Egypt-Israel conflict at Model United Nations

Egypt and Israel had to refer its proposals to the assembly's five committees. This year's first committee prepared a report for the General Assembly on the international need for suspension of nuclear tests. Acting as typical Arab representatives, the Egyptian delegates also pleaded Israel's delegates to suspend their country's conventional arms build up. Israel's delegation from the United States International University strongly disapproved this proposal.

The General Assembly's special political committee reviewed the racial apartheid policies of South Africa. Since a small white minority took over the government in the 1970's, segregation was adopted to please whites apart and above of the black majority.

Referring to stand against Israel, Egypt's delegates brought up the injustice of Israel's Zion era movement in Palestine. The Egyptians made a comparison between separation in South Africa and the Israeli separatist movement in Palestine. They asked the injustice of a small Israeli minority taking over Palestine's government and forcing its citizens into concentration camps. The international aid program for the improvement of agriculture and education in developing countries was expanded by the second committee. In these meetings the delegates reached a resolution to deprive Israel developmental aid because they believed that Israel's Zion era movement in Palestine violated Security Council Law.

The third committee discussed ways to promote respect for human rights in war. Throughout the conference, the committees found it hard to define terms. Israel pointed out Palestinian tactics as examples of guerilla warfare. The US also rebuffed Israel's comments by stating that Palestinian groups were responsible for many attacks and had not taken their land in peace.

(Continued on Page 9)

The 177 countries meet at the United Nations to settle their problems "peaceably," the New York building is the scene of bitter disputes and frequent delegate walkouts. When 77 schools representing these countries met for the Model United Nations at Sacramento in April, their conference looked much the same.

The divisions of the Model United Nations are identical with the UN headquarters in New York. Each school representing a country sent one or two delegates to the General Assembly, five of its main committees, the Economic and Social Council (ECOSOC), the International Court of Justice and the Secretariat.

The United Nations are identical with the United Nations, France, Great Britain, China and ten invited countries were also represented in the Security Council.

For four days 14 students from this university assumed the roles of Egyptian delegates, presenting their country's views on UN resolutions. The main goal of Egypt's delegation was to patch up historic splits with the third world nations in order to win their support of its fight against Israel.

The delegates' quest for this support began at the conference committee meetings. First of all, to gain General Assembly recognition, Egypt had

WATERGATE

Nixon asked to resign

WASHINGTON (UPI) - The strongest congressional reaction to the Watergate scandal, Rep. Henry S. Reuss and Friday that President Nixon and Vice President Agnew should be replaced by a coalition government under House Speaker Carl Albert.

The Wisconsin Democrat said that Albert, next in the presidential line of succession, would not fight this way if Israel was involved to expulsion, suspension or impeachment. But no one yet had made a suggestion as startling as Reuss's.

"The plain fact is that Mr. Nixon, whatever his involvement in the Watergate, has presided over a corrupt government," Reuss said. "The plain fact is that he has failed an unmitigated failure to do anything about it. A third plain fact is that he has forfeited public confidence."

"Watergate has made injures at the Library of Congress about impeachment proceedings, and two, Rep. John E. Moss, D-N.Y., have called for a House inquiry into impeachment. But no one yet has made a suggestion as startling as Reuss's.

'ASI should use funds for benefit of majority'

**Editor:**
I would like to express my opposition to the use of ASI funds for the support of the KOP program. I think that ASI funds should be used in a way that is beneficial to most of the students here at Cal Poly and the KOP program clearly is not. It is the responsibility of the state and federal government to subsidize programs such as these and not that of students at this university.

**Headlines shows faulty arithmetic in Nixon poll**

**Editor:**
Your recent headline "Watergate Poll on Campus Reveals Nixon is still favored" is indeed incorrect. It is only correct if you add the phrase "by past Nixon voters" to the above headline.

My numbers work out like this:
(1) Last hill Cal Poly favored Nixon over McGovern by 1 to 1.4.
(2) Your poll of past Nixon voters indicated that of those polled would now vote for Nixon. (87 per cent would change and 13 per cent were not decided).

If the newly people find that EDP cannot subsidize them they should apply for financial aid. I resent the fact that my parents should have to pay for programs such as these through taxes and then pay again through the allocation of ASI funds.
We all contribute to the money used by ASI and I don't think that I would like to express my opinion to the campus.

