Local restaurants acknowledge World AIDS Day

Twenty-four restaurants donate to SLO County AIDS Support Network

Story by Jenny Justus
Daily Staff Writer

In honor of World AIDS Day, 24 restaurants throughout the county donated 10 percent of their profits on Sunday to the AIDS Support Network of San Luis Obispo County.

The program, called Eat Out/Save Lives, started last year by staff and students from the Cuesta College Art Gallery. Art Gallery Director, Martin Peluso, said letters were sent out inviting about 130 restaurants to participate in the program. Compared to last year, the number of restaurants participating has doubled this year, and Peluso said they hope the program will continue to grow.

Peluso said event organizers started earlier this year and contacted more restaurants in hopes of encouraging more participation. She said that some restaurants, like the Jewel Of India, heard about Eat Out/Save Lives and contacted them because they wanted to participate.

Peluso said the group chose to donate the profits to the AIDS Support Network because it is a county-wide organization, and the AIDS crisis is something that affects everyone.

The AIDS Support Network is the only community-based nonprofit agency in San Luis Obispo County that provides education, outreach and support to people living with AIDS and their families.

Last year Eat Out/Save Lives was able to donate $1,200 to the agency, and this year the program aims to raise $2,000, Peluso said.

This year organizers tried to encourage participation from restaurants from various cost levels so that even if someone doesn't have a lot of money, they can still contribute to the cause.

San Luis Obispo restaurants that participated were 1865, Ben Franklin's Sandwich Company, Benvenuti, Big Sky Cafe, Buona Tavola, CalTech Brio, Jewel of India, Linnan's Cafe, Morocco Restaurant, Natural Flavors, Nucusc and Pete's Southside Cafe.

Greg Holt, kitchen manager for Big Sky Cafe, said that the restaurant has participated in the program for the past two years to help increase AIDS awareness. "It's a crucial thing to be involved with because it makes people aware of what we need to do to save lives," Holt said.

The total amount raised had not been calculated at press time.

AIDS Day message delivered across globe with vigor

By Sue Lennon
Associated Press

Bytexte Mcintosh

In Rome, taxi drivers distributed safe-sex leaflets. Across Thailand, gas stations offered free condoms. In India, which volunteer organizations say has Asia's worst AIDS epidemic with 1 million or more HIV cases, marches were held in Bombay, the financial capital.

More than 400 people gathered in Tokyo for the lighting of a 20-foot tree bearing 12,000 red ribbons, symbol of the fight against AIDS.

In Uganda, which has one of the world's highest AIDS mortality rates, the official newspaper called for intensified condom promotion campaigns. It said more men were using condoms after a nationwide anti-AIDS campaign began several years ago.
MUSTANG DAILY
READER SURVEY!!

If you’re reading this, that means you read Mustang Daily. Thank you. In an effort to help provide the best coverage for you and all our readers, we’ve thrown together a survey to find out what you like and what you don’t like. Fill out the survey, and drop it off at one of our many shoe boxes that sit by Mustang Daily dispensers all this week. Or bring it in to us at the Graphic Arts Building, room 226. Or grace us with some e-mail to jfrederi@...you know the rest. Just let us know. Now go to it!

Please rate the following aspects of Mustang Daily on a 1-5 scale (1 is low, 5 is high)

1. Rate our CAMPUS coverage: 1 2 3 4 5
   comments:

2. Rate OFF-CAMPUS coverage: 1 2 3 4 5
   comments:

3. Rate SPORTS coverage: 1 2 3 4 5
   comments:

4. Rate ARTS WEEKLY coverage: 1 2 3 4 5
   comments:

5. Rate the OPINION coverage: 1 2 3 4 5
   comments:

6. Would you like to see more about events at other colleges, in the state or nationwide? YES / NO
   If YES, what types of stories?

