SPECIAL FORUM - JAN. 19

HEW UNDERSECRETARY VENEMAN WILL SPEAK ON CAMPUS TOMORROW

A discussion of the educational services available to San Luis Obispo County through the U.S. Department of Health, Education, and Welfare will be presented when John G. Veneman, undersecretary of that department, visits the Cal Poly campus tomorrow (Wednesday, Jan. 19). He will present his views during a forum program to be presented in the Cal Poly Theater starting at 2:30 p.m., according to President Robert E. Kennedy, who will be moderator for the program.

Undersecretary Veneman's remarks will be followed by questions from a panel composed of Cuesta College President Merlin Eisenbise, San Luis Obispo County Superintendent of Schools William Watson, and San Luis Obispo Coastal Unified School District Superintendent Ronald Notley, and then by questions from the audience as time permits.

Members of the college student body, faculty, and staff, as well as persons from the County Schools Office, San Luis Coastal Unified School District, and Cuesta College, are invited to hear the top-level federal education leader and participate in the forum.

A former member of the California Legislature from Modesto, Undersecretary Veneman assumed his assignment with the Department of Health, Education, and Welfare in 1969. He was elected to the State Assembly in 1962 after having been a member of the Stanislaus County Board of Supervisors. Before that he was a member of a local school board and the county Grand Jury, and a successful peach rancher.

T V COURSE PREMIER ANNOUNCED FOR JAN. 30

Sunday, Jan. 30, will be premier day for a color television program series on flower arrangement which has been produced by Cal Poly. The 30-minute educational television programs will be aired at 11:30 a.m. each Sunday through mid-May, according to a joint announcement from Cal Poly and the stations which will air the series -- KSBW-TV, Channel 8, Salinas, and KSBY-TV, Channel 6, San Luis Obispo.

Viewers in communities as far north as Santa Clara County and as far south as Santa Barbara County will be able to earn two units of credit by watching the programs and taking part in a final demonstration of their work. They will, of course, also be able to view the programs simply for entertainment and information.

Robert L. Gordon of Cal Poly's Ornamental Horticulture Department faculty is the teacher for the 16 programs of the series, which he describes as "a discussion of the principles and uses of design in flower arrangements for party and home decorating." A member of the college faculty since 1967, Gordon is an internationally-recognized floral designer and the 1969 winner of the "Telly" award, which is presented annually by the Teleflora organization for outstanding accomplishment in floral design.

Cal Poly Report - January 18, 1972 -- Page 2

PANEL DISCUSSION WILL OPEN NEW PROGRAM SERIES

"The World We Have Lost" will be the title of the first of a series of programs to be presented over the next several weeks by Cal Poly's School of Communicative Arts and Humanities. The program, which will be held in the Council Chambers of the Julian A. McPhee College Union starting at 11 a.m. on Thursday (Jan. 20), will be a panel discussion. Admission will be free and the public, as well as students, faculty, and staff of the college is invited to attend.

Those scheduled to take part in the panel discussion program are Jon M. Ericson (Dean of the School of Communicative Arts and Humanities) and Gordon A. Curzon, Stanislaus J. Dundon, Daniel Krieger, and Bernice B. Loughran, all members of the college faculty. Dr. Loughran is head of the Art Department and Drs. Curzon, Dundon, and Krieger, respectively, are members of the English, Philosophy, and History Department faculties.

Thursday's program will be the first of a series of such events to be known as "The Arts and Humanities - 1972," according to Dean Ericson, who announced the series last week. He said the programs are planned to augment other art, music, and drama events that are presented by departments of the School of Communicative Arts and Humanities throughout the year. The new series will include lectures and open discussions as well as panel discussions.

Dates and topics for other programs already scheduled for the series are: Feb. 3 -- "Is there a Counter Culture in the Making?"; Feb. 17 -- "The Crucible"; March 2 -- "The Message is the Medium"; April 13 -- "Italian Music from the Frank V. deBellis Collection"; May 4 -- "Views of Utopia"; May 18 -- "Humanities, 2003."

T V COURSE PREMIER ANNOUNCED . . . (Continued from Page 1)

Titled Flower Arrangement, the new television series was produced commercially as a joint effort of the Cal Poly extension program and the Ornamental Horticulture Department of the college's School of Agriculture and Natural Resources.

