Higher fees for students, faculty, and staff will take effect at Cal Poly during the Fall and Winter Quarter. A summary issued last week (shown below) lists fee changes for campus parking; Associated Students, Inc., membership; facilities use; materials and services; and tuition for out-of-state and foreign students.

All of the revisions, except that for campus parking permits, affect college students only. The parking fee revision eliminates a special rate for part-time faculty, staff and students. Beginning next month all students, faculty, and staff who wish to park on campus will pay $9 per quarter.

Although the various changes are the result of decisions made by various bodies and agencies, their effect will be to increase costs of attending college for the 12,000 students expected to enroll at Cal Poly during 1970-71.

INSTITUTE FOR TEACHERS OF MIGRANT CHILDREN WILL END FRIDAY

One hundred and forty school teachers and teachers aides from four central California counties are in the midst of a week-long Institute for Teachers of Migrant Children on campus. Sponsored by the California State Department of Education's Bureau of Community Services and Migrant Education, the special program is being conducted by the Multi-County Program for Migratory Children. The Cal Poly Education Department is cooperating in making arrangements and hosting the institute.

Participants in the workshop, which began yesterday (Monday, Aug. 24) and will conclude Friday, Aug. 28, include 120 teachers and 20 teachers aides from Tulare, Kings, Kern and San Luis Obispo Counties. Scheduled for them is a full program of seminars, Spanish language laboratory sessions, and lectures on such topics as English as a second language, reading, Mexican-American history, working with aides, and "put downs" in education.

Keynote speaker for the institute was Vidal A. Rivera, Jr., of Washington, D.C., who is chief of the U. S. Office of Education's migrant education programs. He addressed a session scheduled yesterday morning in the auditorium of Cal Poly's Agricultural Engineering Building.

Objectives of the institute are improved teaching techniques and methods, improved Spanish language skills, and better understanding of the problems of rural-migrant farm workers and their families.

The participants, who were selected by a screening committee earlier this year, are persons recommended by school administrators who will be working with children of migrant workers during 1970-71. They are expected to serve as resource people on education programs for migrant children in their local districts during the year.

The Multi-County Program for Migratory Children is a component of the California Plan for the Education of Migrant Children. Funds for the program's operations are provided by the federal government under provisions of PL 89-10, as amended by PL 89-750.

HIGHER FEES FOR STUDENTS, FACULTY, STAFF (Continued from Page 1)

For the average student registered for six or more units of study this fall, the total cost of basic fees, exclusive of campus parking, room, and board will be $54. The same fees a year ago cost $50. The greatest effect of the newly-announced fee increases will be on part-time students who are enrolled for less than six units of course work. They will pay a total of $51 for basic fees this fall, compared to $24.50 last fall.

Permits for vehicle parking on campus and out-of-state tuition are in addition to the basic fee structure, which includes a Materials and Service Fee, Facility Fee, Associated Students, Inc., membership, and College Union Fee.

A further change in the Materials and Service Fee, which will be $36 per quarter for all students during the Fall Quarter has also been announced. The second revision will place that fee on a sliding scale ranging from $26.50 to $39 per quarter, depending upon the class load being taken, starting with the Winter Quarter in January, 1971.
RENTAL HOME LISTINGS NEEDED FOR NEW FACULTY, STAFF MEMBERS

The housing shortage in San Luis Obispo is creating hardships for new members of the faculty and staff of Cal Poly, according to Larry R. Voss (Director of Personnel Relations). Voss said last week that many members of the faculty who will begin their duties next month are experiencing difficulty in locating houses, apartments, and duplexes available for rent.

Even though they have been advised of the critical housing situation, they arrive in the San Luis Obispo area with their families and are not prepared for a lengthy search for appropriate homes, the personnel officer added.

Voss asked persons who have home rentals available in any area within commuting distance of Cal Poly to list them with the Personnel Office, 546-2236, Adm-111. Most critically needed, he said, are two and three-bedroom houses, apartments and duplexes. Homes of other sizes are also needed.

The Cal Poly personnel director emphasized that listings received in his office will be made available to members of the college faculty and staff only. Student housing listings are maintained by the Housing Office of the college's Student Affairs Division.

