Edward H. Barker of South Pasadena, a 55-year-old professor of marketing at University of Southern California, will become the first dean of Cal Poly's School of Business and Social Sciences. Appointment of Dr. Barker, who will assume his duties as soon after Sept. 1 as he is able to complete his duties at USC, was announced last week by President Robert E. Kennedy.

Also announced by Dr. Kennedy was the appointment of George G. Clucas, a veteran member of the Cal Poly administrative and teaching staff, as interim dean of business and social sciences to serve until Dr. Barker is able to begin his new duties.

President Kennedy said selection of Dr. Barker for the new post was the result of an extensive recruitment effort during which a large number of candidates was reviewed by a committee elected by the college faculty for the purpose of advising him on appointment of a dean for the new school. He praised members of the committee for having carried out their responsibilities in an exemplary manner.

Dr. Barker, a member of the USC School of Business Administration faculty since 1956, has broad experience, both in business and in education. Before joining the university faculty, he served in various executive capacities with Barker Brothers Corporation, a retail furniture store chain in the Los Angeles area, for 10 years; was sales manager for Market Research Associates with headquarters in Pasadena; and worked for Vultee Aircraft Corporation in Downey.

School District Board Member

A veteran of the U. S. Army Air Corps, Dr. Barker has been a member of the Board of Trustees of the South Pasadena Unified School District for the past seven years. In addition to his teaching duties at USC, he was a high school teacher in the Los Angeles area for one year and has taught a number of executive courses and seminars in marketing for various business and industry groups.

Dr. Barker currently is involved in direction of scholarship programs and a number of special courses and institutes for business and industry groups for the USC school. A native of South Pasadena, he has also been a frequent speaker before national gatherings of business and industry leaders, including the American Marketing Association and the National Association of Chain Drug Stores.

Widely known for his contributions to the education of marketing specialists, Dr. Barker has also been recognized for his academic achievements. He received the USC Excellence in Teaching Award in 1960 and became one of only two members of the university's faculty to be so honored twice when he received it again in 1966.

MOHINDER GILL NAMED CAL POLY'S ATHLETE-OF-THE-YEAR

Mohinder Gill, Cal Poly's marvelous triple jumper from Chandigarh, India, has been selected as the college's "Athlete-of-the-Year" for 1969-70. As such he will be under consideration for the California Collegiate Athletic Association's "Athlete-of-the-Year" honor which is to be decided by vote of a group of sports writers from the league cities shortly.

Not only did Gill, a 23-year-old sophomore business administration major, win both the National Collegiate Athletic Association College and University Division national championships in his specialty, but he was beaten only twice in 14 competitions during the 1970 collegiate season.

Gill was ranked No. 1 in the United States throughout the season and No. 3 in the world. He had only two jumps under 50 feet all season as he completely dominated his event. He was the only College Division entry to win a University Division championship. In fact, only a few College Division athletes even placed in the University meet held at Drake University in Des Moines, Iowa, in late June.

Recently Gill represented his native India in the Commonwealth Games held at Edinburgh, Scotland, and placed second.

U S C MAN NAMED DEAN OF BUSINESS, SOCIAL SCIENCES (Continued from Page 1)

Dr. Barker is a graduate of Pasadena Junior College; the University of California at Los Angeles; and USC, where he earned both his master's degree in public administration and doctor's degree in economics.

Married and the father of four children, he belongs to a number of honorary and professional societies including the American Economics Association, the Society for the Advancement of Management, the American Marketing Association, the Los Angeles Chamber of Commerce, Pi Sigma Epsilon, Alpha Kappa Psi, and Beta Gamma Sigma.

Dr. Clucas, who will begin his interim duties Sept. 1, returned to the Cal Poly administrative staff in 1968 after an absence during which he was chief of budget planning and operations staff for the California State Colleges. He has been the college's director of research and development since that time.

The interim dean first joined the Cal Poly staff as dean of finance and development in 1956. He served in that capacity until 1961, when he resigned to accept the state college system responsibility. Dr. Clucas had announced his intention to return to teaching as a member of the School of Business and Social Sciences faculty this fall.

A graduate of University of Michigan, where he earned his master's degree in public administration, and USC, where he gained his doctor's degree in that same field, he has taught on a part-time basis at Cal Poly, California State College at Long Beach, and USC in recent years.

Dr. Clucas and, eventually, Dr. Barker will be responsible for the programs of Cal Poly's Business Administration, Economics, and Social Sciences Departments when the School of Business and Social Sciences begins operation in September.
LOU MERRILL SETS RETIREMENT FOR 1973; APPLICANTS SOUGHT FOR POSITION

Louis S. Merrill, general manager of the Western Fairs Association since 1945 and a close friend of Cal Poly, has announced his retirement from the WFA post effective Jan. 1, 1973. Merrill began his career in the fair business in 1933 and spent several years with the Fresno District Fair and in the U. S. Army Air Corps before assuming his duties with Western Fairs.

