PLAN FOR REORGANIZATION OF COLLEGE PROPOSED BY PRESIDENT KENNEDY

Faculty members of Cal Poly have been invited to express opinions on a proposal to reorganize the college's present five academic schools into seven new academic schools. President Robert E. Kennedy distributed to all department heads and faculty members a proposal containing tentative school designations and departmental groupings.

The proposal has been studied by an ad hoc committee of the college's Academic Senate. Dr. Kennedy asked the committee to hold its recommendation to the Academic Senate in abeyance until all faculty members have had an opportunity to study the materials and have an input on the recommendation through their academic departments. Student involvement in the consultative process at the department level was urged by the president, who also made copies of the proposal available to officers of the Associated Students, Inc.

Dr. Kennedy provided faculty members with projections for existing and proposed disciplines which would show the relative growth of the proposed schools as of Fall 1972 and Fall 1977. The latter projections provide for a college enrollment of 19,375 or a full-time equivalent (FTE) of 18,000. He noted that neither the college nor the state college system has taken any action to raise Cal Poly's present ceiling from 12,000 FTE, but said the proposal's use of the 18,000 figure is based upon a suggestion from the California Coordinating Council for Higher Education that this college increase its capacity to that figure at some future date.

The president said the projections to 1977 were provided in order to demonstrate the relative sizes and enrollments of the seven academic schools, both in terms of present ceilings and of eventual growth, should it be authorized at some future date.

TELEGRAM-TRIBUNE ERRORS IN CAL POLY ARTICLE

Editor George Brand of the San Luis Obispo Telegram-Tribune has arranged for the correction of an error in a front page story last Saturday (Jan. 17). The lead paragraph, which was in error, stated: "Cal Poly president Dr. Robert Kennedy revealed Friday that he will push for the lifting of a state-imposed limit to allow eventual enrollment of 18,000 students here."

"That statement is contrary to fact and is not based on anything that was said or intimated by President Kennedy in a news conference held on campus Friday," said Lachlan P. MacDonald (Director of Information Services).

(Continued on Page 2)
WORK ON NEW PARKING LOT PROJECT SLATED TO BEGIN THIS WEEK

Madonna Construction Company of San Luis Obispo, the successful low bidder on construction of the new 400-car parking area in the vicinity of the Food Processing Building and the Aero Hanger, has been authorized to proceed with the project and is expected to begin work this week, according to E. Douglas Gerard (Acting Executive Dean). Planned to cost $137,000, the new parking area is scheduled for completion sometime near the end of the Spring Quarter.

While the inconvenience to the college will generally be considerably less than that experienced during the last major parking project, access to the Aero Hanger and areas of the campus served by the road to that unit will be restricted during part of the construction period, Gerard said. The contractor has assured the college that a passable road will be kept open during the entire period of construction, but it may not be as smooth nor as wide as the present one.

The Facilities Planning Office is asking for cooperation of the faculty, staff, and students of the college in use of roadways in that area during the construction period. Questions concerning construction of the new parking area may be referred to that office, Adm-401.

TELEGRAM-TRIBUNE ERRORS IN CAL POLY ARTICLE (Continued from Page 1)

The incorrect paragraph was, according to Editor Brand, added to the story by a rewrite man at the news desk and was not written by Dave Verbon, whose by-line appeared on the story. Verbon attended the Friday (Jan. 16) conference with representatives of most news media in the San Luis Obispo area.

President Kennedy told those attending the conference he hoped that an explanation of the use of enrollment projections used in describing the proposed expansion from five to seven schools and distributed to all faculty members on Jan. 15 would not be misinterpreted by news media representatives who would hear about the consultation on "academic reorganization" now in progress on campus.

"If all reporters, or even one reporter, went away with the impression that the president had pre-determined that 18,000 students would be good for Cal Poly and for the community of San Luis Obispo and intended to 'push' for that goal, regardless of the outcome of ongoing consultation on the campus and in the community, then the purpose of the press conference failed," said Dr. Kennedy.

"I was glad to know that no reporter present left with that impression and that the error in the Telegram-Tribune was truly an error by someone who did not attend and who did not consult sufficiently with the reporter who did attend," the president said.

