Spreading happiness to others in SLO

By JEFF CHAMBERLAIN
Daily Sun Writer

The sun shone and there was a happy feeling in the town as I walked through the streets. People were out and about, enjoying the warmth of the day. Roland was happy and said that he was enjoying it too. He was a happy man and had a smile on his face. People were friendly and helpful, and there was a sense of community.

Roland said that he had been feeling happy for a long time now. He had been through a lot in his life, but he had always managed to stay positive. He had a lot of friends and family who supported him, and he was grateful for that.

Roland said that he had learned a lot from his experiences. He had seen a lot of the world and had met many interesting people. He had learned that life was not easy, but it was worth it.

Roland said that he had a lot of goals for the future. He wanted to travel more and see more of the world. He also wanted to help others and make a difference in the world. He said that he would continue to be happy and to spread that happiness to others.

Roland said that he had a lot of friends and family who supported him, and he was grateful for that. He said that he had a lot of goals for the future, and he was looking forward to实现 them.

Roland said that he had a lot of goals for the future, and he was looking forward to实现它们。
Deflation follows elation

Poly Royal is finally over, and most of us are glad to get back to some normality.

The bonds have been taken down, the flowers have been removed and the final touches have been added to the new Poly Royal.

But for a few unfortunate souls, there is no end. There are some people, before it or not, who will remember Poly Royal as the best event ever. I call it the post-Poly Royal depression.

Such a sad case happens to be a friend of mine, let's call him Jimmy. He had a great time. For his birthday, he was given a party in his honor. It was so magnificent that he was invited to be a part of it.

There was a wonderful cake in his bloodshot eyes as he toasted and made speeches himself. "I've got to talk to you," he said.

"What's on your mind, Jimmy?" I asked.

"I think I should get a job," he replied.

The friends of Poly Royal ended. It was an ending. All those moments of celebration and happiness were part of it.

It's all over. Jimmy is back in his old self again. He is begin to see the dark side of it all.

"I don't feel like doing anything. My life is over. I'm going to die," he said.

"Jimmy, you've got to pull yourself together. You have Poly Royal behind you and a new life ahead of you. I'm sorry," I said.

"I'm sorry, but I don't want to live," he said.

"Jimmy, you've got to pull yourself together. You have Poly Royal behind you and a new life ahead of you. I'm sorry," I said again.

"I'm sorry, but I don't want to live," he said again.

Jimmy went home and I went back to work.

After Poly Royal—the long goodbye

THE SCENE: WINDJAMMER NOVEL MOTHER: After Poly Royal, the long goodbye. That's what I've been thinking. You didn't have to pay for the music.

DAUGHTER: Mother, I was there, and I knew what was going on.

MOTHER: I'm through. I'm through.

DAUGHTER: Mother, you're the only one who can help me.

MOTHER: I have to do it.

DAUGHTER: Please, Mother, you're the only one who can help me.

MOTHER: I've been through it all.

OUR READERS WRITE...
ASl may take stand on R-1 ordinance

BY SCOTT GRAVEN

The Redwood City Press

ASl may take an official position on Redwood City’s newest housing ordinance if the City Council so desires according to Dr. J. A. M. C. A.

Corinna, a staff physician at the Health Center, called housing a number of issues early ‘in the year’s planning process’ and Corinna said that the concept of a housing shortage was in the planning process. According to the report, the housing shortage is related to a lack of affordable housing in the area. The report also states that the housing shortage is related to a lack of affordable housing in the area.

The resolution recommends that the City Council take a position on the housing ordinance if it so desires. The resolution also states that the City Council should be aware of the housing shortage in the area and should be prepared to take action if necessary.

Pneumonia outbreak affects students

BY LAURA CHRISTIAN

There have been a recent outbreak of pneumonia at our school. The outbreak has affected over 100 students and has caused the school to close for a week.