7. Would you like to see more in-depth, investigative stories? YES / NO
   If YES, what issues are burning in your mind?

8. Would you be interested in accessing Mustang Daily on the World Wide Web? YES / NO

9. Would you be interested in freelancing, on any topic and for any section, for Mustang Daily? YES / NO

10. If YES, would you be interested in attending a freelance workshop to find out more? YES / NO

11. Would you like to see the campus calendar, like AGENDA, run every day, or more extensively once a week? EVERY DAY / ONCE A WEEK / NEVER, I HATE IT

12. Do you have any other comments or suggestions? Let us know:

AIDS: Names of deceased read in New York

From page 1

New York, volunteers stood at five podiums in front of City Hall on a dark, rainy afternoon and read out the names of thousand of people who have died from the disease.

"We do it because we want to remember the people we’ve lost," said Ginny Shubert, who works with an AIDS services group. "And to say, ‘We are here, you are not forgotten, you will be remembered."

The Telegraph-Tribune also reported that the Smarts have also taken the first steps in a death lawsuit against Paul Flores.

The suit alleges that although he is underage, Flores was served alcohol by the fraternity and then murdered Smart while intoxicated.

The suit against Flores is just one of many similar cases that have been filed across the country.

In San Francisco, about 300 people gathered at a new National AIDS Memorial Grove in Golden Gate Park. The 15-acre grove of redwoods, oak trees, ferns and mossy rocks was designated a national landmark in a bill signed by President Clinton on Nov. 12.

In a statement, Clinton said the serene sanctuary "will serve as a constant reminder of the vital work that lies before us in the battle to stop the spread of the HIV virus."

To call attention to AIDS among American Indians, a sculpture was unveiled in black nylon outside Phoenix’s Heard Museum, renowned for its collection of Indian art. AIDS cases among Native Americans in the United States have doubled in three years, to 1,439 this year.

In Paris, several hundred AIDS activists marched with signs reading, "AIDS: The Epidemic Isn’t Over" and "Zero Equals the Number of AIDS Survivors."

In Rome, two taxi companies distributed AIDS information to all students.

Skateboarding is not a crime

By Kevin Mann

I am a freshman here at Cal Poly. Upon my arrival to this beautiful campus, I was initially impressed by the many sports and recreational activities that are available here. Basketball or racquetball players would find themselves at home here with an abundance of courts to use. I, however, am a skateboarder.

In my dismay I have found that it is illegal to skateboard anywhere on campus. Because I live on campus, participating in my sport has become a problem. After considering the situation, I see two possible solutions to the dilemma: Cal Poly should either legalize skateboarding on campus or designate a particular area, such as a skate park, for skateboarders to use.

I first realized that it is illegal to skateboard on campus when some friends and I were confronted by a campus police officer. We were riding our boards near Building 52 when the officer approached us and said skateboarding is illegal everywhere on campus. He said that if we were caught riding again our boards would be confiscated and we would each get a citation. When we asked why it was illegal to skate, the officer said it was because of liability costs, meaning that we could hurt ourselves and then sue the university.

This response didn’t make sense to me because skateboarding is no more dangerous than other school-promoted sports like football, soccer or basketball. However, injuries in these sports have not resulted in them being banned from the campus.

In another situation, a determined friend of mine was skating when he saw police officers. He then decided it would be best if he simply left the scene, rather than confront the police a second time. Later that evening, my friend chose to go and talk to the officer he saw and try to work out the current problem regarding skateboarding.

However, when he found this officer, something went drastically wrong. Instead of working out the problem by talking, the officer proceeded to write my friend a citation for skating earlier that evening. Because my friend took the initiative to find the officer with the purpose of talking rationally, I feel that the citation was neither justified or fair.

There is no reason that skateboarding should be completely banned from our campus. It is a sport that is enjoyed by too many people, for both recreation and transportation, to simply outlaw it all together. A simple solution would be to let skateboarders skate on campus without the threat of a citation. If the school still feels that this is a bad idea, then a skateboarding facility should be provided. It is only fair that skateboarders be allowed to participate in the sport they love.

Kevin Mann is a freshman who declines to state his major.
Vampire cult town withers under national spotlight

By David Rotse
Associated Press Writer

MURRAY, Ky. — For years, this quiet college town was perhaps best known as home of the national Boy Scout museum. Now, it is newly notorious, and its residents increasingly afraid, with the discovery that some of the teens belonged to a vampire cult.

AP-NATION

Teens belonged to a vampire cult.

Among residents.

Under national spotlight.

