CHICANO FARM ORGANIZER WILL SPEAK

The former director of the United Farm Workers of Santa Maria, Manuel Echeverra, will speak at Cal Poly on Tuesday (Jan. 28). Echeverra will speak on "The Progression of the Chicano Movement" at 7:30 pm in Chumash Auditorium. Tickets for the event are 75 cents for students and $1.25 for the public. They are on sale at the University Union ticket office.

In addition to the speech by Echeverra, two Chicano films will be shown. Nosotros Venceremos includes still photographs and music of the United Farm Workers movement. The second film, Mexico, The Frozen Revolution, is about the Mexican revolution between 1910 and 1914 and the history of Mexico following the revolution. The program at Cal Poly is being sponsored by the Ethnic Programming Board of the Associated Students, Inc., and MECHA, the Chicano student organization.

Echeverra was one of 12 children born to a Texas sharecropper. His family moved to Guadalupe when he was five. After dropping out of Arroyo Grande High School at 16, Echeverra worked in the fields for two years and then worked in the packing sheds. He finished high school ten years later. Echeverra has worked as an organizer for San Luis Obispo Community Action Commission, the Western Community Action Training Program, and for the Santa Barbara Community Action Commission. He recently resigned as director of the Santa Maria office of the United Farm Workers.

LOUGHRAN WILL RETURN TO FACULTY

The process of recruiting and appointing a new head for the university Art Department has begun. This follows President Robert E. Kennedy’s announcement approving the request of Bernice Loughran to return to full-time teaching in the Art Department. While saying that the request is one he "reluctantly" approved, Dr. Kennedy praised Dr. Loughran for having been "very helpful, understanding, and cooperative in our mutual concerns and attempts to improve the quality of the program and personnel of the Art Department."

Dr. Loughran’s new assignment will begin with the start of the Fall Quarter in September, 1975. Dr. Loughran, who joined the university faculty in 1958, formerly taught art in elementary schools in California, Connecticut, and New Jersey, and was a member of the art faculty at Johnson Teachers College (Vermont), University of Connecticut, and Danbury Teachers College (Connecticut). She holds the Ed.D. degree from Stanford University.
STUDENTS LEAVE FOR NEW ZEALAND YEAR

Seven agricultural students from Cal Poly departed Tuesday (Jan. 21) for New Zealand to become the first participants in a study abroad program in agriculture offered by the California State University and Colleges. The seven, and three from other campuses, will study for one year at either the Massey University or Lincoln College.

The students, who will be enrolled in a full academic load at the New Zealand schools, will receive academic credit at Cal Poly for their work. They will begin their studies on March 1, and will spend one month living with farm families in New Zealand to familiarize themselves with the agriculture of the nation prior to beginning classes. The 10 California students are participating in a pilot program to determine the feasibility of a study abroad program in agriculture.

GREEK LUNCHEON AT VISTA GRANDE RESTAURANT

An International lunch featuring foods from Greece will be offered at Vista Grande Restaurant on Wednesday (Jan. 29). The Greek luncheon menu consists of: psari founro Spetsiotiko (baked fish - Spetsai island), kolokethya me tiri (squash with cheese), biskotta tis kyriakic (Sunday biscuits), koulourakia (sweet butter cookies) and coffee, tea, or milk. The Greek luncheon will be served between 11 am and 2 pm and is priced at $1.95. Special Greek music and decorations will be featured.

SPECIAL EVENTS AT EL CORRAL STORE

A large selection of engineering and technical books will be on sale for only $1.95 each at the special sale table at El Corral from Tuesday (Jan. 28) through Friday (Feb. 7). Mary Lee Green (Manager, El Corral) also announced that Mr. Mahoney, Sales Manager of Faber-Castell Corp., will be present at El Corral on Tuesday (Jan. 28) between 10 am and 4 pm to display and demonstrate the technical products of the Faber-Castell Corporation.

El Corral is pleased to announce that Euell Gibbons (world famous forager of wild, natural foods and herbs and strong exponent of their use in field or home kitchen) will be at El Corral bookstore for an autographing session on Friday (Jan. 31) between 2:30 pm and 3:30 pm. A special display of all books written by Euell Gibbons will be for sale and light refreshments will be available.

Photographs taken by Ray Allen (Engineering Technology and Environmental Engineering) will be on display in the El Corral Mini Art Gallery from Monday (Jan. 27) through Friday (Feb. 7).

