Earthquakes rock L.A. damage and death rise

UPI—California's mightiest earthquake in 16 years smashed sections of Los Angeles and its sprawling suburbs into fire and rubble yesterday, killing at least 81 persons and forcing 160,000 to flee their homes beneath a cracked and leaking earth.

Nearly half the victims died when the earthquake, "like a giant hand," telescoped two buildings at a veterans hospital in the San Fernando Valley into a high pile of rubble. Three others died when a wall collapsed at a new sanitarium two miles away. Others were killed by falling bricks, collapsing freeway structures, and heart attacks.

Nearly 1000 persons were injured. Damage mounted into the millions of dollars. President Nixon declared California a disaster area and dispatched Vice President Spiro T. Agnew to help coordinate rescue efforts.

Governor Ronald Reagan flew to inspect the wrecked veterans hospital at San Fernando where several persons died and the groans of the rapped and dying drifted up to fremen working into the night under arc lights, as they frantically chopped holes in the collapsed roof.

Reagan also flew over the Olive View Sanitarium. He said it looked "like it was made of a child's plaything. It was literally lifted up and dropped."

The quake was centered 40 miles northwest of Los Angeles and fell along 300 miles of California's underground fault network from Fresno to the Mexican border.

High buildings swayed and rainicd bricks and plaster in Los Angeles, where more than 400,000 buildings were damaged. The sidewalks of Hollywood Boulevard were littered with glass. Terrified residents fled to the streets in their nightclothes.

Hundreds of fires broke out from ruptured gas mains. Telephone and electrical services were interrupted. The Los Angeles public schools closed and 400,000 children were sent home.

Washington, UPI—President Nixon welcomed the Apollo 14 astronauts back to Earth and expressed the thanks of a grateful nation for their exploits.

Shortly after the three astronauts arrived aboard the USS New Orleans, Nixon telephoned them to offer his congratulations on their trip. "Once again Earth has welcomed back its own and I join people everywhere in rejoicing both for the safe return of astronauts Shepard, Mitchell and Roosa and the successful completion of their mission," Nixon said in a White House statement. He watched the splashdown on a television set in the office of an aide adjacent to his oval office.

Nixon recalled that it was on May 5, 1961, that Alan Shepard, the Apollo 14 commander, made America's first space flight—a suborbital trip aboard Freedom 7.

"Now, a decade later, he returns from the moon as commander of the three-man crew of Apollo 14. Take the difference between that first flight and his latest as a measure of how far we have progressed in space in the short space of 12 years. But two things have not changed: the courage and determination of the man, plus these minds and the skill and dedication of the thousands here on Earth who make their flight possible," he said.

"To each and everyone of the many people who contributed to the success of Apollo 14, a grateful nation says "well done" and to the astronauts themselves—to Captain Shepard, Commander Mitchell and Major Roosa—we add an equally hearty welcome home."

The Apollo 14 astronauts in quarantine aboard the USS New Orleans. High flying astronauts greeted by sober world

The Charlie Byrd Quintet will present an evening of pop jazz in the Men's Gym this Sunday.

Byrd's musical experiences include study with some of the world's greatest guitarists. He studied at Hartnett National Music School in Manhattan. In 1964, Byrd received a scholarship to study with the Spanish classical guitarist: Andres Segovia.

Byrd's extensive training in classical guitar, in addition to a formidable jazz background, opened up a new level of performance. Byrd did not attempt to synthesize jazz and classical elements into "modern music.

He said, "It's a wedding that the best of both." (Time 8-14-67). His music is better described as jazz played on a classical guitar without a pick or amplification.

In 1962, Byrd and saxophonist Sam Geia recorded Jazz Suite. According to jazz authority Leonard Feather, "...the entire tune base never leaves the United States and may be said to have sprang directly from this album.

Byrd and his Trio have appeared at the Newport, Monterey, Longhorns and Virginia Beach jazz festivals. Byrd has captured every major award available to a guitarist, including Downbeat Magazine's International Critics' Poll and for several years running, Playboy Jazz Awards.

Charlie Byrd

During 1967, Byrd began to work with a quintet. The excellence and versatility of Byrd's sidemen added new dimensions to Byrd's performances, allowing him freer to develop concert programs that never falter in interest for an audience.

