PAULING WILL ADDRESS CAMPUS GATHERING; FACULTY, STAFF INVITED TO ATTEND

Linus Pauling of University of California at San Diego will be the guest speaker during a regular luncheon meeting of the Lions Club of San Luis Obispo which will take place in the east portion of the Student Dining Room Thursday (September 5) beginning at 12:00 noon. Members of the faculty and staff of the college, as well as their wives or husbands, have been invited to attend the meeting.

In order that arrangements for the luncheon affair may be completed, it will be necessary that members of the faculty and staff who plan to attend notify Everett Dorrough at the College Dining Hall by 12:00 noon Wednesday (September 4). Cost of the luncheon, including tax, will be $1.58. Telephone number for Dorrough's office is 546-2301.

APPOINTMENT OF NEW ASSOCIATE DEANS ANNOUNCED

Appointment of two members of the campus faculty and one veteran educator from outside the state as associate deans of the Schools of Agriculture, Applied Arts, and Applied Sciences has been announced by President Robert E. Kennedy. With their school of assignment indicated, they are John W. West, School of Agriculture; James E. Simmons, School of Applied Arts; and Vance D. Lewis, School of Applied Sciences.

In the cases of the Schools of Applied Sciences and Applied Arts, the appointments are to newly-created posts and are indicative of continuing growth of those instructional units. The School of Agriculture appointment ends a search for a replacement for J. Cordner Gibson, who accepted appointment to the post of dean of that school earlier this year. LaVerne Bucy of the Animal Husbandry Department faculty had filled the associate dean position temporarily during last academic year while Dean Gibson was serving as acting dean and then as dean.

Dr. Lewis has been a member of the Cal Poly faculty since 1946 and in recent years has been assistant head of the Physics Department. He is a graduate of University of California at Berkeley and University of Southern California, which granted him the Doctor of Philosophy Degree in 1954. Prior to joining the Cal Poly faculty he was a laboratory technician for Shell Oil Company, principal of both Round Valley and Fort Bragg Union High Schools in Northern California, and an officer in the US Navy.

In addition to his teaching responsibilities, Dr. Lewis has been active in other campus affairs since coming to Cal Poly. He has been chairman of a number of campus groups and committees, including the Planned Enrollment Growth Committee and the former Faculty Council, and active in state-wide committees and organizations. Among the latter he has been representative on the State College Committee of the Cali-
APPOINTMENT OF NEW ASSOCIATE DEANS (Continued from Page 1)

fornia State Employees Association, Cal Poly representative on the State College Admisions Committee, and member of the Faculty-Administrative Relationships Committee. The new associate dean is also a past-president of Chapter 97 of CSEA and of the former Faculty Club.

Dr. Lewis is well known in the San Luis Obispo area for his active participation in community affairs. He is a former member and president of the San Luis Obispo County School Board and treasurer and member of the Board of Directors of the Natoma Council of Camp Fire Girls, Inc. Dr. Lewis has also continued his relationship with the US Navy. Presently serving as a commander in the Naval Reserve, he is commanding officer of a local reserve unit and the organizer and a former teacher in the Naval Reserve Officers School.

Dr. Simmons joined Cal Poly as a member of the English and Speech Department faculty in 1966 after having been an assistant professor at Wisconsin State University at Oshkosh and a teaching assistant at University of Wisconsin. He is a graduate of University of California at Santa Barbara and University of Wisconsin, from which he received his Doctor of Philosophy Degree, and is a member of various professional societies including the Modern Language Association.

A veteran of 16 years in agricultural education at the university level, Dr. West has been head of the Poultry Science Department at Oklahoma State University since 1956. Before that he was an associate professor at Mississippi State University. The new associate dean is a graduate of University of Tennessee and Purdue University, from which he received his Doctor of Philosophy Degree. He is a former chairman of the Youth Achievement Committee of the Oklahoma Turkey Association.

Dr. West is the author of a number of articles written for professional journals and a member of the Poultry Science Association, Alpha Zeta, Society of Sigma Xi, American Association for the Advancement of Science, World Poultry Science Association, and Oklahoma Academy of Science.

All three of the associate deans are scheduled to begin their new duties today (Friday, August 30).