Dr. Kennedy wrote in his transmittal letter to faculty on Jan. 15, "The purpose of showing the projected enrollments beyond 12,000 FTE is to provide assurance that the proposed organizational structure of seven schools, with departments and disciplines as shown, would be a logical organization for 12,000, or 18,000, or more students."

Typewritten copy intended for the next issue of Cal Poly Report must be received prior to 12 noon Friday, Jan. 23, in the Office of Information Services, Adm-210.
DUAL THEMES PLANNED FOR ASEE GRAPHICS CONFERENCE

Computerized graphics and new approaches to instruction in graphics are the dual themes of the program announced for the annual mid-year meeting of the American Society for Engineering Education's Graphics Division, which will begin tomorrow (Wednesday, Jan. 21) and continue through Saturday (Jan. 24) on campus.

The program will open with registration and tours of Hearst Castle at nearby San Simeon and the Pacific Gas and Electric Company power-plant at Morro Bay tomorrow afternoon according to R. Wallace Reynolds (Engineering Technology Department), who is general chairman for the meeting.

Following Archie Higdon (Dean of the School of Engineering and Technology) to the conference platform will be a complement of speakers that includes many of the better-known names in engineering education. Dean Higdon will address the meeting's opening session.

In addition to Steve M. Slaby of Princeton University, who will preside at the sessions, Tram Pritchard of Lockheed Company's Missile and Space Systems Division and Graphic Science magazine; Klaus Kroner of University of Massachusetts; and Larry Goss of Oklahoma State University; are scheduled to address those in attendance.

Also among the meeting's speakers are Herbert Gernandt of Jet Propulsion Laboratory in Pasadena; Percy Hill of Tufts University in Massachusetts; James Blackman, associate dean of engineering at University of Nebraska; Mrs. Karen Takle Quinn of IBM Corporation, San Jose; Marc Sauvageau of Ecole Polytechnique de Montreal; and Dr. James Earle of Texas A and M University.

Topics scheduled for discussion during the ASEE gathering range from computerized filing systems for engineering graphics publications and automated graphics class-rooms to the future of engineering graphics and systems approaches to course development for engineering graphics, according to Reynolds.

Highlight of the program, which includes a broad range of panel and discussion sessions, demonstrations, and committee meetings, will be a dinner meeting during which Jack Ryan of Los Angeles, a widely known inventor and chief engineer for Mattel Industries, will be the speaker. That event will take place the evening of Jan. 23 in the Cal Poly Staff Dining Room.

Reynolds said some 300 persons representing colleges, universities, businesses, and industries located throughout the U. S. and Canada are expected to take part in the mid-year meeting. With more than 900 members, the Graphics Division is one of several special interest groups that make up the engineering education society, which has a membership of some 15,000.

PHOTOS IN EXHIBIT SHOW DIVERSITY OF ARCHITECTURE

"Architecture in California," a photo exhibit featuring the varied styles of architecture of the state, is presently being displayed in the Architecture Gallery of the Engineering West Building. Photographs in the collection demonstrate the diversity of West Coast architects, builders, and owners.

The public is invited to view the exhibit between the hours of 8 a.m. and 5 p.m. daily, except Saturdays and Sundays, through Jan. 31. Admission is free.
VOCAL GROUPS: SLATE SUNDAY CONCERT IN SAN LUIS OBISPO

Three Cal-Poly student music groups will present a concert of vocal music Sunday (Jan. 25) at the Hart Building of the Presbyterian Church of San Luis Obispo. Starting time for the concert, to which the public is invited, will be 5 p.m. Admission will be free.

All conducted by Harold P. Davidson (Head of the Music Department), groups scheduled to participate in the performance are the 87-member Women's Glee Club, the Collegiate Quartet, and the Women's Sextet.

The Women's Glee Club has chosen selections representing both early American and popular present-day numbers for the concert. Included are Come Thou Fount, Amen, Lullaby, and If You Go Away. Several traditional Cal-Poly songs are also programmed. Both the Women's Sextet and the Collegiate Quartet specialize in popular and folk music. Their programs for the concert had not yet been announced this week.

Also planned as part of the Sunday afternoon program is a brief inspirational talk by the Rev. James Bell, pastor of the church.