“People are talking about it,” said Greg Duncan, sipping coffee at the Hungry Bear, who refused to give his name.

Details remain sketchy but the secretive cult known as “The Vampire Clan” is believed to have been active in Murray, where members were suspected of breaking into an animal shelter and mutilating two puppies.

“T" was in us / i e c i O e a c / i i n ^ w a r d

“I longed to be near you ... to become a Vampire, a part of the family immortal and truly yours forever,” the letter reads. “You will then come for me and cross me over and I will be your bride for eternity and you my sire.”

Accused with Ferrell and Ms. Wendorf of killing the Wendorfs are Dana Cooper, 19, of Murray, and Scott Anderson, 16, of Mayfield. Charity Keesee, 16, of Murray was charged with being an accessory to murder.

Calloway County prosecutor David Harrington described Ms. Cooper as a “follower, someone who wanted to be liked. Probably easily manipulated.”

Extradition proceedings in Baton Rouge are to begin Monday.

The fear of the unknown is always greater than the fear of the known,” said another man at the Hungry Bear, who refused to give his name.

Murray, a semi-rural town of about 13,000, lies in southwestern Kentucky near the Tennessee state line. Murray State University is there, a 8,300-student school known for its basketball program.

There was nothing that suggested that. She was just strange.”

MSISSING UNDER SUSPICIOUS CIRCUMSTANCES

Kristin Smart was last seen walking to her dormitory residence on the Cal Poly campus on Saturday, May 25, 1996 at approximately 2:00 a.m. Kristin is a Cal Poly student who uses the nickname of “Roxy.” If anyone has information regarding Kristin Smart, please contact the San Luis Obispo County Sheriff’s Office.

Anonymous reports may be made to Sheriff’s Detectives or Crime Stoppers

Sheriff’s Detectives – (805) 781-4500
Crime Stoppers – (800) 549-7867
Internet Address – http://www.focus.net/sloso

President Baker’s Call for Help

Kristin Denise Smart, a 19 year old Cal Poly student, disappeared under suspicious circumstances while returning to her campus residence hall from an off-campus party in the early morning hours of Saturday, May 25, 1996. She was in the company of a male Cal Poly student at the time she was last seen. Her disappearance is still under investigation by the San Luis Obispo County Sheriff’s Department.

I urge you to report any information bearing upon this case to either Crimestoppers (at 1-800-549-7867) or the San Luis Obispo County Sheriff’s Department (at 805-781-4500). You may remain anonymous, if you wish, in contacting either of these numbers. A poster with additional information about Kristin and the circumstances of her disappearance is enclosed. If you have any information about her disappearance or the events leading up to it, even information that may seem insignificant to you, please share it with the authorities. It may help them resolve this case.

While the mystery of Kristin’s disappearance is unresolved, the University is examining this case closely to learn as much as possible from it and to identify ways of preventing a tragedy such as this from occurring again on the Cal Poly campus.

This year we have already taken additional steps to enhance campus safety and security.

With the aid of a $15,000 grant from the federal government, we are hiring two new public safety officers. With their help, we are instituting a number of proactive campus public safety efforts. We are establishing a new police "substation" related crime. The VIP organization will train student leaders to identify and refer students with alcohol problems, drug problems, and other issues to the proper authorities.

With the aid of a $15,000 grant from the federal government, we are hiring two new public safety officers. With their help, we are instituting a number of proactive campus public safety efforts. We are establishing a new police "substation" related crime. The VIP organization will train student leaders to identify and refer students with alcohol problems, drug problems, and other issues to the proper authorities.

An additional federal grant, from the Fund for Improvement of Post-Secondary Education, has permitted us to launch the new "VIP Program." This program has created an organization of 60 high-profile student leaders and an advisory group of 15 staff and faculty members. The program will have a special emphasis on reducing the incidence of alcohol- and drug-related crime. The VIP organization will train student leaders to identify and refer students with alcohol problems, drug problems, and other issues to the proper authorities.

The University will continue to explore additional ways of enhancing campus safety and security. In the fall analysis, though, this must be a shared responsibility, and I urge you to join the administration, faculty, staff and your fellow students in helping to promote a safe campus environment.

