Two changes in the organizational structure of the college instructional program were announced yesterday (Monday, February 13) by Dale W. Andrews, vice president and chief executive officer of the college. The revisions result in changing of the names of the college's four instructional divisions to the Schools of Agriculture, Engineering, Applied Arts, and Applied Sciences, respectively, and establishment of a Chemistry Department.

Finally approved by the office of Chancellor of the California State Colleges Glenn S. Dumke last week, the renaming of the instructional divisions becomes effective immediately, according to Vice President Andrews. He pointed out that renaming of the instructional units would not cause any other changes, either in personnel or other areas, at this time.

Establishment of the Chemistry Department in the School of Applied Sciences will not become effective until start of the Fall Quarter in mid-September. It primarily involves separation of the present Physical Sciences Department into separate departments. Dr. Bruce Kennelly, a member of the college's physical sciences faculty since 1947, has been appointed to head the new department. Dr. Woodford E. Bowls, who has been head of the Physical Sciences Department since 1947 and a member of the college faculty since 1937, will continue as head of that department. In keeping with the change, the Physical Sciences Department will be renamed the Physics Department when the realignment takes place.

Discussing the new departmental structure in his school, Dr. Clyde P. Fisher, dean of the School of Applied Sciences, said growth of the Physical Sciences Department's teaching load, programs, faculty, and facilities all combine to make the change an advisable one at this time. Dean Fisher said that the department now has a faculty of 35 members and, in addition to its role as a service department for general education and other departmental major requirements, now has more than 120 students enrolled in its curricula leading to the Bachelor of Sciences Degrees in Physics, Chemistry, and Biochemistry. Under the realignment, the Physics Department will continue to offer the degree in that subject and the new Chemistry Department will offer the two chemistry degree curricula.

(Continued on Page 2)

"OUTSTANDING TEACHER" NOMINATION FORMS BEING DISTRIBUTED

Cal Poly's Outstanding Teacher Recognition Award Committee last week issued a call for nominations from those members of the college student body, faculty, and staff who wish to make them. In addition to being distributed as an attachment to this issue of Staff Bulletin, forms for making nominations may be secured from General Office I or from George Mach, a member of the Mathematics Department faculty who is a member of the committee.

Deadline for receipt of nominations, which may be mailed to "Chairman, Outstanding Teacher Recognition Award Committee, c/o General Office I," is March 1.
START OF NEW TAX-DEFERRED ANNUITY PROGRAM PLANNED MARCH 1

March 1 is the starting date for the recently-developed tax-deferred annuity program of the California State Colleges, according to information received on campus recently. Some 23 different annuity firms are eligible to participate in the program which will be available to full-time members of the college faculty and staff.

Information available on campus at this time is sketchy as far as some details of the program are concerned. It is known, however, that an issue of the CSJC Review, expected within the next few days, will carry a complete description of the program, its benefits, and its advantages.

Presently-available information is clear on one point however. Representatives of the participating annuity firms will not be permitted to solicit members of the faculty and staff prior to an expression of interest in a particular firm's program by the employee concerned. Members of the college faculty and staff will also not be permitted to advise employees, suggest possible benefits, or explain possible tax results that might accrue from participation in the program.

As quickly as additional information is received, it will be made available to the faculty and staff of the college.

REGISTRAR ISSUES REMINDER ON WITHDRAWALS

Registrar F. Jerald Holley last week issued his quarterly reminder on the college policy regarding withdrawal from courses. In his announcement, Holley pointed out that "except for college recognized emergencies, no withdrawals from a course will be permitted after the end of the seventh week of instruction."

"It is important that the instructional staff of the college be aware that 12:00 noon Saturday, February 25, is the deadline for withdrawals," the registrar concluded.

INSTRUCTIONAL DIVISIONS RENAMED (Continued from Page 1)

Returning to his discussion of the renaming of the former instructional divisions, Vice President Andrews said the last such change in the primary organization of the college came in 1961 when the Arts and Sciences Division was separated to form the Applied Arts and the Applied Sciences Divisions.

In addition to the benefits to the prestige and stature of the various schools, Dr. Andrews said the designation as schools was more in keeping with current practice in higher education. He added that growth in all four schools had been marked in recent years. The most dramatic example of such growth is the School of Applied Arts, which had an enrollment of 617 students and a faculty of 60 in 1961. Under its dean, Dr. Carl C. Cummins, it has grown since that time to the point that it had 2,398 students and a faculty of 140 members during the Fall Quarter of the present academic year.

Fall Quarter figures for the other schools show that the School of Agriculture, under its dean, Warren T. Smith, had a student body of 1,674; the School of Applied Science, under Dr. Fisher, had 1,329 students; and the School of Engineering, under its acting-dean, Dr. John B. Hirt, had 2,339 students.
Two statements concerning Governor Ronald Reagan's proposal that employees of the State of California voluntarily work on the Lincoln's Birthday and Washington's Birthday Holidays, February 13 and 22, arrived on campus shortly after 4:00 p.m., last Friday. They included a statement, signed by Phillip Battaglia, the governor's executive secretary, explaining the proposal, and a second statement clarifying the actual application of the proposal to employees of the California State Colleges, received from the office of Chancellor Glenn S. Dumke.

Received at 4:15 p.m., Battaglia's statement read:

"The California State payroll is $3,662,982.56. The payroll for the State of California is larger than that of many of the countries of the Western Hemisphere. In an attempt to achieve the maximum workload output for dollars spent by the State, we are requesting that all State employees voluntarily come to work on Monday, February 13, and Wednesday, February 22. This should not be considered as a mandatory order.