JANUARY SALARY WARRANTS WILL BE AVAILABLE ON THURSDAY

January salary warrants for faculty and staff of the university will be available at 4 pm on Thursday (Jan. 30), the last day of the pay period. Warrants batched by department may be picked up at the Cashier's Office, Adm. 131-E, and those picked up on an individual basis may be picked up in the Business Affairs Division Office, Adm. 116 after that time.
"LAMPOON" EDITOR WILL COMMENT

The man who maintains his home town is a "suburb of Pluto" will speak at Cal Poly on Monday (Feb. 3) at 8 pm. Doug Kenny, editor-in-chief of National Lampoon magazine, will speak on "Teen-Age Commies from Outer Space." The speech, sponsored by the Speakers Forum of Cal Poly's Associated Students, Inc., will take place in Chumash Auditorium. Tickets, priced at 50 cents per person, are being sold at the University Union ticket office.

Kenny, who is actually from Chagrin Falls, a suburb of Cleveland, is rated as a "master" in chess and holds a Green Cord in the fighting art of Yubiwaza. He supported himself as a student at Harvard University on his pinball machine winnings. He graduated summa cum laude for his now-published thesis on Plautine comedies. Kenny and his co-editor, Henry Beard, gained literary prominence for their parodies of Time and Life magazines and Tolkien's Lord of the Rings for Harvard Lampoon, the undergraduate humor magazine at Harvard.

After being ousted from his Harvard ROTC unit for "conduct reflecting unfavorably upon the United States Armed Forces," Kenny spent a year traveling. In the Midwest, he used a guise of an English lord, peddling a lecture on "The Country Homes of Devonshire" to ladies' clubs. National Lampoon, which has been described as a magazine of "vulgar and pointless satire," has a certified readership of 1.8 million and is reportedly the second most popular magazine on American college campuses. The magazine was twice banned in Chicago and twice subpoenaed by U.S. postal authorities.

HAMELET LEAVES ELSINORE FOR POLY

Probably the best-known play in the history of English dramatic literature will be performed by the New Shakespeare Company when Hamlet, Prince of Denmark comes to Cal Poly on Thursday (Jan. 30). The famed classic tragedy by William Shakespeare will begin at 8 pm in Chumash Auditorium. Tickets for the performance, priced at $2 for students and $3 for all others, will go on sale on Monday (Jan. 27) at the ticket office of the University Union (open from 10 am to 2 pm on weekdays).

The New Shakespeare Company began in Palo Alto eight years ago under the leadership of Margrit Roma, who believes that if the actors "donate their life blood, their stomach, their living presence to it, then Shakespeare has a good chance to reach the audience." The company often performs out of doors when the weather is good. Miss Roma believes "the freedom of the outdoors often corresponds to the freedom of Shakespeare's ideas and his thinking." Sponsor of the campus presentation is the Fine Arts Committee of the A.S.I.

ARCHITECTURE CLASSROOM BUILDING FINALLY BEGINS

Construction on the Architecture Classroom Building project is expected to commence this week. The construction will involve the staff parking areas to the east and west of the Business Administration and Education building as well as the staff lot directly north of California Boulevard. Additional staff spaces have been incorporated in lower lot S-10 (the lot south of Food Processing) on Campus Way (east of Food Processing) and on the west side of College Avenue. Staff and faculty are urged to use these areas when the construction site is fenced off.
For the information of all Cal Poly staff and faculty, the KCPR Winter Quarter radio schedule is presented herewith. KCPR transmits at 91.3 MHz FM, with 2000 watts power.

WHO ... WHAT ... WHEN ... WHERE ? ? ?

Victor A. Buccola (Director, Athletics) and Fred L. Clogston (Biological Sciences) attended the 69th annual convention of the National Collegiate Athletic Association held in Washington, D.C. on Jan. 6-8.

Richard (Joe) R. Harper (Head Football Coach) attended the national convention of the American Football Coaches Association, which was held in Washington, D.C. on Jan. 6-9.

James M. Quinn (Men's Physical Education) has been invited to collect biomechanical data on the U.S.A. and Japanese national gymnastics teams during the Japanese national teams' tour at Berkeley, Calif.

David B. Bodlak (Art) has been re-elected for a second year as vice president of the Morro Bay Art Association.

Joseph B. Romney (History) participated as a session chairman at the Far West Regional Oral History Workshop, sponsored by the Oral History Association, held at California State University, Fullerton, on Feb. 3-4.

Dorothy Mercer and Diane Masuo (Home Economics) attended the annual meeting of the Allied Social Science Association in San Francisco on Dec. 27-30. They attended sessions dealing with the economics of health systems, consumer behavior, income distribution, income maintenance policies, public finance, and current macroeconomic issues.

Melvin R. White (Speech Communication) directed a workshop on Readers' Theatre at the University of California, Davis, on Jan. 16-18, as one unit of an extension course on Community Theatre.

Mark Lovell (Operating Engineer, Engineering Services) attended a one-week seminar on Honeywell Air Conditioning Control Fundamentals in San Diego on Jan. 13-17.

