Dumke asks for $189 student fee hike

The first proposed reduction of $11.6 million comes from eliminating system-wide program change proposals, including Instructional Faculty, Learning Assistance Program and Alumni Relations. These will not receive their requests for new funding.

Another reduction totals $4.8 million and comes from cutting down on program maintenance increases, such as the public safety emergency fund, academic program improvements, Chancellor's Office and Academic Senate. These reductions encompass systemwide provisions and offices and campus operations, some of which were deleted or were allocated less funding.

The third reduction amounts to $2.2 million and involves cutting out funds requested to accommodate the expected enrollment increase for next year. According to the CSUC Finance Committee report to the trustees, this recommendation will lead to the enrollment denial of 5,157 students for next year. Landreth said this meant enrollment would be controlled by accepting fewer students.

A student fee increase was proposed for the fourth category because the Finance Committee reported the Chancellor's advisory group "concluded that no further reductions are feasible." Thus, the $41 million generated by increased student fees were allocated for most of the $59 million budget cut.

The systemwide increase in student fees comes to an average of $216 per full-time student per year, according to the finance report. Landreth said this amount is a combination of $170 for next year and the $46 million cut from last year.

Court to rule on child porn laws

WASHINGTON (AP) — The Supreme Court agreed Monday to decide how far states can go in outlawing the use of children in sexually explicit photographs, movies and plays.

The justices vacated two lower court rulings in which a New York law struck down as an unconstitutional infringement on free-speech rights hundreds of laws that ban even non-obscene performances by children.

Nineteen states have similar "child pornography" laws.

The court's study of what is viewed as a rapidly growing problem comes as a result of a case when Computers also is being asked to help by providing more law enforcement money to combat the sexual exploitation of children.

In other matters Monday, the justices took these actions:

— Said they will decide whether the public and press can be excluded from all criminal trials while young victims of sexual crimes are testifying. The Boston Globe is challenging a Massachusetts law that makes such exclusion mandatory.

— Refused to block the scheduled hanging of convicted Montana killer Dewey Eugene Coleman, who on Nov. 27 will become the fifth U.S. prison inmate to be executed since 1976 unless some other court intervenes.

New vaccine approved by FDA

WASHINGTON (AP) — An estimated 10 million American health workers, male homosexuals, drug addicts and others at high risk of contracting hepatitis B are prime candidates for a hepatitis vaccine approved Monday by the Food and Drug Administration.

The new vaccine has proven both safe and highly effective in clinical trials for protecting people against the obstructing liver disease, said Dr. Arthur Hall Hayes Jr., the FDA commissioner.

"This is the first completely new viral vaccine in 10 years and the first vaccine ever licensed in the United States that is made directly from human blood," Hayes said at a news conference.

One constraint may be the vaccine's price: an estimated $75 to $120 for three shots given over six months, according to Merck Sharp & Dohme, the maker of the "Hepavax-B" vaccine.

Hepatitis B is the most serious of three viral forms of the disease. It infects 200,000 to 300,000 Americans each year, and the Center for Disease Control estimates it costs the nation $750 million annually in medical bills and time lost from work.

NRC considers penalties for PG and E

BY NANCY LEWIS

The Nuclear Regulatory Commission met in a closed session Monday in Washington, D.C., to discuss whether or not to levy penalties against Pacific Gas and Electric Co. for its failure to catch seismic design flaws in the Diablo Canyon Nuclear Power Plant.

No information on possible enforcement actions has been released, said Jim Rechetti, PG and E public affairs officer.

Rechetti disagreed with newspaper reports that the NRC was discussing a possible $100,000 fine against PG and E for its failure to catch the seismic design flaws in the plant.

The penalties could be monetary, he said, but penalties such as modifications and delays are also possible.

According to George Sarkisian, PG and E project information specialist, "It's a little premature to tell what the NRC will do.

The Western Regional NRC office was preparing a briefing on possible violations of NRC quality control regulations in the design of Diablo Canyon by PG and E, said Sarkisian. He added that the Walnut Creek office acknowledged the report but declined to comment on it.

It was to be presented to the commission Monday, he said.

In other action Monday, the NRC held a closed meeting with defense officials by Gen. Edmund G. Brown Jr. that the NRC hired an independent consultant to study design deficiencies at Diablo Canyon plant.

Information from this session was not known by Hancock.