In closing, I would like to extend you again to report to the authorities any information you may have about Kristin Smart’s disappearance or the events leading up to it. For the sake of Kristin and her family, please help bring this tragic episode to a close.

Sincerely,

Warren J. Baker

Crooner Tiny Tim dies of apparent heart attack while singing hit

By Steve Kunowski

MINNEAPOLIS (AP) — Tiny Tim, the ukulele-plucking crooner who bemused and amused millions by trilling the whimsical love ditty "Tiptoe Thru' the Tulips," died after falling ill as he performed his signature song.

He performed his signature song.

Tiny Tim had a history of heart trouble, was stricken Saturday night during a benefit for the Women's Club of Minneapolis. His widow, Susan Khaury, said he cut short "Tulips" and told her he was not well. She was trying to help him back to their table when he collapsed.

"I don't think he had time to feel pain," Mrs. Khaury said Sunday. "He died singing 'Tiptoe Thru' the Tulips,' and the last thing he heard was the applause, and the last thing he saw was me."

Tiny Tim died at a Minneapolis hospital late Saturday. A hospital spokeswoman said the cause apparently was cardiac arrest, but a final determination would be made later.

He said a few weeks ago that he was born April 12, 1932, making him 60. He built his career on his single hit song in 1968, his stratospheric falsetto, an asexual and childlike stage persona and a flair for self-promotion.

"He would sing in this very high voice and play his ukulele and set like a child almost. If we had renegade rockers on one side, he was the other side," said T. Dennis Brown, a historian of American popular music at the University of Massachusetts.

He was born Herbert Khaury, Tiny Tim built his career on his single hit song in 1968, his stratospheric falsetto, an asexual and childlike stage persona and a flair for self-promotion.

"He was a shy, harried person, but he had a great sense of humor. He was the life of the party," said Brown. "I don't think he had time to feel pain," Mrs. Khaury said Sunday. "He died singing 'Tiptoe Thru' the Tulips,' and the last thing he heard was the applause, and the last thing he saw was me."

Tiny Tim died at a Minneapolis hospital late Saturday. A hospital spokeswoman said the cause apparently was cardiac arrest, but a final determination would be made later.

Tiny Tim had suffered from congestive heart failure, diabetes and other problems. He fell off a stage on Sept. 28 after suffering a heart attack during a ukulele festival in Massachusetts and was hospitalized for 11 days.

"If I live 10 years, it's a miracle. Five years, it's even more of a miracle," Tiny Tim said after his release.

His doctors warned him he might live only another year or two.

"I am ready for anything that happens," he said. "Death is never polite, even when we expect it. The only thing I pray for is the strength to go out without complaining."

His doctors warned him he might live only another year or two.

Clue inventor dies amid mystery

Associated Press

LONDON — It was a riddle worthy of the murder mystery board game Clue. But this time it was not Professor Plum in the parlor with a revolver.

"We had hoped to find Anthony Pratt alive and well, but we had no idea how old he might be, as the formal agreement ended with him many years ago," a Waddington's spokesman said.

"We understand that his wife is also dead and that the couple were childless. However, we are keeping our fingers crossed for a family member to come forward and accept a posthumous award," the company last heard from Pratt 10 years ago.

Gillian Lewis, superintendent of the Bromsgrove Municipal Cemetery near Birmingham, central England, called Waddington's to say Pratt was buried there in April 1994.

Waddington's at first hoped it may be another Pratt, but accepted the inevitable when Lewis confirmed that the marble headstone bears the inscription "Inventor of Cluedo," the British name of the game.

British media said he died in a Birmingham hospital but did not give the cause of death.

Pratt completed the game in 1947. Clue sold 150 million copies, and Pratt's share of the profits allowed him to leave his job and pursue his true love — playing the piano with an orchestra.

Clue, with its miniature murder weapons and colorful cast of suspects gathered in a Victorian mansion, is Waddington's best-selling game after Monopoly. It also inspired the 1985 movie "Clue."

Between the wars . . . all the bright young things would congregate in each other's homes for parties at weekends," he told the Birmingham Evening Mail in a 1990 interview.

"We'd play a stupid game called Murder where guests crept up on each other in corridors and the victim would shriek and fall on the floor."

