SEPARATE DEPARTMENTS OF ART, PSYCHOLOGY TO BEGIN OPERATION IN SEPTEMBER

Establishment of two new departments in the School of Applied Arts, to be effective with start of the Fall Quarter in September, has been announced by President Robert E. Kennedy. The new Departments of Art and Psychology, will be formed through separation of their courses and faculty from the present Education Department. Also announced by Dr. Kennedy was appointment of administrators to head the new instructional units.

Roger W. Wilcox, who will join the Cal Poly faculty Sept. 15, will become head of the Psychology Department. Bernice Loughran, a member of the college teaching staff since 1958, will be acting head of the Art Department while recommendations for appointment of a regular department head are being received from tenured members of its faculty.

Dr. Wilcox, who has been chairman of the Department of Psychology and director of the Educational Resources Center at Wilberforce University in Ohio for the past two years, is the author of a number of widely published articles and works in the area of psychology. A graduate of both Ohio State University and University of Tennessee, from which he received his doctor's degree in experimental psychology, the new department head formerly served on the faculties of Miami University of Ohio, Tennessee, and Muskingum College, also in Ohio.

Dr. Wilcox will head a faculty that now includes William Curtis, M. Dale Federer, Mrs. Ola K. Johnson, Peter Rabe, and L. Robert Sorensen. Two men new to the Cal Poly faculty will begin their teaching duties with the Psychology Department with start of the Fall Quarter.

Under the new arrangement, the Psychology Department will offer and administer all courses listed with "Psy" prefixes in the Catalog of Courses. Courses on the subject of counseling and guidance which have "Ed" prefixes in the catalog will continue to be offered by the Education Department. Faculty members who have been teaching courses in both areas will continue to do so until teaching loads and assignments are such that they can be assigned to one department or the other. Establishment of the Psychology Department at this time will not otherwise alter course offerings in the area of psychology, counseling and guidance, or behavioral science.

Dr. Loughran, who has been a member of the art faculty of the Education Department since 1958, is a graduate of both Ohio State University and Stanford University, from which she received her doctor's degree. Prior to that time she taught in public schools in Connecticut, California, and New Jersey and was a member of the faculties of Johnson Teacher's College in Vermont, University of Connecticut, and Danbury Teachers College, also in Connecticut. Other members of the new Art Department's teaching staff now include Roger S. Bailey, Bernard Dusek, Charles W. Jennings, and Mrs. Erna Knapp. Two additional faculty members will be added to the Art Department faculty in September.

Courses listed in the college catalog with an "Art" prefix will be placed under administration of the Art Department. Like the Psychology department, separation of

(Continued on Page 2)
the Art Department from the Education Department at this time will not otherwise alter the art curriculum.

The Education Department will continue to function under the leadership of Walter P. Schroeder. It will administer and offer "Ed" prefixed courses, its various credential programs, and the Master of Arts in Education Degree curriculum with concentrations in agriculture, education, physical sciences, and social sciences. In addition to Dr. Schroeder, continuing members of the Education Department faculty will include William W. Armentrout, Carl Burk, Arthur G. Butzbach, Donovan F. Cartwright, Marjorie Cass, Ralph C. Collins, Erland G. Dettloff, Edward J. Ernatt, James A. Langford, Alice E. Roberts, Harry H. Scales, J. Barron Wiley, Irwin A. Willson, and Malcolm W. Wilson.

MUSTANG BOOSTERS MEMBERSHIP APPLICATIONS FOR 1969-70 MAILED

Membership applications in the Mustang Boosters have been mailed to some 1,000 San Luis Obispo area residents with particular emphasis placed on the business community. The organization provides grants-in-aid to Cal Poly athletes through its membership fees and through funds raised by a series of barbecues scheduled throughout the year.

Applications that have been mailed were sent to past members and prospective members in the business community, according to Ken Rodman, membership chairman. Gary Holt is co-chairman of this committee. There are four types of memberships -- associate, regular, golden and grants -- available according to Rodman and Holt.

-- Associate memberships cost $15 and entitle the individual to a car decal which will afford special parking privileges close to the stadium for football and admit the member to all sporting events except football, special events and tournaments.

-- Regular memberships are $35 and include two tickets to the annual fall barbecue. Parking privileges for football and admission to all other sports except football and special events are additional benefits.

