Students warned not to drink and drive

Nick County

The days of drivers breaking DUI laws have yet to go by the wayside.

On Sep 23, the San Luis Obispo Police Department (SLOPD) conducted a DUI checkpoint at the intersection of Santa Rosa and Oak streets. Between 10:15 p.m. and 2:30 a.m., SLOPD screened 834 vehicles, and arrested four students, two of them from Cal Poly, and cited two other drivers under the age of 21 for having alcohol in their system, according to a press release by SLOPD.

Additional violations included "a driver who was asked by a Cal Poly police officer to report to a secondary screening point near campus, because he did not have his driver's license," said Peter Hubbard, SLOPD Traffic Sgt. "The driver, a local male college student, fled from the checkpoint at a high speed and hit a fire hydrant near 1262 Huddaway St., then drove off."

The vehicle was found in a local apartment complex, and was later impounded. The driver was identified and will be charged with a hit and run, as well as evading a police officer. Hubbard said. see DUI, page 2

California Faculty Association sued

Chris Gunn

The Right to Work Committee, based in Virginia, has sued the California Faculty Association alleging that the CFA has been using non-member agency funds for political action.

"Money coming from non-members is not spent on politics," CFA Communications Director Alice Sunshine said. "We think that this is a freedom lawsuit, trying to prevent teachers from speaking out about propositions 74, 75 and 76, which are bad for education."

CFA members pay annual dues, which are used on matters concerning the union as well as collective bargaining agreements. These dictate salaries and contractual stipulations for teachers.

California teachers are not required to join the union, but those who do not join are required to pay agency fees, which help finance collective bargaining agreements that benefit all California teachers.

"They are trying to stop teachers from sending money in order to communicate on political issues," Sunshine said.

Sunshine said that The Right to Work Committee is a corporate-funded entity that claims to support workers, but is working for its own agenda.

"Some people don't agree with the union speaking on politics, but most people do think that the union should speak on politics," Sunshine said.

Proposition 76 would take away $4 billion from public schools, and allow the governor to freely cut schools and state universities, according to a CFA press release.

Proposition 78 would prevent publicly funded entities from speaking out against budget cuts, specifically among teachers, nurses, firefighters and police, according to the CFA.

The fire engine was part of the California Department of Forestry sent in from Sonoma County. The San Luis Obispo Fire Department sent several engines down to Southern California to control the wild fires and filled in with ones from other counties.

Engine Ohlcn Brante, 26 of Santa Rosa, was driving the CDF truck at the time of the accident.

"He had a firefighter in the cab and a firefighter in the back end of see Crash, page 2

Graphic Communication department awarded

Brittany Ridley

The Xerox Printing Innovation Award was originally a competition for professional printing companies throughout the country. But three years ago, Cal Poly's Graphic Communication department (GC) decided that it had the resources and the talent to compete with the best.

After its third year of entering a publication, "4-forty Magazine: A Compilation of Student Work," the GC 440 (Magazine and Newspaper Design Technology) class was awarded second place.

"This award is for professionals who have the highest technology for achievement," said Harvey Levenson, head of the graphic communication department. "We said, 'Look, it doesn't say that see Award, page 2"
DUI continued from page 1

A week following the incidents, Cal Poly President Warren Baker sent out a mass e-mail to students concerning his thoughts on drinking.

"Within the last few weeks, even Cal Poly students have been arrested off-campus for underage drinking. Please avoid placing yourselves in situations that might jeopardize your long-term health and well-being, your future at the university or your career goals," Baker said in the e-mail.

Students do not realize the long-term consequences when they decide to drink and drive, Hubbard said.

"If you're over 21, your license will be suspended for at least six months. Underage DUIs will have a suspended license for at least one year," Hubbard said. "Many people do not think of the price they will pay in order to stop drivers of all ages from drinking and driving."

Hubbard said that a majority of DUIs occur around the holiday season, with ages ranging from early 20s to 40s and 50s.

The SLOPD will continue to push its Designated Driver program.

Award continued from page 1

schools can't compete, so why not?"

Students enrolled in the class determined the genre and target audience for their magazine, often using their own artwork, photography and articles when designing each of the pages, said Lorraine Donegan, assistant professor for the graphic communication department and GCI 440 professor.

"When I started teaching this class I said, 'Can we print a magazine?' And everyone was like 'I don't know.'" Donegan said.

In seven weeks, the students were required to provide a cover logo, front cover design, back page advertisement, masthead, table of contents, editorial content and a two-page feature spread.

"The project spans over the first seven weeks of the quarter and then the last three weeks," said Donegan. "Bob Polinkin, GCI technician and I work together on printing and producing the magazine."

Xerox presented the award to Donegan on Oct. 3 at a graphic arts exposition in Chicago.

"The company was impressed with the success Cal Poly's graphic communication department, which had used tools donated by the Xerox Corp. Donegan said. "They were so impressed that number one, these students were doing great work, and number two, they were utilizing their equipment," Donegan said.

"What's great is that it has really brought Cal Poly into this and they (Xerox) are saying 'Wow, Cal Poly is utilizing this technology.'"

Donegan has not only succeeded within her department, but has also been recognized for her accomplishments by Cal Poly.

"This year she won the Prestigious University Adviser of the Year. She was voted No. 1 advisor in the whole university," Levenson said. "Lorraine's knowledge balances creativity and technology. She is astute when it comes to digital media, she manages our Web site and she is very studious in print/non-print digital imaging."

Donegan said that she looks forward to re-entering a new "4 Forty Magazine" next year, and winning first place.

"The objective of this project is for the students to learn the process of preparing digital files for submission," Donegan said. "The students do such a great job at this and they really love it."

Crash continued from page 1

the engine," CDF Investigator Mike Cole said.

The cause of the accident is still under investigation and the police report has not yet been finished. Whether or not Briant will be cited is also unknown.

Because the fire truck was damaged in the collision, Sonoma County sent down another truck to replace it, and took Briant back to his unit.

Cole said he is looking into whether Briant's unfamiliarity with the area was a factor in the accident. Briant might be penalized for causing he crash.

"The process is reviewed very carefully," Cole said. "And if the circumstances dictate disciplinary actions, disciplinary actions will be taken."

The fire truck was on its way to a medical call at Camp San Luis when it crashed into Norton's car at the intersection of Marsh and Santa Rosa streets.

The engine had in sten on, but Norton said she never heard it.

