State assemblyman airs his support for Moretti

Campaigning for gubernatorial candidate Bob Moretti, Assemblyman John Vasconcellos held an informal talk session Tuesday night in Tenaya Lounge. "Moretti has put people to responsible office, who won't do the things the same old way, Bob is opening and humanizing the government," Vasconcellos said. "Bob has the experience to know how to make things work...He's okay—straight, level, and driven to make political work," he added.

Vasconcellos was asked about Moretti's views on nuclear power plants. "We're not sure how Moretti stands. He said, 'The generator of finding knowledge in energy possibilities. I have to guess, he would be against a flat ban on nuclear power plants as a source of energy."

Vasconcellos said that better planning and more coordination will avert two major threats in the future. "We're looking for more education to produce more trained people to come in the education and training program for the community and the students without using the mechanical procedures. We have to become more flexible and driven."

Believe it or not, that wine barrel you see hanging around the UC could hold the answers to any querist or complainer you may have concerning Cal Poly.

The barrel is actually a suggestion box, created by Roundhouse and run by the Staff Senate-Student Affairs Committee to serve the needs of the student. According to Nancy Weinstein, Roundhouse Director and one of the barrel's originators, the suggestion box was created as an outlet where the students could turn to give suggestions and find answers to problems.

It was turned over to the Staff Senate-RAC to review the suggestions and give final approval. These answers may be obtained at the meetings held the Sunday of each month at 3 p.m. in UC 884.

The subject of Roundhouse.

High Noon—This unidentified cowboy was caught by the shutter during Poly Royal ready to tangle with any hombre three times his size. From the looks of his straw cowboy hat and lasso in his hand it's understandable why there were no others.

Ideas may flow from wine barrel

by SUSAN STEVENSON

Weinstein told about current happenings and upcoming events. He explained that Roundhouse is currently in the process of finding a new office, so the one presently in use will be the home of the new Off Campus Housing Coordinator next year. With a new office may come a new format, presently being worked on to give services to the student.

Volunteers are always needed and any persons interested in working at Roundhouse can learn more about its workings by dropping in at the office, located across from Ell Corral Restaurant and part of the Union.

Weinstein added that there will be a barbecue to elect officials for next year. All old and new volunteers are invited to bring along friends and family. The barbecue is planned for May 18 at 6 p.m. at Cuesta Park.

Winston balks at tapes request

WASHINGTON (UP)—President Nixon’s request that the White House Watergate tapes be released to tape requesters was turned down by U.S. District Judge John J. Sirica to quash a subpoena by the Watergate prosecutors for 14 White House tapes.

In a formal claim, Nixon said the materials covered by the subpoena are "are within the constitutional privilege of the president to refuse to disclose confidential information when disclosure would be contrary to the public interest.

Noting that 15 of the conversations were made public a day earlier, Nixon said "the other items sought are confidential conversations between a President and his closest aides that it would be inconsistent with the public interest to prodou".

In a memorandum backing up Nixon's personal statement, White House Watergate lawyer, Alan D. B. Stern, stated that the tapes that the President may appeal to the Supreme Court if Sirica upholds the subpoena.

We also continue to believe that a President is not subject to compulsory process for a court.

Winston also stated that Sirica had not proof that the subpoenaed tapes contained evidence relevant to the Watergate case.

Candidates views

The candidates for A.S.I. President in the upcoming elections will be quizzed on KCPR Radio tonight at 9 p.m.

Bob Piotrowski and Mike Louden, the candidates, will face a panel of callers on the "What's Happening" show, hosted by Mike Murdy. The panel will include Murdy, Mustang Daily editor Roger Vincent, and Debbie Williams, general manager of KCPR. The show will take place in a "Meet-the-Pres" type of atmosphere and will also feature phone-in questions from listeners.

The phone-in questionnaire is made possible by the KCPR Radio which can be reached by dialing KCPR Radio at 844-1641.

The questioning, according to Vincent, "will arise for the most part out of the candidate's platform statements.

Vincent said that there will be some ad lib questioning but that the questions will be well rounded enough to give the listener a good idea of what each candidate is all about."

YE OL' BARREL—Thrilling for new suggestions, this wine barrel is waiting eagerly in the University Union.
The student and a child

During the past two years, Student Community Services has developed many different programs which attempt to enable the faculty and students here to become more aware of the community and more understanding of its problems. Many of these programs are directed towards the youth of the community.

On campus for several years, PALS was dying out for lack of direction. Student Community Services took over management and during the last year PALS has grown in size. Children who have been without a mother, father or both, share in this big-brother-big-sister program with volunteer college students.

Each child spends up to five hours weekly with his PALS. Through the project coordinator a volunteer can get suggestions and learn of free exhibits, but how he spends his time with his child is ultimately up to him.

About 15 individuals from the college are currently taking part in the PALS program. For special events, such as the Easter egg hunt, as many as 70 volunteers take part.

Each student is sponsored and then oriented to the program’s goals. The only major requirement is sincerity.

Another youth-community program allows the student volunteer to participate in games, contests and group activities with residents of the San Luis Obispo County Detention Home. The Bonny Acres Project was another campus organization that was recently taken under the administration of Student Community Services.

