Talcoott speaks to SAC

The possibilities of a nuclear war between Russia and China was deemed minimal by Dr. Yuan-Li Wu in a talk on campus yesterday.

"There are possibilities of military trouble between the two powers involving nuclear weapons but the probability of such an occurrence is very small," Wu asserted.

Dr. Wu was a guest speaker sponsored by the Military Science department. He was born in China and educated at the London School of Economics and the University of Shanghai and the London School of Economics.

"There are differences in opinion between the U.S. and China, they are developing a nuclear deterrent. The Soviet Union has always had trouble with the Chinese," he said.

One of the reasons offered by the speaker for minimizing the possibility of a nuclear war between Russia and China was that the U.S.S.R. is a collective country, and it would be hard for such a country to wage a war against another country such as this. The United States' position in such an event would depend greatly upon the weapons used, etc."

The Soviets are afraid of the Chinese, and vice versa, according to the speaker. He said that China is very inferior to Russia in weapons.

"This is a temporary situation. Since September, 1960, the Chinese have accelerated their nuclear weapons program," Wu commented.

"In other words, the Chinese have adopted two methods of deterrent," Dr. Wu said. They are pursuing a course of political aid from the United States, and they are developing a nuclear deterrent.

"The Soviet Union has always had trouble with the Chinese," he said. "The Soviets have to wipe out Sino-Chinese capabilities or risk the threat of a strong China." This is one of the reasons that the Soviets are going to continue to develop their nuclear weapons.

According to Wu, the U.S. is also interested in China as a balancing power on the other side of Russia. One of the reasons for President Nixon's visit to Peking dealt not with the topics of discussion, but the discussion itself. Dr. Wu stated, "No matter what you discuss, the Russians will worry. That is the deterrent we want.

Though there are differences in opinion between the U.S. and China, they can be coped with. As a matter of fact, Dr. Wu stated that, "We are not withdrawing from Asia, we are simply preserving to another approach." The emphasis will be taken off the military, and placed on the political.

Chinese expert sees slim prospects of Soviet-Chinese nuclear conflict

The Department of Business Affairs has proposed an increase of $1,500 anually in parking fees for the coming year, permanent bleachers for Collet Arena.

A quarter billion dollars in revenue from parking fines will be distributed to the California State colleges and universities as a result of the passage of Senate Bill 141.

The bill stipulates that fifty percent of the fines collected from downtown areas via parking tickets go to the colleges system. All President Robin Baggett said that the student body presidents of the system had lobbied for the passage of the bill.

Baggett said the $0 fee students pay at this university does not come directly back here but a large portion of it is used to create better parking facilities for the urban colleges in the system such as L.A. State, San Jose State and Long Beach State.

Baggett said Cal Poly receives only a token amount of the money collected.

"I think that people feel as I do — it depresses me that the war has to be escalated," he said.

He said that after "some time" Nixon would be able to explain what he has been doing to the public, and that "they will realize the President is using the right rationale and making the right decision.

World-wide pilots rebel against hijacking havens

Montreal (UPI)—World airline pilots warned Wednesday that governments failed to take effective new anti-terror measures they would act in "collective self-defense" and strike indefinitely.

"The ball must stop here," Capt. Ola Forsberg of the International Federation, IFALPA, told a seminar of members of the International Civil Aviation Organization, ICAO.

The ICAO legal committee is trying to find ways of enforcing previous international agreements against air piracy and other violence disrupting civil aviation.

Forsberg warned that failure to act against countries sheltering hijackers electrocute aviation by ICAO standards against an indefinite boycott by IFALPA pilots or a more limited boycott action against countries sheltering hijackers.

"The ultimate responsibility with governments," Forsberg said, recalling that IFALPA pilots staged a one-day strike in June, 1974, over international ineflectually in coping with the problem.

"The states of the world must show that they are willing to close all hijacking havens to airpirate...they must act now against the cloud of violence that hovers over civil aviation."

Forsberg said, altered primarily may decide on both problems. The ICAO Legal Committee session, expected to last three weeks, has been proposed chiefly by the Canada and the United States. The two countries would impose sanctions including cut-off in air services against offending countries.

Once A Number
Always A Number

Do you think of yourself as an individual? Well you are basically correct—you are an individual Social Security number, a special Department of Motor Vehicle number, Draft card number, bank account number, gas credit card number or even a police file number.

This nation could not exist without her numbers.

Not to be left out, Cal Poly has its own versions of the number game. For example, every quarter the school offers its own specially modified version of ‘Registration’. On these two pages Carolyn Scott, an Architectural Engineering major, takes her place in line for the event.

The outcome was predictable—Carolyn ended up as another number on a piece of chewed up forest.

STUFFED: This automobile owner had other problems besides final examinations.

WHAT GOES UP—When Roger Ruden, aircraft carrier Kitty Hawk crewman, tried to ride his motorcycle up the ramp to the ship it stalled near the top and rolled back down. He was unhurt. The Kitty Hawk is in San Francisco for repairs and crewmen are allowed to take their vehicles aboard. (UPI photo)

ECOLOGY—Near Marco Island, Fla., about a dozen old automobile tires at a time are compacted and bundled by a special machine. Concrete is poured into the bottom of each bundle to anchor it to the smooth gulf bottom. As marine growth encrusts the tires, the tires become havens for game fish and, at the same time, help in the problem of disposing of worn out tires. Art Riel, an ocean biologist, assisted by Gail Shepherd, inspects one of the discarded tires. (UPI photos)
RAT tourney sign-ups

During the next few weeks the Recreation and Tournaments Committee (RAT) will be sponsoring qualifying finals for the Region 10 Association of College Unions-International (ACU-I) regional tournament scheduled Feb 16-18. The qualifying tournaments are open to all students, men and women, to represent Cal Poly in billiards, bowling, bridge, chess, table tennis, and foosball.

