Day Care kids will register today, Tuesday

Registration for the Cal Poly Day Care Center will take place today, from 8 a.m. to noon and from 1 p.m. to 5 p.m. For those unable to register their preschool children at those times, an additional registration period will be held from 1 p.m. to 5 p.m. on Tuesday.

Registration will be held at Sierra Hall on campus and children will be accepted on a first come, first serve basis. The Center will open in Sierra Hall on Jan. 17 and will be operating from 8 a.m. to noon from Jan. 20 to 8 p.m. daily.

According to the Board of Directors of the Day Care Center, the Center will operate on a self-paying budget. This is caused by a hold in all state funds for Day Care Programs.

As of this time, there will be no more money spent on the Day Care Center. Faculty and staff who wish to use the Center must take out associate membership in the AEI.

Flu hits epidemic level

Atlanta (UPI) — The National Center for Disease Control (NCDC) said Friday deaths from influenza and pneumonia across the country have reached above the epidemic threshold for the first time this winter.

It is said 56 deaths from influenza and pneumonia were reported from 135 major cities last week, 64 more than the number normally expected for this time of year.

Outbreaks of influenza, mostly believed to be the London flu or related strains, were recorded in many of the nation's big cities, including New York, Boston, Chicago, Memphis, Baltimore, Washington, D.C., and the San Francisco Bay area.

In addition, cases of London flu have been reported by state health officials in Atlanta and Los Angeles and San Diego.

The health center recommends students and staff get plenty of rest and avoid stress in hopes of keeping resistance high and avoiding the English Flu epidemic.

"About 50 per cent of the staff is not with the flu and we are treating 80% to 90% of student patients a day along with 21 patients in the health center hospital," said Dr. Billy Mounts, health center director.

Dr. Mounts states that there is no cure or protection against getting the flu which hit here shortly after registration week.

"The best advice I can give students is to buy a health card because students without them are really being caught short," said Dr. Mounts.

What was described as a reunion of Vietnam buddhas by a friend ended with a destroyed Oeesena Skyhawk in a barley field shortly after a 1 a.m. takeoff from the fog-enclosed airport.

Victims of the crash were identified by the sheriff's office as student Joseph Freitas, B.S., of Walnut Grove; former student Brother Vernon Dalal, B.S., of India, and Ernie Bundy of Long Beach; and Patrick Thomas McGovern, B.S., of Burbank.

Larry Nichols of San Luis Obispo said he had joined the four for a night on the town and that they decided they wanted to see San Luis Obispo from the air.

The plane took off at 5:00 a.m. and about 10 seconds later Nichols heard a muffled sound. He joined sheriff's deputies in a search for the wreckage, but the plane was not found until approximately 8 a.m. Fog, limiting visibility to 50 feet, kept the search parties from covering fields.

An employee of Union Oil discovered the plane, owned by Manuel Avila of Edna Valley about two miles south of Highway 101 off Budley Road.

The crash of the plane has not been determined, according to County Airport Manager Walter Fell, but two federal investigators spent Friday afternoon examining the wreckage.

...students miss class for bug bout

The only students being admitted to the health center are those suffering from complications of the flu like pneumonia and ear infections.

Dr. Mounts states that there is no cure or protection against getting the flu which hit here shortly after registration week.

"The best advice I can give students is to buy a health card because students without them are really being caught short," said Dr. Mounts.

Crash takes lives of student, three others

A student from this campus and two former students were among four killed in an airplane crash near San Luis Obispo County Airport early Friday.

What was described as a reunion of Vietnam buddhas by a friend ended with a destroyed Oeesena Skyhawk in a barley field shortly after a 1 a.m. takeoff from the fog-enclosed airport.

Victims of the crash were identified by the sheriff's office as student Joseph Freitas, B.S., of Walnut Grove; former student Brother Vernon Dalal, B.S., of India, and Ernie Bundy of Long Beach; and Patrick Thomas McGovern, B.S., of Burbank.

Baggett is first student to earn commerce seat

A new link between the communities of San Luis Obispo and this campus has been established with the appointment of AEI Pres. Robin Baggett to the Chamber of Commerce board of directors.

Baggett is the first student in the history of the city to be appointed to the board.

According to the Board of Directors of the Day Care Center, the Center will operate on a self-paying budget. This is caused by a hold in all state funds for Day Care Programs.

As of this time, there will be no more money spent on the Day Care Center. Faculty and staff who wish to use the Center must take out associate membership in the AEI.

Co金山uses phones in youth air fare fight

by BRUCE ULLMAN

For the price of a long-distance telephone call to Houston, Tex., 13 through 21-year-olds can find out how they can work to save the youth air fare.

The Coalition to Retain Air Discount Fare (CRADF) is an ad hoc group which has established East and West Coast telephone hot lines, however, since CRADF is a non-profit organization, collect calls cannot be accepted. The Western Hot Line is (713) 934-0000 and the man in charge is Russell Lellman. The Hot Line is just part of the overall plan of CRADF. An open appeal is being mailed to college and university newspapers in the form of an ad which can be placed by the editor of the paper. The ad will carry a tear-out letter, to be signed by the reader, appealing to Congress to act on legislation to continue the youth air fare.