SEARCH BEGINS FOR NEW C S C HEADQUARTERS

A search is under way to find a suitable permanent headquarters for the 19-campus California State College system, Chancellor Glenn S. Dumke has announced.

A staff committee headed by Harry W. Harmon, vice chancellor, physical planning and development, is investigating sites in Southern California, the region serving most of the system's 227,000 students and where the system has leased headquarters space since early in the decade.

Approximately 20 possible sites are presently under tentative consideration, Chancellor Dumke said. He said exploratory talks are expected to involve still more potential sites before recommendations are discussed with the Board of Trustees at their Feb. 24-25 meeting in Los Angeles.

The California State Colleges leased temporary quarters at Inglewood in Jan., 1962, moving from there to the present headquarters at 5670 Wilshire Blvd., Los Angeles, in 1965.

PERSONNEL REPORT COPIES AVAILABLE ON CAMPUS

Several copies of the Seventh Annual Report to the Governor and the Legislature on Personnel Matters have been received on campus and are being made available to members of the faculty and staff who wish to peruse them. The report on California State Colleges personnel matters is prepared annually by members of the CSC chancellor's staff in accordance with the Sec. 24201.1 of the Education Code. A copy has been forwarded to the college's Academic and Staff Senates via their chairmen and a third is being placed in the college library. Yet another copy of the report is available in the Personnel Office, Adm-111, for use by members of the faculty and staff who may not have access to any of the others.
COMING EVENTS - COMING EVENTS - COMING EVENTS

Books at High Noon Luncheon -- Tuesday, Jan. 20, 12 noon, Staff Dining Room. Oscar Lewis' book, The Children of Sanchez, will be reviewed by Michael Winn. Public invited.

Cal Poly Women's Club Handcrafts Section (Night) -- Tuesday, Jan. 20, 7:30 p.m., Hobby Center, 735 Marsh St., San Luis Obispo. Program on instant batik; those planning to attend are asked to bring crayons, fabric, etc. Members invited.

Engineering Speaker -- Tuesday, Jan. 20, 7:30 p.m., Agricultural Engineering Building Room 123. Presentation titled "SST and the Government Development Program" by Frampton Ellis of the Federal Aviation Administration during meeting of the Cal Poly chapter of the American Institute of Aeronautics and Astronautics. Public invited.

ASEE Graphics Division Meeting -- Wednesday through Saturday, Jan. 21-24, all day, campus. Annual mid-winter meeting of the American Society for Engineering Education's Graphics Division with participants from throughout the nation; hosted by School of Engineering and Technology. Members invited.

Cal Poly Women's Club Home and Garden Section -- Wednesday, Jan. 21, 9:30 a.m., 263 Luneta Dr., San Luis Obispo. Program on interior decorating presented by Mrs. Bernice Elmer of Riley's Furniture Store during meeting hosted by Mrs. Richard Birkett. Members invited.

CSEA Luncheon -- Wednesday, Jan. 21, 12 noon, Staff Dining Room. Monthly luncheon meeting of Cal Poly Chapter 97 of the California State Employees Association with program on contemporary folk music by Mrs. Jack Scott. Faculty and staff invited.

Staff Senate Meeting -- Wednesday, Jan. 21, 3:10 p.m., Staff Dining Room. Regular meeting of the campus Staff Senate with chairman John J. Lucin presiding. Staff invited.

Cal Poly Women's Club Book and Music Section -- Thursday, Jan. 22, 9:45 a.m., 213 Albert Dr., San Luis Obispo. Featured during program in home of Mrs. C. H. Gregory will be a critical review of the works of James Joyce by Mrs. Neil Webre. Members invited.

Cal Poly Staff Club Luncheon -- Thursday, Jan. 22, 12 noon, Staff Dining Room. Illustrated presentation titled "Moving People with Still Pictures" by Clyde Hostetter. Faculty and staff invited.

Varsity Wrestling -- Thursday, Jan. 22, 8 p.m., Men's Gymnasium. Cal Poly vs. Chico State College. General admission tickets - adults, $1.50; students and children, 50 cents.