In a related statement, the association's Board of Directors has issued a call for applications for a man to replace Merrill. Jim Trimingham, manager of the Alameda County Fair who is chairman of the board's selection committee, said a new man will be selected this year to assume duties as assistant to the general manager of WFA on Jan. 1, 1971, in preparation for assuming the general manager's post upon Merrill's retirement.

Merrill, who was instrumental in establishment of the fair management course offered by Cal Poly's Agricultural Management Department for the past several years and in development of a related scholarship program for Cal Poly students, has been widely honored for his contributions to the fair business. He was honored by the California Association of the Future Farmers of America in 1956, the International Association of Fairs and Expositions in 1957, and the California State Fair in 1959.

Qualifications for the Western Fairs position include college graduation or equal experience and five years of work experience in areas related to fairs and expositions. Applicants are invited to send resumes to Trimingham, P. O. Box 579, Plesanton, California, 94566.

STATE BOARD CHAIRMAN WILL ADDRESS CAMPUS GATHERING

"Opportunities Through Physical Education" will be the topic when Howard Day of Los Angeles delivers the keynote address before a joint meeting of two gatherings of secondary school physical educators on campus this (Tuesday, Aug. 11) morning. Day, who is president of the California State Board of Education, will speak before the high school physical education teachers and supervisors and athletic coaches beginning at 10 a.m., in the Cal Poly Theater.

A businessman with interests in the Los Angeles area, Day is a former president of the Los Angeles County Board of Education and currently is chairman of the Economic and Youth Opportunity Agency of Greater Los Angeles.

A total of some 600 persons from throughout California and the Pacific Coast area are involved in the 23rd annual California Workshop for Physical Education and Athletic Coaching for men, and the 21st annual California Physical Education Workshop for Women in Secondary Schools.

The two programs opened August 2 and will continue through Friday (Aug. 14), according to Robert A. Mott (head of the Physical Education Department), coordinator of the workshops. Both events are jointly sponsored by Cal Poly, the State Department of Education, and the California Association for Health, Physical Education, and Recreation.
LARGER ATTENDANCE EXPECTED FOR AIR POLLUTION SHORT COURSE

Twice as many high school and community college science and engineering teachers as participated in a short course on air pollution at Cal Poly last year are expected for the 1970 program on campus, Aug. 24-28. Harold M. Cota (Environmental Engineering Department), director of the special program, said this week that 59 teachers from throughout California had been selected for the 1970 short course. Twenty-seven persons participated in the first program last June.

The week-long course is being financed with part of a $10,755 grant to the college from the National Air Pollution Control Administration. A similar grant from NAPCA, an agency of the U. S. Public Health Service, made the 1969 event possible. Dr. Cota said the 1970 participants were selected from applications received earlier this year.

Included in the short course will be such topics as air pollution causes and effects as they relate to automobiles, weather, agriculture, and human health; biological, legal and socio-economic aspects of air pollution control; and methods of controlling air pollution. Also programmed are studies in atmospheric chemistry, analytical techniques, instrumentation, air quality, and career opportunities in atmospheric conservation.

Instructional staff for the program will include members of the Cal Poly faculty, representatives from industry, and persons from local, state, and national government agencies who are active in air pollution control.

PROCEDURES FOR SCHEDULING CONFERENCE ROOMS WILL CHANGE

Procedures for scheduling use of campus conference rooms will change on Sept. 1 following approval of revisions recommended by the college-wide Space Allocation Committee. Affected by the changes in Section 233 (E) of the College Administrative Manual, which covers use of such rooms, will be uses throughout the day, as well as during the evening hours.

E. Douglas Gerard (Executive Dean), who announced the revisions, said reservations for uses of conference rooms between 8 a.m. and 5 p.m., Monday through Friday, should be made through the Office of the Associate Dean, Educational Services, after Sept. 1. Rooms available for use during those hours include Erhart Ag-138, Erhart Ag-241, CSc-115B, GA-101, GA-207, Lib-128, M$HE-152, MPE-122, and MSD-125.

After Sept. 1, reservations of conference rooms for uses after 5 p.m. may be made through the Student Activities Office. Rooms available during that time are Erhart Ag-138, Erhart Ag-241, GA-101, GA-207, Lib-128, MPE-122, and MSD-125.

The changes in procedures will be included in College Administrative Manual revisions presently being prepared for distribution to those persons and offices holding copies of the manual prior to start of the Fall Quarter.