**Paul Simon**

**Letters:**

Who that think the Nixon Administration must be blind to the election situation on this campus.
We must go to the Watergate boys.
All Nixon's elections did was dig out opposing party headquarters the offices of leading presidential contenders, burglars the offices of a former government employee's (Elisabeth Edwards), perform dubious financial film fiascos and other acts of political sabotage.
And all Nixon's underrulings did was to ignore the people and Congress, bomb the hill outside, burn the school and now Cambodia, and in general live up to my expectations of him.

Here on campus a tradition has begun of such foolishness that I think that ASI funds should be used by ASI and I don't think that I would like to express my opinion to the campus.

**Campus: for students or hilltop bureaucracy?**

**Editor:**
To my fellow students I pose this question: Who does the Nixon Administration exist for, the students or the bureaucracy on the hill? In the past few weeks several administrators have been under fire for their actions and the Nixon Administration is only one of a kind last year. Doesn't anyone else see it?

As usual, Student Affairs Council is at the bottom of the hill. We play more games than the hill. It is disheartening that so many administrations have been taken that have or will have adverse effects on students.

As usual, Student Affairs Council is at the bottom of the hill. We play more games than the hill. It is disheartening that so many administrations have been taken that have or will have adverse effects on students.

**Rock as mature as jazz**

**Editor:**
I was at the concert, but I can sympathize with your displeasure of the crowd size. However, I'm not jaded with the rest of your rambles. One may need to be a mature person with brains to enjoy jazz, but your implications that the genre is true shows a significant lack of maturity on your part.

I like folk music, but I can't stomach jazz, soul or the opera. If, however, realise that all these types of music have earned a spot in society, each has its virtues (Townsend, Miles Davis & Bing Crosby for example) and each is good music to me. I cannot enjoy all of it, myself.

A truly mature person can learn to recognize and accept the validity of certain things he doesn't fully like or understand. Your snide statement of rock fans only indicates that you, too, have some growing up to do.

Mark Alan Witenes

---

**Letters:**

There still not enough parking spaces, but now we can't even get to the campus there are exits.

And then the programming moratorium for the use of state facilities that affects programs with "less than 80 per cent student attendance." Since it's the Administration that decides if that ratio will exist, any questionable program just won't happen.

Such as the June 2 rock and roll student concert that was mentioned in the activities calendar passed out during registration. At least three months of student planning wiped out by that one decision. What a waste. The year. Doesn't anyone else?

**Phil Douglas**

**Nightmare of billboards**

**Editor:**
After spending four years at this college, I can honestly say that last week, election week, was by far the most aesthetically unpleasant week I have ever encountered.

It is truly too bad that our worthy candidates for student council offices have taken upon themselves to wall-paper the entire campus with their enthusiastic posters. Coming on top of enormous changes from California Street, the site of the out beautiful park was turned into a nightmare of billboards, each candidate trying to make the biggest sign. Also, I can see absolutely no reason to line half a dozen identical posters across a fence or around a tree trunk.

I would hate to think that the winner of this election was the one with the most signs polling our campus, I think the students at this university are smarter than that. However, it seems that our next ASI president, whoever we're it be, has this monopoly. Please, no more signs.

Clark A. Heath

---

**Letters:**

Please, no more signs.
**Student gripe about ASI 'John Birchers'**

In 1972, as a result of various surveys and polls, many new programs were funded and others were cut. The result was a sense of growth. Robin Baggett (then chairman of Finance, committees) and his entourage of John Birchers vigorously opposed this public opinion (secretly of course).

Time after time our budget surveys came back in the same results. Massive support for the innovative programs like housing services, Student Counseling Services, legal aid and even the Day Care Center, fared better than many traditional programs like athletics and others.

However, every single one of those programs has been cut, neglected and harrased by our ASI officers and various members of SAC.

The budget for next year is equally depressing. All the money goes to the same old places, while all we have to show from this year is Roundhouse. If that is all Baggett and Johnson can do in a year of unprecedented authoritarian rule, then the Republican Party does not deserve the vote. They have not been active in other areas, just not around here or for your candidates.