Pratt was 82 when he died.

Hundreds of all ages milled about the hotel.

"Their songs are not like rap songs that are real bad and say bad words," said 9-year-old Lisa Carmichael.

"I love 'Hey Jude' with a lot of love," said a 7-year-old girl with her hair in ringlets.

"I think they're the best band of all time," said 11-year-old John."
The movement called the internment unconstitutional. Lawsuits were filed. At Heart Mountain and other places, some young men refused being drafted. At least 63 at the camp and 44 another were convicted of draft evasion and sent to federal prison.

Another seven were convicted of conspiracy against the draft. I asked, 'How can I go and fight for a free world, democracy and all that when my family and friends were all incarcerated in this concentration camp being denied the very things I was supposed to fight for?' recalled Mits Koshiyam of San Jose, one resistor whose oral history Tsuneishi has collected.

"Some resisters answered 'no' to two questions on a government oath that asked if they would fight for the U.S. and forever loyalty to the Japanese emperor. They argued that the questions presupposed that they were loyal to the emperor." Other youths, enlisted to prove their loyalty to the United States, shunned the No-No Boys. Tsuneishi, who was drafted, was indifferent to the protestors. "Heart Mountain was the only one of the 10 camps where there was an organized resistance," Tsuneishi said. "It's a very important history lesson."

La resident chronicles draft protesters in Japanese camps

By Bettina Stokheim

The 72-year-Sunland resident is collecting oral histories from the draft resisters. "My interest in this is not to memorialize the camp experience, which is easy to do," Tsuneishi said, "but rather to use the experience to educate adults and children on how important it is to keep this country's constitutional guarantees alive."

He said at least 63 internees at the Heart Mountain, Wyo. camp where he was interned fought the draft and were sent to federal prison.

Tsuneishi has taken oral histories from six of the resisters, who became known as the "No-No Boys," because they answered no to certain questions on a government-administered loyalty oath.

He hopes that the resisters may one day be used at a proposed interpretive center to be built on the site of the Heart Mountain camp.

The resisters were part of the so-called Fair Play movement that sprung up after 120,000 people of Japanese ancestry were sent to 10 internment camps following the attack on Pearl Harbor.

The vote was 54 percent to 46 percent against the referendum, which would have disqualified all illegal immigrants from refugee status and given the government control over any wages earned by asylum-seekers.

Already under international criticism over allegations that Switzerland is concealing the assets of Nazi Holocaust victims, the government welcomed the rejection of the proposals on refugees.

For a country that prides itself on its humanitarian traditions, the addition of an anti-immigration clause to the constitution would have been an embarrassment to many.

But the narrow result reflects a belief widespread among Swiss citizens that foreigners are squeezing them out of increasingly scarce jobs and are to blame for drug dealing and other crimes.

The Swiss People's Party had challenged the $4.7 million program, forcing a local vote on it. The vote went 63 percent to 37 percent in favor of the program, part of a nationwide pilot project.

The program is supplying heroin to 100 addicts in Zurich, Switzerland's largest city and once the home of the country's biggest and most open drug scene. Authorities claim the heroin distribution has eased crime and poverty among addicts, easing their integration back into society. Detractors say it only encourages drug consumption.

The pilot project runs through 1998.

The introduction of more restrictive laws — especially on immigrant employment — helped reduce asylum applications to 17,000 in 1995.

"In practice, we have already achieved what the initiative aimed at," the government said in a statement.

Despite Switzerland's long-running recession, voters also threw out proposed new labor laws that would have relaxed restrictions on evening and Sunday work and ended a ban on women working night shifts.

"About 67 percent voted against that legislation, which parliament approved earlier this year," the government said. "We have missed a chance to give the economy new impetus,"

ZURICH, Switzerland — Zurich voters on Sunday endorsed a government program giving heroin to hard-core addicts, heeding claims that the giveaway cuts crime.

The conservative Swiss People's Party had challenged the $4.7 million program, forcing a local vote on it. The vote went 63 percent to 37 percent in favor of the program, part of a nationwide pilot project.

Heart problem lands Olajuwon in hospital again

By Terry Landolf
Associated Press

HOUSTON — Hakeem Olajuwon checked into a hospital Sunday after the Houston Rockets center had an irregular heartbeat for the second time in less than two weeks.

