Kenneth Young will address faculty/staff

"The New Learning Society" will be the subject when Kenneth E. Young, president of the Council on Postsecondary Accreditation, and a former member of Cal Poly's teaching and administrative staff, addresses a convocation of faculty and administrative staff of Cal Poly on Tuesday (Feb. 24). The program will take place at 11 am in the Cal Poly Theatre.

Hazel E. Jones (Vice President for Academic Affairs) said Dr. Young's remarks would be of special interest to faculty and staff as the university faces the problem of continuing the work of transforming steady-state enrollment down to diminishing resources. Dr. Jones said the day and time for the convocation had been chosen so that as many as possible of the university's academic employees could hear Dr. Young's remarks.

Before assuming his present duties as head of the organization that may well become the national coordinating body for accreditation of all postsecondary education, Dr. Young was a journalist, a college journalism and English teacher, and successful college and university administrator. A native of Canada, he moved to California at the age of seven and attended Oakland public schools. He earned his bachelor's degree at San Francisco State College and completed both master's and doctor's degrees at Stanford University. He has completed postdoctoral studies at Harvard University and University of Michigan.

After teaching briefly at San Francisco State, Dr. Young joined the Cal Poly faculty in 1949 and over the next eight years held teaching and administrative positions at both the San Luis Obispo and Kellogg-Voorhis campuses of the university. Later, he served as dean

(continued on page 2)

Illness has forced Dr. Young to change his travel plans. He will be unable to speak on campus on Tuesday, Feb. 24, as previously announced.
NEW CRIMINAL JUSTICE PROGRAM BEGUN

Establishment of an external degree program in criminal justice has been announced by California State University, Sacramento, and California Polytechnic State University, San Luis Obispo, which are combining their resources to offer the program. Planned to lead to the Bachelor of Arts Degree in criminal justice, courses for the new program are being offered at the Cal Poly campus using faculty of both universities.

Joachim Goldsmith, a member of Cal State Sacramento's Criminal Justice Department faculty and coordinator for the new program, said it is being welcomed by administrators of law enforcement and correctional programs in the Central Coast area of California. "Forty-five persons are enrolled in the courses being offered this semester and indications are that at least that many more are interested. Those in charge of law enforcement and correctional activities in this area are really excited about the availability of a program for members of their professional staff," Dr. Goldsmith added.

Designed to benefit persons already involved in some phase of law enforcement or correctional work, as well as those who want to enter those fields, the new program will result in a degree granted by Cal State Sacramento, which is not new to cooperative programs in criminal justice. As outlined by Dr. Goldsmith, the program includes two different options or plans -- one for students who want to stress the areas of law and administration and the other for those who wish to stress the behavioral sciences.

Students who are community college transfers or have completed their lower division university studies can also choose to complete the curriculum in two years by attending classes full time or in up to five years by going part time. In contrast with regular course offerings at Cal Poly, courses for the criminal justice program are being offered on a semester basis. Included are two 15-week semesters during the fall and spring and a 6-week summer session.

Courses currently being offered are on police organization and management, government finance, cross-cultural communication, and human development and social environment. All are meeting during the evening hours. Those desiring further information are invited to contact the Continuing Education Office, Cal Poly, San Luis Obispo, Calif., 93407, telephone 805-564-2053.

KENNETH YOUNG ADDRESS...(continued from page 1)

of the faculty at University of Alaska, executive vice president at University of Nevada, Reno, and president of State University of New York College at Cortland.

Dr. Young became president of the Council on Postsecondary Accreditation last year after being vice president and then director of the Washington, DC, office of the American College Testing program since 1968. He is a member of the American Association for Higher Education, Phi Delta Kappa, the American College Personnel and Guidance Association, and the Higher Education Group of Washington.

Typewritten copy intended for the next issue of Cal Poly Report must be received prior to 12 noon on Friday (Feb. 20) in the Public Affairs Office, Adm. 210. Copy intended for Cal Poly Dateline is due in the Public Affairs Office by 12 noon on Tuesday (Feb. 24).
A campuswide committee of students, faculty, staff, and alumni at Cal Poly launched a multi-faceted campaign on Wednesday (Feb. 11) to obtain funds to alleviate suffering and provide help in the recovery of earthquake devastated Guatemala. Led by faculty and students who have lived in Guatemala, the drive, which will continue through the month of February, seeks to raise $5,000. All funds will be channeled through CARE which already is at work in Guatemala. Charles Atlee (Crop Science), who spent four years in Guatemala on an Agency for International Development project, is chairman of the campus committee.

