AGRICULTURAL LEADERSHIP SEMINAR WILL OPEN THURSDAY

Thirty outstanding young agriculturalists are expected to attend a three-day seminar on "Leadership Through Communication Education" on campus this Thursday, Friday, and Saturday (July 22-24).

All participants in the Agricultural Leadership Program of the Agricultural Education Foundation were selected from among 115 applicants to participate in the three-year program designed to develop leadership abilities among outstanding young farm men. The seminar is the sixth in a series, the second at Cal Poly, of the first year of the program.

In addition to seminar sessions on campus, the participants will tour the Sinton and Brown Dehydration Plant, Stanley Brown Feed Yard, and Union Sugar plant in the Santa Maria area, and the Diablo Canyon Nuclear Power Plant of the Pacific Gas and Electric Company. Seminar sessions will cover "Communicating Problems of Waste Disposal," "Goals and Problems of Education," "Problems of Handling Communications With Groups," and "Influencing People to Take Action."

College Faculty Participants

Cal Poly faculty members participating in the seminar will be Keith Nielsen, (Speech Department); Gordon Curzon, (English Department); Walter Schroeder, (Head of the Education Department); and Robert Dickinson, Louis Pippin, and Richard Jones (all Education Department). Industry participants will include: Kenneth R. Jones, executive officer, Central Coast Water Quality Control Board; Dean Brown, president, Agricultural Education Foundation and executive vice-president, Sinton and Brown, Santa Maria; Frederick Draeger, co-ordinator, nuclear information, PG and E; and Sid Culwell, manager, Los Padres District, PG and E.

The first year of the leadership development program which began in February includes 30 seminar hours in economics, 30 seminar hours in communications, 20 seminar hours in government, and 8 seminar hours in the arts. Cal Poly is offering the communications seminar portion of the program.

(Continued on Page 2)

JULY SALARY WARRANTS WILL BE AVAILABLE ON JULY 30

Salary warrants for the July pay period will be available to state employees who wish to pick them up in the Business Affairs Division Office, Adm-114, after 4 p.m. on July 30, if they arrive from the State Controller's Office in time for processing. They will be available after that date at the State Cashiers Office, Adm-131-C. Employees whose reporting departments and units are participating in the check distribution system can also obtain their warrants after 4 p.m. on July 30, from the designated member of their department or staff unit.
GRADUATE STUDENTS INVOLVED IN NEW MIGRANT EDUCATION PROGRAM

Twenty-five graduate students from Cal Poly are working in summer school and community services programs with children of migrant farm workers in Salinas under a recently initiated cooperative arrangement. Known as the Teaching Internship for Migrant Education (TIME) program, the $130,000 project is being coordinated by the college Education Department under a contract with the State Department of Education's Bureau of Community Services and Migrant Education.

Its purpose, according to Walter Schroeder (head of the Education Department), is to enhance "the recruitment and professional preparation of bilingual and bi-cultural teachers with special interests and abilities in working with migrant youngsters."

Frank Rivera, the enthusiastic 28-year-old coordinator of the TIME project, describes it as a "quality" program of specialized training for persons committed to education for the children of migrant workers. The interns began the program with a week of preparatory study on the Cal Poly campus last month and are presently in the midst of ten weeks of supervised school and community service experience in Salinas.

The Fall Quarter and next Spring Quarter will find the interns in the San Luis Obispo-Santa Maria area where they will work in classrooms composed of bi-lingual children. Sandwiced between will be another quarter of campus study at Cal Poly. By the close of the program's first year of operation next spring, the 25 participating interns will have completed requirements for their California Standard Teaching Credentials with specializations in elementary teaching.

DISCOUNT CARDS AVAILABLE TO FACULTY, STAFF OF COLLEGE

Faculty and staff members are eligible to receive discount cards to certain motels/hotels, restaurants, and amusement areas, according to an announcement from the Personnel Office. A few of these include DISNEYLAND'S MAGIC KINGDOM, KNOTT'S BERRY FARM, MOVIELAND WAX MUSEUM AND PALACE OF LIVING ART, SEA WORLD, SAN DIEGO ZOO, UNIVERSAL STUDIOS TOUR, JAPANESE VILLAGE AND DEER PARK, LION COUNTRY SAFARI, PALM SPRINGS AERIAL TRAM, SAN FRANCISCO HILTON HOTEL, KINGS INN/MISSION VALLEY INN in San Diego, and LET'S DINE OUT. In view of the summer holidays, employees who are interested in obtaining discount cards are invited to contact Lynn Morrison in the Personnel Office, Adm-110, 546-2236.