Persons wishing to receive credit for the television course will be required to pay a registration fee of $25.25. The only other cost for those taking the course for credit will be for the syllabus which will be available for purchase from the El Corral Campus Store at the college.

Additional information about the programs and about pre-registration for the course can be obtained by contacting the Continuing Education Office, Adm-311, 546-2053.

C U ART EXHIBIT WILL CONTINUE THROUGH NEXT TUESDAY

Sketches representing four phases in the life of Toulouse-Lautrec are on display in Room 221 of the Julian A. McPhee College Union through next Tuesday (Jan. 25). Included in the display are sketches of friends, sketches of places he lived, impressions of Paris night life in the 1890's, and representations of famous people reacting to different situations. The Fine Arts Committee of Cal Poly's Associated Students, Inc., is sponsoring the exhibit, which is open each day from 10 a.m. until midnight. Admission is free and the public is invited to attend.
PIONEERING COMPUTER HAS NEW HOME AT CAL POLY

A computer that a decade ago pioneered the monitoring of oil production now will provide valuable laboratory experience for engineering students at Cal Poly. The Continental Oil Company has donated the computer - a CDC-046 Computer - to the School of Engineering and Technology at the college.

Affectionately dubbed "Big Red," the computer was installed at Thermopolis, Wy., by the Continental Oil Company in 1961. It was the first in the world to be programmed for remote control of oil and gas production.

Now replaced by a more modern computer with greater capabilities, "Big Red" has found a new home in the Electronic and Electrical Engineering Department at Cal Poly and will be available to students at the college.

Not only is "Big Red" of historical significance to the oil industry, but its installation at Cal Poly is a direct result of close links between the college and industry. Cal Poly has the computer because a faculty member joined Conoco while on sabbatical leave to increase his knowledge of petroleum engineering.

Frank Crane (Mechanical Engineering Department), who instructs classes in petroleum engineering, spent the 1970-71 academic year working with Conoco engineers in Houston, Tex. Prior to his college teaching days he had worked as an engineer for the oil company.

Charles R. Russell (Associate Dean of the School of Engineering and Technology) says the computer will provide engineering students with expanded laboratory experience opportunities, will enable students to apply computer techniques to their laboratory projects and will provide a historical link between the college and the petroleum industry.

REGISTRARS AID ON-CAMPUS VOTER REGISTRATION

Voter registrars will be active on campus to assist in the registration of student, faculty, and staff members who wish to qualify for the coming election. Information in times and locations of voter registration services is available in the Associated Students Office, CU-217H, 546-2011. Since registration closes 54 days prior to any election, the deadline for an upcoming Atascadero District election is midnight, Thursday (Jan. 20) and Sept. 17 for some forthcoming municipal elections.

Anyone may register to vote who, at the time of the next succeeding election: 1) will have attained the age of 18; 2) will have resided in this county for 90 days; 3) if not a citizen by birth, will have been a naturalized citizen for 90 days; and 4) has not been convicted of a disqualifying felony.

One must register to be able to vote, if he or she: 1) has not registered before in San Luis Obispo County; 2) has received a change of name by court decree or by marriage; 3) failed to vote at the General Election of November, 1970 (in which case any previous registration was automatically cancelled); 4) desires to make a change of declared political affiliation; or 5) has moved to a different electoral precinct within this county. In addition, any candidate for office must reregister to change the occupational listing on the ballots.
SIX SUPPORT STAFF VACANCIES LISTED BY PERSONNEL OFFICER

Six vacant positions on the support staff of the college have been announced by S. Milton Pluma (Staff Personnel Officer). Descriptions of the positions are posted on the bulletin board located outside the Personnel Office, Adm-110, 546-2236. Those interested in applying for any of the positions should contact that office to obtain an application form. The positions are:

Departmental Secretary I-B ($517-$628), Agricultural Education Department, School of Agriculture and Natural Resources. Duties and responsibilities include taking dictation, typing and keeping financial records, maintaining file system, answering phone and making travel arrangements, conducting business of department, working with student teachers' registration, credential applications, placement, etc. Applicants must be high school graduates and have passed the General Clerical Test. In addition, applicants must be able to type 45 wpm, take shorthand at 90 wpm, and have two years general office experience.