(Continued on Page 6)
COMING EVENTS (Continued from Page 5)

Architecture Lecture -- Thursday, Jan. 22, 8 p.m., Engineering Auditorium (formerly Air Conditioning Auditorium). Lecture by Harry Anthony; sponsored by the School of Architecture and student chapter of the American Institute of Architects. Public invited.

Varsity Basketball -- Friday, Jan. 23, 8 p.m., Men's Gymnasium. Cal Poly vs. Fresno State College; preliminary game, 5:45 p.m., Cal Poly Colts vs. FSC Frosh. Tickets - general admission, $1.50; students and children, 50 cents.

High School Wrestling -- Saturday, Jan. 24, all day, Men's Gymnasium. Annual Cal Poly High School Invitational Wrestling Tournament featuring teams from throughout California; hosted by Cal Poly. Tickets - general admission, $1.50; students and children, 50 cents.

Glee Club Concert -- Sunday, Jan. 25, 5 p.m., Hart Building, Presbyterian Church, Marsh at Morro, San Luis Obispo. Concert featuring Cal Poly's Women's Glee Club, Collegiate Quartet, and Women's Sextet under the direction of Harold P. Davidson. Public invited.

Cal Poly Women's Club Walking Section -- Tuesday, Jan. 27, 9 a.m., Giant Food Store parking lot, 3300 Johnson Ave., San Luis Obispo. Meeting for walking tour of the Ann Arbor Estates and Southwood areas. Members invited.

Books at High Noon Luncheon -- Tuesday, Jan. 27, 12 noon, Staff Dining Room. Lachlan P. MacDonald will review The Best American Short Stories, 1969. Public invited.

Cal Poly Women's Club Choral Section -- Tuesday, Jan. 27, 8 p.m., 201 Buena Vista Ave., San Luis Obispo. Regular meeting of section in home of Mrs. Ken Schwartz. Members invited.

Cal Poly Women's Club Handcrafts Section (Day) -- Wednesday, Jan. 28, 10 a.m., City Recreation Center, San Luis Obispo. Regular meeting of section; those planning to attend are asked to bring felt, glue, beads, thread, etc. Members invited.

Cal Poly Women's Club Newcomers Section -- Wednesday, Jan. 28, 8 p.m., 3056 Bahia Ct. San Luis Obispo. Program on history of San Luis Obispo City by Mrs. Louisiana Dart of the San Luis Obispo City Museum, in home of Mrs. Harmon Toone. Members invited.

Varsity Wrestling -- Wednesday, Jan. 28, 8 p.m., Men's Gymnasium. Cal Poly vs. San Fernando Valley State College. Tickets - general admission, $1.50; students and children, 50 cents.

Cal Poly Women's Club Foreign Student Section -- Thursday, Jan. 29, 7 p.m., Dexter Library Room 129. Regular meeting of section. Members invited.

Architecture Lecture -- Thursday, Jan. 29, 8 p.m., Engineering Auditorium (formerly Air Conditioning Auditorium). Architecture lecture by Brian G. Stanford; sponsored by the School of Architecture and student chapter of the American Institute of Architects. Public invited.

Varsity Wrestling -- Thursday, Jan. 29, 8 p.m., Men's Gymnasium. Cal Poly vs. Biola College. Tickets - general admission, $1.50; students and children, 50 cents.
$1.3 MILLION IN NEW FUND PROVISIONS MADE AVAILABLE TO COLLEGES

Funding provisions that will enable the California State Colleges to accept an estimated 4,000 additional students during the winter and spring terms were announced last week. The funds, totaling an estimated $1.3 million, were made available through internal transfers within the college system's budget and from fee income expected to be generated by the additional students.

Of the total, approximately $800,000 is in the process of being allocated to the campuses with the approval of the state Department of Finance, Harry E. Brakebill, executive vice chancellor, said. This approximate $800,000 is from excess salary savings reported by a few of the colleges, from funds budgeted in plant operation not previously allocated to the colleges, and revenue generated by a recent change in application fees. An additional $500,000 is projected for use by the campuses from fees paid by the increased number of students.