AGRICULTURAL LEADERSHIP SEMINAR (Continued from Page 1)

The three-year program for the 30 young men includes exposure to economics, government, communications processes, and the arts at the state, national, and international levels. The second year will include travel to various areas of the nation and the third year will include travel abroad. A second group of 30 young men will begin the program in February, 1972, and a third group, in February, 1973.

The program is financed by the James G. Boswell Foundation of Los Angeles, the James Irvine Foundation of San Francisco, and the W. K. Kellogg Foundation of Battle Creek, Mich. Participating colleges are Cal Poly, San Luis Obispo; California State Polytechnic College, Pomona; Fresno State College; and University of California at Davis.
PRESS PHOTOGRAPHERS WORKSHOP WILL BE ON CAMPUS

The clicking of shutters and the popping of flash bulbs are bound to appear from every corner of the campus when the Journalism Department and the California Press Photographers Association (CPPA) co-host the first annual Image Workshop West on campus on Aug. 20-22.

Geared for both amateur and professional photographers, the three-day workshop is being planned to tax the abilities of its enrollees to produce high-quality, photographic results from assigned photography problems.

The workshop is being supervised by the Image West Committee, chaired by Jack Wilson, picture editor of the Santa Barbara News Press and a former member of the Journalism Department staff. Other members of the committee are Jim Vestal, picture editor of the Sacramento Union; Gary Gillis, CPPA president and Sacramento Union photographer; and John Healey (head of the Journalism Department).

According to Healey, anyone with an interest in photography may apply for inclusion in this summer program. However, a committee of professionals has been chosen to evaluate all applicants and to narrow final enrollment in the program to 30. Applicants will be accepted, in part, on the basis of three 8-inch by 10-inch prints to be submitted with their applications.

RECENTLY-COMPLETED BRIDGE REPORTED IN "LOS ANGELES TIMES"

The recently-completed bridge which spans Brizzolara Creek on campus is the subject of a photograph and caption which appeared in the Real Estate/Building Section of the Los Angeles Times on July 11. The bridge, which connects two parking lot sections which line the creek on campus, utilizes cables strung through pre-cast concrete sections for support.

Designed and built by six architecture students, the bridge is a 40-foot clear span structure with side girders of 5 pre-cast sections. Only $5,000 of State College Parking Revenue Fund monies were spent on this project. More than $17,000 worth of donated materials and labor helped to create the bridge, which has an estimated worth of $55,000.

School of Architecture and Environmental Design students and faculty, faculty of the School of Agriculture and Natural Resources, and members of the college Plant Operations Department staff all cooperated on the project, which is expected to encourage use of the 402-space parking lot in the northern part of the campus.

TRACTOR FOR USE IN INSTRUCTIONAL PROGRAM GIVEN TO COLLEGE

The gift of a prototype V8 Diesel powered tractor to be used in the instructional program of the Agricultural Engineering Department of Cal Poly's School of Agriculture and Natural Resources was accepted recently by J. Cordner Gibson (Dean of Agriculture and Natural Resources) and Lloyd Lamouria (Head of the Agricultural Engineering Department). A gift of Massey-Ferguson, Inc., the tractor will be used in farm power classes of the department. Its 510 cubic inch Perkins Diesel engine delivers 135 power take off horsepower.
MACHINES DESIGNED BY CAL POLY STUDENT WILL IMPROVE BLOOD BANK OPERATION

Two machines that will greatly reduce the cost of operation at the Tri-Counties Blood Bank have been designed and built by a Cal Poly student. Fred Hollis, a 24-year old senior majoring in industrial technology, recently constructed two agglomeration cell-washing machines — more commonly known as blood reconstituting machines — as an answer to a need expressed by the Santa Barbara-based bank.

Purpose of the machine is to take frozen red blood cells that have previously been separated from the white cells and, with the aid of a saline solution mixed with glycerine, reconstitute the whole blood cell. This is a necessary process since blood in its whole state will last no longer than 21 days before spoilage. Separation enables the red cells to live up to five years and any time during that period the cells may be reconstituted with the aid of the machine.