Typewritten copy intended for the next issue of Cal Poly Report must be received prior to 12 noon Friday, August 21, in the Office of Information Services, Adm-210.
COMING EVENTS

Physical Education Workshops -- Continuing through Friday, August 14, all day, campus. Annual workshops for men and women physical education teachers and athletic coaches from throughout California; sponsored by the Cal Poly Physical Education Department, the California Department of Education, and the California Association for Health, Physical Education, and Recreation. By advance registration.

Peace Corps Training -- Continuing through Sunday, August 30, all day, Poultry Unit. Special short course in poultry hatchery management for Peace Corps trainees preparing for service in India; hosted by the School of Agriculture and Poultry Industry Department.

Noon Speakers Series -- Wednesday, August 12, 12 noon, Engineering West Building Patio. Address by Democratic candidate for the Assembly Ervin E. Berrigan of Bakersfield presented as part of the Speakers at Noon Series; sponsored by the Associated Students, Inc., Summer Program Committee. Public invited.

Education Speaker Series -- Wednesday, August 12, 12 noon, Business Administration and Education Building Room 215. Talk on the Los Angeles teachers strike by Frank Robles; sponsored by the Education Department. Public invited.

End of Summer Session Second Session -- Friday, August 14. Final Day of the 1970 Summer Session Second Session for students and faculty.

Noon Speakers Series -- Wednesday, August 19, 12 noon, Engineering West Building Patio. Talk by Assemblyman William M. Ketchum presented as part of the Speakers at Noon Series; sponsored by Cal Poly's Associated Students, Inc., Summer Program Committee. Public invited.

Accountants Conference -- Sunday through Wednesday, Aug. 23-26, all day, Music, Speech, and Drama Building. Annual conference and workshop for members of the California Association of Accountants; hosted by the Business Administration Department. By advance registration.

Teachers of Migrant Children Program -- Monday through Friday, Aug. 24-28, all day, Agricultural Engineering Building. Institute for some 150 teachers of migrant children from the Southern San Joaquin Valley and Central Coast Areas; sponsored by the California State Department of Education and hosted by Cal Poly's Education Department. By advance registration.

Air Pollution Control Course -- Monday through Friday, Aug. 24-28, all day, Air Conditioning Building. Short course on air pollution control for 59 high school and community college science and engineering teachers from throughout California; sponsored by Cal Poly's Environmental Engineering Department. By advance registration.

Final Exams -- Tuesday through Thursday, August 25-27, all day, campus. Summer Quarter final examinations for Cal Poly students attending the Summer Quarter.

End of Summer Quarter -- Thursday, August 27. End of the 1970 Summer Quarter for Cal Poly students and faculty.

Academic Holiday -- Friday, August 28, through Sunday, September 13. Academic holiday between the Summer and Fall Quarters for Cal Poly students and faculty.
WHO • • • WHAT • • • WHEN • • • WHERE ? ? ??

Walter P. Schroeder (Head of the Education Department) spent Aug. 4-7 as a participant in an Invitational Conference on Evaluation in Vocational Education at University of Nevada in Reno. Sponsored by the U.S. Office of Education, the conference was based on several years of research conducted by Michigan State University in cooperation with USOE.

Steve Simmons (Men's Physical Education Department), Cal Poly's new head track and field coach, is far from home this summer. He is in Europe where he is helping prepare the Denmark national track and field team for a series of meets, including the World University Games and the European Junior Championship Meet. Simmons, whose appointment to the Cal Poly post was announced recently, has been an assistant coach at Chapman College for the past five years.

Lee C. Coombs (Chemistry Department) is the author of a research paper published in the most recent issue of Inorganic Chemistry, a journal published by the American Chemical Society. Title of Dr. Coombs' paper is "Kinetics of the Reaction Between Cyanide Ion and the Nickel (II) Complexes of Iminodiacetate and N-Methyliminodiacetate." Inorganic Chemistry has some 6,000 readers throughout the world.

CHANCELLOR DUMKE APPOINTED TO NATIONAL ACCREDITING BOARD

Chancellor of the California State Colleges Glenn S. Dumke has been appointed to the Board of Commissioners of the National Commission on Accrediting, it was announced last week.

Dr. Dumke will succeed President Arland F. Christ-Janer of Boston University as a representative on the Commission of the Association of American Colleges. His term will extend through the Commission Board's 1973 annual meeting.

The commission serves to coordinate activities of 25 professional and specialized higher education accrediting organizations. Through these groups the commission exercises a supervisory role in the quality of higher education. With headquarters in Washington, D.C., it has representatives on its governing board of 6 constituent associations which in turn have more than 1,425 member institutions.