Voss said a total of nearly 100 persons are expected to begin their new duties as members of the Cal Poly faculty and staff in September. In the interest of good faculty morale and community hospitality, Voss said the college is desirous of having all of its new faculty members adequately located prior to start of the Fall Quarter.

AIR POLLUTION CONTROL PROGRESS IS KEYNOTE TOPIC FOR SHORT COURSE

Recent progress in the state-wide fight to combat California's air pollution problems was the topic of the keynote address for a week-long short course on air pollution, which opened Monday (Aug. 24) at Cal Poly. On hand to hear the address by George J. Taylor of Sacramento, chief of the state Air Resources Board's Bureau of Air Sanitation, and participate in the short course, which will run through Friday (Aug. 28) are some 60 high school and community college engineering and science teachers from throughout California.

Harold Cota (Environmental Engineering Department), director of the program, said it is being financed with part of a $10,755 grant to the college from the National Air Pollution Control Administration. A similar grant from NAPCA, an agency of the U. S. Public Health Service, made a similar short course at the college last summer possible.

Programmed for this week's program are other discussions, seminars, talks, and demonstrations on such topics as air pollution causes and effects as they relate to automobiles, weather, agriculture, and human health; biological, legal and socio-economic aspects of air pollution control; and methods of controlling air pollution. Also scheduled will be studies in atmospheric chemistry, analytical techniques, instrumentation, air quality, and career opportunities in atmospheric conservation.

Dr. Cota said participants for the short course, which is being sponsored by the Cal Poly Environmental Engineering Department, were selected from applications received earlier this year after a state-wide announcement. Members of the college faculty, representatives from industry, and persons from government agencies who are active in air conservation, are scheduled to address sessions during the event.
STATE BUDGET CUTS POSE PROBLEMS FOR FOREIGN STUDENTS

Cuts in the 1970-71 budget of the California State Colleges will have serious consequences for the foreign student program at Cal Poly. Everett Chandler (Dean of Students) said last week that foreign students attending Cal Poly will be more than ever dependent upon support from the community.

Many of the foreign students now attending Cal Poly will be unable to continue unless they are able to find local part-time employment or other means to meet the expenses of attending college. Dean Chandler said no local fund drive is planned by the college to assist foreign students, due to the lack of personnel and the large number of foreign students attending Cal Poly.

In July the state Legislature eliminated 48.3 foreign student counselor positions throughout the nineteen-college state system. For Cal Poly the $534,880 statewide cut resulted in the reduction of 4 authorized positions -- the foreign student counselor, two professional counselors, and a secretary -- a total of $46,575.

During the Fall Quarter of 1969 there were 508 foreign students attending Cal Poly; for Fall Quarter, 1970, the college plans to hold foreign student enrollment to the same figure. Many of the returning foreign students who had hoped to finance their college education through summer employment have been hard hit by the widespread lack of summer jobs for college students.

Foreign Student Operations Transferred

The loss of the four positions at Cal Poly completely cuts out the Foreign Student Office operation, except for foreign students attending the college on government contracts who will receive special advisement and supervision from the International Education Office, which is largely federally funded in connection with Cal Poly's overseas contract programs sponsored by the U.S. government. However, all foreign students will continue to be eligible for the services of the Placement and Financial Aids Office which has in the past located part-time positions on and off campus for some foreign students.

"Before we had an active foreign students office at Cal Poly, the faculty wives and various voluntary community organizations actively assisted foreign students at Cal Poly," Dean Chandler noted. "Since we will no longer be able to coordinate the host family program, assist foreign students who are in search of housing in the community, locate students willing and able to speak to community groups and service clubs, and similar activities, it will be up to the community and student organizations to determine what can be done."

In addition to the cutback in local services, foreign student tuition had been a total of $255 for the Fall, Winter, and Spring Quarters last year, but will be raised to $600 for that same period this year, effective with the Fall Quarter. He said a small scholarship fund for foreign students amounting to $200 or $300 is not expected to go very far in meeting the needs of those attending the college.

Anyone wishing to make a contribution to the scholarship fund for foreign students at Cal Poly may do so by sending their check to the Dean of Students Office on campus.
COMING EVENTS -- COMING EVENTS -- COMING EVENTS

Peace Corps Training -- Continuing through Sunday, Aug. 30, all day, Poultry Unit. Special short course in poultry hatchery management for Peace Corps trainees preparing for service in India; hosted by Cal Poly's School of Agriculture and Poultry Industry Department.