The NRC also held both a public discussion and a closed session to review a 1967 PG and E memorandum that said PG and E had used an unproven method running through the mouth of Diablo Canyon said Hancock.

Correction

The Mustang Daily erroneously reported Monday, Nov. 13 that David Karture was contact person for the Christian Science Organization. The actual contact person is George Haille.
"All done on campus"

The Mustang Daily is the only student newspaper in the country which is entirely written, edited, printed and distributed by students on campus. After reporters write the stories and salesmen sell the ads, Mustang-Daily editors deliver layouts, photographs, and typewritten copy to a company called University Graphic Systems (UGS), a student-run organization connected with the Cal Poly Foundation. Graphic Communications students working part-time for UGS augment their classroom education by getting hands-on experience actually producing an award-winning student newspaper in a complete newspaper production plant on campus.

When Mustang Daily editors deliver typewritten stories to the nightly production crew, they are typeset using an electronic typesetting unit. Here, (1) Cathy Born enters a story using a computerized terminal connected to the typesetter. Typeset copy is then "pasted-up" on layout boards to be made into film negatives. (2 & 3) Production Foreman Deni Cates checks negatives before transferring the images to aluminum "printing plates." (4) Used on the offset newspaper press.

Early the next morning, the three-man press crew comes in to run the "web" press. Newspaper presses are fed with a roll of paper which is folded and cut after printing. The rolls on the Mustang Daily press weigh a thousand pounds each and are webbed through the printing.

GRAND OPENING
A NEW EXCITING ADVENTURE IN HEALTHY DINING FROM
SUGARLESS SHACK

IN CELEBRATION & APPRECIATION OF OUR 2ND SUCCESSFUL YEAR IN SLO TOWN, WE PROUDLY

OPEN THE DOORS ON OUR NEW FULL SERVICE RESTAURANT!!!

SUGARLESS SHACK makes dining a live and exciting experience. Healthy eating can be delicious! All SUGARLESS SHACK foods are made from the finest ingredients. SUGARLESS SHACK uses no added preservatives, fats or oils, no added sugars—raw or refined—no added starches and nothing we serve does not taste the way only hard to bring you healthy meals that are great tasting and good for you.

"That's the healthful difference to you!
Eat here or to go!

1. SALAD BOWL
A bed of crisp lettuce topped with fresh tomatoes, green peppers, mushrooms, alfalfa sprouts and seasonal vegetables when available. Choice of dressing. Creamy Garlic, Bleu Cheese or Thousand Island dressing when available. Choice of dressing. Creamy pita bread covered with shredded lettuce and topped with 4 oz. or 6 oz. or 1 lb. of meat or cheese. $3.75 $4.70 $5.75

2. TACO SALAD SUPREME
Your choice of delicately blended taco salad or a bed of crisp lettuce and lots of other toppings. Choice of whole wheat crackers or vegetables. $3.95 $4.95

3. VEGETABLE MEDLEY (vegetarian)
Fresh steamed vegetables sautéed with melted cheese. Creamy Garlic, Bleu Cheese or Thousand Island dressing when available. Choice of dressing. Creamy pita bread covered with shredded lettuce and topped with 4 oz. or 6 oz. or 1 lb. of meat or cheese. $3.95 $4.95

4. TACO or TURKEY POCKET
The choicest taco or turkey, tucked away inside a piece of pita bread covered with shredded lettuce and topped with fresh tomatoes, alfalfa sprouts and Skinny Munches. $3.20 $4.20 $5.20

5. TACO POCKET - A Mexican Treat
Seasoned ground beef or turkey stuffed inside a piece of whole wheat pita bread covered with shredded lettuce, tomatoes, alfalfa sprouts and topped with cheese and Skinny Munches. $3.20 $4.20 $5.20

6. VEAL CABBAGE ROLLS
A European delicacy made from the choicest veal meat, carefully rolled in tender cabbage leaves and prepared with a special sauce. $3.95 $4.95 $5.95

7. SKINNY NACHO
Whole wheat crackers topped with seasoned meat, green peppers, tomatoes, melted cheese and special sauce. FANTASTIC! 4 oz. or 6 oz. or 1 lb. of meat or cheese. $3.50 $4.50 $5.50

PLUS ALL YOUR FAVORITE SUGAR FREE DESSERTS!!