VACANT CLERICAL POSITION LISTED BY PERSONNEL OFFICE

A vacant clerical assistant position on the staff of the Personnel Office has been listed by S. Milton Piuma (Staff Personnel Officer). Posted on the bulletin board located in the Personnel Office, Adm-111, 546-2236, along with other campus positions that are currently vacant, its specifications are:

Clerical Assistant II-B ($492-$599), Personnel Office, Administration. Duties and responsibilities include taking dictation, typing, office and telephone reception, assisting in the administration of tests and scoring tests; filing, assisting with the benefits programs. Applicants must be high school graduates, type 45 wpm, take shorthand at 90 wpm. One year of experience preferred. Previous personnel office experience desirable. Possible placement date would be September 1.
LOWER CAMPUS ELECTRICAL SHUTDOWN SLATED SEPT. 1-3

Electrical service in the lower campus area will be off on Sept. 1, 2, and 3, according to an announcement issued last week by Robert R. Adams (Chief of Plant Operation). The outage, which will be from 8 a.m. to 6 p.m. on those dates, will be affected so that a contractor on a campus site development project can complete needed work in several electrical manholes.

Buildings and facilities effected by the electrical shutdown will include the Business Administration and Education Building; Air Conditioning Building including Engineering Auditorium; Post Office; Cottages 1, 2, and 3; Crandall Gymnasium; Mustang Stadium; the Natatorium; Chase, Deuel, Heron, and Jespersen Residence Halls; the Graphic Arts Building; Dexter Library; the Old Power Plant, and Pump House 1.

C S C DEAN HONORED BY STATE BOARD, DEPARTMENT OF EDUCATION

Gerhard Friedrich, dean of academic planning for The California State Colleges, has been honored for "distinctive service" in behalf of advanced placement programs in California high schools. Dr. Friedrich received a certificate of appreciation and commendation from the State Board of Education and the California State Department of Education.

Advanced Placement programs provide highly motivated instruction for more able and ambitious students in high school, offering opportunities for them to receive academic credits in colleges and universities. California is now in second place in the nation with regard to the participating students, with over 225 high schools involved.

FACULTY, STAFF INVITED TO DUST OFF HORNS

Members of the college faculty and staff interested in musically reliving the days of Benny Goodman, Louis Armstrong, Mel Torme, and Stan Kenton are invited to contact Gerry Reynolds (Placement and Financial Aids Office). Reynolds would like to get together for instrumental jam sessions of sorts, either on a week night or weekend, with others of like interest. Anyone who is interested is invited to contact him at 546-2501.

Typewritten copy intended for the next issue of Cal Poly Report must be received prior to 12 noon Friday, Aug. 21, in the Office of Information Services, Adm-210.

C. C. BEAT OF RIVE BOWIE - IGNITION
Regional Office - U.S. Office of Education

The San Francisco Office has provided the Research & Development Office with a summary of the program for the 1971 year. Interested faculty may call Extension 2630 for a copy of this program of awards limited to $10,000. A proposal may be submitted in any discipline or any problem area.

Regulations for Three Vocational Education Programs Issued by OE

Regulations governing grants and contracts for vocational education research and training, exemplary, and curriculum development programs have been issued by the Office of Education.

Under the new regulations, institutions of higher education and other public and private organizations are eligible for grants and contracts in vocational education research and training for projects which include: research in vocational education, training programs designed to familiarize persons involved in vocational education with research findings in vocational education, experimental projects designed to test the effectiveness of research findings, and projects to develop new careers and occupations.

Applications for research and training grants and contracts should contain a description of the nature and purpose of the project, a statement on the qualifications of the staff members who will be responsible for the project, a justification for the amount of the grant or contract request, a statement telling the portion of the cost of the project to be shared by the applicant, and a list of fiscal control and accounting procedures.

NSF ANNOUNCES TEN IRRPOS GRANTS

The first major grants to universities for Interdisciplinary Research Relevant to Problems of Our Society projects, totaling more than $3 million, have been announced by the National Science Foundation.

Projects to be undertaken by ten interdisciplinary teams from nine institutions range in scope from research on problems of fire to methods for meeting the Nation's energy requirements without further environmental deterioration.

Grants in the IRRPOS program are supposed to be aimed at obtaining basic knowledge required for dealing with important societal problems. Some of the grants awarded were as follows:

California
U.C. Davis, Inst. of Governmental Affairs & Inst. of Ecology

Environmental Decision-Making in the Lake Tahoe Basin

$97,800

U.C. Davis

Land Use & Energy Flow Component of a Model of Society

$448,000
NSF ANNOUNCES TEN IRRPOS GRANTS (cont'd)

Colorado
U. of Colo., Boulder
Workshop on Research Problems in Air & Water Pollution

U. of Denver, Denver
Public Policy Intervention in Interindustry Flows of Goods & Services to Reduce Pollution

Kansas
Kansas State U., Manhattan
Political & Scientific Effectiveness in Nuclear Materials Control
