REPORT ON ACTION TAKEN DURING NOVEMBER MEETING OF TRUSTEES

The Board of Trustees of The California State Colleges took the following actions at its meeting held on Nov. 24, 1970 in Los Angeles:

-- Named Chancellor Glenn S. Dumke as the state college representative to the Coordinating Council for Higher Education, with Board Chairman E. Guy Warren as alternate, for a one-year term. Action taken in accordance with recent legislation concerning composition of the CCHE.

-- Requested the Statewide Academic Senate to develop a code of professional ethics and to make recommendations on a system of post-tenure review for board consideration in Jan., 1971.

-- Adopted a new faculty salary structure, and requested funding in the 1971-72 Support Budget to convert to the new structure, effective Sept. 1, 1971.

-- Authorized the Committee on Faculty and Staff Affairs on behalf of the board to request of the governor and the legislature sufficient funds for 1971-72 to achieve: (1) comparability of salaries for state college support staff classes with those or related classes in the state civil service, other public jurisdictions, and in private industry; (2) proper alignment of salaries of positions within the state college system; and (3) correction of salary inequities during the 1971-72 fiscal year.

-- Reaffirmed board policy that the president of each state college is responsible for the appointment and supervision of department chairman, and that they serve at his pleasure.

-- Increased the rate of tuition for new foreign students to the rate charged other nonresident students ($1110 per academic year), commencing with the 1971 Winter Quarter and Spring Semester. For those foreign students currently enrolled or accepted for admission the rate remains at the current rate of $600 for all academic terms prior to 1974-75, provided the student is in continuous full-time attendance and has not been awarded a degree from the state colleges prior to the 1970-71 academic year. In the 1974-75 fiscal year, all foreign students will pay the same rate of tuition as other nonresident students.

-- Requested the chancellor to investigate sources of further financial support for foreign students through the appropriate agencies of the U. S. government, and indicated that programs of full and partial tuition waivers for a limited number of foreign students attending the state colleges should be continued.

(Continued on Page 2)
REPORT ON TRUSTEES' ACTION . . . (Continued from Page 1)

-- Amended Title 5, California Administrative Code, Section 42659 -- adding to the approved uses of student body organization funds subdivision "(o)": "Child day care centers for children of students and employees of the college."

-- Resolved that the proposed legislation establishing an activities fee and the State College Activities Revenue Fund, as recommended by the Subcommittee of the Committee on Educational Policy, be adopted as part of the board's legislative program. Further resolved that upon the adoption of a fee as authorized by that legislation at a particular college, provision be made for a corresponding reduction in the mandatory student body fee.

-- Resolved that state college-owned land may be made available at a nominal rate for a long-term lease to a private developer for the purpose of constructing and operating college housing facilities when the project meets the principles and criteria established by the board. Further resolved that Cal Poly, San Luis Obispo, and the chancellor are authorized to proceed with the necessary documents permitting implementation of the college's married student housing project.

-- Approved Campus Master Plan revisions for Cal Poly, San Luis Obispo and California State College at Long Beach.

-- Appointed Robert Alexander and Associates of Los Angeles as project architect for the Health Center Addition at Cal Poly, San Luis Obispo.

-- Deferred action on the board's definition of academic freedom.

-- Defeated proposed amendment to the regulation pertaining to the referendum abolishing student body fees.

-- Discussed in committee but took no action on use of campus facilities, political activity, recognition of student organizations, final authority of the Board in disciplinary matters, and code of conduct.

REGISTRATION REMINDER FOR FACULTY, STAFF WHO PLAN TO ENROLL FOR WINTER CLASSES

Faculty and staff members are reminded that if they wish to enroll for classes during the Winter Quarter, the Registrar's Office will assist them with their registration. Those who will be enrolling should complete their registration books and leave them at the Registrar's Office, Adm-219, before Thursday (Dec. 10). Any student (or faculty or staff member) who has not enrolled during the Summer or Fall Quarters must clear through the Admissions Office, Adm-206, before he or she can enroll for the Winter Quarter.