SPORTS

Olajuwon was reported in "very good condition" at Methodist Hospital, where he had been since about 10:30 a.m. Sunday, hospital spokeswoman Angela McPike said.

Olajuwon, 33, was to be examined Sunday afternoon by team internist Dr. James Muntz.

The star center, who has a history of heart trouble, flew to Houston from Washington early Sunday. He had felt the irregular heartbeat about 2 a.m., just hours after finishing with 34 points and 17 rebounds while playing 39 minutes in the Rockets' 103-99 victory over the Bullets on Saturday night.

The Bullets game was Olajuwon's third since missing three games while recovering from his first arrhythmia of the season, which hit Olajuwon during halftime of a home game against Minnesota on Nov. 19.

At that time, he was immediately taken to Methodist, where doctors used a defibrillator to restore proper rhythm.

Precautionary tests were administered and he was released two days later.

Rockets team physician Bruce Moosley has said that it's not really known why such arrhythmia occurs, and there's no medicine to prevent it.

In 13 games this season, Olajuwon is third in the league in scoring at 25.8 points per game, and his 9.5 rebounds per game are second on the team to Charles Barkley.

Other than the heart condition, Olajuwon also has had amnesia, during the 1994-95 season. Before the 1990-91 season he was hospitalized with a blood clot in his left leg, and blood thinners dissolved the clot.

The abnormal rhythm, or arrhythmia, appears similar to an episode he had 12 days before and once in 1991, Frank said.

Frank said it feels as if the heartbeat "speeds up a little bit, then slows down a little bit."

Other than the heart condition, Olajuwon also has had amnesia, during the 1994-95 season. Before the 1990-91 season he was hospitalized with a blood clot in his left leg, and blood thinners dissolved the clot.

At College Basketball Poll

How the top 25 teams in The Associated Press' college basketball poll fared Sunday:

1. Cincinnati (2-1) lost to Xavier, Ohio 71-69; beat Rutgers 105-65.
2. Kansas (5-0) beat LSU 82-53; beat California 85-67; beat Virginia 86-60; beat San Diego 79-72.
3. Wake Forest (4-0) beat Citadel 86-52; beat Davidson 69-45; beat Richmond 80-57.
4. Utah (5-0) beat Utah State 60-41; beat Cal State-Fullerton 74-67.
5. Villanova (3-0) beat American University, Puerto Rico 68-62; beat Butler 62-54; beat Tulane 76-70.
6. Duke (3-1) beat No. 22 Tulsa 72-67; lost to No. 20 Indiana 85-69.
7. Michigan (2-0) beat Ball State 87-63; beat Cleveland State 86-74.
8. Kentucky (3-1) beat No. 12 Syracuse 87-53; beat Alabama-Arkansas 104-72; beat College of Charleston 92-65.
9. Iowa State (2-0) beat Akron State 87-56; beat Maryland-Eastern Shore 82-62.
10. Clemson (4-0) beat Delaware 78-71; beat Missouri 84-47; vs. No. 24 Minnesota at Caguas, P.R.
11. Arizona (2-1) beat Northern Arizona 88-70; los to No. 19 New Mexico 84-77.
12. Syracuse (3-1) lost to No. 8 Kentucky 87-53; beat Maine 85-45; beat North Carolina-Greensboro 73-56.
13. Duke (3-1) lost to No. 11 Georgia 84-73; beat North Carolina 89-70.
14. North Carolina (2-1) beat Richmond 86-75; beat Pittsburgh 82-61.
15. Fresno State (4-0) beat Santa Clara 85-67; beat Northeastern 87-71; beat Liberty 84-44.
16. Arkansas (2-1) lost to Oral Roberts 86-81; beat San Francisco 77-66.
17. Massachusetts (1-2) beat Chaminade 59-48; lost to Virginia 75-69; lost to California 59-55.
18. Texas (2-0) beat Rhode Island 86-79.
19. New Mexico (5-0) beat Centenary 96-62; beat No. 11 Arizona 84-77.
20. Indiana (5-0) beat Evansville 74-73; beat No. 6 Duke 85-69.
21. Stanford (2-1) beat North Carolina-Greensboro 88-52; lost to College of Charleston 82-78; beat Alabama-Arkansas 91-69.
22. Tulsa (3-1) lost to No. 6 Duke 72-66; beat Evansville 55-51.
24. Minnesota (4-0) beat West Virginia 76-64; beat Puerto Rico-Mayaguez 104-62; beat Creighton 64-62; vs. No. 10 Clemson at Cagus, P.R.
25. George Washington (3-1) beat South Florida 77-61; lost to Texas Tech 84-75.