Dr. J. A. M. C. A. of the Health Center, said that the outbreak is caused by a strain of bacteria that is highly contagious. The bacteria is spread through air, dust, and droplets. The school has taken steps to prevent the spread of the bacteria, such as increasing ventilation and providing hand sanitizer.

The students who have been affected have been treated with antibiotics. These antibiotics are effective in treating the bacteria, but it is important for students to take the antibiotics as prescribed to ensure that the bacteria is completely eliminated.

Pneumonia is a serious illness that can lead to hospitalization and even death if not treated promptly. It is important for students to monitor their symptoms and seek medical attention if they develop a cough, fever, or shortness of breath.

Therefore, it is important for all students to take the necessary precautions to prevent the spread of pneumonia. This includes avoiding close contact with sick individuals, washing hands regularly, and wearing masks in crowded areas.

Stay tuned for updates on the pneumonia outbreak and the school’s plans to reopen.

NEWSCOPE

Learn to relax

Learn how to handle daily pressures at a seminar by John C. Maxwell, "The Situational Leadership of the Senior Executive," on May 2 in the auditorium of the school. The cost is $20 and reservations are required.

Health: Disease

Appleton, a local campus health center, is offering a seminar on "Hematology and Blood Vessel Disease." The seminar will be held on May 3 and will cover the latest research on blood vessel diseases.

Raising trip

ASL Outing is sponsoring a field trip to the campus library on May 4. The cost is $20 and reservations are required.

Movie tickets

The club’s regular meeting will be held on May 5 and will feature a screening of the film "The Shawshank Redemption." The cost is $15 and reservations are required.

Energy talk

The People Generating Energy will present a talk by author Peter Gleick on May 7. The event is free and open to the public.

EPA inquiries

The U.S. Environmental Protection Agency is investigating a leak at a chemical plant in Redwood City. The plant is located near a residential area and the agency is concerned about the potential for exposure to toxic substances.

EPA inspectors will be on the scene to monitor the situation and ensure that the public is not at risk.

Sierra Club banquet

The local Sierra Club chapter is hosting a banquet on May 8 at the Venta Restaurant. The banquet is open to the public and reservations are required.

Women’s programs

"Women up front" is a variety of programs aimed at empowering women in all aspects of life. The programs will be held on May 9 and will cover topics such as leadership, career development, and personal growth.

Cuesta art show

Cuesta Art Show is a celebration of art in all forms. The show will be held in the college library from May 10 to 12. The event is free and open to the public.

Indian Knob hike

A hike is planned on May 12 for those interested in exploring Indian Knob. The hike will be held at 8 a.m. and will include a picnic lunch. The event is free and open to the public.

MONSTER GRAM

There you are! Considering the personal question. How to show when you care on Mother’s Day.

Thought you might enjoy a Mother’s Day gift guide. You can still order before next week.

Women live longer than men and have more children. Be sure to show your appreciation for the women in your life.

If you’re thinking about giving her a Mother’s Day gift, consider a bouquet of flowers, a homemade meal, or a personalized gift.

Your personalized message might include:

"To Mom, I love you more than words can express. Happy Mother’s Day!"

"Mom, you’re the best mother a girl could ask for. Love you always!"

"Thank you for all you do. Happy Mother’s Day!"

You can also include a photo or a special message to make the gift even more personal.

Remember, your message will be remembered year-round!"
Preparation is the key to job hunting

Editor's note: This is the first of a two-part series on the search for a job.

By JACQUELINE SHERMEN
Daily Staff Writer

We talk about good resumes and sharp techniques in interviewing, but there's one last thing to talk about: how to seek out a job, according to Sharon Price, the advisor of the Placement Office.

At the university, the Placement office is still the best place to start. There are representatives to help students develop their resumes, interview techniques and give general advice about the job market, she said.

"But there are others," Price said of students who went to an advisor of the Placement office and ended up in a different field. "We've had people work for six months in one field and decide they don't like it and turn to another field."