Advance tickets went on sale at the Temporary College Union on Monday, and will be available through Friday. Student tickets are priced at $1.50 and all others are priced at $2. Tickets are also available at the following merchants: LaRocca's Village Square, Brown's Music Store, Beeve West, Super Sonic, and Options. Tickets will also be available at the door prior to the 7 p.m. concert.

Byrd soars on Sunday

One of the worst earthquakes in decades struck the Los Angeles area causing millions of dollars of damage. The death rate is slowly mounting.

EDITORIAL

Love to CP

Ah, the agony of the ecstasy.
Paint the block, open the alley.
Let us in, there's hair to be cut.
Feel the grease, yes that's education.
What's that you say about a war?
Sell that land, shovel that dirt.
Hurry, cars are waiting.
There's gas for all.
Someone's rocking the boat! Drown em!
War? yeah that's too bad.
Polly's my life, I love it.
These mountains sure keep the fog.
Yeah that's not all, where's the world?
We've gotta fight to keep
We can't lose.
Jobs are waiting, get the grades.
If you learn too, that's okay.
Fit right In, pay the tax.
I love Polly, such high mountains,
And the war rages on.
Ah, the agony of the ecstasy.

Polly Royal
Queen election starts Monday

Students will begin voting Monday, Feb. 15 to select the 1971 Polly Royal Queen from a field of five candidates.
The candidates were selected during the pageant in the Campus Theater on Friday, Feb. 3. The balloting will be held at four booths on campus on both Monday and Tuesday of the week of Feb. 13.
The Polly Royal Queen, who will be announced at 11 a.m., Feb. 15, at an assembly in the Architecture patio, will reign over the two-day college open-house on Friday and Saturday, April 23-24.

Thirteen coeds representing various clubs sought the right to reign for the 1971 Polly Royal Queen.
The five finalists are Julie Anne Ayers, Sandra Burrham, Paula Mariconi, Harper, Diane Fitch and LIndy Swanson.
The finalists were selected by six judges: ASI Pres. Paul Bankes; Gene Britton of Clarence Brown's Jewelers; San Luis Obispo; Dave Garth, television KHEV, BLO; Mrs. Ann Lavallati of Leisure Arts, 8LO; James Moyer of Jim's Campus Camera; BLO; Bob Timmons, administrative assistant to the dean of students; and Dave Wright, Polly Royal superintendent for 1971.

Station KCPR rebroadcasts KATY signal

By United Press International
Seismologists have devised at least three scales for determining the force of earthquakes. They are the Richter scale, which registers the magnitude of quakes as shown by the movement of seismograph needles, and the modified Mercalli and the Roal-Foral scales, which measure intensity—the amount of damage caused when a quake strikes. The Richter and Mercalli scales are most widely used today.
The Richter scale was devised in the 1930's by Dr. Charles F.

Shakes mark quakes

Richter of the California Institute of Technology, one of the world's foremost authorities on earthquakes, volcanic eruptions and other seismic disturbances.
The scale has no theoretical top limit, although 10 is generally considered its practical limit. Each full number on the scale indicates a tremor one time as strong as the next smallest number. Thus, a quake with a magnitude of 2 is one time greater than a magnitude 1 quake; a magnitude 3 is one time greater than magnitude 2 and 100 times greater than magnitude 1 and so forth.

Using this logarithmic progression, a quake with a billion times more powerful than a tremor with a magnitude of one. The most powerful earthquake ever recorded—in Chile—had a magnitude between nine and 9.5 on the Richter scale. The Alaskan earthquake of 1964 had a magnitude of about 9.3 on the scale.
The Mercalli and Roal-Foral scales, rather than offering a mathematical formula for determining the strength of tremors, instead provide rough guidelines for determining their strength by observing surface effects. The Mercalli scale runs from I, described as "not felt except by a very few under especially favorable circumstances," to 12, "damage total," which would be similar to a quake with the magnitude of 9 on the Richter scale.
The Roal-Foral scale, seldom used today, runs from one to ten and is quite similar to the Mercalli scale.

LETTERS TO THE EDITOR

Editor:

Apparenty there is some concern that the school motto of "learn by doing" may become "learn and that's it." I'm just wondering if that's not such a bad idea anyway.