-- Golden Mustang memberships are $100 or more. These people are presented a handsome wall plaque, family tickets for the fall barbecue, preferred parking and admission to all but the excepted sporting events.

-- Grants are priced at $300 and $500. These memberships provide a complete grant-in-aid for one athlete. All the privileges of the other types of memberships go with this one, too.

The membership co-chairman pointed out that all Mustang Boosters Club memberships are tax deductible. They said the date of the annual fall barbecue has not been set as yet.

CURTAIN TIME FOR CONCERT CORRECTED

Starting time for the concert of the Cal Poly Chamber Players, planned for Friday (July 25) evening in the Cal Poly Theater, is 8 p.m., rather than 8:30 as indicated in the "Coming Events" section of this issue of Cal Poly Report.
TOM KLINE WINS $1,000 NCAA POSTGRADUATE SCHOLARSHIP

A Cal Poly English major who placed in national wrestling tournaments in 5 of 6 tries has been selected as 1 of 32 athletes in the nation to receive $1,000 postgraduate scholarships from the National Collegiate Athletic Association. Tom Kline, a standout 191-pound wrestler from Walnut Creek, is one of 32 athletes in the nation to receive awards, according to John R. Jones (Business Administration Department), who announced the scholarship.

Kline is the second Cal Poly athlete this year to receive a NCAA postgraduate scholarship. Dale Creighton, the All-California Collegiate Athletic Association middle guard for the 1968 Mustang football varsity, received a similar award last December.

Kline, who will complete his undergraduate study during the Fall Quarter, owns a cumulative grade point average of 3.77. Upon completion of his bachelor's degree studies, he plans to utilize the scholarship to study for his master's degree in English at Cal Poly.

The four-year wrestling letterman compiled a sensational career record, winning 75 matches, losing only 6 and tying 1, for a .921 percentage. Last season was Kline's finest. He posted an overall mark of 25-0-1 and captured his fourth consecutive CCAA crown. Kline won his second NCAA College Division championship in succession and capped his career in late March when he capped the NCAA University Division title.

A three-time all-American and co-captain of Cal Poly's 1969 NCAA College Division champion Mustang wrestling team, the articulate Kline expects to assist Vaughan Hitchcock (Physical Education Department), Cal Poly's highly successful wrestling coach, during the 1969-70 season.

TERMINATING FACULTY INELIGIBLE FOR SALARY INCREASES

Recent changes in the California Administrative Code, Title 5, provide that salary increases shall be withheld from the July and August checks of academic year and 10-month academic employees who are not being reappointed in the subsequent college year. Exceptions to this policy will be made in the case of academic employees who are retiring or who are in a leave without pay status. Faculty eligible to receive any salary increases are those whose appointments will continue in the next college year, regardless of time base or change in time base.

SALE OF GRID SEASON TICKETS WILL BEGIN MONDAY

Season tickets for seats located in Section "J" of Mustang Stadium for all seven 1969 Cal Poly home football games will be available starting Monday (July 28) at the Associated Students, Inc. Office located in the Temporary College Union Building. They may be purchased at substantially reduced rates by persons holding associate memberships in ASI. A map of Section "J" may be seen at the ASI Office. Roy Gersten (ASI Business Manager) recommends that those wishing to assure themselves of good seats for the Mustangs' home contests this fall contact the ASI Office as soon as sales begin.
PRELIMINARY PLANNING FOR NEW DINING UNIT RECEIVES APPROVAL

Plans for a new dining facility proposed for construction on the site of the relocated Ornamental Horticulture Unit at Cal Poly have been approved by the Trustees of the California State Colleges. Project architects Fred Keeble and George Rhoda have been authorized to prepare preliminary drawings as the first stage in completion of working drawings for the Cal Poly facility. Construction is anticipated to begin about April or May, 1970.

The project will consist of a one-story frame building of approximately 19,000 square feet containing a 200-seat free choice cafeteria, a 130-seat table service restaurant, and a 20-seat counter area. In addition, necessary support functions of kitchen, dishroom, storage, and service areas are included. Design of the building is being handled so that as the demand increases, an additional 200-seat free choice cafeteria seating area can be added.

