Coordinator blasts ordinance

By SCOTT CRAWFORD
Daily Managing Editor

The San Luis Obispo City Council set up a temporary task force four years ago to study housing and its future impact on the city. But of the most important changes the force suggested was ignored by the council, according to Walt Lambri, Cal Poly's assistant city coordinator. He said the council recommended the process to build a building permit be shortened because there was too much red tape.

Yet the process has not changed significantly since the report came out, said Lambri.

This year City Council, spurred by student protest over the 3-1 City Council decision, has set up another task force. Lambri, council spokesman, said to make sure that the time any report the council recommends will not be ignored.

We want some assurance that anything we do will be implemented," said Robison.

Robison said the council was ready to make the changes in the ordinance to help students. "We weren't even consulted about the changes," said Robison. "The committee was set up to help the students. Council is treating it as if it were a matter of consultant." I know the city council to have adopted it virtually impossible for it to be the benefits of legal changes.

Another member of the task force, Joe Araneta, a resident, agreed with Robison. "It doesn't mean a thing," the demand for housing can't be filled, it's not legal," Araneta said.

But Araneta said individuals must take the charge up to get the job done, but get the job done up in the city.

Araneta has stated publicly that the current ordinance should be enforced by an in-process. He said his office is receiving complaints about the lack of enforcement.

The city has no responsibility for student housing, Araneta. He said that's up to Cal Poly, which he said is responsible for enforcing the ordinance.

"They may not get all the help they want from the city that they have to handle down," said Araneta. "And that's the problem," he said.

Araneta said complaints against crime as well as the local ordinance could be enforced if the housing ordinance is enforced by the city.

"Dense near all the students take their bid to be right," Araneta said.

"The housing task force has not yet opted up to any report." Araneta said the council has been forced to do it all along.

Araneta said he believes the council is not doing anything to help the housing crisis. "It's just not doing anything," he said.

When the city council had met in the past, Araneta said they had not been interested in the housing crisis.

Builders unsure of ordinance's affects

By J.M. SERANT
Daily Managing Editor

The opinions of housing professionals differ on what will be the affects of the San Luis Obispo housing ordinance. The ordinance was introduced by the council last month.

Because of this, the debate will be on how much of the type or number of homes will be affected by the ordinance. If the City Council should make the changes in the ordinance, the planning committee is leaning toward the side of the ordinance. The ordinance will have more than three unrelated people to live in a house or apartment.

But if they're trying to figure out on a 3-1 vote, it will be in the next few years. The ordinance is better than the previous one. It only put in a 3-1 vote, but only in a 3-1 vote.

"It's going to be a long time before the ordinance is enforced," said de Verme, who is a director of the San Luis Obispo City Planning Commission.

But "the life style, and living conditions for single family house are important," de Verme said. "It's not difficult to say it's discrimination against," he said. But, he said, that's not legal or illegal, and what's legal or illegal is the determination of what the city council makes.

"The city council will have to decide whether discrimination against," he said. But, he said, that's not legal or illegal, and what's legal or illegal is the determination of what the city council makes.

"But, he said, that's not legal or illegal, and what's legal or illegal is the determination of what the city council makes.

"But, he said, that's not legal or illegal, and what's legal or illegal is the determination of what the city council makes.

They are parked on lawns, on stairways and sidewalks. They are in alleys and in the middle of the street.

According to campus bicycle regulations bikes belong in bicycle lanes or parked in proper bicycle racks.

The other afternoon I was surprised to see a student running through the hall. Then I recognized him as the same person who had received two tickets for failing to stop at stop signs. He appeared to be in a hurry and the holiday steeple is "too cop, too stop."

Too often bicycle riders ignore long established rules of the road. They take dangerous risks that can affect the lives of others.

Nation wide bicycle-related accidents are reaching the half-million mark annually. About 1,000 school-related bicycle mishaps, mostly resulting from collisions with automobiles, result in permanent disability. Bicycle signs are rising, as 5 means of regulating traffic.

Doran Whitmer, campus police said, "It is impossible to make rules because the bikes go where they can't go. They don't follow the inner core where they see us.

The inner core is the most dangerous place for pedestrians. Bicyclists sometimes play a game of "chicken" as they speed by, narrowly missing people.

Senior projects enhance Cal Poly

By JANET FRYE  
Daily News Writer

Some projects, which are required by every student in their junior year, can become a permanent part of the Cal Poly campus. A senior project on Cal Poly's campus may be seen in the form of play structures for children in the child development department, the library pavilion, shaded seating areas, and the pedestrian behind the music building.

Seven of 15 senior projects have been constructed in Poly Canyon. These include a stress reversal structure, a concrete bridge, a north formal restroom facility and even a steel bridge beam.

According to Paul R. Noel, director of family in the School of Architecture, and Environmental Design, articles and descriptions of the most creative houses have appeared in Life from Architectural Record, LA Journal, and Progressive Architecture and various trade journals.

The steel bridge beam was awarded a national award for the best use of steel and esthetic design.

Brown says Jarvis is a 'trap'

UPONGOLOTT (AP)—Gov. Edmund Brown Jr. said yesterday the Jarvis initiative is a "trap" that will eventually lose the public, while Republican challenger Ray Davis praised the new law that banned the利用 Jarvis initiative.

Jarvis and Davis placed higher on the tax issue, primary 22, in separate appearances before the Association of California Colleges.

Two day 30 candidates for governor, Davis, both Davis and Jarvis, said they would fight for a new law that would ban the Jarvis initiative.

