KENNETH YOUNG APPOINTED COPA PRESIDENT

Kenneth R. Young, vice president for national affairs of the American College Testing Program, has been named president of the Council on Postsecondary Accreditation (COPA), effective Mar. 1. COPA, a newly created nonprofit body, will serve as the national "umbrella" organization for helping to coordinate the accrediting activities for all nongovernmental agencies engaged in postsecondary educational accreditation. It also will be the private agency that extends recognition to national accreditation bodies.

Dr. Young was a teacher in psychology, journalism, and English at both the Kellogg-Voorhis and San Luis Obispo campuses of Cal Poly from 1949 through 1957. He was also acting head of Arts and Sciences at the Kellogg-Voorhis campus. After leaving Cal Poly he served as dean of the faculty at the University of Alaska, executive vice president of the University of Nevada, and president of the State University of New York at Cortland.
AN "ENEMY OF THE PEOPLE" WILL TREAD STAGE

An Enemy of the People will be presented as the winter dramatic offering at Cal Poly. An Enemy of the People will star Pat Chew, a senior speech communication major and veteran Cal Poly actor, as Dr. Thomas Stockmann, the idealistic physician; and Mark Ditchfield, sophomore also majoring in speech communication, as his brother Peter.

The conflict between big business and public health, as dramatized by the great Norwegian playwrite, Henrik Ibsen, will be presented as the winter dramatic offering at Cal Poly. An Enemy of the People will star Pat Chew, a senior speech communication major and veteran Cal Poly actor, as Dr. Thomas Stockmann, the idealistic physician; and Mark Ditchfield, sophomore also majoring in speech communication, as his brother Peter.

The play is being produced by the Speech Communication Department with performances scheduled for 8 pm on Thursday through Saturday (Feb. 20-22) in the Cal Poly Theatre. Ticket prices for all performances are $1 for students and $2 for general admission.

The play (as adapted by Arthur Miller) concerns the struggle of a physician who warns townspeople that the famed health springs outside their village are becoming polluted, and that something must be done to save them. Instead of being praised for his efforts, the doctor is scorned, slandered, and becomes an outcast. The opposition to the clean-up is led by business interests, who feel their profits would be reduced.

Dr. Michael Malkin, faculty member of the speech communication faculty since last fall, is directing the 20-member cast for the Ibsen play. He previously worked as a professional actor in Canada, and has written articles of various aspects of acting, directing, and dramatic literature. Tickets for the production are being sold in advance at the ticket office in the University Union. Discounts and reserved seating for groups of 20 or more persons can be arranged by calling ext. 2486.

Dr. Culbertson will discuss how behaviorism, as a theory of human life, is incomplete in certain ways, and how sensory and memory images accompany behavior. Currently, he is writing a book on the same topic. Before coming to Cal Poly in 1953, Dr. Culbertson served for two years as a research associate for Rand Corporation. He later spent two years on a government grant doing research at the University of California, Los Angeles. CHANGE OF GRADE POLICY REVISED

The Academic Senate has recommended to President Robert E. Kennedy, and the Academic Council has endorsed, a new provision in the Campus Administrative Manual concerning changing of grades in the absence of an instructor. Dr. Kennedy has approved the addition effective immediately.

"The assignment of final grades is the responsibility of faculty members. Under unusual or emergency circumstances requiring a change of grade in the absence of the faculty member who assigned it, or if an instructor is on leave for one or more quarters or is no longer a member of the faculty, the department head is responsible. The department head may delegate authority for determining the grade, but the department head's signature is required for the grade change itself."

NEW PROCESSING SCHEDULE AT THE COMPUTER CENTER

Three new express runs have been established for the WATFOR and WATBOL job streams running on the IBM 360/40 at the Cal Poly Computer Center. According to Raymond E. Boche (Director, Computer Center), under the new schedule jobs submitted Monday through Friday:

by 9:30 am will be out by 11 am (except Tuesday mornings),
by 12:30 pm will be out by 2 pm, and
by 3:30 pm will be out by 5 pm.

Depending on total workload, additional turnarounds may be provided on swing-shift, and since backlogs have been clearing completely by 4 or 5 am, an overnight run is normally assured.

Earlier attempts at such services were abandoned when it became impossible to meet schedule commitments without creating serious inequities in resource allocation. The improved 360/40 speeds resulting from the new disc drives and related software changes, the addition of the WATBOL compiler, and the spreading of work to other facilities such as the remote job entry and timesharing systems all combine to make the staff optimistic about the new schedule. Faculty members desiring additional information should call Ray Boche at Ext. 2007.

Those wishing to donate to this fund may send a check in any amount, made payable to the "Dr. Alfred M. Kretzmann, Jr., Memorial Fund," to the Financial Aid Office, Admin. 107.

Final disposition of the memorial fund will depend on the amount donated by Dr. Kretzmann's friends. For example, if at least $400 is accumulated, the fund can carry his name. A smaller amount accumulated would go into a general loan fund, or a one-time scholarship in his name could be provided. A committee from the Economics Department will decide at the appropriate time how the fund will be used for the benefit of students, Dr. Behman stated.