Bookkeeping Machine Operator II ($505-$614), Accounting Office, Business Affairs Division. Duties and responsibilities include supervising and programming all machine bookkeeping applications and varied accounting transactions and assistant machine operator. Applicants must have equivalent to graduation from high school, advanced knowledge of machine bookkeeping and basic accounting principles, and have passed the General Clerical Test. Basic understanding of the state accounting system and ability to program and operate a 1400 Series Burroughs Accounting Machine are both preferred.

Intermediate Account Clerk ($457-$556), Accounting Office, Business Affairs Division. Duties and responsibilities include providing material assistance to data clerk in area of keypunching and verification of miscellaneous accounting data, assisting in the general area of bookkeeping as required to assist departmental supervisor in facilitating other special and periodic workload assignments, i.e., quarterly registration of students and payroll distribution processing. Applicants must have equivalent to graduation from high school and have passed the General Clerical Test, plus additional training and/or one year experience in basic bookkeeping and accounting. Applicants with experience in IBM keypunch and verification operations desired.

Clerical Assistant II-A ($228.50-$287), (half-time), General Office - Mail Room, Business Affairs Division. Duties include assisting in sorting and delivering mail, some heavy lifting, assisting with campus mail routes. Applicants must have passed the General Clerical Test and have a valid California driver's license. Applicants knowledgeable of names of California towns desirable. (Working hours: 1:30 p.m. to 5:30 p.m., Monday through Friday, with occasional work on Saturdays.)

X-Ray Technician ($628-$764), Health Center, Student Affairs Division. Duties and responsibilities include working under direction of medical officers with responsibility for X-ray department and be able to perform all duties required of registered X-ray technician. Applicants must have equivalent to graduation from high school and two years experience, and be a registered X-ray technician.

Clerical Assistant II-A ($457-$556), Library, Order Section, Academic Affairs Division. Duties include processing of serial items, verification of bibliographical entries in order process, plus other clerical duties. Applicants must be high school graduates and have passed the General Clerical Test. In addition, they must be able to type 45 wpm and have one year general clerical experience.
COMING EVENTS -- COMING EVENTS -- COMING EVENTS

Varsity Wrestling -- Tuesday, Jan. 18, 7:30 p.m. Men's Gymnasium. Cal Poly vs. California State College at Fullerton. General admission tickets - students, 50 cents; all others, $1.50.

Last Day to Withdraw from Winter Quarter Courses -- Wednesday, Jan. 19, all day. Last day for Cal Poly students to withdraw from Winter Quarter courses without a penalty.

Cal Poly Women's Club Home and Garden Section Meeting -- Wednesday, Jan. 19, 10 a.m. 590 Country Club Lane, San Luis Obispo. Demonstration of stitchery by Julie Manyak during meeting in the home of Mrs. Verna Smith. Members invited.

American Indian Lecture -- Wednesday, Jan. 19, 12 noon, Julian A. McPhee College Union Chumash Auditorium. David A. Risling, Jr., coordinator of Native American Studies at University of California at Davis will discuss the American Indian movement; sponsored by the Cal Poly Alumni Association. Public invited.

Cal Poly Women's Club Potpourri Section Meeting -- Wednesday, Jan. 19, 12:30 p.m. 2033 Skylark Lane, San Luis Obispo. Members will meet at the home of Mrs. Marjorie Johnson, with program on handwriting analysis by Florence Dietrich. Members invited.

Cal Poly Staff Club Luncheon Meeting -- Thursday, Jan. 20, 12 noon, Staff Dining Room. Discussion of Toastmaster's Club programs by Ian Begg. Faculty and staff invited.

Varsity Basketball -- Thursday, Jan. 20, 8 p.m., Men's Gymnasium. Cal Poly vs. Fresno State College. General admission tickets - students, 50 cents; all others, $1.50.

Arts and Humanities Program -- Thursday, Jan. 20, 11 a.m. Julian A. McPhee College Union Council Chambers. Panel discussion on "The World We Have Lost"; sponsored by Cal Poly's School of Communicative Arts and Humanities. Public invited.

Varsity Wrestling -- Friday, Jan. 21, 7:30 p.m., Men's Gymnasium. Cal Poly vs. Stanford University. General admission tickets - students, 50 cents; all others, $1.50.

Dental Society Meeting -- Saturday, Jan. 22, all day, Science Building. Professional education meeting of the Central Coast Dental Society. By reservation in advance.