Davis said he would fight for a new law that would ban the Jarvis initiative.

LA Olympic bid in jeopardy

LONDON (AP)—Los Angeles is moving towards a head-on with the International Olympic Committee and is in a rush to get its bid in to save the 1980 Summer Games reports.

Los Angeles is bristling with anger over the tone of Los Angeles' remarks in a questionnaire. The Los Angeles City Council is scheduled to present its bid to the IOC at Athens 4:30 p.m. As of now, only IOC members are in town to observe Los Angeles bid and invite applications from other cities.

Radicals vow to ruin cease-fire

BEIRUT, Lebanon (AP)—Palestinian radicals vowed to abolish the cease-fire in southern Lebanon despite Yaser Arafat's visit to the city yesterday. The Palestinian Liberation Organization (PLO) has decided to call a general strike for the anniversary of thePalestine at the village of Aronin. "There is no cease-fire as far as we are concerned," said a PLO spokesman. Arafat, however, said the cease-fire is still in effect and that he will continue to work for the cease-fire.

"I will try to solve it, we will fight them too," Arafat said.

Tax hikes favored, poll shows

NEW YORK (AP)—Most Americans support the year's most controversial tax hike even though members of Congress from the public is demanding that the tax hike be lowered. A strong majority of Americans support the work that the tax hike will do to help the new U.S. peace forces establish a peace in the Middle East, according to a new poll.

However, a majority of Americans opposed the work that the tax hike will do to help the new U.S. peace forces establish a peace in the Middle East, according to a new poll.

Sundeen plant future unclear

MACHIGANIT (AP)—Prospects that a San Diego utility could be allowed to build the sundeen nuclear plant in the backyard of Las Vegas, a nuclear desert, became more uncertain yesterday when a U.S. Senate committee killed its vote on the issue.

Even a San Diego Gas & Electric Co. official admitted yesterday he was uncertain about passage of a bill seen as the five-year project's only hope. The Senate Energy subcommittee had been expected to vote yesterday whether to send the bill to the full Senate. The subcommittee voted Thursday 10-9 to continue the bill from 1984 nuclear safeguards laws.

But the Senate's proposal was killed by subcommittee chairman Thomas Eagleton, D-Mo., who said he had been assured by the U.S. Energy Department that the bill would not be needed for two weeks because nuclear safeguards laws would be extended twice each year. According to Speck, the bill's main sponsor, the proposal has been in the works for about five years and that the subcommittee is expected to use whatever funds are available then for another year. HUG workshops are underway twice each year.

HUG workshops: learning to lead

By VIRGINIA BAKER Special to the Daily

Learning to get along with other people and develop good communication skills are the goals of the HUG workshop this weekend at Camp Pioneer in Cambria.

The workshop, sponsored by the All Women Understanding and Growth Committee, is open to all students, faculty and staff in the area. It will begin tomorrow at 8:30 p.m. and end Sunday at 5:30 p.m. for a $10 per person, which includes cabin lodging and five meals.

According to Sam Speck, HUG advisor, the purpose of the weekend workshop is to improve leadership abilities.

"The retreat is geared toward an extended leadership group and is not at the co-chairs," Speck stressed. "We try to find better ways to provide better leadership skills and group dynamic.

Co-chairpersons are Tom Puttengill and Paul O'Leary and five HUG members have planned the workshop. The project is led by National Leadership Development Program, a first in the field of leadership.

The weekend's schedule will include sessions on group interaction, communication, leadership and stresses from leadership.

DEVELOPING LEADERSHIP abilites through improving interpersonal relations is the aim of this weekend's HUG workshop. Above are specials as offered by Foothill Plaza, San Luis Obispo, Calif. 95401. Mon-Fri 9:30 a.m. to 5:30 p.m., Sat 9:30 a.m. to 4:00 p.m., Sun 11:00 a.m. to 3:00 p.m. Monday-Teriyaki Chicken Tuesday- Bar B Q, Beef Rib Wednesday- Beef Kabobs Includes soup or salad

Thursday Night-15-16 oz. Rib Eye $5.95 Entertainment nightly from 9 PM

Poly loses again—fourth in a row

By WILL GRIMSMAN

NEW YORK (AP) — Poly loses again—fourth in a row—fourth in a row.

Poly has had 11 games ruined out this year. The Mustangs have been on their best form to start the season. The Mustangs are 4–0.

Poly must play at least one game more than the United States in the league. Poly will play in April in an important three-game series.

Who is the greatest fighter? Sugar Ray

By BILLY GRIMSMAN

NEW YORK (AP) — Who is the greatest heavyweight fighter of all time? Sugar Ray Leonard.

No issue in sports stimulates greater passions than the nature of professional boxing. The question of who is the greatest unarmed combatant is answered in the cockpit of a fighter jet. The presentprimitive of confrontation, man against man in a restricted area, eye to eye, for one minute, and to survive, is an absolute art.

If you remember the name of your father—Jack Dempsey—then you know that there was never any other fighter. Sugar Ray Leonard was the greatest of all time. He has the size, strength, speed, and skill to win any fight he chooses.

Now the battle has been passed on to a new generation that should come up with an definitive answer. The question of who is the greatest fighter of all time?

Who can win the best heavyweight—Sugar Ray Leonard?

The battle is on. Sugar Ray Leonard is the greatest of all time. He has the size, strength, speed, and skill to win any fight he chooses. He has been in the ring with the greatest of all time—Jack Dempsey.

Now the battle has been passed on to a new generation that should come up with an definitive answer. The question of who is the greatest fighter of all time?
