A Split Over Annexation

Story on page 4
In baseball it's three strikes and you're out. Poly In A CAR Wreck

The Center is surely understaffed as it is while there are lots of students doing full-time or part-time work. The Center is not prepared to handle the large-scale registration burden.

The obvious mistakes that were made at the Monrovia show should be corrected by the people responsible. Certainly, with the fine track record Ken Gordon and the All Concert Committee had going into the show—both as finder and producer of fine professional shows—this will not be a difficult task.

The situation looks grim for the former California governor. If he can no longer count on solid conservative Republican support, the trail leading to the Republican convention will be uphill all the way for him. Reagan all but concedes to Dulles, this is because on an otherwise intelligent simpleminded, turn it and twist it, until it is terrible enough to choke off what is probably the most favored mode of entertainment among college students today, the jive music.

After all, it is Associated Students, not Associated Supervisors.

The other roadblock for CAR is the campus Computer Center, which would have to handle the large-scale registration burden.

Loggins & Messina Love Their Music—Will Polly?

by JIM SWEENEY
Daily Associate Editor

The announcement of the tentative April 3 Loggins and Messina concert that will be held at the Monterey Convention Center has caused much excitement among Aggie fans. Concert窗s even have been sold out, and tickets are going for as high as $200 on the black market.

Loggins and Messina are one of the most popular country music duos, and their upcoming concert is sure to be a sell-out event. The concert will feature many of their biggest hits, including "Space Riders," "Your Mama's Hound Dog," and "I Like It Like That."

The concert will feature many of their biggest hits, including "Space Riders," "Your Mama's Hound Dog," and "I Like It Like That."

The show is expected to start at 8 p.m. and run until midnight. Door tickets are $10 in advance and $15 at the door. Special student ticket prices of $3 will be available at the Aggie Union Information Desk.

Council Newspapers

A small-scale move toward in-house publications has been made here at the school, where some of the faculty members have started a student-run newspaper.

Seeking to increase the involvement of the various departments of the school, some faculty members have decided to form a student-run newspaper. This will allow students to gain valuable experience in journalism and develop their skills.

The paper will be called the "Aggie Student News," and it will be published weekly. It will cover a range of topics, including campus news, sports, and campus events.

Approval is not the only issue the faculty has to worry about. Originally scheduled to do two shows for a base price of $2,800, Loggins and Messina insisted want to continue for one performance for $2,800. Program Manager Steve Adams said this will put the overall price of the concert at around $10,000 to $12,000, raising ticket prices to the six to seven dollar range. At present he said he is not sure of the economic feasibility of the show.

Adams also said there may be some technical problems. Loggins and Messina have been given a lot more electric than is available in the Main Gym. Although it is commonplace, Adams said their order was a "very small" one more than has been seen recently. But, he noted, he has never seen a show that couldn't be done at Cal Poly.

O'Connor said he had prepared a tentative schedule for the musicians and the management. The agreement for the concert has been put together, and they hope to put it on a "fast track" for doing it, working out with the employees and trying to make it work.

Communication May Be Hazardous...

Staffers Get A Warning

by ANNE KERRIEN
Daily Staff Writer

Cal Poly employees have been warned by the California State Employees Association (CSEA) not to participate in "communication sessions" at the Counseling Center.

CSEA rep Donna Case said employees complain about a series of counseling sessions held in resolution of problems in the Admissions Office.

Muller said he was asked to stop the request of the counseling employees, but Muller said he never saw the letter and is not sure why the employees quit.

Both Muller and Chandler say other employees have been referred to the Counseling Center in the past in works with problems, with good results.

Chandler said he has received no complaints from other employees about the shows, but has received many in the Counseling Center.

Casey says the sessions are strictly voluntary.

Annexation: An Issue of The Past

by JIM SWEENEY
Daily Associate Editor

The proposal to annex Cal Poly to San Luis Obispo, an $800,000 idea, is almost as old as the flower children of the sixties—and as dead as the Articles of Confederation.

The incorporation of the campus into the city was once viewed as a boon for both parties. City Administrator Richard Miller, who is now on leave, announced in 1972 the annexation would net about $88,000 for the city, $72,000 in gas taxes, $88,000 in court fines and forfeitures and $10,000 in sales taxes, mostly from the book store. Since Poly is part of San Luis Obispo county, these funds are collected in the county treasury.

In exchange for the money, the city would guarantee to spend a percentage of the money for campus projects. The big Poly hope was this might lead to either a new stadium or enlarging the 8,500 seat Mustang Stadium.