Cal Poly's share of the two funds is expected to total about $93,000, according to James R. Landreth (Associate Director of Budgeting and Business Affairs) who said decisions on how the monies will be expended are presently being made. He indicated, however, that the entire amount will be allocated to instructional and student personnel expenses. About $35,000 of the Cal Poly total figure will accrue from fees expected to result from the additional students. The remaining $58,000 is the college's share of the $800,000.

Landreth said this week that availability of the new monies will not result in any change in the numbers of new students who will be admitted to begin study at Cal Poly during the Spring Quarter. Quotas established to provide 400 new students for the Spring Quarter have been established and are reported in an article appearing elsewhere in this issue of Cal Poly Report. These additional funds are making it possible for Cal Poly to accommodate 10,610 full-time-equivalent students during academic year 1969-70, rather than the 10,260 FTE students originally budgeted for the year.

DEAN GIBSON IN THAILAND FOR INSPECTION TOUR

J. Cordner Gibson (Dean of the School of Agriculture) last week began a three-week inspection tour of Cal Poly programs in Thailand. Dean Gibson will visit the Bangpra School, where a Cal Poly team is working with future agricultural teachers of Thailand. Under contract to Agency for International Development, Cal Poly provides a five-man team of specialists in agricultural education for the Bangpra School project. Warren T. Smith, former dean of the School of Agriculture, is the team leader.

Dean Gibson also will visit the Mekong River area of Thailand. Cal Poly has just begun a training program for Peace Corps workers who would be assigned to aiding in agricultural development in the Mekong River project. In addition, the agriculture dean also expects to meet with Thailand people who have attended Cal Poly under AID programs.

Typewritten copy intended for the next issue of Cal Poly Report must be received prior to 12 noon Friday, Jan. 23, in the Office of Information Services, Adm-210.
CAL POLY MATMEN BEST OKLAHOMA U: RETURN TO HOST CHICO STATE

Cal Poly's wrestling varsity, fresh from a victory that must rank with the biggest dual match triumphs in history of that sport at the college, will return to its home mat in Men's Gymnasium Thursday (Jan. 22) evening to host Chico State College.

Ranking with that dual encounter in importance this week is the Mustang basketball varsity's always-important contest with Fresno State College, which will take place, also in Men's Gym, on Friday (Jan. 23). Starting time for both events will be 8 p.m.

The 21-11 victory of Coach Vaughan Hitchcock's Mustang matmen over the Sooners of Oklahoma came in the first of two important road matches in the Midwest and increased their won-lost record for the season to 5-1 at the time of this writing.

The green-and-gold-clad Cal Poly grapplers were to meet Oklahoma State University's wrestlers in a dual match at Stillwater Monday (Jan. 19) evening. The Oklahoma wrestlers are currently ranked fifth and OSU, third in the nation. Cal Poly still stands eighth.

Coach Neale Stoner's Mustang cagers will enter their rugged encounter with Fresno State with an 8-6 mark for the season. They bested a talented San Fernando Valley State College team 68-61 in their first home California Collegiate Athletic Association game of the season last Friday (Jan. 16) night in Men's Gym. The Cal Poly quintet now stands at 1-2 in CCAA play. This Friday evening's Fresno State encounter will be a non-league contest; FSC having withdrawn from the conference since last season.

A preliminary cage contest between the Cal Poly Colts and Fresno State's Bullpups, will precede Friday evening's varsity match. Starting time for the game between the two freshman teams will be 5:45 p.m.

MAJORS AND MINORS WILL PERFORM FOR INUSTRIAL RELATIONS GATHERING

Cal Poly's Majors and Minors will help entertain guests during a dinner program, being planned by the Central Coast Chapter of the Industrial Relations Research Association, for Jan. 28, at the Madonna Inn in San Luis Obispo. Featured during the event will be an address titled "Labor Problems on the Pacific Coast" by Los Angeles Times Labor Editor Harry Bernstein, according to Philip H. Overmeyer (Business Administration Department) who is regional vice president of the association.

Bernstein will explore the present and future trends of labor versus management relations in collective bargaining in both the public and private sectors of the economy, Dr. Overmeyer said. "It is generally conceded by labor experts that 1970 will bring new strife and strains including many strikes and possible wage-price controls affecting all sides of community life," he continued. Bernstein's speech will be especially interesting to labor leaders, public officials, teachers, and management personnel.

