COMMENCEMENT SEASON ACTIVITIES IN FULL SWING

With Commencement but a few days away, the 1,261 degree candidates of the San Luis Obispo Campus are in the midst of a busy week of activities and round of final examinations. Graduation ceremonies will take place Saturday (June 18) beginning at 1:30 p.m., in Mustang Stadium.

First event of "Senior Week" on campus was the conferring of "Pushing Hubby Through Degrees" on the wives of graduating students during a brief ceremony which took place Sunday (June 12) afternoon on the lawn in front of the campus Library. Cal Poly President Julian A. McPhee presented each wife with a "diploma" symbolizing her "graduation from being a student wife.

Thursday (June 16) will find members of the Class of 1966 enjoying their Senior Barbeque, scheduled for 12:00 noon, at Cuesta Park in San Luis Obispo, and other social activity. The barbeque, a traditional event among Senior Week activities, will feature barbequed New York strip steak.

Friday (June 17) activities will begin with rehearsal for commencement starting at 11:00 a.m., in Mustang Stadium. Planned for that afternoon are Baccalaureate and presentation of the Class of 1966 gift to the college and the Tree Planting Ceremony, all traditional parts of commencement activity. Dr. K. F. Gray of San Francisco will be the principal speaker for Baccalaureate, which is scheduled for 2:00 p.m., in the campus Theater. Dr. Gray is pastor of Trinity Methodist Church in the Bay City. The gift presentation and Tree Planting Ceremony will take place immediately following Baccalaureate outside the Theater. Climax of Friday's activities will be the Senior Ball, being planned for 8:30 p.m., that evening, at the Madonna Inn, San Luis Obispo.

The Senior Breakfast, slated for 8:00 a.m., Saturday, in the Student Dining Hall, will get commencement day off to an early start. Various members of the college faculty and administrative staff traditionally serve the meal and announcement of a number of honors and awards for members of the graduating class will be announced during a short program which will follow. Highlight of Saturday's activities and climax of Senior Week will be 60th Commencement that afternoon. President Julian A. McPhee, who will retire July 1, will deliver the Commencement Address and award diplomas to candidates for the Master of Arts in Education, Bachelor of Architecture, Bachelor of Education, Bachelor of Science, and Bachelor of Vocational Education Degrees and the two-year Technical Certificate.

Largest in history of the college, this year's group of graduates includes 131 candidates for the Master of Arts in Education; 1,065 for the Bachelor of Science; 12, for the Bachelor of Education; 7, for the Bachelor of Architecture; 1, for the Bachelor of Vocational Education; and 45, for the Technical Certificate. Residents of 50 California counties, 36 of the United States, and 32 foreign nations are among the candidates.
Russell Anderson, Norman Cruikshanks, and George Mach, members of the faculties of the Animal Husbandry, Social Sciences, and Mathematics Departments, respectively, were honored as the San Luis Obispo Campus' "outstanding teachers" of 1965-66 during the meeting of the Faculty-Staff Council, held last week. Each will receive an award of $500, made possible through the Distinguished Teaching Awards faculty honors program established this year by the California State Colleges.

A graduate of University of Minnesota who received his PhD at Iowa State College, Dr. Anderson has been a member of the Animal Husbandry Department's faculty since 1955. Prior to joining the Cal Poly staff, he was in the US Air Force and a member of the faculty at Iowa State University.

Dr. Cruikshanks, who is a graduate of University of California and gained his EdD at Stanford University, became a member of the campus faculty in 1947. He formerly taught in high schools at both Sacramento and Fort Bragg, and after coming to Cal Poly, he was head of the Social Sciences Department from 1951 to 1963.

Dr. Mach, a member of the Cal Poly faculty since 1954, is a graduate of Iowa State Teachers College and received his PhD from Purdue University in 1963. He has experience as a National Science Foundation faculty fellow, as a teaching assistant at Purdue, and as an officer in the US Navy.

John L. Merriam of the Agricultural Engineering Department, one of the first to receive the "outstanding teacher" award after its inauguration in 1963, was chairman of the F-SC committee which made the selections. Others who have received the honor include Robert E. Holmquist, who was honored with Merriam for 1963-64, and Joy O. Richardson and Milo Whitson, for 1964-65.