Personnally, I don't care if I learn by doing, by reading or by osmosis. It's still my sole purpose for being here. I already know about the "Yankee Imperialism." No one has to remind me of the racial problems in this country. I'm well aware of the apparent discontinuities of our present administration. And I even get a through update on those issues every night at six o'clock.

More protest voices of dissatisfaction we don't need. Instead of using the campus as a sounding board for more dissent, why not utilize it as a tool for understanding and solving our massive problems. Who knows, we might learn something.

Garris Lascom
A flag's valiant demise

Not since the days of Betsey Ross has the American flag received as much controversy as we are witnessing as it has during the past year. Used for everything from decorative shirts and ties to red, white and blue sheets and pillow cases, the colors are destined to become a commercial gimmick for the new millennium. It's added color to motorcycle gas tanks and on the asms time It's provided a symbol of freedom and peace to motorcycle gas tanks and at least a number of arrests that, some complain, have every tendency to be discriminatory to young hippie types.

The American flag—a symbol of both pride and dissent—has often been defaced, defiled, or trampled on any flag of the United States. The calls for the first three months of this year are roughly about the same as in the first quarter of 1979, and about half the total of the first quarter in 1971. Pentagon spokesman Jerry W. penn said he expected the 1971 draft total to be somewhat lower than last year.

A past ASI president has been appointed to the governor's staff. Rush Hill, class of '68, is the Assistant to the Educational Advisor, Dr. Alex Herritfts. His job concerns matters that relate to current academic issues, from school on up. Hill will also stand in for the governor when he is unable to attend an educational event.

Hill was ASI President in 1968-69. He graduated with a double major in Architecture and Business Administration.

A housewive in Hapgoague, N.Y., was arrested for flying the flag upside down to protest the war in Vietnam.

The American flag—a symbol of both pride and dissent—is on trial throughout the country by people like Clyde Lager, who has found a new place to display the flag.

Army requests more muscle

The Defense Department yesterday asked the Selective Service System to draft 17,000 for the Army in March, the same total called up in January and February.

The calls for the first three months of this year are roughly about the same as in the first quarter of 1979, and about half the total of the first quarter in 1971. Pentagon spokesman Jerry W. Penn said he expected the 1971 draft total to be somewhat lower than last year.

Mothers ‘zapped’

London (UPI)—A joint concert by the American pop group The Mothers of Invention and the Royal Philharmonic Orchestra at Royal Albert Hall was called off abruptly Monday night when officials objected to the program. The concert was to have been the musical score from the film "200 Motels" to be played by the Mothers and the 110 members of the Royal Philharmonic, led by Frank Zappa, lead guitarist for the pop group.

"We heard rumors about the program," said an Albert Hall spokesman. "The concert as programmed is not acceptable to us." The trouble is not with the music but what it stands for. The film is about the life of a rock group on tour and contains references to drugs and "groupie" girls—teen-age girls who follow rock musicians.

"This must be the first time a classical orchestra has been turned away from a concert it was about to give," said Herbert Cohen, manager of the Mothers. The performance would have been about 75 per cent orchestral plus six or seven individual songs with lyrics. "I don't know why it's been cancelled," said Zappa. "I gather the management thinks the script is obscene."

Way to diploma-leather

"Blond, 17-year-old Tony Kassebaum is taking part in a "lifelong learning experience" by running his own business. Kassebaum has opened a leatherwork shop in student owned and operated Gaylord Galleries.

Kassebaum is getting credit towards his high school diploma by running his shop through the U. C. Berkeley Extension program.

"It works much the same way correspondence courses do," he explained.

Tony operates out of a corner in the Gaylord Galleries. Belts, visors, and purses are his specialties.

Veiled in mystery

"It was really terrific," says Bobbi Burgess about the Leadership Conference she attended last November. Miss Burgess, a junior dietetics major, didn't really want to go to the conference, but was "talked into it by friends." She says it ended up being a "great experience," and "it teaches you how to talk to people.

Gregg Cato, a senior in business administration, was at the November conference too. He says through the group situation at the conference "you get to know yourself a lot better." Cato says "everyone should go to one of them."