Cal Poly Women's Club Walking Section Meeting -- Tuesday, Jan. 25, 9 a.m. Giant Food Market parking lot, Edna Road, San Luis Obispo. Meeting for a visit of the Greengate Horse Farm.

Varsity Wrestling -- Tuesday, Jan. 25, 7:30 p.m., Men's Gymnasium. Cal Poly vs. San Francisco State College. General admission tickets - students, 50 cents; all others, $1.50.

Cal Poly Women's Club Choral Section Meeting -- Tuesday, Jan. 25, 8 p.m., 144 Henderson Ave., San Luis Obispo. Meeting in the home of Esther Steuck. Members invited.

(Continued on Page )
COMING EVENTS . . . (Continued from Page 5)

Vertebrates of California Workshop -- Tuesday through Thursday, Jan. 25-27, Science Building Room C-20. Workshop and refresher course on the common vertebrates of California; sponsored by the California Department of Agriculture. By reservation in advance.

Foreign Relations Discussion -- Tuesday, Jan. 25, 11 a.m., Cal Poly Theater. Dr. P. Edward Haley of Claremont Men's College will discuss the United States response to foreign revolutions; sponsored by the Cal Poly Military Science Department. Public invited.

Sights and Sounds of Florence -- Thursday, Jan. 27, 11 a.m., Cal Poly Theater. Slide presentation staged and produced by the alumni of the International Programs in Florence, Italy; sponsored by Cal Poly's School of Architecture and Environmental Design. Public invited.

Cal Poly Staff Club Luncheon Meeting -- Thursday, Jan. 27, 12 noon, Staff Dining Room. Elliott Curry, staff member of the Telegram Tribune, will discuss the San Luis Obispo Bicentennial. Faculty and staff invited.

Fisheries and Wildlife Conference -- Friday and Saturday, Jan. 28-29, all day, Music, Speech and Drama Building. Joint conference of the American Fisheries Society and the American Wildlife Society; hosted by Cal Poly's Natural Resources Management Department and Biological Sciences Department. Registration fee - $4.

Varsity Basketball -- Saturday, Jan. 29, 8 p.m., Men's Gymnasium. Cal Poly vs. University of California at Riverside. General admission tickets - students, 50 cents; all others, $1.50.

POWER COMPANY EXECUTIVE WILL BE C S E A SPEAKER

A. C. Smith, an executive representative for the Pacific Gas and Electric Company, will be the speaker for the luncheon meeting of Cal Poly Chapter 97 of the California State Employees Association to be held starting at 12 noon tomorrow (Wednesday, Jan. 19) in the Staff Dining Room. A graduate of University of Michigan, Smith is expected to show recent colored slides of PG&E's Diablo Canyon Nuclear Power Plant development and discuss the economic impact of the plant of the San Luis Obispo area. All members of CSEA are invited to attend the luncheon and hear his remarks.

ALIEN ADDRESS REPORTS DUE JAN. 31

Every person who is not a citizen of the United States is required to report his or her address to the federal government each January. Copies of Form I-53, Alien Address Report Card, which should be used to file such a report, are available at Post Offices and U.S. Immigration Service Offices during the month of January. They must be filled out and taken (not mailed) to any Post Office before Jan. 31.
FACULTY, STAFF NOW COVERED BY UNEMPLOYMENT INSURANCE

Beginning Jan. 1, 1972, state college faculty and staff became covered under provisions of the State Unemployment Insurance Act, according to the Personnel Office. Cal Poly Foundation employees, who have been covered by unemployment insurance for several years, will not be affected by the new legislation.

The Unemployment Insurance Program is supported and maintained by the employer without employee contributions under the State Department of Human Resources Development. Although claims may be filed after Jan. 1, 1972, eligible claimants under Cal Poly employment may not be eligible for benefit payments until August, 1972.

In general, those qualifying for benefits must have earned a minimum of $750 within the yearly base period. Payment of benefits for those qualifying is based on that employment period immediately preceding five calendar months. Weekly benefit payments may range from $25 through $75 and are normally limited to a 26-week period.

Although eligibility for participation has been generally determined and includes coverage for most faculty and staff personnel, there are limited instances where eligibility determination must be made by the Department of Human Resources Development. Principally, exclusions would include student assistants, work-study participants, graduate assistants, consultants, and summer youth aid.