RECORDS OFFICE WILL BE OPEN SATURDAY MORNING

The college Records Office, Adm-222, will be open from 8 a.m. to 12 noon on Saturday (Dec. 12) to receive students' Fall Quarter grades from members of the faculty, according to an announcement issued by F. Jerald Holley (Director of Admissions and Records).
CAMPUS ADDRESS BY BUCKMINSTER FULLER SLATED JAN. 7

The mastermind of the geodesic dome, R. Buckminster Fuller, will address an audience composed of students and faculty of Cal Poly and the public on campus on Jan. 7. His appearance will take place in the Men's Gymnasium starting at 8:30 p.m. Fuller is internationally acclaimed as an architect, scientist, author, philosopher, engineer, and mathematician. In recent years he has become known for his outspoken opinions concerning environmental problems.

Born in Milton, Mass., in 1895, and educated at Harvard University and the U.S. Military Academy, he is one of the most honored individuals the world has known in recent years. Beside being honored by societies and governments in nations throughout the world, Fuller has addressed some 45 international or national professional groups in recent years and has spoken at nearly 250 different colleges, universities, and schools around the world.

Fuller, presently a member of the Southern Illinois University faculty, has also received 13 awards of merit from such groups as the American Institute of Architects, the U.S. Marine Corps, the Triennale de Milan in Italy, and the Society of Mexican Architects, and more than 20 honorary degrees from colleges and universities. The author of 7 books and himself the subject of 2 more, the outspoken Fuller has also written nearly 100 magazine and professional journal articles in the past 10 years.

Although he is credited with a number of innovations, the most famous of his developments is the geodesic dome, which has been used to house U.S. Marines from Antarctica to Okinawa, as protection for radar antennae along 4,500 miles of the Distant Early Warning defense line, as housing for trade fair exhibits, and as play domes for children.

The Jan. 7 program at Cal Poly is being sponsored by the Speakers Forum Committee of the Associated Students, Inc. General admission tickets, priced at 75 cents for ASI members and $1.50 for all others, will go on sale throughout the San Luis Obispo area soon after Jan. 1.

CHANGES IN INNER PERIMETER RD. TRAFFIC FLOW ANNOUNCED

Inner Perimeter Rd. will be closed except to authorized persons and the 12 parking spaces inside the road (11 at the Science Building and 1 at Science North Building) will be sold as reserved spaces beginning with the Winter Quarter. The rate for reserved parking is $5 per month or $15 per quarter. Spaces will be allotted on quarter basis and limited to faculty and staff. Priority in reservation of the spaces was given to faculty and staff working in the two science buildings. There are four spaces remaining which will be allotted on a "first-come, first-served" basis. Permits will be issued by the Cashier's Office, Adm-131C.

Donald S. Nelson (Director of Business Affairs), who announced closure of the roadway, said entry to the Inner Perimeter Rd. will be through an electronically-controlled gate located at the south end of Parking Lot E-11 (west of Erhart Agriculture Building). Traffic will flow one way and turn left after passing through the gate. Exit will be made by coming around to the gate via Campus Way (between the Science Building and the rear of Engineering East Building). One-way traffic is necessitated by the narrowness of the Inner Perimeter Rd. in the area of the new College Union Building.

Staff and faculty who will require entry to Inner Perimeter Rd. for the purpose of loading and unloading instructional materials may sign out a gate card at the Security Office. Gate cards may be kept out for a maximum of three hours.
HOLIDAY ROAD TRIPS BEGIN FOR MUSTANG CAGE, WRESTLING TEAMS

Cal Poly's varsity basketball and wrestling teams used one of their most successful weekends of competition in many months to tune up for the next month which will see them take the road for extended trips into the Eastern and Midwestern states to meet an impressive list of college and university opponents.