Los Angeles — It all seemed so simple — Notre Dame versus Southern California, as the Irish always do, setting up a grand finale for coach Lou Holtz in the Picnic Bowl or Orange Bowl on New Year's Day.

**SPORTS**

Somebody forgot to tell the Trojans, who were on their own mission.

USC recovered four Notre Dame fumbles and took advantage of a missed conversion to extend the Irish to overtime Saturday night. Then, Brad Otton threw a 5-yard touchdown pass to Rodney Sermons to give the Trojans a 27-20 victory.

"My gut feels like someone cut out my complete insides," said a somber Holtz, who announced Nov. 19 he was resigning after the season. "I've never felt this low."

The win snapped a 13-game USC winning streak against Notre Dame, and it may have saved coach John Robinson's job.

It also may have ended Holtz's career one game and one month before he'll be coaching every connected with the Irish had hoped.
Mike Tyson is No. 1 on athletes’ money list

Associated Press

NEW YORK — Forget those big-money contracts in baseball, basketball, football and hockey. Boxer Mike Tyson fought just three times in 1996 and, according to Forbes Magazine, earned $75 million, more money in one year than any athlete ever.

Tyson knocked NBA star Michael Jordan out of the top spot in the Forbes Super 40 list of highest-paid athletes announced Sunday.

However, Jordan, No. 1 for four straight years, could be poised for a comeback in 1997. His $30 million contract — the largest one-year salary in sports history — put him in the No. 2 spot.

Tyson knocked Jordan out of the top spot in the Forbes Super 40 list of highest-paid athletes announced Sunday.

The Forbes list includes nine basketball players, seven boxers, six football players, four auto racers, four golfers, three tennis players and two hockey players. There are no women on the list.

Total income for the Forbes Super 40 went up 13 percent this year, from $490 million to $556 million during the two nights.

The Mustangs pulled away for good, and Schneider enlisted a “four corners” offense to run the clock down, allow the guards to drive to the hoop and put players at the free-throw line.

“I like our four corners, and I think we have really good drivers,” Schneider said. “People aren’t used to playing four corners.”

Northeastern coach Rudy Keeling said his team seemed drained after battling Fresno State the night before.

“Our guys probably left a lot on the court yesterday,” Keeling said. “I thought Cal Poly played very, very well.”

Keeling suspected the team may have been a little too happy to keep up with Fresno State, even though they still lost the game.

“They felt like they played well last night,” Keeling added about Northeastern’s first game. “I thought they felt, ‘hey we played well’ and rested on that. As a coach, I gotta change that attitude.”

Cal Poly is now 3-1 and will face Cal Baptist in Mott Gym Tuesday night at 7 p.m.

From page 12

“One of the things we tried to do was drive the basketball, and they think they shoot the three, shoot the three,” Schneider said. “I extended the defense so it gave us much more of an opportunity to drive the basketball and help the inside game.”

Cal Poly senior Shanta Cotright drove the ball hard inside against the Huskies, racking up game-high 24 points for the night. He later received All-Tournament Team honors for Cal Poly.

Cotright said the team may have had a harder time trying to get up for a game against Fresno State than against Northeastern after losing on the first night.

“We didn’t dictate the tempo of the game,” Cotright said of the loss to Liberty. “Last night) was a wake-up call for us.”

Sophomore Ross Ketcham also woke up to trail just behind Cotright with 18 points for the night, after hitting only two of 20 shots the night before against Liberty. The team shot 42 percent overall Saturday night.

“Last night I tried to force it too much,” Cotright said of the difference in his performances.

