Lightning damages KCPR equipment

Lightning struck the KCPR transmitter about the middle of the day yesterday and damaged a major part of the equipment in the transmitter building in the northeast corner of the county. (Daily photo by Bill Powell)

Heavy downpour causes flooding

By SCOTT CRAVEN

Heavy downpours caused flooding yesterday on Footpath Boulevard.

The heavy rain caused many residents in San Luis Obispo to take precautions as they were uncertain of where the flood waters would go. Many homes were damaged and the water from the rain caused a number of problems in the city.

The flooding continued into the weekend and caused a number of problems in the city. The water from the rain caused a number of problems in the city.

The city of San Luis Obispo was not as bad as other cities in the area. The heavy rain caused a number of problems in the city.

The city of San Luis Obispo was not as bad as other cities in the area. The heavy rain caused a number of problems in the city.

The San Luis Obispo Times is a weekly newspaper that is published every Wednesday. The newspaper covers a wide range of topics, including local news, sports, and events. The newspaper is published by San Luis Obispo News Press, a subsidiary of News Press Media Group.
Close encounters of a fourth kind??

As I was leaving the City Council meeting last night, I was stopped by a city official and handed a flyer. It read:

"Are you the guy who's been writing about the City Council?"

"Yes, I am," I replied.

"Well, here's a flyer for your information," he said, handing me a piece of paper.

I took the flyer and read it. It was about the city's new recycling program.

Stereotypes can result in disaster

MusTANq D*Ry

Our Readers Write...

Terrorists in San Luis Obispo County are not playing games. They are serious about their mission to destroy the world. They have already conducted several attacks, including the bombing of a bank in San Luis Obispo.

Homemakers in San Luis Obispo County are also not playing games. They are serious about their mission to maintain order and cleanliness in their homes. They have already conducted several attacks, including the cleaning of a park in San Luis Obispo.

Stereotypes can result in disaster.

Author Richard Price is a noted journalist.

Stereotypes can result in disaster

The story was compelling. I decided to write an article about it.

Homemakers in San Luis Obispo County are not playing games. They are serious about their mission to destroy the world. They have already conducted several attacks, including the bombing of a bank in San Luis Obispo.

Homemakers in San Luis Obispo County are also not playing games. They are serious about their mission to maintain order and cleanliness in their homes. They have already conducted several attacks, including the cleaning of a park in San Luis Obispo.

Stereotypes can result in disaster.

Editor:

I feel the San Luis Obispo City Council made a hasty and unjust decision in voting to ban the use of the City Council building for events that do not meet the city's standards for noise and cleanliness. This decision will have a negative impact on the community and will discourage events from taking place in the City Council building.

May the Mayor and City Council reconsider this decision and work towards a compromise that meets both the needs of the community and the requirements of the City Council building.

Scott R. Hemphill
**Soggy forecast for the Golden State**

From the United Press Service

SACRAMENTO (UP) Jan. 16, 1966—Governor Ed Davis has told all Californians to make an extra effort in wasting water because Los Angeles is a disaster area. We've got water coming out of our ears. The Governor has ordered all local governments to cancel their snowball and flower lawn parties. If not, the Governor will shut down the hot tubs.

Yesterday, he said only three years ago, when Governor Brown, Jr., was calling for Californians to drink wisely, he was so intent on rain and snow that the state in two years ago.

Author Kevin Falla is a senior journalism major who writes a weekly column for the Daily.

"Our reservoirs are overflowing, the snowpack in the Sierra Nevada reached its highest level since 1960, Los Angeles is a disaster area. We've got water coming out of our ears. The Governor has ordered all local governments to cancel their snowball and flower lawn parties. If not, that means snowpack is at an all-time high."

**Commuting**

There are no two ways about it—cars are a pain in the butt. Whether you live a block or a mile away, cars can be a pain. I know I can't drive to the mall. I have to walk there. It's a pain. I feel like a car is a pain too. But, I enjoy the drive. I like to see the people, the buildings, the trees. I like to feel the wind in my hair and the sun on my face.

As an illustration of the many drawbacks of being a driver, I tell you this. I drive in the heart of my neighborhood, and I see the same car every day. I see the same people, the same things. It's a pain. I feel like a car is a pain too. But, I enjoy the drive. I like to see the people, the buildings, the trees. I like to feel the wind in my hair and the sun on my face.

I have found that the more time I spend in my car, the more I appreciate it. I see the beauty in the ordinary things. I see the beauty in the everyday.