The new Cal Poly project is estimated to cost $790,000 at contract level, but will have a total cost of slightly in excess of $1 million including movable equipment. It is being planned to integrate with the change in campus dining regulations, to be effective with start of the Fall Quarter in September, whereby resident students will no longer be required to buy a room and board package.

Completion of the new facility will allow the campus resident community five choices of meal service: one, a snack bar/vending machine complex; two, a free choice cafeteria; three, optional contract meals tickets; four, table service coffee shop/restaurant; and five, commercial eating establishments off campus.

The new dining unit will join the existing College Dining Hall in serving the needs of a student body expected to top 10,000 this fall. Already slated for expansion under a contract expected to begin early next year, that building includes a 600-seat student cafeteria, a 400-seat snack bar area, and a 228-seat cafeteria for faculty and staff. Scheduled to cost nearly $100,000, the expansion project will see another 300 seats added to the student cafeteria area.

PLACEMENT OFFERS FOR COLLEGE GRADS UP 11 PERCENT NATIONWIDE

Campus disorders failed to diminish college recruiting in 1968-69 -- at least at the bachelor's degree level. Instead, the volume of activity rose to an all-time high, according to Eugene A. Rittenhouse (Placement Officer). The total number of bachelor's offers reported this year in a nationwide survey conducted by the College Placement Council went up 11 percent over last year and 9 percent over 1966-67, the former peak year.

In sharp contrast, volume at the master's and doctor's degree levels continued to decline. The number of master's offers was 35 percent below last year and 41 percent under two years ago, while the doctoral volume dropped 31 percent from last season and 43 percent from 1966-67.

The placement council's data are based on actual offers being made to male students at the three degree levels at representative institutions from coast to coast, Rittenhouse said. Cal Poly is one of 135 colleges and universities participating in the study.
COMING EVENTS

Floral Design Symposium -- Continuing through Tuesday, July 22, all day, Music, Speech, and Drama Building Room 218. Workshop on design with flowers for an expected 125 floral designers; co-sponsored by Ornamental Horticulture Department and the American Institute of Floral Designers. By registration.

Second Summer Session Classes Begin -- Tuesday, July 22, Campus. Second Summer Session classes begin for Cal Poly students.

Noon Speakers Series -- Tuesday, July 22, 12 noon, Engineering West Building Patio. Talk on "Education and the Minority" by Mrs. Gloria Smith; sponsored by Summer Program Committee of Associated Students, Inc. Public invited.

Fashion and Flower Show -- Tuesday, July 22, 8:30 p.m., Cal Poly Theater. TIME IS CORRECTED FROM EARLIER ANNOUNCEMENT. Second annual "Flowers and Fashions Around the World" show; sponsored by Ornamental Horticulture Department, the American Institute of Floral Designers, and the San Luis Obispo Retail Merchants Fashion Guild. Tickets $2.50; by reservation.

Noon Speakers Series -- Wednesday, July 23, 12 noon, Engineering West Building Patio. Talk titled "Personality Problems and the College Student" by Dr. Margret O. Noszlopi sponsored by the Summer Program Committee of Associated Students, Inc. Public invited.

Final Second Summer Session Registration -- Thursday, July 24, Administration Building Room 219. Last day to register for second Summer Session classes.

Chamber Concert -- Friday, July 25, 8:30 p.m., Cal Poly Theater. Concert by Cal Poly Chamber Players with harpsichord soloist Ronald V. Ratcliffe and conductor Clifton E. Swanson; sponsored by Music Department. Public invited.

Noon Speakers Series -- Tuesday, July 29, 12 noon, Engineering West Building Patio. Talk titled "New Dimensions in Guidance" by Dr. Dudley Sykes of Sacramento City College; sponsored by Summer Program Committee. Public invited.

Noon Speakers Series -- Wednesday, July 30, 12 noon, Engineering West Building Patio. Talk titled "Sears 1898 - The Only Way to Go" by Loren Nicholson; sponsored by Summer Program Committee of Associated Students, Inc. Public invited.

Summer Drama -- Friday, Aug. 1, and Saturday, Aug. 2, 8:30 p.m., Cal Poly Theater. Ruth Gordon's dramatic autobiography Years Ago directed by J. Murray Smith; sponsored by the Speech Department. Tickets, $1.