"It's called a Leadership Conference," says Joyce Burns, of them." The sophomore leader, but for your own personal satisfaction. "I didn't know what to expect," Hurley says, "but it was really worthwhile, and it gives you a lot more things at the February conference."

Exactly what goes on at a Leadership Conference is something which remains veiled in mystery. "We really don't like to say," Vilhauer says, "because the reactions from people are better if they don't know what to expect."

If you're thinking you missed out on an opportunity to learn to talk to others, learn a lot about others, and get to know yourself better by not attending the Leadership Conference last November, you're right. But you have another chance, if you go to the next Leadership Conference which will be held Feb. 14-15, according to Gary Vilhauer, chairman of the ASI Leadership Conference Committee.

In the last long open call for the conference, and should contact the ASI for all 60 spaces are filled. Students and faculty members may attend the conference, which will be held at Cachuma Camp at Lake Cachuma near Santa Barbara, began Feb. 1 and will continue until all 60 spaces are filled. Students and faculty members may attend the conference, which will be held Feb. 14-15, according to Gary Vilhauer, chairman of the ASI Leadership Conference Committee.

Goose rhymes

If you have a yen for "Chinese Mother Goose Rhymes" the College Theater during College Hour is the place for you to be. Music maestros Harold P. Davidson and Graydon Williams will be waving the chopsticks as they lead the Women's Glee Club and the Collegians through Thursday's free concert.

Music with an international flavor will be potpourried with contemporary American strains. A handful are: "I Like the Lad With the Golden Hair," "Danny Boy," "Look at That Girl," "I'm a Man," and "Sunny."

Also on the slate are the Majors and Minors, Barbershop, music men and the Collegiate Quartet, another male group known for its renditions of contemporary, popular and folk tunes.

Free tax counsel

Low income taxpayers throughout San Luis Obispo County are getting free help filing their 1970 federal income tax returns from a team of three students from the Business Administration Department.

The free help clinic was announced this week by Dr. George Clueso, interim dean of the school of Business and Social Sciences. Students John D. Askar, Marcia C. Engesser, and James G. Kluck were trained by V. Tony Stapley, manager of the Internal Revenue Service office, to qualify as volunteer income tax advisers (VITA) aimed at advising low income groups with their tax return problems.

A problem for the project is being maintained through F. S. Schmidt, who is IRS district director in Los Angeles.

VITA offices will be located at seven separate communities throughout the county on 11 occasions before the program ends on March 8. The clinicians, which begin this week in Santa Margarita, will be held at the Grass Roots Centers in each of the communities.

The students, who will receive college credit for their part in the program, will place special emphasis on revisions in the income tax laws which were passed in 1969 but apply to returns for the 1970 tax year.

Date, times, and locations where the VITA team from Cal Poly will be available are:
- San Luis Obispo Grass Roots Center—Wednesday, Feb. 24, 7:30-10:30 p.m.
- Wednesday, March 3, 7:30-10:30 p.m.; and Saturday, March 6, 1-5 p.m.
- Paso Robles Grass Roots Center—Friday, Feb. 5, 6-9 p.m.; and Friday, Feb. 12, 6-10 p.m.
- Morro Bay Grass Roots Center—Wednesday, Feb. 24, 7:30-10:30 p.m.; and Friday, Feb. 26, 6-10 p.m.
- Atascadero Grass Roots Center—Friday, March 5, 6-10 p.m.

260 moonlight to JC

by Pat Linder

Why are students enrolled in this college, with up to 18 units, also carrying additional units at the junior college? This is a question brought up at a Business-Social Science Council held recently. Many students take classes at local junior colleges because they feel it is easier there. Also, they might want to avoid a particular instructor, so they take the class elsewhere.

Most of the faculty would rather have the student come to them if there is a problem; this would help avoid future problems, as well as establishing a more harmonious relationship between student and instructor.

Other students take classes at the junior college because there is a smaller number of students, so there would be greater specialization.

Black films shown at 7

by Almone Zu-Bolton

The second Black Film Festival sponsored by the BAU will be held tonight in the Engineering Auditorium. The films will run from 7 p.m. through midnight.

"Dream...I Have A Dream..." is the story of King's life and the forces that brought him to the leadership of his people. The film brings a better understanding of the philosophies and ideals that Dr. King exemplified. The civil rights movement of the 60's and 70's is brought into sharp focus.