"It is suggested that all offices be kept open and any employee who voluntarily chooses to work may do so. This request is made in order that all State operations may continue on Monday, February 13, and Wednesday, February 22. Needless to say, offices and services dealing with the general public will not be open on these two days. If state employees voluntarily do come to work on the two days referred to, it should mean in excess of $7,000,000 of work production to the taxpayers of this State. Historically, members of the Legislature have worked on these two days, and in addition the Governor's Office will remain open also. Of course, anyone volunteering his time will not be eligible for compensating time off or overtime.

/s/ Phillip Battaglia"

The accompanying statement asked that the statement from the governor's office, which was not received in offices of the California State Colleges in Los Angeles until 1:00 p.m., Friday, be called to the attention of faculty and staff of the college as soon as possible.

Concerning application of the suggestion to individual situations, it suggested that if the college is open on either of the holidays and the employee has intended to or is scheduled for compensating time off as is normally provided, then that normal procedure should be followed. If, however, the employee chooses to volunteer his services in accordance with the governor's suggestion, he should notify his time-keeper or payroll clerk in writing that he wishes to waive his compensating time off for that day. If the college is closed, or if he is not scheduled to work but chooses to donate his services, he may do so.

SUMMARY OF STATEWIDE ACADEMIC SENATE ACTIONS DISTRIBUTED

Copies of the "Summary of Actions" taken by the statewide Academic Senate of the California State Colleges during its meeting of November 17-18, 1966, arrived on campus last week and, to the extent that the number received will permit, are being distributed as an attachment to this issue of Staff Bulletin. Those who do not receive a copy, but wish to, are invited to contact the Public Relations Office, which has a small supply of extra copies.
MOVE OF LOCATION FOR DISTRIBUTION OF OFFICE SUPPLIES ANNOUNCED

Effective tomorrow (Wednesday, February 15) the distribution point for office supplies used in the various offices of the college will be moved to Room 127 of the Administration Building.

Relocation of the distribution point for the supplies to the new locale, which is on the hallway which runs between the elevator location and the Mail Room, is necessitated by the projected move of the Personnel Office into part of the area formerly occupied by General Office I.

A forthcoming issue of Staff Bulletin is expected to carry further information regarding changes of locations of several offices of the Business Management Division housed on the lower level of the Administration Building.

STUDENT BOARD ISSUES CALL FOR COLORED SLIDES OF POLY ROYAL ACTIVITIES

Members of the college faculty and staff who have good, 2x2 colored slides of various activities and events connected with Poly Royal have been invited to make short-term loans of them to the Poly Royal Board. The board, which is presently making plans for promotion of this year's open house event throughout California, is especially interested in slides which are typical of Poly Royal and which it might have long enough to copy.

Poly Royal Advisor Frank Fox emphasized last week that all slides loaned to the board will be returned in the same condition they were received, within 30 days or so.

Those who have slides they are willing to loan for use in promotion of this year's Poly Royal are requested to forward them to Fox, a member of the Animal Husbandry Department faculty, as soon as possible. All slides should be marked for identification so they can be returned to their owners without being lost.

BLOOD BANK VISIT TO CAMPUS SLATED FOR THURSDAY

A blood donation drive will be held on campus Thursday (February 16). Scheduled for 9:30 a.m. to 3:30 p.m., in the College Health Center, the drive will be jointly-sponsored by the student Applied Arts Council and the American Chemical Society chapter who have set 150 pints as their goal.

Over the past two years, the average number of pints donated during the bank's visit to Cal Poly has been 90 pints. This year, however, the sponsoring student groups plan to replenish the Cal Poly account in the Tri-Counties Blood Bank. Willard Maples, who graduated at the close of the Fall Quarter and is a hemophiliac or "bleeder," used the 87 pints in the Cal Poly fund. The goal of this week's drive will be to replenish that amount and to add to the quantity of blood available to all faculty, staff, and students of the college.

Sign-up booths for the drive are located in Dexter Memorial Library, the Campus Post Office, the College Health Center, the Snack Bar, and in the Coffee Bar located in the Agricultural Education Building. Those who wish to make donations are requested to sign up no later than today (Tuesday, February 14). Donations of blood will be accepted without previous sign-up if time and facilities permit. Members of the faculty and staff are both invited and encouraged to take part in the drive.
NATIONALLY PROMINENT SPEAKER WILL ADDRESS CAMPUS AWARDS DINNER

Stary Gange, a special consultant to the Southern Counties Gas Company, will be guest speaker for the annual Awards Banquet of the Collegiate Chapter of the Future Farmers of America of Cal Poly. His topic for the banquet, which is scheduled to begin at 7:00 p.m., Thursday (February 16), at the Elks' Club in San Luis Obispo, will be "The Past is Prologue."

Awards that will be presented during the evening include special honors to agricultural education students in three different categories, and honorary memberships. The outstanding student awards will go to one student each in the upper division and lower division and to a graduate student.

Gange is a past-member of the panel of speakers of the United States Chamber of Commerce. A prominent olive grower and civic leader in Tulare County, he is particularly known for his enthusiastic presentations about America's future. His talks have been heard by national and regional groups during conventions and by clubs in both large and small communities.

Reservations for the banquet may be made by contacting Byron Harrison of the Agricultural Education Department faculty no later than this (Tuesday, February 14) afternoon. Cost for the banquet will be $3.50 per person.

AGRICULTURAL EDUCATORS FROM INDIA, PAKISTAN ARRIVE FOR SPECIAL PROGRAM

Seven agricultural educators from Pakistan and India will arrive on campus Saturday (February 18) to begin a special four-week course in agricultural extension education. Jointly-sponsored by the participants' home nations and the United States Agency for International Development, the program is intended to help increase the participants' knowledge of agricultural principles and techniques.

Crops and livestock will be stressed during the program, according to William Kirkpatrick, coordinator of AID programs for the college. Kirkpatrick said that James Merson, retired head of the Agricultural Engineering Department of Cal Poly and a former agriculture teacher himself, will be instructor-coordinator for the course.