"We didn't see it coming at all," White said. "We had a green light and we were going through the intersection and I think I heard the sirens about half a second before it hit us."
Critics say explorer's holiday questionable

Megan Cox
ASSOCIATED PRESS

NORMAN, Okla. — Observance of Columbus Day, a federal holiday honoring Christopher Columbus, has become a nationwide controversy as some schools cancel classes for the day while others do not.

Part of the controversy lies in the fact that many Native Americans do not feel that Christopher Columbus, the explorer the holiday was named after, should be honored as a national hero.

Nicholas Wahpepah, American Indian Student Association public affairs representative and psychology senior, said he has never observed the holiday. He said Columbus was a man who saw Native Americans only as slaves and that he and his men used brutal methods to subdue Native Americans.

Wahpepah said other Native Americans he knows also choose not to commemorate Columbus Day.

Rambho said there are other federal holidays that are not included as vacation days, such as Presidents Day and Veterans Day.

Amber Pointer, marketing sophomore and American Student Association public affairs representative and psychology senior, said she would like to have the day off for Columbus. "I'm glad we don't have it off at OU, and I don't think we should," she said. "What did Columbus really contribute?"

Erin Sullivan, elementary education senior, said cultural clashes like this have been discussed in her classes. "It's good to talk about both perspectives, but it may not be best to have a day off for Columbus," she said.

What is the law?
A weapon to be wielded?
Or more than that?
A set of tools.

Women struggle with decisions regarding balance of family, career

Meredith Bowen

DAILY ORANGE [SYRACUSE]

SYRACUSE, N.Y. — The choice between being a stay-at-home mother or an attorney may be a far more complex decision for middle-class college women than recent surveys of graduates and current students seem to make it.

Surveys of past and current Yale University women show nearly half of women name mothering as their primary occupation by age 40. Women who stayed home for a couple of years, gaining work experience before returning to a full-time job, is an important part of making the decision to be a full-time mother, said Linda Alcoff, director of women's studies.

Students at all-female Wells College called Harriet the family for her to be part time, Alcoff said. "It's all about your personal experience," Mastrianni said. "But I just wouldn't want that to happen to me.

Alcoff was able to attend school by putting her children in government-subsidized day care, paying $1 per week. However, affordable day care and more rights for mothers on maternity leave are constant losing battles, Alcoff said.

According to a spring 1999 survey, the most recent on the topic, mothers who worked 25 to 39 pay an average of $90 per week for childcare.

"Whoa, you're trained to do it," saidmastrianni. "But it was hard to leave things such as tenure and research behind, she said she has no regrets.

"If I didn't have to, I still would have gone back," Slow said. "It's nice to be around adults, and to just get out of the house to do what you're trained to do.

Throught her husband, Declan Quinn, an applied mathematics professor, would love to be home with the children more often, differences in pay and benefits made it better for the family for her to be part time, she said.

Several of the SU women said having professional or work skills was an important backup in case a marriage failed.

Having an escape plan and realizing most mortgages are not an important part of making the decision to be a full-time mother, said Linda Alcoff, director of women's studies.

Half of the three SU women who said they would not want to be a full-time mother at any point, one based her decision on a personal understanding of the situation.

Sophomore political science major Jesusa Maramin's parents divorced when she was young, leaving her stay-at-home mother bankrupt.

"It's all about your personal experience," Mastrianni said. "But I just wouldn't want that to happen to me.

Alcoff was able to attend school by putting her children in government-subsidized day care, paying $1 per week. However, affordable day care and more rights for mothers on maternity leave are constant losing battles, Alcoff said.

Several of the SU women said having professional or work skills was an important backup in case a marriage failed.

Having an escape plan and realizing most mortgages are not an important part of making the decision to be a full-time mother, said Linda Alcoff, director of women's studies.

The same decision for Syracuse University women is not as black and white, reflecting constantly changing attitudes about a woman's role at home and in the workplace, as well as economic differences.

"There's still kind of a judgment on both sides," said sophomore business major Elizabeth Swanson.

"Some women in business look down on women who stay home, but then there's also that guilt about leaving the kids home with a stranger.

Interviews with 18 current female students showed a desire to experience both the hearth and the board rooms and a realization that most marriages do not end in white picket fences and happily ever after.

Fifteen said they would consider staying-at-home mothers only after working for a few years, many adding they would stay at home only if it was financially easy to do so and only until their children were ready for school.

None said they want to have children right after college. Many hoped to work for a few years, gaining experience in their fields and enjoying their youth before taking a few years off to raise their children. Most said they plan on returning to work part time after their children start school.

This is the opinion mathematics professor Kari Shaw took after her sons, Connor, 12, and Tiernen, 8, were in preschool. Shaw chose to return to teaching part time. Though it was hard to leave things such as tenure and research behind, Shaw said she has no regrets.

"Even if I didn't have to, I still would have gone back," Slow said. "It's nice to be around adults, and to just get out of the house to do what you're trained to do.

Networking Sessions: 9:30 a.m. - 2:30 p.m.
Interviews: 3 - 6 p.m.

RUN WITH US
because talented people
always lead the pack.

At Wells Fargo, we have a long history of innovative thinking in financial services. And while our heritage is impressive, none of it would have been possible without the dedication and support of our team members. If you're looking for a career at one of the nations most respected and admired financial institutions, look no further.

CALLING ALL COMPUTER SCIENCE MAJORS!
Wells Fargo's Internet Services team is currently identifying graduating seniors to join our 2006 Information Technology Associate Program. Starting next August, you'll work in three project-based rotations throughout the year, gaining experience as a Web developer, applications engineer or project manager. At the end of your first year, you'll determine which department fits you best for final placement at the end of the year. While the primary learning is hands-on project work, the program is supplemented with formal classroom and Web-based training, project team participation, peer interaction, and by working one on one with a project supervisor. Interested? Find out more and submit your resume at Cal Poly Career Fair, October 12, 2005.

Run with a leader. Run with us.
Bay Alarm Company, a statewide leader in the electronic security systems industry, is hiring and is at the Job Fair on October 12!! We sell and install fire, burglar, card access, and CCTV in residences and businesses throughout California. Our offices are located in Martinez, Oakland, Orange County, Peninsula/San Francisco, Petaluma, Redding, Sacramento, Santa Clara, Stockton, Van Nuys, and Ventura.

The ideal candidate will be enthusiastic, highly motivated & a self-starter. Expert presentation & closing skills are a must. Previous sales experience is preferred.

Bay Alarm Offers:
- Salary + Commission
- Award-winning Marketing Department
- Protected Territories
- Excellent Training
- Comprehensive Benefits Package

WHAT HAVE YOU GOT TO LOSE?