NEGRANTI APPOINTED STAFF PERSONNEL OFFICER

Donald L. Shelton (Director, Personnel Relations) has announced the appointment of Robert M. Negrandi to the position of University Staff Personnel Officer. He has assumed these duties formerly performed by S. Milton Piuma, who retired on Dec. 31. Negrandi has been with Cal Poly since Apr. 15, 1974, and has had responsibility for safety, training, and classification. He received his B.A. degree from San Jose State University in 1967, and had six years of public personnel experience prior to employment at Cal Poly.

VACANT FOUNDATION STAFF POSITION

The Foundation is accepting applications for the following open position as announced by Jack L. Fryer (Foundation Personnel Officer). Interested applicants may apply at the Foundation Personnel Office, U.U. 212, ext. 1121. This university is subject to the requirements of Executive Order 11246 and is an Affirmative Action Employer. All interested persons are encouraged to apply. The position is:

Clerical Assistant II-A ($561-$682), Health Center. Person to work in the capacity of receptionist, perform general clerical duties; including typing at 45 wpm, receiving prescription orders, and cashiering for same; other duties as required. Applicant must be high school graduate with one year of office experience.
Vacant support staff positions have been announced by Robert M. Negranti (Staff Personnel Officer). Descriptions of the positions and other vacancies are posted outside the Personnel Office, Adm. 110, ext. 2236. Contact the Personnel Office to obtain an application. This university is subject to the requirements of Executive Order 11246 and is an Affirmative Action Employer. All interested persons are encouraged to apply.

The positions are:

**Clerical Assistant II-B (Two Positions), ($603-$734)**, General Office, Business Affairs Division. Duties and responsibilities include typing, shorthand, machine dictation, telephone dictation, xeroxing and general office support for all campus areas. Substituting in other offices for absent secretaries is a major part of the duties. Applicants must have taken the General Clerical Test, type 45wpm, take shorthand at 90 wpm. Applications must be received by February 4, 1975.

**Campus Fire Fighter ($887-$1079)**, Police and Fire Department, Business Affairs Division. Duties and responsibilities include fighting fires; driving and operating motorized firefighting equipment; assisting in inspecting, testing and replacing fire hoses; inspecting for fire hazards; testing and recharging fire extinguishers; keeping firehouse, firefighting trucks and equipment clean and in proper order, and keeping records. Applicants must have the equivalent to completion of the eighth grade with one year of full-time experience in urban firefighting, a wide knowledge of modern prevention and firefighting methods, ability to organize and lead in rescue work, etc. Applications must be received by February 4, 1975.

**Off-campus Housing Coordinator (Student Affairs Assistant I) ($892-$938)**, Student Affairs Division. Duties and responsibilities include developing, coordinating, and implementing program policies and procedures relevant to off-campus housing for students; maintaining file records of off-campus housing; acting as liaison between University and student/landlord problems; advising students, completing reports, etc. Applicants must have at least one year of experience involving on-the-job training in a student affairs program. A master's degree with a directly related major in student personnel or one of the behavioral sciences may be substituted for the required experience. Applications must be received by February 18, 1975.

**Candidates for Faculty Positions Being Sought**

Candidates for positions on the faculty of the university are presently being sought, according to Donald L. Shelton (Director, Personnel Relations). Those interested in learning more about the positions are invited to contact the appropriate dean or department head. This university is subject to the requirements of Executive Order 11246 and is an Affirmative Action Employer. All interested persons are encouraged to apply. Following is a description of the available positions:

**Lecturer, Range B ($3960-$4816 per quarter, depending on qualifications), History Department, School of Communicative Arts and Humanities.** Duties and responsibilities include major field in 20th century United States or recent diplomatic history. Doctorate preferred. Position available Spring 1975.

**Assistant Instructor (salary dependent on qualifications and assignment), Chemistry Department, School of Science and Mathematics.** Duties and responsibilities include laboratory teaching in inorganic chemistry or general chemistry. Candidates must possess a degree in chemistry or biochemistry; concurrent enrollment in the Department's graduate program is required. Part-time positions available for the Spring Quarter, 1975. Deadline for applications is February 11, 1975.

**Lecturer, Range C ($11,123-$13,517/year), Veterinary Science Department, School of Agriculture and Natural Resources.** Duties and responsibilities include half-time teaching courses in veterinary science, student advisement, and the practice of clinical medicine and surgery. Applicants should possess a doctorate degree in veterinary medicine. Prior teaching experiences and the practice of food animal medicine are desired. Position available, March 24, 1975.