SEPARATE DEPARTMENTS OF ENGLISH AND SPEECH ESTABLISHED

Establishment of separate Speech and English Departments in the School of Applied Arts has been announced by President Robert E. Kennedy and will become effective with start of the Fall Quarter next month. Appointment of James R. Emmel as head of the new Speech Department and of Willard M. Pedersen as continuing head of the reorganized English Department was announced at the same time and will also become effective with start of the new quarter.

The Speech Department will not offer a degree major curriculum at the outset. Preliminary approval to offer the Bachelor of Arts Degree in speech beginning in 1969-70 has already been received and should make it possible to begin that program in September, 1969. The department will continue to provide the many speech and related courses in drama and radio-TV which were offered by the former English and Speech Department for the benefit of general education, teaching credential, and elective requirements for the entire college. The English Department will continue to offer

(Continued on Page 3)
degree curricula for the BA and MA degrees in English, as well as its full compliment of general education and other courses.

Dr. Emmel, a member of the Cal Poly faculty for the past year, is no stranger to either speech instruction or administration. Immediately prior to that time he was chairman of the Division of Letters at Pasadena College from 1961 to 1967. Prior to that he served as a speech consultant to the United States Armed Forces in Germany for two years and was chairman of the Speech Department of Bethany Nazarene College in Oklahoma for 10 years.

The new head of the Cal Poly Speech Department is a graduate of Eastern Nazarene College, Wollaston, Mass.; University of Oklahoma; and Pennsylvania State University, where he earned his doctor's degree in 1959. He is a member of a number of professional societies, including the Speech Association of America, and is author of many articles published in professional journals and other publications.

Pedersen, who has been head of the English and Speech Department for the past three years, joined the Cal Poly faculty in 1961 after having been a member of the faculty of Colorado Western State College at Gunnison. Before that he was a member of the faculty at Mount Union College, Alliance, Ohio, and at Marshall College, Huntington, W. Va., and taught in high schools in the Midwest. The head of the new English Department is a graduate of Colorado Western and Colorado State College. A former US Navy officer, he also has considerable experience as a professional athlete, athletic coach, and athletic director before beginning his duties at Cal Poly.

CAMPUS HEATING, HOT WATER SERVICES TO BE OFF NEXT WEEK

Major servicing of the campus central steam plant beginning Thursday (September 5) and continuing through September 8 will eliminate heating and hot water service on the entire campus and will also shut down the air conditioning system in the Administration Building. Douglas Gerard, associate dean, facilities planning, said recently the particular period during which the work will be performed was selected so the inconvenience to students, faculty, and staff could be held to a minimum. (See related article on other campus utility interruptions elsewhere in this issue of "Staff Bulletin.")

VACANCIES ON COLLEGE SUPPORT STAFF

Two vacancies on the support staff of the college exist according to an announcement made this week by the Personnel Office. They are for an Equipment Technician II ($710-863) on the Physics Department staff, and for a stock clerk ($480-584) on the staff of the Shipping and Receiving Area. Information on both openings are contained in an attachment to this issue of "Staff Bulletin" and full details may be obtained by contacting the Personnel Office, Room III, Administration Building, telephone 546-2236. Applications for either position may be made at the Personnel Office.
ASI ASSOCIATE MEMBERSHIPS AVAILABLE

Associate memberships in the Associated Students, Inc., of Cal Poly are again available for purchase by members of the college faculty and staff. These memberships entitle holders to substantially reduced admission rates for home football games and to student rates for all other ASI-sponsored events on campus during the 1958-59 academic year, except when such rates are prohibited by contractual arrangements for the particular event. Additional information on the associate memberships may be obtained by contacting the ASI office, which is located in the Temporary College Union Building. (See related article elsewhere in this issue of "Staff Bulletin.")

CAMPUS ELECTRICAL SERVICE TO BE CURTAiled SEPTEMBER 5-12

A contract to improve the electrical service on campus will require that certain buildings and facilities be without electrical service from 7:30 a.m. to 6:00 p.m., beginning Thursday (September 5) and continuing through September 12. A complete list of the dates and the specific buildings and facilities affected on each day appeared in the August 20 issue of "Staff Bulletin."