The talks bogged down because of mutual fears and an apparent lack of need on both sides. "It floundered on unflattened fears on both parties," said Emmons Blake, who introduced the proposal while on the City Council.

Kennedy said he supported the proposal "as long as there were in a position to dictate how 10 per cent of the money would be spent would be with all state university spending regulations.

"Absolutely no advantage to either the students or the University as a whole... we received some financial benefit," said Kennedy.

He pointed out that Cal Poly has good alone for 75 years and there are no pressing needs to annex. Along with California University Colleges campus at Hayward and San Bernardino, Cal Poly is one of three schools in the system not incorporated into a city.

"I certainly don't want to annex a piece of property you would have set a precedent and they would argue for the same benefit," said San Luis Mayor Ken Swarts.

Another hurdle the proposal couldn't clear was the financial impact of adding almost 3,000 students who reside on campus, to the city

Kennedy said he hasn't heard anything from the city concerning annexation since the voting age was lowered to 18.

"The proposal would have brought more college votes within the city with any part-time residence," said Swarts. "This would save of the city residents."

"The city was a little worried of the political power that might be wielded by the added Poly vote," said City Councilman Ken Gurne, who was elected the Council last fall after a annexation push.

Gurne also pointed out that the appropriated 1,180 students on campus was a fraction of the almost 18,000 total enrollment. Students living within the city have always been eligible to vote in city elections.

"They feared the college would be running the city," said Blake. "They felt it would be swelling in their pockets."

Both Kennedy and Swarts agree annexation is a dead issue. But, there are a few who support incorporation.

"I would be just as happy to see the thing annexed," said Kennedy. "Because of the student vote," said Gurne.

Swarts said the students are here for six months and should be allowed to vote in the city elections.

"One prospect of annexation," Gurne said, "is that the city would certainly be in a better position to view the figure as more mutually of growing."

"I certainly don't think that it is a dead issue," Blake, "I don't think it would ever be revived, but maybe not the right time."

"People are going to realize someday the advantages that are communities to everyone in fact," continued Blahe.
What or who is a Mono?

It's a question we've heard now for two years, asked proudly by red-faced old men in suits and ties and clutching a copy of Mustang Daily. They jump up and down and point at the cartoons and scream and better. It is a sad sight indeed.

But it's not half as bad as when we try to answer the blasted question: "What's a Mono?" You see, we aren't too sure ourselves.

He says he's an English major but he's never been seen like he owns himself and spits most of the days and nights in the Graphic Arts Building practicing journalism and graphic design. Could you answer the question with that in mind?

There is one thing about Mono, however, we are sure about. He will no longer be with us after this quarter. Some will say the Mono has been cured. We think the sickness will begin in his absence.

Like him or not, Mono is good at what he does—which is a lot more than most realize. About every ad you see in the paper is his handiwork as are all those covers and story illustrations—let us mention, the infamous cartoons, right Bob?

But Mono is now a graduate. Cal Poly cartoonland is bound to suffer.

The stories about the good fishing at Whale Rock Reservoir may be luring, but fishermen should find another place to bait their hooks. After years of controversy, the reservoir is still off-limits.

The reservoir, which is near Cayucos off Highway 1, supplies drinking water to Cal Poly, the city of San Luis Obispo, California Men's Colony and Camp San Luis Obispo. Fishermen who are attracted by the abundance of steelhead trout have fought those who think people near the water contaminates it for at least 10 years.

The controversy came to a head in 1986 when members of the San Luis Obispo Sportsman's Association staged a "fish-in" in an attempt to have the reservoir opened for fishing. The Whole Rock Commission, consisting of three state and three city representatives, filed a complaint against the group, arguing the court was in the middle of testing the area's water because it endangered the water supply. The court issued a restraining order which was renewed at least five times. The Sportsman's Association and state and local officials attempted to settle the problem out of court by setting up various fishing programs which would meet state and local health regulations.

Several programs were suggested and agreed upon by both sides, but lack of funds delayed them. In 1989, Superior Court Judge Richard Harria declared the ooat of 1m-

The Whole Rock Commission and the San Luis Obispo City Council voted to appeal the court decision that it help pay for the program. Under the ruling, the city would have to pay $1 per cent and California Men's Colony 50 per cent of the cost.

Whale Rock Reservoir Closed To Fishermen

Staffers: Warned Off

"This report wasn't at all pertaining to the people involved," Mulder and Chandler both say. The sessions have been confidential.

In an apparent contradiction, Mulder reluctantly disclosed to the Daily Star the name of the person given the temporary transfer, and the department transferred to the same position on the following day.