The administration of the college program is under Milton Piuma, (Staff Personnel Officer), who is serving as unemployment insurance coordinator. Mrs. Mary Smith (Personnel Assistant) is assisting with the new project. Inquiries regarding this matter should be directed to 546-2236. Additional information relative to the college's participation in the Unemployment Insurance Program will be made available to the faculty and staff by the Personnel Office, Adm-110.

CAMPUS STORE INTRODUCES NEW MILK CONTAINER

Effective Thursday (Jan. 21), homogenized milk will be available at the Campus Store in half-gallon, single-service containers as well as in the glass bottles. The new carton will be the familiar plastic-coated paper carton (pure-pak style) found in most supermarkets and other dairy product outlets, and will carry the Cal Poly Dairy's own design.

The addition of the new carton will offer greater convenience and choice to Campus Store customers. For the ecology-minded or other customers who prefer the glass bottle, milk will still be available as previously in this type of container. However, for the customer who finds the weight of glass bottles, or the inconvenience of having to return them, undesirable, the new carton will be a welcome addition.

RETURN OF UNUSED INTER-CAMPUS MAIL ENVELOPES ASKED BY GENERAL OFFICE

The return of unused supplies of inter-campus mail envelopes is being requested, according to Mrs. Lucy Schmidt (Supervisor of the General Office). Offices and departments that have quantities of the envelopes in excess of their needs are asked to return them to the Duplication Center, Adm-129.
WHO • • • WHAT • • • WHEN • • • WHERE ?? ?

Jon M. Ericson (Dean of the School of Communicative Arts and Humanities); Robert Emmel (Head of the Speech Department); and Robert L. Andreini, Robert L. Cleath, James R. Conway, Keith E. Nielsen, and Robin Lake (all Speech Department) all attended the 57th annual convention of the Speech Communication Association of America in San Francisco on Dec. 27-30. They were involved in sessions dealing with public address forensics, mass communication, interpersonal and small groups, speech science, instructional development, interpretation, and theater.

David H. Chipping (Physics Department) has been notified that his article titled "Early Tertiary Paleogeography of Central California" will appear in the March issue of the Bulletin of the Association of Petroleum Geologists. Dr. Chipping's article reconstructs the geography of Central California as it was 50-60 million years ago. It introduces evidence that proves this portion of California once lay to the west of the San Bernardino Mountains and was displaced from its original position by motion on the San Andreas Fault.

"The Space Shuttle and Its Propellants by the Electrolysis of Water" will be the title of the talk to be given by Frank J. Hendel (Aeronautical Engineering Department) before a meeting of the local chapters of the California Society of Professional Engineers and the Society of American Military Engineers on Thursday (Jan. 20) starting at 7 p.m. at Merrell's Steak House in Santa Maria. Reservations for the dinner meeting can be made by contacting Charles R. Russell (Associate Dean of Engineering and Technology) before 5 p.m. tomorrow (Wednesday, Jan. 19).

J. Mac McRobbie (Head of the Industrial Technology Department) has been appointed 1972 regional director for the National Association of Industrial Technology's 13 Western and Pacific States for 1972. The association is the recognized professional organization for industrial technology faculty in higher education. It was founded five years ago and has representatives of more than 100 colleges and universities in its membership.

Luther B. Hughes, Jr., and Royce L. Lambert (both Soil Science Department) attended the first annual meeting of the California Chapter of the American Society of Agronomy in Sacramento on Jan. 11-13. About 20 papers dealing with agriculture and its relationship to environmental quality were presented during the gathering.

Malcolm J. Carr (Social Sciences Department) has completed the "Concluding Report of the Samoa Research Program on Technical and Non-Technical Dimensions of Work Requirements." The study was the sixth and last of a series of reports for the U.S. Navy's chief of Naval Personnel. Completed at the Naval Personnel and Training Research Laboratory, it deals with the feasibility of including non-technical factors in the Navy's enlisted occupational structure.