The 7:30 p.m. dinner meeting will be preceded by a social hour, during which the Majors and Minors, a vocal barbershop music ensemble, will be featured. Tickets for the affair, including the steak dinner, are priced at $5 per person and may be obtained by contacting Dr. Overmeyer at his office or at the door.
PRIORITIES FOR SPRING QUARTER ADMISSION OF STUDENTS APPROVED BY PRESIDENT

Recommendations of the Academic Council of the college regarding priorities and quotas for admission of 400 additional students to study at Cal Poly have been approved by President Robert E. Kennedy for implementation and the Admissions Office has already begun accepting applications using limits and categories already adopted. A total of 500 applications are being accepted in an effort to generate the 400-student target. The categories and quotas being used are:

Glenn A. Noble (Head of the Biological Sciences Department) addressed members of the Kiwanis Club of San Luis Obispo during their meeting of Jan. 15 at the Motel Inn. Dr. Noble presented illustrated remarks on his trip to the Soviet Union while on sabbatical leave during the 1968-69 Spring and Winter Quarters. While in Leningrad he presented a paper during the International Zoological Congress.

Harold R. Miller (Business Administration Department) discussed "Man and the Computer" during the luncheon meeting of the Paso Robles Rotary Club held at the Paso Robles Inn last Thursday (Jan. 15). Miller joined the Cal Poly faculty in Sept. 1968 after having been a member of the faculty at Southwest Missouri State College.

George M. Ramos has been named acting sports information director for the Associated Students, Inc., according to Roy Gersten (Director of Associated Students, Inc., Business Affairs). He replaces Douglas A. Gibson, who resigned last month to assume duties as public relations director for the Wyoming State Farm Bureau. Ramos, who completed studies for his BS degree in journalism at Cal Poly last month, will fill the post on a temporary basis until a permanent replacement can be found to succeed Gibson.

A Cal Poly yearling Thoroughbred filly sold for $2,600 at the Pomona Winter Horse Auction held at the Los Angeles County Fairgrounds on Jan. 11. William Gibford (Animal Husbandry Department) reported that the filly, unnamed, out of Bally Rullah, sired by Irish Kip, both imported Thoroughbreds, was sold to Susan Royse of Escondido. The horse was accompanied to the sale by Ken Wold and Gabe Davide, both seniors majoring in animal husbandry.

Gordon Vandevanter (Crops Department) and Charles Mendenhall (Agricultural Information Specialist) took part in the Canners League of California random sample cutting at the Hilton Hotel in San Francisco, Jan. 8-9. Also participating in the program, during which fruits and vegetables canned during the 1969 season were viewed, were Gordon Vosti and Larry Hirahara, both seniors majoring in crops.

More recent information than that concerning the illness of Gus A. Beck (Emeritus, Agricultural Management Department), which appeared in this portion of last week's Cal Poly Report has been received. Beck is presently resting at the home of his daughter, Mrs. Thomas Meacham, awaiting surgery. Cards and letters for him may be addressed c/o Dr. Thomas Meacham, Rte. 1, Box 493A, Blacksburg, Va. - 24060.

CALIFORNIA STATE COLLEGE TRUSTEES SIATE JAN. 27-28 MEETING

The Board of Trustees of the California State Colleges will meet next Tuesday and Wednesday (Jan. 27-28) at the Woodlake Inn, 500 Leisure Ln., Sacramento. The Jan. 27 committee sessions will begin at 8:30 a.m. The Jan. 28 committee sessions will begin at 8 a.m. The full board is scheduled to convene at 1:30 p.m. that afternoon.

Typewritten copy intended for the next issue of Cal Poly Report must be received prior to 12 noon Friday, Jan. 23, in the Office of Information Services, Adm-210.
CARSES GRANT MAKES NEW PUBLICATIONS POSSIBLE

Industry support of a unique engineering program at Cal Poly was demonstrated last week with publication of a colorful poster and brochure. The new materials describing the college's new program in engineering technology were made possible by a $1,000 grant from the California Association of the Refrigeration Service Engineers Society (CARSES). Joe Messina of Chico, CARSES president, said the grant was in recognition of Cal Poly's leadership in engineering and technology and of the college's cooperation with the society's annual workshop.