Atlee, who announced the fund drive, pointed out that the devastation in the Central American Country, which killed 20,000, injured 50,000, and left 500,000 people homeless has left the country, which had only minimal resources to begin with, helpless. He said assistance is needed not only to thwart famine and epidemics and to provide shelter for the homeless, but also to assist in the reconstruction of the country.

The drive at Cal Poly began today with volunteer-staffed collection tables where individuals may make contributions. Additionally, the more than 250 student and faculty organizations on campus will be asked to contribute. Off campus, the committee will appeal to service and civic clubs and will accept donations from individuals. Atlee said faculty and students who have lived in Guatemala are available to discuss the effect of the earthquake on Guatemala at meetings of service clubs, civic groups, and church organizations. They may be contacted by telephoning the Student Community Services Office, 546-2476.

A Guatemala Relief Fund has been established through Cal Poly's Associated Students, Inc. Contributions can be mailed to Guatemala Relief Fund, Cal Poly, San Luis Obispo, Calif., 93407. The Cal Poly Alumni Association already has contributed $150 to the relief fund and alumni are being asked to add to this sum.

Cal Poly, its faculty, students, staff, and alumni, have a special concern about the devastation in Guatemala. For 10 years the university was involved in projects in that Central American nation designed to improve agricultural output, marketing, the establishment of cooperatives, and community development. Much of that work has been destroyed by the earthquake. Atlee reports Cal Poly alumni are at work in Guatemala assisting in relief efforts. Donald Fiester, a 1947 graduate with a degree in crop production now working for the Agency for International Development out of the U.S. Embassy in Guatemala City, has utilized his ham radio expertise to help maintain communications.

Roland Bunch, a 1975 graduate of Cal Poly's master's program in international agriculture, is helping with rescue operations at San Martin, an isolated village 40 miles north of Guatemala City. He barely escaped with his life when his home collapsed in the earthquake. Current Cal Poly students from Guatemala, Manfred Topke, an animal science major, and Raul Moreno, an ornamental horticulture major, are members of the campuswide committee. Topke was able to communicate with his family on Sunday (Feb. 8). He learned that medical supplies are needed urgently.

WHEELER APPOINTED ACTING HEAD

With the recommendation of J. Cordner Gibson (Dean, Agriculture and Natural Resources) and after consultation with department faculty, President Robert E. Kennedy has appointed Robert R. Wheeler as acting head of the Animal Science department for the Spring Quarter 1976. The appointment will be effective during the sabbatical leave of Richard F. Johnson (Head, Animal Sciences).
WINTER BAND CONCERT WILL FEATURE PREMIERE

Eric Schmidt of Calabasas will conduct the world premiere performance of his musical composition, *The Middle Earth Suite*, during the Winter Concert of the Cal Poly Symphonic Band, on Saturday (Feb. 21). Scheduled for 8:15 pm in Chumash Auditorium, the program is being presented by the Cal Poly Music Department, the School of Communicative Arts and Humanities, and the ASI. Schmidt, an architecture major and a member of the Symphonic Band's saxophone section, has been preparing his composition for over a year. The work is based on the J.R.R. Tolkien classic fantasy trilogy, *The Lord of the Rings*.

In addition to Schmidt's symphonic suite, the Symphonic Band will present the compositions of Alfred Reed, Cesare Giovannini, Anton Dvorak, Claude Smith, Louis Gottschalk, and Louis Ganne. Also programmed for the campus concert, according to William V. Johnson, director of bands at Cal Poly, are numbers by the University Winds (a 45-member wind ensemble), the Studio Band (which specializes in jazz rock compositions), and the Brass and Percussion Ensemble.