Head Coach Vaughan Hitchcock's Mustang wrestlers posted a pair of impressive tournament victories last weekend. A unit consisting primarily of veterans of last year's national championship team copped four individual championships, four seconds, and a third to easily outdistance a strong field that included Oregon State University at the University of Arizona Invitational Wrestling Tournament in Tucson.

A second unit was equally as strong in its showing at the Northern California Invitational Wrestling Tournament in San Jose. It grabbed five individual titles and easily topped a field that included all of the college and university teams in the Northern California area.

The best of the Cal Poly grapplers will be in action in three states before the team returns to campus to host nationally-ranked University of Oklahoma on Jan. 13. The Mustangs will be at U. S. Naval Academy tomorrow (Wed., Dec. 9), Springfield College on Thursday (Dec. 10), New York Maritime Academy on Friday (Dec. 11), and the U. S. Military Academy on Saturday (Dec. 12). All four are nationally ranked.

Cagers Cop Aggie Crown

Head Basketball Coach Neale Stoner's charges came through with a championship effort of their own last week when they bested California State College at Hayward (99-73) and St. Mary's College (77-73) and finished in front of the field in the first annual Aggie Invitational Basketball Tournament in the Men's Gymnasium. Senior Guard Lew Jackson, named the tourney's most valuable player, led the Mustang cagers' effort.

The Cal Poly basketball varsity opens its road series in a road trip that will see it in action against 12 different foes in California, Oklahoma, and Louisiana before it returns to the hardwood in the Men's Gymnasium against Sonoma State College on Jan. 23. After meeting the University of California at Santa Barbara in Goleta Saturday (Dec. 12) night, the Mustangs will meet Oral Roberts University in Tulsa on Dec. 19, Centenary College in Shreveport on Dec. 21, and Louisiana State University in New Orleans on Dec. 22.

The only sports action scheduled on campus prior to the end of 1970 will find Cal Poly's freshman basketball team competing for the first time in the Mid-State Holiday Basketball Tournament, which will take place this Thursday, Friday, and Saturday (Dec. 10-12) in the Men's Gymnasium.

Games matching the Colts, host Cuesta College, and teams from Alan Hancock College of Santa Maria, Santa Barbara City College, Mira Costa College of Oceanside, Skyline College of San Bruno, West Hills College of Coalinga, and College of the Desert of Palm Desert are scheduled for each afternoon and evening. The Cal Poly freshmen quintet will meet College of the Desert at 9 p.m., Thursday, in its first contest in the tourney.

Typewritten copy intended for the next issue of Cal Poly Report must be received prior to 12 noon Tues., Dec. 29, in the Office of Information Services, Adm-210.
COMING EVENTS -- COMING EVENTS -- COMING EVENTS

Final Examinations -- Monday through Thursday, Dec. 7-10. Fall Quarter final examination period for members of Cal Poly student body and faculty.

Cal Poly Women's Club Foreign Students Section Meeting -- Thursday, Dec. 10, 7:30 p.m., Dexter Library Building Room 129. Annual Christmas party for Cal Poly foreign students and their families. Members and their families and foreign students and their families invited.

Christmas Academic Holiday -- Friday, Dec. 11, through Sunday, Jan. 3. Christmas season academic holiday for members of Cal Poly teaching faculty and student body.

Mid-State Holiday Basketball Tournament -- Thursday through Saturday, Dec. 10-12, afternoons and evenings, Men's Gymnasium. Second annual invitational basketball tournament for community college teams; jointly sponsored by the Cal Poly Block "P" Society and Cuesta College. General admission tickets - adults, $1; students, 50 cents; and children, free.

Governor's Advisory Committee on Scenic Highways Meeting -- Friday, Dec. 11, 8:30 a.m., Agricultural Engineering Building Room 123. Meeting of the Governor's Advisory Committee on Scenic Highways; hosted by the State Division of Highways. Public invited.