The 12th annual CARSES Workshop took place on campus last weekend (Jan. 15-17). Nearly 500 persons participated in the program, which was hosted by Walter Holtz (Head of the Environmental Engineering Department) and James R. McGrath (Head of the Engineering Technology Department). McGrath is an advisory member of the CARSES Board of Directors and a member of the National Education Committee of the Refrigeration Service Engineers Society, and was instrumental in developing the engineering technology program.

Students in the program may earn a Bachelor of Science Degree in engineering technology which includes curricular options in air conditioning-refrigeration technology, electronic technology, manufacturing processes technology, mechanical technology, and welding technology.

Dr. Archie Higdon (Dean of the School of Engineering and Technology) said the new program is the only four-year engineering technology program in California and one of the few in the United States. It is being evaluated this month for accreditation by the Engineers Council for Professional Development.

"The program, announced only one year ago, currently has an enrollment of 145 students," McGrath said. "Engineering technology requires both the application of scientific and engineering knowledge and the technical skills needed to support engineering activities. Our graduates will be somewhat more specialized than the engineer with somewhat less depth in basic and engineering sciences, but a greater technical skill in design and production. Because industry has such an urgent need for engineering technologists, the opportunities for our graduates are excellent," the department head continued.

Copies of the brochure and poster made possible by the CARSES grant may be obtained by contacting the Engineering Technology Department.

ARAB STUDENTS PLAN COMMUNITY DINNER

Members of the college faculty, student body, and staff, as well as residents of the Central Coast are invited to join the Cal Poly Arab Students Association for "One Thousand and One Arabian Nights" on Feb. 7 at the Veterans Memorial Building in San Luis Obispo. Plans for the evening include sheish kabab, native and folk dances, and other entertainment. Dinner begins at 6:30 p.m. and the entertainment at 8 p.m. Tickets for the dinner and show are $3.50 each. Cost of the show only will be $2.00. Tickets may be purchased at the Foreign Students Office, Adm-217A.

Typewritten copy intended for the next issue of Cal Poly Report must be received prior to 12 noon Friday, Jan. 23, in the Office of Information Services, Adm-210.
FORMER ASSOCIATE OF DR. LEARY WILL ADDRESS CAMPUS GATHERING

Baba Ram Dass, formerly Dr. Richard Alpert and a colleague of Timothy Leary, will deliver a talk on Jan. 31, at 8 p.m. in the Men's Gym on campus. His campus appearance is being sponsored by the Fine Arts Committee of the Associated Students, Inc., College Program Board.

Richard Alpert received his PhD in psychology from Stanford University in 1957, after which he taught at Stanford, the University of California in Berkeley, and Harvard University. In March, 1961, Dr. Alpert ingested psilocybin, a consciousness-altering chemical. Following this experience he joined with Dr. Timothy Leary and others in a research program concerning altered states of consciousness brought about through the use of psychedelics such as LSD.

In 1967 Dr. Alpert started for Iran in search of men who might still retain the keys to the knowledge of enlightenment. After many months of searching he found what he was looking for, following which he settled at a tiny temple in the Himalayas for a winter of study. His Guru has sent him to the United States for one year after which he will return to India.

A question and answer period will follow the talk by Baba Ram Dass. Tickets are 50 cents and may be purchased at the Temporary College Union Building.

CSSEA CHAPTER SETS DATE FOR LAS VEGAS NIGHT EVENT

The night of February 14 has been established by Cal Poly Chapter 97 of the California State Employees Association for a "Las Vegas Night" party. Being planned as the organization's spring social event, it will take place at the Officers Club at Camp San Luis Obispo, beginning at 7 p.m. Additional information about the party and tickets will be forthcoming.

W-2 FORMS READY FOR COLLEGE EMPLOYEES

Employee statements of earnings and tax withheld for 1969 have been completed and are now being distributed. Staff and faculty statements have been forwarded to department heads for distribution. In addition, faculty members are being encouraged to advise student employees of the state (via the classroom) that W-2 forms showing their 1969 earnings are in the Payroll Services Office, Adm-110, and should be picked up as soon as possible. Cal Poly Foundation employees should pick up their forms in Adm-132.