Please send resume to Bay Alarm, HR/PR PO Box 8140, Walnut Creek, CA 94598,
Fax (925) 908-4377
email: hr@bayalarm.com

American Civil Constructors, Inc.

American Civil Constructors Landscape performs commercial landscape services. Our current service line includes landscape maintenance, landscape construction, erosion control and aquatic management. We are a national award winning company that places a high value on employee development and safety.

Ameriprise Financial Services

Ameriprise Financial, the next generation of American Express financial advisors is one of the world’s most recognized and respected service brands and is a leader in financial planning. We are leading the way again with greater choices for clients and innovative career opportunities for advisors that provide flexibility and choices for the future.

Amgen

Amgen (NASDAQ: AMGN) discovers, develops and delivers innovative human therapeutics. A biotechnology pioneer since 1980, Amgen was one of the first companies to realize the new science's promise by bringing novel medicines from lab to manufacturing plant, to patient. Amgen therapeutics has changed the practice of medicine, helping millions of people in the fight against cancer, kidney disease, rheumatoid arthritis and other serious illnesses.

Anheuser-Busch

As the world's leading brewer for more than 45 years, Anheuser-Busch and its subsidiaries are committed to finding innovative ways to continually improve. It’s this kind of thinking that creates a unique work environment by rewarding talent, celebrating diversity and encouraging forward thinking. We also think enjoying work is an important part of life. If you have what it takes to become part of our team, we'd like to hear from you.

Apple Computer, Inc.

Apple ignited the personal computer revolution in the 1970s with the Apple II and reinvented the personal computer in the 1980s with the Macintosh. Apple is committed to bringing the best personal computing experience to students, educators, creative professionals and consumers around the world, through its innovative hardware, software and Internet offerings. We are based in Cupertino, California.

Applied Technologies

At ATS, we are leaders in the research, development and marketing of leading edge technologies for the petroleum industry. Our dynamic team of engineers and scientists is dedicated to bringing world-class technology solutions to our clients and leading the way in the design, development and implementation of advanced technologies to meet the needs of the petroleum industry.

Attention All Economics And Business Majors Interested In A Career In Financial Consulting

Triage Consulting Group will be attending the Cal Poly Career Fair on October 12, 2005, from 10:00 AM - 3:00 PM in Chumash Auditorium.

For those of you who are not familiar with our company, we are a San Francisco-based financial consulting firm with a focus in the healthcare industry. Come visit us at the Career Symposium to find out exactly who we are, what we do, and what type of candidates we are looking to hire. Last year we hired 75 new associates and we are looking to hire 60 this recruiting year. We strongly encourage all interested juniors and seniors to attend since we are offering both career and internship positions.

If you have any questions contact Natalie Klotsche: Nataliek@triageconsulting.com

Asymtek

Asymtek, a world leader in automated fluid dispensing, design and manufactures a full line of equipment for semiconductor package assembly, printed circuit board assembly, opto-electronics assembly, and precision industrial manufacturing. Our mission is to maintain a leading role in dispensing technology by consistently providing innovative, quality solutions that exceed our customers' needs and expectations.

Bamboo Pipeline

Bamboo Pipeline is one of Southern California's fastest growing green goods businesses. We serve landscape professionals throughout the Southland with the highest quality materials needed to build great landscapes at quality homes and commercial sites. Our materials are sold to some of the most prestigious commercial sites. Our materials are respected for superior products and quality materials needed to build great residential and commercial customers throughout the state. The Sales Representatives are provided with outstanding support: the award-winning marketing department and positive name recognition, the telemarketing department provides leads, and the Sales Coordinator provides administrative support.

Bay Alarm Company

Bay Alarm Company is a 60-year old statewide company highly respected for superior products and client services. We have 80,000 residential and commercial customers serviced by branches in Anaheim, Boulder, Martinez, Oakland, Petaluma, Redwood City, Santa Clara, Stockton, Van Nuys and Ventura. We sell and install fire, burglar, CCTV, and card access electronic security systems in homes and businesses throughout the state.

Caltrans

The California Department of Transportation (Caltrans) strives to be the highest performing transportation agency in the country. Caltrans has more than 23,000 employees with an annual budget of $10 billion. Headquartered in Sacramento, the Department has 12 district offices situated in Eureka, Redding, Marysville, Oakland, San Luis Obispo, Fresno, Stockton, Bishop, Los Angeles, San Bernardino, Irvine, and San Diego.

Chevron

Chevron is a World-Wide Energy Corporation. See our website at www.chevron.com and a complete overview of the corporation.

Cintas

Cintas is the leader in corporate identity uniforms programs, helping companies of all sizes consistently present a clean, crisp, professional look. We also have specialized flame resistant garments and garments for cleanroom environments. In addition to offering the largest variety of uniform colors and styles in the industry, our Facility Services group helps our customers keep their businesses looking clean and professional with floor mats, restroom supplies, towels, and shop covers. Our floor mats, which can be customized with corporate logos, check dirt at the door while reducing slips, falls and floor cleaning costs. We handle all of the details so our customers don't have to.

Cisco Systems, Inc.

Cisco Systems, Inc. is the worldwide leader in networking for the Internet. Today, networks are an essential part of business, education, government and home communications, and Cisco Internet Protocol-based (IP) networking solutions are the foundation of these networks.

Clark Construction

Founded in 1906 and headquartered in Bethesda, MD, Clark Construction Group, LLC is a premier provider of construction services. Public and private clients capitalize on Clark's extensive management, development and construction experience. From museums to power plants, and dams to laboratories, Clark's resources meet the unique challenges of a variety of project types. Consistently ranked among the top constructors in the nation, Clark's current annual revenues are approximately $2 billion.

Coastland Civil Engineering

Coastland Civil Engineering, founded in 1991, specializes in providing municipal and civil engineering services to governmental agencies in Northern California. Clients include municipalities, counties, utilities, schools and other public agencies. In addition to Municipal Engineering, our professional services include Construction Management, Building Department, see Directory, page 8
Attention Business & GRC Majors

Largest Derivate Companies in

EMC

EMC Corporation is the world leader in information storage systems, software, networks, and services that store, protect, move, manage, and access the explosion of content. EMC solutions are enabling enterprises of all kinds to unite information as one resource, harness it as one source of value and leverage it as one asset to reach the goals of the organization. If you strive in a challenging, results-oriented, and rewarding environment take a closer look at EMC Corporation. Team up with the world leader and achieve your own ambitious goals!