The Feb. 21 concert will be the first for the Cal Poly Symphonic Band since it received international recognition at the 1975 International Youth and Music Festival last July in Austria. While in Vienna the band gave several featured performances including one in the famed Sofiensaal concert hall. It also presented a live concert over the Austrian national radio network, which was rebroadcast over Radio Free Europe. Tickets for the Winter Concert are being sold in advance at the University Union ticket office at Cal Poly, Premier Music Company and Brown's Music Store in San Luis Obispo, and by members of the Symphonic Band. Prices are $1 for students and $2 for others.

NEW ENGLAND SEAFARERS LUNCH AT VISTA GRANDE

Everette Dorrough (Foundation Food Services Director) has announced a New England seafarers lunch to be held at Vista Grande Restaurant on Wednesday (Feb. 18) between the hours of 11 am and 2 pm. The menu will include the following: Fresh spinach salad, cioppino, boiled vegetable medley, anadama bread, old time spiced bread pudding, and coffee or tea. Price for the special lunch will be $2.25 per person.

TOYOTA WINS IN OFF-ROAD RACE

A team of students representing the Society of Automotive Engineers at Cal Poly, piloted their 1974 Toyota pickup to a fifth place finish in the mini-truck class of the Parker Dam 400 Off-Road Race on Saturday (Feb. 7) at Parker, Ariz. The best effort ever recorded by a Cal Poly entry in off-road racing did not come without its anxious moments according to Ronald Keil (Mechanical Engineering) advisor to the 29 engineering students who prepared and entered the truck.

Dr. Keil, reported that the truck experienced two minor delays during the race, but still managed to complete the three legs of the 400-mile race some 30 miles behind the first-place car in the mini-truck class. Repair of a broken ball joint brought a 15-minute delay and another 45 minutes were needed to dig the truck out of a sandbank later in the race. The Arizona competition was the first for the Cal Poly entry since about 4,000 man-hours and nearly $13,000 in parts were used in major modifications. It finished 11th of 22 entries in its first competition in the Baja 500 last spring.
WHERE CAN YOU SEE A SIX FOOT RABBIT?

By day, Robert T. Knowles of Los Osos works as a field clerk for a construction company. But when the sun goes down, he adopts a six-foot tall rabbit that is visible to no one but himself. He even introduces the rabbit to all his friends. When Knowles enters the Cal Poly Theatre to begin rehearsal for the performances of Harvey to be presented on Thursday, Friday, and Saturday (Feb. 19, 20, and 21) by the Speech Communication Department, he enters a world he has enjoyed for the past 15 years.

Knowles "got hooked" on theatre in 1961 while attending high school in Montclair and in 1965 enrolled at Cal Poly where his first audition landed him the leading role in the campus production of Harvey, the Pulitzer Prize-winning play by Mary Chase. Aside from a short service in the Navy in 1970 and 1971, Knowles has been active in both the Cal Poly Theatre and the San Luis Obispo Little Theatre, while earning his BA degree and teacher's credential in history with a minor in drama. It was at the San Luis Obispo Little Theatre, while working on the production of The Matchmaker in 1973, that he met his wife Susan.

Despite his experience in acting and directing, Knowles, who graduated from Cal Poly in 1974, has no desire to make the theatre his career. "You can do more theatre as an amateur than you can as a professional. The fun of it for me is just to do it," Knowles, who has acted in 25 plays and directed 3, explains. Joining Knowles for his return engagement in Harvey at Cal Poly are Mary Aquino as Kelly, Ann Aubrey as Veta Simmons, Dorothy Newell as Myrtle May Simmons, Lara Ann Hartley as Betty Chumley, and Dave Ernst as Lofgren. Other cast members selected by director J. Murray Smith (Speech Communication) include Tom Piane as Duane Wilson, Roy Scott as Dr. Chumley, Larry W. Seaton as Dr. Sanderson, and Loren Strack as Ethel Chauvenet.

Curtain time for the performances will be 8 pm each evening during its three-night run in the Cal Poly Theatre. Tickets priced at $1 for students and $2 for others are on sale at the University Union ticket office on campus and at Brown's Music Store in San Luis Obispo. They will be sold at the theatre box office prior to curtain time each evening.