9. TACO SALAD
Seasoned ground meat served on whole wheat cracker bread topped with shredded lettuce, tomatoes, cheese, cheese and alfalfa sprouts. $3.75 $4.70 $5.75

10. CHICKEN ENCHILADAS
Baked in a corn tortilla and topped with our special sauce, shredded lettuce, chopped tomatoes and alfalfa sprouts. $4.00 $5.00

13. GARDEN QUICHE (vegetarian)
Delicious, eggless quiche filled with whole eggs and cheese baked in a light, flaky crust. $3.50 $4.50 $5.50

14. CHILI QUICHE
Delicious green chile and eggless quiche filled with whole eggs and cheese baked in a light, flaky crust. $4.00 $5.00 $6.00

BEVERAGES

Coffee, Green Tea, Iced Tea, and Soft Drinks. $1.95 $4.00

Skip Nov. 19th.
On November 19, we'd like you to stop smoking cigarettes for 24 hours worth a day. Because you can stop forever.

Baker elected as member of education board
Cal Poly President Dr. Warren J. Baker was elected this week to membership on the Board of Directors of one of the nation's most influential higher education associations. The action came during the annual business meeting of the American Association of State Colleges and Universities in Colorado Springs, Colo.

President Baker was among six university presidents elected to the 12-member board during a plenary session on Tuesday, Nov. 10. His one-year term began upon conclusion of the annual meeting on Wednesday, Nov. 11.

With 340 colleges and university members throughout the U.S., in Guam, and in the Virgin Islands, AASCU provides an organizational focal point for the collective needs of state college and university members.

Dr. Baker is in his third year as president of Cal Poly after having been chairman of the engineering faculty, dean of the College of Engineering, Chrysler Professor, and vice president for academic affairs during his 11-year tenure at University of Detroit.

MARTIN MARIETTA'S VANDENBERG OPERATION HAS IMMEDIATE REQUIREMENTS FOR DECEMBER GRADUATING ENGINEERS IN THE FOLLOWING AREAS:

- ELECTRONIC ENGINEERING
- ELECTRICAL ENGINEERING
- MECHANICAL ENGINEERING
- AEROSPACE ENGINEERING
- CIVIL ENGINEERING
- ENGINEERING TECHNOLOGY
- ENGINEERING COMPUTER SCIENCE

IN ADDITION WE HAVE OPPORTUNITIES AVAILABLE FOR:

- FINANCE AND ACCOUNTING MAJORS
- MANAGEMENT INFORMATION SYSTEMS
- HUMAN RESOURCE MANAGEMENT GRADUATES

Martin Marietta Aerospace offers December graduates a quick career start and an exciting future at Vandenberg AFB in California. We need graduating engineers to start work in December, as we begin a rapid expansion of our Space Shuttle and Missile X programs.

If you're interested in an immediate challenge and a great opportunity, there are three things you should know about Martin Marietta Aerospace:

1. Our organizational structure gives you unusual flexibility in determining your career path.
2. Martin Marietta will provide you with a stimulating environment through challenging assignments.
3. And finally, we want to talk to YOU. Sign-up today for on-campus interviews at your career placement office. Arrange to talk to us and we'll give you more information about Martin Marietta Aerospace at Vandenberg AFB and its opportunities.

SEE OUR REPRESENTATIVE ON CAMPUS NOVEMBER 20

If unable to arrange for an interview at this time please send your resume to: Martin Marietta Aerospace, College Relations, Attn: Richard Ristine, P.O. Box 1681, Vandenberg AFB, California 93437.

Seminar stresses awareness, prevention of rape

BY SANDRA GABY

The crime rate for rape is the fastest growing in the United States yet rape has the lowest conviction rate, Lois Dirke, Cal Poly counselor, told a group of students Tuesday at a rape prevention seminar in the University Union, Room 259.

The focus of the seminar was that awareness of rape prevents the possibility of rape. The film "Rape: Escape Without Violence" pointed out the dangers of the attitude "it could never happen to me."

A woman's instincts are her best warning signals, according to the film. Women should not hesitate to be rude or to make a scene.

A woman who is aware is less likely to avoid rape," the film said. "Women should not hesitate to be rude or to make a scene."

"A woman who is aware is less likely to avoid rape," the film said. "Women should not hesitate to be rude or to make a scene."

Student recovers after mishap

A Cal Poly student is resting at her home in Vailejo after a miraculous recovery from injuries sustained in a moped accident five weeks ago.