All seven of the participants in the program, which is scheduled to end March 17, are agricultural extension specialists in their homelands. From India, they are Manakendra Banjerjee, district agricultural officer, Jalpaiguri; Hyalyada Mahabaleshwariah, lecturer, Extension Educational Institute, Nilokheri; Krishnaswamy Perumal, principal, Rural Extension Training Center, Madras; Ganpatrao Hammataao Shinde, principal, Gramsevak Training Center, Gwalio; and Mallayala Venkata Sankarayya, instructor in animal husbandry, Kalcinada. Participants from Pakistan will be Md. Abdul Gafur Khan, district agricultural officer, Barisal, and Mohammad Jamil Akkil of the Sub-divisional Agriculture Office, Dacca.

Their course at Cal Poly will include lecture, seminar, and demonstration sessions with selected members of the college faculty. Among them will be sessions on agricultural mechanics, crop production, and the broad area of animal husbandry and dairy husbandry.

Information regarding the correct Zip Code number for any city in the United States is as close as the telephone. Those wishing to secure such information may do so by calling the San Luis Obispo Post Office (543-1882).
FINALISTS FOR POLY ROYAL QUEEN HONORS SELECTED; ELECTION SLATED NEXT WEEK

Five finalists in the competition to select a campus coed to be named "Miss Cal Poly, Queen of Poly Royal," were selected during a pageant which took place on campus last Friday evening. They are Helen Carter, a home economics major; Linda Dula, a social sciences major; Marilyn Kidder, a home economics major; Nancy Jean Liggett, a social sciences major; and Rosemary Turk, an English major.

All seniors, they now become candidates in an election during which members of the campus student body will determine which will become "Miss Cal Poly." The other four will become members of her court and will assist her in her official duties as queen of Poly Royal. The election will take place next Monday and Tuesday (February 20-21).

Planning for this year's Poly Royal, which will take place April 28-29, is progressing nicely, according to reports from the student Poly Royal Board. A number of new exhibits and other activities are being planned by various campus organizations. In addition, the traditional events which have become identified with the annual open house festival are all expected to be back in all their splendor. Forthcoming issue of Staff Bulletin will carry articles designed to keep members of the campus faculty and staff informed as plans for this year's Poly Royal become final.

DISCUSSION OF SAN LUIS OBISPO PLAZA PROJECT PLANNED FOR STAFF CLUB LUNCHEON

Ken Schwartz, a member of the faculty of the Architecture and Architectural Engineer: Department, will be the guest speaker for the Staff Club Luncheon meeting being planned for Thursday (February 16), starting at noon, in the Staff Dining Room. He is expected to discuss the proposed development of a "Mission Plaza" area for the City of San Luis Obispo.

Schwartz has been an active participant in both college and community affairs for the past several years. Having been a member of the Planning Commission of the City of San Luis Obispo for some time, he is presently chairman of the group and is known throughout the area for his interest in community planning.

UC SCIENTIST WILL ADDRESS CAMPUS GROUP

Dr. K. F. Meyer of the University of California Medical Center in San Francisco will be guest speaker at the meeting of the student chapter of Beta Beta Beta on campus tomorrow (Wednesday, February 15) evening. The meeting of the organization of persons interested in biological sciences is planned for Room B-5 of the Science Building, starting at 7:30 p.m.

Dr. Meyer, a pioneer in the expanding field of bacteriology, will speak on "Newer Knowledge Concerning Plague." Also one of the world's foremost authorities on sylvatic plague, he is a consultant to the World Health Organization and recently worked on bubonic plague in Russia. He formerly worked with the Hooper Foundation for Medical Research at the University of California and with the California State Public Health Department.

All interested members of the college faculty and staff are invited to hear his presentation.
BARGAIN NIGHTS FOR SPORTS FANS SET THIS WEEK

Two bargain nights for campus sports fans will take place this week, according to an announcement issued earlier this month by the office of Robert Spink, graduate manager for the Associated Students, Inc. Scheduled for tonight (Tuesday, February 14) and Friday (February 17) night, they will both provide members of the campus community interested in athletic events savings on normal admission prices.

All members of the California State Employees Association, regardless of where they are employed, will be admitted to the Cal Poly-Westmont College basketball game, this evening, at a reduced rate of $.50. The second special night provides a first-ever twinbill featuring the Cal Poly vs. San Diego State College basketball game and the Cal Poly-Oregon State University wrestling match at a general admission rate of $1.50 per person.

Information regarding both events, which will take place in Men's Gymnasium, is contained in another article appearing in this issue of Staff Bulletin. Additional information on either or both events may be obtained by contacting the Associated Students, Inc., Office (546-2411).

REVIEW OF "WHO DESIGNS AMERICA" PLANNED FOR "BOOKS AT HIGH NOON" GATHERING

Who Designs America, edited by Laurence B. Holland, will be reviewed during the Books at High Noon luncheon meeting being planned for next Tuesday (February 21), starting at noon, in the Staff Dining Room. Benjamin Polk, a member of the Architecture and Architectural Engineering Department faculty, will be the reviewer.

Discussing the book, Saturday Review commented recently: "The architects, city planners, and cultural philosophers who attended the Design in America symposium at Princeton (University) in 1964 were concerned with the face of the nation. Who Designs America presents 10 essays from the conference which comprise a lively discussion of the look of things, from a cigarette package to an urban development."

On today's (Tuesday, February 14) program Willard Pederson, who is head of the English and Speech Department, will review William R. Manchester's The Long Gainer. Starting time and place for today's meeting are both the same as those announced for next week's luncheon.

CU DRAMA PRODUCTION WILL OPEN FRIDAY NIGHT

"House of Bernarda Alba," a tragedy drama by Garcia Lorca, will open its two-night run on campus Friday (February 17) evening. The play, sponsored by the student College Union Drama Committee, will begin at 8:30 p.m., each evening, in the campus Theater, and will feature a cast composed entirely of women. Admission will be either $1.50 per person or a campus drama season ticket.