Alumni Association Board Meeting -- Saturday, Aug. 2, 10 a.m. - 5 p.m., Staff Dining Room. Regular meeting of Board of Directors of Cal Poly Alumni Association. By invitation.

Men's Physical Education and Coaching Workshop -- Sunday, Aug. 3, through Aug. 15, all day, Campus. Twenty-second annual California Workshop for Physical Education and Athletic Coaching for teachers and coaches from throughout California; sponsored jointly by Cal Poly, the California Association for Health, Physical Education, and Recreation, and the California Department of Education. By advance registration.

(Continued on Page 6)
TOP COACHES SLATED FOR MEN'S P E WORKSHOP

An all-star lineup of instructors including Dee Andros on football, Tex Winter on basketball, Jack Kramer on tennis, Vaughan Hitchcock on wrestling, and Al Campanis on baseball will headline the 22nd annual California Workshop for Physical Education and Athletic Coaching, August 4-15, on campus.

The California Association for Health, Physical Education, and Recreation and California State Department of Education joins Cal Poly in sponsorship of the workshop which was begun in 1948 by the same three organizations. Success of the workshop through the years has stemmed from its emphasis on the physical education as well as coaching aspects. A recreation program has been set up for wives and children and now the workshop has become a family affair.

Dee Andros, head football coach at Oregon State University will lead the football coaching phase of the workshop. Tex Winter, head coach at University of Washington, will handle the basketball segment; Jack Kramer, an all-time great in tennis both as a player and coach, will head up the tennis instruction; and Al Campanis, general manager of the Los Angeles Dodgers, will do the baseball teaching. Cal Poly's own Vaughan Hitchcock, whose teams have won three National Collegiate Athletic Association College Division wrestling titles in the past four years, again will handle the wrestling phase of instruction.

Presence on campus of the Baltimore Colts of the National Football League is an added bonus for the anticipated 250 participants. Colt workouts on campus in preparation for several West Coast pre-season games will be open to the public.

COMING EVENTS (Continued from Page 5)

Women's Physical Education Workshop -- Sunday, Aug. 3, through Aug. 15, all day, Campus. Twentieth annual California Physical Education Workshop for Women in Secondary Education for teachers from throughout California; sponsored jointly by Cal Poly; the California Association for Health, Physical Education, and Recreation, and the California Department of Education. By advance registration.

Concert Under the Stars -- Sunday, Aug. 3, 6 p.m., Amphitheater. Outdoor concert by as yet un-named performing group; sponsored by Summer Program Committee of Associated Students, Inc. Public invited.

Baltimore Colts Football Training Camp -- Monday, Aug. 4, through Aug. 14, all day, Campus. Summer training activities for Baltimore Colts of the professional National Football League; hosted by Physical Education Department. Public invited to outdoor practice sessions.

Noon Speakers Series -- Tuesday, Aug. 5, 12 noon, Engineering West Building Patio. Talk titled "Action in the Inner City Schools" by Frank Robles of Los Angeles City School System; sponsored by Summer Program Committee of Associated Students, Inc. Public invited.

Noon Speakers Series -- Wednesday, Aug. 6, 12 noon, Engineering West Building Patio. Open discussion session on Vietnam with Dave Nesmith; sponsored by Summer Program Committee of Associated Students, Inc. Public invited.
SHUTDOWN OF STEAM SERVICE SLATED FOR EARLY SEPTEMBER

All steam service on campus will be shut off from Sept. 1 to Sept. 12 so that needed repairs to the boiler facility can be made, according to an announcement received this week from Robert Adams (Chief of Plant Operations). Adams, who said early announcement of the forthcoming shutdown was being made so that various campus offices and departments could plan their programs accordingly, said that heat in all main buildings on campus will be affected.

In addition, air conditioning service in the Administration Building, the new Computer Science Building, the Music, Speech, and Drama Building, and the South Mountain Residence Halls will be off and the main campus area will be without hot water service, Adams' announcement continued.

13 VACANCIES ON SUPPORT STAFF LISTED BY PERSONNEL OFFICER

Thirteen openings on the support staff of the college have been announced by Milton Piuma (Staff Personnel Officer). Descriptions of the newly announced positions are posted, along with information on other openings that have been announced recently, on the bulletin board located in the Personnel Office, Adm-111, 546-2236. The newly listed position vacancies are:

School of Applied Arts

Equipment Technician II ($710-$863). Printing Technology and Management Department.
Equipment Technician I ($322.00-$391.50) (Half-time). Audio Visual Department.
Clerical Assistant (Stenography) II Range B ($446-$543) (two positions).
English Department, Home Economics Department.