Beasley blasted again

Letters to the editor about the topic are welcome. Letters will be published as space permits.

SAL, with the familiar undertones that if we did not give the new group money we were racists as Hal Ily Club spokesman John Harry alluded to when he publicly addressed two female members of the SAC. This issue was very frustrating to me. Although I disagree with Denny Johnson's vote, I must also respect him for his hard work in trying to keep everyone at Poly happy. He has to be very strong inside to do what Denny did. I think the most frustrated of all was himself. The students who did not vote had nothin to lose, as far as I'm concerned, and Doctoral degrees joined the bio-science faculty in 1961.

Rodin, who left San Luis Obispo in mid-December, is financing his study of "The Ethnobotany of Ovamboland region of southwest Africa." During that journey, plants used in the magic of the people living in the Ovamboland were studied, but the major growing season was missed.

The botanist expects to continue this study and to complete an additional study of plants used in different aspects of Ovamboland culture, such as those used for sewing fibers, medicinal purposes, and foods.

Robert Radin, a professor of biological sciences here, who also taught at Forman Christian College in Pakistan, where he earned both his bachelor's and doctor's degrees joined the bio-science faculty in 1961.

Since that time, he has taught at Forman Christian College in Pakistan, while on leave from his studies here, and has been a visiting lecturer for UC Ex- tension and at the University of California at Berkeley. His interests and studies in Ovamboland will be the topic for a book and a possible special for the magazine, which he expects to write after his return from Africa.

Editorial policy

The quest for plants of the Ovamboland region of southwest Africa is the goal of a six-month long expedition by Dr. Robert J. Rodin, a graduate of University of California at Berkeley, where he earned both his bachelor's and doctor's degrees joined the bio-science faculty in 1961.

Since that time, he has taught at Forman Christian College in Pakistan, where he earned both his bachelor's and doctor's degrees joined the bio-science faculty in 1961.

Jesus freaks—noise but no action

Kevin O'Conner

To start things off with a bang, I'm going to tackle the group of perennial letter writers, the whisper it softly: Jesus Freaks. Along with the other groups that occupy the campus, they seem to think of themselves as the Lord's chosen for saving us from whatever it is that we need saving from. I'd like to let them know that I prefer to "turn or burn" as one of the Freaks so eloquently put it, without any help from you, thank you.

The parking fee fight goes to the big arena

An increase in parking fees is already opposed by state college presidents—expected to be one of the top issues when the legislature reconvenes in January 21st.

The Board is going to consider a parking fee increase for the State University and Colleges trustees meet in Los Angeles Tuesday morning.

Beavers topple matmen to claim wrestling win

by ROBIN BAGGOTT

"Almost, but not quite enough." An appropriate title for the wrestling matches which pitted the Mustangs against nationally ranked university division opponents last week, as was the case when the Mustang grapplers went down to defeat against Oregon State's Beavers, 31-15.

It was a "take'em up, take'em down," affair in the opening match before the home crowd of 8,000. National place winner Tom Phillips humiliated Mustang freshman Fred Lennix by winning a superior decision, 15-7.

Gary McBride, avenging his teammate's embarrassment, played with Beaverman Mike Jones by using the same humiliating tactics. Although McBride did not obtain the desired superior decision, he did win a decisive 8-2 victory.

Mike Wassum suffered defeat losing in the last minute to the Beavers' Joe Bold. Wassum had control the entire match until Bold recorded a take down to pull out a win. Retaining his unblemished record.

Larry Morgan tried to follow suit of McBride by an .14* 1 masssao. After many frustrating pin attempts, Anderson had to settle for just four team points Instead of the sought-after six.

Since 1960, Harper's Mustangs compiled an 8-1 regular season record, were ranked No. 8 in the nation in both the Associated Press and United Press International polls and earned a berth in the Collie Bowl in Sacramento last month, which the Mustangs lost to University of North Dakota, 36-31.

Reipients of the 1973 Kodak Coach of the Year by the APCA will be John McKay of Southern California and Harold (Tubby) Raymond of the top-rated Delaware in the College Division.

In five years as head coach at this university, Harper has led his Mustang teams to a 36-14-1 record, including five winning seasons and four California Collegiate Athletic Association titles.

Mustang senior defensive back Mike Amos, was named to his third Little All-American team this year. Amos, who was a cornerstone in the Mustang's rugged defense which was instrumental in achieving the undefeated season, is a first team choice on the Universal Sports All-star team. Amos and wide receiver Al Marshall of Boise State were the only wrestlers selected on the honor team.

Earlier Amos was honored by being chosen on the Kodak College Division All-America team the small college squad announced by Associated Press.

Top honor to Harper

Mustang football coach Joe Harper was honored as District 8 College Division Coach of the Year last Thursday night in Chico.

Harper earned the district honor voted by the American Football Coaches Association (APCA) for guiding his Mustangs to the first undefeated season since 1960. Harper's Mustangs compiled an 8-1 regular season record, were ranked No. 8 in the nation in both the Associated Press and United Press International polls and earned a berth in the Collie Bowl in Sacramento last month, which the Mustangs lost to University of North Dakota, 36-31.