"The Heritage of Slavery" is an examination of slavery and the attitudes established during slavery which still persist. In interviews with descendants of plantation owners and present-day black activists demonstrate the parallel between attitudes today and now.

"Body and Soul, Part 1" is an examination of the Black American's contribution to sports America. Harry Edwards, leader of the Olympic Games in 1968, is interviewed along with other top black athletes such as Tommie Smith, Lee Evans, Charlie Greene, June Hines and Ralph Boston.

"Body and Soul, Part 2" is narrated by singer Ray Charles. Charles discusses soul music in detail. He explains that because of isolation and the misery and humiliation suffered by the black man, the music called "soul" has been developed. Singers Aretha Franklin, Mahalia Jackson, and Billie Holiday cry out their souls and dreams.

A pleasant hen must have about 40 days in an undisturbed nesting site to produce a brood.
Two comedies coming

The NewShakespeare Company of Santa Barbara, a professional repertory company, will give two performances on this campus the last weekend in February.

"As You Like It," a romantic comedy, is slated for 8 p.m. on Feb. 27. A second comedy, "A Midsummer Night's Dream," is scheduled for Sunday, Feb. 28th, at 3 p.m.

Tickets for either performance will be on sale at the TCU starting Feb. 22. General admission is $2.50, students $1.50.

Sponsoring the performances on campus is the Fine Arts Committee.

Virginia Woolf

"An evening of fun and games at the home of George and Martha Middleton" is being promised by the campus theater when it presents Edward Albee's play "Who's Afraid of Virginia Woolf." Performances of the contemporary and once controversial dramatic work are scheduled for Wednesday, Thursday, Friday and Saturday (Feb. 17, 18, 19, and 20) evenings. Curtain time each evening will be 8 p.m.

Edward Pinson, a senior majoring in speech who is directing the campus production of Who's Afraid of Virginia Woolf as part of the requirements for his bachelor's degree, describes it as "a gripping play that shocked conservative theatergoers with its debut in 1966. Its approach to life is realistic, unadorned and unembellished by epuhematic parody. The viewer becomes inescapably a part of this vibrating production, seeing, perhaps, reflections of his own life mirrored in the action," Pinson continued.

Who's Afraid of Virginia Woolf is four experienced student actors. Barbara Harris, which Elizabeth Taylor memorably portrayed in the motion picture version of the play. The role of George Middleton will be acted by Bruce Wilkinson, a speech major, and Nick and Honey will be played by George DeLonge and Debbie Ware, both speech students.

An advance sale of tickets for all four performances began this week at the Speech Department office, English 206. Tickets will also be available at the door on the four performance nights. General admission tickets are priced at $1 for students and $2 for others.

Suez Canal is not seen as a path for peace

UPI—Israeli Premier Golda Meir rejected Tuesday Egyptian President Anwar Sadat's proposal to reopen the long-blocked Suez Canal if Israel's frontline troops would withdraw from the occupied east bank of the waterway. She said the proposal was designed merely to give Egypt a "strategic advantage" without advancing the cause of peace.

At the same time, however, Mrs. Meir told the Knesset Parliament in Jerusalem, closed since the June, 1967 war, she said such discussions could include a military desecration on both sides of the canal and the return of civilian life to the canal! desolate. devastated by heavy fighting before the ceasefire last August.

There was no immediate official reaction from Cairo to Mrs. Meir's response to the proposal made last Thursday by Sadat, announcing Egypt's acceptance of an extension of the cease-fire until July or, if Egyptian officials had predicted Israeli would turn down what a new peace initiative.

Sadat had said the partial withdrawal would be the first step in the timetable the Arabs have demanded for the surrender of Israel of all Arab territory conquered in the 1967 war.

The Foreign Ministry in Cairo announced Tuesday that Egypt had called on the United Nations to stop "savage Israeli attacks" on Arab civilians in occupied territories. A memorandum delivered to U.N. Secretary General Thant in New York Monday protested the "increasingly aggressive attitude" of Israeli occupation troop against Arabs in the occupied Sinai peninsula and Gaza Strip. Similar protests were made by the Egyptian Red Crescent, Red Cross to the Internation Arab Red Cross and the Palestinian Red Crescent to Thant, according to Cairo and Amman reports.