Hollis, along with his faculty adviser, Ray Wysock (Industrial Technology Department), began designing the machine for a drawing assignment in a general metals class last fall. Actual construction of the machine began during the following quarter and was completed during the last month as part of a special problems project.

First developed six to seven years ago, blood reconstituting machines sold for a cost of approximately $10,000. Today the cost has been reduced to $350-$400 on the average and the two machines constructed at Cal Poly were built for approximately $50 apiece.

"This little machine takes the place of the $10,000 machine," according to Dr. Laurence L. McLellan, medical director of the Tri-Counties Blood Bank. "It makes it possible to level out the peaks and valleys in blood donations. We are the only bank of our size that uses the freezing process for blood storage. Generally, only the large banks can afford the machine."

VACANCIES ON COLLEGE SUPPORT STAFF LISTED BY PERSONNEL OFFICE

Two vacant positions on the college support staff have been announced by S. Milton Piuma (Staff Personnel Officer). Descriptions of the positions, which may be filled by promotion or transfer of Cal Poly staff only, are posted on the bulletin board located in the Personnel Office, Adm-111, 546-2236. Guidelines for filling the positions are also posted in the Personnel Office. The positions are:

Departmental Secretary I-B ($517-$628), Bureau of Agricultural Education, School of Agriculture and Natural Resources. Duties and responsibilities include taking dictation, transcribing, typing, maintaining filing system, and making supervisor's reservations and appointments; and acting as a receptionist in independent management of office. Applicants must have passed the General Clerical Test, be a high school graduate, take shorthand at 90 wpm, type 45 wpm, and have two years general office experience.

Clerical Assistant III-A (Working Title: ID Card Specialist) $548-$666), Admissions and Records Office, Student Affairs Division. Duties and responsibilities include coordination and implementation of the new ID card process, organizing and supervising picture-taking function at registration; processing all faculty and staff not processed at registration, distributing ID cards received from factory, handling all communications with vendor including film processing and collecting funds for replacement of cards. Applicants must have passed the General Clerical Test and have basic knowledge of photography including posing of subjects, focusing of cameras, lighting, etc.
COMING EVENTS

Second Summer Session Classes Begin -- Tuesday, July 20, all day, campus. Classes for the second session of Cal Poly's 1971 Summer Sessions program begin.

Plant Operators Council Meetings -- Wednesday through Saturday, July 21-24, all day, Administration Building and Staff Dining Room. Semi-annual meetings of the Chief Plant Operators Council of the California State Colleges; hosted by the Business Affairs Division. By registration in advance.

Agricultural Leadership Seminar -- Thursday through Saturday, July 22-24, all day, Staff Dining Room. Study sessions for selected agricultural leaders from throughout California; sponsored by the Council of California Growers and hosted by the Cal Poly School of Agriculture and Natural Resources.

Farm Brokers Conference -- Monday through Wednesday, July 26-28, all day, Cal Poly Theater. Annual workshop and meetings of farm brokers from throughout the state; sponsored by the California Farm Brokers Association and hosted by the Agricultural Management Department. By registration in advance.

Public Affairs Talk -- Thursday, July 29, 11 a.m. Julian A. McPhee College Union Room 220. Talk on "The Community" by Donald Q. Miller, a former member of the San Luis Obispo City Council; sponsored by the Summer Program Board of the Cal Poly Associated Students, Inc. Public invited.

Physical Education Workshops -- Sunday, Aug. 1, through Friday, Aug. 13, all day, campus. Two separate but related workshops for professional physical educators and athletic coaches from secondary schools throughout California; jointly sponsored by the California Association for Health, Physical Education, and Recreation, the State Department of Education, and the Physical Education Department of the college. By registration in advance.

Mozart Festival Concert -- Friday, Aug. 6, 8 p.m., Julian A. McPhee College Union. Opening concert of the San Luis Obispo Mozart Festival; sponsored by the San Luis Obispo Mozart Festival Association and hosted by the Cal Poly Associated Students, Inc. General admission tickets - students, $1.50; all others, $2.50.

Mozart Festival Concert -- Saturday, Aug. 7, 8 p.m., Cal Poly Theater. Second of three concerts of the 1971 San Luis Obispo Mozart Festival; sponsored by the San Luis Obispo Mozart Festival Association. General admission tickets - students $1.50; all others, $2.50.