The play, directed by Dennis Dickenson, a junior majoring in social sciences, is set in Spain. Its plot revolves around Bernarda Alba and her five daughters, during the eight-year period of mourning for her husband. All daughters love the same man, and conflict arises when the oldest, Angustias, says she will marry him because she has the most money.

Tickets for both performances may be purchased at the Associated Students, Inc., Office or at the Theater box office windows prior to curtain time each evening.
CAMPUS ORGANIZATION PLANS "NATIONAL ENGINEERS' WEEK" ACTIVITIES

National Engineers' Week, sponsored locally by the student Engineering Council of Cal Poly and the San Luis Obispo County Chapter of the California Society of Professional Engineers, will be observed February 19-25. Mrs. Susanne Henshaw, who has been named "Mrs. Engineering" by the sponsoring student group, will reign over the activities being planned for the week.

Already scheduled are a series of professional exhibits and demonstrations, panel discussions, films, and the annual Engineering Banquet, all highlighting the importance of the engineering profession to contemporary life. Most of the activities will take place on campus.

Mrs. Henshaw, the wife of Fritz Henshaw, a junior mechanical engineering major, will be crowned during the banquet which will climax the week-long observance. Presently employed as a medical assistant for a San Luis Obispo physician, she and her husband are both natives of Oakland.

Held each February, National Engineers' Week pays tribute to the country's engineers—the individuals who are involved in solving problems such as air and water pollution, human safety, transportation and highway design, and solid waste disposal, all of which threaten human environment and health.

The week is traditionally celebrated during the period of the birthday of the nation's first president because he was, himself, a trained surveyor and builder. He made land surveys and designed canals, roads, bridges, and fortifications long before the Revolutionary War.

CAL POLY WOMEN'S CLUB SECTIONS LIST EVENTS

Meetings of four of the Cal Poly Women's Club's special interest sections are planned during the next several days, according to a calendar of activities released by the club last week. Among the events listed are meetings of the club's Home and Garden, Bridge, and Newcomers Sections, and its Walking Group.

Home and Garden Section - Mrs. Frederick Wild and Mrs. George Davies will be co-hostesses when members of the women's club's Home and Garden Section meet next. Planned for 9:30 a.m., tomorrow, (Wednesday, February 15), in the home of Mrs. Curtis Morem, 2263 Flora, San Luis Obispo, the meeting will feature a talk on "Refurbishing Old Furniture Finds" by Mrs. Morem.

Bridge Section - Members of the women's club's Bridge Section will hold their next meeting Monday (February 20), starting at 8:00 p.m., in Room 129 of Dexter Memorial Library.

Walking Group - Next meeting of the CPWC's Walking Group will find members gathering at 9:00 a.m., next Tuesday (February 21) morning for a walk in the Lawrence Drive area of San Luis Obispo. Those planning to take part are invited to meet at Hawthorne School.

Newcomers Section - Slides and a talk on her recent trip to Russia and Europe will be presented by Mrs. Richard I. Leach during the meeting of the women's club's Newcomers Section being planned for the evening of February 22. The meeting, which will take place in the home of Mrs. John B. Hirt, 105 Fel Mar Avenue, San Luis Obispo, is scheduled to begin at 8:00 p.m.
E. James Houseberg of Salinas, assistant manager of the Grower-Shipper Vegetable Association of Central California, will be guest speaker for a quarterly program for agriculture students being planned for tomorrow (February 15) evening. "Emerging Horizons in Farm Equipment" will be his topic for the program which will take place beginning at 8:00 p.m., that evening, in the campus Theater.

A spokesman for the sponsoring student Agricultural Council said last week that admission for the program, to which the public is invited, would be free.

Houseberg, who will also be guest of honor at a dinner meeting of the California Agricultural Teachers Association's Region-at-Large, being planned for the Staff Dining Room at 6:15 p.m., formerly was manager of the California State Chamber of Commerce Agriculture Department. As assistant manager of the growers and shippers association, his present responsibilities include dealing with agricultural mechanization, legislative and public relations, and other matters affecting the association.

A native of Pennsylvania who moved to California during a tour of duty in the United States Navy, Houseberg is a graduate of Lafayette College, Pa., and received his legal training at Hastings College of Law, San Francisco. Prior to beginning his duties with the California State Chamber of Commerce, he spent more than 20 years working in legislative relations for various agricultural organizations. Ten of those years were spent in a variety of assignments with the California Farm Bureau Federation.

"Doctor's View of Medicare" will be the topic when Dr. Harry Fryer, a San Luis Obispo physician and leader in county medical association affairs, addresses the meeting of Chapter 97 of the California State Employees Association, scheduled for tomorrow (February 15), beginning at noon, in the Staff Dining Room.

"Medicare has been in operation for slightly more than six months now and it is now possible to examine the program as far as its successes and flaws are concerned," Howard Rhoads, the program chairman for Chapter 97 and a member of the Crops Department faculty, said last week. "With the recent increase in Social Security deductions it should be interesting to hear how some of these deductions are being put to use--from a doctor's point of view," Rhoads continued.

All members of the campus faculty and staff are invited to attend the meeting.

"The Sacramento Scene: Status of the State Colleges" will be the topic when Robert Phelps, executive secretary of the California College and University Faculty Association, addresses a meeting of the campus chapter of that organization Thursday (February 16) morning. The meeting, which will take place in Room E-27 of the Science Building, will begin at 11:00 a.m., according to Edward Ernatt of the Education Department faculty, who is president of the campus chapter of CCUFA.