**How Evelyn Wood Reading Dynamics gives you a competitive edge in school**

School at any level means reading...lots of it. Keeping up with thousands of pages can take a heavy toll in time and energy, and grades. If you're typical, you read 150 to 350 words a minute. But how do you get ahead of the race?

Evelyn Wood can triple your reading rate and improve your comprehension and study skills.

Hundreds of thousands of students use the Reading Dynamics Method. They find reading loss of a chore. Concentration and retention improve, which can lead to better grades. A competitive edge is important...too important for you to delay.

**Prove it to yourself today!**

Whether you're thinking of grad school or the job market, or if you want to keep up with course reading today, let Evelyn Wood Reading Dynamics give you a competitive edge.

In fact Evelyn Wood guarantees that you will triple your reading rate if you follow the course correctly, or your full tuition refunded. That's our competitive edge.

**New meal card system in use**

The student reaction is "it's really bad," said one student. Basically there has been no change in the overall cost of a meal. The card is inserted into a machine which will display the information electronically. A separate machine will provide valid light signals or it is invalid, a separate machine will light up a red light. The students are happy "that the line is not here," said Smith. With the new system, "the students have a lot more control of the money," said Smith. "The system is easy to handle, but it has yet to be seen if the students will use it." The computer will validate each meal ticket according to the students ID card. cafe.

**Broken leg rates parking pass**

SACRAMENTO (AP) - Beginning tomorrow a broken leg will get a driver not only a replacement pass, but also a copy of the infraction. The Department of Motor Vehicles will begin to issue broken leg rates parking passes, which will be given to a driver who is not a passenger. The new passes will have a picture of a driver's license, including a recovery card. The picture of the driver will be of the temporarily disabled person either as a driver or passenger, said Motor Vehicles Director William C. Rouse. The passes will be honored in any state in the union, at all times and without payment and limited-time passes without limit.

**Constitutional escape cuts**

WASHINGTON (AP) - The Supreme Court today upheld President Reagan's plan to cut federal spending. The court ruled that the plan is constitutional and will not affect the federal budget deficit. The plan also includes cuts in foreign aid, military spending and social programs. The court's ruling is a victory for the administration in its efforts to reduce the federal budget deficit.
Grant applications due

Cal Grant Program applications are due Feb. 2.

The Cal Grant Program offers significant financial assistance to California students who qualify. Students who demonstrate need and who meet the academic requirements can receive up to $5,820 a year. The applications are available online at [calgrants.ca.gov](http://calgrants.ca.gov).

Shopping with wheels

By GARY RAPPA

ACCURATE's wheels still roll on the ground and on the road, but the wheels on the road are driving a new generation of consumers. "The idea that we can use the wheels of commerce to solve the problems of society," said "purist" HARRY BROWN. "It's not a bad idea."

Brown discussed nuke plant problems

LOS ANGELES (AP) — Nuclear power plants in California are being marked as safe and sound by the state's nuclear regulators and the state's financial regulators. But Brown said the state's nuclear plants are at risk of "accident-free" status.

Computerization pros and cons

(Continued from page 1)

The computer is like the last person in the gym, he added. "They have a problem with people adding up their own bills." The computer is not just a tool for calculating, but a tool for teaching. The computer is like the last person in the gym, he added. "They have a problem with people adding up their own bills."

By JIM ALVERNAS

Milling Poly Friday

It's a shame the Cal Poly wrestling team couldn't reshuffle the rest of its schedule to include a dual meet with Pomona in late October.

In posting a 5-4 record in an eastern swing in December, the Mustangs have returned to find the home court much more hospitable.

The Mustangs have had all but dismantled their opponents at home, making a solid record here in the SoCal area.

In consecutive matches Poly blanked the U.S. Naval Academy, Holy Azusa, Beth-

Franklin & Marshall 9-4

and most recently, Claremont State.

The home match advantage becomes evident when reconfiguring last Thursday's match against Claremont. On their weekend trip, the Mustangs dropped a 2-1 decision to the Bears in Claremont which dropped the Poly record to 1-3.

Poly promptly dropped the remaining two matches of the trip by progressively narrowing scores.

Coach Vaughn Dillingham's squad is relatively young with only 11 seniors having varsity experience. The key to this team is the improvement the Mustangs make as the season progresses, said Dillingham.

The biggest surprise for Poly has been the productivity of junior college transfers Paul Dillingham and Eugene Wade, 190.

Neither wrestler placed higher than fifth in the main junior college meet. Over-

sire for Polyman and Wade for Claremont, but each has been a big plus to Mustang success in dual meet competition.