INVITATION ISSUED BY CRAFTS CENTER

Faculty and staff are invited to participate in programs of the Crafts Center in the Julian A. McPhee College Union this summer. Leslie Griffin, (activities adviser) who is in charge of the Associated Students, Inc., sponsored programs, says sessions on macrame, photography, tye dye, silkscreen, jewelry and ceramics are being offered. There is a $3 charge to cover costs of instruction. Materials may be purchased either at the Crafts Center or from off-campus suppliers. Further information may be obtained at the Activities Planning Center in the College Union.
CAL POLY STAFF PRAISED BY DEPARTMENT OF EDUCATION OFFICER

The efforts of members of the college staff in making the 45th annual conference of the California Agricultural Teachers Association, which took place on campus last month, a success were praised in a letter received by President Robert E. Kennedy recently. The letter written by Ted Gregg, who is regional supervisor for the State Bureau of Agricultural Education in the Superior Region, read:

"Each year hundreds of California Agriculture teachers congregate on your campus in June for their annual Conference. I cannot think of any other place that would be more desirable for this event or any other place that would provide us with the beautiful setting and warm hospitality that you folks do."

"All of us look forward to Summer Conference, annually, as a place of fellowship and a place to develop professionally and become again enthused and rejuvenated for the new school year.

"Each year we leave Cal Poly feeling that we have been successful in accomplishing this goal; however, I feel that a major portion of this success is only possible through the generosity of Cal Poly who provides us with this ideal meeting place.

"My sincere thanks to you, Dr. Kennedy, and all of the Cal Poly staff involved in making our Conference possible. I truly hope that we may always merit this great support from California State Polytechnic College."

FREEZE ON VACANT POSITIONS EXTENDED THROUGH OCT. 31

Although the 1971-72 budget has been signed by Governor Ronald Reagan, the Chancellor's Office has recently announced that the position freeze, which was instituted last December, will continue through Oct. 31, 1971. The Chancellor's Office has also indicated that no non-faculty reclassification actions will be processed until further notice. A memorandum containing additional information about the freeze of positions is attached to this issue of Cal Poly Report for the information of faculty and staff members. Any questions regarding the ramifications of the amended freeze guidelines should be directed to the Personnel Office, Adm-111, 546-2236.

STUDENT DIRECTORY MOVED TO COLLEGE UNION ENTRANCE

The card directory of Cal Poly students formerly located in the second floor lobby of the Administration Building has been relocated to the main entrance foyer of the Julian A. McPhee College Union.

APPLICANTS FOR CAMPUS FACULTY POSITIONS (Continued from Page 7)

Vocational Instructor ($777-$1602), Business Administration Department, School of Business and Social Sciences. Duties and responsibilities include full teaching load beginning with the 1971-72 academic year, some committee work, and student advising. Prefer CPA's that possess PhD's in accounting.
APPLICANTS FOR CAMPUS FACULTY POSITIONS BEING SOUGHT

Applicants for several positions on the teaching faculty of the college are presently being sought, according to Larry Voss (Director of Personnel Relations). Those interested in learning more about the positions or in applying for them are invited to contact the appropriate school dean or department head:

Lecturer ($777-$945) or Associate Professor ($1032-$1253), School of Architecture and Environmental Design. One year terminal lectureship position. Applicant must possess a master's degree in planning, be prepared to submit a brochure of original work for review, and have at least five years experience in a professional planning office. Prefer candidates with membership in the American Institute of Planners.

Lecturer (salary open), School of Architecture and Environmental Design. One year terminal lectureship position. Applicant must possess a master's degree in landscape architecture with three years experience in a professional landscape office, and at least five years teaching and administrative experience in landscape architecture and design. Candidates must be prepared to submit a brochure of original work for review. Prefer applicants with a registered California license.

Intermediate Instructor ($777-$945), School of Architecture and Environmental Design. Applicants must have a degree from an accredited school plus graduate work, have a minimum of five years office experience, and must be prepared to submit a brochure or original work for review. Prefer applicants with membership in the American Institute of Architects with registration in California.

Instructor I ($705-$900) or Assistant Professor ($777-$992), History Department, School of Communicative Arts and Humanities. Duties include teaching one or more sections of history of civilization, modern Europe, and European historiography; committee work; and student advising. Applicants must possess or be close to possessing a PhD in history with some teaching experience. Minority applicants between 25-40 years of age preferred.