Enterprise Rent-A-Car

Enterprise Rent-A-Car is the largest rental car company in North America. It operates more than 700,000 Rental and Fleet Services vehicles worldwide and has annual revenues of $7.4 billion. Last year, Enterprise opened more than 300 new locations, increasing its total locations to more than 6,000 with offices in the United States, Canada, Germany, Ireland, and the United Kingdom. Enterprise is currently number 16 on the Forbes "500 Largest Private Companies in America" list.

Family Care Network, Inc.

The Family Care Network, Inc. (FCNI) is the largest private provider of children’s mental health and social services on the California Central Coast. Over 1200 children, youth and families are served annually through 12 unique evidence-based programs in five service divisions: Alternative Family Services, Family Support Services, Delinquency Prevention Programs, Transitional Housing & Special Programs. FCNI serves the community through multiple collaborative partnerships with numerous governmental, not-for-profit, community-based organizations, schools, churches, local businesses and volunteers.

Fasental

Fasental is the fastest growing industrial supplier in North America with over 1600 locations across the United States, Singapore, Canada, Mexico, Puerto Rico, and the Netherlands. Sales in 2004 were 1.3 billion with a growth plan to achieve 3 billion by 2008. Please view our financials on our website at www.fasental.com. We have experienced over 20% growth since we opened in 1967. There is tremendous opportunity for advancement with Fasental as we continue to open new locations.

Fehr & Peers

Fehr & Peers has specialized in transportation planning and traffic engineering for 20 years. Here are some of the reasons Fehr & Peers is a respected leader in transportation consulting: Other major engineering and planning firms seek our help to solve difficult transportation problems. Many Fehr & Peers engineers and planners hold leadership roles in the industry’s most prestigious organizations.

Ferguson Enterprises, Inc.

Ferguson is the country’s largest wholesale distributor of construction materials including plumbing, pipes, valves and fittings, waterworks, and heating and air conditioning products. We buy from quality manufacturers and sell to residential and commercial contractors, developers, plumbers, industrial clients, as well as the general public. Ferguson has sales of over $7 billion and over 16,000 associates in about 973 service centers located in 50 states, the District of Columbia, Puerto Rico, and Mexico.

Flowserve Corporation

Flowserve is the recognized world leader in supplying pumps, valves, seals automation and services to the power, oil, gas, chemical and other industries. With more than 14,000 employees in more than 56 countries, we combine our global reach with a local presence.

Fluor Corporation

Fluor Corporation is one of the world’s largest publicly owned engineering, procurement, construction, and maintenance services organizations. Rated as one of the world’s safest contractors, Fluor’s objective is to develop, execute, and maintain projects on schedule, within budget, and with excellence. Fluor maintains offices, with over 30,000 total employees internationally, in more than 25 countries. Fluor is a FORTUNE 500 company. Over the past six years, Fluor has ranked No. 1 four times on FORTUNE magazine’s America’s Most Admired Companies list in the Engineering & Construction.

Foster Farms

Foster Farms is the largest poultry industry in the West. It has been a family-owned and operated company for four generations. Since our founding days back in 1939, we have always been committed to providing consumers with the highest-quality, best-tasting poultry products available. We are an equal opportunity employer.

Frito-Lay North America

Frito-Lay North America is a leader of fun food products with production operations in over 40 locations throughout North America. Frito-Lay produces some of your favorite fun food items from solid brands that include Doritos, Fritos, Rold-Gold, and Tostitos. Frito-Lay is a division of PepsiCo, a world leader in snack foods and beverages, with revenues of about $32 billion and over 143,000 employees. PepsiCo brands are available in nearly 200 countries and territories.

Gap Inc.

It was the summer of 1969: Man took his first "walk on the moon. Nearly 450,000 people gathered in upstate New York to witness the historic Woodstock concert. And Doris and Don Fisher opened the first Gap store in San Francisco. Today, Gap Inc. is one of the world’s largest specialty retailers, with about 3,000 stores and fiscal 2004 revenues of $16.3 billion.

General Atomics Aeronautical Systems, Inc.

General Atomics Aeronautical Systems, Incorporated (GA-ASI) is among the leading technology employers in the San Diego area and the world leader in the design, development and manufacture of unmanned aircraft surveillance systems (UAVs) and associated hardware. In addition to a challenging and rewarding work environment, GA-ASI offers competitive salaries and a comprehensive benefits package including medical and dental insurance, Life/AD&D insurance, disability insurance, a 401k Plan, a defined benefit retirement plan, recreation facilities, and other benefits.

Graphics Microsystems

GMl manufactures precision automation equipment for precise color measurement and ink control. We combine expertise in mechanical design, digital electronics, electro-optics and software engineering to offer integrated, upgradeable solutions for the successful color management on most sheetfed or web presses. GMl is headquartered in Sunnyvale, California, with offices in Rockwall, Texas and Mechanical, Belgium.

Software was the first company to apply mainframe optimizing compiler technology to 32 bit microprocessors. Since 1982, Green Hills Software has developed optimizing compilers and related tools for 33 bit microprocessor architectures. Green Hills Software continues to develop compilers for today's new architectures as well, such as the Motorola StarCline, PowerPC, AliVec, ARM/M6, and MIPS 4kc and 5kc.

Growers Express

Growers Express was founded in 1987 by eight partners, farmers who all believed in a few simple values: producing our own premium quality products, consistent supply and superior service. Our partners have taken three generations of knowledge and respect for the land and have developed it into one of the nation's largest suppliers of fresh vegetables. Headquartered in the Salinas Valley, our total year-round ground base exceeds 40,000 acres.

Guidant Corporation

Guidant Corporation and its subsidiaries provide therapeutic medical solutions for customers, patients, and healthcare systems worldwide. The company develops, manufactures and markets products that focus on the treatment of cardiac arrhythmias, heart failure and coronary and peripheral disease, including implantable defibrillator systems, implantable pacemaker systems, coronary stent systems, angioplasty systems, cardiac surgery systems and peripheral systems.

Halliburton Energy Services

Founded in 1919, Halliburton leads the world providing products and services to the petroleum and energy industries. With a workforce of over 92,000 employees, operations in over 100 countries, and revenues of $12.5 billion in 2002, Halliburton is a global leader in energy services, engineering, and construction. Wherever energy resources are being discovered, drilled, extracted, produced, or refined, from dense jungles to deepwater wells, chance are Halliburton's people are working, sharing, contribution, and creating value for our customers, our shareholders, our employees, and our world. Halliburton is the only company that can do it all from start to finish on land or at sea.

Hilti, Inc.