Phelps has just returned from Sacramento where he conferred with various members of Governor Ronald Reagan's administration, as well as members of the California Legislature. All members of the college faculty are invited to attend Thursday's meeting.
MUSTANG WRESTLING. CAGE TEAMS RETURN HOME FOR WEEKEND CONTESTS

Cal Poly's varsity basketball and wrestling teams, who return to their home arenas for action this weekend, will be joined by the baseball varsity when it opens its 1967 campaign on the campus diamond Friday (February 17). Coach Bill Hicks' diamondmen will host University of California at Santa Barbara in a game scheduled to begin at 2:30 p.m.

Other action scheduled for this week finds the Mustang cage varsity hosting Westmont College in a CSEA Night game slated for this (Tuesday, February 14) evening, starting at 8:00 p.m., in Men's Gymnasium. Coach Stuart Chestnut's charges return to action Friday evening when they host San Diego State College, and Saturday when they meet California State College at Long Beach in an 8:00 p.m. contest.

After meeting Cal State Long Beach in a match billed for 7:30 p.m., this evening in Crandall Gym, Coach Vaughan Hitchcock's matmen meet Oregon State University in one of the big local sports events of the year Friday night. Billed as a special doubleheader for sports fans, the match will take place in Men's Gym and will immediately follow the Cal Poly-San Diego State basketball game. Last weekend's action saw the Mustang wrestlers post dual meet victories over Fresno State College, Western Washington State College, and University of California at Berkeley.

Additional information regarding tonight's CSEA Night game and Friday night's big doubleheader is included in an article appearing elsewhere in this issue of Staff Bulletin.

VAN WYNGAARDEN WILL BE SPEAKER FOR PHYSICAL SCIENCES SEMINAR

Willem Van Wyngaarden, a member of the Physical Sciences Department faculty, will be the speaker during the Physical Sciences Seminar, which will take place Thursday (February 16), beginning at 11:10 a.m., in Room E-26 of the Science Building. Title of his remarks will be "Radioactive Decay of Cs/134." All members of the faculty, staff, and student body are invited to attend the meeting.

PLACEMENT CALENDAR -- INTERVIEWS ON CAMPUS THIS WEEK

CALIFORNIA PACKING CORPORATION. James M. Corley, assistant to the division industrial relations manager, Berkeley Office, will interview seniors in ABM, agricultural engineering, business administration, crops, FM, food processing, fruit production, IE, MA, and ME interested in a career in food processing. (2/14)

SUMMER EMPLOYMENT: Juniors in food processing interested in summer employment may sign for interviews with Mr. Corley. (2/14)

CALIFORNIA PACKING CORPORATION. John B. Hurley, staff assistant, San Francisco Personnel Office, will interview seniors in ABM, business administration, and other majors interested in the company's Business Training Program. (2/14)

CHARLES PFIZER AND CO., INC. Michael Dowd, district sales manager, will interview seniors in all majors for positions in pharmaceutical sales. (2/14)

(Continued on Page 11)
PLACEMENT CALENDAR (Continued from Page 10)

US NAVAL ORDNANCE TEST STATION, China Lake. Lester G. Garman, supervisory general engineer, will interview seniors in chemistry, aero, EE, EL, ME, math, and physics. (2/14)

SUMMER EMPLOYMENT: Students and faculty interested in summer employment with USNOTS are invited to sign for interviews. All undergraduate applicants for summer positions must have passed the Office and Science Assistant Examination (final filing date was January 9, 1967 for the examination which was given on February 4.) Graduate students and faculty applicants are not subject to any written examination. (2/14)

UNITED STATES PLYWOOD CORPORATION. D. C. Chapman, assistant division controller, will interview seniors in business administration, EE, IE, ME, and TA. (2/14)

WESTERN MICROWAVE LABORATORIES, INC. Santa Clara. Hal Tenney, marketing vice president, will interview seniors in EL. (2/14)

LIBERTY MUTUAL INSURANCE COMPANY. San Francisco. James A. Peck, assistant division claims manager, will interview seniors in business administration, English, social sciences and TA for positions in the Claims Department. (2/14)

THE SHELL COMPANIES. R. D. Bosley, supervisor, economics and statistics, Transportation and Supplies Department, Los Angeles; R. C. Cameron, manager, product accounting, Menlo Park Data Center; and R. L. Wilson, Western Marketing Region personnel representative, Los Angeles, will interview seniors in all agriculture majors, business administration, English, math, social science, and TA for positions in the Financial, Marketing, Transportation, Purchasing, and Personnel and Industrial Relations Departments. (2/14-15)

CALIFORNIA CROP AND LIVESTOCK REPORTING SERVICE. Robert A. McGregor, assistant chief will interview seniors in ABM and all other agricultural majors with at least 9 quarter units in statistics (such as Math 211, 212, ABM 421). (2/15)

WESTERN GEAR CORPORATION, Lynwood. J. J. Kelly, management development specialist, and F. A. Hall, industrial relations manager, Precision Products Division, will interview seniors in business administration, IE, and ME. (2/15)

H.S. CROCKER CO., INC., San Bruno. D. L. Rodgers, personnel director, will interview seniors in business administration, printing, and TA. (2/15)

LOCKHEED MISSILES AND SPACE COMPANY, Vandenberg Air Force Base. Gene Gackle, professional placement representative, and John Gilbert, lead programmer, computer methods staff, will interview seniors in EE, EL, ME, and math interested in employment at the Vandenberg Test Base of Lockheed Missiles and Space Company. A limited number of openings also exist at Cape Kennedy and in Charleston, South Carolina. (2/15)

LINE MATERIAL INDUSTRIES, McGRAW-EDISON COMPANY. R. H. Vernon, field engineer, will interview seniors in EE, IE, ME, and physics. (2/15)

(Continued on Page 12)
PLACEMENT CALENDAR (Continued from Page 11)

LITTON INDUSTRIES, ELECTRON TUBE DIVISION, San Carlos. Don W. Reid, klystrons engineering manager, and Robert J. Moore, personnel manager, will interview seniors in EL and physics. (2/15)