Lecturer ($777-$945), Industrial Engineering Department, School of Engineering and Technology. Duties include teaching courses in operations research, engineering economy, and other related subjects in the field of industrial engineering. Applicants should possess a PhD and have some recent industrial experience. Fall quarter 1971 only.

Lecturer ($777-$945), Mechanical Engineering Department, School of Engineering and Technology. Duties and responsibilities include full-time teaching load for 1971-72 academic year. Applicants must possess a PhD and have industrial mechanical engineering experience. Teaching experience desired.

Lecturer ($777-$945), Welding and Metallurgical Engineering Department, School of Engineering and Technology. Duties include teaching oxyacetylene welding and brazing processes, gas tungsten arc, resistance shielded metal arc, various gas-metal arc welding processes, microbonding of electronic components, some advanced welding technology classes including welding power supplies and welding designs, nondestructive testing techniques and equipment. Candidates must possess a master's degree in mechanical engineering, metallurgical engineering, or related fields with appropriate industrial experience. Teaching experience desired. For 1971-72 academic year only.

Lecturer ($194.25-$236.25) (one-fourth time for fall quarter 1971 only), Mechanical Engineering Department, School of Engineering and Technology. Duties include teaching solid mechanics, and vector methods. Applicants must possess a master's degree in engineering. Teaching experience desirable.

(Continued on page 8)
WHO • • • WHAT • • • WHEN • • • WHERE ? ? ?

Howard F. Smith (Economics Department) is the author of a professional paper on his visit to Micronesia, which will be published in the forthcoming Fall, 1971, issue of Pacific Review. Dr. Smith visited Micronesia, the island groups located east of the Phillipines, last year.

Edward A. Cairns and Robert Huot (both English Department) have been recently notified that requirements for their Doctor of Philosophy Degrees in English have been completed. Dr. Huot, a member of the Cal Poly faculty since 1963, will receive his degree during commencement exercises at University of Utah next month. Dr. Cairns, who joined the college faculty in 1969, received his last month from the University of Denver.

Frank J. Hendel (Aeronautical Engineering Department) was the guest speaker during the June 25 luncheon meeting of the Exchange Club of San Luis Obispo. Topic of Dr. Hendel's remarks was the National Aeronautics and Space Administration's Space Shuttle Program.

C. James Olsten (School of Architecture and Environmental Design) presented a paper titled "A Summary of Architectural Involvement with Computers" during the Design Automation Workshop held recently in Atlantic City, N.J. The program began June 28 and continued through June 30.

Norman Hum, a senior majoring in engineering technology at Cal Poly, is among 96 undergraduate students in science and engineering from across the nation who are doing research work this summer at U.S. Atomic Energy Commission laboratories. Hum is working in the reactor division at the Oak Ridge Laboratory in Tennessee. The students in the program this summer represent 81 colleges and universities from throughout the country. They were chosen from more than 250 original applicants.

INFORMATION ON ADMINISTRATIVE VACANCIES AT OTHER COLLEGES AVAILABLE ON CAMPUS

Information on administrative vacancies at other colleges, for which candidates are being sought, is available in the campus Placement and Financial Aids Office, Adm-213, 546-2501. The positions currently available include:

California Coordinating Council for Higher Education, Sacramento — Project Director for Special Opportunities Planning Grant, one-year position, $18,000 annually, appointment date is Aug. 2, 1971.

Fresno State College — Administrative Services Manager, $10,356 to $12,576 annually, assignment in the admissions and records area, deadline for applications is Aug. 1, 1971.

SUMMER PUBLICATION SCHEDULE FOR "CAL POLY REPORT".

During the Summer Quarter, Cal Poly Report will be published on an every-other-week basis. The next issue of Cal Poly Report will be published on Aug. 3. A back to campus issue is planned for Sept. 17 and resumption of the regular weekly publication schedule for the Fall Quarter will be on Sept. 28. Deadline for receipt of copy for Aug. 3 issue will be at noon on Friday, July 30.
MCCORKLE, PIERCE WILL BEGIN NEW DUTIES ON SEPT. 1

Douglas R. Pierce and Robert E. McCorkle will begin new duties on Sept. 1 following announcement of two changes in the administrative faculty of the college by President Robert E. Kennedy. Dr. Pierce will move into academic area of responsibility as associate in academic affairs and McCorkle, who has been a member of the faculty of the Agricultural Management Department, will assume Dr. Pierce's former duties as director of international education.