Wade has been the biggest surprise for coach Dillingham. After losing five of three matches at the Arizona tournament last fall, the Woodland native has rebounded with eight straight dual meet victories. His drive and ability to push the team point totals has Poly closer to the Mustang squad.

Overnite has been noted at tails of both ends of this four match trip. Two reversals, early results, and Poly's 54-17 win over CAL.

Other Mustangs with dual meet records are L. Williams, A. Climenhaga, 174, Steve Blundell, 184, and Jeff, 164.

Poly has won five of nine matches in those weight classes. One senior, Dillingham, 196, has been inconsistent, but his Mustangs are holding a heavy win streak.

David J will has a final appearance in the Mustang lineup. David J will has a final appearance in the Mustang lineup.

The weight class duel is in the Mustang's favor this weekend and will be key in the University of Washington Thursday.

**Pomona trounces Mustangs, 91-52**

The Mustangs dominated Poly's record to 1-3 in a hard fought dual meet Friday.

Los Angeles with a 1-3 record which recently set.

Poly's lineup was a heavy tour-

2-1 defeat. The game was cut

down after the first two

minutes. The Broncos led by

3 at the half and cruised it to

10 at the end.

A 1-1 split for the week.

Midfield in the second half, Pomona went to the lockerroom with two of its players and led by 6 points against number three. The Mustangs managed to cut the lead to 5 early in the fourth quarter.

The Mustangs won 17-15

as coach Brian weeker's basketball team has been dominating UCLA.

The Broncos earned their first win for the Mustangs, 14-4 in handling Poly's coach Brian Weeker's basketball team has been dominating UCLA.

Coach Brian Weeker's basketball team has been dominating UCLA.

Five Mustangs scored for Pomona. In addition to Weeker and Velcro's Gregor, Poly's Alex

The Mustangs defeated the Broncos 62-56 last Thursday night. (Photo by Mike Swain)
Evans leads Poly attack

Forward Mike Evans is putting his best foot forward today. Evans, who scored on a pass from Carl, and he or I as the free throw line, was jumped off by a game and he was going to the basket. Frank, woke up and it was making some noise. The Mustangs were not in to the game and the game was within range of the free throw line. Playing similarly to the Mustangs are the Poly Mustangs, who are going for their third straight week. Poly is now 12-0-0 and is the first to play against a game and has scored within a free throw line.

If you're a junior or a senior majoring in math, physics or engineering, the Navy has a program you should know about. It's called the Nuclear Propulsion Officer Candidate-Collegiate Program (NUPOC-C for short) and if you qualify, you can earn as much as $850 a month right through your senior year. Then after 16 weeks of Officer Candidate School, you'll receive an additional year of advanced technical education. This would cost you thousands in a civilian school, but in the Navy, we pay you. And at the end of the year of training, you'll receive a $3,000 cash bonus.

Two qualify for Sunkist

Two Poly players, John Linkett and Momlinkett, qualified for the Sunkist Collegiate Program. If you qualify, you can receive as much as $850 a month right through your senior year. Then after 16 weeks of Officer Candidate School, you'll receive an additional year of advanced technical education. This would cost you thousands in a civilian school, but in the Navy, we pay you. And at the end of the year of training, you'll receive a $3,000 cash bonus.

If you're interested, contact your placement officer to set up an interview with a Navy representative. If you'd prefer, send your resume to the Navy Nuclear Officer Program, Code 312-B498, 4015 Wilson Blvd., Arlington, Va. 22203, and a Navy representative will contact you directly.

The NUPOC-Collegiate Program is not just about helping you finish college: it can lead to an exciting career opportunity.
Women and blacks join space crew

WASHINGTON (AP)—Women and blacks are joining the U.S. command corps for the first time with the naming of five new crew members to fly the nation’s space shuttles.

They are the first American astronauts recruited in nearly nine years.

Today’s announcement by Robert A. Frisch, head of the Space and Personnel Office, eliminates a long-standing ban on women and blacks.

Another five astronauts—three men and two women—were among the names on the list from which the five were chosen.

The agency last year called qualified persons to apply for the five new slots. About 40,000 applications were submitted, the number of slots to be filled in next year's class is expected to be less than 1,000. Thousands more are planned in the near future.

Applicants for the five slots were drawn from the fields of science, engineering, and law. Applications were accepted through Jan. 14, 1979.

The new astronauts will join the 27 present U.S. astronauts who will fly the early missions.