**Lecturer, Range B ($990-$1201/month), Economics Department, School of Business and Social Sciences.** Primary duties and responsibilities are the teaching of principles of economics, survey of economics, and industrial organization. This position is Full-time and is available for Spring Quarter 1975 only.

**Instructor (salary dependent on qualifications and teaching load), Chemistry Department, School of Science and Mathematics.** Duties and responsibilities include courses in general, inorganic and organic chemistry. Doctorate in chemistry required. Part-time position(s) available Spring, 1975. Deadline for applications is February 11, 1975.
Ethnic Heritage Studies Proposals

The Ethnic Heritage Studies Branch of the Bureau of Postsecondary Education is requesting applications for grants in the Ethnic Heritage Studies Program. Proposed rules governing the FY 1975 program appeared in the Federal Register on December 31, pp. 45297-99. The proposal parallels regulations for the FY 1974 program published in April 1974 with revisions resulting from changes made by the Education Amendments of 1974. The regulations include a description of "authorized activities", including the development and dissemination of curriculum materials and the training of personnel using or preparing to use the materials; a discussion of "advisory councils", including size, scope, and responsibilities; "eligibility for and applications for assistance," and "criteria for assistance", encompassing both specific and additional criteria for funding applications. The deadline is March 21. For program information and application forms contact:

Ethnic Heritage Studies Branch
Division of International Education
Bureau of Postsecondary Education
U.S. Office of Education, Room 3907
7th and D Streets, S. W.
Washington, D. C. 20202
(202) 245-2561

Research in Transportation Problems

The Department of Transportation has set a receipt deadline of April 1 for proposals for major interdisciplinary research programs to be funded under the DOT Program of University Research. The principal objectives of this program are:

1. To stimulate relevant, high quality and innovative transportation research at universities for the creation of new concepts, techniques, and knowledge.
2. To encourage the use of modern tools of analysis, planning and management, new technology, and of professionally trained people by state, regional and local transportation agencies on transportation problems.
3. To stimulate industry and local, state, and regional sponsorship of university-based transportation research.
4. To stimulate university research which will provide a meaningful contribution to the development of a national transportation policy.
5. To attract the nation's best young talent into careers in transportation.

The research should be interdisciplinary and multimodal or intermodal and should span several fields of transportation. Student participation in the research is encouraged. Primary criteria for selection of proposals are the relevance of the solution of important transportation problems, professional merit of the proposed research, and qualification of the investigators. A copy of the solicitation booklet will be available in Administration 317 shortly. (Continued on next page.)
NIEHS Health Research Programs The January 21 copy of Encouraging Notes briefly mentioned this new program of grants for research designed to elucidate and predict the health effects of pollutants and other potentially hazardous by-products associated with a number of energy technologies and conservation proposals currently being developed. Here's some additional information: The overall objectives of this National Institute of Environmental Health Sciences program are to (1) determine the qualitative and quantitative effects of energy-related hazardous agents on human health, from resource recovery and processing to energy utilization and conservation; and (2) elucidate the basic mechanisms of the observed effects. Priority areas of investigation include: (1) Development of more sensitive and rapid physiological indicators to evaluate damage to man, with the major need in the area of toxicity testing for methods which are less time consuming, complex, and costly. (2) Determination of mechanisms of incorporation, metabolism, deposition, and turnover of hazardous agents. (3) Determination of the relationship of metabolism and fate and the toxicology of energy-related particularates and organic compounds. (4) Quantification of relationships between exposure to hazardous agents and diverse behavioral, physiological and mutagenic effects. (5) Development of test models and concepts for extrapolation of cellular and animal data to man. (6) Identification of damage to cells and cell components as early indicators of injury in order to identify susceptible population groups and guide remedial therapies. Receipt deadlines are February 1, June 1, and October 1, 1975. For further information write to: Dr. Robert Owens, Extramural Programs, NIEHS, P. O. Box 12233, Research Triangle Park, North Carolina 27709.

Applied Research on Economic, Institutional and Legal Barriers and Incentives to the Commercial Production and Use of Solar and Geothermal Energy The National Science Foundation program has three areas in which research is solicited: Area I - Alternative Incentives to promote the commercial scale use of solar and geothermal energy. This research should focus on the design and evaluation of incentives for energy producers, related industries, and consumers. Area II - Industrial organization and regulatory requirements for new energy source exploitation. Impact of current industrial organization; implications of changes in organizational structure; regulatory requirements for new energy industries. Area III - Social Costs and benefits associated with energy production and use. Comparison of social costs and benefits of solar and geothermal energy use with existing energy sources. Support will be for from one to five equivalent professional person-years. The maximum duration of awards: two years. Deadline: received by March 13, 1975. (NSF 74-47) Information and application forms are available in the Research Development Office, Administration 317.