Karen Carroll was involved in a traffic accident on California Boulevard on Oct. 18. According to brain surgeon Dr. Richard Williams, Carroll was almost dead on arrival at Sierra Vista hospital, having suffered severe head injuries.

Carroll was released from Sierra Vista Hospital on Tuesday, November 3, with a mental and physical "clean bill of health," by Dr. Williams.

"I am looking forward to coming back for Spring Quarter (1980)," said Carroll.

On the evening of Carroll's accident, about 70 students waited in the intensive care unit, for Carroll's sisters (Jackie Austin and Virginia Carroll) and Karen's fiance, former Poly student Bert Williams.

There were at least 20 students visiting Carroll every day, according to Carroll's family. The Sierra Vista staff had to put up signs, ordering only two Carroll visitors at a time and requesting them to check in at the nurse's station.

Dirke asserted that rape is a violent crime.

"There is no difference in being raped and being run over by a truck except that afterward people ask you if you enjoyed it," she said.

The belief that resistance will automatically result in the assailant hurting or killing the victim is another myth concerning rape, said university police officer Wayne Carmack.

"Strong and early resistance can be very effective," he said. "There is no universal correct response to sexual assault. I recommend that you take a good hard look at your personal habits," he said.

Personal habits can be a key to rape prevention. The film and speakers urged women to avoid routinely being alone in a place where a crime could occur. A would-be rapist usually watches his victim and plans when and where his crime will occur, Dirke said. Three primary places rape occurs are in the home, car, while out walking or hiking.

I will stop leaving the refrigerator door open while I do not eat.

I will stop leaving the refrigerator door open while I do not eat.

I will stop leaving the refrigerator door open while I do not eat.

I will cut down on wasted use of appliances such as blow dryers, electric razors, toasters, electric clocks and other such devices.

I will cut down on wasted use of appliances such as blow dryers, electric razors, toasters, electric clocks and other such devices.

I will cut down on wasted use of appliances such as blow dryers, electric razors, toasters, electric clocks and other such devices.

All these and more I will continue to practice so that my peers may conserve energy in my living situation from this day forward.

Signed, on this the day of , in the year of hundred and eighty-nine.

PACIFIC GAS AND ELECTRIC COMPANY

...YOU SHOULD

ESPECIALLY if you are living in the residence halls because signing a "Commitment to Energy Conservation" exempts money for your hall. SO when you receive a "Commitment" be sure to read it, sign it, and return it to your committee gut. BUT most of all, FOLLOW IT!

Barbie Clifton and Joe Barton
PG&H E Campus Reps, 544-5228
**Newscope**

**Bio Plaza Food**

The Bio Plaza Club will have a pinto feed Thursday, 6:30 p.m. at Foothill Plaza. There will be no charge of $3.25, and everyone is welcome.

Andrew Young at Paly

Andrew Young, mayor-elect of Atlanta, former congressman, U.N. ambassador and civil rights leader, will speak in Chumash Auditorium on Nov. 26 at 6:30 p.m. Students tickets are 86 in advance.

Outreach Outreaching

The Outreach Club will entertain the residents of Casa de Vida today at 6 p.m. Club members should meet in the dining hall of Casa de Vida at 877 Montana Ave.

Toothbrush Exchange

The oral health education folks from the Health Center will be sponsoring a toothbrush exchange in the U.U. plaza at 11 a.m. on Thursday, Dec. 3. Students will receive a new toothbrush, along with information on proper oral hygiene.

**Poly Royal Board**

The Poly Royal General Election meeting of the year will be at 11 a.m. in Fischer Science 296. All clubs and organizations must have at least one representative on the board to participate in Poly Royal 82.

**Salsa Meeting**

The Salsa Club will be meeting Thursday, at 11 a.m. in Science North 211. There will be a salsa presentation on the line of Cortez.

Cantabury Meetings

The Episcopal students meet weekly for Bible study and discussion on Mondays at 7 p.m. in the Campus Christian Center.

Entertainers Wanted!

Beginning, names, joggers and other entertainers are wanted to perform in front of young athletes and their families for the end-of-the-season soccer supper this Saturday from 4 to 6 p.m. at the San Luis Obispo Recreation Department. Contact Jane, 546-4545, or Linda, 641-2809.