FACULTY, STAFF RECEIVE SPECIAL INVITATION TO ATTEND BACCALAUREATE, COMMENCEMENT

Members of the campus faculty and staff have received a special invitation to attend Baccalaureate and Commencement activities scheduled for Friday and Saturday (June 17-18) afternoons, respectively. Baccalaureate will take place in the campus Theater beginning at 2:00 p.m., Friday, while Commencement is being planned for 1:30 p.m., Saturday, in Mustang Stadium.

Issued by a spokesman for the Class of 1966, the invitation pointed out that the limited number of seats available in the Theater had necessitated use of tickets for admission to Baccalaureate. Those planning to attend, may obtain tickets by picking them up at the Associated Students, Inc., Office on or before Thursday (June 16).

SALE OF PARKING PERMITS FOR SUMMER QUARTER BEGINS

Parking permit decals for the Summer Quarter are now available and may be purchased from the state cashier in the Cashiering Area located on the lower floor of the Administration Building, according to information released last week by the Business Management Division. The announcement suggests that those planning to be on duty during the quarter will be able to avoid standing in line when they buy their permits by purchasing them now.

Enforcement of campus parking regulations will begin with start of classes next Tuesday (June 21).
A S I HONORS PRESIDENT MCPHEE, THREE OTHER MEMBERS OF FACULTY, STAFF

President Julian A. McPhee and three other members of the campus faculty and staff were among those honored during the 14th annual Spring Awards Banquet of the Associated Students, Inc., held on campus earlier this month. Joining President McPhee among the honored for the occasion were Harold P. Davidson, head of the Music Department; Douglass W. Miller, coordinator of publications for the college; and Robert R. Adams, chief of maintenance for the San Luis Obispo Campus.

Special resolutions recognizing their long and devoted interest and many accomplishments on behalf of Cal Poly's students were presented to both President McPhee and Davidson, who initiated both the annual Music Tour and Home Concerts. Individually prepared, the resolutions were presented to the president and to "Davy", as his students and friends affectionately refer to the Music Department head, and have also been transmitted to the appropriate record and historical depositories on campus.

Dr. Miller and Adams were honored for their service to student activities organizations during the past year. Adams received the "Charles E. Plath Memorial Staff Award" for his "voluntary service, guidance, stimulation, assistance, and understanding beyond that expected of a staff member" and "performance in an activity which serves the broadest cross-section of the Associated Students, Inc." Dr. Miller received the "Faculty Advisor of the Year Award" for his activities as advisor of the campus Circle-K Club. His selection was based on the same criteria as the Plath Award, plus "services of a completely voluntary nature beyond that of a departmental or administrative assignment."

In addition to recipients of the "Who's Who" Awards, junior Dave Bush was honored as "Outstanding Mustang of the Year" for his organization of the College Union's "American Scene '66" project.

RETURN OF KEYS BY STUDENT ASSISTANTS REQUESTED

A reminder issued earlier this month by the Maintenance Department asked that supervisors of student assistants who have been issued keys to campus buildings and facilities be sure to arrange for return of those keys prior to the time the students leave campus for the summer vacation period. Return of such keys is extremely important to continued enforcement of campus security measures, according to the reminder.

DETAILS OF RECREATIONAL, INSTRUCTIONAL SWIMMING PROGRAMS FOR SUMMER ANNOUNCED

Details of the Physical Education Department's instructional and recreational swimming programs for the summer months were announced by Robert Mott, head of the department, last week. Both programs will be open only to Cal Poly students, faculty, and staff, and their bona-fide dependents.

The recreational program, which will begin next Tuesday (June 21), will be from 2:00 to 4:00 p.m., daily, Monday through Friday, through July 29, while the instructional program for both beginning and intermediate swimmers, also scheduled to begin next Tuesday, will run from 10:00 a.m. until 12:00 noon, Monday through Thursday, through July 22. Youngsters must be four feet tall to be eligible to participate in either program.

Again this summer, current swimming permits will be required. They may be obtained at the pool next Tuesday or any time thereafter.
BUSINESS MANAGER ISSUES REMINDER ON DUPLICATION OF STATE KEYS

Donald S. Nelson, campus business manager last week reminded members of the faculty, staff, and student body of college policy which prohibits duplication of keys to campus facilities and buildings. Nelson’s reminder reads:

"Your attention is drawn to section 305.15 (A.5) of the Employees’ Handbook, which provides that keys may not be duplicated and points out that offenders will be disciplined. San Luis Obispo Area merchants have reported requests to duplicate state keys from both students and faculty in recent weeks. Your help in the control of keys is most important."