McCorkle, an alumnus of Cal Poly who received his degree in farm management in 1960, joined the college faculty as a specialist in agricultural economics in 1962 after earning his master's degree at University of California at Davis. Since that time he has served 30 months on overseas assignment in Zambia where he became chief of party for the Cal Poly/AID project and served in the capacity of chief farm management officer for that nation's Ministry of Agriculture.

Dr. Pierce became a member of the Cal Poly administrative faculty in 1969 after having been a member of the faculties of Cornell University, University of Minnesota, University of Rochester, and Johns Hopkins University. A graduate of University of Illinois, where he earned two degrees, he completed his doctor's degree studies at University of Florida.

PROFESSIONAL DEVELOPMENT PROGRAM FOR WORK EXPERIENCE EDUCATION

Young people in high schools throughout California are expected to benefit from a new work experience education professional development program being initiated by Cal Poly under a contract with the State Department of Education. Purpose of the new Cal Poly program is to improve the professional preparation of the teachers and others who work with the young people enrolled in work experience education programs in the state's high schools.

Under terms of the $72,376 agreement, the Education Department of the college, which has long been identified with vocational education in California, will provide a workshop on campus this summer and two courses at some 15 locations throughout the state over the next 12 months.

According to Dr. Walter Schroeder, head of the Cal Poly department, goal of the program, which began early this month under the direction of Tony Thele of the college faculty, is to give new continuity to the professional development of those involved in leadership of work experience programs. "There is presently no college in California providing comprehensive pre- or inservice education for teachers involved in work experience education," Dr. Schroeder said. "Cal Poly, with the assistance of this program and the cooperation of the State Department of Education hopes to fill that need."

Thele, who joined the faculty of the Education Department recently after having been a teacher and coordinator at Hanford Union High School for 10 years, said that work experience education programs in California have grown dramatically in recent years. Typical of that fact is the increase of more than 60 percent (from 31,000 to 50,000) in enrollment in programs in the state from 1969 to 1970.

The new Cal Poly project is designed to encompass four basic activities, according to Thele, who developed the work experience education program at the high school in Hanford. (Continued on page 10)
PROFESSIONAL DEVELOPMENT PROGRAM FOR WORK EXPERIENCE EDUCATION (Continued from Page 9)

First is the summer workshop, which will take place Aug. 16-20 at Cal Poly. Its purpose will be to familiarize educators with the concept of goals and performance objectives for their programs.

The training of 10 participants of the workshop to serve as resource persons and teachers for the courses that will be offered during the Fall and Spring Quarters will be the second part of the new Cal Poly program. They will be specially prepared to present to local coordinators who have worked with work experience education programs for longer periods of time the strong philosophical and educational reasons why goals and objectives are needed in work experience education.

Presentation of a course on the fundamentals of work experience education for some 280 local coordinators who are in their first or second years in the field will be the third phase. The course on fundamentals will meet at centers in seven different cities throughout the state during the Fall and Spring Quarters.

Fourth among the basic activities will be presentation of an advanced course in evaluation for work experience education. Some 400 coordinators who have been involved in work experience education for longer than two years are expected to take the advanced course, also at locations throughout California.

BUSINESS SERVICES OFFICES NOW IN NEW QUARTERS

The General Office Personnel Department and Payroll Department are all doing business in new or revised quarters following a series of moves completed in the last few days. After removal of the General Office to Adm-132, the Payroll Department is now located in Adm-11 (the former General Office location) and the Personnel Department is now located in Adm-12 (the former Payroll Department quarters). Telephone numbers for all three functions remain unchanged.

LOCAL CONTRACTOR SUBMITS LOW BID FOR CAMPUS PROJECT

Gallagher Electric Company of San Luis Obispo submitted the low bid of $25,460 when proposals for work on the primary circuit breaker and branch circuit "G" were opened on campus last week. Construction on the project is expected to begin within a few weeks, according to E. Douglas Gerard (Executive Dean), who said a total of six bids were received.

1971 HOMECOMING THEME LISTED

"What the world needs now" will be the theme of the 1971 Homecoming for graduates of Cal Poly, which is being planned for Saturday, Oct. 30. Graduates of 1948-1952, the GI students who lived in Vetville and Silver City on campus, will hold a special reunion following the Homecoming football game between Cal Poly's Mustangs and the Forty-niners of California State College at Long Beach.