**Design Competition**

ABC/AIA is sponsoring a competition, in conjunction with the third floor offices of the Architecture Building. Competition data is available in the print room, and submission date is before noon on Nov. 30 in the Architecture Office.

**Architectural Seminar**

ABC/AIA is sponsoring a seminar the Internist Architect Development Program (I.D.P.), which trains architects in college for their future careers. The seminar will be held Wednesday, Nov. 18 in the Architecture Gallery.

**Internal Relations**

Entries for men's and women's badminton are being accepted until Friday at noon. Turn in applications to the Intramurals Office, UU 104.

**Pre-Law Meeting**

A local attorney will discuss career opportunities in law and answer questions at the next Pre-Law Club meeting, Nov. 19 at 7 p.m. in Agriculture 111.

**Chicano Commencement Meeting**

The Chicano Commencement Committee will meet tonight at 6 p.m. in UU 116. Seniors who wish to participate in the graduation ceremony are invited to attend.

**Engineers Charter Night**

Club charter will be presented to club officers by the Dean of Engineering at 7 p.m. tonight in UU 117. Mr. Ray A. Whitney, Manager of Engineering International, Becti-Vack Power Corp., will speak on "Engineering Opportunities Overseas." Club members may have displays, and there will be refreshments.

**Turkey Trot**

All students, faculty and staff are invited to participate in the second annual 2.4-mile Turkey Trot. There are entries in eight divisions. The race will be run on the track in the main gym at 4 p.m. on Thursday. Prints will be ordered to Thanksgiving turkeys.

**ASIS Film**

"The Competition" will play in Chumash Auditorium Wednesday, at 7 and 9:45 p.m.

**Intramural Free Throw**

There will be an intramural free throw contest Sunday, Dec. 3 in the main gym from 8 p.m. to 9:30 p.m. There will be four winners, two men and two women, from 60 shots. Sign up now, free of charge!
Space Shuttle touchdowns down after 54-hour flight

From page 1

said Jackson.

One of the many experiments which was successfully completed was the use of the Columbia's new electric arm. The arm, or Remote Manipulator System, will be used for placing and servicing satellites in space. The testing of the arm was incomplete since it received its energy from the three fuel cells on board, one of which failed and caused the shortening of the mission.

The test craft "Enterprise" touched down after 54-hour flight across the Pacific Ocean. Asked if future flights were planned for the Double Eagle V, Abruzzo replied, "The Columbia has reached new planes in space, as we have reached new distances in the balloon. The Columbia will fly again, and so will we."

The test craft "Enterprise" touches down in the desert at Edwards Air Force Base. Although it never flew to outer space, the Enterprise proved that a shuttle-like craft could be safely landed more than once.

Registration fees may take giant leap

From page 1

charge put into effect this year. Based on this year's registration fees, however, the increase is actually $19.50 ($170 from CSUC increase and $189.50 ($170 from CSUC increase and $19.50 for ASI and Student Services). However, the increase is actually 2 percent budget cut for this year and, although some were willing or felt capable, they said they refused because they did not want to give him "a forum for his unbelief." Dr. Bruce Tjaden, of the Campus Christian Center and Presbyterian campus pastor at Poly for seven years, talked to Roland last summer. He said he hoped "Mr. Roland would explore every opportunity for conversation with Biblical scholars before using public debate as a teaching tool." Many of Roland's bold allegations, he said, are "old hat" to even the most conservative of Biblical scholars.

The reason for the focus on Poly, said Roland, is that it is one of the few places available and suitable for public debate.

The budget cuts in the CSUC system are being considered due to orders from Gov. Edmund G. Brown Jr. for all state departments to implement 5 percent spending cuts for the next fiscal year. The 5 percent budget cut for this year was ordered because of the state's money shortage.

Mustang women spike
Berkeley, San Diego

Hosting the unseeded Cal-Berkeley Bears (17-16) overall last Friday night after Wednesday's impressive four-game victory over highly seeded UC Santa Barbara, the Cal Poly women's volleyball team was a prime target for an "emotional letdown." No letdown occurred, however, as the Mustang spikers came out and swept the Bears in three straight games, (16-12, 15-15, 15-7).

"Yeah, it was hard to get up for this game after Santa Barbara," smiled Poly's sophomore sensation Sandy Aughtough. "We started out sluggish in the first two games but finished strong."