In addition to affecting the buildings and facilities shown on that list, work on the electrical system will make the campus clock system inoperative from 7:30 a.m., Thursday, through the same time September 13. Dates for the shutdown of campus electrical service were chosen so as to cause the least interference with normal college operations. (See related article elsewhere in this issue of "Staff Bulletin.")

MILITARY SCIENCE DEPARTMENT SETS COMMISSIONING CEREMONY

Commissions as second lieutenants in the United States Army and its reserve program will be awarded to 11 campus students during a brief ceremony which is scheduled for 10:00 a.m., tomorrow (Saturday), in the Choir Room of the Music, Speech, and Drama Building. Guest speaker for the occasion will be J. Cordner Gibson, dean of the School of Agriculture. He will be introduced by Col. Robert W. Green, head of the Military Science Department.

The commissions represent a major achievement to the young men who have not only completed requirements for their bachelor's degrees, but have also successfully concluded their study as members of the Military Science Department's Reserve Officers Training Corps program. The 11 who will be commissioned tomorrow bring to 90 the total number of men who have been commissioned through the campus ROTC program this year. That is the largest number of Army commissions awarded through any college or university in the 13 Western States of the nation this year. The Cal Poly ROTC cadet corps has the distinction of being the largest such voluntary unit in the Western United States.

All but one of the commissions scheduled to be presented tomorrow morning, that of Michael R. Shields, will be in the Army Reserve. Shields, a printing technology and management major, is slated to receive a Regular Army commission and will enter the Artillery Corps. He earned that commission and the designation "distinguished military graduate" with his outstanding record in military subjects while at Cal Poly.

RESERVED SEATING FOR MUSTANGS' HOME GRID CONTESTS

Season tickets in the Section "J" of Mustang Stadium for the five Cal Poly home football games this fall are now available to faculty and staff at the Associated Students, Inc., Office in the Temporary College Union Building. They may be purchased at substantially reduced rates by associate members of ASI. (See related article elsewhere in this issue of "Staff Bulletin."

Those interested in purchasing tickets will also be pleased to learn that the Mustang Marching Band has been moved to another location in the stadium and that the Section "J" has been moved closer to the 50-yard line. A map of the new location may be seen at the ASI Office, where excellent seat locations may still be purchased. Those wishing to assure themselves of good seating may do so by contacting the ASI Office about new locations as quickly as possible.

MILITARY SCIENCE DEPARTMENT COMMISSIONING CEREMONY (Continued from Page 4)

Others who will receive commissions tomorrow, with their major and Army branch shown, are Stephen D. Ballantine, business administration, Artillery Corps; Garry R. Jackson, printing technology and management, Signal Corps; Paul A. Marian, food processing, Quartermaster Corps; David B. Matthews, crops, Armored Corps; Daryl B. Parson, farm management, Artillery Corps; William L. Salmon, architecture, Engineers Corps; David A. Schuler, biological sciences, Chemical Corps; James L. Stapper, architecture, Engineers Corps; Raymond B. Smith, aeronautical engineering, Engineers Corps; and Roger B. Williams, architecture, Engineers Corps.

WHO... WHAT... WHEN... WHERE ?? ??

Russell L. Tice, Chemistry, is spending his summer months this year expanding his knowledge in the field of advanced chemistry. He attended two special short courses in that area of interest in recent weeks. Dr. Tice began his summer schedule by attending a Nuclear Reactor Institute at Reed College, Portland, Ore., June 17-July 26, and rounded it out by taking part in a short course on neutron activation analysis at the Air Force Institute of Technology, Wright-Patterson Air Force Base, Ohio, August 5-16.

Robert F. Reynolds, Audio-Visual, is the artist for a one-man exhibition of paintings presently being shown at the Galeria de Santa Ynez in that Santa Barbara County community. The exhibit, which opened recently, is scheduled to continue through September 15. It includes 41 different paintings in such media as polymer acrylic, graphite, charcoal and ink, ink wash, oil, watercolor, and mixed media. Reynolds is past-president of the San Luis Obispo Art Association.