**COORS TOURNEY A MIXED RESULT**

By Mark Armstrong

Daily Managing Editor

FRESNO — Coming off an impressive 17-point victory over Loyola Marymount University Tuesday night at Matt Gym, the Cal Poly men's basketball team headed into Fresno State's Coors Light Classic hungry to take on the No. 15 team in the nation led by Jerry Tarkanian.

**Men's Basketball**

But a first-round loss to Liberty University of Lynchburg, Va., 67-65, would not let the California matchup between Cal Poly and Fresno State occur.

Mustang head coach Jeff Schneider later rethought his team's readiness for what would have been a huge jump in competition against Fresno State in the tournament final.

"We're 3-1, and I don't think we're ready for Fresno State yet," Schneider said after his team defeated Northeastern... in third place. "Maybe in a year or so when we're a little older, then we'll have a realistic chance. It might not have been a good game for us to play this early in the season."

Fresno State (4-0) won on to throttle Liberty University (3-1) in the championship game, 84-44.

Against Liberty, Cal Poly players faced a slower pace, and had to go head-to-head against the 6-foot-10, 260-pound preseason All-Americans from Nigeria, Peter Aluma.

The Mustangs double-teamed the senior center and held close to Liberty in rebounding, and Aluma finished with less than three minutes to go. Cal Poly stayed ahead for most of the game and eventually pulled out to a 12-point lead, 44-31, early in the second half. But a jumper from senior Darnell Lopes.

The lead eventually melted away to a tie at 64 after a lay-up from Liberty forward Walter Graham. Liberty slipped past the Mustangs with 25 seconds to go after a screen on Mustang freshman Mike Warnick left Liberty's Larry Jackson open to launch a three, and Cal Poly was down for the final seconds.

"They deserved to win," said a frustrated Schneider after the loss. "We didn't give a big enough effort to win this game. We played tenative, we had an 11-point lead and we blew it. And at the end we gave up an open three."

"You can't give up a three when you're up one," Schneider added about Liberty's game-winning points. "It wasn't contested. That was just poor defense at the time."

On Saturday, the Mustangs pulled themselves together for an 89-73 victory over Northeastern University (0-4). The day before, Northeastern was taken down by Fresno State, 87-71, in the first round of the tournament.

The Mustangs sought to do what had eluded them in their match against Liberty — control the tempo. The slower pace of Liberty allowed Cal Poly to only put up 77 shots Friday night, but the Mustangs picked up the pace against Northeastern by putting up almost 100 shots.

Schneider said the tempo was what made the difference for the team.

"We played Liberty basketball last night and I told our guys today that we have to play Cal Poly basketball," Schneider said. "It's attacking, it's aggressive and it's playing extremely hard and dominating the tempo of the game."

The Mustangs held onto the lead throughout the game, with little help from their three-point shooting and more reliance on the inside game. Cal Poly went six for 30 (20 percent) from beyond the arc.

**Mustangs lose two in Nebraska Tournament**

**Daily Staff Report**

The Cal Poly women's basketball didn't fare too well over this holiday weekend, losing two at the Nebraska tournament in Lincoln, Nebraska.

**Women's Basketball**

The Mustangs are now 0-4 on the season.

On Friday, Cal Poly lost to St. Louis, 86-62.

Freshman guard Stephanie O'Sorio led the Mustangs with 17 points. Center Rona Bevin followed with 14 of her own.

The Mustangs shot 37 percent from the floor, hitting 13 of 37 in the second half. Cal Poly had 22 turnovers while St. Louis had 18.

In the consolation game against Bucknell University of Lewisburg, Pa. on Saturday, Cal Poly lost 65-54. Rona Bevin led the Mustangs with 13 points. Guards Rae Anne Yip and Krista Burms both had nine points.

The Mustangs were only down by three at the half but shot only 30 percent from the floor in the second half. Cal Poly also had 22 turnovers and 26 personal fouls while Bucknell only had 20 turnovers and 15 personal fouls.

The Mustangs did well from the free throw line all weekend, hitting 68 percent of their shots against both St. Louis and Bucknell.

On Dec. 6, the Mustangs host the Holiday Inn Express Tournament. Cal Poly will compete against Idaho State, Colorado State and Fresno Pacific for the title.