POLY ROYAL QUEEN SELECTED

Sue Herbst of Saratoga is the 1976 Poly Royal Queen. Miss Herbst was selected from a field of 14 candidates during a pageant in Chumash Auditorium on Thursday (Feb. 12). Currently serving as secretary of the university's Associated Students, Inc., the 1976 queen is a junior liberal studies major. Her sponsors were the officers of the ASI. Four princesses will join Miss Herbst in making public appearances on behalf of Poly Royal and in hosting visitors to the annual open house on Friday and Saturday, April 23-24.

THE CELLAR EXPANDS VENDING MENU

Beginning Tuesday (Feb. 17) The Cellar, the vending operation across from the R.O.T.C. offices in the library, will expand their menu selection. New items will include an assortment of salads with a choice of dressings, hot entrees such as chili beans or beef stew, an array of sandwiches prepared by the newly opened Sandwich Plant and an assortment of desserts ranging from fruited jello to coconut cream pie. The buffet is open Monday through Friday from 11 am to 1 pm. The vending operation is open from 7 am to 10 pm.
AMUSEMENT DISCOUNTS AVAILABLE

Faculty and Staff planning family outings for the Spring and Summer or just a short weekend escape are reminded that discount opportunities are available at many of California's popular amusement parks. Information and brochures are available from the Personnel Office, Adm. 110. If you happen to be traveling South, the opportunities are:

- Magic Mountain Country-Troll Patrol Club (Valencia, Calif.)
- Movie World-Cars of Stars Fan Club (Buena Park, Calif.)
- Howard Johnson's-Official Host of Disneyland's Magic Kingdom Club (Anaheim, Calif.)
- Queen Mary Tour-Voyager Club (Long Beach, Calif.)
- Busch Gardens-The Friendly Eagle Club (Van Nuys, Calif.)
- Mission Valley Inn-Atlas Hotels (San Diego, Calif.)
- Let's Dine Out Co. (Santa Barbara, Calif.)
- Los Angeles Zoo-A World of Adventure (Los Angeles, Calif.)
- San Diego Zoo-Wild Animal Park (San Diego, Calif.)
- Sea World-Dolphin Club (San Diego, Calif.)
- Universal Studios-Fan Club Membership Card (Hollywood, Calif.)
- Knott's Berry Farms-Adventurers' Club (Los Angeles, Calif.)
- Disneyland's-Magic Kingdom Club (Anaheim, Calif.)

For the Northern traveler, the discount opportunities are:

- Lake Shasta Caverns (Redding, Calif.)
- Santa's Village (Near Los Gatos, Calif.)
- Bay Cruise-from Fisherman's Wharf (San Francisco, Calif.)
- Trees of Mystery-Shrine of Redwood Highway (Klamath, Calif.)
- Angel Island-State Park (San Francisco or Berkeley, Calif.)
- Alcatraz Island (Alcatraz, Calif.)
- Marine World/Africa USA-Seafari Club (Redwood City, Calif.)
- Ripley's Museum-at Fisherman's Wharf (San Francisco, Calif.)
- Winchester Mystery House (San Jose, Calif.)
- California Western Railroad-Ride the SKUNKS through the Redwoods (Willits, Calif.)
- Klamath Kruises-Jet Boat (Klamath, Calif.)
- Ponderosa Ranch-Home of Bonanza (Lake Tahoe, Nevada North Shore)
- Fun on the Wharf (San Francisco, Calif.)
- Roaring Camp & Big Trees (Santa Curz, Calif.)

DANCE CONCERT SCHEDULE

"Move on, America!" will be the theme for a dance concert that will be presented on Friday and Saturday (Feb. 27 and 28) at Cal Poly. The costumed performance will begin at 8 pm in the Cal Poly Theatre. Tickets will be on sale in advance in the University Union ticket office and at Brown's Music Store and Premier Music Company in San Luis Obispo. The price will be $2 per person.

The 54-member cast for the campus event will include faculty and students of Cal Poly's Women's Physical Education Department and members of Orchesis, the university's dance club. Numbers programmed for the concert will all relate to periods in American history. They range from "The Price for Freedom," a realization of the minute-men of 1776, to an act titled "The Show Goes On" set in a New Orleans saloon. Moon Ja Minn Suhr (Women's Physical Education) is directing the cast for the production, which is sponsored by the Women's Physical Education Department, the Women's Recreation Association, and Orchesis.
LARRY WOLF NAMED TO STATEWIDE TEAM

Lawrence J. Wolf (Director of Financial Aid) has been named to the California Student Aid Commission's Financial Need Analysis Team. The team acts in an advisory capacity to the state commission, which was formerly known as the State Scholarship and Loan Commission. Composed of college financial aid directors from throughout California, the team will gather in the spring to review 60,000 applications. Of these, some 19,920 new scholarship/grant recipients will be selected for the 1976-77 academic year.

