Free Angela rally here

by Ahmos Zu-Bolton II

A BSU sponsored "Free Angela" rally was held at high noon in front of the Student Union. About 20 students attended the rally, but very few voiced their opinions.

Doyle McGhee, newly elected BSU President, said, "Angela will never get a fair trial, the media and the Chief Pigs have already convicted her,"

"A great Freedom Fighter and never get a fair trial, the media and the Chief Pigs have already convicted her," said the symbol of the Black Struggle.

"Angela McGhee, a BSU sponsored 'Free Angela' banner was placed in front of the Court Building, and then the rally broke up quietly.

The California Judiciary System caused the murders in Marin County, he continued McGhee, "40 per cent of all prisoners in the state pens are Black and it is our duty under the Declaration of Independence to free them."

"What some people don't realize" countered McGhee, "is that revolution means bloodshed.

McGhee then asked for comments from other students. After a brief delay an unidentified female student noted that "long-haired-peace groups and Black Panthers" seemed to be debating for the title of most oppressed.

Richard Walker, another BSU member, stated that "we're not here to turn the boat over, we just want to make sure that it's steered right."

Everett Chandler, Dean of Students, was asked what he thought about the Angela Davis case.

"I don't really have enough details concerning the case," replied Dean Chandler, "but I do agree that Blacks don't get a fair shake in the courts."

"Blacks don't make as much money as some people," continued Chandler, "therefore they can't afford the best lawyers.

John Brown, BSU Vice-President, attacked this statement, saying that "the court system is gonna kick us in the face just because we are Black. Even a great lawyer can't talk prejudice!"

McGhee then announced that a demonstration was to be held at the County Courthouse. He urged students to "show their concern for Angela to the townspeople."

Only about 30 students attended the Courthouse Rally. They marched orderly through the main building and proceeded down Monterey Street chanting "Free Angela."

A "Free Angela" banner was placed in front of the Court Building, and then the rally broke up quietly.

Two on counseling staff author psychology book

A psychology text which may also be used for self-study has been authored by two members of the Counseling Center staff on campus.

Dr. Robert E. Alberti and Dr. Michael L. Emmons are co-authors of Your Perfect Right: A Guide to Assertive Behavior. The book, printed In Arizona and published by San Luis Obispo, is described as a guide to the development of assertive behavior for persons who have problems of non-assertiveness or aggression. It is particularly designed for use by teachers, counselors, and personnel workers in schools and colleges.

The authors contend that many students and others are troubled by non-assertive or aggressive behavior because they are unable to assert their "perfect rights" in an appropriate manner.

A section of the book deals with the process of assertive training and is also intended for use by psychiatrists, psychologists, marriage and family counselors, pastors, social workers, rehabilitationists, and employment counselors.

Examples are given of assertive behavior situations encountered in business, school, family, and work settings.

Dr. Alberti is a graduate of this campus and later received his M. A. degree from California State College at Los Angeles and his Ph.D. from Michigan State University prior to joining the college counseling staff in 1966.

Dr. Emmons is a graduate of the University of Illinois. He also received his M.A. degree from that institution and his Ph.D. from the University of Wyoming prior to joining the counseling staff in 1968.

Spring quarter is frozen

No new students will be accepted for spring quarter. This was the word yesterday from Pres. Robert E. Kennedy. Kennedy also said that the projected total enrollment for next year will be no larger than this years final average of 11,700 full time equivalent (18 unit or more) students.

This means that the possibility exists that next year might see a closed winter and spring to new students to keep within the projected capacity.

Kennedy also said that letters sent to "some 3,600" students who had this campus listed as their first choice and could not gain admission to colleges that were second and third choices. The letter will inform the students that although the Fall quarter on this campus is full, a student may gain admission to the college by getting accepted summer quarter and remaining for Fall enrollment.

Tom Dunigan, director of institutional research, said that 300 summer quarter students are expected to enroll, 1200 of these students being new. Dunigan also said that the total for next Fall's enrollment is 12,370 full time equivalent students, of which about 3,000 are now or transfers.

Dunigan said that the 12,370 full time equivalent students should fall off with the usual attrition rate in Winter and spring quarters, but that Winter quarter may be closed to new students if the projected total enrollment looks as if it may be exceeded.

Trustees hear cases

At the Los Angeles meeting of the State Board of Trustees yesterday the major issue was the hearings of several disciplinary cases. The Trustees heard the case of a Mathematics Department head at Cal State L.A., Prof. Eckert. Eckert was cited for allegedly getting paid for teaching at Cal State L.A. while he was actually teaching somewhere else. The Trustees will make their final decision on Eckert at today's meeting.

Professor James Freeman, a Psychology Instructor from San Bernardino State, is accused of falsifying faculty evaluation reports. Freeman allegedly submitted a faculty evaluation without interviewing the subject.

The Trustees also heard the case of a Psychology Instructor from San Bernardino State, accused of falsifying faculty evaluation reports. Freeman allegedly submitted a faculty evaluation without interviewing the subject.