THIS ISSUE OF "BULLETIN" IS LAST OF 1965-66

This issue, last of the 1965-66 academic year, closes the 16th consecutive year of publication for Staff Bulletin. Deadline for articles intended for use in the initial issue of 1966-67, being planned for September 20, will be noon, September 15. They should be in the Public Relations Office, Room 216, Administration Building, by that time.

RETURN OF OVERDUE LIBRARY BOOKS REQUESTED

College Librarian L. Harry Strauss has issued a reminder to members of the faculty and staff regarding the necessity of returning overdue library books. Strauss’ statement reads:

"Staff members are reminded that all books on loan, except those stamped with a due date later than June 13, are now overdue. The Employees’ Handbook specifies that, 'all books charged out to faculty and staff must be returned by the first day of final examinations in June for annual circulation inventory purposes.' Staff members may renew loans at the time books are returned to the Library."

VARSITY GRID SLATE INCLUDES 10 CONTESTS

A schedule that is almost a carbon copy of that of last fall faces Head Coach Sheldon Harden and his varsity footballers beginning in September. Ten opponents are listed for repeat performances with the Mustangs on a slate made up of five non-conference tilts and as many California Collegiate Athletic Association games. Six home encounters are included.

For the fourth consecutive campaign, Cal Poly will draw San Francisco State College in its opener, which has been set for September 17, in Mustang Stadium. The entire 1966 schedule for the Mustang gridmen includes:

Harold J. Watson, Physical Sciences, has received a United States patent on a method of imparting long-lasting fungicidal or bactericidal activity to textiles. His second patent assigned this year, Patent No. 3,253,009, issued May 24, is the result of work done jointly with Thomas C. Allen, while both Dr. Watson and Allen were working at Dan River Mills, Danville, Va. The method consists of creating a chemical bond between the cellulose of a textile, and a fungicide or bactericide, so that the active agent is not easily removed.

R. Wallace Reynolds, Mechanical Engineering, expects to attend the annual national convention of the American Society for Engineering Education, scheduled for next week, June 20-24, at Washington State University, Pullman, Wash. He is a member of the Industrial Relations Committee of ASEE's Graphics Division and plans to participate in meetings of that committee, as well as other convention sessions.

Alan D. Miller, Mathematics, took part in meetings of the fifth annual California Conference on Higher Education, held early in May, in Los Angeles. A variety of topics, ranging from student activities to "The Teacher in Institutional Policy" and the challenges that face higher education in the next decade were discussed during the two-day conclave.

Sgt. Major Raymond A. Baker, Military Science, will retire from active duty with the Army, July 1, after a career of 27 years duration. Sgt. Baker, who has been a member of the department's staff since July, 1964, has been ranking non-commissioned officer of the campus ROTC Instructor Group since that time.

Mrs. Dorothy S. Wright, Library, will retire from the college staff effective September 1. A member of the campus Library staff for 20 years, she currently is serving as head reference librarian and has been instrumental in development and maintenance of the Library's archives collection, which contains a sizeable amount of historical material and documents on Cal Poly.

CONSTITUTION OF C S E A CHAPTER REVISED

A new constitution for Chapter 97 of the California State Employees Association was approved and recommended to the chapter's membership during a meeting of that group's executive board held recently. The chapter's membership will vote on adoption of the new constitution during its next luncheon meeting, being planned for noon, July 11, in the Student Dining Hall.

The revised constitution for Chapter 97 is the result of work of a committee, composed of Vance Lewis of the Physical Sciences Department; LaVerne Bucy, Animal Husbandry Department; and William Alexander, Social Sciences Department, carried on over the past 10 months. Any member of the chapter who wishes to examine a copy of the revision before its ratification is invited to contact either George Beatie, campus coordinator of special services who is president of the local chapter; Bill Troutner, a member of the Crops Department faculty who is chapter vice president; Doris Anderson of the Personnel Office, chapter secretary; or Catherine Nolan of the Business Management Division, who is chapter treasurer.

Two copies have also been placed in the Faculty Reading Room of the Library and may be examined there.
CAL POLY WOMEN'S CLUB NOTES

Announcement -- Wives of all employees, including both faculty and staff and all women employees, are cordially invited to become members of the Cal Poly Women's Club for the 1966-67 year. Among the club's activities are a family picnic and family Christmas party with the campus' international students, a musical program by the Women's and Men's Glee Clubs, a party with members' husbands, and the May Luncheon honoring outstanding women students. These are in addition to a number of other fine programs and special interest sections including the Books, Music, and Art; Bridge; Home and Garden; Newcomers; Sewing; and Travel Sections; and the Walking Group; which are part of CPWC's program. Those who wish to do so are invited to send their dues, amounting to $4.00 for the year, and the form attached to this week's Staff Bulletin, to Mrs. Robert Matheny, 104 Rafael Way, San Luis Obispo.