He also described what he said was another precedent which "essentially" referring to his rejection before the time of his interview. Mulder says he was left in position as head of the Counseling Center and that he is "tired of being an embittered employee and quitting the Post."
Arm Wrestling Tournament
An arm wrestling tournament sponsored by the Intramural Dept. will be held on Saturday at 9 a.m. in the Men's Gym. Entry fee is $1. There will be both Men's and Women's Division Competitions. "Frankenstein" Tonight in Chumash
The A.I.I. Film Committee winds up another quarter of films with the movie, "Young Frankenstein" tonight at 8:30 and 10:30. Prizes donated from local merchants will be given away before the show. The tickets are $1 and can be bought in advance at the A.I.I. ticket office. The movie will be shown in Chumash Auditorium.

Coed Volleyball Sunday
A two-man coed volleyball tournament sponsored by the Intramural Dept. will take place on Sunday at 11 a.m. There will be awards for first place winners in open and vanity divisions. The entry fee is 50 cents and sign-ups are being taken in the intramural office.

Alternate Fuel Symposium
A three-day symposium on alternate fuel resources will be held March 26-27 at Vandenberg Inn, Santa Maria. The symposium is being presented by the Vandenberg Aerospace Institute of Aeronautics and Astronautics in cooperation with the student branch at Cal Poly. Registration will take place from 8 to 9 a.m. Wednesday and from 8 to 9 Thursday morning at the Vandenberg Inn. The symposium on Friday will include gas turbine and gas oil alternatives, synthetic fuels, alternatives to gasoline, oil shale retorting and gas and coal utilization. Pollution consideration in alternate fuels and fuel and energy from solid waste and biomass will be discussed on Thursday.

KCPR Weekend Programming
Saturday KCPR will broadcast the Teuson Metropolitan Opera's presentation of "I Puritani" by Bellini. The program starts at 11 a.m. Later in the afternoon at 1 p.m. the Commonwealth Club presentation will host guest speaker Honorable James D. Hulse, ambassador to Japan. His topic will be "Post Vietnam, Pro-What?" - The New U.S. Feature in the Pacific." On Sunday KCPR will present a new program of religious music entitled Maranatha Music, contemporary religious music. This program starts at 9 a.m.

Health Center Photo Contest
The Health Center is sponsoring its 50th Annual Photography Contest. The central theme of the contest is to be health education in relation to the Health Center or the Cal Poly campus. Black and white prints of unspecified size mounted on 19 x 15 board must be submitted no later than 1 p.m. Monday, April 19. Cash prizes will be awarded. First prize is $50, second prize, $35, third prize, $15, and honorable mention, $5. For information call David Graham, 949-1111.

SAC Rep Sought
The School of Science and Mathematics is accepting applications for a SAC representative. Students interested in this position can contact Steve Abbott, Science and Math Council chairman through his A.S.I. box 25. Elections will be held the second week of Spring quarter.
Seven Swimmers In Finals

Seven has always been considered a lucky number and swimming coach, Richard Anderson will be banking on this next Monday in Springfield, Mass.

Anderson will be taking seven of his best swimmers to the nationals in hopes of defending defending NCAA Champions Cal State Northridge. The chances of upending the Matadors is rather bleak, however, since Northridge easily won the CCAA meet two weeks ago at Cal Poly.

The Mustangs hope rest on the shoulders of Rick Prior, who broke three distance records in the CCAA meet. Prior will be entered in the 100, 100 and 400 medley relays; and 100, 200 and 400 freestyle. Prior will also be anchoring the 400 and 800 freestyle relay teams.

Prior will be the bastion of the Mustangs in the 100 and 200medley; Tom Ross in the 200 and 400 medley and 400 medley relay; Jon Ritter in the 100 and 200 freestyle and the 800 freestyle relay; Alan Sill in the 200 medley and 500 freestyle; and Bob Franke in the 500 medley relay. Anderson said the Mustangs have a chance to place better than last year’s team which finished ninth. "We have true relay teams this year, but I do not know if we can duplicate the outstanding individual performances we had a year ago," said Anderson.

Spikers Try To Maintain Lead

Cal Poly’s unbeaten in CVC play volleyball team entertains two conference schools this weekend in Cal Poly Pomona and UC Riverside. The Mustangs beat Pomona in three straight games in the first conference game of the season and they have yet to meet the Highlanders.

Poly head coach, Ken Preston fears the Mustangs might be in for a let down this weekend. "We can’t take these games too lightly or we will be ripe to get picked off," said Preston.