The ACU-I tournament this year will include representatives from about 30 colleges and universities in the West. This will be the first time the regional finals will be held at Cal Poly. The winners of the tournaments will go on to various parts of the U.S. to national tournaments.

The dates to qualify are:

Men's—Bowling Jan 12-19
Pocket Billiards Jan 12-19
3-Cushion Billiards Jan 12-19
Table Tennis (doubles and singles) Jan 22-26

Women's—Bowling Jan 12-19
Pocket Billiards Jan 12-19
Table Tennis (doubles and singles) Jan 22-26

Coeducational—Bridge Jan 15 & 22
Chess Jan 27 & 28
Foosball (doubles and singles) Jan 13

Entry fees: $1 for bridge, table tennis and pocket billiards. Other usage fees where applicable. Sign-ups are open until 6 p.m. Jan. 10. Sign-up sheets are in the CU Games Area.

Lt. Col. Herbert
to speak on unjust military justice

Lt. Col. Anthony B. Herbert, to be sponsored by Speaker's Forum, will speak here at 8 p.m. Monday, Jan. 15, in Chumash Auditorium.

He plans to speak on the subject of "Injustice in the Military Justice System." Admission is 75 cents for students and $1.50 for the general public.

After his charges of cover-up of war crimes in Vietnam against his superiors sparked a national controversy which made him decide to resign from the U.S. Army, Herbert returned to civilian life in March, 1972, after 28 years of duty in Korea and Vietnam.

Called the most decorated G.I. of the Korean war, Herbert is the winner of four Silver Stars and was named the brigade's most outstanding battalion commander.

His book "Soldier" is scheduled for publication later this month.

Usher in Gordon Lightfoot

Gordon Lightfoot, Canadian superstar, is scheduled to perform at 8 p.m. Saturday, Jan. 11, in the Men's Gym.

General admission tickets for Lightfoot's performance, sponsored by the Concert Committee, are on sale at the CU Information Desk while they last. Ticket prices are $3 for college students and $4 for the general public. The reserved seat section is sold out.

Bids for ushering (a minimum of 10 students required) will be accepted no later than 6 p.m. Friday. All campus-recognized organizations may submit sealed bids to the CU Activities Planning Center.

Gotta rabbit who sings?

Coffee House has something special this week. Along with two outstanding performers, Mike Edsall and Fred Strickland, we're going to make a surprise offer you just can't refuse. So make it a date, at 8 p.m. Sunday in CU 204.

Coffee House, Un-Concerts, and other unrelated activities are all sponsored by the Special Events Committee. Come to CU 218 at 7 p.m. Mondays. Coffee House auditions are held during our meetings. We are also looking for unusual acts, such as singing rabbits, revival groups, electric apple sauce music, etc. Please call Randy Donant at 546-2478.

ASU Films Presents

A David L. Wolper Production

Friday, Jan. 12
7 and 9:30 p.m.
Chumash Auditorium

This Academy Award winning film has become popular as a "science fiction" thriller, but the film is based entirely on scientific fact. THE HELSTROM CHRONICLE poses the question of who will ultimately inhabit the earth — human beings or a form of life that preceded them by centuries.

"Not since 2001 has a movie so cannily inverted common sense and altered audience perception as THE HELSTROM CHRONICLE."

Time Magazine
Oregon State is tough roadblock for matmen

by ROBIN BAGGETT

The Mustang matmen do battle between the unblemished national ranked Oregon State Beavers tonight in the Man's Gym at 7:30 to close out the big week of wrestling.

It will be the third time in four days that the Mustangs have faced the toughest competition available in the nation. Oregon State's Beavers have already defeated the Mustangs during the Arizona State Tournament in December, and should prove to offer coach Vaughan Hitchcock's squad its most difficult test to date.

For the past week the Mustangs have been practicing and battling with the formidable foes of "Injury and Illness." Six of the team's number one wrestlers have been out of the lineup due to injury or illness.

Top volleyball coach set for demonstrative clinic

Rudy Suwara, volleyball coach at UC Santa Barbara, will give a clinic on the sport next Tuesday in the Man's Gym at 8 p.m.

The meeting, sponsored by the intercollegiate volleyball team and the university's student chapter of California Association for Health, Physical Education, and Recreation (CAHPER), is open to all those who have even the slightest interest in volleyball, according to Mike Pirman, head of the university's volleyball squad.

Those who wish to attend are advised to wear tennis shoes and clothing suitable for participation in learning skills during the meeting. Cost is 50 cents.

Suwara has been a member of the Olympic volleyball teams in 1964 and 1968. In addition he was captain of the team that went to the Pan American Games in 1971. He is now recognized as one of the top players in the game in the United States today.

Suwara has indicated that he intends to bring films to help demonstrate skills on passing, setting, spiking and diving. Also there will be a film of an international or intercollegiate match. The audience will be allowed to participate and ask Suwara questions during the meeting.