Freeman has reportedly admitted part of the accusation. The issue will probably be tabled until next month's meeting, according to news sources.

Another major issue of yesterday's meeting was an 18-page statement on education by State College Chancellor Glenn S. Dumke. The Chancellor has indicated that he believes graduation from college should be based on the ability of the student to pass examinations rather than on his accumulated units. Dumke also called for a more individualized outlook on education for college students.
Colt sale totals $8,400

Four Thoroughbred colts from this school were sold in an auction for $8,400 in the California Thoroughbred Breeders Association Winter Sale at Pomona.

The school's top selling colt was Peppa's Picture, by Peppa's Picture, $2,700, $2,700, $2,700, $2,700, $2,700.

Plane probe on Venus

In addition to the Mars ex-
ploration, the United States plans
missions to other planets. The
plan for Mercury for the first time in
1972. And two Pioneer probes will
be launched in 1972 and 1975 on two-year, half-billioni
mile missions to within 100,000
of the planet.

The space agency had hoped to
launch its first water probe in the
upcoming fiscal 1972 to start work on
its ambitious series of automated
spacecraft to carry out carefully
chosen experiments.

The fate of the grand tour
plan is now in doubt, however, because
of the budget squeeze.

AIA guest on campus

Attention Architecture majors. Another
chance to see at 8 p.m. in the
Architectural Gallery, the Vice
President of the American Institute
of Architects, Jeffrey Ellis
Aronin, will speak. His topics will
touch on the subject of student
involvement, "What is the role of
the student in a professional society?"
Aronin, 43, has been a guest
lecturer at over 30 architectural
courses, has served on the
Mayor's Panel of Archivists in New York City, has conducted a
weekly radio series in New York for11 years and is a prominent
worldwide figure on architectural circles.

The featured guest speaker is
visiting the campus for the entire week. A resident of New York,
Aronin is visiting the work site of the
students offering help and
criticism. He is license in several states and is certified by the
National Council of Architectural Registration Boards.

CERR field trip

The California College Republicans are planning to take
their annual field trip to four schools near
Sacramento this coming February. Prior to the trip, members will take part in
the State Central Committee meeting
in January 30 and 31. On Monday,
February 1, the members will meet various state officers
and legislators.

For further information about the trip and CCR membership,
call Mike at 543-831.

Groggs plunder LA club, test Fullerton Finlanders

This school's Rugby Club reached its top performance of the season last weekend in swamping perennial power L.A. Rugby Club 36-4. The Groggs employed a strong overall team effort to overcome the size advantage enjoyed by the Los Angeles club. Scrum half-back and coach Dave Ritchie attributed the overwhelming, victory "not only to our fine ability, but also to our hardline training program."

The contest was never close. Gary Abate broke loose for four tries, two on runs of 60 and 70 yards, as the Groggs leaped ahead in the first half. Backs Jon Garteiz and Bill Matthews also enjoyed strong performances, each scoring tries and containing the L.A. captain, Ed Johnston. Others instrumental in the victory were Al Coelho, kicker Jan Juric and Vic Riviera. The Groggs, favored by the Southern California Rugby Union to take the conference title, are now 1-0 in the season. Saturday, Jan. 30 they tangle with the Cal State Fullerton Finlanders in a 1 p.m. away match.

Sophomore Steve Gardner has been selected Mustang "Wrestler of the Week" for his efforts in Cal State Long Beach and UCLA does a great deal of his winning coach Vaughn Hitchcock. "He has tremendous drive and desire," said Gardner given U.S. International University, swamping perennial state power the season last weekend in impressive victories against L.A. Rugby Club 26-8.

Action occasionally at 150 wrestlers. His normal weight class is 143 although he never action occasionally at 150. "He has (Gardner) tremendous drive and desire," said coach Vaughn Hitchcock. "He does a great deal of his winning by sheer determination."

Arms for an emergency. Selective Service canceled registration freeze, so don't let your card expire. It's time to register or re-register. New registration deadline is March 15, 1971. This is your opportunity to serve your country. It's your country, and you have the freedom to serve it. For information, call 543-1444.

Strong sports column this week

The Mustang Daily sports department has as a goal the complete coverage of campus athletic events. In order to realize that goal, additional sportswriters are urgently needed. Interested persons interested in logical and circuit design and implementation of on-line executive office, design of test equipment to check out diagnostic programming, work involves creative use of existing computer logic for automatic diagnosis of hardware failures. Specific activities include writing programs to de-bug function specifications and/or programs to verify hardware capability, writing test outlines, coding, de-bugging and documenting programs. Positions require a degree in computer science, mathematics or electronic engineering.

Software Development Various positions exist involving origina- tion, design, development and implementation of complex software systems. Development of original functional design and processing techniques, design and implementation of state-of-the-art data base/file management software and a large-scale on-line multi-programming executive, design, flowcharting, coding and implementation of on-line executive software modules. Positions require a degree in computer science) or software development.

Diagnostic Programming Work involves creative use of existing computer logic for automatic diagnosis of hardware failures. Specific activities include writing programs to de-bug.