Thirty-seven Cal Poly students are among a total of 393 from the California State Colleges who are presently preparing for participation in the college system's international studies program. They left San Francisco this week to begin a year of study at University of Florence, Italy; University of Waseda, Japan; University of Aix-Marseille, France; University of Upsala, Sweden, and National University, Formosa. Majors represented among the Cal Poly students include architecture, English, social sciences, mathematics, agricultural business management, biological sciences, business administration, education, and home economics.

NEXT ISSUE OF "STAFF BULLETIN" SCHEDULED FOR SEPTEMBER 17

Publication date for the next issue of "Staff Bulletin," according to present plans, is September 17. Copy intended for inclusion in that edition must be in the Public Information Office, Room 210, Administration Building prior to 12:00 noon, September 11.

WHO ... WHAT ... WHEN ... WHERE? ? ? (Continued from Page 5)

In Yu Yang and Robert H. Wohleb, Jr., who received their BS degrees in biochemistry from Cal Poly in June, have received major graduate scholarship awards and are expected to begin study for graduate degrees next month. Yang was awarded a fellowship for graduate study at Iowa State University and will begin work for a doctoral degree in biochemistry, while Wohleb received a grant for graduate study from University of California at Davis and will study for his master's degree in food science and technology.

Two Thoroughbred colts from Cal Poly earned $8,900 in the annual yearling sale of horses at Del Mar race track earlier this month. One, sired by Crazy Kid and out of Silver Flight, was sold to Peter Doyle of Lodi for $5,000. The May Stock Farm of Acampo paid $3,400 for the other colt, which was sired by Colorado King out of City Weather. The two Cal Poly yearlings were among 145 auctioned during the sale.

Six Tunisian students who are enrolled at Cal Poly will study various aspects of agriculture in Fresno, Tulare, and Kern Counties the next two weeks. All studying at Cal Poly under programs of the United States Agency for International Development, they will be accompanied on the tour by Joe Early of the College AID Office staff. Their visits will open in the Fresno area Tuesday (September 3) and conclude near Bakersfield, September 12.

Sgt. Charles Crawford, Military Science, a veteran of 19 years service with the US Army, re-enlisted for another 3 years of duty during a brief ceremony held on campus this week. The oath was administered by Col. Robert W. Green, head of the Military Science Department and professor of military science. Crawford has been a member of the military science staff on campus since 1962.
Employment opportunities exist in the positions described below. Interested applicants should contact the Personnel Office in Room 111, Administration Building, or call Extension 2236.

**Equipment Technician II**

This position is located in the Physics Department of the School of Applied Sciences. The primary duties of the equipment technician are described below:

1. To maintain and repair a large variety of electronic, nuclear, optical, and X-ray equipment;
2. To design and build teaching aids for illustrating principles of optics, electronics, mechanics, and other scientific theories;
3. To set up experiments for an average of sixty laboratories per week, to order and maintain a stock of lab materials such as instrument parts, to inventory radioactive materials utilized in lab experiments;
4. To supervise student assistants engaged in fabricating new parts in the machine shop for the department's various equipment; to maintain time cards for student readers in the Physics Department; to assist students with their senior projects, suggesting any modifications in the mechanical aspects of the projects which will increase their effectiveness.

Applicants for the Equipment Technician II position should have a broad background and be technically competent in the fields of electronics, mechanics, optics, and physics. The individual filling the position should be able to assume responsibility for maintaining equipment with an extremely high asset value. The position also requires that a great deal of discretion be displayed in regard to the handling of radioactive material of an extremely sensitive nature. The monthly salary range for the position is $710 - $863.

**Stock Clerk Position**

This position is in the shipping and receiving area of the Business Services Department of the Business Management Division.

Duties include:

1. Receiving, storing, issuing, and shipping of supplies;
2. Maintaining invoices, written records, and reports;
3. Taking inventories and performing related tasks.

Experience of applicants should include the awareness of practices and methods used in the shipping and receiving of various kinds of property and materials, and the proper handling of the different kinds of supplies.

Applicants for this position should be in sound health, should have completed the twelfth grade or the equivalent education, should be dependable and responsible, be able to take direction, and follow oral and written orders.

The monthly salary starts at $480 and goes to $584.