The state scholarships and grants, which will total almost $60 million this year, can be renewed for up to four years if a student maintains his academic standing. The grants are for use by California residents in financing college or university study. Wolf has been at Cal Poly since 1970. He served as coordinator of student discipline and financial aid counselor before being selected director of financial aid in 1972. He received his bachelor's degree from University of Southern California in 1957 and his master's degree from Cal Poly in 1973.

NOTED LECTURER WILL TALK ABOUT CHILDREN

James L. Hymes, Jr. will lecture on the present and future roles of the young child's lifestyle on Thursday (Feb. 26) at Cal Poly. The lecture is scheduled for 8 pm in Chumash Auditorium. Admission will be free and the public is invited to attend. Dr. Hymes has been active in the field of child development and early childhood education since 1934. He has been a professor of early childhood education at the State University of New York, George Peabody College for Teachers, and the University of Maryland.

He has written several books on the subject. The Child Under Six, Teaching the Child Under Six, and Effective Home School Relations are his most recent. A graduate of Harvard College and Teachers College of Columbia University in New York, Dr. Hymes was a member of the National Planning Committee for Project Head Start and, during World War II, was director of the world's largest child care center for young children of working mothers in Portland, Ore.

CALTRANS GRANTS WON BY POLY STUDENTS

Three transportation engineering students at Cal Poly, have been awarded $500 research grants from the California Department of Transportation (Caltrans). Andrew D. Jones (Head Transportation Engineering) said the grants are to be used for public transportation research, which will be used by the students to satisfy senior project requirements at Cal Poly. Their reports will also be used by Caltrans in mass transit planning applications.

BICENTENNIAL TIME-LINE

Several committees of the city and county of Albany, N.Y., resolve "never to become Slaves and to defend by Arms the United American Colonies against the hostile attempts of the British Fleets and Armies." Meanwhile in California, the Anza expedition leaves San Gabriel for the march to Monterey.
David J. Schaffner (Agricultural Management) conducted a workshop on "the use of futures markets and 'hedging' by the potato industry" at the Bankers' Seminar at Portland, Oregon sponsored by the Chicago Mercantile Exchange on Feb. 9.

James R. Bagnall and Donald J. Koberg (Architecture and Environmental Design) were workshop leaders in a Problem Solving Workshop of the Counseling Center Conference at the University of California, Santa Barbara Jan. 24. They also were workshop leaders in Problem Solving and Design Methods at the University of Arizona, Tucson Feb. 5 and 6.

George J. Hasslein (Dean, Architecture and Environmental Design) addressed the Northern Nevada American Institute of Architects in Reno on Jan. 31.

Arlene M. Golant (Art) is presently showing her works in two exhibitions: the show at the Fine Arts Gallery in San Diego, and in the International Fiber Competition "Cotton Comes Home" at Delta State University, Cleveland, Mississippi.

Larry N. Brown, Douglas D. Donaldson and Richard J. Krejsa, (all Biological Sciences) attended the seventh annual joint conference of the American Fisheries Society (California-joint conference of the American Fisheries Society (California-Nevada Chapter), and The Wildlife Society (Western Section), in Fresno, 29-31 Jan. Dr. Brown presented a technical paper to the Wildlife Society titled: "Ecological Status and Reproductive Biology of the Nutria (Myocaster coypus). Dr. Krejsa was one of the four invited panelists who participated in a discussion titled "Fish and Wildlife in the Urban Environment". His paper was titled "The Critical Role of Local Elected Officials". Dr. Donaldson was responsible for the planning and organization of the program for the Fresno meeting. At the annual banquet, Dr. Donaldson was honored by being elected President of the Western Section for 1976.

