Learning the automotive basics

By BARTY ALLAIN

Daily Beast Writer

Boiled-like, students gather for a learning session deal- ing with some of the basics of the automotive fundamentals.

As an end of the class, students, teachers, and mechanics should be able to understand the components and the functions of the vehicle. This is especially true for those who are involved in the automotive industry.

The class is designed to give students an understanding of the basic components and their functions. Students will learn about the various systems and how they work together to make the vehicle run smoothly.

The mechanics monk as a job in the auto shop and has spent many hours learning the trade. They provide a hands-on experience for students, allowing them to see and touch the parts of the vehicle.

"Information from the classroom is very helpful, but the hands-on experience gives a better understanding of how things work," said Grges.

The learning experience for Randy Griffith, Kathy Hill and Susan

Coffee House offers entertainment by candlelight during their Coffee House event. The Festival of Bands, which has been meeting since the end of September, has been practicing since the start of the football season.

The Festival of Bands is sponsored by ASA, Music Board of Control, the Music Department and the School of Communicative Arts and Humanities.

Scheduled events for Friday, March 10 include:

11 a.m.—El Camino College Percussion Ensemble at Cal Poly Little Theatre. Admission is free.

1:30 p.m.—Original wind music by the Cal State LA Wind Ensemble and Cal State Long Beach Symphonic Band in Chumash Auditorium. Cost is $11.50 for students and $18 for adults.

8 p.m.—University of British Columbia Wind Symphony and Cal Poly Symphonic Band in Chumash Auditorium. Cost is $11.50 for students and $18 for adults.

10:30 p.m.—Cal State Northridge Jazz Band will perform in Madonna Inn's Wine Cellar. Admission is free but there are cover charges for some of the music. Tickets may be purchased at Premier Music, Chears Auto Body Repair, Korey's Too Box Records and the University Union box office.

Music from a festival of bands

The most ambitious undertaking in the history of the Cal Poly band will become a reality this weekend.

The university will be the site for the Festival of Bands and a conference for the Western Division of the College Band Directors National Association.

A three-day affair, the festival and the conference will draw visiting musicians and college band directors to the campus.

"It's something that the students and community should take advantage of seeing," said William Johnson, conductor of the Cal Poly band. "It's never happened before on campus and it will probably never happen again.

The festival, which is the University of British Columbia, Cal State Los Angeles, Cal State Long Beach, Arizona State University, Cal Poly and the Cal State Northridge Jazz Band.

All the bands held their ways to come to Poly. There were no right answers, but the part of students of the community," said Johnson.

The festival will feature numerous performances going on, both at the College Band Directors National Association and at Poly. One of the conferences held will feature the Western Division of the College Band Directors National Association and the Western Band Conductors, both held in the University of California, Berkeley.

"It's a great opportunity for the Poly band members to be involved in the festival," said Johnson.

The festival will be a way for the students to show what they've been working on. The Poly band has been practicing for the past few weeks, said Johnson.

"It's a real challenge for the students," said Johnson.

"We have a 15-member take four learning the automotive basics. They are taking an estimated price for what much a service should cost.

There are from 10 to 15 students in each group in the shop in the morning and afternoon. The students were working on repairs during the lab. The students divided into work groups of three to four before turning them loose on the car.

"The students were working on the repair of the car," said Grges. "They were working on the repair of the car and they were doing fine."

"We have the opportunity to work on our car," said Grges. "We have the opportunity to work on our car and learn about the car.

Standing alone surrounded by people

They are strangers united. Every morning they stand and wait impatiently for the bus that will take them to their jobs. United by necessity, by circumstance, but not by soul. Although they have been standing next to each other for months, and in some cases, years, their relationships are barren. An occasional hello, a wave, how are you, nothing else. They see each other from behind newsmen and umbrellas.

Today, though, the barriers will be pierced. The walls shattered. One of their own, a young woman has all seen standing with them, has been murdered.

"This damn rain, it always makes the bus run late," a young, up and coming executive says. "Say, he says to no one in particular, "Have you seen the paper this morning?"

"Yes, and beautiful hair. I'm sure she had it done somewhere," the woman knowingly. "Nobody can keep their hair looking that good without it professionally done."

Return the art works stolen from U.U.

Editor: I am the student coordinator of the University Union, Galerie.

As coordinator, I am responsible for the safety and security of the works of art and decorative pieces shown in this room. It is this responsibility I am writing to you about.

I have had this job, two pieces have been stolen from shows in the Galerie. What makes this a greater problem is that both were stolen this quarter Winter 1979.

The first piece, a Photographic Opuscle Illusion, was stolen from the Art Faculty's show at the beginning of the quarter. The second piece, a Guatemalan mat, "Conquistador," made of wood and glass was stolen from the Galerie on Feb. 28.

At this time, I would like to appeal to my fellow students and ask that these two pieces be returned. If anyone has any information on the whereabouts of the stolen items, please contact the Activities Planning Center in the University Union.

If pieces continue to be stolen, the Galerie may once again become a student lounge, and the students, once again, deprived of something that many of us value.

And you, that person or persons involved in these thefts, remember that theft is against the law and that you are only hurting yourself and your school's image by continuing to commit these acts.

Author: David Thakore is the student coordinator of the University Union Galerie.

**Gymnasts place third**

The gymnastics team finished third with 109.9 points in the Southern California Athletic Association conference meet over the weekend. However, the third place finish doesn’t necessarily make the Mustangs in the image. Only three schools, UC Santa Barbara, UC Riverside and Cal Poly, out of the six schools who competed in the image were able to attend the conference championship.

**Spikers take-8-1 record into match**

Cal Poly Pomona and U.C. Riverside come to town this weekend for a pair of conference match-ups with the Mustang's Volleyball squad.

Coach Mike Wilton’s team are riding high following a highly successful road trip to San Diego in which they swept a pair of matches.

Thursday night the Mustangs went rumbles through the volleyball world by upsetting San Diego State 19-10, 19-11, 19-7.

Friday they battled a mental letdown as well as a furious side coming in on Saturday.

Both matches surt at 7:10 in the Main Gym, The Riverside side clash will be preceded by a junior varsity game between the two schools.