AIRCRAFT ARMAMENTS, INC., Northridge. J. William McNamee, personnel manager, will interview seniors in EL for work in design and development of integrated circuit and related test equipment. (2/16)

ELECTRO-OPTICAL SYSTEMS, INC., Pasadena. Robert J. Bishop, personnel representative, will interview seniors in EE, EL, IE, ME, chemistry, and physics. (2/16)

BAKERSFIELD CITY SCHOOLS. Charles E. Blair, director of education, Department of Instruction, will interview teaching candidates for positions in kindergarten through sixth grades and junior high positions in the areas of vocal and instrumental music, boys and girls PE, Spanish, English, math, art, home economics, library, and special training. (2/16)

US NAVAL ORDNANCE TEST STATION, Pasadena. Marvin L. Hilliger, head, Mechanical and Electrical Branch, Public Works Department, will interview seniors in aero, architectural engineering, EE, EL, ME, math, physics, and WM who are interested in analytical work, applied research, and mechanical or electronic design. (2/16)

USP CORPORATION, San Jose. David C. Devenot, industrial relations manager, will interview seniors in ABM and food processing. (2/16)

SUMMER EMPLOYMENT: Juniors and sophomores in ABM and food processing who are interested in summer employment with USP should contact the Placement Office for information.

TRW SEMICONDUCTORS, INC., Lawndale. Richard D. Fontanesti, personnel manager, and Gary A. Luboff, industrial relations assistant, will interview seniors in EE, EL, IE, and physics. (2/16)

RYAN AERONAUTICAL COMPANY, San Diego. George Sinks, employment supervisor, will interview seniors in aero, business administration (accounting), EE, EL, IE, math, ME, and physics. (2/16)

AMERICAN AIR FILTER. R. J. Heggie, personnel assistant, Defense Products Group, will interview seniors in AC and R, EE, IE, and ME for positions in design, test, research and development in St. Louis, Mo., and Louisville, Ky., and for sales opportunities in major metropolitan locations throughout the country. (2/16)

ROHR CORPORATION. Hank Brady, employment representative, will interview seniors in aero, IE, ME, and WM. (2/16-17)

PACIFIC GROVE UNIFIED SCHOOL DISTRICT. Dr. William C. Carey, assistant superintendent, instruction-personnel, will interview teaching candidates for elementary, junior high, senior high, EMR, and EH positions. (2/17)

VERNITRON CORPORATION, Torrance. Lee Rothman, personnel manager, will interview seniors in EE, EL, and IE. (2/17)

(Continued on Page 13)
PLACEMENT CALENDAR (Continued from Page 12)

SUMMER EMPLOYMENT: Juniors in EE, EL, and IE interested in summer employment with Vernitron may also sign for appointments.

VICTOR VALLEY JOINT UNION HIGH SCHOOL AND JUNIOR COLLEGE DISTRICTS, San Bernardino County. Harvey S. Irwin, district superintendent, will interview secondary teaching candidates in all subject areas. (2/17)

PRATT & WHITNEY AIRCRAFT, Division of United Aircraft Corp. Representatives of the Engineering Department will interview seniors in aero, chemistry, EE, EL, IE, ME, math, physics, and WM. (2/17)

SUNNYVALE SCHOOL DISTRICT. Dr. Robert L. Cook, director of personnel, will interview teaching candidates for positions in kindergarten through 8th grade. (2/17)

TRW SYSTEMS, Redondo Beach. N. W. Peterson, manager, Tracking and Analytic Simulation Department, will interview seniors in aero, EE, EL, and ME, math, and physics for openings in the field of scientific computer programming. (2/17)

RADIO CORPORATION OF AMERICA (RCA). A representative from research, design-development engineering will interview seniors in EE, EL, IE, ME, math, physics, and WM. A representative from the Computer Marketing Training Program will interview seniors in business administration, EE, EL, IE, math, physics, WM and all other applied arts or sciences majors interested in computer marketing. (2/17)

RAYTHEON SANTA BARBARA, SPACE AND INFORMATION SYSTEMS DIVISION. Jerome H. Quigley, industrial relations manager, will interview seniors in EL for positions in circuit design. (2/17)

CONTINENTAL CAN COMPANY. Robert R. Wearanga, plant manager, Terminal Island Metal Container Plant, will interview seniors in EE, EL, ME, and printing. (2/17)

US NAVAL ORDNANCE LABORATORY and US FLEET MISSILE SYSTEMS ANALYSIS AND EVALUATION GROUP, Corona. R. D. Orr will interview seniors in aero, EE, EL, ME, and physics. (2/20)

BOLT BERANEK AND NEWMAN, INC., Van Nuys. Dr. Peter A. Franken, divisional vice president, will interview seniors in architectural engineering, EE, EL, ME, and physics. (2/20)

HOFFMAN ELECTRONICS CORPORATION, El Monte. G. A. Jacobs, employment manager, will interview seniors in EE, EL, and ME. (2/20)

SAN FRANCISCO BAY NAVAL SHIPYARDS, San Francisco and Vallejo. D. Bottenberg, marine engineer, D. O. Buer, naval architect, and W. D. Drowne, nuclear power engineer, will interview seniors in AC and R, architectural engineering, IE, ME, and WM. (2/20)

DUNHAM-BUSH, INC., Alhambra. Gerald Hoxsie, sales representative, will interview seniors in AC and R and ME for sales positions in the greater Los Angeles area.