It's a PHT Degree that the wives are after. "Pushing Hubby Through," indeed, putting a husband through college (or pushing him, as the case may be) can be a dramatic and hectic job for any wife. But there is one consolation that can't be overlooked—the PHT Degree.

"Pushing Hubby Through" ceremony is an annual event sponsored by the Cal Poly Student Wives Club during Senior Week activities. All wives of 1974 (January-December) graduates are invited to participate. Ceremonies will be held at 1:10 p.m. on June 8 in Chumash Auditorium.

Diplomas will be awarded by President Kennedy, and each recipient will be presented with a flower and a sterling silver roll charm. Guest speaker Pat Noble and the Collegiate Men's Quartet will highlight the ceremony. A reception sponsored by the Student Wives will follow.

"All student wives have provided some measure of moral support to their husbands," says Debbie Stockton, chairman of the event. "Now it's time for them to be recognized for their efforts." Mrs. Stockton stressed that a wife need not be presently working, or have attended a Student Wives Meeting to qualify for a PHT Degree. Those who are unable to attend the ceremony may receive their diplomas and charms by mail.

"Pushing Hubby Through" ceremony began in 1969 as a simple one, initiated by President Kennedy and Dr. Kenneth Young. Then, it has grown into an elaborate official graduation ceremony for the wives of graduating seniors.

To apply for a PHT Degree, call Debbie Stockton, 642-448 or Loretta Miles, 642-1414 before the May 15 deadline. "Pushing a hubby through," sighed Mrs. Stockton, thinking back on her own experience, "is twice as much work for both of you. It's time the wives are noticed."

Computer seminar coming for mentally gifted minors

Four Cal Poly faculty members from the Computer Sciences and Statistics Departments are donating their time to conduct a series of seminars as part of the Mentally Gifted Minor program. Twenty-one junior and senior high school students from San Luis Obispo County are participating in the five sessions, which are designed to introduce them to the capabilities and functioning of computers. Later they will choose individual projects.

The Saturday morning seminars are coordinated by Mary Lallier, a resources specialist for the San Luis Coastal Unified School District, and Judy Jones, MUM Coordiniator for the County Schools Office.

The faculty members include Dr. Daniel F. Budin, head of the Computer Sciences and Statistics Department, Dr. Emilie S. Add, Dr. Robert B. Brady, and Dr. Curtis F. Gerst. Cal Poly is providing the equipment for the program, which began April 11 and will continue May 14 and 21.
BY JERRY THUMBS

The Cal Poly baseball team, fresh off a four-game win streak, will return to conference play this weekend when they travel to U.C. Riverside for a three-game series with the Highlanders.

Riverside is right behind the Mustangs in the California Collegiate Athletic Association pennant race with a 6-4 league record. The Mustangs are 14-5 and their playoff hopes are slim as leader Cal State Fullerton is 19-0 and has just eight games remaining.

The Mustangs' team total of 80 home runs ranks them third in the league. They are behind the Azusa Pacific-Chapman road trip, who own the CCAA record of 87 set last year by Cal State Northridge. The Mustangs have seven remaining games with the possibility of re-scheduling two rain-out contests with Fullerton.

During their road trip last week, the Poly nine took one game from Azusa Pacific 8-4, and swung a three-game series from Chapman College during the weekend to bring their won-loss record to 19-10 for the season.

Against Azusa Pacific, the hitting of Terry Ruggles and Gary Knuckles, who drove in two runs apiece, sparked the Mustang attack. Ruggles and Tim Raynall each hit home runs in the contest.

Ruggles, who has served as Poly's designated hitter this season, has taken himself out of a road trip. The junior from Millbrae hit a grand slam at Cal State Northridge, and his ninth home run of the season tied the school home run record with nine.

In the OUAAC contest only No. 1 Laohman, Nancy Meyer and Ruth Ollatrap all won their matches. Meanwhile, the other two-way lady, Debbie Crasta and Kathy Grundy, won it all.

The Mustangs finally got three runs in the ninth to give them a big enough margin to hold off the Panthers. However, stubbors Chapman threatened in the last of the ninth by loading the bases and getting one more run before the out was made, bringing in relief of pitcher Paul Gengler and holding the final Chapman batter.

The Mustangs got their ninth straight victory over Chapman 1-7 on Friday, than topped a doubleheader on Saturday to send the Mustangs to an 11-0 record in the season's first 11 games, and continue to hold a half-game lead in the CCAA standings.

Chapman was able to come back and tie the score in the fifth inning of the first game after the Argers' three-run homer, but Mustang third baseman Minh Vierra came through in the ninth inning with a home run to give Poly the win.

Terry Ruggles got his ninth home run of the season in the ensuing fifth inning of Saturday's contest. The shot put the Mustangs ahead, but Chapman came back to take the lead, getting two runs in the third and another in the fifth inning.

The Mustangs fought back to tie the score in the ninth inning when Ruggles walked, and Bud Pedadaste and Ollatrap added four runs apiece, sparked by singles. Ruggles scored on Smith's base hit and Pedadaste tallied on a throwing error with Smith stole second base.

During their road trip last week, the Mustangs were able to come back and tie the score in the ninth inning by loading the bases and getting one more run before the out was made, bringing in relief of pitcher Paul Gengler and holding the final Chapman batter.