Intern Agriculture Teachers' Workshop -- Friday and Saturday, Dec. 11-12, all day, Erhart Agriculture Building Room 222. Workshop for intern agriculture teachers from high schools throughout California; sponsored by Cal Poly's Agricultural Education Department and the State Bureau of Agricultural Education.

FFA Quiz -- Tuesday, Dec. 15, 4 p.m., Erhart Agriculture Building Room 225. Annual cooperative quiz competition for Future Farmers of America representatives from high schools in San Luis Obispo and Santa Barbara Counties sponsored by the Bureau of Agricultural Education of the State Department of Education.

Cal Poly Women's Club Choral Section Meeting -- Tuesday, Dec. 15, 8 p.m., 201 Buena Vista, San Luis Obispo. Christmas caroling and dessert with husbands during meeting of section in home of Mrs. Kenneth Schwartz. Members and their husbands invited.

Christmas College Holiday -- Friday, Dec. 25. Annual college holiday during which Cal Poly offices and operations, except essential maintenance and service functions, will be closed.

New Year's Day College Holiday -- Friday, Jan. 1. Annual college holiday during which all Cal Poly offices and operations, except those essential for maintenance and service functions, will be closed.

Winter Quarter Registration -- Monday and Tuesday, Jan. 4-5, all day, Men's Gymnasium. Registration for Winter Quarter classes for Cal Poly students and faculty.

Winter Quarter Classes Begin -- Wednesday, Jan. 6, all day, campus. Start of Winter Quarter classes for Cal Poly students and faculty.
POINSETTIAS, OTHER PLANTS OFFERED THROUGH SALE AT OH UNIT

The annual Christmas sale by students of the Ornamental Horticulture Department features a special selection of poinsettias in single or triple plant combinations plus azaleas, cyclamen, and chrysanthemums. The plants will be on sale from now until Christmas.

Howard Brown (Head of the Ornamental Horticulture Department) says single poinsettia plants in pots will be offered for $1.50; three plants in a 12-inch pot for $4. Garden variety chrysanthemums in three-inch pots can be maintained as houseplants for three weeks and then transplanted to the garden. The Christmas sale also offers florist chrysanthemums in six-inch pots.

Dr. Brown also invites faculty and staff members to visit the Ornamental Horticulture Unit to view the spectacle of blooming plants. The facility will be open from 1 to 5 p.m. each day this week and from 8 a.m. to 5 p.m. on Saturday and on each day during the academic holiday, except Sundays, Christmas Day, and New Year's Day.

PARKING PERMITS AVAILABLE FOR PURCHASE STARTING TOMORROW

Faculty and staff parking permits for the Winter Quarter will be available beginning tomorrow (Dec. 9) and may be purchased from the State Cashier in the Administration Building (Adm-131C). Annual parking permits are available for Winter and Spring Quarters at $18. Alternate parking permits are available at $1. Approval of the director of business affairs must be secured for purchase of more than one alternate permit. Regardless of the number of permits a person might have, only one of the vehicles can be on the campus at any one time. Parking enforcement will begin on the first day of classes (Jan. 6).

FACULTY AND STAFF FAMILIES INVITED TO PARTY FOR FOREIGN STUDENTS

Cal Poly faculty and staff and their families are invited to join foreign student host families from the San Luis Obispo area in hosting a Christmas party for foreign students of the college on Thursday (Dec. 10) evening. Being planned for 7:30 p.m., in Dexter Lib-129, the annual event is being sponsored by the Foreign Students Section of the Cal Poly Women's Club. Planned during the evening are group singing of Christmas carols led by Mrs. Kenneth Schwartz and accompanied by Mrs. David Montgomery, trimming of the Christmas tree, refreshments, and a personal appearance by Santa Claus. Co-chairmen for the party are Mrs. Dean Piper and Mrs. Harold J. Watson.