In the first game, the Mustangs, making several mental errors and not playing with their usual enthusiasm, looked particularly sluggish. And when Berkeley took a 12-11 lead, it looked as though Poly might drop the first game. After a time out, however, the Mustang spikers showed why they sport a 34-8 overall record. With great play from seniors Sherri Walker and freshman Terri Purling, Poly quickly regained composure and went on to win the first game, 16-12.

The second game looked much like the first with the Bears mounting a threat midway through the game. But with the score tied at 8, Poly senior setter Marie Lundie put on a one woman volleyball clinic.

"Marie Lundie, sign her up!" the announcer screamed as Lundie made a fantastic dig to save the point. "Marie Lundie, all world!" he screamed again as Lundie made another amazing dig to save another point.

And finally, "Marie Lundie for President!" the announcer shouted with the crowd roaring as Lundie buried the ball and Berkeley with a crushing spike.

The last game of the match was never in doubt. With consistent play, Poly jumped to an early 9-6 lead. From that point on, it was simply a matter of waving "bye-byes" to the Bears as the Mustangs cruised to a 15-7 third and final game victory.

On Saturday night Cal Poly played the University of San Diego in BLO town, and about the only contest in question was which side of the bleachers was going to win the staged CAL versus POLY yelling match. The Mustangs, to put it mildly, humiliated San Diego, sweeping the match in three games (16-4, 15-5, 15-9).

San Diego (14-11) was obviously no match for the talented Poly squad from the start. Perhaps the most exciting moment of the match occurred when senior reserve player Diane Deutschman slammed a spike home which brought all of her teammates to a roaring applause.

"Everyone played well," commented Mustang head coach Mike Weldon. "It was a super effort and a fired up performance."

Sports
Men run 4th in Div. II nationals

BY VALERIE BRICKMAN

Steff Winter

The men's cross country team finished fourth with 122 points in the NCAA Division II Nationals this weekend at Lowell University in Lowell, Mass. behind Millersville (101), Tennessee (98) and Kutztown State, Mass. (119).

It was the first time in four place finish, the Mustangs also qualified four runners for the nationals. Americans. Andy DeCotiis was the leading runner for Cal Poly as he crossed the finish line to place eighth with a time of 32:44 and Doug Avrit took 15th with a time of 33:22.

"Andy ran a real intelligent race and Doug ran a gut­ty race," coach Danny Aldridge said.

They ran well, but they were not healthy for three weeks, but were healthy for this race," Aldridge added.

Aldridge said the team felt disappointed with their finish, they were hoping to be in the top three, but were happy that they won over Riverside and can see themselves as tough in the years to come as they will have four of the top seven runners returning.

Aldridge sums up the season as a team that hung together through a lot of adversity. He also said that everything that happened with the illnesses and the loss of Head Coach Steve Miller and having two new coaches.

"Contemporary Issues in the Psychology of Coaching and Sport" is a title of a lecture that will be given by Dr. Bryant Craffy of University of California, Los Angeles, on Wednesday, Nov. 15, at 7 p.m. in the auditorium of Cal Poly's Physical Education Building. Admission will be free and all those interested in the areas of sports and psychology are invited to attend.

Dr. Cratty is considered by professionals in the field of education, and athletic coaching to be an expert in the area of athletes, perceptual style assessment and instruction, and intelligence and motor activity. He is the author of five books and numerous monographs, including both graduate-level text and publications directed toward teachers and parents. His books have been translated into 12 languages.

Walter romps at NCCA IA (AA) - American tailback Herschel Walker, who ex­ploded on the college football scene a year ago and led Georgia to the national championship as a freshman, believes he is having an even better season as a sophomore.

Walker, who ran for 1,614 yards last year to break the Division AA record set by Tony Dorsett, has been this year's preseason player of the year with one game remaining — a Dec. 5 contest with Georgia Tech.

Yet there are those who say he lost his 500 yards. Walker has not been as ef­fective this year for the four­ranked Bulldogs.

"Coming off the season, I had last year, they expect me to be what I'm not," Walker said in a tele­phone interview from the Athens campus. "They don't see me to be a superman, which I'm not. I'm just a human being and everyone has some rough patches that happened with the illnesses and the loss of Head Coach Steve Miller and having two new coaches.

Opinion

Just deserts

The Cal Poly Academic Senate took a major step toward helping students get exactly—grades which accurately reflect academic performance. Last week, the senate approved a resolution making plus and minus grading an official option for faculty beginning in 1983.