Rounding out the top six are: Chuck Dotlan, number one right now, but it has been close all year" said Jorgenson. "Rudy is number one right now, but it has been close all year" said Jorgenson. "Rudy is number one right now, but it has been close all year" said Jorgenson. "Rudy is number one right now, but it has been close all year" said Jorgenson. "Rudy is number one right now, but it has been close all year" said Jorgenson. "Rudy is number one right now, but it has been close all year" said Jorgenson.

Jorgenson’s number one man is Rudy Vanegas, but he said Ken Peet has been pressing him. "Rudy is number one right now, but it has been close all year" said Jorgenson. "Rudy is number one right now, but it has been close all year" said Jorgenson. "Rudy is number one right now, but it has been close all year" said Jorgenson. "Rudy is number one right now, but it has been close all year" said Jorgenson. "Rudy is number one right now, but it has been close all year" said Jorgenson.

Rudy Vanegas will be in action against Los Angeles today (Daily photo by Alan Halfitll)

MUSTANGS, there are six others who will be accompanying him. Rose Frohler will be in the 400 medley and the 400 and 500 freestyle relay.

Greg Rockenshaw is entered in the 100 and 200 freestyle; Tom Ross in the 200 and 400 medley and medley relay; Jon Ritter in the 100 and 200 freestyle and the 800 freestyle relay; Alan Sill in the 200 medley and 500 freestyle; and Bob Franke in the 500 medley and 400 medley relay. Anderson said the Mustangs have a chance to place better than last year’s team which finished ninth. "We have true relay teams this year, but I do not know if we can duplicate the outstanding individual performances we had a year ago," said Anderson.

Tennis Team Hosts Bakersfield

The Cal Poly tennis team will play host to Cal State Bakersfield today in a 3:30 match on the upper courts.

Even though the Roadrunners are a conference school today’s match is not considered a CCAA contest. Mustang coach, Ed Jorgenson, said today is more or less a practice match.

Poly is 1-0 on the year with its only victory coming against San Francisco State last week. This is one of the premier teams in Cal Poly tennis history. The Mustangs have won the conference title five out of the last six years and they are trying to maintain a 26 game CCAA win-streak.

"We have a very high standing we want to keep up" said Jorgenson. "And I suppose we are the conference favorites again this year, but you can’t tell until you see who is on the other team."

Jorgenson’s number one man is Rudy Vanegas, but he said Ken Peet has been pressing him. "Rudy is number one right now, but it has been close all year" said Jorgenson. "Rudy is number one right now, but it has been close all year" said Jorgenson. "Rudy is number one right now, but it has been close all year" said Jorgenson. "Rudy is number one right now, but it has been close all year" said Jorgenson. "Rudy is number one right now, but it has been close all year" said Jorgenson.

B.L.O. (Spee.) Golden State Reading Lab will alter a 4 week course to teach people in the San Luis Obispo area.

In just 4 weeks the average student should be reading 4-1 times faster, speeds of up to 15,000 wpm have been documented. In Innovative and atfaatlva program available In the United States.

Our average graduate should read 10 times faster upon completion of the course with marked Improvement In comprehension and concentration.

The requirement of todays’s overehanglng aoooloratlng world then this Is an absolute neaetry. .

If you have always wanted to be a speed reader but found the meet onfar too expensive for you, you can read 7-10 times faster, concentrate better and remember longer. Students under 11 should be accompanied by a parent if possible.

Meetings will also be held in Lompoc. For times and locations call 790-6815 in Lompoc or consult your local newspaper.

These special one-hour lectures will be held at the following times and places:

BAN LUIS ORIBO MEETINGS

Mon. March 18, Tue. March 19, Wed. March 20, Wed. March 17 & Mon. March 18, at the Veterans Memorial Building at 801 Grand Ave., San Luis Obispo. Two meetings will be held each night at 8:00 and 8:30 p.m.

SANTA MARIA MEETINGS

Thurs. March 18, Fri. March 19 at 8:30 and 8:00 p.m. Sat. March 20 at 10:30 and 1:30 p.m. Tues. March 19 and Wed. March 20 at 8:00 and 8:30 p.m.

LOMPOC MEETINGS

Meetings will also be held in Lompoc. For times and location call 790-6815 in Lompoc or consult your local newspaper.

If you are a businessperson, student, housewife or consumer this course, which took 5 years of intensive research to develop, is a must. You can read 7-10 times faster, comprehend more, concentrate better, and remember longer. Students are offered an additional discount. This course can be taught to groups or civic groups at Group Rate upon request. Be sure to attend.