And a special thanks to the real President who pulled the strings as Baggett and Johnson can move. Without Dr. Kennedy who brings us moral and ethical direction Baggett could never have ripped off the $16,000 from BOP like he did, or doublecross the Day Center People, or in fact devise and doublecross ASI in many areas of finance and representation.

There he has surely had a free hand this year neither SAC nor the Mustang Daily has laid a finger on Robin.

And Johnson is doing fine. Just fine. His whole campaign last year was unity, reason, common decency. Really slick! Ever watched him at a SAC meeting? Ever seen him upright (very often)?

There is no measure; ill mannered individual on campus than Davey Johnson when he doesn't get his way. There is no dissent allowed at SAC meetings nothing but his opinion. It's real efficient that way.

It's a sad tribute to those of you that allowed this boy to claw his way to power by using Marianne Douei as a scapegoat. plus it and a tribute to those of you that allowed this boy to cloew his way to power by using Marianne Douei as a scapegoat. She encouraged free discussion on all issues; he suppresses it. The often gave up the chair when personal involvement increased. He hung on to the gavel like it was his last beer. She would etch this script. We sense that democracy takes time, he a despicable tyrant. She would etch this script. We sense that democracy takes time, he

There is some very potent drama at the local theaters this week highlighted by the numbing performances of Jack Lemmon and Joanne Woodward.

Jack Lemmon is one of Hollywood's more respected actors. Over 30 years ago for his supporting role in "Mr. Roberts" he got an Oscar nomination. The Best Actor Oscar for next year is practically his already.

Harry Stoller is wealthy, Beverly Hills executive of a clothing firm with a lot of problems. His designers are rebelling and the factory is running in the red. But Harry manages to survive it all with a little bit of luck and deals with insurance. Somehow that isn't enough.

He searches for peace of mind in his past, the good old days of the forties, the music, the factory. He knows he has a problem, but It Is Miss Woodward who manages to save the titers of the world for his daughter, Nell Potts, in the title of the year, Is a family affair for Miss Woodward. It was produced and directed by her husband, Paul Newman, with her daughter, Nell Potts, in the principle role (Don't ask me why her name is different from her father's).

It seems when marigolds are exposed to degrees of gamma they form mutations that enable us to learn a little more about our future. Our future is in Miss Potts, a young, junior high school child determined to make something of her life, a life complicated by an alcoholic older sister (Roberta Wallach) and a marigold mutation of a mother Miss Woodward.

The mother is a gruff, sloppy woman, called "Betty the loon" when she was in school. She is rather clumsy and stupid but has her children's best interest at heart. "Marigolds" also abounds with symbolism, probably just a little too much so in this year over the head. It's script mingle heavy drama with some witty comedy, but it is Miss Woodward who must take all the bows. She is really great and shines in an otherwise lackluster story. Finally last year was a year of great performances thus the Oscar race was a little too crowded to put her in contention.

**MOVIE REVIEW**

**Lemmon role 'numbing'**

by Rick Goulart

There is some very potent drama at the local theaters this week highlighted by the numbing performances of Jack Lemmon and Joanne Woodward.

40-year old Lemmon is one of Hollywood's more respected actors. Over 30 years ago for his supporting role in "Mr. Roberts" he got an Oscar nomination. The Best Actor Oscar for next year is practically his already.

Harry Stoller is wealthy, Beverly Hills executive of a clothing firm with a lot of problems. His designers are rebelling and the factory is running in the red. But Harry manages to survive it all with a little bit of luck and deals with insurance. Somehow that isn't enough.

Finally last year was a year of great performances thus the Oscar race was a little too crowded to put her in contention.

**Graduation**

So you've got your college degree. And with it, enough kiasse, head-pats and congratulations to last you the rest of your life.

What you need now is a little green stuff. Money. Or better yet, credit.

That's what we've got for you: credit-and then some-to meet the world head-on.

All wrapped up in a neat package called Gradplan.

Gradplan can set you up with a credit line big enough to do the kind of things you want to do. Or, maybe you-how to get your checks cashed immediately when they're needed. How to write yourself an instant loan. And how to take some of the pain out of finding a job (excuse the expression), with a really handy new booklet you'll find right there in the Gradplan package.

Come in. Ask for our special Gradplan . Representative. And get yourself some credit-plus.