Accountants Conference -- Continuing through Thursday, Aug. 27, all day, Music, Speech, and Drama Building. Annual conference and workshop for members of the Society of California Accountants; hosted by the Business Administration Department. By advance registration.

Teachers of Migrant Children Program -- Continuing through Friday, Aug. 28, all day, Agricultural Engineering Building. Institute for some 150 teachers of migrant children from the Southern San Joaquin Valley and Central Coast Areas; sponsored by the California State Department of Education and hosted by the Cal Poly Education Department. By advance registration.

Air Pollution Control Course -- Continuing through Friday, Aug. 28, all day, Air Conditioning Building. Short course on air pollution control for 59 high school and community college science and engineering teachers from throughout California; sponsored by the Environmental Engineering Department. By advance registration.

Final Exams -- Continuing through Thursday, Aug. 27, all day, campus. Summer Quarter final examinations for Cal Poly students attending the Summer Quarter.

End of Summer Quarter -- Thursday, Aug. 27. End of the 1970 Summer Quarter for Cal Poly students and faculty.

Academic Holiday -- Friday, Aug. 28, through Sunday, Sept. 13. Academic holiday between the Summer and Fall Quarters for Cal Poly students and faculty.

State Farm Bureau Board Meeting -- Monday through Wednesday, Aug. 31-Sept. 2, all day, Staff Dining Room. Regular meetings of Staff and Board of Directors of the California State Farm Bureau; hosted by the School of Agriculture and Natural Resources. By invitation.

Labor Day -- Monday, Sept. 7, all day. State holiday recognizing Labor Day for all employees of Cal Poly; only essential services will be in operation.

Admission Day -- Wednesday, Sept. 9, all day. State holiday recognizing admission of California to the United States; only essential services will be in operation.

WOW Program -- Sunday through Sunday, Sept. 13-20, campus and Camps Ocean Pines and Pinecrest near Cambria. Annual orientation and familiarization programs for new Cal Poly students; sponsored by Cal Poly's Associated Students, Inc.

Faculty-Staff Conference -- Monday through Saturday, Sept. 14-19, all day, campus. Annual pre-Fall Quarter conference program for members of the Cal Poly faculty and staff. See detailed program for information on individual events.

Fall Quarter Registration -- Wednesday, Sept. 16, 12 noon to 6 p.m., and Friday, Sept. 18, 8 a.m. to 6 p.m., Men's Gymnasium. Registration for Fall Quarter classes for new and graduate students on Wednesday and continuing students on Friday.

Fall Quarter Classes Begin -- Monday Sept. 21, all day, campus. Start of Fall Quarter Classes for all members of the Cal Poly faculty and student body.
ACTING PRESIDENT APPOINTED FOR SONOMA STATE COLLEGE

Earl W. Jones, executive vice president of San Francisco State College, has been appointed acting president of Sonoma State College by Chancellor Glenn S. Dumke of The California State Colleges. Jones' appointment was effective Aug. 10. He succeeds President Ambrose R. Nichols, who in February announced his resignation effective this summer and who will join the Chemistry Department at Sonoma State next year.

The new acting president had been at San Francisco State since 1954, initially as a half-time instructor and since 1962 as a full-time associate professor of music. He became a member of the college's Academic Senate in 1967. In 1969, Jones was named by San Francisco State President S. I. Hayakawa as assistant executive vice president and then executive vice president.

Jones received his bachelor's degree in 1942 from Ithaca College in New York. He received his master's degree from Indiana University in 1948 and has completed additional graduate work. He served as chairman of the Division of Fine Arts at Union College in Kentucky from 1950 until moving to California two years later.

REQUESTS ON MAILING, DUPLICATING SERVICES ISSUED BY GENERAL OFFICE SUPERVISOR

A series of requests designed to facilitate the mailing and duplicating services offered to faculty and staff members by the Business Affairs Division was issued last week by Mrs. Lucy Schmidt (Supervisor of the General Office). Mrs. Schmidt asked that:

-- Those who use the mail room or campus mail system to deliver mail for the U. S. Post Office in San Luis Obispo provide a return address on all such mail. Doing so makes it easier to contact the sender if for some reason it becomes necessary.