HOLIDAY SCHEDULE FOR LIBRARY OPERATIONS LISTED

Operating hours for the College Library have been announced by L. Harry Strauss (College Librarian). Starting Friday (Dec. 11) and continuing through Jan. 5, the Library will be open from 8 a.m. to 5 p.m. on weekdays and from 9 a.m. to 1 p.m. on Saturdays. All Library operations will be closed on Sundays, from Dec. 25 through Dec. 27 and from Jan. 1 through Jan. 3. Regular operational schedules will resume on Jan. 4.

Typewritten copy intended for the next issue of Cal Poly Report must be received prior to 12 noon Tues., Dec. 29, in the Office of Information Services, Adm-210.
WORKSHOP ON ECOLOGY AND ENVIRONMENTAL SCIENCES SCHEDULED THIS WEEK

Curriculum implications for The California State Colleges in the areas of ecology and environmental sciences will be considered Thursday and Friday (Dec. 10-11) by representatives from the 19-campus system. The meeting -- the first of its kind to be conducted by the State Colleges -- is an Invitational Workshop on Curriculum Development in Ecology and Related Environmental Sciences. It will be held in Newport Beach.

"The proper relationship of human life and learning to the complex environment in which we exist has become a major concern of our civilization," Chancellor Glenn S. Dumke stated. "The California State Colleges must -- as realistically as possible -- sort out the curricular implications, in order to identify ongoing academic and professional needs, in terms of both general education and degree majors."

Gerhard Friedrich, state college dean of academic planning, said discussions at the workshop will be directed toward establishing complementary patterns of curriculum development on the campuses. "Many of the State Colleges are already actively involved in this rapidly emerging area of learning, and several of them have become leaders in this field," Dr. Friedrich said.

In addition to faculty and academic planners from the State Colleges, the workshop will include speakers from industry and from state and federal agencies knowledgeable in fields of pollution control and conservation.

RODEO TEAM WILL DEFEND REGIONAL LEAD IN ARIZONA MEET

Cal Poly's men's rodeo team, leading the National Intercollegiate Rodeo Association's Western Region by 1,005 points, will next see action at Douglas, Ariz., this Saturday and Sunday (Dec. 12-13). Cochise College will host the meet which will end collegiate rodeo competition until the spring meets begin in March, 1971.

With four rodeos completed, the team now has accumulated 2,145.5 points. The University of Arizona at Tucson ranks second with 1,039.5 points and Hartnell College at Salinas is third with 560 points.

Melvin Dick of Cal Poly holds the lead on the regional all-around cowboy title with 495 points, pushed by Phil Bidegain of Arizona who has 483.5 points. Larry Ferguson of Cal Poly ranks third with 466 points, and his brother, Tom, fourth with 428 points. Cal Poly performers lead in four of the six competitive events also.

Cal Poly's women's team, all new this year, ranks fourth in the regional standings, with 469 points. The lead is held by the University of Arizona at 862 points.

FUND FOR PAKISTAN RELIEF REACHES $3,212

The Pakistani Student Association at Cal Poly will transmit $3,212.33 to the Pakistan President's East Pakistan Relief Fund as a result of a special fund drive which began Nov. 16 and ended last Friday (Dec. 4). The funds were donated by Cal Poly students and residents of San Luis Obispo County.

Masroor Batta and Ashgar K. Malik, both of Karachi, Pakistan, leaders of the fund drive, expressed their appreciation for "the generosity of the students and residents." The funds are destined to aid the victims of the cyclone and tidal wave which struck the delta area of the Ganges River on Nov. 12. They will be transmitted through the Pakistan Embassy in Washington, D.C.
Larry Voss (Director of Personnel Relations) and Jack Fryer (Foundation Personnel Officer) attended a Labor Relations Workshop which took place recently in San Francisco. The program was co-sponsored by the National Association of College and University Business Officers and the College and University Personnel Association. It included discussions on affirmative action, unemployment compensation, and collective bargaining.