Israel dismissed the Egyptian charges as "false and hostile propaganda in a letter delivered Tuesday to the U.N. Security Council president.

The deepest sounding recorded in the Indian Ocean is 25,900 feet.
Matmen ranked eleventh in drive for top ten spot

The Mustangs continue to rank in the top position in the college division rankings. But it is the University class rankings that the grapplers seek. In a battle for the top spot, two Big Eight schools, Iowa and Oklahoma State, fight it out. In the rest of the top ten, the Mustangs will have at least three opponents. Two of them will challenge the grapplers this weekend.

Coach Vaughn Hitchcock explained the rankings are not held like those for football. The rankings are based upon how the Amateur Wrestling News feels that particular team will finish in the University division finals. It does not deal primarily with the outcomes of the dual meets, but the dual meets do have an effect on the rankings.

The latest national rankings by Amateur Wrestling News place the Mustang wrestlers in the number 11 spot. This ranking does not take in the grapplers' recent trip against Michigan, Michigan State and Southern Illinois.

Oregon State, number six, will tackle the matmen Thursday night in the Men's Gym. A critical match comes Friday against Portland State. Though Portland State is behind Oregon State in the rankings, it gave Oklahoma State a scare before bowing, 17-16.

The top team on the West coast will visit the Mustangs later in the season. Washington, number three, has beaten Portland State earlier this year. According to Hitchcock, this week figures to be one of the toughest for his grapplers.

Amateur Wrestling News said in its release that the Mustangs could make into the top ten again before the end of the season. The next ranking will come in the first week of March.

Rileys complete bridal department features an experienced bridal consultant to help you with every detail of your wedding, a bridal gift registry, and, of course, beautiful gowns and accessories for every member of your wedding party. Come in and discover for yourself why the most beautiful weddings begin at Rileys!
Brown, Gill first again in two weekend events

High jumper Reynaldo Brown added another trophy to his collection by setting a Canadian Open record at the ninth annual Telegram Maple Leaf Indoor Games in Toronto, Canada.

Brown, who will be eligible to compete in two weekend events, will be among three competitors for first place.

In the Mountaineer Fall Indoor Games in Toronto, the California Track and Field Club's first place finisher was again competing as a member of the California Track and Field Club. His jump of 7.44 brought an ovation from the crowd at the event.

He later failed at three attempts at 7.46, which would have tied the world indoor record.

Also last weekend Brown and triple crown jumper Mohinder Gill claimed first place at the Seattle Invitational. Brown leaped 7 feet even in the high jump, and Gill triple-jumped 85-10.4.

Brown, who will be eligible to compete on the Mustang track this weekend in the Western Invitational, brought an ovation from the crowd at the event.

Gill claimed first places at the California at Riverside and Cal Poly Pomona for first and second place, respectively. The Mustangs are in strong position, tied with San Fernando Valley State College for first place.

Both the Mustangs and Titans are 3-1, Cal State Fullerton is 3-4, and both the University of California at Riverside and Cal Poly Pomona are 1-3. The pole vault loss was administered by the Mustangs, and Nels Brown's boys lost only their first game to Riverside.

On the season the Mustangs sport a 12-4 mark. Six straight teams have fallen before them, a fact Brown attributes to sharp showing by the players and better team play.

The Mustangs have shot over 50 per cent the past three games and are leading the CCAA at a 48.6 per cent clip.

Consistent offensive performance from Billy Jackson and the all around leadership of Lew Jackson has contributed toward the team's success. Billy Jackson is second in CCAA scoring with a 19.2 average and is 18.7 on the season. His season rebound average of 9.5 is second only to Bob Jennings' average of 10.7, and both men are averaging three rebounds per game more since conference play began early in January.

Mustang center Bob Jennings muscles up for two points. Jennings transferred to this school and has contributed desperately needed rebound strength in addition to consistent scoring.

Broncos and Highlanders to test Mustang aquamen

The Mustang swim team, home from a fifth place finish at the UCSD Relays held last weekend, will take on UC Riverside and Poly Pomona at Pomona this Saturday at noon.

The University of Pacific took first place honors with 1114 points. Host UCSD claimed second place with 1044 points. The coming home, Riverside and Pomona both participated in the relays, placing seventh and tenth, respectively.