-- Those who order duplicating services from the Duplication Center indicate their department name, the exact instructions (i.e., to be run back-to-back, stapled, color of paper, etc.) on each duplicating order. That practice will make it possible to give better service and assure that work is charged to the proper account.

-- Those offices and persons who have supplies of interdepartmental mail envelopes in excess of their current needs return them to the General Office so they can be reused.

FLORAL ARRANGEMENTS AVAILABLE AT O H UNIT FLOWER SHOP

Ready-made flower arrangements may be purchased at the Flower Shop of the Ornamental Horticulture Unit located on Campus Way near the Horse Unit. Custom-made arrangements may also be ordered for purchase by members of the college faculty and staff. The Flower Shop is open from 1 to 5 p.m., Monday through Friday, and from 8 a.m. to 5 p.m., on Saturday.

Typewritten copy intended for the next issue of Cal Poly Report must be received prior to 12 noon Tuesday, Sept. 8 in the Office of Information Services, Adm-210.
FACULTY-STAFF CONFERENCE, W 0 W ACTIVITIES WILL KICK OFF FALL QUARTER

Activities of the traditional Faculty-Staff Conference and Week of Welcome, scheduled September 14-19, will officially kick off 1970 Fall Quarter activities for members of the Cal Poly student body, faculty, and staff. Full schedules for both have been planned and programs are presently being prepared for mailing to all of those involved.

The schedule for the Faculty-Staff Conference has been revised somewhat from that used in recent years. Among highlights of that program will be the convocation, during which President Robert E. Kennedy will address the entire faculty and staff of the college, on the opening day (Monday, Sept. 14) and the ranch style luncheon, which will follow the convocation. The convocation will take place in Mustang Stadium and the luncheon, in Poly Grove.

The program for the annual Week of Welcome of the Associated Students, Inc., is packed with activities planned to help new students become acquainted with both the college and with campus life. In addition to social events, orientation sessions with various school deans, department heads, and members of the Student Affairs Division staff are planned. Vehicle for much of the new students' activity will be the WOW clubs, which are lead by returning students.

Registration for Fall Quarter classes will take place on a divided schedule for the first time this fall. New and graduate students will sign up in the Men's Gymnasium the afternoon of Sept. 16, and returning students will get their turn to register throughout the day on Sept. 18, also in the Men's Gym. A session designed to aid students who were unable to complete full class schedules during those registration sessions is planned for the morning of Sept. 19 in the same location.

18 INITIATED AS MEMBERS OF ENGINEERING HONOR SOCIETY

Eighteen young men who received their bachelor's degrees in electronic engineering in June have been initiated as members of the new Cal Poly campus chapter of Eta Kappa Nu Association. They were inducted recently as members of the national honorary society for electronic engineering students.

Outstanding men from the junior and senior classes are elected to membership in the association, which has more than 100 campus chapters across the nation, according to E. R. Owen (head of the Electronic Engineering Department). To be eligible for membership they must exhibit good scholarship, character, voluntary services, and distinguished accomplishments which indicate that they will become successful engineers.

FOOTHILL BLVD. WILL GET NEW SURFACE NEXT MONTH

The portion of Foothill Blvd. between Santa Rosa and California Sts. near the Cal Poly campus will get a new blanket surface next month, according to information received from the City of San Luis Obispo. It is expected any disruption of the flow of traffic will be only of a temporary nature. Work on the project will hopefully be completed by Sept. 18.
STATEMENT ON PRESIDENT'S COMMISSION ON CAMPUS UNREST ISSUED BY CHANCELLOR DUMKE

Chancellor Glenn S. Dumke of The California State Colleges earlier this month issued the following statement regarding the President's Commission on Campus Unrest which has been conducting hearings across the nation:

"If higher education in this country is to be preserved, public confidence in it must be restored. The report by the President's Commission on Campus Unrest, scheduled for completion at the outset of the Fall Semester can have far reaching influence on the attitude of the public toward higher education in the coming year. I am sure that President Nixon and all the people of this country are deeply concerned about the gravity of the issues the Commission is studying nationwide. I am confident that they look to the Commission for the broadest picture possible.

"Reports on the work of the Commission in California lead me to believe that the public is receiving a poorly balanced picture. It appears that the Commission has concentrated, with certain exceptions, on the reasons for dissidence at institutions where violence has taken place. It appears that the Commission has largely overlooked, again with few exceptions, those institutions and systems like The California State Colleges which by firm, reasonable, consistent and successful policies, have done much to warrant restoration of the public's confidence.

