REVIEW OF SABBATICAL LEAVE REQUESTS NEARS COMPLETION

Dale W. Andrews (Academic Vice President) announced this week that the review process for 1971-72 sabbatical leaves is nearing completion. The announcement pointed out that an Academic Council committee and the Academic Senate Personnel Review Committee have been reviewing the 34 applications submitted. Dr. Andrews indicated that letters of notification will be sent to the sabbatical leave applicants on approximately Jan. 5.

Vice President Andrews' announcement also indicated that it appears there will be fewer leaves available this year than during previous years. The 1971-72 state college budget request contains provisions for 1 leave for every 13.4 eligible faculty members. In the case of Cal Poly this amounts to leaves for 8 man-years, or a total of 16 years. The previous level, which was reduced by legislative action on the 1970-71 budget, was 1 leave for every 7.5 eligible faculty members.

However, the Chancellor's Office has included a program restoration package for the 1971-72 budget, including a request for restoration of the sabbatical leave funds to the previous funding level. Because of the reduction in funding and considering the number of applicants, a priority list will be established ranking the candidates according to the merits of each case.

Dr. Andrews said that actual budget provisions for sabbatical leaves will not be known until the legislature and the governor have acted upon the 1971-72 budget and that action on sabbatical leave applications at this time will have to be taken within that framework.

CENTURY CITY SITE SELECTED FOR C S C HEADQUARTERS

Century City, in Western Los Angeles, has been selected as the future headquarters site of The California State Colleges by the colleges' Board of Trustees, subject to:

- Completion of the necessary contractual and related documents in a form satisfactory to the Chancellor.

- Consultation with and approval of the Department of General Services and the Department of Finance.

Selection of the site, in a building estimated for completion in Dec., 1972, was announced by Board Chairman E. Guy Warren and Chancellor Glenn S. Dumke.

Trustees in September narrowed a list of seven possible sites to areas in Long Beach and Century City, describing these as "the most suitable of the sites under consideration."

Criteria issued in 1969 listed factors in choosing a new headquarters including accessibility to surface and air transportation; proximity to large numbers of campuses; freedom from noise; natural features; availability of utilities; cost; zoning; recruitment potential for staff; retention of staff, and proximity to educational centers and to housing.