David H. Fretwell (Industrial Technology Department) is serving as a special consultant in manpower and curriculum analysis with the State of Oregon Department of Education while completing work on his doctoral dissertation at University of Oregon. The research assignment includes developing background data for the establishment of high school and community college curricula for mechanical and electronic cluster-courses. Other aspects of the study include analysis of available manpower and employment data, plus development of a model for analyzing desired worker competencies in these fields.
FACULTY, STAFF ARTISTS FEATURED AT SAN LUIS OBISPO GALLERY

The work of 18 members of the Cal Poly faculty and staff is featured in an exhibit presently being displayed at the gallery of the San Luis Obispo Art Association, 1011 Broad St., San Luis Obispo. The show, which also features the work of members of the Cuesta College faculty, will continue through Jan. 29. Open hours for the gallery are 12 to 3:30 p.m. daily, except Mondays. Art forms in the show range from painting, sculpture, and jewelry to furniture, pottery, photograph, and drawing.

Cal Poly faculty and staff members who have worked in the exhibit include David Bodlak, Pat Cairns, Hart Goodman, Charles Jennings, Erna Knapp, Bernice Loughran, John B. Rea, and Henry Wessels (all Art Department); Robert Asbury, Richard Harrison, Thomas Johnston, Ron Morgan, Robert Reynolds, Vern Swanson, and Carleton Winslow, Jr. (all School of Architecture and Environmental Design); Marguerite Costigan, James Crissey, and Boyd Wettlauffer (all Audio Visual Productions); and Peter K. Phillips (Facilities Planner, Executive Dean's Office).

INDIAN LEADER WILL ADDRESS CAMPUS AUDIENCE TOMORROW

David A. Risling, Jr., who is coordinator of Native American Studies at University of California at Davis and a product of an Indian reservation, will describe the Indian movement during a talk at Cal Poly tomorrow (Wednesday, Jan. 19). His speech will be given in Chumash Auditorium of the Julian A. McPhee College Union starting at 12 noon. Admission will be free and the public is invited to attend.

A 1947 graduate of Cal Poly who majored in crop science, Risling was raised on the Hoopa Indian Reservation in Humboldt County. He spent 21 years in agricultural education prior to accepting his present post at UC Davis in 1968. Beside having spent the past 14 years as a consultant on Indian Affairs, he headed a statewide committee of Indians who developed a master plan for Indian education in 1967.

The Indian leader's appearance on campus is being sponsored by the Cal Poly Alumni Association.

WRESTLING, BASKETBALL EVENTS TOP CAMPUS SPORTS OFFERINGS

Dual wrestling matches against California State College at Fullerton and Stanford University and a basketball game against cross-state rival Fresno State College are at the top of the list of home events that will involve Cal Poly winter sports teams during the remainder of this week. The varsity basketball team opened what was billed as a "full" week of athletic activity when it hosted the nationally-ranked Louisiana State University at New Orleans team in Men's Gymnasium last (Monday, Jan. 17) night.

Next to see action will be Coach Vaughan Hitchcock's battered but unbowed wrestlers, who are scheduled to meet Cal State Fullerton matmen this (Tuesday, Jan. 18) evening and the Stanford team on Friday (Jan. 21) evening, both starting at 7:30 p.m. in Men's Gymnasium. The Mustang's dual match record for 1971-72 dropped to 2 wins and 2 losses when they lost a pair of hard-fought decisions to University of Oklahoma and Oklahoma State University last week in the Sooner State.

(Continued on Page 10)
DISTRIBUTION OF W-2 FORMS SCHEDULED

Statements of Earnings (Form W-2) for state faculty and staff employees are being processed and will be mailed to the various departments of the college within the next few days, according to the Payroll Services Office. Statements for regular employees of the Cal Poly Foundation were distributed yesterday (Monday, Jan. 17) with their payroll checks.

Student employees on the state payroll will be able to pick up their W-2's in the Payroll Services Office, Adm-109, beginning Monday (Jan. 24) and continuing through Jan. 31. Students on the Cal Poly Foundation payroll may pick up their W-2's in CU-212 from now through Jan. 27.

Statements which have not been picked up by 12 noon on Jan. 31, will be mailed.

EDUCATION CENTER WILL BE SITE FOR STAFF CLUB PARTY

The Cal Poly Staff Club's "Gardena Night" Party will be held at the County Schools Education Center located on Highway 1 some 6 miles north of Cal Poly beginning at 7:30 P.M. on Saturday, Jan. 29, according to Howard Brown (Head of the Ornamental Horticulture Department), who is chairman of the event. He urged members of the college staff and faculty, whether a member of the Staff Club or not, to attend and enjoy.