Out there, in the real world, you need all that you can get.
The Paso Robles Junior Women's Club, in association with the Paso Robles Parks and Recreation Department, commissioned a preschool playground structure designed by architecture students Roger Christman, Jon Nelson, Jon Stout, and John Madrid of the University of California, Santa Maria. The play area, built to encourage the children's own creativity, is described as having a main climbing platform with various means of reaching it. There is a tire trampoline, cargo net, moving panel, and open play space, each contributing to the development of the children's motor skills. The entire base of the playground is covered with sand to provide an environment of minimum possible injury.

Four architecture design students have designed a playground structure for the Paso Robles City Park. Roger Christman, John Nelson, Jon Stout, and Jon Madrid designed a preschool children's play area at the request of the Paso Robles Junior Women's Club for their senior project. The architecture students met and consulted with Wanda Venturini of the Paso Robles Junior Women's Club and Stuart Roe, director of Parks and Recreation Department of Paso Robles to exchange ideas on various types of play equipment best suited for the muscular development of preschool children.

They composed the playground with a main climbing platform with various means of reaching it. There is a tire trampoline, cargo net, and moving panel, each contributing to the development of the children's motor skills. Logs, barrels, and open play spaces are also provided. The entire base of the playground is covered with sand to provide an environment of minimum possible injury.

The architect students constructed the playground to encourage the children's own creativity. They purposely made the park in a way to require the children to maneuver the equipment by their own imagination. They are able to construct their own play environment, thus involving more social interaction among the children.

Paul Wolff, advisor to the students, estimated that the design and construction would have cost the Junior Women's Club approximately $3000, if done by professional contractors.

Secret work

NEW YORK (UPI)-U.S. attorneys in New York said Friday they kept the FBI and other federal agencies in the dark about the investigation that led to indictments against former U.S. Attorney General John N. Mitchell and former U.S. Secretary of Commerce Maurice Stans.
by MICHAEL RUSKOVICH

Bill Russell is a big man. Not only does Bill Russell’s 7-foot 1-inch frame seem him towering above most other men, but his 13 years of professional basketball with the Boston Celtics, his success as the first black man to coach a major sports team in the U.S., his current success as a commentator on both television and radio set him apart.

Russell will speak in the Men’s Gym on Wednesday, May 15, at 8 p.m. His speech, entitled “Russell Raps” is sponsored by the ASBF Speakers Forum. Russell will talk on basketball, but he will also reflect upon the subjects of race and politics.

According to Randy Donan, Speakers Forum advisor, the speech will be a spontaneous reflection of society” as seen by Russell.

Russell has made several appearances on the Flip Wilson Show, has guest hosted on both the Tonight Show and the Merv Griffin Show, has made a commercial, and has undertaken several dramatic roles, including movie parts.

Admission is $3 cents for students and $3.50 general. A full house is expected.

(Bill Russell, basketball star and television personality, will be the guest speaker at Wednesday night’s Speakers Forum. Russell will be speaking on basketball, race, and politics.)

New associate dean heads graduate studies

English Department faculty member since 1956, Dr. David M. Grant will assume the position of associate dean of graduate studies.

The current associate dean of graduate studies and research in Dr. Howard Borrough, who requested a reduced assignment to half time basis as associate dean of research.

President Robert Kennedy, who made the announcement, said, "I know that Dr. Grant's background as a faculty member and administrator, combined with his overall knowledge of the campus and the development of the graduate programs, will be of great benefit to the university.

Grant has served in several administrative and faculty positions throughout his 35 years with the university. From 1961 through 1983, he was head of the combined English and Speech Department.

In addition, Grant has served as vice president and president of the Academic Senate, and chairman of the ad hoc committee on Academic Structure and Organization.

Named as recipient of the Distinguished Teacher Award in 1988, Grant currently is completing a three-year term as one

Rodeo thrills and spills at La Fiesta Gymkhana

La Fiesta of San Luis Obispo will begin annual rodeo competition open to the public.

The First Annual La Fiesta Gymkhana will have seven classes in each of three age groups: 13 and under; 13 to 17; and 18 and over.

The classes are: keyhole, pole bending, quadrangle race, barrel race, musical irresist, baton race, and recusal race.

Entries for the first two groups are free. First place will be awarded a trophy with a cash prize or for those finishing sixth or better.