"The war against campus violence is not being lost everywhere. In many institutions it is being won. The people of this country deserve nothing less than the whole story, and our institutions--the students, the faculty, and the administrators concerned--are hoping the Commission's report will present the positive side of that story--a side which, within The California State Colleges especially, I feel is so worthy of public recognition and confidence."

WHO . . . WHAT . . . WHEN . . . WHERE ? ? ?

Charles W. Quinlan (School of Architecture) and Lachlan P. MacDonald (Director of Information Services) are members of a citizens committee appointed by the City Council of the City of San Luis Obispo for the purpose of advising the council on matters connected with the city's advertising program and expenditures from the city's bed tax fund.

Timothy M. Barnes (History Department) has been notified of completion of all requirements for his Doctor of Philosophy Degree in history by the University of New Mexico in Albuquerque. Dr. Barnes joined the Cal Poly faculty last fall after having been a graduate assistant at UNM and an instructor at University of Albuquerque.

Three members of the Cal Poly Men's Physical Education Department faculty are taking part in the first annual Explorer Scout Olympics at Colorado State University in Ft. Collins, this week. Dr. Robert Mott (Head of Men's Physical Education Department) and Richard Anderson and Stuart Chestnut (both Men's Physical Education Department) are all scheduled to present clinics during the program.

Bruce Kennelly (Head of Chemistry Department) attended the Southern California Section Meeting of the American Chemical Society Conference in Los Angeles July 31 and Aug. 1. Discussed during the gathering were latest statistical data concerning the future needs of business and industry for chemists.
CAL POLY'S MOHINDER GILL CHOSEN CCAA ATHLETE-OF-THE-YEAR

Triple jump star Mohinder Gill of Cal Poly has been named as the California Collegiate Athletic Association Athlete-of-the-Year for 1970, according to an announcement from conference publicist Wayne Welk. Gill, who helped the Mustangs to an unprecedented third straight NCAA College Division national track championship in June, is the first SLO athlete to win the honor in the six-year history of the award.

Gill, a 23-year-old sophomore business administration major, added the National Collegiate Athletic Association University Division championship and the College Division national crown to his list of accomplishments. He was the only CCAA athlete to win a NCAA University Division crown in 1969-70 sports year.

The native of Chandigarh, India, set new records at both the Easter Relays in Santa Barbara in March (52-7½) and the Kennedy Games at Berkeley in May (52-4½). After winning the prestigious California Relays at Modesto with a leap of 52-9¼, he went on to capture NCAA College Division honors at St. Paul, Minn., with a 51-4½ effort and annexed the NCAA University Division crown at Des Moines, Iowa, with a jump of 51-9¼.

CANDIDATES FOR PERS BOARD VACANCY BEING SOUGHT

The Public Employees Retirement System has announced an opening for a member to fill an existing vacancy on the PERS Board of Administration. Candidates must come from among active and retired members of the system. The person elected will serve a four-year term beginning Jan. 16, 1971.

Nominations of candidates must be signed by at least 100 eligible members of PERS and should be sent to the PERS Board of Administration, 1416 Ninth St., Sacramento, on or before Sept. 1. Nominations may be by informal letter but must be typewritten, giving the first name, middle initial, last name, social security number, and the agency where the employee is employed. Those 100 or more eligible members signing the nominations must have their name typewritten or printed beneath the signature along with the individual social security number. Nominees will receive forms from the system to complete and return.

The California State Colleges are presently not represented on the Board of Administration. Those who wish to sponsor candidates for this opening may obtain additional details by contacting the Personnel Office, 546-2232, Adm-111.