Dr. Brown says tickets for the party must be obtained by Jan. 27. Priced at $1.50 each, they may be purchased from Robert Adams (Chief of Plant Operations), Fuad Telllew (Head of the Economics Department), Brown, Donald Morgan (Head of the Industrial Engineering Department), Robert Mott (Head of the Men's Physical Education Department), Robert Bostrom (Director of Housing), and Frank Blake (Cal Poly Foundation Accounting Officer).

FOOD CONSULTANT WILL BE CAMPUS SPEAKER

Corris Guy, an independent food consultant, will be the guest speaker for a program to be held at 11 a.m. on Jan. 27, in Chumash Auditorium of the Julian A. McPhee College Union under sponsorship of the Student Advisory Board of the Home Economics Department. Members of the student body, faculty, and staff are invited to attend the Jan. 27 program.

WRESTLING, BASKETBALL EVENTS . . . (Continued from Page 9)

Head Coach Neale Stoner's varsity basketball team will take a respite from the hotly-contested California Collegiate Athletic Association race to host Fresno State on Thursday (Jan. 20) evening. Gametime will be 8 P.M. in Men's Gymnasium. The Mustang cagers scored an impressive 83-69 victory over Cal Poly, Kellogg-Voorhis, Pomona, last week to propel themselves to the top in the CCAA championship chase. They now own a 2-1 won-lost record in conference play and a 7-6 mark overall.

Other sports action on tap this week will find Head Coach Dick Anderson's varsity swimmers hosting University of California at Santa Barbara's mermen in a dual meet scheduled to start at 11 a.m. on Saturday (Jan. 22) in the pool adjacent to Men's Gymnasium.
MADONNA WILL BE CHAIRMAN OF CONFERENCE OF BUSINESSMEN

Alex Madonna of San Luis Obispo has been named chairman of a conference of businessmen to be held on the evenings of Feb. 7, 8, and 9 at Cal Poly, according to E. H. Barker (Dean of the School of Business and Social Sciences).

"Keeping Independent Business Independent and Profitable" will be the theme for the event, which is being sponsored by the School of Business and Social Sciences, the Society of California Accountants, and the San Luis Obispo Telegram Tribune.

Dr. Barker said that the conference sessions will take place from 7 to 10 o'clock each evening in the Julian A. McPhee College Union on campus. Members of the Cal Poly faculty and business analysts from throughout the state are expected to discuss such topics as financial management, how to keep ahead of the competition, and wage and price controls during the evening sessions.

Madonna, who has been a leader in the San Luis Obispo business community for many years and is president of the Madonna Construction Company, said that business, agri-business, and financial leaders from throughout Central California are being invited to participate in the conference.

A free folder and other information about the event may be obtained by contacting Dr. Barker's office, BAE-127, 546-2704.

HOLSTEIN BREEDERS ELECT HARMON TOONE

Tom Sawyer of the Diamond S Ranch at Waterford took over the helm as president of the California Holstein-Friesian Association during its annual convention in San Luis Obispo last Friday and Saturday (Jan. 14-15). Business sessions of the convention were held at the Madonna Inn and a sale and junior activities at Cal Poly.

Elected to serve with Sawyer are Bernard Souza, Jr., of Turlock, vice-president, and Harmon Toone (Head of the Dairy and Poultry Science Department), secretary-treasurer.

During Friday night's award banquet, Dr. Harold Schmidt of Hughson was named the outstanding senior breeder, and George Nunes of Merced, a former Cal Poly student, was named the outstanding junior breeder.

In the sale held in conjunction with the convention, 37 registered Holstein females sold for an average price of $1,661 -- the highest average price ever paid at a state convention sale. Carol Morasci of Modesto paid $3,500 for Poly Bart Ronar, a 17-month old heifer consigned by Cal Poly, to top the sale.