"This meet won't be any pushover by any means, but I think that we can beat both teams," stated Head Swim Coach Dick Anderson. "We should be able to turn in some pretty good times, because the Pomona pool is very similar to ours in regards to water temperature and lane markings."

If they (UC Riverside and Poly Pomona) enter the same relay teams, we should be able to win both the 400 yard freestyle relay and the 400 yard medley relay. We will also be strong in the 50 yard freestyle and the distance events (500 and 1000 yard freestyle)."

Art Carpenter joined Bob De Grasse as a qualifier for the NCAA college division championships at Springfield, Mass. in early March. Carpenter joined Bob De Grasse in an 18:17:8 clocking in the 1800 yard freestyle at the UCSD Relays. De Grasse had earlier qualified with a 22.7 time in the 50 yard freestyle against Santa Barbara in a dual meet.

Give your Valentine a taste treat this weekend at McDonald's

McDonald's is your kind of place...
Golfers set for season opener

Mustang golfers, under the guidance of second-year coach Bill Hicks, are in their final week of preparation for their season opening tournament this weekend at Vandenberg Air Force Base.

San Fernando Valley State and UCBB are the pre-tournament favorites. Also competing against the Mustangs will be UCLA and Vandenberg Air Force Base.

Leading the field of returning lettermen for Hicks' squad is senior Greg Edwards. Edwards, Vaadenberj Golf Invitational the Mustang golf team. The team was the number one man of the preparation for the first action.

will compete in the Pint Annual ea*on this weekend a* part of ward* take* a awing at a new Vandenberg Air Force Base.

Vandenberg Air Force Base.

Other returning lettermen are senior Jim Kiger and Ed Phillips. Kiger averaged 77.8 last year and has slipped to 80.7 this season. Other returning letterman are senior Jim Kiger and Ed Phillips. Kiger averaged 77.8 last year and has lowered that by almost six strokes to qualify with 71.8.

Other returning letterman are senior Jim Kiger and Ed Phillips. Kiger averaged 77.8 last year and has lowered that by almost six strokes to qualify with 71.8. Phillips, number four man in 1970, averaged 78.7, but has slipped to 80.7 this season.

Freshman Bob Miller qualified for the team's third spot while Cuesta College transfer Steve Freeborn landed the fourth spot. Rounding out the team is Mike Jones, who played on the 1969 squad.

Others trying for a berth on the squad are Greg Stafford, Charles team, Doug Jones, Craig Boree, William Smith, Jeff Strobel, John Mowrey landed the fourth spot. Rounding out the team is Mike Jones, who played on the 1969 squad.

"We should be quite a bit improved this year, in that we will have more people capable of playing in the top six," said Miller. "We're a little behind schedule because of the bad weather that we had the first two weeks of practice, but I think we're coming along pretty well right now," he added.

The name of the game is "wait and see" for Augie Garrido and 1971 edition of his baseball Mustangs.

Garrido, in his second year at the helm, said his club "will have to execute well to win." Last year's squad posted a 15-33 overall and were 9-12 in league play. This year's schedule has the Mustangs listed for 84 games, plus the UC Santa Barbara tournament in late March.

Garrido emphasized the point that his team must concentrate on "not beating ourselves" if they are to improve on last year's record.

Garrido will be facing the schedule with basically the same team he fielded last season. Only two newcomers have broken into the lineup. They are third-earner Dave Snow from Cerritos' state junior college championship team and first baseman Gary Knuckles, a freshman who hit .360 for Richmond last year.

Starting lineup for Friday's opener against San Francisco State at 2:30 p.m. will be: all-CCAA centerfielder Dave Kline, San Francisco senior leading off; three year starter at shortstop Rick Pence will follow him; Dave Oliver, sophomore second and last year's leading bat man at .300 will bat third; Snow will hit clean up; and senior left fielder Steve Freeborn will follow him. The sixth, seventh and eighth spots will be filled by right fielder Lathan Marsh, Knuckles, and catcher Rodd Baggett.