SPECIAL ISSUE OF "REPORT" DUE SEPT. 11; RESUMPTION OF REGULAR SCHEDULE SLATED

Plans for a special "back-to-school" issue of Cal Poly Report to be published on Sept. 11, the day on which most academic faculty and staff members are scheduled to return to begin preparation for the Fall Quarter, have been completed. Deadline for receipt of typewritten copy intended for that edition in the Information Services Office, Adm-210, will be 12 noon, Sept. 8. Resumption of the weekly publication schedule for Cal Poly Report is planned for Sept. 22. Deadline for typewritten copy for regular editions of Cal Poly Report is 12 noon on the Friday preceding publication.
VACANCIES ON COLLEGE SUPPORT STAFF LISTED BY PERSONNEL OFFICER

Twenty vacant positions on the support staff of the college have been listed by S. Milton Plum (Staff Personnel Officer). All are posted in greater detail on the bulletin board located in the Personnel Office, Adm-111, 546-2236. They are:

Departmental Secretary I-B ($258.50-$314.00) (one-half time), Special Programs Office, Administration.

Clerical Assistant II-A ($457-$556), Audio-Visual Department, Academic Affairs.

Clerical Assistant II-A ($457-$556), Library, Academic Affairs.

Clerical Assistant II-B ($492-$599), Social Sciences, School of Business and Social Sciences.

Clerical Assistant II-A ($457-$556), Social Sciences, School of Business and Social Sciences.

Clerical Assistant II-B ($492-$599), School of Architecture.

Intermediate Account Clerk ($228.50-$265.00) (one-half time), Accounting Office, Business Affairs Division.

Clerical Assistant II-B ($492-$599), Admissions Office, Student Affairs Division.

Clerical Assistant II-B ($492-$599), Placement/Financial Aids Office, Student Affairs Division.

Technical Assistant II ($556-$676), Biological Sciences Department, School of Science and Math.

Tractor Operator-Laborer ($683-$753), Crops Department, School of Agriculture and Natural Resources.

Parking Officer ($535-$651), Security, Business Affairs Division (two positions).

Clerical Assistant II-A ($457-$556), Accounting Office, Business Affairs Division.

Clerical Assistant II-A ($457-$556), Counseling Center, Student Affairs Division.

Senior Clinical Laboratory Technologist ($421.00-$511.50), Health Center, Student Affairs Division.

Clerical Assistant II-B ($492-$599), History Department, School of Communicative Arts and Humanities.

Clerical Assistant II-B ($492-$599), Philosophy Department, School of Communicative Arts and Humanities.

Departmental Secretary I-A ($505-$614), Home Economics Department, School of Human Development and Education.

Departmental Secretary I-B ($517-$628), Dairy Science and Poultry Industry Departments, School of Agriculture.

Senior Clerk ($548-$666), General Office, Business Affairs Division.
SAVINGS ON FOOTBALL TICKETS AVAILABLE TO FACULTY, STAFF MEMBERS

Faculty and staff personnel can realize a savings of 50 per cent on purchase of 1970 season tickets for Cal Poly Mustang home football games when they purchase an Associated Students, Inc. associate membership. The $10 associate ASI card entitles holders to not only purchase football tickets at reduced prices but admits the owners to all ASI-sponsored events such as concerts and drama productions at student prices.

With an associate membership card faculty and staff may purchase one season football ticket for $7.50 and each additional ticket for $10. Season tickets are priced at $15 to the general public.

After a faculty or staff member has purchased an associate membership for five consecutive years, he or she receives the associate ASI membership free for as long as he or she remains on the faculty or staff of the college. Associate memberships and season football tickets are on sale now at the Temporary College Union.

LOWER CAMPUS ELECTRICAL SHUTDOWN SLATED SEPT. 1-3

Electrical service in the lower campus area will be off on Sept. 1, 2, and 3, according to an announcement issued last week by Robert R. Adams (Chief of Plant Operation). The outage, which will be from 8 a.m. to 6 p.m. on those dates, will be affected so that a contractor on a campus site development project can complete needed work in several electrical manholes.

Buildings and facilities effected by the electrical shutdown will include the Business Administration and Education Building; Air Conditioning Building including Engineering Auditorium; Post Office; Cottages 1, 2, and 3; Crandall Gymnasium; Mustang Stadium; the Natatorium; Chase, Deuel, Heron, and Jespersen Residence Halls; the Graphic Arts Building; Dexter Library; the Old Power Plant, and Pump House 1.

EL CORRAL STORE WILL BE CLOSED NEXT WEEK

El Corral College Store, Cal Poly's campus book store, will be closed all of next week (Aug. 31-Sept. 5), according to an announcement issued last week by Mrs. Mary Lee Green, manager of the store. Cause of the closure, according to Mrs. Green, is the electrical power outage, which will affect many lower campus areas Sept. 1-3. El Corral will be open all of the following week (Sept. 7-12), when it would have normally been closed for the Labor and Admissions Day holidays on Sept. 7 and 9.