Philip W. Niles (Environmental Engineering) attended the 1976 semi annual meeting of the American Society of Heating, Refrigerating and Air-Conditioning Engineers in Dallas, and on Feb. 4 presented a paper titled "Nocturnal Cooling and Solar Heating with Water Ponds and Movable Insulation."

Henry P. Kramer (Mathematics) gave a presentation titled "Algorithms for Tracing the Boundary between two Regions of Different Textures" at UC Irvine on Jan. 28.

Sara Behman (Associate Dean, Business and Social Sciences) has received acknowledgement in the Nov. 1975 issue of the Review of Economics and Statistics, published by Harvard University, for serving as a referee for the Journal.

Jack B. Jones (Education) was elected president at a recent meeting of the California Professors of Reading in Los Angeles beginning his term June 1. The California Professors of Reading represents over 200 university and college professors concerned with professional preparation of teachers and reading specialists.

Rosalie H. Mechanic (Child Development) was the guest speaker on Parent Education for Pacheco School, San Luis Coastal Unified School District on Jan. 30. The subject of her talk was "Dealing with Children's Feelings."
Candidates for positions on the faculty of the university are presently being sought, according to Donald L. Shelton (Director, Personnel Relations). Those interested in learning more about the positions are invited to contact the appropriate dean or department head. This university is subject to the requirements of Executive Order 11246 and is an Affirmative Action Employer. All interested persons are encouraged to apply. Following is a description of the available positions:

**Lecturer ($1131-$1755/quarter, dependent upon qualifications & assignment), Business Administration Department, School of Business & Social Sciences.** Part-time positions for Summer Quarter, 1976. Positions can be filled by more than one person. Duties & responsibilities include teaching one Accounting 322 (Intermediate Accounting) class and two Accounting 510 (Foundations in Accounting) classes. Prefer candidates with Master's degree and appropriate teaching and professional experience. Closing date for receipt of applications is April 23, 1976.

**Lecturer ($848-$1316/quarter), Business Administration Department, School of Business & Social Sciences.** Part-time positions for Summer Quarter, 1976. Positions can be filled by more than one person. Duties & responsibilities include teaching three Business 201 (Business Law Survey) classes and one Business 419 (Business Research) class. Prefer candidates with Master's degree and appropriate teaching and professional experience. Closing date for receipt of applications is April 23, 1976.

**Lecturer ($1131-$1755/quarter), Business Administration Department, School of Business & Social Sciences.** Part-time positions for Summer Quarter, 1976. Positions can be filled by more than one person. Duties & responsibilities include teaching two Business 207 (Business Law) classes and two Business 404 (Government Regulations) classes. Prefer candidates with Master's degree and appropriate teaching and professional experience. Closing date for receipt of applications is April 23, 1976.

**Lecturer ($848-$1316/quarter), Business Administration Department, School of Business & Social Sciences.** Part-time positions for Summer Quarter, 1976. Positions can be filled by more than one person. Duties & responsibilities include teaching one Industrial Relations 118 (Human Relations) class and Industrial Relations 415 (Organizational Behavior) classes. Prefer candidates with Master's degree and appropriate teaching and professional experience. Closing date for receipt of applications is April 23, 1976.

**Lecturer ($848-$1316/quarter), Business Administration Department, School of Business & Social Sciences.** Part-time positions for Summer Quarter, 1976. Positions can be filled by more than one person. Duties & responsibilities include teaching an IR 314 (Industrial Relations) class and an IR 315 (Personnel Management) class. Prefer candidates with Master's degree and appropriate teaching and professional experience. Closing date for receipt of applications is April 23, 1976.

**Lecturer ($848-$1316/quarter), Business Administration Department, School of Business & Social Sciences.** Part-time positions for Summer Quarter, 1976. Positions can be filled by more than one person. Duties & responsibilities include teaching a Management 201 (Principles of Management) class and a Management 341 (Planning and Decision Theory) class. Prefer candidates with Master's degree and appropriate teaching and professional experience. Closing date for receipt of applications is April 23, 1976.

**Lecturer ($1131-$1755/quarter), Business Administration Department, School of Business & Social Sciences.** Part-time positions for Summer Quarter, 1976. Positions can be filled by more than one person. Duties & responsibilities include teaching a Management 312 (Operations Management) class and a Management 413 (Business Policies and Organization) class. Prefer candidates with Master's degree and appropriate teaching and professional experience. Closing date for receipt of applications is April 23, 1976.