TRANSICOLD CORPORATION, Los Angeles. William F. Fry, branch manager, will interview seniors in AC and R for positions in the engineering department or as sales engineers or field engineers. (2/20)

(Continued on Page 14)
HAYWARD UNIFIED SCHOOL DISTRICT. Ben Kristal, assistant director of certificated personnel and James Reed, school principal, will interview teaching candidates for elementary and secondary positions. (2/20)

THE TRANE COMPANY, LaCrosse, Wisc. Dennis Kurre, recruiter, college relations, will interview seniors in all engineering majors interested in development, manufacturing, laboratory testing, and sales management positions. Sales engineering positions are available for those who wish to locate only in California. (2/20-21)

LOCKHEED MISSILES AND SPACE COMPANY, Sunnyvale. William Murphy, Bill Beran, and H. Friedland will interview seniors in all engineering majors, math, physics, and TA. (2/21)

BANK OF AMERICA. Dennis L. Elder, college relations representative, will interview seniors in all agriculture majors for training programs in agricultural branches, business administration and other applied arts majors for training in branch or international banking, and math and business administration (accounting) majors for training in computer programming. (2/20-21)

US ARMY MATTERIEL COMMAND, San Francisco. Gene L. Rowden, western area representative, will interview seniors in aero, architectural engineering, EE, EL, IE, ME, and WM. (2/21)

SOUTHERN CALIFORNIA GAS COMPANY. A. J. Van Lund, administrator, college recruitment, will interview seniors in business administration and in all engineering majors. (2/21)

CALIFORNIA LIBRARY ASSOCIATION. Mrs. Dorothea Rowden, recruiting representative, will interview all students and faculty members interested in library science career. She will be prepared to discuss graduate school opportunities nationwide and current employment opportunities, particularly in California. (2/21)

FIRST WESTERN BANK AND TRUST COMPANY. Michael Torres, training coordinator, will interview seniors in all agriculture majors, business administration, and all other majors particularly interested in careers in banking. (2/21)

UNITED AIR LINES. William Pierpoint, employment representative, will interview seniors in aero, business administration, EE, EL, IE, ME, social science, TA, and technical journalism. (2/21)

DEADLINE FOR ARTICLES APPEARING IN NEXT WEEK'S STAFF BULLETIN IS FRIDAY NOON.
CAMPUS CALENDAR -- WEEK OF FEBRUARY 14-21, 1967

Tuesday, February 14

Noon  Books at High Noon Luncheon Meeting  S D R *
8:00 p.m.  Varsity Basketball - Cal Poly vs. Westmont College (Preliminary - Cal Poly Frosh vs. Westmont College Frosh, 5:45 p.m.)  Men's Gym *
7:30 p.m.  Varsity Wrestling - Cal Poly vs. California State College at Long Beach  Crandall Gym *

Wednesday, February 15

9:30 a.m.  Cal Poly Women's Club - Home and Garden Section  San Luis Obispo *
Noon  C S E A Chapter 97 Luncheon Meeting  S D R *
6:15 p.m.  C A T A Region-at-Large Dinner Meeting  S D R *
8:00 p.m.  Agriculture Council Speakers Program  Theater *

Thursday, February 16

9:30 a.m. - Blood Bank Visit to Campus  Health Center *
3:30 p.m.  Staff Club Luncheon Meeting  S D R *
11:00 a.m.  C C U F A Campus Chapter Meeting  Science E-27 *
11:10 a.m.  Physical Sciences Seminar  Science E-26 *
8:15 a.m.  Applied Arts Division Committee Meeting  Admin. 213A
9:00 a.m.  Agriculture Division Committee Meeting  Erhart Ag. 138

Friday, February 17

2:30 p.m.  Varsity Baseball - Cal Poly vs. University of California at Santa Barbara Baseball Field *
7:00 p.m.  Varsity Athletics Doubleheader - Basketball, Cal Poly vs. San Diego State College; Wrestling, Cal Poly vs. Oregon State University Men's Gym *
8:30 p.m.  C U Drama - "House of Bernarda Alba" Theater *

Saturday, February 18

12:30 p.m.  Varsity Baseball - Cal Poly vs. University of California at Santa Barbara (double-header)  Goleta *
8:00 p.m.  Varsity Basketball - Cal Poly vs. California State College at Long Beach Men's Gym *
8:39 p.m.  C U Drama - "House of Bernarda Alba" Theater *

Monday, February 20

8:00 p.m.  Cal Poly Women's Club - Bridge Section  Dexter Lib. 129 *

Tuesday, February 21

8:15 a.m.  Applied Sciences Division Committee Meeting  Admin. 213A
9:00 a.m.  Engineering Division Committee Meeting  GA 101A
9:00 a.m.  Cal Poly Women's Club - Walking Group  San Luis Obispo *
Noon  Books at High Noon Luncheon Meeting  S D R *
* -- See article for further information
Continuing the program started in 1964, Outstanding Teacher Recognition Awards will again be made this year. Members of the faculty or student body or groups of faculty or students may submit nominations. The nominee must be a member of the teaching faculty during the 1966-67 academic year. When completed, this sheet together with any supporting information should be mailed to Chairman, Outstanding Teacher Recognition Award Committee, c/o General Office I, by March 1, 1967.

I nominate ________________________________

to receive the Outstanding Teacher Recognition Award for the 1966-67 Academic year at Cal Poly.

Nominator

A statement in support of the nomination is requested. Please use the space below and on the back, or attach additional sheets if necessary.

The committee, which will select the teachers to receive the awards, is named by the Faculty-Staff Council and makes its recommendations directly to the chief administrative officer of the campus.

In considering the qualities that mark an outstanding teacher, the committee uses criteria such as:

- Evident student improvement in critical and analytical ability.
- Student ability to apply learning to future problems.
- High degree of personal interaction between students and instructor.
- Depth and breadth of instructor competency.
- High personal standards of professional integrity.
- Subject matter consistently accurate and fundamental.
- Lectures interesting and well organized.
- Impact of own knowledge and experience in teaching.
- Teaching procedures contribute to student enthusiasm and high performance level.
EXCERPTS FROM CHANCELLOR DUNKE'S COMMENTS: "I'd like to conclude this brief statement with a repetition of the urging I made at your last meeting, which I accompanied with some specific suggestions as to areas in which I hoped you would concern yourselves and give us guidance; I feel that many of these areas are essentially faculty concern. I urge you again to help us, work with us, to come up with the guidance, leadership, and the counsel that we need in these areas, such as: The Academy of the Arts, the question of what kind of advanced graduate education would be appropriate for the State Colleges, what kind of teaching load adjustment is most suitable for the State Colleges, what kind of educational experimentation we could best undertake on one of our new campuses -- these are faculty concerns. I call your attention, again, to the problem of year-round operation."