Typewritten copy intended for the next issue of Cal Poly Report must be received prior to 12 noon Friday, July 30, in the Office of Information Services, Administration -210.
ACTIONS OF STATE COLLEGE TRUSTEES SUMMARIZED

Action taken by the Board of Trustees of the California State Colleges during its regular meeting held in Los Angeles last Wednesday (July 14) included the following:

-- designated Aurelio de la Vega, professor of music at San Fernando Valley State College, and Gilbert Geis, professor of sociology at California State College at Los Angeles, as the 1971 Outstanding Professors. They will receive $1,000 awards from the Joseph M. Schenk Foundation, administered by the California State College Foundation.

-- unanimously reaffirmed the board's request for adequate funding for the needs of the State Colleges as previously proposed to the Governor and the Legislature.

-- authorized the chancellor to establish a salary shift differential program for selected state college employees; effective July 1, 1971 an increase of 13 cents per hour for the evening shift and 18 cents per hour for the night shift.

-- increased the Fall 1971 tuition for all full-time foreign students to $1,110 per year in conformance with the 1971-72 Support Budget approved for the State Colleges; also requested that steps be taken to ease the financial burden on foreign students.

-- authorized the chancellor to take whatever actions are necessary for the July 1971 pay period within appropriated funds, within the provisions of Section 37 of the Budget Act of 1971.

-- amended Title 5, California Administrative Code, to permit extension enrollment in regular course offerings designated by the college, for extension credit, provided eligible regular students have first opportunity to enroll in such courses; authorized the chancellor to establish and revise procedures relating to such courses.

-- adopted revised systemwide policy on tenure for academic employees; approved appropriate changes in Title 5.

-- adopted procedures governing board review in cases of dismissal of tenured faculty.

-- named three trustees and three alternates to a board committee to review recommendations in cases of dismissal of tenured faculty, for a one-year term, as follows: Daniel H. Ridder (chairman), Alec L. Cory, and W. O. Weisssich; alternate members, Gene M. Benedetti, Mrs. Philip Conley, and William F. McColl.

-- adopted policy (adding Section 43572 to Title 5) relating to appointment, promotion and retention of directors of athletics and athletic coaches.

-- indicated Board support for the conference of trustees, presidents, chancellor's staff, students and members of the statewide Academic Senate which the Academic Senate is planning for Sept. 10-12.
APPLICATION OF MARKINGS FOR BICYCLE LANES BEGINS

The lengthy task of applying the needed street markings and signs for the soon-to-be initiated bicycle lane system for the college began last week, according to information received from Donald S. Nelson (Director of Business Affairs). Preparatory work on the system will continue over the next several weeks with most of the work being done on weekends when traffic on campus is relatively light.

Most notable of the markings already applied are the red curbed "no parking" areas and yellow lane markings along Outer Perimeter Road. Although use of the bicycle lane system will not officially begin until Sept. 20 when members of the college faculty return to duty for the Fall Quarter, enforcement of the no parking areas will begin as the new zones are marked.
TO: State College Presidents  
FROM: H. E. Brakebill  
Executive Vice Chancellor  
SUBJECT: 1971/72 Expenditure Restriction Program

We have been advised by the Director of Finance that the expenditure restriction program in effect this past year must be extended into the 1971/72 fiscal year. As you recall, this restriction places a freeze on filling of all vacant positions, out-of-state travel, leasing, consultant contracts and purchasing. (See Management Memorandum 70-29, dated November 30, 1970).

The only exceptions presently authorized by the Department of Finance are:

1. The appointment of faculty needed to staff classes scheduled for the fall semester or quarter of 1971.

2. The appointment of an individual based upon a formal written offer of employment made prior to July 13, 1971.

To implement the above exceptions, the appointing document (Form 604) should be forwarded directly to the Controller with the following certification typed on the document and signed by either the College President or Business Manager:

I certify that the employment being effected by the attached Form 604 Number _____ for the California State College at ___________, is for position number ___________; and that the appointment of ___________ is necessary to _______

(Name of Appointee)

1) employ the faculty required to meet scheduled classes for the 1971 Fall semester or quarter or 2) meet a commitment made to the named individual, in writing, prior to July 13, 1971. This appointment therefore qualifies as an emergency appointment per the memorandum dated July 13, 1971, from Mr. H. E. Brakebill, Executive Vice Chancellor.
You are requested to observe the above expenditure restriction program until alternative solutions to the fiscal problems can be achieved.