Entrants in the 18 and over group will be charged one dollar per class to participate in the money jackpot. The jackpot will be $10 per cent, $20 per cent, and $30 per cent for the top three places in each class.

EGYPT- ISRAEL AT MODEL UN...

Egypt also contested Israel in the Security Council meetings. Delegate Jeff Trobel of the council for two days and even-
ually convinced the body to condemn Israel for its recent attack on a Beirut office building.

With Soviet Union delegates' help, Trobel asked the council to form an observation group to police the Lebanon border to prevent further Israeli actions. His proposal passed unanimously.

Through their speeches and proposals, Egypt's delegates were able to sway the voting patterns of most of the third world countries in support of their conflict against Israel.

"Our intense preparation for the conference really paid off," Reid said.

The delegation began preparing for the conference last September by reviewing the United Nations' rules and procedures in a political science class. Dr. Joseph Westberry instructed the one unit class which examined the Egypt's political and economic policies.

For more information about next year's conference, students should contact the Political Science Department at 484-8004 or Jim Campbell at 484-8008.

...and Carrel.

In regard to the breaking of the Code's Section 4130, Carrel said "I suggest that the university administration consider calling upon the University Administration for assistance in up-keeping the integrity of the present election by instituting appropriate disciplinary proceedings against the offending students." 

The ASI design "campaign" money in-

...and the main issue

...should he advised of the "potentially illegal nature of their actions," said Carrel.

Donations for the needy

The Student Community Services at this university has joined with Santa Maria organizations in sponsoring a drive to aid the isolated village of Rancho San Antonio near Guadalajara, Mexico with food, clothing and school supplies.

The donations most needed are: pencils; paper; pens; erasers; good-used clothing; shoes in all sizes; crayons; colored pencils; other school or art supplies and canned goods. Books written in English can't be used.

These donations can help others help themselves. To the people of Rancho San Antonio it may mean a chance to survive in difficult conditions and to continue an education.

Donations may be brought to the University Union, Room 217 or by contacting Bob Bens, activities advisor, Rocky Camp, president of Student Community Services, student coordinator at 484-5671.

A program detailing the situation the villagers face will be aired on "Directions '73" Wednesday, May 16, at 7 p.m. on KCNY television channel 17.

Participating are Lachlan P. MacDonald, Director, Information Services and "Buck" Johnson of Santa Maria, both of whom have prepared goods collected in previous drives to the village.

"Am I cynical? Perhaps. But I'm tired of people who in one

breath claim they're adults and

in the other have the nerve to stop the world over every dirty trick or written word. That is politics, isn't it?" Mr. Nixon.

Baseball title hope dies as Northridge sweeps

by ERIC BURDICK

Last Friday, the Mustangs traveled to Northridge, hoping to capture their first ever California Collegiate Athletic Association Baseball title. They had to win two of the three games scheduled with California State University, Northridge, in order to win the title, but, instead, dropped them all.

The Mustangs, in losing the series, are now out of the conference race. The Matadors, however, have a three game rain-delayed series with Cal Poly Pomona. Northridge needs to win only one of the three games to win its fourth conference title in a row.

The Mustangs losing seven of the last eight games finish the season with a 17-11 overall record and a 1-4 league slate. They can finish no worse than second place.

In Friday’s single game, the Matadors pounded Mike Krukow for five hits and five runs in the first three innings en route to a 7-1 victory. Krukow had to be taken out after the fourth inning as he was hit by a line drive on the back of the head. He was taken to Good Samaritan Hospital in Los Angeles, where a day revealed a slight concussion.

Doug Alderman relieved Krukow and allowed two runs in his four innings of work, striking out four, and also walking four. Saturday’s first game of the twinbill took three hours and ten minutes to complete, and went eleven innings. But the Matadors’ Rand Rosenmiller hit a two run homer over the left field wall in the eleventh to take the 5-4 win. The Mustangs had to play catch-up ball, and nearly pulled the game out.

Down 6-1 in the eighth, second baseman Dave Oliver doubled to center, and Joe Zagarino homered over the left field barrier to close the gap to 6-4. Gary Kuchles tied the game in the ninth with a solo home run, also in left field.

The second game was equally close at least for five innings. The Matadors’ Craig Ryan hit his second homer of the series, and ninth of the season, in the fifth.