**Lecturer, Range B ($4,244-$5,160/quarter, dependent upon qualifications and experience), Political Science Department, School of Business & Social Sciences.** Full-time position for Summer Quarter, 1976 only. Duties & responsibilities include teaching in the areas of American and national government, international relations, and modern political thought. Master's degree required and Ph.D. desirable. Closing date: March 15, 1976.

(continued on page 10)
FACULTY VACANCIES... (continued from page 9)

Lecturer ($12,732-$15,480/year), Foreign Languages Department, School of Communicative Arts & Humanities. Duties & responsibilities include teaching any combination of elementary, secondary and scientific German; elementary and secondary French, and Survey of French Literature. Ph.D. desirable. Replacement for 1976-77 academic year only. Deadline to apply is March 12, 1976.

Lecturer ($8,488-$10,320/year), Foreign Languages Department, School of Communicative Arts & Humanities. Duties & responsibilities include teaching a combination of elementary and secondary Spanish, Spanish composition and conversation, Spanish for Spanish-speakers, Survey of Spanish Literature, and knowledge and ability to teach Barrio Spanish. Ph.D. and a second language preferable. Possible replacement for the Fall and Winter Quarters of the 1976-77 academic year. Deadline for receipt of applications: March 12, 1976.

Assistant Professor ($12,732-$15,480/year), Foreign Language Department, School of Communicative Arts & Humanities. Duties include teaching elementary and secondary French, French Composition and Conversation, Survey of French Literature. Position available beginning 1976-77 academic year. Ph.D. required and another language desirable. Deadline for receipt of applications is March 12, 1976.

Lecturer ($4,244-$5,160/quarter), Animal Science Department, School of Agriculture & Natural Resources. This is a sabattical leave replacement for Spring Quarter, 1976. Responsibility will consist of full-time teaching in the subject areas of feeds and feeding, and basic animal production courses. Ph.D. preferred, minimum of a Master's required. Deadline for receipt of applications is February 28, 1976.

Head Varsity Cross-Country Track and Field Coach ($18,662-$22,691/year, dependent upon preparation and experience), Men's Physical Education Department, School of Human Development & Education. Duties & responsibilities include coaching the varsity Cross-country, Track & Field teams, instructing physical education activity and professional courses including Track and Field Coaching theory. Master's degree in Physical Education, previous experience in coaching of track and cross-country required. College level coaching experience desirable. Position is available March 25, 1976. Direct application and resume to Dr. Vic Buccola, Director of Athletics, California Polytechnic State University, San Luis Obispo, CA 93407. Closing date for receipt of applications is March 8, 1976.

SUPPORT STAFF VACANCY LISTED

A vacant support staff position has been announced by Robert M. Negranti (Staff Personnel Officer). Description of the position and other vacancies is posted outside the Personnel Office, Adm. 110, ext. 2236. Contact the Personnel Office to obtain an application. This university is subject to the requirements of Executive Order 11246 and is an Affirmative Action Employer. All interested persons are encouraged to apply. The position is:

Keypunch Operator ($631-$767/month), Computer Center, Administrative Affairs Division. Duties & responsibilities include operating IBM keypunch and verifying machines, assisting in sorting and tabulating and performing related clerical tasks. Requirements: high school graduate with six months of experience in the operation of IBM keypunch machines, and must have taken the General Clerical Test. Keypunch proficiency test will be given. Closing date: February 24, 1976.

OFF-CAMPUS POSITION VACANCIES

Information on the administrative position vacancies listed below can be obtained from the Placement Office, Adm., 213, ext. 2501:

California State College, San Bernardino - Associate Dean of Academic Planning ($14,040-$29,184). A doctorate degree or equivalent terminal degree. At least 3 years full-time teaching experience at the senior college level. Administrative ability and prior experience desirable. Closing date for applications: March 15, 1976
NEH - Youthgrants in the Humanities. The National Endowment for the Humanities Youthgrants in the Humanities Program was established to support humanities projects developed and conducted by students and other young people. To be considered for a Youthgrant award, a proposed project must meet three basic conditions: (1) it must relate in a clear way to the humanities; (2) it must have a specific purpose, a carefully designed scope, an identifiable end product; and (3) it must have a high promise of helping individuals to develop their critical faculties and although adults may be involved (and are encouraged to serve) as advisors or consultants, young people must carry the major responsibility for its initiation, development, and execution.