COPIES OF ANNUAL REPORT OF STATE COLLEGES ARRIVE ON CAMPUS

A very limited number of copies of The California State Colleges 1968-69, an annual report for the state college system, arrived on campus last week. After routing to appropriate members of the college academic and administrative staff, a copy will be placed in the college library, where it will be available to other faculty and staff members for their perusal.
National Science Foundation Equipment Grant

The purchase and installation of gas chromatographic equipment obtained by an NSF matching equipment grant was completed this summer. Dewey Sampson, Processing Department, had submitted a final report stating that the equipment will be used in courses using food chemistry, meat technology, nutrition, and pesticide expertise.

Letters of Intent for EPDA Due September 15

The Bureau of Educational Personnel Development has published guidelines for applications to the 1971-72 program under Parts B, C, D and F. Although these sections are not directed to the training of higher education personnel there are many opportunities for the involvement of two-year colleges.

The most significant change in the procedure for application is that the Bureau is requesting that institutions who are interested in applying should write a short and informal letter indicating the interest and the capacity of the institution to undertake the program and its interest in applying in subsequent years of funding is not available.

Among the programs for 1971-72 are:

- Career Opportunities Program
- Teacher Corps
- Training of Teacher Trainers Program
- Training Complexes Program
- Early Childhood Program
- Special Education Program
- Teacher Development for Desegregating Schools Program

For further information contact:

U.S. Department of Health, Education and Welfare
Office of Education
Bureau of Educational Personnel Development
Washington, D.C.

General Electric Foundation, Crotonville, P.O. Box 791
Ossining, New York 10562

Background: Established in 1952 by the Board of Directors of the General Electric Company, the General Electric Foundation funds are used for "charitable, scientific, literary and educational purposes." Education has been the principal beneficiary of G.E.F. support. Financial assistance to colleges and universities for the year 1968 totaled $2,215,828.
General Electric Foundation (cont'd)

Higher Education Programs: (selected examples)

1. Equipment Assistance Program - Certain equipment of G.E. manufacture is made available to colleges at special educational prices for instructional and research purposes. Occasional appropriations also assist such purchases. In 1969, equipment assistance contributions totaling $523,202 were approved for 108 colleges.

2. Graduate Research and Study Grants Program - These relatively unrestricted grants provide broad support for graduate education.

3. Corporate Alumnus Program - This year $640,000 is earmarked for matching contributions, up to $2,000 made by any G.E. employee to any college of his choice.

Program Philosophy: The General Electric Company believes that education is the root-system of all human progress and thus, it assists education as an act of enlightened self interest. It seeks programs which 1) stimulate innovation and improvements in educational methods; 2) embody a multiplier element by which benefits tend to be spread to many beyond the recipient; 3) need seed money to get started but will eventually be continuous and self-supporting; 4) encourage higher levels of excellence and 5) assist in achieving a better geographical balance of superior educational programs.

Application Procedure: There is no set procedure for application. Interested colleges should send a brief letter describing their plan, its objectives, the cost and evaluation format to the foundation. If the foundation is interested, it will contact the institution.

Deadlines Listed for Awards in the Humanities and Social Sciences

A list of competitions for faculty research support in the humanities and social sciences with deadlines falling between September 1, 1970 and January 31, 1971 has been received in the Office of the Director of Research.

The list was prepared by the Office of Research Services, University of Wisconsin. It covers fellowship and grant awards of private foundations, professional organizations and federal agencies. It includes the AAUW Fellowship Program for Women, the Arnold W. Brunner Scholarship (architecture), the fellowships of the Center for Advanced Study in the Behavioral Sciences (Stanford) and the ACLS Grants-in-Aid.

NATO Senior Fellowship Competition Requires Institutional Nomination

Again this year the National Science Foundation will administer the NATO Senior Fellowship Program in Science. Approximately 20 awards will be made during 1971 to enable U.S. scientists to study new scientific techniques and research developments in other NATO nations.

Award tenure is limited to one to three months. The award provides a per diem allowance and transportation expenses. An institution may nominate only one individual and all application materials must be received by the NSF no later than January 31, 1971.