Cal Poly, down 1-0 in the sixth, received an opening single by Zagarino, and a double by Larry Rivera. However, Ted Bailey lofted a fly to right field that the Matadors converted into a double play. Right fielder Ryan threw to the plate, the throw was wide to the right, and Zagarino apparently scored. But the plate umpire ruled that Zagarino had missed home plate, and catcher Pat Russell, the second leading hitter in the conference with a .371 average, tagged Zagarino out.

Winning its fourth straight California Collegiate Athletic Association golf crown, the California State University, Northridge, Matadors (1181) held off the University of California at Riverside (1205) by five strokes in the 24-hole tournament hosted by the Mustangs at the San Luis Obiopo Golf and Country Club Friday and Saturday.

The best Mustangs (1309) finished fourth behind California State University, Fullerton (1180), with California State University, Bakersfield, in fifth because of an incomplete team. Fullerton’s Paul Wise edged Riverside’s Matt Bloom on the first hole of a sudden-death playoff to take the individual championship. Both players finished the regulation 14 holes at one-over-par 72. The Mustangs’ Tom Rover wound up 14 strokes behind the leaders at 88. He was followed by teammates Jan Smirn (89), John Blundev (94), Mike Keenan (97), Doug Jones (98), and Bill Bell (101).

With TWA it pays to be young.

Armed with just a pack on your back and a TWA Youth Passport in your hand, you can see a lot more of the U.S. for a lot less with TWA. Here are some ways we help.

Overnite Pass.

TWA’s terrific new money saver. It gets you guaranteed student dormitory accommodations (at the least) without advance reservations in 40 cities in the U.S.A., Canada and Mexico for only $5.25 a night.

Bonus Coupon Books.

Take your TWA Youth Passport and boarding pass to any TWA Ticket Office in New York, Boston, Philadelphia or Washington. You’ll get a book of bonus coupons good for 50% off things and absolutely free things like a dinner at the Spaghetti Emporium in Boston, free admission to a flea market in Philadelphia and lots, lots more. Like we said, with TWA it pays to be young. For all the details write: TWA—IT.

**ALUMNI FOOTBALL**

**Game pleases Harper**

By Eric Noland

If the alumni prepared at all for Saturday's spring football game with the Mustang varsity, they neglected to work on theiricking game. Two first-quarter fumbles, from center sailed over the head of Rich Wegs on a pair of punt attempts, and were promptly turned into two varsity scores.

The 1973-74 Mustangs then held on for the remaining 16 minutes to put a 16-0 victory in the books.

Fullback Pete Hubbard went in for the first score and tailback Rich Gilstead punted in for the second. At this point, crisis of, "I quill!" were to be heard from the alumni bench. But the returning side repeated valiant attempts to mount a scoring drive, under quarterback Steve Breternahan, but could not muster a consistent offense. Field general Mike Church stood by a pile of written-out plays on his clipboard, entering a huddle with a new idea after each successive failure.

When on defense, the alumni had their hands full trying to contain varsity quarterback Mike Coulson.

Head varsity coach Joe Harper cleared his entire bench in the contest and later admitted being pleased with what he had seen.

"We were able to convert their (the alumni) mistakes into quick scores, which was good," he said.

Harper's defense did not allow the visiting aged a score until there was but 36 seconds remaining in the game. From the varsity 11-yard line, the left-handed Breternahan rolled to his throwing side and bit Rich Hunt 15 yards into the endzone.

The play merely made the game look closer. The alumni's highlight play of this year's contest came earlier. Playing with all the enthusiasm of an exhibition or commercial beach game, the alumni running backs had been unloading the football to the nearest friendly Jersey at the first sign of trouble. On one such play Breternahan's pass was deflected and picked off by center George Hurley, returning it to the 50-yard line. The prior contact with the ball had been in passing it between his legs to someone else, Hurley found it necessary to get rid of the ball. Waiting nearby was tackle Jim Turner, standing in the vicinity of where Breternahan's pocket had broken down. Turner took the pitch from Hurley and proceeded to pick up what was left of the rushing yards of his career.

**MUSTANG CLASSIFIEDS**

**Announcements**

* Exchange Photographs
  - Davis High School 1074-8
  - Free Pupies 3 or 4 months: Beautiful: for dog lover. 110 st. Colma, home for second owner. 484-9560.