We commend the senate’s decision on the basis of grading. With a plus and minus option, students can be graded more accurately, receiving a true evaluation of their work in a course. As it is, now, a student in a borderline “A-B” situation may receive a “B” in the class, while another student in the same course who is borderline “B-C” may also receive a “B.” Obviously, both of these students did not achieve the same level of proficiency in the class, yet both receive the same grade. Plus and minus grading will eliminate this ambiguity and give students exactly what they earn through more discriminating grades.

The cutoff line for the credit/no credit option will change under the plus and minus policy. Students may receive credit in a class in which they earn a C-, worth 1.7 grade points. This will help students who have selected the credit/no credit option and are in between a C and D in the class. Both faculty and students will benefit in this situation when a definite line is used to determine which students receive credit and which do not.

Students stand gain the most from the faculty option of plus and minus grading and although we endorse the concept, we feel it should be the students’ ultimate choice to implement it as policy.

Plus and minus grading will be optional; those faculty who are uncomfortable with the system will not have to use it. But we urge that students be given an option, too.

The Mustang Daily Editorial Board urges faculty to consider taking a student vote at the beginning of each course to see if the students feel plus and minus grading would be the best system for them. In this way, the students may decide for themselves how fine the liberties grading grades should be drawn.

We applaud the senate for giving the faculty the option, but urge that students have a vote also.

Israel lobby exists

Mr. David Stein commits several minor and one major error in expressing his disagreement with my colleague, Dr. William Alexander, over the AWACS sale to Saudi Arabia. The most serious consists of the alleged usage of the word “instructions” by Dr. Alexander to describe the Israeli lobby, and the meaning of President Eisenhower’s usage of the phrase “military-industrial complex.” First, at no point does President Eisenhower refer to himself as heading a lobby consisting of “big oil, big business and big industry.”

The major error committed by Mr. Stein is his implied denial of the existence of an Israeli lobby. This is tantamount to saying there is no National Rifle Association or American Medical Association. What kind of evidence do we have supporting the existence of an Israeli lobby? No less an authority than Prime Minister Menachem Begin has admitted to the existence of an influential lobby acting on behalf of Israeli interests in the U.S. While in disagreement about the potency and extent to which this lobby acts in accordance with U.S.-self-interest, both

Arms initiative

Editor: There is a variation of the old saying: “If you can’t see the trees you are standing on, how can you see the forest?” Anti-nuclear crowd chooses not to see the benefits of a nuclear world. The only answer is a shrewd, shape or form as they are in the matter of argument and rhetoric. Too bad.

This little old world has lived its life in a virtual vacuum, protected from the real world by nuclear protective groups. Meanwhile, our political rivals prepare for a nuclear war. Even if the nuclear war does not happen, we must plan for it. We must break our virtual vacuum and see the real world.

What I said is that an initiative titled “Blasphemous Weapons Freeze Initiative” is being readied for consideration by the people of California and hopefully for inclusion on next November’s ballot when a naive call for an immediate, verifiable halt to all further testing, production and deployment of nuclear weapons by both the United States and the Soviet Union.

Richard Krausendorf

Editor: I wish the media would put away their McGovens for President bumper stickers. We’re in the ’80s now and not too long from now the president does not sell another Watergate or is “Pentagon Paper” material.

Maybe, just maybe the president and his advisors are telling the truth about Reaganomics working and maybe they’re right, and maybe David Stockman is the guy who’s wrong... Now that would be silly.

You see there is an autumnal law that states that the president is a thief, a cheat and a liar and is never right, but has the ability to appoint people to work for him that are never wrong, always tell the truth and are trustworthy. Unless, of course, they agree with the president, then they too are wrong. Or could it be that the media decides what is right for the country since they are so much more qualified to tell economics than anybody that the president has access to? Could it be that the media is wrong? Reagan is right? No! That would be silly.

Being such experts on how to handle the economy why doesn’t the media come up with some viable solutions to Reaganomics instead of slingin mud?... No that would be silly.

William Zinnman

Hotline

I am writing this letter with the hope that it will reach some very special individuals. They are special because they care to give some of their time to listen to, and maybe help, another.

Hotline at San Luis Obispo, Inc., our 24 hour crisis intervention and referral service, needs more help, and will train them in early December.

If they want to volunteer for Hotline, they should call 544-4142.

M.B.