According to Price, the first four students who came to her were parents. "They want to do something to make money, but they don't want to go back to school," she said. "They need a field to walk into, and they didn't want to go back to school."

Two of the four had been married for two months when they came to Price. "They couldn't afford to lose their salary, and they were ready to give it a try," she said.

Price said students should continue to look for personal interests, ambitions, combined strengths and experiences to go with others. Employers are looking for things that make a person stand out from other applicants and help them in their chosen field.

The next step is to check the classifieds, according to Price. "Some employers don't advertise, but a lot of people do," she said. "It's very helpful to see what the field is about."

Another step is to check with friends and relatives, asking them to help find a job. "Some people can find jobs for algebra teachers and give them to their friends," Price said. "Others can give you leads that can help you get a job."

The final step is to network, according to Price. "Networking is important," she said. "It's a way of being important to others and getting someone else's attention."

Price said students should continue to look into the classifieds, talk to friends and relatives, and get involved in their careers. "There are many ways to get a job," she said. "It's important to be open to different opportunities and to continue to look for opportunities."

Register to vote by Monday

By MICHAEL O'BRIEN
Daily Staff Writer

Monday is the deadline for voter registration, and if you are not sure, you will be one year before the right to vote can be resumed. The process is simple, with only three steps.

In an ASI Student Senate resolution, the group was declared voter registration coordinator for the campus. The resolution, as passed by the ASI Senate, is to assist students about their vote.

Registration is an easy process in which a form—already addressed and stamped—is filled out and dropped into the nearest collection box. Or, it can be picked up at locations in the Student Union, at the library or in the Parent Center office. From 2:30 p.m. to 5:30 p.m. on Monday, and 9 a.m. to noon on Friday, the form can be filled out and mailed.

According to Bennett, of Student Senate, about 800 people, almost one-half of the student body, have voted so far. Bennett added that it is a big turn for the students, and a lot of the votes are still to come.

According to Bennett, of Student Senate, about 800 people, almost one-half of the student body, have voted so far. Bennett added that it is a big turn for the students, and a lot of the votes are still to come.

Flutist, pianist to play in concert

"World-Famous Flutist" and "pianist duet Bryan and Keys" will bring to campus an extraordinary concert of chamber music Thursday evening during university hall. Bryan and Keys will perform selections from the works of Beethoven, Pachner and Bartok in an informal concert that will feature a mixture of music.

Registration is easy and simple, according to Bennett. "It's a way of being able to vote, and it's a way of being able to vote for the people you want," she said. "It's a way of being able to vote for the people you want, and it's a way of being able to vote for the people you want."
"Conversations" about San Luis past

By MICHAEL O'KEEFE
Daily Staff Writer

Every Wednesday at noon in the Union Dining Hall, the "Conversations" about San Luis past series starts at noon. The series is open to anyone who wishes to share their memories of San Luis Obispo.

The first "Conversations" was held in May and was attended by a group of people who had lived in San Luis Obispo for many years. The group talked about the history of the city and the people who had lived there.

The next "Conversations" will be held on June 15th and will feature stories from the early settlers of San Luis Obispo. The stories will be shared by local historians and members of the community.

If you have a story to share about San Luis past, please contact the Union Dining Hall at 805-235-7777 to schedule a time to share your story.

ARTCEN1 available

For planning purposes and better marketing, graphic design changes are available for the various projects at the Center.

Located in the Activities Center, room 217 of the Union, the activities include: the activities include: a drafting table, a chair, a desk, a window, a window, and a small office of design tools.

According to Doug Jones, graphic design director, the Center is available to any student organization that wishes to use it. The charge is $5 per hour for the service.

University Union Travel Center ANNOUNCES

"ONE-WAY CHARTER FLIGHT"

To Paris - Amsterdam - Zurich $245.00 from S.F./L.A.
$199.00 from New York

For more information, call University Union Travel Center at 805-235-7777.