As the Bicentennial of the nation's founding approaches, projects relating either to the American Revolution or to the continuing philosophical ideas and issues associated with it are especially encouraged. The Endowment is also interested in historical research proposals which seek to trace the development of local communities and local institutions during the 200 years since the nation's birth.

Faculty members who know of students interested and capable of responding to this program are encouraged to bring this opportunity to their attention.

* * *

NSF - Alternatives in Higher Education. Included among the objectives of this program are the generation, testing, and stimulation of certain needed changes in higher education in science, mathematics and engineering. Support is offered for projects that develop alternatives to existing educational patterns and materials, that develop and test new modes of instruction and new delivery systems, that generate educational programs for which a demonstrated societal demand exists, that formulate and test systems for delivering continuing or recurring education to members of the scientific and technical work force, and finally, that devise means for incorporating these advances into existing educational programs.

Fields for which support may be requested include the mathematical, physical, biological, medical, engineering and social sciences, and the history and philosophy of science. Also included are interdisciplinary fields comprised of overlapping areas of two or more sciences and applied areas, especially those that relate to current issues of national concern such as management of the Nation's expanding technology, environmental control, and the specific aspects of urban studies.

For further information contact: Materials and Instruction Development Section, National Science Foundation, Washington, DC, 20550.

* * *

U.S. Geological Survey (USGS) - Earthquake Hazard Reduction Program. General areas of interest are: (1) evaluation and mapping of geologic hazards associated with earthquakes; (2) earthquake prediction research and implementation; (3) physics of crustal deformation and failure; (4) ground motion prediction and related studies.

* * *
AOA - Research and Development Project Grants on Aging. The Administration on Aging Research, Development and Demonstration Grant Program is designed to stimulate and support appropriate projects in the field of Aging. Grants are for the support appropriate projects in the field of Aging. Grants are for the support of:

Research -- made in partial support of studies or investigations conducted for the purpose of (1) adding to the existing body of tested, generalized knowledge about one or more aspects of aging, or (2) systematically evaluating approaches, techniques, and methods designed to contribute to the well-being of older persons.

Development -- to assist in developing new approaches, techniques or methods contributing to wholesome and meaningful living for older persons or to achieve better coordination of community services for older persons.

Demonstration -- to encourage initiation of projects which represent: (1) a new or different method of providing a service or services with the purpose of providing evidence, through the actual operation of a service or program, that it constitutes an improvement in solving a problem or meeting a need, and (2) a new, different, or expanded approach or method of achieving effective planning, utilization, and coordination of community resources and services for older people.

A May deadline is expected. Application forms and instructions may be obtained by writing to Research and Development Grants, Administration on Aging, Social and Rehabilitation Service, U.S. Department of Health, Education and Welfare, Washington, DC, 20201.

S&H Lectureship Program. The S&H Foundation Lectureship Program was established in 1960 as part of the Sperry and Hutchinson Company's Program of aid to Education. These lectures, in the fields of public affairs and the social sciences, have a dual purpose: first, to enrich established undergraduate and graduate curricula by bringing public and scholarly experts into direct and informal contact with faculties and students; and second, to extend and strengthen the influence of the sponsoring school, through its constituency and the nearby community, by the presentation of at least one public lecture by each distinguished visitor. For further information contact: The S&H Lectureship Program, c/o New York University Washington Square, New York, NY, 10003.

---

ABC Television Network - Effects of TV Programming. ABC seeks original research projects that will offer new insights into the social and psychological effects of programming content. Primary interest is in investigating the attitudes, emotions, learning, behavior and perception of the television viewer, especially with regard to children. For further information, contact: Mr. Herman Keld, Director, Primary and Social Research, ABC Television Network, 1330 Avenue of the Americas, New York, NY, 10019. (212/581-7777). DEADLINE: On or before March 15, 1976.