Hilti is virtually everywhere construction is taking place. From our legendary red tool cases and vehicles to our innovative products and value-added services, Hilti can be found on construction and building maintenance sites in more than 100 countries around the world. Professionals in the building maintenance, construction, electrical and plumbing industries continue to rely on Hilti for high-quality tools and products as well as system solutions for their construction and maintenance needs.

Hilti, Inc. is at Albert's Organics is the largest wholesale distributor of Organic Produce and other fine Perishable Products in the United States. For over 22 years, Albert's has been the leader in the distribution of fresh Organics and has developed extensive vendor and industry relationships while continually striving for excellence in product quality, temperature control logistics, delivery speed and above all, customer service. As a wholly owned subsidiary of United Natural Foods, it is well positioned to continue to lead the growth of Organic and Natural perishables in this rapidly growing category.

We want you to join our Nursery Professional Team

I'm Greg. I am a lead buyer with Bamboo Pipeline. I work to supply the highest quality plant material in California for quality landscape projects. We offer the broadest and best selection of landscape materials delivered direct to the contractor's jobsite.

My colleagues and I visit hundreds of growers across the West to deliver the best plants currently available - a concept we call "Market Best." We supply more than 10,000 varieties of plants, trees, and shrubs, frequently delivered within 24 hours of order.

We also supply thousands of irrigation, drainage, outdoor lighting and other landscape supply items to complete the project list.

We are looking for top-notch nursery professionals to join our team based in Camarillo, California. Our Buyers and Account Specialists have outstanding plant knowledge and strong computer and communications skills. Experience working in a nursery environment or in a wholesale/retail green industry distribution business is a plus. We offer excellent salary and great benefits.

Become a part of the Bamboo Pipeline Team.

CAREER FAIR
14 Tuesday, October 11, 2005

Directory continued from page 13

diverse and experienced staff offers independent engineering services in Architectural lighting design, electrical systems design and LEED.

Ingersoll Rand Company
For the past 100 years, Ingersoll-Rand people and products have contributed to the advancement of global industry and commerce, and as a result, have played a key role in worldwide economic development and social progress. Some of the world's greatest engineering achievements were built using our products - the New York City subway system, Panama Canal, China's Three Gorges Dam, Mt. Rushmore and more.

Internal Revenue Service
The Internal Revenue Service is the largest bureau within the Department of the Treasury. The mission of the Internal Revenue Service is to provide America's taxpayers top quality service by helping them understand and meet their tax responsibilities and by applying the tax law with integrity and fairness to all.

Investors Bank & Trust
Welcome to Investors Bank & Trust, a financial services company committed to providing the best securities processing services in the world. Investors Bank & Trust specializes in fund administration and accounting, custody, and transfer agency services. We specialize in securities processing. And we're one of the best in the business in meeting the back office needs of mutual fund companies, banks, investment managers and insurance companies.

J.M. Smucker Company
J.M. Smucker Company is the nation's leading producer of jams, jellies, preserves and ice cream topping products - the New York City sub-

Kiewit Pacific Co.
Founded in 1884, Kiewit has grown from a small masonry-contracting firm to a Fortune 500 company with more than 15,000 employees and $3.4 billion in revenue. Kiewit is involved in nearly all segments of the construction industry and currently is North America's second largest transportation construction; building projects such as airports, mass transit systems, railroads and tunnels. The company also is leader in commercial buildings, power plants, water supply and treatment facilities, underground construction, telecommunications and many other types of heavy construction projects.

Kraft Foods
Kraft Foods (NYSE: KFT) is a global leader in branded foods and beverages with 2004 net revenues of more than $32 billion. Built on more than 100 years of quality and innovation, Kraft has grown from modest beginnings to become the largest food and beverage company headquartered in North America and second largest in the world, marketing many popular brands in more than 155 countries.

Lam Research
Founded in 1980, Lam Research Corporation is a leading supplier of wafer fabrication equipment and services to the worldwide semiconductor industry. The Company's innovative etch technologies empower chipmakers to build the world's highest-performing integrated circuits. Lam's etch systems shape the microscopic conductive and dielectric layers into circuits that define a chip's final use and function. The Company also offers wafer generation wafer cleaning solution, which employs proprietary technology, and can be used throughout the semiconductor manufacturing process, including in post-chemical mechanical planarization (CMP) and pre- and post-chemical vapor deposition (CVD) applications.

The Keith Companies
The Keith Companies specializes in the design, manufacture, installation, and consulting services company. The Keith Companies professionals provide a wide spectrum of skilled resources including land planning, civil engineering, surveying, mapping, environmental and water and cultural resources that are needed to effectively plan, engineer, and design state-of-the-art facilities. The Keith Companies benefits from a diverse public and private client base varying from residential, commercial, and real estate projects, institutional, manufacturing, and processing facilities. Our team-oriented environment offers an opportunity to grow your career!

Keyence Corporation
Keyence (www.keyence.com) is a global leader in industrial automation and medical technologies. We are listed in Business Week's Global 1000 Most Valued Companies in the world and on Nikkei Index Top Ten Companies in Japan. Keyence has experienced rapid growth of 30% annually since its beginnings in 1974. We offer extensive training to qualified individuals who are seeking a career in Sales and Territory Management. Our career development program trains our professionals to be experts on our products and to be highly regarded in our industry by our customers for solution based sales.

Moore Wallace, a R.R. Donnelley company, is the largest printing company in North America, providing customers with the industry's broadest array of print products and services, from magazines, books, catalogs, and financial documents, to billing statements, highly personalized direct mail, labels, collateral materials, forms and logistics services.

National Semiconductor

National Semiconductor Corporation engages in the design, development, manufacture and marketing of a range of semiconductor products, which are analog and mixed-signal integrated circuits. National Semiconductor was founded in 1959 and is headquartered in Santa Clara, California.

Naval Air Systems Command

The Naval Air Systems Command (NAVAIR) serves the nation and the Navy by providing advanced warfare technologies to American interests around the world. In its quest to be the best, NAVAIR is always on the lookout for those willing to embark on an exciting new career. Over 26,000 NAVAIR employees work hard in hand to deliver advanced Naval aviation technologies. The talented team of business and technical professionals research, design, develop and test aeronautical and aeronautical-related systems. NAVAIR's products include state-of-the-art sensors, aircraft, support facilities, training, launch and recovery equipment, and communications technology.

Neil O. Anderson & Assoc.

Neil O. Anderson & Assoc., Inc. is a dynamic, successful, geotechnical engineering firm located in Walnut Creek.