Orvin E. Wagner (Physics Department) delivered a paper titled "Dielectric Properties of Salt-Solvent Filled Matrices" during the fall meeting of the American Physical Society late last month in New Orleans, La. The paper is the latest in a series of such efforts recently published by Dr. Wagner who, in addition to his regular teaching duties, is active in an ongoing research program.

Everett M. Chandler (Dean of Students) received the Doctor of Philosophy Degree in higher education and administration during commencement ceremonies at Michigan State University last week. Dr. Chandler, who was unable to attend the ceremonies, completed requirements for the degree at MSU during a leave of absence earlier this year. His thesis for the degree is titled, A Short-Term Orientation Program for Freshmen: Contrast Between Participants and Non-Participants. The paper is based on studies of freshmen students who entered Cal Poly during the fall of 1968.

Tony Amato and E. Wesley Conner (both Ornamental Horticulture Department) were judges for the annual awards program of the California Landscape Contractors Association and participated in the annual Awards Banquet of the group which took place last month in Santa Barbara. They were among seven men who judged more than 90 entries in the competition. Three Cal Poly graduates were among top winners in the CLCA awards program.

Alvin Varney (Engineering Technology Department) accompanied students of a tool design class on a field trip in the San Francisco Bay Area last month. Included during the three-day trip were extensive tours of facilities of DeLaval Turbine of California, Inc.; Peterbilt Motors, Inc.; the San Francisco Bay Naval Shipyard; and Memorex Equipment Group.

Walter Elliott (Physics Department) has been notified that his manuscript titled "Perceptions of Physics and Physics Teachers" will be published in the Jan., 1971 issue of The Physics Teacher, a journal of the American Association of Physics Teachers which is published nationally under the auspices of the American Institute of Physics.

John R. Healey (Head of the Journalism Department), Vincent Gates, James Hayes, and Ed J. Zuchelli (also Journalism Department), and Donald L. McCaleb (Information Services Office) all participated in the annual convention of Beta Gamma Phi society for community college journalism students at the Golden Tee Motor Resort in Morro Bay last Friday and Saturday (Dec. 4-5). Gates, Zuchelli, Hayes, and McCaleb all assisted in judging writing competition for the convention and Healey presented the awards during the convention's concluding luncheon meeting.

Kermit Adams, chief of party for the Cal Poly Agency for International Development program in Guatemala, is home on vacation and for on-campus consultation regarding the college's program in Guatemala. Adams, who has been in Guatemala since mid-1967, heads a three-man team providing agricultural education assistance through the Technical Institute of Agriculture at Barcena.

Typewritten copy intended for the next issue of Cal Poly Report must be received prior to 12 noon Tues., Dec. 29, in the Office of Information Services, Adm-210.
FACULTY MEMBERS WILL USE TRAVEL GRANTS DURING HOLIDAYS

Four members of the college faculty will use grants made possible under provisions of Administrative Bulletin 69-3, Special Overseas Travel Grants for Faculty of the College, to help meet the costs of travel during the Christmas Academic Holiday. They are Max E. Riedlsperger (History Department), Howard F. Smith (Economics Department), Bruce Kennelly (Head of the Chemistry Department), and George J. Hasslein (Dean of Architecture and Environmental Design).

The grant program outlined in AB 69-3 utilizes earned overhead funds from Cal Poly overseas projects and is designed to result in improved instruction for the college or in other direct benefits to the college or the individual involved. Dr. Riedlsperger will make an educational tour of the Soviet Union during the holiday period, while Dr. Smith plans to gather some data for his economics courses in Guam. Dr. Kennelly plans to study applied chemistry education at Australia National University, and Dean Hasslein plans to observe urban development programs in Guatemala.

Another travel grant program outlined in Administrative Bulletin 69-4, Travel Grants for School of Agriculture Faculty to Overseas Projects, provides similar grants for members of the School of Agriculture and Natural Resources faculty.

