will display new and varied reference works with Librarians on hand to explain their use. Demonstrations will also be given in the use of the recently acquired VSMF - Visual Search Microfilm Service. Those in Architecture and Engineering who have not seen this valuable search tool should come by during Poly Royal and ask for a demonstration of VSMF.

- MICROFICHE COLLECTION INDEX. Located in the 1st floor lobby, this is a "preview of things to come" exhibit/demonstration that will acquaint visitors with a collection index (card catalog) on microfiche. This kind of index is expected to be used by the library in the future, and will eventually replace the currently used catalog card/drawer system.

CAL POLY HISTORY — UNIVERSITY ARCHIVES

To get in the mood for this year's Poly Royal theme of Transition Through Time everyone should plan to visit the University Archives, located on the 2nd floor of the Library in Room 210D. The Archives houses materials that document the history of Cal Poly from its beginning in 1903 to the present time. Drawing from its collection of over 10,000 photographs, the University Archives will have on display a pictorial history of Cal Poly's "Transition Through Time," which should be of interest to all. Some of the photographs to be on display were those used in this year's Poly Royal poster and other campus publications printed for the event.

Copies of the Cal Poly yearbook dating back to 1906 will be available for browsing to Cal Poly nostalgia buffs, and visitors will be able to leaf through scrapbooks and old copies of the Mustang Daily. Another attraction which can be enjoyed by both new and old Cal Poly visitors will be movies of Poly Royal in years past. These celluloid pieces of Cal Poly history will be shown throughout the day on both Friday and Saturday.
LIBRARY OFFERS POLY ROYAL TOURS, DISPLAYS, DEMONSTRATIONS

Visitors to the Library this Poly Royal will have the opportunity of seeing many exciting new developments in the library field, designed to aid and benefit the library user. On display and demonstrated will be a card catalog on microfiche, the VSMF product and standards collection, and on-line computer searching of over 100 data bases. In keeping with the Transition Through Time theme of this year’s Poly Royal there will be a display of historical photographs of Cal Poly along with floor plans and photos of the new Robert E. Kennedy Library.

Begin Poly Royal in the Library with one of the tours to be given by the library staff. Tours will be given as follows:

Friday, April 25; 1 p.m., 3 p.m.
Saturday, April 26; 10 a.m., 1 p.m., 3 p.m.

The tours will last about 15 minutes and will begin in the foyer near the library entrance.

MUSIC—STORYTELLING—MIME

In the 1st floor lobby of the library there will be unique Poly Royal entertainment for both children and adults. For the children there will be a combination of storytelling and mime done by Charlene Brock and Teri Jewell. Following these performances will be a presentation of chamber music by the Midnite Mouse Chamber Group. Scheduled performance times are:

Storytelling-Mime, Fri.-Sat. 12:15, 2:15
Chamber Music, Fri.-Sat., 1:15, 3:15

NEWSPAPER HEADLINES

Would you like to know what happened in the world on your birth date? This Poly Royal in the Periodicals and Microforms Department, Room 108, there will be a display of the Library’s extensive microform collection and microfilm equipment. For all interested persons the Department will also be offering a reproduction of the front page of a popular newspaper published on that person’s birth date. Visitors can choose a front page from the New York Times, San Francisco Chronicle, London Times, or San Luis Obispo Telegram Tribune.

KENNEDY LIBRARY DISPLAY

In September, Cal Poly will experience the long awaited opening of the Robert E. Kennedy Library. In anticipation of this event, Poly Royal visitors to the Library will be presented with a display of plans for the Kennedy Library, photographs taken during the construction phase, and an artist’s conception of the completed structure.

The largest building on campus, the five-story structure will have a net area of 157,875 square feet, providing space for 625,000 volumes, and having 2,500 reader stations. Some special features will be a central courtyard, outdoor reading terraces, three typing rooms, thirteen group study rooms, and a faculty reading room. The total project will be 11.5 million dollars and the project will have taken 2 ½ years to complete.