Nordhoff Gruman Corporation

Northrop Grumman Corporation is a global defense company headquartered in Los Angeles, Calif. Northrop Grumman provides a broad array of technologically advanced, innovative products, services and solutions in systems integration, defense electronics, information technology, advanced aircraft, shipbuilding, and space technology. The company has 125,000 employees and operates in all 50 states and 25 countries and serves U.S. and international military, government and commercial customers.

Nortwestem Mutual Financial Network

The mission of Northwestern Mutual Financial Network is to develop enduring relationships with our clients by providing expert guidance for a lifetime of financial security with the help of our Network of Specialists and staff. We provide innovative solutions using Northwestern Mutual products. Mutual Financial Network is the exclusive sales and distribution arm of Northwestern Mutual and its subsidiaries and affiliates.

Novellus Systems

Novellus Systems is an S&P 500 company and a component of the Nasdaq-100 Index®. It is a leading supplier of thin film deposition, surface preparation and chemical mechanical planarization (CMP) systems used in the fabrication of integrated circuits. The company is designed to deliver innovative products and technologies that meet the increasingly complex and demanding needs of the world's largest semiconductor manufacturers.

O'Dell Engineering

Full service civil engineering and land surveying firm, also providing landscape architecture and planning services.

PG&E

The key to our success is our employees. We take tremendous pride in our people. At home or on the job, our employees represent PG&E's commitment to providing safe, reliable energy to our customers 24 hours a day 7 days a week. And, just as they are committed to providing excellent customer service, we are committed to providing our employees with the tools and training to help them succeed. PG&E is here for you.

Palm, Inc.

Palm, Inc. (formerly palmOne, Inc.) – a leader in mobile computing – strives to put the power of computing in people's hands so they can share their most important information. The company's product include smartphones under the Treo(TM) brand, mobile managers under the LifeDrive(TM) brand, handhelds under the Handspring(TM) and Visor(TM) brands, as well as software and accessories. More information about Palm, Inc. is available at http://www.palm.com.

Panda Restaurant Group

At Panda, you will experience a culture dedicated to serving our guests and providing delicious Chinese food 24/7. We are committed to developing our team as the best and support our employees with the tools and training to help them succeed. PG&E is here for you.

Parsons

With over 9,000 employees worldwide, Parsons is one of the world's leading engineering, planning and construction management companies. Parsons has established an outstanding performance record over many decades and our employees have worked on major projects throughout North America and in the United Kingdom. We are committed to continually enhancing our organizational capability by investing in training and developing exceptional talent.

Pepsi Bottling Group

The Pepsi Bottling Group is the world's largest manufacturer, seller and distributor of Pepsi.
When we asked our employees why they thought Wood Rodgers was the fastest growing engineering firm west of the Rockies, what do you think they said?

- Management gives us a lot of autonomy and respect.
- The owners have a 'shar e the wealth' mentality.
- We have lunchtime basketball.
- Everybody is bowling in the same direction.
- It’s a very employee-friendly place.
- It’s a young, energetic company.
- The work is exciting and varied.
- We have fun recognition programs like Spin the Wheel.
- Our customers keep coming back for more.
- We have all you can eat lunchrooms.
- It’s versatile and diversified even within each discipline.
- Management is flexible with work/life issues.
- The people are just good people.
- All of the above!

To learn more about our fantastic opportunities and the superb benefits of working at Wood Rodgers, navigate online to www.woodrodgers.com or email hr@woodrodgers.com.

One Of Placer County’s Fastest Growing Civil Engineering Firms Is Hiring

RSC Engineering is looking for employees who want to be an integral part of our successful team. We currently have openings for engineers and planners, who want to be exposed to a broad range of projects.

Building personal and professional growth is what we aim for with all our employees. We encourage self-discipline and teamwork. The work our engineers complete typically qualifies them for the requisite experience for the PE exam.

Please visit us at the job fair on Thursday, October 13, 2005.

Shaw Industries
Shaw, a subsidiary of Berkshire Hathaway Inc., manufactures and sells floor covering for residential and commercial applications throughout the United States and exports to most markets worldwide.

To be exact, we manufacture more than 600 million square yards of floor covering every year — enough to wrap a 6-foot wide path around the earth's equator 7 times.

Shinnick Construction
Established in 1990, Shinnick Construction Company, Inc. (SCCI) is a general engineering/heavy civil contractor based in Hayward, CA. SCCI has completed over one billion dollars worth of work and has rapidly succeeded in earning a reputation for excellence in heavy construction. This was achieved by following its founders, John C. Shinnick and Mike Stranberg's, simple yet effective business philosophies of: 'Get work for the right price, construct high-quality projects on or ahead of schedule and complete the projects within budget' and, above all, 'Make It Happen'. (SCCI's company motto). A recent list of clients includes: Golden Gate Bridge Authority, Los Angeles Metropolitan Transportation Authority, Caltrans and San Francisco Municipal Transportation Agency. Over the years the Company has developed a reputation for completing high quality projects while maintaining rigorous schedules and ensuring that safety be given a top priority.

Siemens
Siemens is a technology company committed to developing a portfolio of innovative global products, services and solutions. Siemens Energy & Automation, Inc. (SE&A) is dedicated to providing an environment that will allow the 'opportunity to learn, grow and drive personal and professional value throughout one's career. Siemens Energy & Automation, Inc. (SE&A)

Southern Wine and Spirits
Southern Wine and Spirits' history began decades ago in Florida. Founded by Harvey Chaplin, Southern Wine & Spirits of America, Inc. is a privately held alcoholic beverage distributorship with its corporate office in Miami. Since being founded SWS has established distributorships across the nation. It is currently the largest distributor of wines and spirits in the United States and its impressive portfolio of products includes wines, spirits, beers and non-alcoholic beverages.

Sprint
Sprint is a global integrated communications provider serving more than 26 million customers in over 100 countries. With approximately 80,000 employees worldwide, and nearly $27 billion in annual revenue, Sprint is widely recognized for developing, engineering and deploying state-of-the-art network technologies, including the United States first nationwide all-digital, fiber-optic network and an award-winning Tier 1 Internet Backbone. Sprint provides local voice and data services in 18 states and operates the largest 100-percent digital, nationwide PCS wireless network in the United States.

SRI
SRI is a nonprofit corporation founded in 1946 and chartered by the state of California. As an institute dedicated to diversified scientific and engineering research and development, SRI performs client-sponsored research for industry, government, and foundations in the United States and abroad. Research is conducted in engineering technologies and systems, pharmaceuticals and biotechnology, chemistry, physics, advanced materials, computing and information sciences, environmental and atmospheric sciences, education, health sciences, and economic development.