School of Applied Sciences

Clerical Assistant (Typing) II Range A ($415-$505). Library.
Clerical Assistant (Typing) III Range A ($492-$599). Library.

Business Affairs Division

Lead Groundsman ($530-$644). Grounds Department.
Groundsman ($505-$584). Grounds Department.
Clerical Assistant (Typing) II Range A ($415-$505). Property-Accounting Office.
Custodian ($435-$505). Custodial Department.

Student Affairs

Clerical Assistant (Typing) II Range B ($415-$505). (two positions).
Admissions Office (Evaluations), Records Office.
Clerical Assistant (Typing) II Range A ($207.50-$252.50) (half-time, floater position). Dean of Students Office.
Clerical Assistant (Stenography) II Range A ($446-$543). Student Activities Office.

Administration

Clerical Assistant (Stenography) II, Range B ($446-$543). Information Services Office.
George G. Clucas (Director, Research and Development) is the author of a new book on comparative city finance designed to provide cities with a basis for program analysis of their municipal practices. Titled The California Cities -- Comparative Revenues and Expenditures, 1966-67, the book is being published by Sage Publications, Inc., of Beverly Hills. Dr. Clucas is a former budget analyst for the Office of the Legislative Analyst, Sacramento, and more recently worked as a budget planning and finance specialist on the central staff of the California State Colleges.

Robert E. McCorkle (Agricultural Management Department) has returned from Zambia, where he was serving as chief of party for the Cal Poly/AID project in agricultural development, and has been appointed assistant to the director of international education for the summer months. While in Zambia, McCorkle served as chief farm management officer for that nation's Ministry of Agriculture with primary responsibility for development of a section staffed with competent agricultural economists.

Douglas D. Donaldson (Biological Sciences Department) and W. Boyd Judd (Mathematics Department) have been notified that all requirements for their doctoral degrees have been completed. Formal awarding of Judd's Doctorate of Education in Mathematics Degree is scheduled for early September at Pennsylvania State University. Donaldson will receive his Doctor of Philosophy Degree in zoology from Oklahoma State University Aug. 1.

Dennis W. Roberts, a 1969 June graduate of Cal Poly, is one of 67 journalism graduates from across the nation to be cited for outstanding achievement by Sigma Delta Chi, national professional journalistic society. During his career as a student at Cal Poly, Roberts served as advertising manager for Mustang Daily and was also active in closed circuit television news operations on campus and as president of the college chapter of SDX.

Richard L. Kissling and L. A. Whitaker (both Chemistry Department) are presently taking part in special summer programs of the National Science Foundation. Dr. Kissling is involved in a research participation project being conducted by the Department of Biochemistry and Biophysics at Oregon State University and Dr. Whitaker is participating in a Summer Institute at Philadelphia College of Pharmacy and Science.

Five students of the School of Architecture have been cited by the Downtown Association of San Luis Obispo for their participation in a recent survey of parking in the city's downtown area. Praised for their efforts in "helping to solve one of the most important community problems" of the city were Daryl Hawkins of Monterey, Tom Silvers of La Mesa; Ray E. Sharpe of Oceanside, and Phil Dalforno and Don Prior, both of San Luis Obispo.

Tran Thieu Chi of South Vietnam, a third-year chemistry student at Cal Poly, has been named winner of the Chemical Rubber Company's Science Achievement Award in chemistry for 1968-69. Presented each spring, the award goes to the Cal Poly student completing introductory courses in chemistry who has compiled the highest grades in those courses and has the highest overall grade average at the time of the award. Chi is studying at Cal Poly under a cooperative program of the Republic of Vietnam and the U.S. Department of State's Agency for International Development.

Ten engineering students at Cal Poly will be aided by $500 scholarships each during the 1969-70 college year. The scholarships are provided by a memorial fund honoring the late Walter T. Wells, Sr., a long-time friend of the college. Wells held many important educational positions for the State of California including service as Cal Poly representative on the State College Council.