NEXT "CAL POLY REPORT" WILL APPEAR ON JAN. 5

Publication date for the next issue of Cal Poly Report will be Jan. 5. Double-spaced, typewritten copy intended for that edition will be due in the Information Services Office, Adm-210, by 12 noon on Dec. 29.
General Electric Foundation

has several programs of interest to Cal Poly. No specific guidelines are published, so I advise sending an informal letter of inquiry to see if the Foundation is interested in your ideas. In 1969 grants were made to strengthen undergraduate education in physics, accounting and finance, mathematics, chemistry, engineering, and technical-vocational education. Only 67 grants were made with about $177,000, so you can see the average grant is very small. Still ......... Write to Mr. J. Moreau Brown, Assoc. Secretary, General Electric Foundation, 1285 Boston Ave., 28-EE, Bridgeport, Conn. 06602.

I don't know what this implies, but I found it delightful: the College & University Reports has a small paragraph entitled "President signs jellyfish control extender."

NASA

Although the National Aeronautics and Space Administration University Program has much less money than it had in previous years, there is still a possibility of support. A copy of their quarterly report will give you an idea of the kinds of programs NASA has funded in the past. You are welcome to look at it in Adm 309.

OE

The Office of Education has a Fellows Program. It is highly competitive but well worthwhile. Fellows spend 10 months in Washington, D.C., working in one or more offices in the Office of Education, but also learning about the Congress and other federal agencies. It can be a very stimulating experience. Travel, but not moving costs are paid, and the stipend ranges from $10,000 to $13,000. Such an assignment is to be considered a leave of absence from Cal Poly. I expect the application forms soon. The College may be limited to one candidate.

UCSB

The University of California, Santa Barbara, is sponsoring a symposium called "Offshore Petroleum Production - An Environmental Inquiry." There is no fee. The symposium begins Wednesday morning, December 16, and ends Friday afternoon, December 18. You may see the detailed program in this office or write directly to Robert W. Holmes, Director, Marine Science Institute, UCSB, 93106.

NAS

The National Academy of Sciences has an exchange program between the USA and the USSR. Faculty members with a doctorate in the natural sciences (physical and biological, probably) are eligible for placement at the USSR Academy of Sciences or at Soviet Universities. Social scientists will be assigned to institutes of the
Soviet Academy in their field. Visits may be from 3-10 months, and salaries up to $1500 a month are allowed. I don't know if fluency in Russian is required. For further information write directly to: Office of the Foreign Secretary, (USSR/EE) National Academy of Sciences, 2101 Constitution Ave., Washington, D.C. 20418.

Printing & Publishing Industry

has an annual Fellowship Program for faculty in physics, chemistry, business, engineering, industrial education, and mathematics. The area of proposed study must be applicable to the printing, publishing, and packaging industries. Awards will be made to college seniors who have been accepted in graduate school or to graduate students. The stipend is $2000 plus $500 for tuition and fees. The department in which the Fellow works also gets $500. The deadline is February 1, 1971. Application forms are in this office.

The California Heart Association

has a program for Student Research Associates. A non-taxable stipend of $750 for 10 weeks during the summer is paid. Students must be juniors, seniors, or graduates in the fall of 1971, have at least a 'B' average, and interest as well as knowledge in the fields of chemistry, biochemistry, or physiology. The deadline is February 1, 1971. This office has several application forms.

Department of Transportation

This office now has a copy of the guidelines and application forms for research and training grants in urban transportation. Small grants are in the range of $15,000 - $20,000, and beginning major projects in the range of $115,000 - $180,000. You are welcome to look at the guidelines which are very helpful.

Rome Prize Fellowships

are available to young artists and scholars in the fields of architecture, landscape architecture, environmental design, musical composition, painting, sculpture, history of art, classical, post-classical and humanistic studies. Fellowships pay $4500 plus a free residence, and use of the facilities (library, studios) of the American Academy in Rome.

The deadline is December 31, 1970 for the following academic year. Write directly to The American Academy in Rome, 101 Park Ave., New York, N.Y. 10017.