Stantec Consulting, Inc.
Headquartered in Prince George, British Columbia, Stantec Consulting, Inc. is a multi-disciplinary consulting engineering and design firm with a 75-year history of serving public and private clients throughout the world. Stantec provides civil engineering, landscape architecture, environmental planning, land use planning, surveying and geomatics, transportation engineering, institutional planning, open space planning, land use planning, surveying and geomatics, transportation engineering, institutional planning, open space planning

Entry-Level Opportunities

In this junior level management position that offers individuals with limited experience in construction the opportunity to learn hands on estimating, management and commercial construction practices.

Project Engineers are typically assigned to one large or two medium sized projects. They split their time between our main office and the job site as necessary to meet the demands of their projects. In the office, Project Engineers assist with quantity take-offs, bidding and estimating.

They also assist project managers with tracking of contract documents and resolving field-generated questions. At the jobsite, Project Engineers are responsible for learning safe construction practice, documentation changes, tracking schedules, overseeing subcontractors and assisting the project superintendent with record keeping. They also participate in job site coordination meetings.

Our intent is to expose Project Engineers to all aspects of a construction project by giving them significant level of responsibility. They are not limited to a specific group of tasks.

CAHILL CONTRACTORS, INC.
PROJECT ENGINEER POSITION

Cahill Contractors, Inc. is a San Francisco based medium sized commercial construction company. We specialize in fast track / phased development projects, multi-unit residential projects and seismic rehabilitation.

Cahill Contractors, Inc. is an equal opportunity employer. We offer our employees generous compensation and benefit packages including top salaries, profit sharing and full health and dental coverage.

This is a junior level management position that offers individuals with limited experience in construction the opportunity to learn hands on estimating, management and commercial construction practices. The ideal candidate for this position is motivated, organized, possesses excellent communication skills, and is eager to learn.

Project Engineers are typically assigned to one large or two medium sized projects. They split their time between our main office and the jobsite as necessary to meet the demands of their projects. In the office, Project Engineers assist with quantity take-offs, bidding and estimating.

benefits and the experience of a lifetime.

USG Corporation

USG CORPORATION For almost 100 years, Chicago-based USG has been a leader in producing innovative products and systems to build the environments in which we live, work and play. USG is the world's leading producer of gypsum wallboard, joint compound and a vast array of related construction products. We are also the global leader in the manufacture of ceiling suspension systems and are recognized as the acoustical panel and specialty ceiling systems innovator.

Our family of products provides extensive building solutions that set new standards for productivity and efficiency, helping contractors and suppliers deliver high quality and innovative designs.

USG Posco Industries

A world-class steel manufacturer located in Pittsburg, California. USG-POSCO Industries was founded in 1969 as Columbus Steel. We are now a joint venture company established in 1986 between U.S. Steel and POSCO Industries of Jeju in Republic of Korea. One of the most modern steel mills in the world, USG-POSCO ships over 6,000 tons of steel per day to customers primarily in the Western United States, Canada and the Pacific Rim.

Valero Energy Corporation

Valero has been recognized as #22 on Fortune Magazine's 100 Best Companies to Work For in 2004 and as one of IndustryWeek's 100 Best Managed Companies in the world. We are proud to be the first refinery to win the Governor's Award for Environmental Excellence in Texas and to be one of nine US companies to receive the Points of Light Award for Excellence in Corporate Community Service.

Valleymont Companies

Our four Business Units operate through a national network of branch offices, providing a full array of landscape services to a wide variety of customers. In addition to veterinary and retail businesses, Valleymont Companies has one wholly owned subsidiary, U.S. Lawns, a national landscape franchise business. With more than 50 years of experience, no landscape company in America can claim greater depth of expertise or a more comprehensive track record of effective problem-solving and consistent execution.

Vesi Sign Inc

Vesi Sign Inc. (NASDAQ: VESN) operates intelligent infrastructure services that enable people and business to find, connect, secure, and transact across today's complex, global networks. Every day, we enable over 14 billion internet interactions, 3 billion telephony interactions, and $100bn of e-commerce. We also provide the services that help over 3,000 enterprises and 400,000 Web sites to operate securely, reliably and efficiently.

VisaSat, Inc.

VisaSat produces advanced digital wireless communications and signal processing products for commercial and government markets. Our technology development and products all involve digital communications and cover specialties such as satellite communications, tactical communications, network security and communications simulation and training.

Walgreens

Walgreens, the nation's premier retail drugstore, has opportunities nationwide. With 7,700 stores planned by the year 2010, we're creating opportunities for talented, ambitious individuals to be rewarded and contribute to future success. So, if you're a motivated, enthusiastic, people-oriented person with a knack for organization and who thrives in the fast-paced world of retail management, we want to talk to you.

Wells Fargo Financial

Wells Fargo (NYSE: WFC) is a diversified financial services company providing banking, insurance, investments, mortgage and consumer finance from 5,800+ stores, over 1,600 Wells Fargo locations and 4,500 Wells Fargo ATMs in the world's leading banking and financial markets (www.well Fargo.com) and other distribution channels across North America and elsewhere internationally. We're headquartered in San Francisco, but we've decentralized so every local Wells Fargo store is a headquarters for satisfying all our customers' financial needs and helping them succeed financially. Wells Fargo has $370 billion in assets and 136,000 team members. We are one of the United States' top 40 largest employers. We ranked fourth in assets and third in market value of our stock at March 31, 2003, among our peers.

Workbrain, Inc.

Workbrain provides Web-based software to optimize the deployment and management of large workforces. Customers such as Loes's International Steel Group, J.B. Hunt have chosen Workbrain solutions to automate workforce planning, scheduling, time and attendance, employee self-service and business intelligence. Workbrain delivers fast return on investment to clients in focus industries such as retail, manufacturing, transportation, healthcare, financial services, and law enforcement. The company employs over 660 employees in 26 offices in the United States, Canada, Australia and the UK.

WorkParsons

Global supplier of engineering and construction design services for the petrochemical and power industries. Primary offices in Houston, TX, Atlanta, CA, Reading, PA, and London, UK. A WorkParsons Company.

York International

York is a Fortune 500 company formed in 1874 in York, Pennsylvania. Focused exclusively on the HVAC&R industry, with over 23,000 employees in over 100 countries. York designs, manufactures, sells and services commercial air conditioning systems, industrial refrigeration systems, residential and light commercial heating and air-conditioning systems and compressor technology for residential and commercial air-conditioning.
Places to pick the perfect pumpkin

Many Cal Poly students are preparing for Halloween by decorating their homes with pumpkins. Some go to the same spots every year to buy their pumpkins, while others buy to support local farmers.