Bridge Section -- Those who would like to play bridge during the summer are invited to contact Mrs. Peter Molnar (543-2081) or Mrs. Louis Miller (543-0668).

MAY "C S C REVIEW" DISTRIBUTED ON CAMPUS

Copies of the May, 1966, issue of the California State Colleges Review arrived on campus last week and are being distributed. Since the number of copies received is not adequate to distribute CSC Review as an attachment to Staff Bulletin, as the practice had previously been, copies have been sent to individual campus departments for further distribution to members of the faculty and staff. Additional copies are also available in the Faculty Reading Room of the Library and in the Public Relations Office, Room 216, Administration Building, for those who have not received them through the distribution channel.

NOTES FROM THE KELLOGG AND VOORHIS CAMPUSES

David Church, a member of the faculty of the Kellogg Campus' Language Arts Department, has been elected vice president of the Pacific Southwest Collegiate Forensic Association for 1966-67. One of four identical week-long seminars, based on the idea of "Getting Work Done Through People," will be held for supermarket management personnel, August 7-12, at the Educational Center (Voorhis Campus). Sponsored by SIU Education Division, each of the sessions will be on the campus of a leading institution of higher education. Other seminars will be at University of Mississippi, Washington University of St. Louis, and University of Connecticut. Sam Bellman also of the Kellogg Campus' Language Arts Department faculty, is editor of a new anthology of scientific writing titled Survey and Forecast. Just published by Chandler Publishing Company of San Francisco, the book is designed for use in college composition and technical writing courses and features essays by several well-known scientists.

MAILAND COMMENDED FOR SUGGESTION

Walter C. Mailand, a member of the campus Custodial Department's staff, has been awarded a Certificate of Commendation by the state Merit Awards Board for his suggestion of an improvement in his department's procedures. He created an appliance which relieved the stress on electrical cords, prolonging their life. In announcing presentation of the award to Mailand, Donald S. Nelson, campus business manager, said, "We congratulate Walter on his resourcefulness and interest in his job."
SUMMER PROGRAM COMMITTEE CALLS FOR FACULTY, STAFF ASSISTANCE

Members of the college faculty and staff have been invited to assist the Summer Program Committee of the student College Union with two of the activities the committee is planning for the next several weeks. Its invitation, included in a letter sent to members of the campus summer faculty and staff last week, reads:

"The College Union Summer Program Committee is in the process of planning this year's summer program.

"One of the most successful events last year were the Wednesday, noon, Dutch Luncheons, held in the Snack Bar. The Committee plans to continue these this year and needs your help. If you have an avocation, a hobby, or an idea you'd like to talk about for approximately 25-30 minutes, and would like a free lunch, too, please let us know. We will have nine speakers altogether -- every Wednesday, beginning June 29 and continuing through August 24. We would like the students to become acquainted with their teachers as individuals who do more than lecture and test, so we welcome subjects from skydiving to spelunking.

"Another idea we'd like to try this summer is a faculty art show. We are tentatively planning it for the second two weeks of August. If you have a hobby, craft, or creative bent that would like to be exhibited, we have the means to do so.

"If you have something to contribute to either or both events, please contact our advisor, Miss Cleo Bauer, in the Activities Office, ext. 2476. We would like to get our speakers lined up soon, so we hope to hear from you in the very near future."

MUSTANG COWBOYS WILL ENTER NATIONAL CHAMPIONSHIPS

With an eye on dethroning three-time champion Casper (Nyo.) College, the San Luis Obispo Campus will enter a full six-man team in the National Intercollegiate Rodeo Association's national championship finals, slated for June 30-July 4, in Vermillion, S.D.

While overwhelming the NIRA's West Coast Region field during the regional finals late last month at Pierce College in Woodland Hills, the Mustang cowboys qualified 12 men in the 18 open spots. Only six of them may perform as a team, but the other six may compete as individuals if they wish. Of the remaining regional teams, Mesa (Ariz.) Community College qualified three men, Arizona State University, two, and University of Arizona, one.

Teams from as far east as Louisiana will compete in the national finals which saw Cal Poly finish third last summer.