The week that was

by Paul Simon
Sports Editor

This week sets off an action-packed quarter of athletics. The basketball team hosts tough CCAA teams Friday and Saturday, the wrestlers host two top-ranked teams, the swimmers travel to Fullerton, and golf, tennis and baseball each start their individual seasons. Players, coaches, fans—and sportswriters—will have no lack of action beginning tomorrow night.

Vaughn Hitchcock's wrestling team entertains Oregon State University Thursday night and Portland State 24 hours later. Gregory is currently rated sixth in the nation, university division and Portland is one back in seventh. The Mustangs are 11th, and as usual, are favored to repeat as NCAA college division champions.

Hitchcock has had to make several lineup changes, and the ten wrestlers he throws against the Beavers may not represent the strongest Mustang team. Still, with any lineup Hitchcock has a lot going and can make it rough for the invaders. If he wants a higher ranking this is definitely the week he'll have to show it.

The Mustang basketball team faces UC Riverside Friday night in what the locals hope will see revenge for a 61-59 loss to the Highlanders a month ago. The Riverside school, favored to retain its CCAA title, has surprised nearly everyone—including itself—by its play. The team's best wrestler is Morgan named best wrestler

Morgan won all three bouts on Morgan did an outstanding job in winning his three bouts, and "he has gained a lot of confidence this year." It has been usual Morgan who has started the winning string of bouts that the Mustangs used in defeating their opponents. Larry Morgan has been selected the "Mustang Wrestler of the Week" for his performance and "most of his prospects include Dan Lambert of Arroyo Grande and junior college transfer Tom Martin of Santa Clara.

Those who go basketball games just to see the varsity are missing a good show. Ernie Wheeler's frosh squad, 12-2 on the season, is also tied for first in a tight CCAA chase. With a home winning streak of 17 on the line the Coits want to keep a good thing going. As an added incentive, last year's freshmen cagers compiled a 20-4 mark and they're out to top that this season.

As spring sports kick it out this weekend memories of an ill-fated 1970 baseball team (15-37) come to mind. Coach Augie Garrido isn't sticking his neck out about his team's chances but his no-seasoned group may surprise a few people. Three games against San Francisco State this weekend will provide the opportunity to check his progress.

The baseball slate this year boasts 34 games including 43 at home. With that many chances to exhibit their talents to the home folks the Mustangs have all that much more to strive for.

We're not slighting the less recognized teams but are waiting to see how they will shape up as they enter competition. Undermanned as in the past the swimmers have a few standouts but may not be in a league with several CCAA strong challengers. In tennis Ed Jorgenson has a defending conference champion team but only three key players to graduation. The word is a couple of freshmen and a JC transfer will fill the vacancy. Bill Hicks' golf team sees first competition in the Vandenberg Golf Invitational Friday, led by two returning lettermen.

Including the newcomers, seven regular sports teams are now in action and track is just around the corner. Adding freshman, women's basketball and a full program of Dick Heaton's intramurals and you have one heck of a lot going at one time.

Three returning lettermen form a nucleus for Ed Jorgenson's Mustang tennis team as it opens the season tomorrow (Thursday) at Westmont and entertain the University of California at Santa Barbara Sunday.

Last year's No. one man, John Ross of Hammond, Greg Piers of Arroyo Grande and John McCormick of Fullerton are back to lead the team. Top newcomer prospects include Dan Lambert of Arroyo Grande and junior college transfer Tom Martin of Santa Clara.

Students who think of quality first think of Ross Jewelers

---

Netters open Thursday, pursue 2nd league title

In qualifying for the six team spots Lambert forged into the top position, followed by Martin, Piers, Ross and Summers. Sixth position is up for grabs between Bill Timag of San Francisco, Scott Smith of Arcadia, Arthur Brandt of Arroyo Grande and John McCormick of Fullerton. The Mustangs, who lost three key lettermen to graduation, are the defending California Collegiates Athletic Association champions and look second place in the NCAA College Division Championships. However, San Fernando Valley State College, last year's pick to win the conference, again figures to be a horn in the side of the Mustangs.

Larry Morgan has been selected the "Mustang Wrestler of the Week" for his performance and "most of his opponents to less than half his total. Coach Vaughan Hitchcock said that Morgan did an outstanding job in winning his three bouts, and "he has gained a lot of confidence this year." It has been usually Morgan who has started the winning string of bouts that the Mustangs used in defeating their opponents.