EXCERPTS FROM THE CHAIRMAN'S REPORT: "A second item which has engaged the attention of the Executive Committee involves the problem of consultation on staff appointments, at the level of Statewide Dean or above, in the Chancellor's office. The Executive Committee has consulted on the appointment of the Washington representative for the California State Colleges. The results were satisfactory in that the appointee was acceptable to the Committee.

At the present time, the Executive Committee is assuming that the Senate policies will be followed for any future appointments. All consultation committees will be instructed to report, as appropriate, to the Senate."

THE VICE-CHAIRMAN'S REPORT: "The Coordinating Council for Higher Education has not met since our last meeting; I must, therefore, defer my usual criticism of the manner in which the Council and its staff are usurping the policy-making prerogatives of the Board of Trustees until our next meeting."

SENATE POLICY FILE & ACTIONS The Senate discussed at length AS-12-66/EX Report of Senate Policy File and Senate Actions. The document contained a series of statements as to the proper role of the Academic Senate in policy-making in the State College system. There was lengthy and full discussion over both the substantance of the proposals made as well as the language in which they were presented. It was subsequently agreed, in AS-36-66/FIr, to request the Executive Committee to further revise AS-12-66/EX and to request a meeting of the Board of Trustees relative to the document. The Senate declared itself to be in sympathy with the principles of the document.

COLLECTIVE BARGAINING Continued discussion took place on the problem of collective bargaining in the State College system. The Senate discussed the reports of the Executive Committee and the Ad Hoc Committee on Collective Bargaining in informal sessions. It was subsequently agreed to refer AS-22-66/EX, Collective Bargaining or Participation in Governance, back to the Executive Committee. There was obviously considerable disagreement within the Senate as to the wisdom of the position advanced by the Executive Committee. The idea of having an Academic Senate position on Collective Bargaining was seriously questioned.
The Senate adopted, in principle, the list of issues as presented by the Ad Hoc Committee on Collective Bargaining with the understanding that the procedures outlined in the covering memorandum would be followed. Changes in wording and other suggestions were received by the Committee and acted upon prior to its final publication and distribution. The Senate received the sample ballot prepared by the Ad Hoc Committee on Collective Bargaining but took no further action.

INTERNATIONAL PROGRAMS The Ad Hoc Committee on International Programs reported to the Senate that the committee is in the process of interviewing the resident directors and that the committee's investigation is proceeding slowly.

EDUCATIONAL POLICIES COMMITTEE The Committee reported that they hoped to have a recommendation ready for the next Senate meeting concerning a modification of Title 5, General Education. The chairman of the committee requested that if any Senators had contributions on their campuses, the committee would appreciate having such information. Mr. Hunter reminded the Senate that Junior College Transfers are an integral part of the entire problem of general education.

FISCAL AFFAIRS COMMITTEE It was requested that Senate members send suggestions and recommendations related to salary schedules to the committee. Employee organizations have been invited to participate and contributions have been asked for by January 15. The Committee will develop its proposals for distribution by February 1 and will hold two open hearings, one in Southern California and one in Northern California. The committee's schedule provides for presentation to the Senate at the March meeting for first reading, with final action at the April meeting.

METZGER CASE The Senate received, in Executive Session, the report of the Ad Hoc Committee on the Metzger Case. Upon reconvening, the Chairman announced that the Senate had adopted the following resolutions: They are reproduced in their entirety because of their importance to due process within the California State College system:

**METZGER CASE RESOLUTION:**
That the Academic Senate of the California State Colleges accept the findings of its Ad Hoc Committee that the suspension of Professor Arthur Metzger was ordered without his being afforded academic due process and, therefore, said suspension should be expunged from Professor Metzger's record and all rights and benefits which he thereby lost should be forthwith restored to him.

**RESOLUTION ON "CHAPMAN" REPORT OF METZGER CASE:**
Whereas: The implications of the "Chapman" Report far transcend the Metzger Case and posed disturbing possibilities for the California State Colleges, now, therefore, be it

Resolved:
That the Academic Senate instruct the Executive Committee to request the Chancellor to supply all relevant information pertaining to the "Chapman" Report of the Metzger Case; for example:

1. Who wrote it?
2. Under whose auspices?
3. How did it get into Metzger's file?
4. Who conducted the investigation?
5. By what methods was the investigation conducted?
DIRECTIVE TO EXECUTIVE COMMITTEE ON METZGER CASE:

That the Executive Committee be instructed to place before the Chancellor the Senate's recommendations on the Metzger Case, together with reasons supporting these recommendations, to urge the Chancellor to accept these recommendations, and to report back to the Senate.

FACULTY AFFAIRS COMMITTEE

The Committee presented, for adoption, AS-4-66/FA, on evaluation of faculty performance. This provided for continuing Senate study on this most sensitive and difficult area. The Committee Chairman also announced his hope that a grievance procedures document will be available for the February meeting of the Senate.

TUITION

The Senate reaffirmed its opposition to tuition in the California State Colleges and requested that the Senate policy be released to the press at the appropriate time.

GENERAL FUND REIMBURSEMENT

The Senate reaffirmed its opposition to the reimbursement to the general funds of any portion of federal overhead payments received by the foundations and noted its objections to the recommendations of the Senate Finance and the Assembly Ways and Means Committees whereby the Chancellors office, with the assistance of the Department of Finance, is to prepare a plan for such reimbursement.