Gary Martin—the man behind the plate

BY GAIL STEEDER

Daily News Writer

When Gary Martin pulls on his black mask and black clothes, in his heart he knows he's a catcher. His job is to convince the umpires he's the most knowledgeable and fallible California Interscholastic Federation baseball umpire in the world.

Martin, 16, estimates he'll pick up about 200 games this season for the popular baseball school game. A freshman at Lompoc High School, he scheduled his classes to have his afternoon and evenings free.

Confidence is a key to overcoming a bad game or a bad call, as he said in an interview. "I told my dad, that's what he means," he explained, if you're in bat line, the ball and are running, no matter how many times he has run.

This is a key to the man with the plate. He began his second season as a plate umpire for city and youth leagues, his first as a CIF-certified umpire for high school baseball. He's having an on going struggle with the eyes.

His rate of effort, hard work, and mechanics as the best in the city. If you can stretch and get to the ball, he said. Spinala, wondering whether or not he's one of the first, Martin suggested.

"We're in a game, that's the main thing. You can't get too high or too low," he said.

A few Los Angeles natives, Martin began the road to umpiring when he managed a high school junior baseball team.

"I like sports," he wasn't very good at playing them, he said. He's working with the team and being a part of them," he said.

He managed the junior varsity football team, doing statistics and reporting, at Los Angeles High School. During two years as an umpire, the school's single student information director for sports, he was the weekly press releases for five local newspapers and in area radio stations.

A young statistical brooks resulted from a school library research. Martin compiled information on CIF softball teams dating back to 1950 and the school issued it as a yearbook.

"Once you are an umpire, you can't be low," he said. "I think the idea is to try to get into the umpires' eyes and use your best possible sight."

"That's a very obvious thing," he said. "Just because something is on the field, you have to know where it is."

Poly sailors find rough seas too much to handle

The two companions from the Newport Harbor Yacht Club were among the first to arrive at VISTA, the new aviation museum on Oceanside Boulevard, during the opening day of the museum.

Although they had been late to the opening ceremony, the nosy sailors found the museum to be well organized and full of interesting exhibits. The two companions, who had been sailing together for several years, were both impressed with the museum's collection of model planes and the extensive display of aviation history.

The museum is located in the former location of the Oceanside Yacht Club, which closed its doors in 1971. Since then, the building has been vacant and neglected, but the new owners have transformed it into a state-of-the-art museum dedicated to the preservation of aviation history.

St. Louis drafts Childs

Jerry Childs, Poly's most consistent hitter, had a great day at the plate. He went 3 for 4 with a home run and two doubles, and drives in five runs. Childs also made a great catch in the outfield to prevent a home run.

The Cardinals' record improved to 8-2 with the win. Childs is now hitting .345 with 10 home runs and 38 RBIs.

Netters seek title

In search of a net title, the Los Angeles Netters will host the San Diego Netters on Saturday afternoon. The Netters are currently in second place in the league, and a win against the first-place team could put them in the driver's seat for the championship.

Volunteers in Service to America

VISTA volunteers serve in all 100 states, Puerto Rico, the Virgin Islands, Guam, and American Samoa. Volunteers work with local communities to improve the quality of life for young people and their families. To become a volunteer, visit the VISTA website or contact your local VISTA office.

The Sky's the Limit in Naval Aviation

If you want to get to the top in aviation, the Navy is the way to go. We offer unlimited opportunities as pilots and Naval aviators. As a pilot, you'll be trained to fly the most advanced jets on the planet. As a Naval aviator, you'll operate the sophisticated weapon systems, computers, and advanced electronics. As either, you'll wear the wings of Naval Aviation.

If you're a college man in good physical condition, Naval Aviation would be right for you. Find out more about your local recruiter. Contact: NAVAL, Recruiters, 4727 Vitus Ave., Suite 200, Camp Pendleton, CA 92055.