EXTENSION COURSE REGISTRATIONS STILL BEING RECEIVED

Most of the Winter Quarter extension courses being offered by Cal Poly are still open to late registrations, according to Don M. Morris (Associate Dean, Continuing Education). Those wishing to register for the courses, which began Jan. 10 and will continue through mid-March, must do so by the second class meeting of the respective courses this week. Additional information about the extension program, including a full list of the courses being offered this quarter, may be obtained by contacting the Continuing Education Office, Adm-311, 546-2053.
SIMULATION FOR DECISION MAKING IN CONE BOOK

Paul R. Cone (Business Administration Department) is the lead author of Executive Decision Making Through Simulation, a textbook recently issued in a second edition by Charles E. Merrill Publishing Company, a Bell and Howell Company. The book is subtitled "Case Studies and Simulation in Management Strategy Design and Implementation."

Co-authors are Douglas C. Basil, University of Southern California and Marshall J. Burak and John E. Megley, III, both of Southern Illinois University, Edwardsville. Also credited on the title page are John E. Fleming of USC, and Hans H. Steffen of SIU.

Dr. Cone, a management consultant and CPA, joined the Cal Poly faculty last year. His previous academic experience includes instructional and administrative duties with Andrews University, Otterbein College, Haile Sellassi I University, University of Southern California, and Southern Illinois University. At the latter, he served as director of graduate business studies and chairman of the business administration faculty.

Dr. Cone holds the BA degree from Otterbein College, BS and MS degrees from Bryant College, and MBA from Ohio State University. He received the PhD from the University of California at Los Angeles and pursued additional graduate study at Washington and Lee University and Claremont Graduate School.

As an executive of a variety of businesses and institutions, Dr. Cone has also traveled extensively in the U.S. and abroad. He is a member of the Academy of Management, American Management Association, and the Financial Executives Institute.

A portion of the new book, in addition to discussion of elements of strategy and use of simulation teams, describes industry structure and performance and environmental information.

COLLEGE AND UNIVERSITY ADMINISTRATIVE VACANCIES LISTED

Information on administrative positions at other colleges, for which applicants are presently being sought, is available in the college Placement and Financial Aid Office, Adm-213, 546-2501. Positions presently listed include:

Sonoma State College -- Dean of Students, salary range $20,888 to $24,792 annually, doctor's degree and teaching experience desirable, knowledge of state college application deadline is April 1, 1972.

Los Angeles Harbor College -- President, salary range $1,911 to $2,384 per four-week pay period, doctor's degree desirable, teaching and administrative experience, as well as possession or eligibility for one of five listed California credentials, are required, application deadline is March 1, 1972.

Typewritten copy intended for the next issue of Cal Poly Report must be received prior to 12 noon Friday, Jan. 21, in the Office of Information Services, Administration-210.
This office has a detailed brochure from the Air Force Office of Scientific Research. In addition to describing what a proposal should contain, the current list of interests are:

**Physics**
- Atomic and molecular physics
- Optical physics
- Plasma physics
- Theories, Models, and Formalisms
- Atmospheric Physics

**Chemistry**
- Electrochemistry
- Detection (environmental sensing)
- Surfaces
- Polymeric structures, glasses, and liquids
- Photochemistry
- Novel Synthesis of Materials
- Reactive Intermediates and Reaction Mechanisms

**Mathematics and Information Sciences**
- Control theory
- Information sciences
- Numerical analysis
- Physical mathematics
- Probability and statistics
- Mathematical aspects of system science

**Electronics**
- Basic Electronics
- Mechanical & Thermal Phenomena in Solids
- Surface & Interface Phenomena in Solids
- Electronic Properties of Solids
- Optical Properties of Solids
- Magnetic Phenomena in Solids
- Superconducting Phenomena in Solids
Mechanics
Continuum Fluid Mechanics
Boundary Layer Studies
Aerophysics
Structural Mechanics
Structural Materials Mechanics
Non-continuum Flows
Special Fluid Effects

Energetics
Ignition, combustion, and detonation
(Gaseous and air-breathing systems, also rockets)
Kinetics of Energetic Species
Thermophysical Properties
Low Temperature Plasma Energetics
High Temperature Plasma Energetics and plasma diagnostics

Geophysics
Seismology
Acoustics
Instrumentation

Biological and Medical Sciences
Aerospace medical problems
Atmospheric and Thermal problems
Problems caused by mechanical forces in flight
Systems and operational problems requiring biological research

Human Resources
Flying training
Technical training
Manpower utilization and management
Human engineering
Occupational and environmental stress
Personnel systems technology

Informal proposals are encouraged. Cost sharing is mandatory. You are welcome to read further details in this office.