"I'm either buying my pumpkins from the Vista farmers market or at a patch just off of Los Osos Valley Road," graphic communication senior Nicole Krause said. "I love Jack-o'-lanterns in my house for ambiance."

"I leave the pumpkin picking to my girlfriedn," Lambert said. "She already purchased them from Avila Valley Barn.

"Last year I bought them from Albertsons, so that's what I'm probably going to do this year, too," McGuck said.

But in case you're still looking for the perfect spot to pick a pumpkin, here are a few local pumpkin patches that offer more harvest activities for your buck. Here are three nearby spots that are currently selling pumpkins:

Want to support other Cal Poly students? Then visit Cal Poly U-Pick. This patch is located on farm 25 and is open every Saturday from 10 a.m. to 2 p.m. through the end of October.

Cal Poly U-Pick features a corn maze and pick-your-own gourds. Pumpkins range from $1 to $5. They will also have a haunted corn maze Oct. 30.

Want another way to support Cal Poly? Buy your pumpkins at the student Farmers' Market in Sierra Vista. The market is held every Monday from 4:30 to 6:30 p.m.

When a regular pumpkin excursion just won't do, Avila Valley Barn provides hay rides, fruit and vegetable stands, roasted corn and a difficult adult hay maze.

The farm offers a wide selection and is open from 9 a.m. to 6 p.m. Pumpkins cost 25 cents per pound. Avila Valley Barn is located at 560 Avila Road. Call 995-2366.

For those who like to mix pumpkins and ponies, La Familia Ranch is just off U.S. Highway 1 in San Luis Obispo and offers a baby animal farm and petting zoo, along with a traditional pumpkin patch. The Ranch is open until dusk through Oct. 31.

La Familia Ranch is located at 4757 Los Osos Valley Road. Call 544-6142.

"I don't know where to get them around here, but I saw some huge ones driving through Paso," Lucky said.

"Cal Poly has a sign out on Highland, they're selling pumpkins."

Pick up tomorrow's Mustang Daily for a guide on how to carve your pumpkin into a spooky jack-o'-lantern.

Salsa censorship attacks First Amendment rights

The censoring of the Cal Poly Salsa Club appalls me. To cover a poster with clothing that is ridiculous. I fully agree with Billy Chenoweth when he says it is not illegal to include a picture in the First Amendment, Freedom of Expression.

Charlie Roberts is a beautiful woman, and she has no problem with the picture, why should anyone else? I found that the poster attacked the curiosity of many people and the results were phenomenal. But for people to be offended is ridiculous. Why not censor Maxis, or FHM? They show the same. If not more than, than the club poster ever showed. God forbid you see a little cleavage on a poster, as if you don’t see a little cleavage on a poster that is printer paper-sized is ridiculous. I fully agree with Billy Chenoweth when he says it is not illegal to include a picture in the First Amendment, Freedom of Expression.

Football continues upward trend, No. 6 in ESPN/USA Today poll

Cal Poly is one position away from its highest ranking ever in Division I-AA football.

Cal Poly climbed three positions to No. 6 in both the NCAA Division I-AA polls following its 37-6 victory over then-No. 12 North Dakota State on Saturday in Mustang Stadium. The Bison fell to No. 19 in the two polls.

Cal Poly was ranked as high as No. 5 in the 2004 polls, winning its first seven games before suffering back-to-back losses to UC Davis and Eastern Washington. Prior to the 2004 season, Cal Poly’s highest ranking was No. 14 after winning its first three games of the 2003 season. Cal Poly was ranked No. 16 in the final poll of the 1997 season, finishing 10-1.

The Mustangs were ranked 17th in both 2005 preseason polls after a 38-10 victory over then-No. 11 Montana State on Sept. 17, Cal Poly climbed to No. 12. The Mustangs opened defense of their Great West Football Conference title with a 24-16 victory at South Dakota State on Sept. 24 and jumped to No. 10 in the polls, then climbed one more position to No. 9 following their 31-14 triumph at Northern Colorado.

Beside No. 2 Montana and No. 18 North Dakota State, other Cal Poly opponents in the rankings this week include No. 8/9 Montana State and No. 12 Eastern Washington. Idaho State dropped out of the top 25 after falling 32-10 to Montana on Saturday.

The initial Great West Football Conference Power Index (GPI) was released by 1-AA.net last week. The BCS-style rankings placed Cal Poly No. 4 with a 7.67 score. New Hampshire was No. 1, followed by North Dakota State, Appalachian State, the Mustangs and, tied for No. 5, Montana and James Madison.

Cal Poly has a bye this week and visits Montana for a 12:03 p.m. Pacific kickoff on Saturday, Oct. 22, in Missoula, MT.

The ESPN/USA Today Division I-AA Top 25 college football coaches poll, with number of first-place votes, record in parentheses, total points and last week ranking (records through Oct. 8, 2005):

Women's soccer overcomes Anteaters in Irvine

MUSTANG DAILY STAFF REPORT

Cal Poly rebounded from its 4-2 loss at Long Beach State Friday to knock off UC Irvine 2-1 at Anteater Stadium Sunday.

Fueled by goals from senior Becky Clark and junior Heidi McQuitty, Cal Poly improved to 9-2-3 overall and 1-1 in Big West Conference play.

"It was a tale of two halves," coach Alex Crozier said at a news conference Monday.

Crozier said that the first half was one of the best the team had played and that the second half was one of the worst.

Clark got the scoring started in the 17th minute as teammate Sarah Squires lofted a free kick to Clark near the goalpost and (dark rilled it.

McQuitty, Cal Poly improved to 9-2-3 overall and 1-1 in Big West Conference play.

Squires lofted a free kick to Clark in the 46th minute. Cal Poly's Alix Cohen sent a free kick into the Irvine's box, setting up McQuitty for her first goal of the season.

"I was able to use my advantage to score the equalizer," McQuitty said of her second goal. "I was able to get in front of a couple of Irvine players and take on the goalie, it ended up being an easy shot to score."

But Irvine tied the game in the 50th minute on a shot from senior Rosie Aguilera.

"It was a tale of two halves," coach Alex Crozier said at a news conference Monday.

"In the first half, we dominated and created a lot of chances," Crozier said. "In the second half, Irvine put in a strong performance."

"We were able to weather the storm and come out with the win," Crozier said.

Irvine couldn't muster enough offense to score the equalizer. Cal Poly's defense clamped down on Irvine in the second half.

"I n the second half, we improved our defense and capitalized on our chances," Crozier said.

"It's going to allow someone to do well in school as well."
